CIVIL ESTABLISHMENT

OF

THE COLONY OF THE FALKLAND ISLANDS AND ITS DEPENDENCIES.

FOR THE YEAR

19 32.

Insert the several Establishments of Government, arranged according to the classification in the Estimates, including every individual employed, with all the particulars specified in the several columns of the Return relative to the nature of their Duties, their Emoluments, Length of Service, &c. It is important that the full Christian Names should in every case be given.

The table should be followed by an Alphabetical List of all the Officers, showing the Page in which their Office is described.

Under "Remarks" should be explained the nature of the duties performed by those Officers the designation of whose Office does not sufficiently explain the functions attached to them.

The names of permanent holders of Offices alone are to be inserted in the columns. If an office has been filled during the year, or any portion of it, by an acting officer, the fact may be noted in the space for "Remarks".

THE DEPENDENCIES															

The Dependencies consist of all land between longtitude 20 degrees west and 50 degrees west south of latitude 50 degrees south and between longitude 50 degrees west and 80 degrees west south of latitude 58 degrees south. These boundaries include a sector of the antarctic land area to the south and east of Cape Horn and a considerable number of islands, the principal of which are South Georgia, the South Shetlands Islands, the South Orkney Islands and the South Sandwich Islands.

South Georgia has a fluctuating population engaged in whaling industry, estimated in 1933 during the period operations were being conducted at 650, and at Laurie Island in the South Orkneys group there is a meteorological station at which four persons are usually resident. The other areas are uninhabited save for the seasonal influx of whalers which takes place between the months of September and May.

At South Georgia two deaths and one marriage were recorded in 1933.

PORT AND HARBOURS.

STANLEY HARBOUR.

Port William, which includes Stanley Harbour is entered between William Point on the north and Cape Pembroke on the south, both of which are marked by lights. A further smaller light bearing 89 degrees west (true) leads up Port William.

The entrance to the inner Harbour in the south-west of Port William is a little more than 250 yards wide between Engineer Point on the east and Navy Point on the west. The minimum navigable depth at the entrance (L.W.O.S.T.) is 27 feet. Two Beacons and a rock painted white on the south shore when in line bearing 179 degrees clear the Fourth Shoal, lying about 400 yards west of Tussac Point, and lead through the Narrows. Harbour lights are established on Navy and Engineer Points.

Berthing accomodation. Inside the inner Harbour vessels drawing up to 20 feet have plenty of room to anchor in mid-channel in about 4½ to 5 fathoms of water. There are four Jetties with a depth of 10 to 14 feet at which vessels up to 150 feet in length can berth.

Tides. The rise and fall of tides is very much affected by wind and weather. The difference varies from 7 feet at ordinary spring tides to 5½ feet at ordinary neaps.

There are no dry docks. A floating dock with a lifting capacity of 750 tons and capable of taking vessels 200 feet in length and drawing 15 feet was completed and launched in 1938. No operations are in progress to increase the depth of water within Harbour limits.

AIR SERVICES.

(a) Returns of Aircraft arriving and departing.

(b) Air Transport Services.

(c) Air Ports (sea-plane bases and aerodromes).

(d) Licences and Certificates.

(e) Imports and Exports by Air.

At the present stage of the Colony's development there are no Air Services of any description.
