underse lained in the

Noted. Thank you. There is no provision made in the estimates for wages of the P.W.D. employees to be charged against XV. MILITARY, while attending Camp. The P.W.D. have advised me that labour charges amounting to £49. 7. 6 (wages of men attending Camp) have been made against this vote and an adjustment will therefore he processor therefore be necessary.

Sheet No....

2. I would request that some distinction be made in the rates of pay allowed married and single men attending the Summer Training Camp, and not receiving pay from their employers.

Both married and single men are maintained by the Defence Force while in Camp but no doubt this does not materially reduce the expense in the homes of the married men. In the case of married men a marriage allowance might be made in addition to the pay of their rank, the amount to be the difference between the pay of their rank and the amount of wages, calculated at 1/2 per hour, which they lose by attending the Camp. If this is approved the extra sum payable this year will amount to 17/8 in respect of the only married man attending Camp privately employed. The Cook, Pte. J. Barnes in the recent Camp gave excellent service and worked strenuously from 5.0 a.m., to 9.0 p.m., and I consider he well-earned a gratuity of £2. 10. 0. Defence Force while in Camp but no doubt this does not

of £2. 10. 0.

I believe a gratuity was made to the Cook at Walker Creek last year.

Bonaraball Major, 0.C., F.I.D.F., 28.2.38. Hon lol. Treas. From the favour of your views on the question of hayment of Wages to Gowt. workmen veleased to join the Summer Fraining Camp. I believe it is the practice its estimation hot to be bain by the Military

Mainute from OfC, Sefence Florce of 17.3.38.

Hon. C.S.,

I do not consider it to be within my province to state what the position is regarding the payment of P.W.D. employees attending the Summer Training Camp. This would appear to be a matter for your decision. 2. Military pay should be a charge against the

Military Department.

3. According to the final para. of the D.P.W's. minute of 3/2/37 on the back of sheet 1 there should be equivalent savings to meet the amounts paid to P.W.D.

employees attending Camp. 4. The original items in the Estimates for the Summer Training Camp in 101/37 have not been adhered to and for that reason the observation referred to in red (42) was raised as I had not been informed that approval had been given to carry out the work under reference.
5. The charges received in this Office to date

against the provision of £135 for the Summer Training Camp amount to £129. 16. 4. This includes two items of wages paid by the D.P.W., amounting to £25. 8. 3. and £23. 19. 3. In this connection para. 2 of your minute 10/2/38 may have some reference.

O. C. Defena Five. P. W. D. then Showed the para from thelitary. Provision showed the thave for this in the 1939 Colunatio. 2.

2. Please ser para: 5 of Trensurers training comp. The vote is almost Summe eschansted. mettel.

Hon. Col. Secry.

All departments will be put to some inconvenience and this is appreciated.

E. Lellman is a Range Taker and H. L. Bound a Signalman and it is essential for the reasons given by the Commodore that both Officers should attend the Camp for training from the 1st of March inclusive. If it is possible only for them to attend part time the sequence of training will be interrupted.

I would point out that the officers will be absent from the Treasury 62 days only.

I request that I may be given a definite reply with regard to these two Officers as early as possible as should they be prevented from attending the Camp together, I wish to make further representations.

Hon Col Sec,

I consider the most economical and suitable arrangement for the erection of this hut would be by tender for the supply of the building complete on site. If handled departmentally considerable time would be lost on conveyance twice a day, whereas a local contractor would be prepared to live on the site taking advantage of the full day and nursing the material for his own benefit.

28th January, 19 5

The Officer Commanding

Falkland Islands Defence Force,

I should be glad to have the instructions of His Excellency the Governor regarding the Summer Camp for the Falkland Islands Defence Force.

2. Mr. Goddard has kindly offered the outbuildings at Walker Creek for the use of the Force during training for any period between the 7th and 24th of February, 1937.

3. A sum of £50 has been provided in the Estimates to cover the cost of maintenance, such as rations, fuel, etc., during the period of training.

4. In addition to myself the other officers of the Force available for training are Lieut. Fleuret and 2/Lt. Aldridge. I should be to know if any arrangements could be made for their attendance 5. An early reply will be appreciated as it will be necess the members of the Force to approach their employers with a v obtaining leave on pay during their absence.

HEADQUARTERS,

FALKLAND ISLANDS DEFENCE FORCE, STAMLEY. 4th March, 1937.

Sir,

I have the honour to submit, for the information of His Excellency the Governor, my report on the Defence Force Summer Training Camp which was held at Walker Creek from 8th to 16th February, 1937, both days inclusive.

2. A list of the officers and other ranks who attended Camp is given in appendix "A".

3. In appendix "B" the hours and the nature of the work carried out on parades are given as it may be of some use for future reference.

4. A list of standing and subsidiary orders issued is given in appendix "C".

At 7 a.m. on Monday 8th February two officers 5. and forty-two other ranks sailed on the s.s. "Fitzroy" for Walker Creek. Nothing unusual occurred during the voyage and the contingent arrived at Walker Creek at 1350. Owing to the ship having a lighter in tow it was anchored about a mile from the jetty. The troops were landed in a scow and one motor boat. The scow was lashed to the motor boat and owing to a choppy sea there was a big wash between the motor boat and the scow which drenched several men and some equipment, the scow being so packed that it was quite impossible for the men to seek shelter. This was rectified on the return journey as two journeys were arranged from shore to ship and the scow was towed instead of being lashed.

The Honourable The Colonial Secretary, STANLEY.

List of all ranks under training.

Hours and nature of parades.

Journey to Walker Creek.

6./

Landing of kit.

6. All kit and equipment being landed the troops were served with a meal at 1500 consisting of hot stew with bread, butter and tea.

Accommodation.

7. After dinner the accommodation was allocated. This accommodation consisted of 16 bedrooms with a recreation room in one building and a dining room in the cook's quarters measuring about 40 feet by 16 feet with one small room which was used as a store.

In some cases three men were allocated to each room. Some rooms had bunks and a sheepskin was issued to each man as a mattress. The Officer Commanding was quartered in the Oversears house which was situated some fifteen minutes walk from the parade ground. The other officer was billited on the cook and had a room above the cookhouse. While the accommodation for the men was satisfactory the situation of the officers' quarters could be improved upon as it was inconvenient for immediate supervision of the Camp, for receiving reports and issuing orders and last but not least for the discussion in the evening of programmes of work. AS far as comfort goes the accommodation of the Officer Commanding left nothing to be desired as it was spotlessly clean, spacious, with the food excellent and no effort was spared to make the officer comfortable. I would much prefer however the establishment in these Camps of an Officers' Mess. Two tents could be taken as sleeping quarters and perhaps a portion of the wool shed could be used as a Mess Room. The only difficulty which would arise would be that of equipping a kitchen as officers could supply their own bedding, crockery and cutlery; in fact these articles had been taken to Camp by the officers who attended.

8./

- 2 -

Cooking facilities.

8. The cooking facilities were not quite adequate as there was only one No. 9 Stanley Range and this had to be used for the officer, 42 other ranks and the Falkland Islands Company's cook his wife and married daughter whose husband and their children were living on the premises. Immediately on arrival I had, fortunately, examined the cooking arrangements and I fully realised that if a diet of boiled mutton or stew had to be varied some other measures had to be adopted. Only fifty loaves of bread had been taken from Stanley as any greater quantity would have gone stale so that arrangements had also to be made for baking bread. Finally an open camp kitchen was prepared with some pieces of scrap iron from old ranges and a chedrou was procured for use on the fire in the recreation The open camp kitchen was chiefly used for room. boiling water, potatoes &c., and the cook house range and the recreation room fire were used for roasting, frying and the baking of bread.

Provisions.

In order to avoid the transport of heavy loads 9. of provisions, etc., I had prior to departure communicated with Mr. Goddard at Darwin and furnished him with a list of the provisions which were likely to be required during In turn Mr. Goddard ascertained our stay at Walker Creek. what stocks were available at Walker Creek. This advance enquiry saved a lot of trouble as it was found that most of our requirements were available and could be purchased at the same rates that would be charged in Stanley so that it was only necessary to provide sacks of potatoes, an advance supply of bread, onions, vegetables and bacon. Mutton was supplied at Walker Creek at the rate of 5s/per sheep the average weight of each being about 60 lbs or 1d./

- 3 -

ld. per 1b. for mutton. After parade each day one N.C.O. and two or three men were sent out to fish and one N.C.O. and two or three men were detailed to shoot geese for the pot. The fishing parties were not very successful but the shooting parties provided sufficient geese to furnish a variation of diet. Milk was plentiful and supplied by the overseer, the Camp Cook and Mr. Cartmell free of charge.

Diet.

10. As an indication of the diet the following were some of the meals supplied :-

Hours.

0645 Coffee.

0800 <u>Breakfast.</u> Porridge & milk, fried chops & eggs, bacon & eggs, boiled eggs, bread and butter, jam, tea or coffee.

1100 Tea or coffee.

- 1300 <u>Dinner.</u> Mutton, boiled, roasted, stewed; cabbage; stewed peaches, etc., bread & butter; tea or coffee.
- 1600 Tea or coffee, bread & butter & Jam.
- 1800 Roast goose & onions; cold mutton & pickles, bread, butter & jam, tea and coffee.

2000 Coffee.

Many of the men who visited outlying houses in the evening returned with extras, and other extras such as tinned fruits, biscuits etc., were purchased by the men from the store.

Cheese would be useful in future Camps.

Refreshments.

11. Refreshments were also available. One barrel of beer containing about 45 gallons together with 300 bottles of minerals were taken from the Canteen in Stanley and sold at cost price. Each man was allowed one half pint of beer at dinner and two half pints of beer in the evening. No other alcoholic liquor was allowed to be consumed/ consumed in the Camp. Cigarettes, tobacco, cigarette papers, sweets, chocolates etc., were available for purchase at the Walker Creek store.

Water Supply.

12. The water supply was obtained from a tank the capacity of which was some 400 gallons. This proved inadequate and although there was a well about 100 yards from the cook house the purity of the water seemed doubtful so that it became necessary to draw drinking water in 54-gallon barrels from a spring situated about $l_{\frac{1}{2}}^{\frac{1}{2}}$ miles from the camp.

Medical.

Prior to leaving Stanley arrangements were 13. made with the Medical Department for a supply of medicines, bandages and a stretcher. Unfortunately on arrival in Camp it was found that one man was suffering from a severe cold which he had contracted before leaving Stanley, and although he was segregated for two days a few of the men had already caught cold, but I am glad to report that it only prevented one other man from attending parades and even then he was only absent for one day. Otherwise the health of the troops was excellent. The sanitation of the Camp was under the supervision of Cpl. Brechin and I can say that the quarters and Camp were left in a very clean and satisfactory condition. Sheep dip was found to be a useful disinfectant.

Communication.

14. Telephonic communication was established with Stanley but it was not entirely satisfactory due principally to the fact that we did not have an independent line.

Recreation.

15. The recreation room was equipped with a wireless receiving set which was supplied on loan by the Officer Commanding. Prior to departure from Stanley a collection of newspapers, magazines and books was made from residents of Stanley and a place was set apart for reading. After

parades/

- 5 -

parades parties were made up for football, shooting, fishing and strawberry gathering. Each party was in charge of a mutually arranged N.C.O., who furnished the Camp Adjutant with the names of his party and where necessary the direction which his party intended journeying. No man was allowed to leave the area within a radius of two miles of the Camp without permission.

16. On Thursday 11th February, at the suggestion of the residents of Goose Green, a party of 16 under the Commanding Officer left Walker Creek in the "Speedwell" at 1340 and arrived at Goose Green at 1610. A Miniature Rifle Shooting Match had been arranged and this took The Defence Force Team was captained place at 1640. by Sergt. Browning. Unfortunately one of the team, who had an average of 95% during the previous winter, was said to have been given a faulty rifle which had to be changed after the first few shots with the result that The remainder of the he only returned a score of 71. team did well under the circumstances, the scores being 98, 96 and 91 out of a hundred. The opposing team did not shoot as it was made to consist of the highest scores made throughout the day by the various teams from different stations, the best four scores of which were taken for the purpose of deciding the result. I had not contemplated such an arrangement and did not interfere with the Captain, who I am glad to say did not raise any objection as the few points in their favour would merely serve to sharpen their appetite for more miniature range As the weather was unfavourable the Band shooting. played selections in the wool shed between 1730 and 1830. A boxing display was then given in the cookhouse by Bandmaster O'Sullivan and two other ranks. In the

evening/

Visit to Goose Green. In the evening the Band furnished an orchestra after the type of the "Ajax" Harmonica Band there being three mouth organs, two banjoes, an accordian, two violins, two saxaphones, a clarionet and a pianist, while the remainder had combs and paper. At 1030 on the morning of Friday the 12th February a Football Match took place between the Defence Force and Goose Green, resulting in a comfortable win for the Defence Force by 5 goals to 1. The conduct of all ranks during this visit was exemplary and they were giving rousing cheers as the "Speedwell" left Goose Green at 1325. Walker Creek was reached at 1605 when normal duties were resumed.

- 7 -

General remarks on Training.

As stated in para. 2, the programme of training 17. is given in appendix "B" and very little variation was made, any alteration that was made being due to inclement I was surprised to find that the men who weather. attended Camp had never been exercised by the late Adjutant in such elementary subjects as extended order drill, guard mounting, advance and rear guard actions, picket duties, the tactical uses of Lewis and Vickers Guns or even the passing of verbal messages, etc., etc. Consequently it was necessary to devote much time to preliminary instruction on the parade ground. However a start was made and, enthusiasm and earnest attention paid by all ranks to the instruction given was, to say the least of it most encouraging. As will be seen from the programmes Reveille was at 0630 and the first parade was at 0700, continuing until between the hours 1600 The N.C.O's. were exercised in the duties of and 1800. a platoon commander, in advance and rear guards, attack A large percentage of the men at some time and defence. or another resided in the country and it is a well known

fact

fact that those with a country experience are as a rule more capable of making better use of ground and cover and are more likely to find the best and quickest method of moving from one place to another than those permanently resident in a town. On the whole I should say the men are much more at home in field work than they are on a Ceremonial Parade. Unfortunately the night operations arranged for the last night did not take place owing to In the earlier part of the day however the heavy rain. men were marched all over the area within which it was arranged to hold the tactical scheme. The men were kept in readiness for night operations until 2130 but at that hour it became obvious that conditions would become extremely unfavourable so that we had to content ourselves with a discussion of the operations and to the answering of questions as to what action to take under various different circumstances which might arise. T am of the opinion that all things considered, as much as could have been done was accomplished but I hope that after the next winter training in Stanley, the men will be sufficiently exercised in the preliminary stages of drill so that the necessity for such training in Camp will not arise, thereby allowing more time for real field work which after all is the purpose of a summer training camp.

Applications for assistance received from camp managers during the period of training. 18. While at Darwin I was approached by Mr. Goddard, J.P., Mr. Elliot and Mr. Gilruth who were anxious that visits be paid to their respective camps to assist them in the establishment of miniature and .303 rifle ranges. I have already received similar applications from the Hon. N. K. Cameron and Mr. R. Greenshields, J.P., and I suggest/4

- 8 -

suggest for your approval that Lieut. Fleuret should be sent on tour of the following places as soon as possible after the arrival of Mr. Barlas :-

Douglas Station, San Carlos, Port San Carlos, Goose Green, North Arm, back to Goose Green, then on to Fitzroy where I know Mr. Langdon is giving his men every encouragement to practice musketry and where there are at least two very good members of the Defence Force.

It was also mentioned to me while at Goose Green that the Defence Force members resident in the camp are anxious to come to Stanley to carry out training during the winter season when they are usually granted a week or ten days leave. I would be very pleased to arrange for such training but it would be necessary to obtain release from duty of some of the officers and N.C.O's. as the training will take place in the day time as the Stanley members are being trained at night in the Drill Hall. I think this suggestion might be encouraged and in order to find out the number of men likely to attend, a communication could be addressed to station managers asking them to state what numbers might be expected and also the length of period they could attend between the lst - 15th July.

Recommendations.

19. I would recommend that for at least the next few years summer training camps should be prepared at a station where a cookhouse is available to accommodate the troops attending. My reason for this suggestion is that the cost of tentage etc., required would be too great.

All men should I consider be supplied with a kit bag, waterproof sheets and enamel plates and camp cutlery. For officers two sets of camp equipment should be obtained,

i.e./

- 9 -

i.e., camp beds, tables and canvas baths.

3

At the last Camp it was necessary to borrow camp kettles, cooking pots, wash buckets, pails etc; these and other cleaning gear such as brooms, scrubbing brushes, dish cloths, dusters, etc., should be purchased for the Force. If it is likely that this additional expenditure will be considered in connection with the 1938 Estimates a detailed estimate of the cost will be prepared.

I am somewhat perturbed at the position which arose this year whereby men in Government employment were graciously allowed full pay during their period of training; this is I think as it should be, but it seemed somewhat undesirable that other members of the Force should attend Camp without any remuneration whatsoever. It pleased me considerably that so many men did attend Camp without financial assistance as it certainly displayed a keen desire to improve their state of I fully realize that this first Camp efficiency. was probably in the nature of an experiment but I would recommend that in future some reward might be given. Such a reward may be confined to what would be sufficient to cover the ordinary living expenses of the families of those outside Government service and as a basis I suggest for consideration the following rates :-

> Private lu/- per day. Corporal lu/6 per day. Sergeant 5/- per day. Coy. Sergt. Major or Warrant Officer 6/- per day.

) During the) period of training) only.

As a further encouragement I should like to recommend a small reward for every drill in addition to that which is required of members of the Force each year and for which a flat rate of payment of say 1s/- per night could be made. The pay during training would probably only

affect/

affect those who are employed on piece work outside Government service and these numbers are not great, while the payment for additional drills would be an impetus to obtain greater efficiency. During the period of training I did not come across a single soldier with a grumble or complaint, on the contrary, everybody seemed extremely happy. The summer training camp did more than improve the efficiency of the Force, it instilled in the men a greater spirit of comradeship and a willingness to do service for each other. Indeed it was most satisfying to observe how one man was so willing to help another, and I feel sure that existing friendships were strengthened and many new friendships were made.

20. A sum of £50 was allowed in the estimates. The charter of the "Fitzroy" accounted for £20 leaving a balance of £30 available for the purchase of small gear, all rations and provisions, and payment to the camp cook who rendered very valuable assistance. It is probable that this amount will be exceeded by a bound or two as tea and coffee were provided on the ship on the outward journey and although a haversack ration was issued before leaving Walker Creek it became necessary to provide another meal on the ship which was held up at Fitzroy with cargo and did not reach Stanley until 2300. I am sure it will be appreciated that the running of a temporary camp is much more expensive than the running costs of an established cookhouse and that £30 odd is not an extravagant figure for the maintenance of 44 men for nine days. In conclusion I should like to express my warmest appreciation to Mr. Goddard for granting us the use of the Walker Creek cookhouse and to Mr. Wm. Campbell the Overseer for the kind assistance he rendered in gathering our sheep, supplying/

Costs.

- 11 -

supplying us with odd items and for his readiness in supplying our wants from the store and finally to the excellent cook, Mr. E. Roberts, who rendered his assistance with a smiling countenance from morning till night.

I have the honour to be,

Sir,

Your obedient servant,

geolighemant.

- 5. To ensure that the Camp is clean and in proper order before departure.

20/37.

9th March,

37.

Sir,

I am directed by the Governor to inform you that in his report on the Defence Potce Summer Training Camp which was held at alker Greek from the 8th to the 16th February, 1937, the Officer Commanding the Defence Force has expressed his warmest appreciation to you for granting the Defence Force the use of the Talker Creek Cookhouse and to Mr. W. Campbell, your overseer at Walker Creek, and Mr. E. Roberts, Cook, for their ready assistance at all times.

2. I am to warmly thank you for your assistance and for the facilities granted to enable the Summer Training Camp - the first to be held in the Colony - to be held at alker Creek thus contributing in no small measure to its success. I am to request that you will be so good as to convey to Mr. . Campbell and Mr. E. Roberts, the thanks of the Officer Commanding for their services to the Defence Force while in Camp.

I am,

Colonial

Esq. our, KLAND.

Sir, Your obedient servant, 20/37.

9th March,

Sir,

I am directed by the Governor to inform you that in his report on the Defence Norce Summer Training Camp which was held at alker Greek, East Falkland, from the 3th to the 16th of Pebruary, 1937, the Officer Gen anding has drawn attention to the fact that Defence Force members resident in the Camp are anxious to come to Stanley to carry out training during the winter Scapon when they are usually granted a week or ten days leave.

2. I am to say that the Officer Commanding the Defence Force is prepared to arrange for such training for Camp members, and in order to ascertain the number of members from the Camp likely to attend I am to request you to be so good as to inform me what numbers might be expected from your Station and also the length of period they could attend between the 1st and the 15th of July next.

I om,

Your obedient serva

Sir,

Colonial Secretar

The Manager,

GEORGE BONNER.

SAN CARLOS,

FALKLAND ISLANDS,

2nd \pril 19 37.

Sir,

I have the honour to acknowledge your communication of the 9th ult. No. 20/37.

With reference to your inquiry regarding Defence Force training for Camp members, I beg to advise you that owing to the early Winter holiday which will be given in May this year to enable employees to attend the Coronation celebrations in Stanley there will be no leave due to employees here during the dates mentioned in your letter.

I would state however, that in another year it might be quite possible to arrange leave for any anxious to undergo Defence Force training as suggested in your letter.

I am, Sir,

Your obedient servant

For and on behalf of MESSRS, GEORGE BONNER

5ht April, 19 37.

Sir,

With reference to your letter No. 20/37 dated 9th ulto addressed to the Camp Manager, general-leave is not usually granted in July but is, in May.

I am,

Sir,

Your obedient servant,

Manager.

The Honourable

The Colonial Secretary

Stanley.

No. 20/37. (It is requested that, in any refer- nce to this minute, the above Number and the date may be quoted.)	<u>UTE.</u> <u>12th April</u> , 1937.
From	To The Honourable
The Adjutant,	The Colonial Secretary,
F.I. Defence +Force,	STANLEY.
STANLEY.	

I have the honour to submit a report on my recent tour of the East Falkland from Saturday the 3rd to Saturday the 10th of April, 1937.

2. During my absence from Stanley I visited the following Stations :-

Douglas, San Carlos, Darwin

Goose Green and Fitzroy.

I left Stanley for Douglas Station via Teal Inlet at 1.15 p.m. on Saturday the 3rd of April arriving at Douglas Station at 10.30 a.m. on Sunday the 4th of April. There is an excellent .303 Rifle Range at this Station and shooting is carried on here at Lieutenant Greenshields who distances from 200 to 1000 yards. is keenly interested in shooting proposes to erect a Miniature Range in his wool shed during the coming winter details of which I discussed with him. Rifles have already been ordered. There are 7 members of the Defence Force employed at Douglas and they take a keen interest both in shooting and in drill. The members attend drill on two evenings weekly. I gave these men an hour's instruction on Monday evening the 5th April. Although they drilled fairly well they had apparently been taught their rifle exercises and their movements in squad drill incorrectly. These faults, however, were rectified.

3. I saw no point in calling at Port San Carlos as I was informed by the Honourable N. Keith Cameron that the majority of his men including himself would be absent from the settlement at Elephant Beach dipping until the middle of April.

4. From Douglas Station I travelled to San Carlos arriving

there/

there on Tuesday the 6th of April. There is already a Miniature Rifle Range established on this Station and the members appear to shew great keeness. The Manager, Mr. J. F. Bonner, has done much to encourage the men. The Shield presented by His Excellency the Governor for Miniature Shooting was won by San Carlos Station last year. A meeting of the club was held while I was at San Carlos at which I was present. I was able to give the members some advice on certain points with regard to aiming, holding and alterations for elevation and deflection. During the meeting I was approached by the members as to the possibility of forming a full . 303 Range at San Carlos. There are 7 members of the Defence Force employed on this I informed them that the matter would be Station. considered on my return to Stanley but that if they were supplied with rifles from the Defence Force for target practice then they would be expected to do their annual classification as is done at Douglas Station. To this they readily agreed. Mr. Bonner stated that he would be willing to do everything in his power to assist in this connection. I recommend, therefore, subject to the approval of my Commanding Officer, that San Carlos Station be issued with 2 service rifles for target practice, the Manager to be held responsible for their proper care. Full particulars with regard to the range, etc., could be supplied from Defence Force Headquarters.

5. I left San Carlos on Wednesday at 2.40 p.m. and arrived at Darwin at 6 p.m. Here, however, all the men were busily engaged in killing. At Goose Green some attempt has been made at forming a Miniature Rifle Club but it has been half-hearted. There are no rules and no proper system of organized shoots appears to have been adopted. I was asked to give the members some advice

with/

with regard to the formation of a Club and this I did. It is now proposed to form a Committee and to appoint a Secretary and Treasurer. They possess 2 rifles which have not yet been paid for through lack of funds. I suggested that they might organize a small sweepstake to raise funds to pay for their rifles and this they agreed to do.

It was intended that I should visit North Arm 6. Was but practically every man engaged in killing operations at Goose Green. They have no rifles and there is no range on this Station. It appeared to me, therefore, that no good purpose could be served by riding to North Arm and back to Darwin with no other object in view but to discuss with the Manager the prospects of forming a Miniature Rifle Club on that Station. I was able to speak to Mr. Elliott at length on the telephone and he stated that he was anxious to form a Club at North Arm but the question of providing the necessary funds for the purchase of rifles, etc., presented some difficulty. However, this matter is under consideration and he promised to let me know the result. Should it be decided to carry on with the project I informed Mr. Elliott that I would supply him with all the varticulars he required.

7. Owing to bad weather I was unable to leave Darwin until 10 a.m. on Friday the 9th. I arrived at Fitzroy at 5.30 p.m. travelling via High Hill, Black Rock and Mount Pleasant.

8. I discussed with Mr. Langdon the possibility of establishing a Miniature Club at Fitzroy but he was very doubtful as to its success stating that none of his men had approached him in this connection and he did not consider that there was sufficient interest shewn to warrant the formation of a Club. Consequently I did not pursue the matter further.

9. I left Fitzroy for Stanley at 8.30 a.m. on Saturday/ Saturday the 10th April arriving at 12 noon.

It will be seen that the time arranged for this 10. tour was, for most Stations, inconvenient which adversely affected the value of the tour.

11. With but one or two exceptions the Station Managers, while not antagonistic, are at the same time not enthusiastic regarding the establishment of Rifle Clubs on their Stations. The prosperity of a Club will depend on the interest shewn by the Manager and if this is lacking then the success of the Club will always be doubtful.

Lieut., Falkland Islands Defence Borce.

Sir Jour obedient serbant Repearshield

MINUTE.

(It is requested that, in any reference to this minute, the above Number and the date may be quoted.)

31st January, 1938.

From The Officer Commanding,

Falkland Islands Defence Force.

Stanley, Falkland Islands.

To The Honourable

The Colonial Secretary,

Stanley.

I shall be pleased if the proposals for the Summer Training Camp of the Defence Force be placed before His Excellency the Governor and Commander-in-Chief for his approval and sanction.

The Commodore, South America Division, America and West Indies Station, and the Defence Committee, have given their decision in favour of directing the Colony's Force on the lines of Coast Defence with the training of the 6 inch Gun Crews of first importance. The remainder of the personnel will be needed for Machine Gun crews, light automatics and specialists.

I am of the opinion, therefore, that the Training Camp this year should be held at the Canopus Gun site where the newly formed gun crews will be able to continue their instruction under Captain Fleuret before they forget their recent training and achievement.

Lieutenant Aldridge will find the vicinity suitable for the tactical handling and firing of his machine guns and with day and night instruction some specialists should be produced with at least an elementary knowledge of signalling.

Captain Watson will I am sure be of great assistance to me.

I should indeed be grateful if some of the material from the old Secretariat building now being dismantled were placed at my disposal for the building of a Cook-house and an addition to the present hut. The saving in the item of transport I

think/

think will cover most of the cost of construction labour.

- 2 -

I understand from the estimates that it is the intention of the Government again to grant Government employees who are members of the Force leave to attend the camp with full pay.

I desire to hold the Camp during February and will advise you of the suggested dates as sonn as possible.

Bonauhall

Major, Officer Commanding, Falkland Islands Defence Force.

No. 20/37. (It is requested that, in any refer- ence to this minute, the above Number and the date may be quoted.)	8th February, 19 38
From The Officer Commanding	To The Honourable
F. I. Defence Force,	Colonial Secretary,
Stanley, Falkland Islands.	Stanley.

I have the honour to advise that subject to approval it has been decided to hold the Summer Training Camp of the Falkland Islands Defence Force, between Saturday the 12th February, and Monday the 21st February, 1938.

Ilahrom &

Erection of Cookhouse & Sleeping Qrs, fitting of 24 bunks at Canopus Hut; erection of benches and minor repairs to existing buildings.

11. Summer Training Camp.

- - - -

As there is no provision for this work in the Estimates will you please state if special authority to incur expenditure on this special work has been obtained. In this connection please see Colonial Regulations Nos. 213 and 274, and Financial Order No.50. 2. Please state why the building was not constructed by the

Public Works Department.

3. Please state if the amount stated on the voucher is in respect of labour and material or for labour only - materials being supplied.

4. If for labour only please state the source from which the material was obtained; particulars of the amounts used and the value should be given.

5. Please state if contracts were called for, and if so, furnish a reference to the Tender Board authority for acceptance. Please see Financial Order No.84.

erolf

Colonial Treasurer.

44.

No.

(It is requested that, in any refer-ence to this minute.

the above Number and the date may be quoted).

(It is requested	<u>IUTE.</u>			
that, in any refer- ence to this minute, the above Number and the date may be quoted.)	<u>17th March,</u> 1938.			
From The Officer Commanding,	To The Honourable			
Falkland Islands Defence Force,	The Colonial Secretary,			
Stanley, Falkland Islands.	Stanley.			

I have the honour to attach herewith a request from the Honourable the Colonial Treasurer for information regarding expenditure on the additions to Canopus Hut to enable the Annual Summer Training Camp to be held there. I have replied to the Treasurer as follows :

- (1) Considerable savings remain of the amount allocated in the Estimates for the Training Camp this year after including the cost of the additions to the accommodation at the site of the Canopus Battery. Such work was essential to the holding of the Annual Camp and remains an asset. The carrying out of this work was approved.
- (2) The Public Works Department cas fully employed elsewhere.
- (3) Labour only.
- (4) Public Works Department. I suggest that the Director of Public Works be asked to place a value on it.
- (5) No contracts were called for.

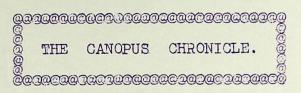

XV. MILITARY, Sub-head 11 is referred to in the estimates as follows :

"To provide expenses and pay for Summer Training Camp".

2. I would request that the file containing the minutes dealing with the matter be sent to the Colonial Treasurer for his information.

Indrum &

Major, Officer Commanding, Falkland Islands Defence Force.

A DAILY PAPER

ISSUED DURING THE PERIOD OF THE SUMMER TRAINING CAMP OF THE FALKLAND ISLANDS DEFENCE FORCE AT CANOPUS HUT IN FEBRUARY,

1938.

15th February, 1938.

All contributions, press or pictorial, should be left with the Adjutant who will see that they are forwarded to the Editor.

Thoughts for the WEAK.

Join Sgt. O'Sullivan's physical training squad.

From our War Correspondent (Official). (Copyright.)

The Falkland Islands Defence Force took Canopus Hut on the 12th of February and consolidated its position after a determined struggle against the opposing force (the wind) which counterattacked on the following night and broke through the line of outposts, one of which fell before the enemy. The defending Force was obliged to retire on the main body without very much to cover its retreat.

Following up its successful onslaught the enemy entered the main position through unguarded breaches in the Walls routing a detachment of Hammockers and inflicting severe neck injuries on the Carpenter.

Our losses were made good the following day.

The Camp has expressed its warm appreciation of a <u>SALVO</u> of refreshment sent over by the Estate Louis Williams.

Visitors brightened the Camp considerably on Sunday afternoon.

From Our Sports Correspondent.

No. 2 Hut challenged No. I Hut to play them Football last evening. No. 2 Hut accepted and supplied 12 men and the Referee; a very good game was the result. Some of those interfering so Referees might have disapproved of some minor breaches of the The scores were 5-2 and judging from what went on in No. afterwards they appeared to have won.

Casual ties.

One of the goal-keepers fell heavily when attacking the ball in yesterday's match. The damage to the Football Field was repaired to-day.

Answers to Correspondents.

<u>CAN-US-OPE</u>: No! Part of the rock should still be visible after the should to-morrow.

SAMMY. No! It is quite safe to approach the Gun if you creep on it from behind.

Personal.

Come back Charlie. Loving arms will enfold you. A warm welco is prepared for you. Sergeant Bawlor.

Printer's errors are due to our Printer having other 'Inclination

16th February, 1938.

- the

The Artillery Section had a successful preliminary shoot yesterday to determine and make corrections to the muzzle velocity of the 6 inch gun. This morning after gun drill the Sub-calibre was shipped and target practice was carried out this afternoon. One of the targets engaged was Wolf Rock, and the shooting though carried out under difficult conditions, was highly satisfactory. Direct hits were registered on a rock off Hooker's Point when in Rapid 'Salvos', Both the Gun and Control Crews satisfied their Instructors, Captain Fleuret and Captain Watson. Another target practice will be held to-morrow.

Machine Gun "Bursts".

The Machine Gunners have displayed keen interest in their work during the camp and have made rapid advancement under their Instructor, Pte. C. Henricksen. Lt. Aldridge spent to-day in Camp with them and is confident that they will be capable of putting up a good performance on Saturday when they will carry out a shoot. It is hoped that Lt. Aldridge will be able to join us again on Friday for the remainder of the Camp.

Signals.

Signalling is a branch of the Army calling for a great deal of individual effort and requiring a lot of enthusiasm and perseverance. The Signal Section has already almost reached the stage where it could deal with messages. Quite a feat in so short a time.

The health of everyone in Camp is good. The only cases of consumption are at meal-times and the excellent cooking of Pter J. Barnes points to bigger lorries being required for the return journey.

Captain G. Kinneard delivered a lecture yesterday afternoon on the medical services in relation to the Army.

FOOTBRAWL.

It is reported that the Huts are appearing in full war paint for the return match this evening,

Answers to Correspondents.

<u>CURIOUS</u>. The Boxing Gloves which arrived this morning have nothing to do with Jock's eye. The rumour that "Sammy" has been selected by No. 2 Hut to meet the champion of No. I Hut has been denied.

Fire in the Camp.

A soldier's hat was destroyed by fire last night. Fortunately the owner was not wearing it at the time.

Advertisements.

LOST. A little tott. It's Rum where it's got to.

Inspecting Officer. Australian Soldier. Haw! Haw! No Shave! Hee! Hee! No B.... Razaw! The weather showed an improvement yesterday. The sun shone in the afternoon and later the wind dropped and a perfect evening followed. To-day started with a still morning and has remained almost ideal with plenty of sunshine.

'Salvos' from the 6" Gun.

A target for the 6" Gun practice was constructed and successfully launched this morning by members of the Gun's crew. The task of negotiating the breakers and kelp proved no light one and some of those taking part in the launching ceremony were forced to indulge in a little unpremeditated surl-bathing. The shoot was carried out under ideal conditions for all con-

The shoot was carried out under ideal conditions for all concerned and the results were most satisfactory. Sgt. Browning observed the shoot from Hooker's Point. The Signal Section maintained communication from the O.P. to the Gun.

Machine Gun 'Bursts'.

The Machine Gun Section carried out Action Drill with the Machine Gun and were instructed in the nomenclature and stripping of the Lewis Gun. Captain Fleuret instructed the Section in the use of the Range Finder in the afternoon.

Signal Flashes.

The Signal Section did longer distance Station work to-day with the daylight signal lamp. A large number of messages were sent and received.

No. 2 Hut still remains unbeaten after last night's Match.

SCORE: 5-3. The Referee was protected by his size and worked hard to keep control of the game. The position at No. I Goal again proved a dangerous one. Who's turn next ?.

OLYMPIC GAMES.

"The Throwing the Hammer" Competition was won to-day by Sgt. O'Sullivan. Signaller S. Hennah was unbeaten in the Sub-calibre event.

Gunners only.

It is rumoured that a Rock Scorpion raised his eye-brows when the rock was hit.

DID YOU KNOW

That the Camp is never without music. In fact a certain music book automatically opens to 'Cowboy'.

That according to a message from Hocker's Point the "Titanic" was wrecked on the Wolf Rocks,

That a certain Sergeant is contemplating fitting an aperture sight to his football boots in an endeavour to zero his elevation.

From Our Observer in Stanley.

That fifth shot was a hit orright! Young Jim saw it through his Glasses.

The weather showed an improvement yesterday. The sun shone in the afternoon and later the wind dropped and a perfect ovening followed. To-day started with a still morning and has remained almost ideal with plenty of subshine.

'Salves' show the 6" Gun.

A target for the d' Gun practice was constructed and successfully launched this morning by members of the Gun's crew. SCORE: 5-3. The Referee was protected by his size and worked hard to keep control of the game. The position at No. I Goal again proved a dangerous one. Who's turn next ?.

OLYMPIC GAMES.

"The Throwing the Hammer" Competition was won to-day by Sgt. O'Sullivan. Signaller S. Hennah was unbeaten in the Sub-calibre event.

Gunners only.

It is rumoured that a Rock Scorpion raised his eye-brows when the rock was hit.

DID YOU KNOW

That the Camp is never without music. In fact a certain music book automatically opens to 'Cowboy'.

That according to a message from Hooker's Point the "Titanic" was wrecked on the Wolf Rocks.

That a cortain Sergeant is contemplating fitting an aperture sight to his football boots in an endeavour to zero his elevation.

From Our Observer in Stanley.

That fifth shot was a hit orright! Young Jim saw it through his Alasses.

18th February, 1938.

The rain this morning did not hold up the programme of training. The Artillary social received instruction in the meaningm of the Lewis (an whit which we per all sections of the Force are making themselves acquainted. The afternion, the weather having improved, he section was employed on the 6" Gun.

The Machine Gun Section filled belts in preparation for its big day to-morrow when every member of the Section will shoot in the target practice.

The Signal Section continued its work under cover this morning but later in the day did communication work in the open.

A Hare Drive took place last night. The Harriers were a mixed pack from all sections and Captains Watson and Fleuret put down the barrage. Unless birth-rate increases, the next census should reveal a decline in the hare population.

Captain G. Kinneard gave a Lecture yesterday afternoon on prevention of sickness in the Army.

BARLOVA.

Little Les Bound sat on the ground,

Eating his Army Ration.

When he tasted his tea, his language, B'lieve me,

Amply described the sensation.

CONUNT)RUM.

One of the fish caught last night weighed a pound and a half plus half it's own weight. How much did it weigh ?.

19th February, 1938-

To-day was fine and sunny and pleasantly warm from mid-day onward. The Aptillery Section cleaned and made the 6" Cun snug until next time.

The Machine Guiners held their target practice with conditions made to order and in view of so many firing the gun for the first time the individual performances were very satisfactory. The Signal Section went afield with the lamps.

This morning Captain G. Kinneard and Chaplain Captain G. K. Lowe arrived in Camp for the Regimental Parade.

Dear Mother,

Well as I said I am writing to tell you how I like this Camp, but as me friend Howard said for the first few days I found it cold orright and blow - well, by--- it blew orright. I am in one of the huts the Officers are in tents they have one each but I say they can have them too. In the hut the bad language makes us quite warm sometimes and the stove helps too but those tents rock about enough to make anyone sea-sick. Blimy but we have to keep our huts clean and our buttons and things you wouldn't believe how fussy some people are. The Officers have orderlies to wait on them and when a whistle blows you know an Officer wants something. Sometimes it sounds just like a football match with the referee seeing everything going on which hasn't happened here yet. We get plenty to eat and some blokes brought cake and stuff too we lost the chopper it ricoshawed off a bun. The best fun is what the blokes here call hare drives everybody spreads out and shouts and tells everybody else what to do and the hares get frightened and run and sometimes they don't and run back and everybody shouts and waves flags and the guns go off. The fellows h like music and play mouth organs and accordeons the favourite is The fellows here 'Cowboy' and someone plays the calls that tell you what to do in the Camp. One of the Calls is better even than 'Cowboy' the other day it played when Joney was just going to kick the football and he didn't kick it but ran straight to the Hut and got out his musical instruments knife fork and spoon. Well I see the fellow they call the Sergeant Major coming. Well I'll have to clue up now.

Your loving Son, hoping your the same as it leaves me,

JIMMY.

After an exciting chase to-day by 27 men, Fte. J. Rvan with a flying tackle brought down a Sub-calibre hare.

20th February, 1938.

A Church Parade was held this morning under Chaplain-Captain G. K. Lowe.

The weather although windy, allowed it to be held in the open air. Music for the singing was provided by a good band of assorted instruments and the Chaplain gave a short address.

The Lewis Gun Section held target practice this morning.

Unfortunately the Camp terminates to-morrow morning. We are all agreed that a longer period should be arranged for next year and it is hoped that a week-end camp can be held in a few weeks' time.

The Camp looked at from the training point of view has been in every way a success. Every member of the Force has displayed the keenest desire to learn and the greatest willingness to do every job pleasant or unpleasant that has fallen to his lot. This has made the work of the Instructors and the running of Camp arrangements an easy task, and when the Lorries move off tomorrow to the strains of 'Cowboy' it will be with regret that we shall leave the vicinity of Canopus where for nine days we have enjoyed our work, games, music and meals.

In the Football Match last night Hut No. I proved itself better than Hut No. 2 to the extent of 1 goal to nil. The match to-night is being awaited with great impatience and will no doubt prove an interesting one.

This afternoon the Camp was visited by a great number of our friends who appeared to enjoy themselves in spite of the rather windy conditions prevailing. The Cook kindly worked overtime providing tea for us all as did the Orderlies.

I knew the Lighthouse was down that way orright.

Little Bill Jones down on the Stones, Shot a Hare with his rifle. He shrieked with delight at the animal's plight; His cries were something frifle.

Goal kickers to-night please remember the sky is no longer the limit.

Copies of the Canopus Chronicle will be distributed later to those who attended the Camp.

Stanley, 9th April, 1938.

Sir.

I have the honour to submit a report on the training of the Artillery Section carried out at Canopus Gun during the period of the Summer Training Camp from the 13th to the 19th of February, 1938.

Owing to the boisterous weather no Sunday, 13th. training was possible outside; instruction was therefore confined to Lectures indoors. The subjects dealt with were -

- (i) Gun Construction
- (ii) How to compensate for Drift.
- (iii) Sight Tests(iv) Method of making initial corrections. (v) Description of 6" Gun and mounting in

general. The Control Party was instructed in the use of the Vicker's Clock and Dumaresq while the Range Taker was shewn the method adopted for testing the Range Finder for accuracy and the observer for consistency.

The Breech Mechanism, the parent Gun Monday, 14th. and the sub-calibre gun were thoroughly cleaned and the breech mechanism assembled. Sights were shipped a sight test carried out and adjustments made. The Section were instructed in Gun Drill, the breech mechanism dismantled, and the Sub-Calibre gun shipped. The Control Party and Range Taker were engaged in carrying out Control Runs and taking ranges on various Tests for accuracy and consistency were objects. also made by the Range Taker.

- Five rounds were fired from the Sub-Tuesday, 15th. calibre for testing purposes. The gun was then cleaned and unshipped. The parent gun was thoroughly cleaned and the bore gauge passed. Breech mechan was shipped and Gun Drill proceeded with in which Breech mechanism the control instruments and Range Finder were brought into use.
- Wednesday, 16th. Gun Drill was first carried out followed by preparation for action. The 6" Breech Mechanism was dismantled and the sub-calibre gun shipped. The Section immediately went into action with Captain Watson as Control Officer. Twenty-five rounds of sub-calibre were fired and the targets engaged were the Wolf Rocks and a rock to the eastward of Hooker's Point. The results obtained were very satisfactory a number of hits being observed when in rapid 'salvos'.

The sub-calibre and parent guns were thoroughly cleaned. After unshipping the sub-calibre the 6" breech mechanism was assembled and Gun Drill proceeded

Thursday, 17th. Gun Drill preceded preparation for action. The 6" breech mechanism was dismantled and the sub-calibre shipped. A target was constructed and successfully launched off Hooker's Point by The target was engaged members of the gun's crew. at a range of 030 yards and 18 rounds of sub-calibre The shoot was observed by Sgt. W. were fired. Browning from Hooker's Point and the result was most satisfactory and reflected great credit on all The conditions were ideal. concerned.

The Section having completed their target practice proceeded to clean both guns. The subcalibre was unshipped and the 6" breech mechanism

assembled.

- Friday, 18th. Owing to heavy rain the Artillery Section were unable to do any outside work and they were instructed indoors in the mechanism of the Lewis Gun in the morning. The weather in the afternoon, however, improved, and 6" Gun Drill was proceeded with and the sub-calibre gun placed in a state of preservation.
 - Saturday, 19th. The Gun's crew and Control Party were engaged in Drill during the morning. In the afternoon the 6" Gun was placed in a state of preservation, Control instruments were packed and the Range Finder removed from its mounting and packed ready for transport to Stanley.

In conclusion I would like to place on record my thanks for and appreciation of the valuable assistance at all times rendered by Captain Watson and the keenness displayed by all ranks of the Artillery Section during the period of instruction.

> I have the honour to be, Sir, Your obedient servant,

9. fleurel Capt.,

Artillery Officer, Falkland Islands Defence Force.

No. (It is requested that, in any refer- ence to this minute, the above Number and the date may be quoted.)	1938 12th April, 19 38.
From The Officer Commanding,	To The Honourable
The Falkland Islands Defence Force,	The Colonial Secretary,
Stanley, Falkland Islands.	Stanley.

I have the honour to forward my report on the Annual Summer Camp held at the Čanopus Battery from February 12th to February 21st, inclusive, for the information of His Excellency the Governor.

The two six-inch guns can properly be called Port Stanley's first line of defence, and the necessity for training guns' crews was the factor deciding the holding of the camp at Stanley rather than at one of the settlements.

Necessary for the successful fighting of these guns are machine guns or light automatics and battery specialists. The battery specialists are needed for control work and communication while the others mentioned play the role of protectors from low-flying aircraft. The site of the Camp was well suited for the instruction of trainees in their particular work in these branches either for artillery or infantry operations.

The existing building at Canopus was found to be too small and another room was added with seventeen bunks. A large cookhouse was built and bunks were put into the room previously used as a kitchen. The building with these additions can now accommodate 42 men.

With the exception of a small amount, the material used for the additions came from the old Secretariat building. Two of the rooms lacked stoves and these were procured. Another range was kindly lent by the Director of Public Works. Tents were used for the Officers and the Officers' Mess.

Four Officers and 36 other ranks attended the Camp.

The instructors were :

- 2 -

Captain A. I. Fleuret... 2nd/Lt. L. W. Aldridge.. Sgt. W. Browning..

Artillery Section. Machine Gun Section. Signal Section.

The Medical Officer, Captain the Honourable G. Kinneard, inspected the Camp each day and gave a series of lectures dealing with the measures taken by the Army Medical Services and the individual soldier to maintain the health and physical efficiency of the Army in peace and war.

Chaplain-Captain G. K. Lowe visited the Camp on two occasions, holding a Church Parade on Sunday the 20th.

Captain A. I. Fleuret instructed the Artillery Section as well as performing his duties as Adjutant, and under him the gunners made very rapid progress, showed unfailing willingness and enthusiasm, and, in the firing practices, had the satisfaction of observing for themselves the outcome of their good team-work. Captain Fleuret was ably assisted by Captain D. R. Watson whose co-operation in this and other details of Camp work deserves special mention.

Lieut. Aldridge was unfortunately unable to attend the Camp on some days but in his absence, his syllabus of training was continued by Pte. C. Henricksen who has a sound knowledge of the mechanism and use of both the Vickers and Lewis guns with good instructional ability. Lieut. Aldridge carried out firing practice with these weapons at various ranges and targets on the last two days of the Camp. Very few of the Section had fired previously, and, taking this into account, the individual performances exceeded expectations. The work of Lieut. Aldridge and his men was highly satisfactory.

To train a Signal Section is a notoriously difficult task, so much depending upon the trainee's own effort and natural aptitude and enthusiasm. Sgt. W. Browning worked wonders and his men were handling messages very well indeed both by flag and lamp before the Camp finished.

- 3 -

Physical training in the form of running, games, etc., was given by Sgt. D. O'Sullivan each morning.

The Camp was fortunate in having Pte. J. Barnes as Cook. He bore the heat and burden of the day and his good meals were a feature of the Camp. The new cookhouse proved a great asset.

Marks were awarded each day for the layout of bedding and equipment and for the general appearance and cleanliness of the huts. Hut No. 2 scored the most points but both huts stood up well to inspection.

A very friendly but strong rivalry existed between the huts and added a considerable zest to the general Camp life. Each had its own football team and a game was played each evening marked by much humour and incident.

Altogether, the number attending the Camp, the keenness and willingness of the trainees and their capacity for taking in instruction, the absence of colds or illness and the notable good-feeling among all ranks made the running of the Camp an easy matter.

With the exception of three days, the weather during the period of training was not good, but holding instruction indoors was necessary only on one day.

A daily news-sheet was issued each day recording happenings in the Camp.

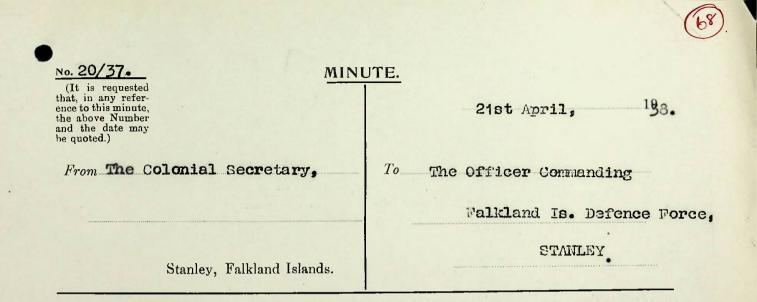

Captain A. I. Fleuret has furnished a report on his syllabus of Artillery training and it is attached hereto with other papers relative to the running and expense of the Camp.

For the Camp next year I would suggest that a hut

be/

be built to house the Officers of the Force. The tents were a source of some anxiety at times.

S Manshall Major, Officer Commanding, Falkland Islands Defence Force.

I am directed by the Governor to acknowledge the receipt of your Minute of the 12th of April, 1938, forwarding a report on the Annual Summer Training Camp held in 1938.

2. I am to inform you that His Excellency is exceedingly pleased with the success of this Camp and congratulates you and all ranks on the training carried out and the excellent spirit maintained throughout.

Colonial Secretary.

No. – MINU (It is requested that, in any refer- ence to this minute, the above Number and the date may be quoted.)	UTE. 3rd June, 19 38.
From The Officer Commanding,	To The Honourable
Falkland Islands Defence Force,	The Colonial Secretary,
Stanley, Falkland Islands.	Stanley.

I have the honour to request the approval of His Excellency the Governor and Commander-in-Chief in connection with the proposed Mounted Infantry Training Camp to be held at Douglas Station from 11th to 18th June inclusive.

In addition to the men at Douglas detachments will attend from Port San Carlos, San Carlos and Teal Inlet. I have obtained from the owners of these Stations permission for men of the Force in their employ to attend.

NO.

29th June, 1938

From The Commanding Officer,

F.I. Defence Force.

To The Honourable

Colonial Secretary.

Stanley, Falkland Islands.

Stanley.

I have the honour to forward for the information of His Excellency the Governor and Commander-in-Chief my report on the Mounted Rifle Training Camp held at Douglas Station from 12th to 18th June inclusive.

I left Stanley on the 11th inst. travelling by the "Alert" to Green Patch. Lieut. Greenshields met me with his boat at Anson and we arrived at Douglas Station at 7 p.m. that evening.

The trainees had already assembled at Douglas and the troop consisted of six men from Douglas Station, five from Port San Carlos, five from Teal Inlet and one from Rincon Grande. Unfortunately, Mr. Bonner, San Carlos was unable to allow his men to attend.

However the number enabled me to form a troop consisting of four Sections and sufficiently large for demonstrating the drill and other work of Mounted Rifles. One Section was formed of Teal Inlet men, another of Port San Carlos men, another of Douglas men and one composite.

Section Commanders were appointed and were given N.C.O. rank before the Camp finished. They all proved capable of handling and drilling their Sections, were given extra instruction and I am quite sure they will hold their Sections together and gather recruits.

The drill and behaviour of the troop throughout the camp was most encouraging and in the tactical exercise all acquitted themselves well.

I was fortunate in being able to commence the formation of Mounted Rifles, at Douglas Station, where already Lieut. Greenshields has created a military outlook and atmosphere. His preparation and enthusiastic support ensured the success of the camp, and he adapted himself to the Mounted Rifle training without effort.

I was also much impressed with the way the Miniature Rifle Club is organised and run at Douglas.

Lieut. Greenshields generously supplied mutton and horse fodder for the Camp, but this cannot be expected at future Camps when numbers will be greater.

I anticipate a Camp of three troops next year. One at least I think should be formed in the Falkland Islands Company's territory, and from the number of applications to join already received, another troop will soon be formed in the North Camp.

Every member of the troop received instruction in signalling and knowsenough now to go on and make himself perfect by practice.

Lieut. Greenshields brought me back by boat to Horse Shoe Bay on the 20th and the "Alert" brought me into Stanley on the following day.

Copies of orders etc. are attached.

Further amount required		£80.	9.	0.

It will be observed that the cost of victualling amounted to Is. 7d a day per man.

Stanley, 15th March, 1939.

Sir,

I have the honour to submit, for the information of His Excellency the Governor and Commander-in-Chief, a report on the Defence Force Summer Training Camp which was held at Canopus Hut from the 27th of February to the 8th of March, 1939, inclusive.

Accommodation.

2. The accommodation consisted of -

Officers quarters 4 Huts 2 Bell Tents 1 Marquee Tent.

The existing buildings at Canopus were found to be totally inadequate for the large number attending the Camp this year and additional huts had to be borrowed from the Public Works Department in which 18 new bunks Two bell tents were borrowed from the were fitted. Agricultural Department in one of which 3 bunks were placed. Four extra bunks were also erected in the existing building making a total of 25 additional bunks. The large marquee tent hired from Mr. W. Hills was used as a Mess Room as well as for instructional purposes during wet weather. Separate quarters were constructed for the Officers and contained sleeping accommodation for five in addition to an Officers' Mess.

Transport and Making Camp.

3. Equipment, bedding, ammunition and all arms were despatched to the Camp at 9.0 a.m., on the 27th of February by motor transport. All ranks attending moved off from Headquarters at 10.0 a.m., arriving at Canopus

Hut/

THE HONOURABLE THE COLONIAL SECRETARY, STANLEY. Hut about 10.30 a.m. The work of making and cleaning Camp was begun immediately and completed by 4.30 p.m.

General remarks on Training.

4. Training commenced at 7.15 a.m., on Tuesday the 28th of February and continued daily until noon on Wednesday the 8th of March, when Camp was 'struck' and all ranks returned to Stanley. The syllabus of training is given in Appendix "A". In spite of adverse weather conditions little variation was made in the syllabus. Full calibre and Machine and Lewis Gun firings were postponed from Monday the 6th to Tuesday the 7th of March. It was my intention also to end the Camp with a Field Day including all arms but this was not possible for the reason stated above.

Good progress was made in every branch of 5. training and the enthusiasm and kemnness shewn by all ranks to say the least was most encouraging. Two Artillery Crews were in Camp and they were instructed in the correct method of emptying the Recoil Cylinder, removing the Run Out Springs, Running the Gun 'In' and 'Out', assembling the Breech Mechanism and Sights, and of carrying out Sight and Obturation Tests. They were also given Gun Drill. The Controls were exercised in the use of their instruments with Dummy Runs and the Range Takers were given instruction in Range Finding both by day and by night. The crews had the satisfaction of observing for themselves the result of their training on the 7th of March when full calibre firing was carried out at a target measuring 12' x 8'. The target was towed to sea by the "Alert" and cast off at a position 3,000 yards due south of Cape Pembroke Lighthouse and distant some 5,400 from the Gun. Fifteen rounds with half-charge were fired and it is calculated

that/

Appendix "A".

that 10 hits at least were registered.

6. Two Sergeants, one Corporal and eleven privates were given instruction on the Lewis Gun which included theory, maintenance, handling, stripping and stoppages, and the principles of Lewis Gun A/A Defence. They were also exercised in advanced handling in the field. Firing at balloons attached to a kite representing aircraft, was also carried out and finally the Section was put through a modified course using steel plates and a Lewis Gun Screen. This course included stoppages, ranging, action and distribution. It is proposed to continue this training during the winter with A/A as of first importance using a model aeroplane in the Drill Hall and a spot-light.

7. One Sergeant, one Corporal and nine privates attended the full period of training on the Vickers Gun, and four members of the Brass Band attended part-time. The first days of training were devoted to elementary gun drill, stoppages with dummy rounds and instruction in the various practices to be carried out on a Part I M.G. Target at 25 yards range. Each man was subsequently exercised in Immediate Action and Rectification of Stoppages with ball ammunition, six stoppages in a belt of fifty rounds per man being allotted. All but four men fired their M.G. Course on a Part I Target at 25 yards and these will be put through on the Rifle Range as soon as circumstances permit. On account of weather conditions instructional practices at 600 and 1,000 yards had to be abandoned and time did not permit of detailed instruction being given in the use of the various instruments attached to the Vickers Machine Gun.

8. The Signal Section of the Defence Force now numbers twelve. It is composed of young lads full of enthusiasm. Eight members attended the Camp and were given/

- 3 -

given instruction by C.S.M. Summers and Sgt. W. Browning under whom they made rapid progress. Towards the end of the Camp this Section shewed a marked improvement in the handling of messages by lamp, morse and semaphore. Tests in Wireless Telephony between Canopus Hut and the "Alert" and Stanley were also carried out with satisfactory results.

- 4 -

9. Physical training in the form of running, games, etc., was given each morning by Sgt. D. O'Sullivan. He also took the Recruits in elementary drill.

10. The Brass Band with Cpl. W. Summers in charge practised daily from 9.30 a.m., to 12.30 p.m., taking a keen interest in their work. There were 14 members present.

11. Captain the Honourable G. Kinneard, Medical Officer, inspected the Camp daily and Chaplain-Captain G. K. Lowe visited the Camp on several occasions holding Divine Service in the Marquee Tent on Sunday the 5th of March, at which some 60 members were present.

12. Huts and all parts of the Camp were inspected at 10.0 a.m., daily. Points were awarded for the general lay-out of bedding and equipment and for the appearance and cleanliness of the huts; a strong but very friendly rivalry existed between them. Each had its own football and tug-o-war teams and many interesting matches took place. The health of the troops generally was excellent.

13. We were again fortunate in obtaining the services of Sgt. J. Barnes as Cook. Great credit is due to him and his assistants for the most efficient manner in which they dealt with the difficult task of cooking and for the excellent meals provided.

Appendix "B". Appendix "C". 14. A list of the personnel in Camp and a copy of the Standing Orders are attached.

15./

15. His Excellency the Governor and Commander-in-Chief paid visits to the Camp on the 6th and 7th of March and the interest shewn by him in all branches of the training was much appreciated by all ranks.

- 5 -

16. On the whole it can be said that the Defence Force Training Camp this year was a most successful one. It has not only improved the efficiency of the Force but it has instilled in the men a greater spirit of comradeship. No complaints came before me and a happy atmosphere appeared to exist amongst all ranks during the whole period of the Camp.

17. In conclusion I would like to place on record my appreciation of the work done and the assistance rendered to me by all Officers concerned and in particular R.S.M. Sheppard whose example and interest in the training of the troops made the work of running the Camp an easy matter.

Costs.

18. A sum of £160 was allowed in the estimates to cover all expenses in connection with the Camp. When this provision was made it was not anticipated that such a large number of members would attend and the amount will therefore be exceeded by the figure shewn in the attached statement of expenses. As it is extremely unlikely that a team will be sent to Bisley to represent the Colony this year there will be ample savings under the Military Head to cover the excess expenditure and I would be grateful for authority to submit a Special Warrant for the additional amount required.

Recommendations.

19. There can be no doubt that the holding of an Annual Summer Training Camp is the best means of obtaining efficiency in the Defence Force and every effort should, in

Appendix "D".

my opinion, be made to continue these Camps. The site at Canopus is well suited to the training of all branches of the Force. It is in telephonic communication with Stanley, food supplies can be readily obtained and the transport of equipment, guns, instruments, etc., presents no difficulties as a road leads to the site.

20. The existing buildings, however, are not well sited either from a military or a health point of view. They are built in a valley and are visible from seaward. In wet weather water drains towards the buildings the result being that the immediate surroundings become very muddy and swampy. The accommodation too is limited and the huts were cramped this year. It was found necessary to cook in one of the huts in which 10 men slept. The present buildings cannot possibly sleep more than 42 men. Sixty-eight men and 3 Officers attended the Camp and I anticipate that 80 will be present next year. Under the existing arrangements it will be necessary to provide or borrow additional huts and to erect bunks with consequent increase in the cost of transport, construction, etc.

21. It is laid down in the Defence Scheme that the buildings at Canopus should be removed and re-erected on a site where they cannot be observed from seaward. The most suitable site to my mind is one about 200 yards north of the gun. The spot is well drained and if the buildings were erected on it they would not be visible from any bearing from seaward or from Port William, but they could be seen from the Signal Stations at Sapper Hill, Mount William and Mount Low and also from Cape Pembroke Lighthouse, the Wireless Station and Goldsworthy Rock. This would be an advantage in an emergency/

- 6 -

emergency as messages could be passed to all Stations from this site by signal without revealing its position.

22. I would submit, therefore, that serious consideration be given to the question of demolishing the buildings before next Summer Training Camp and of erecting a building large enough to sleep say between 70 and 80 men together with a galley properly fitted up. This may at first sight appear an expensive undertaking but having regard to the sums already expended each year on transport of huts, erection of additional bunks, etc., I consider that the additional cost is justified. A large proportion of the materials in the existing buildings could no doubt be utilized thereby reducing the expenditure. For a Mess Room for the men, I propose to obtain from the United Kingdom an Army Store Tent 50' x 20' the cost of which can be met from Defence Force Funds.

I have the honour to be,

Sir,

Your obedient servant,

Genser

Capt., Adjutant, Falkland Islands Defence Force.

NOTICE.

Tenders are invited for the erection complete of a hut approximately 21' x 58' to provide sleeping accommodation for 75 men.

The hut is to be erected on a site as will be pointed out in the vicinity of Canopus Hut at Whalebone Bay.

The contractor is to supply all materials necessary for the building and may also utilise any suitable material from the present hut, all of which will be transported to the site by the Government.

The Government does not bind itself to accept the lowest or any tender, and tenders from bona fide builders only will be considered.

Plan and specification may be seen on application at the Public Works Department.

Tenders should be forwarded in sealed envelopes marked "Tender for Hut" addressed to The Chairman of the Tender Board, not later than noon on Saturday the 22nd of July, 1939.

HUT FOR FALKLAND ISLANDS DEFENCE FORCE.

epocification.

The contract is for the erection complete of a building $21' \times 58'$ in compartments and fitted with wooden bunks for the accompodation of 75 men, as plan.

The building is to be set on piles which are to be spaced sufficiently close together to give the building good stability.

The external covering consists of felt and galvanised iron and lined internally with 1/2" matching to top wall plate.

Interior partitions of 2" x 3" scantling are to be exected to the height of the top well plate and lined on one side with 1/2" matching.

The roof to be covered with felt and galvanised iron laid on wire metting, and three ventilators are to be made and fitted, louvre design.

Doors are to be made of 1" T & G flooring and fitted with drip or weather board.

Hach compartment is to be fitted with bunks, as plan, each 2' x 6' and built two bunks high.

Plan of building with list of materials to be used in construction is available for the contractor's use, and it is to be clearly understood that the price of the contract is to be for the whole work and that there are to be no extras.

The Covernment will transport all materials to the site and the contractor is to maintain sufficient labour to carry out the work in a workmanlike manner as expeditiously as possible to the matisfaction of the Covernment Officer supervising, the site to be left in a neat and tidy condition on completion.

I, the undersigned hereby agree to carry out the above work in accordance with plan for the lump sum of
