CIVIL ESTABLISHMENT

OF

THE COLONY OF THE FAROE ISLANDS AND ITS DEPENDENCIES.

FOR THE YEAR

1934

Insert the several Establishments of Government, arranged according to the classification in the Estimates, including every individual employed, with all the particulars specified in the several columns of the Return relative to the nature of their Duties, their Emoluments, Length of Service, &c. It is important that the full Christian Names should in every case be given.

The table should be followed by an Alphabetical List of all the Officers, showing the Page in which their Office is described.

Under "Remarks" should be explained the nature of the duties performed by those Officers the designation of whose Office does not sufficiently explain the functions attached to them.

The names of permanent holders of Offices alone are to be inserted in the columns. If an office has been filled during the year, or any portion of it, by an acting officer, the fact may be noted in the space for "Remarks".

THE DEPENDENCIES.	The Dependencies consist of all land and sea between longitude 20 degrees West and 50 degrees West south of latitude 50 degrees South and between longitude 50 degrees West and 80 degrees West south of latitude 50 degrees South. These boundaries include a sector of the Antarctic land area to the South and East of Cape Horn, a considerable number of islands and more than a million square miles of sea, the total area amounting to about three million square miles. The principal lands and islands are : South Georgia, the South Shetland Islands, Graham Land with the islands adjacent, the South Orkney Islands, the South Sandwich Islands. It is estimated that during the season September to May, approximately 2000 people are engaged in the whaling industry in this territory either ashore or afloat. Of this number upwards of 1000 persons are employed at South Georgia. During the remainder of the year all areas are deserted with the exception of South Georgia where about 500 persons reside throughout the winter, and Laurie Island, South Orkneys, where there are four persons. There was one death at South Georgia during the year 1934.

PORT AND HARBOURS.

STANLEY HARBOUR.

Port William, which includes Stanley Harbour is entered between William Point on the north and Cape Pembroke on the south, both of which are marked by lights. A further smaller light bearing 69 degrees west (true) leads up Port William.

The entrance to the inner Harbour in the south-west of Port William is a little more than 250 yards wide between Engineer Point on the east and Navy Point on the west. The minimum navigable depth at the entrance (L.W.O.S.T.) is 27 feet. Two beacons and a rock painted white on the south shore when in line bearing 179 degrees clear the Fourth Shoal, lying about 400 yards west of Tussac Point, and lead through the Narrows. Harbour lights are established on Navy and Engineer Points.

Berthing Accommodation. Inside the Inner Harbour vessels drawing up to 20 feet have plenty of room to anchor in mid-channel in about $4\frac{1}{2}$ to 5 fathoms of water. There are four Jetties with a depth of 10 to 14 feet at which vessels up to 150 feet in length can berth.

Tides. The rise and fall of tides is very much affected by wind and weather. The difference varies from 7 feet at ordinary spring tides to $5\frac{1}{2}$ feet at ordinary neaps.

There are no dry docks. A floating dock with a lifting capacity of 750 tons and capable of taking vessels 200 feet in length and drawing 15 feet was completed and launched in 1952. No operations are in progress to increase the depth of water within the Harbour limits.
