Statement of C. Melville
Harbourmaster & Pilot —

I saw the signal flying for a "Ship from the North" & went down at once — When I first ~~saw~~ the "Alexander" she was standing in — I went ashore on Ordnance Point & looked — no signal was up for a Pilot The Captain tried to go about outside the Point — the ship missed stays — The Captain reached on again & came ahead of the point then they let go the anchor. Ordnance Point is the inner side of the Pilotage ground. I left Ordnance point to go down to her when she was first in stays — She seemed ~~was~~ then outside Pt William. — When I got down to her they had dropped anchor & the sails were almost all furled — she was anchored in a dangerous position, very close to the shore, about a mile or a mile & a half outside the pilotage ground. I asked the Captain, when I got aboard, whether he wanted any assistance, & if so to hoist the

flag

flag. He said no. I did not hoist any flag or signal of distress. — No flag was hoisted at all, before I got there or after. I assisted all I could on board, I pointed out to the Captain what I thought best. I never considered I was a Pilot in charge if I had been I should have hoisted a flag for assistance. — I left the Ship at dark in my dinghy with 4 men belonging to the Ship

Survey Report

We the undersigned constituting a Board of Survey held on board the Bremen Ship "Pauline" M Miners, Master for the purpose of ascertaining the extent of the injury done to the Cargo of the said Ship do certify as follows:

1st That we saw opened and inspected a certain bale of the said Cargo marked (F H) and numbered 53, which we found to contain blue and pink flannel slightly ~~damaged~~ moistened by salt water and which we have recommended Captain Mieners to have dried and repacked.

2nd We saw opened several other cases named in the margin which appeared to us, (as well as we could judge from the outside) to be the most injured, and found them very slightly damped not sufficiently to make it necessary to unpack them.

(F H) No 40.
(F H) No 62.
G H S. 109.

3rd We have recommended Captain Mieners to empty 75 small bags of Salt (fine) which have been wetted and to head the contents in small barrels which are on board his vessel.

4th We have found the greater part of the Cargo to be more or less wetted, but nothing appears to be sufficiently to warrant its being condemned.

5th Finally we are of opinion that the damage done to the Cargo is owing to the Ship having been severely strained in a gale of wind, the water passed through the deck and sides of the vessel.

6. We further Certify that the hatches were properly secured with tarpaulins

Captain Molony, non-commissioned Officers, and Soldiers, of the Falkland Islands Company.

It is with extreme regret that I assemble you here on this occasion as it is for the last time. – I say so – because I feel convinced that you are a body of men upon whom implicit reliance could be placed in any case of emergency, and, because, I am sorry to lose you. –

It affords me great pleasure to state that during the time I have administered this Government you have performed your Military duties to my entire satisfaction, and I shall bring this fact under the notice of His Grace the Secretary of State for the Colonies so that he may, if he thinks fit, submit my report to the proper Authorities.

It remains now for me to express to those who are about to return to their native country a hope that they may have a safe & agreeable passage, and that health and prosperity may attend them wherever they go, and to those who remain behind in the Colony I can only hope that they will prove as good citizens as they have shown themselves to be soldiers, and set a good example to those around them, and never forget the Allegiance they owe to the Crown which they have served so long and so faithfully
