The police have not been generous in the performance of their duties.

In other communities the acts of so-called bootleggers would have been put a stop to earlier because the public assist the police, and I submit the second para. of the letter of the 13<sup>th</sup> of September contains the just view.

It has necessarily I think been a question of time before culprits would be caught and although none has actually been found breaking windows etc. the police have successfully prosecuted cases of window with it may be hoped salutary effect.

2. Mr. Turner might be informed that Y.F. has learnt with regret of the damage to his property and that in the opinion of the police the ~~responsible~~ ~~responsible~~ police action has been successful in securing the punishment of persons guilty of window in the vicinity in the night of the occurrence.

3. Mr. Fresham maintains his opinion that it is practically futile to report offences to the police at the

time of the occurrence and it does not appear that any foul can result from discussing or republishing his views?

The Falkland Islands Company, Limited,

Stanley,

20th July, 1923.

Sir,

The recent serious robbery from our lighter "Lafonia" which was perpetrated about the 7th instant compels me to ask, seeing that this is the culminating episode in a series of robberies and hooliganism, whether means cannot be devised to ensure more adequate police protection for the property of my Company and of others in Stanley.

2. The incidents to which I refer, such as stealing from meat safes and clothes lines, removing gates and bridges, sending indecent matter through the post, are all known to the Police, and it seems inconceivable to the writer that these crimes would remain undetected if more energetic steps were taken, especially during the dark hours, when most of these acts are perpetrated.

3. The difficulty of detecting isolated cases of petty thieving etc. is realized, but one has to consider the fact that the perpetrators of such acts are brought to justice in other communities where the proportion of constables is far less than 1 to 117 of the adult population as is the case in Stanley.

4. I shall be obliged if you will bring this letter to the notice of His Excellency the Acting Governor, as I feel sure that he will agree that the time has arrived

The Honourable

when a strenuous effort must be made to apprehend the criminals, who, during the last few years have defied arrest and who, in fact, seem to have matters all their own way.

the following are the offences reported during the year of 1923

1) On the 8 of March /23 Mr Garrison reported finding some of his fowls dead. they were examined and their crops taken to the Col Surgeon for examination. The Police kept watch on paddock but no one was seen about.

2<sup>nd</sup> May Capt Roberts Office door was found open but nothing reported missing.

20<sup>th</sup> April /23.

The Manager of the Y J Co<sup>ms</sup> Ltd reported that stores were stolen from the East Store, and that entry had been made by a false key.

Police kept continuous watch, and found that entry was not made by a false key but by a trap door, which I understand existed for years between the Horse Stable and the Store, this I reported to the Manager and he was not aware that such a trap door existed we kept further watch, and I requested the Manager to have the trap door secured, owing to the lack of supervision of his caretaker.

13 June /23

Two Turkeys were stolen from Mr Robson, <sup>sen</sup> afterwards found stowed in Peat Stack on Peat Bog. suspected youths were taken to Police Station and questioned, there was not sufficient evidence for the Police to prosecute.

15 June /23

Street Lamps were tampered with, this was done ~~when~~ during the time the Police were closing Licensed Houses. The offenders are ~~watched~~ known to the Police and are carefully watched but up to

the present we have not sufficient evidence to prosecute.

July 9<sup>th</sup> /23.

at 12 noon report from the Manager of the F I Co<sup>ltd</sup>. that the cargo of the Lighter Lafonia had been broken into on the night of the 7/23.

The Police made enquiries and on the evening of the 9<sup>th</sup> were in possession of information that might lead to the conviction of the person or persons who had stolen property on their premises.

The Police immediately applied for a list of the stolen articles so that information could be sworn and search warrants procured.

This list was not received by the Police until 6.30 p.m. on the 11<sup>th</sup> July/23

at 10 a.m. on the 12<sup>th</sup> July. search warrants were got.

You will note that this robbery was committed on the night of the 7<sup>th</sup> July. nothing reported to the Police until 12 noon on the 9<sup>th</sup> July, list of stolen property could not be obtained until 6.30 p.m. on the 11<sup>th</sup> July, during which time the offenders had plenty of time to dispose or destroy stolen property.

on inspecting the lighter Lafonia on noon on the 9<sup>th</sup> inst I found that the hatches were not locked, and that the bulk of the stolen property was removed from right beneath the hatch.

26<sup>th</sup> July

at 10 a.m. The Manager of the F I Co<sup>ltd</sup> informed me that the storekeeper at the Millinery Store had seen a certain person some time previous, take a lady's jumper from the store, and that arrangements had been made, in case of a repetition, the Police would

at once be informed.

no information was laid by the J.I.C.

may I add that at the beginning of this year, I personally kept observation on the J.I.C. back store, West End. I noticed that when goods required for sale was wanted, that this store was opened by means of a pr of Pliers.

I informed the manager and invited him to meet me at the West Store during the dinner hour, then with a pr of pliers I opened the door myself, and made the remark.

'help yourself!' inside the door was laying whole cheese bacon and hams hanging up and other goods.

The manager knew nothing of this until I reported it to him.

no later than the 10<sup>th</sup> inst I called the attention of the Manager to half a side of bacon laying in the West Store yard

presumably to be taken away.

nevertheless the Police are in hopes of bringing the offenders to justice

I regret not adding to my report, that on the 13<sup>th</sup> June on that night the Common gate was unhinged the Police have several times, when they thought suspicious people were about watched that vicinity.

There has been no report of indecent letters passing through the Post this year, with exception of two anonymous letters received by the Manager of F.I.C. on the 18 & 19 of July.

They were simply letters advising him to keep watch on several of his iron servants, giving their names on Wed 15 inst the Common gate was taken off its hinges but no damage done.

27th August, 23.

Sir,

I am directed by the Acting Governor to acknowledge the receipt of your letter of the 20th of July enquiring whether means cannot be devised to ensure more adequate police protection for the property of the Falkland Islands Company and others in Stanley.

2. His Excellency desires me to state that it is in the view of the Government, essential in the interests of law and order that police protection should be adequate; it would appear from the official records that there is remarkably little actual crime in Stanley; it is not however possible to state whether this is due to the efficiency of the police, the law abiding nature of the inhabitants, or the reluctance of the people to report offences to the police.

3. The offences reported from the 1st of January to the present date have been as follows :-

- (1) 20th April. The Manager of the Falkland Islands Company reported that stores had been stolen from the East Store and that

The Manager,  
Falkland Islands Company, Limited,  
Stanley.

entry/

entry had been made by a false key. The store was kept under observation. The police found that any person who so desired could enter the store by a trap door between the horse stable and the store without hindrance, and it appeared probable that this mode of entry had been used. It is understood that a caretaker is employed by the Company to watch these premises.

(2) 13th June. Two turkeys were reported to have been stolen apparently by mischievous youths. They were found some days afterwards stowed away in a peat stack.

(3) 15th June. A ladder attached to one Street Lamp was tampered with - no damage was done beyond a bolt being twisted. The offenders were known to the police but there was insufficient evidence on which to prosecute.

(4) 9th July. At noon on this date the Manager of the Falkland Islands Company reported that goods on board the lighter "Lafonia" had been stolen on the night of the 7th of July. The hatches on board the lighter were found not to be locked and free entry was obtainable. There was not even a tarpaulin over the hatch. The list of goods stolen was not furnished to

the/

the police until 6.30 p.m. on the 11th of July thus giving the offenders ample time to dispose of or destroy the stolen property, part of which has however already been recovered by the police..

- (5) In addition to the above the common gate has been twice unhinged but not damaged in any way. No reports have been received this year of any stealing from meat safes or clothes lines or the sending of indecent matter through the post.

4. I am to add that the Chief Constable reports further that he drew your attention early in the year to the fact that your West Store was commonly opened by a pair of pliers by your employees when goods were required.

5. His Excellency suggests that the above report does not indicate that there has been a series of robberies and hooliganism or that there are criminals at large "who, during the last few years, have defied "arrest and who, in fact, seem to have matters all "their own way" as stated in your letter.

I am,

Sir,

Your obedient servant,

G. R. L. Brown,

The Falkland Islands Company, Limited,

Stanley, Falkland Islands,

534723.

Sir,

I have to acknowledge the receipt of your letter of the 27th instant and beg to say that I fully realize that it is the wish of the Government to provide adequate Police protection. The object of my letter of the 20th July was to enquire whether the methods at present adopted by the Police for the prevention of crime could not be improved upon.

2. While it would appear from the Official Records that the acts of hooliganism and petty thefts referred to in my letter do not occur, it is well known in Stanley that they have occurred in the past and still do, and I think that on consideration it will be admitted that the reporting of these matters to the Police after the event is practically certain to be fruitless.

3. As regards paragraph 3 of your letter there are one or two points to which I beg leave to refer:-

- (1) The trap door referred to leading from the stable to the back shed was not the mode of ingress, as was at once apparent on examination of the floor above the trap door; this floor was deep in dust which had not been disturbed. It is true that a caretaker is employed by the Company, but only in connection with the Office premises. While he was asked to keep a "look-out" he has never been looked upon as a night watchman.

The Honourable

The Colonial Secretary.

(2) While it is true that we were compelled, owing to the large amount of cargo which arrived by the "Oropesa", to use a lighter without the usual locking bar, in our opinion this would not have prevented the burglars from effecting an entry - the use of a small hack saw being all that would be necessary.

The fact that the Police were not in possession of the list of stolen goods earlier was unavoidable. The burgled cases were immediately brought ashore and the remaining goods, which had been put back in wrong cases, compared with the invoices. This took considerable time.

There are two cases not alluded to in your list; in one a man is for trial for forgery; the other was a case of peat stealing. Furthermore, according to a notice on the Gazette Board, there appears to have been another case, quite recently, of theft of material from the Tabernacle.

4. As I have stated above, it is more efficient preventative methods that are required, and I feel sure that if the matter were thoroughly gone into with this end in view benefit to the community would accrue.

I am,

Sir,

Your obedient servant,

*W. H. R. Gresham*

Manager.

Hon  
Col Secretary  
Sir,

with reference to letter  
from the Manager of the F.I.C. on 30 August  
1923.

on the night of the 14<sup>th</sup> July on examination  
of the floor above the trap door, the  
Manager told me that footprints had  
been seen on the dust. This proves  
if entry on this date was made by  
the trap door, it had been made  
previously.

on the 14<sup>th</sup> July May of this year, the  
Police reported to the F.I.C. that a  
certain man had removed from  
the West store at midday on the 12<sup>th</sup>  
a pudding basin and taken it  
away. The Police was unable to pro-  
ceed with this case as the F.I.C.  
could not certify to having lost  
the above named article.

The question of peat stealing has  
been reported in this paper.  
The question of forgery, the matter  
is awaiting trial

Sir,

I am directed by the Acting Governor to acknowledge the receipt of your letter of the 30th of August, regarding the alleged inadequacy of the police service and to say that the date to which the police record was given in my letter of the 27th of August should have been the 14th of August and not the date of the letter.

2. I am to add that although in His Excellency's opinion the greatest obstacle to effective police control in the past has been the reluctance of the public, including the Falkland Islands Company, to report offences and come forward as prosecutors, yet every endeavour will be made to increase police supervision for the prevention and detection of crime:

17th July, 1924.

Sir,

I beg to advise you that sometime during last night one of the downstairs windows at the back of my house was broken by stones thrown from the road or, more probably, from the vegetable garden. No noise was heard by my household during the night.

2. I understand that a similar occurrence took place at Waverley House only a short time ago and as such acts have a disturbing effect, especially when women folk are by themselves in a house, I beg leave to draw attention to my letter of the 20th July, 1923.

In answer to that letter His Excellency the Acting Governor, replied to the effect that he could not agree with the views I expressed, basing his opinion on the fact that few offences had been reported to the Police. Whilst it is natural to conclude from the few reports made to the Police that little hooliganism exists in Stanley I beg leave to point out that this gives no indication of the true situation. From opinions which I have gathered the reporting of these offences on the following day is looked upon as practically futile and with this I agree.

3. I realize that this particularly cowardly form of hooliganism, i.e. the throwing of stones in the dark, is difficult to deal with, but, I trust that the Police will devise means to catch the perpetrators in the act, and that if caught, they will be dealt with rigorously. There is no doubt that if they continue to escape punishment such crimes will be on the increase.

4. In conclusion, I may add that I do not consider that these acts are performed by mischievous lads on the

Saturday night the 26. 7. 24 I parted  
from the Senior Const near the  
Colonial Surgeons house at 11½ pm.  
he going to his lodgings, and I going  
to the Police Station. I again left  
the Police Str at 12 midnight and  
patrolled Ross Road. Five or six  
men from the oil Tanker lying in  
harbour was on the road in front  
of me as I left the Str. They went  
down on the F. I. Boys East Jetty  
and went aboard the boys motor  
launch to be taken to their ship  
I remained near the Jetty until  
the launch left at 12½ am

I then patrolled via Globe Store  
& Stanley Arms. I halted at the latter  
place for about 10 minutes, and  
during that time a number of  
guests left. Waverly House and passed  
me. Amongst them was Mr Gresham  
Three men named Victor Atkins  
John Barnes, & Mark Campbell  
came out of Mr W. Atkinson's  
boot repairing shop and I walked

up the middle road with them  
as far as Pioneer Row. I patrolled  
through Pioneer Row and via  
the Rose Hotel & John Street to  
the Public Jetty & halted there for  
some time. I then went via Ross  
Road to the Station and entered  
it at 2 $\frac{1}{2}$  am. I patrolled east-  
wards several times between  
the hours of 3 am and 6 am  
and met no person or persons  
except as stated above. I saw  
nothing suspicious during my  
tour of duty.

I have the honour to write you with reference to certain damage that was done to my Fathers property.

In the early hours of the morning of the 7th inst my Mother was awakened by a loud crashing noise, as it was blowing fairly fresh she thought something had been blown down in the yard and did not look to see what hour it was, but she considers it was after One O'clock A, M,

About 7.30 A, M, she noticed that three battens had been torn from the fence, in front on the Ross Road & were lying near the Conservatory windows, she also found that five of the said windows had been smashed in presumably by the battens being thrown at them, causing damage which I estimate at about £2.

As this is not the first occasion that either my own or my Fathers property has been destroyed, I would be pleased if more strict supervision could be made by the Police.
