Chief Constable.

SUBJECT.

192 3

POLICE STATION

6th February

Suggested alterations to:

Previous Paper.

Housing of Public Beer.

MINUTES.

Minute from Chief Constable of 6th Feb: 1923 ————— *End (1)**Attack map on which first application was made
Police Estimate for 1923 7/2/23**Ch. The object is as stated in map 58/22
to have a room for the police apart
from the charge room. This shall be a
part of ^{and reading} mess room — part of the room
being divided off to make a small office for
the Chief Constable.**Will you kindly report early. A
table and two Windsor chairs and one
arm chair should be provided**Attest. 7/2/23*

Subsequent Paper.

The Hon. Col. Secy.,

Report submitted herewith on separate

sheet.

R. B. Basely.
Colonial Engineer.
18/2/23.

The Treasurer C.M.

Have you any objection to the
Bier being put in the Waiting Room
so long as it is covered over?

T.W.H. 21/2/23

Hon. Col. Sec;

May I enquire for what length of time is it proposed to place the Bier in the Customs Waiting Room at the Public Jetty, the Suffernance Landing Place (S.10 of Ordinance No.6 of 1903). If I mistake not, the Legislative Council were informed in a message from Governor Allardyce that a Customs Waiting Room was urgently required to accomodate Passengers arriving in the Colony or departing therefrom, and it was for this purpose that the money was voted and the building erected. Owing to the exceptional fine weather experience during the last few months, the Customs Waiting Rooms have not been in such demand as on ordinary occasions and I hardly think the Customs Waiting Rooms a suitable place for the storage for any length of time of the public bier. I may add here that the Colonial Engineer has been to see me with a view to obtaining the use of the Customs Warehouse (East End) for the storing of certain Government material expected to arrive in connection with the Housing Scheme, and I have offered no objection to such an arrangement and I have already given instructions for the keys to be handed over to the Colonial Engineer. Possibly the Colonial Engineer may, after further consideration of this matter, may be able to discover some more suitable place connected with his own department, where the bier can be stored than the Customs Waiting Room. I am inclined to think that possible the public may have some objection to such an arrangement, please.

W. Thompson

Colonial Treasurer.

C.E.

Is it not possible to find
room for the bier in the north
east portion of the Police Station?

ttttt 24/2/23

The Hon. Col. Secy.,

I fear it is not possible to
find room for the bier and also provide an office
and mess-room in the present east section of Police
Station.

2. I would suggest that a lean-to to be built on
the site of the porch to the north of the east room;
the estimated cost being about £20.

R. B. Baselen.

Colonial Engineer.

W.H.H. 31 Aug 23

Hon Col Secretary
Sir,

(1)

at present there is a spare
room attached to the Police Station.
I beg to request that this room be
~~divided~~ divided in two, so as to enable
me to have an office for myself and
a reading room for the Police
I am Sir

your obedient servant

W/O Suttman
Chief Constable

6/2/23

The Hon. Col. Secy.,

I have inspected the east room at the Police Station and would suggest the following alterations etc.

(1) At present the bier is housed in the east end of room and should it be decided to convert this room into an office for the Chief Constable and reading room for the Constables the bier would have to be housed elsewhere. I would suggest that it be placed in the Waiting Room at the Public Jetty. I am informed that this room is rarely used and, further, no alterations etc. would be required to accommodate the bier.

(2) The east room is approximately 20' long and it is suggested to erect a partition about 7' 6" from the east wall, so forming on the one side an office with floor space of about 7'6"x 12' and on the other a Reading Room with floor space of 12'x 12'. In the centre of partition a double flue chimney to be built for stoves. The present door-way in the N.E. corner of room to be made up and a door placed in the east wall to give entrance to the office. Alteration to be made to the entrance to the reading room by setting back the door opposite the main entrance to the Guard-room about 3'. This will allow the entrance to the reading room to be from the Guard room instead of having to pass through the store-room.

(3) Work required; lining ~~of~~ east wall, making up existing doorway, fitting new door, erecting partition, building chimney, painting and decorating, making and fixing fittings for Office and Reading Room.

Suggested fittings etc. for Office.

1 built-in cupboard, about 8' long, with shelves.
2 chairs.
1 lamp.
1 writing table, with drawer.
Floor covering and door-mat.

Suggested fittings etc. for Reading Room.

1 table.
1 drop-leaf writing table.
6 mess cupboards, about 18"x 18"x 12", in one nest.
2 chairs. One easy chair.
1 hanging lamp.

The Chief Constable wishes to have a wash-stand fitted in the small room to the north of the Guard room. I would suggest that one ship's washstand be supplied.

(4) The estimated cost for material and labour for the above work is £130.

W. Marshall
Colonial Engineer.
18/2/23
