NOTES

- 1. THIS DRAWING IS THE COPYRIGHT OF THE DESIGN SECTION OF THE PUBLIC WORKS DEPARTMENT. IT MUST NOT BE REPRODUCED WITHOUT THEIR PERMISSION.
- 2. NO ALTERATIONS MAY BE MADE TO THIS DRAWING WITHOUT THE PRIOR WRITTEN APPROVAL OF THE DESIGN ENGINEER.
- 3. This drawing should only be used for the purpose intended. Only written or calculated dimensions should be used. Drawing must not be scaled.
- 4. It is the contractor's responsibility to locate the positions of all electrical, sewer, water and telephone services. Details of these can be obtained from the Power & Electrical, Municipal, Highways and Water sections of the Public Works Department, and Cable & Wireless plc. A "Permit to Dig" form must be completed before commencing any work(s).
- 5. The position of any existing services shown is approximate only. The exact locations should be obtained from the relevant authority. Note: Not all existing services are necessarily shown.
- 6. All dimensions are millimetres unless otherwise stated. All levels are in metres A.O.D. (Above Ordnance Datum).
- 7. The contractor must report any discrepancies found on this drawing to the Design Section of the Public Works Department prior to commencing any work.
- 8. This drawing to read in conjunction with all drawings relative to PWD/400 and project specifications. If there is any conflict between these documents please inform the PWD Design and Contracts Engineer.

IMPORTANT INSTALLATION AND  
MAINTENANCE REQUIREMENTS

- It is the purchaser's responsibility to ensure -
- 1) that the structure of the opening is suitable and adequate to support the door.  
THE GROSS WEIGHT IS 210 kg
  - 2) that where the purchaser has undertaken to carry out the installation this is done strictly in accordance with the fixing instructions
  - 3) that the door receives adequate and regular maintenance (maintenance contracts are available from any of our regional depots.)

BUILDER'S WORK

unless otherwise stated all fixing holes cutting away and making good, supply of scaffold, electrical power and moving our material adjacent to site opening is the responsibility of the builder/client and should be completed prior to our erector arriving on site. under no circumstances must the door be taken out of the frame by the builder, during the building in process of frame.
