AJAX BAY.

19th February, 1951.

U.K. Messing.

Under the agreed contract between employees and the Corporation all men are responsible for mending and feeding charge.

As and from February, 1st. a charge of £2 per man per month will be made for cooking. The cost of the purchase of foodstuffs will continue to operate as at present.

Those employees arriving on the site prior to December, 1950 will not pay this charge.

The above will be on a provisional basis for two months in view of the Corporation's original advice to employees and the arrival of a U.K. cook. At the end of this period it will be reviewed.

Conditions and Exceptions in Applying Scale.

- General.**—The issue of the provisions referred to in the above scale shall be reasonably distributed throughout the week; and in the case of water, soft bread, rice and potatoes the issue shall be approximately equal each day.
- Bread.**—The issue of soft bread under the scale shall not be required:—
(a) in a ship of less than 1,000 tons gross registered tonnage; or
(b) if through weather or illness, or absence of cook, or force majeure renders the making of bread impracticable; but where soft bread is not issued, an equivalent amount of biscuit stored in sealed tins shall be issued instead.
- Meat.**—The term "Meat" includes "Pork." The weight of fresh meat is the weight, including fat, and bone, before preparation for cooking. When fresh meat is not available, salt or preserved meat may be substituted in the proportion of ½ lb. of salt meat or ¼ lb. of preserved meat for 1 lb. of fresh meat.
- Offal and fresh sausage** count as the equivalent of fresh meat. Other sausage counts as preserved meat.
- Note.**—In ships with no refrigerator it is undesirable that reliance should be placed on fresh meat keeping in good condition for more than 15 days from the date on which it is taken on board.
- Smoked Ham or Bacon.**—If smoked ham or bacon is not procurable at reasonable cost, dried fish or kippers, tinned salmon, herrings, pilchards or sardines shall be substituted in the proportion of 2½ lbs. of dried fish or 1½ lbs. of kippers or tinned fish to 1 lb. of smoked ham or bacon.
- Fish.**—The weight of fresh fish is the gross weight before preparation for cooking. Dried fish or kippers, tinned salmon, herrings, pilchards or sardines may be substituted for fresh fish in the proportion of 1½ ozs. of dried fish or 1 oz. of kippers or tinned fish to 2 ozs. of fresh fish.
- Eggs.**—Not less than four eggs, fresh or preserved in shell, shall be issued during the first fortnight of any voyage starting from a port within home trade limits.
- Two eggs for each week thereafter should be issued if obtainable at a reasonable price and if there are facilities for keeping them. Dried fish or kippers, tinned salmon, herrings, pilchards or sardines may be taken as equivalent to eggs in the proportion of 13½ ozs. of dried fish or 9 ozs. of kippers or tinned fish to 4 eggs.
- Potatoes.**—Fresh potatoes (when procurable in a sound condition) must be issued for at least the first eight weeks of the voyage in the case of every ship leaving a port within the home trade limits, at any time between the last day of September and the first day of May, and at any other time when they can be procured at a reasonable cost.
- When fresh potatoes are not so issued, an equal amount of rice, yams, sweet potatoes, or vegetables preserved in tins, or an equivalent amount of dried or compressed potatoes or dried or compressed vegetables in the proportion of 1 lb. to 6 lbs. of fresh potatoes, or fresh bread in the proportion of 1 lb. of bread to 1 lb. of fresh potatoes, must be issued in their place.
- Rice.**—If rice is not procurable elsewhere may be carried as a substitute.
- Dried Milk.**—Dried milk may only be issued in lieu of condensed milk where the conditions on board are such as enable it to be kept in good condition, in a cool, dry place, for the period during which it may be required.
- Vegetables.**—Fresh vegetables should be supplied as often as possible when they can be procured at a reasonable cost and are not likely to be injurious to health.
- On each day when ½ lb. of fresh vegetables (or vegetables preserved in tins) is supplied, there are to be regarded for purposes of the scale as equivalent to one day's supply of dried or compressed vegetables and of green peas, haricot or butter beans.
- Dried Fruits.**—Dried fruits issued under the above scale must be raisins, sultanas, currants, figs, prunes, apples, pears, peaches, apricots or dates.
- Onions.**—The onions to be issued under the above scale must be fresh, store or dried onions when in season; and when fresh, store or dried onions are not in season, an equal amount of onions or other vegetables preserved in tins, or an equivalent amount of dried or compressed onions or other vegetables in the proportion of 1 oz. to ½ lb. of fresh onions must be issued.

REGULATIONS FOR MAINTAINING DISCIPLINE SANCTIONED BY THE MINISTRY OF TRANSPORT IN PURSUANCE OF SECTION 114 (2) OF THE MERCHANT SHIPPING ACT, 1894.

These Regulations are distinct from, and in addition to, those contained in the Act, and are sanctioned but not universally required by Law. All or any of them may be adopted by agreement between a Master and his Crew, and thereupon the offences specified in such of them as are so adopted will be legally punishable by the appropriate Fines or Punishments. These Regulations, however, are not to apply to Certificated Officers. These Regulations are all numbered, and the numbers of such of them as are adopted must be inserted in the space left for that purpose in the Agreement, page 1, and the following copy of these Regulations must be made to correspond with the Agreement by deleting such of the Regulations as are not adopted. The signature or initials of the Superintendent or Consular Officer before whom the Agreement is made, must be placed opposite such of the Regulations as are adopted.

For the purpose of legally enforcing any of the following penalties, the same steps must be adopted as in the case of other offences punishable under the Act; that is to say, a statement of the offence must, immediately after its commission, be entered in the Official Log-book by the direction of the Master, and must at the same time be attested to be true by the signatures of the Master and the Mate, or one of the Crew; and a copy of such entry must be furnished, or the same must be read over to the offender before the ship reaches any Port or departs from the Port at which she is, and an entry that the same has been so furnished or read over, and of the name, if any, of the offender, must be made and signed in the same manner as the entry of the offence. These entries must upon discharge of the offender be shown to the Superintendent or Consular Officer before whom the offender is discharged; and if he is satisfied that the offence is proved, and that the correct fine has been properly made, the fine must be deducted from the offender's wages, and paid over to the Officer.

If, in consequence of subsequent Good Conduct, the Master thinks it to remit or reduce any fine upon any Member of his Crew, which has been entered in the Official Log, and signifies the same to the Officer, the fine shall be remitted or reduced accordingly, an entry being made of the fact in the Official Log. If wages are contracted for by the Voyage, or by Share, the amount of the fines is to be ascertained in the manner in which the Amount of Forfeiture is ascertained in similar cases under Sec. 234.

This summary must be included in every agreement with the crew.
