Sir

I have examined the Hides
under your charge, and for which my
Brother in London proposed a price to
the Admiralty, but from the state they
are in, and their size and quality, it will
be quite impossible for me to purchase
them on these terms. —

There are 324 sound dry Hides,
and 203 damaged dry D^{rs}; for the former, I
now offer 4^{sh} each, and for the latter 2^{sh} each, &

Sir,

I have the honor to acquaint you that I have found it necessary to send one of the Settlers named Joseph Adley man from the S. B. a prisoner in C. M. R. Johnson from the following circumstances -

Mr. A. had made use of some insulting expressions to Mr. Schellie, the latter immediately knocked him down & then the case was brought before me - I found that very aggravating language had been used by both parties. I told them they ought to be ashamed of themselves, to go away quietly this time, but if I heard any more disturbances I should place them both in confinement - Mr. A. then told me he was sorry to see such a person as myself sitting there as a magistrate, that he showed no justice, & that I was not fit to hold the situation I am in, I shook his fists at me & continued using this kind of insulting language until he was taken out of the room by the removal of Mr. Schellie - I immediately placed him in confinement for the night & warned him next morning that he should quit the Island on the first opportunity - This Sir is not the only instance of Mr. A.'s outrageous conduct. I have just he lodged a complaint against one of the Settlers about drawing a knife on him, on investigating the case it was found

Commissioner Schellie (B.)

without the slightest formalation all the witnesses called by M. R. denying having seen a knife or heard a threat of using one, & examining the last witness, while in the act of giving his evidence M. R. struck him in the face, black his nose & mouth & called him a d-d liar, for this his punishment was lenient he being only confined a few hours. My duties having called me away to Port Williams I was not present at this last mentioned disrespect on the part of M. Adelman. As the inhabitants are aware of the insulting language & bad conduct of this person towards me, I hope Sir that you will not deem it necessary to send him back to the Island under any specious plea which he may offer. I offered him a passage for his wife & family in L. R. C. Sparrow but he protested so much that I allowed him to remain.

He is the only one of the Settlers who has shown me any disrespect during my residence here. I consider this man's conduct so bad an example that I have thought it necessary for the well being of the Settlement that it should be checked in its infancy. He has given a great deal of trouble to former Officers in Charge.

I have the honor

Sir, Having been directed to dispose of hides laying in the store at this place in the most suitable manner to Mr. Whittington who had offered to pay £1.2.6 for this day & 1/4 for salt ones, I proceeded to do so, but Mr. Wh. on inspection not finding them so good as reported wrote me on the subject, a copy of which letter I enclose, & being well aware that by keeping the hides in store they will gradually decrease in value I embraced his offer & have disposed of 324 & 1/4 & 1/2 and 202 & 1/2 each Mr. Melville of the Phoenix Post Office has taken 100 salted hides at 2/2 each being tolerably good, the remainder are very bad & I intend using them for Settlement purposes.

Sir, Since my last communication to the Admiralty by the Cass nothing of importance has occurred in the Settlement which is not mentioned in my other communications. The gardens are looking tolerably well, having been neglected, the young trees appear at present healthy. I have planted some others which were brought in by Mr. Melville from St. Kitt Island. The Ranchos arrived from the camp after being there 3 weeks with 100 head of cattle but the poor old horses are in such a state that I really imagine few of them will survive the winter unless others are sent it will be impossible to carry on the business of catching & taming the wild cattle.

Commodore Sullivan C.B.

Yours

Gear for the horses is also much required, &
 demand for which & other articles necessary for the
 Settlement I send herewith. The last records of
 Spanish saddles sent from Rio de Janeiro were very
 inferior & not at all adapted for the work of the
 Settlement. On the 30th of Oct. last I gave permission
 to the Captain of the Lanchos to proceed in his vessel
 on a cruise for two months & told him if he brought
 any horses, which he thought of doing, I would
 give him \$5 dollars a head for every one landed.
 He has not yet returned & I am afraid that
 either some accident has happened to him or
 that he does not intend to return. I am now
 left with one Indian, a lad & a woman called
 Antonina whom I have been obliged these two
 last trips to send into the camp (she being
 sick) & therefore request that 2 others may be
 procured as the business of killing the cattle
 has much increased since the arrival of Mr.
 Whittington's two Vessels & have no doubt it will
 augment daily as many vessels are expected to
 call at this port. I would recommend that the
 Lanchos should be got from Monte Video or Buenos
 Ayres & they should be men who thoroughly
 understand their business as some of those
 formerly here were any thing but Lanchos.
 The horse gear should also be procured at either
 of the above places & the mission had better be
 entrusted to some one who is a judge of such
 articles as the things required here for the hard
 work should be strong & of the first quality
 those received from Rio last year are nearly
 worn out. The number of cattle in the Sett^t
 including calves is 230 & the average number
 killed weekly from 6 to 7 The sheep are looking
 remarkably

remarkably well. I beg leave respectfully to call your attention to the question of the cattle claimed by Antonina who is naturally very anxious to know the result. I have considered it requisite to keep Mr. St. John the junior mate with me, as the rocks off the mouth of the Sound have been let & vessels occasionally are seen smizing off that place. it is necessary to send a boat there to prevent their taking the seals, & vessels arriving often require assistance in being piloted in coming up the Sound & are apt to take the wrong channel if they follow the old charts.

I beg leave to forward a Journal of the proceedings at the Settlement between the 1st July 1840 & 1st July 1841 - Log of H. K. Sparrow between the 1st October 1840 & same date. Each lists for crew of Sparrow employed on Extra Service & a demand for Articles for the Settlement.

Sir,

By the barque Sir Geo. Arthur from Port Louis bound to London & sailing from hence to morrow I have the honor to acquaint you that according to directions given by me to L^t Wm. Robinson of H. K. Sparrow he fell in with & boarded the U. S. Frigate Enterprise in a Harville Bay upon Dec^r 19th 1840 & a notice was given to the Master by the boarding Officer informing that he was trespassing & that he was not to return another season to these Islands for the purpose of sealing & killing cattle.

Upon the 1st of February 1841 in Falkland Sound
St. Robinson again fell in with the same Brigantine
in the very act of sealing - I have the honor to forward
a copy of St. Robinson's letter to you upon the subject.

I have also to acquaint you I am of opinion
that the American vessels do an infinity of mischief
about these Islands & altho' they have no establishment
upon them, it is the established rendezvous
amongst themselves & invariably stop by there
their home - Upon the 5th Feb. St. Robinson also
boarded the U. S. Schooner Porpoise of Groton
& a similar notice was given to the Master informing
him he was trespassing -

Nothing of any importance
has occurred upon the Islands since my last
communication except the great want of houses &
Caneos which I have represented to the Comm.
a Chief in my last despatch by Mr. K. Brown
There are at present 260 head of cattle in the
Settlement which I suppose will be sufficient
for the winter. English vessels frequent this port
much more than last year. I have every reason
to believe that I shall have many more arrivals
as the knowledge of the Islands increase -

As the number of inhabitants on shore
is augmented & many minor offences daily
come under my notice I have to request you will be
pleased to move their Lordships to supply me with a
copy of the laws supplied to Surrogates to assist me
in the judgement of the said cases - Mr. K. Brown at
present at this anchorage having finished her survey for the
season with oil for St. John's on Monday the 12th inst.

Sir,

I enclose to your letter of this day's date
 enclosing a protest against my allowing
 the Brig Schooner *Mary Anne*, now lying in this
 port to sail from thence with the cargo
 she has now on board, as you are not satis-
 fied as to the integrity of purpose of *W. J. Lee*

I beg leave to acquaint you that you have
 not produced to me sufficient legal proof
 that such vessel is the property of *W. J. Lee*
Thomas Whitington of ^{Newcastle} Philpot Lane, in the
 City of London, from whom you act as agent.
 That the register of the said Brig Schooner does
 not contain the name of the said *W. J. Lee*
 and that the said *W. J. Lee* denies that
W. J. Lee is the owner, also that seven
 an attested copy of the Register is received
 as evidence in every court of law under
 these circumstances Sir I do not feel au-

Sir,

By the Mary Anne Brigantine, I have to acquaint you that she having arrived at the Muck of the Galeston of Liverpool in Talentyne Bay, in Terra del Fuogo (last there on the 2nd of October last) and procured a considerable quantity of her cargo, there being no Agent for Lloyd's on these Islands and no being aware of the fact of the Galeston's being insured. I deem it the most advisable steps to be taken that you as well as Lloyd's agent at Monte Video should be put into possession of the circumstances relating to the disposal of the goods thus procured, it being also the wish of John Hartnell the Master of the said Brigantine.

Although I have had frequent applications from Mr. S. B. Whittington, Merchant at this place to detain the said goods until advice can be received from England, much delay would be caused were I to accede to his request, and I do not consider myself authorized to do so as Mr. G. Whittington's name does not appear upon her present Register from whom Mr. S. B. Whittington has authority to act as agent.

The Mary Anne

To

H. M. Consul General
Monte Video.

The Mary Anne is at present sailing under her old register and altho' that may be lawful in the Merchant Service, I consider it quite out of my powers to act contrary to the legal document. 30, the Register of the Vessel either upon oath or otherwise.

Should the steps taken not be the readiest means of rendering justice to all parties I have the honor to request that you will be pleased to place the whole circumstances in the proper channels.

In the benefit of whomsoever it may concern I forward you a copy of a protest Mr S. B. Whittington wished to make for me, but as under any circumstances I do not consider myself authorized to act contrary to the Register and the protest being worded so as to place the responsibility of detaining the goods on me, I would not permit it to be taken in my presence.

The Susan Brig belonging to Mr Whittington has landed at this place, the goods obtained from the same wreck.

The La Grange Schooner of this port will leave for Monte Video in about 3 weeks with a quantity of goods also obtained from the wreck of the Galston.

The Master of the ^{latter} ~~above~~ Vessel wishes that Lloyds agent should be acquainted with the above circumstance.

Sir,

I have the honor to acquaint you that a Brig called the Galston of Liverpool having been wrecked on the 2^d of Oct^r last in Valentyne Bay Terra del Suego the crew of which vessel was taken to Rio de Janeiro in H. M. K. Sparrow. The Mary Ann of London John Eastnell Master sailed from this port on the 1st of February for the purpose of saving any of the cargo &c which I thought he able to obtain.

The said Brig and the La Grange Schooner have also made Voyages there for the same purpose.

The Mary Anne being about to sail for Monte Video with this cargo on Board M^r. J. B. Whittington Merchant of this place has repeatedly requested me to detain the said goods at Pothouis until advice can be received from the underwriters in England, and at the same time wished to protest on or the against my allowing the said goods to leave this port. The Master of the Vessel on the contrary wishing to proceed to Monte Video, to deliver the proceeds of the Wreck into the hands of the Agent for Lloyds (if insured) or otherwise for the benefit of the owners.

As I did not

Dear Admiral

Sir E. D. King. K. B. H.

Yr Yrs Yrs

As I did not consider myself authorized in detaining the cargo of the Mary Anne, the right of ownership being disputed by the Master of the said Vessel & Mr. P. B. Whittington who is agent for his Brother Mr. G. J. Whittington of London whom he states to be sole owner, I have declined interfering in the matter, and the Mary Anne sails to morrow for Monte Video. They leave to forward copies of the correspondence on the subject with a copy of the Register and I have also acquainted H. M. Consul General at Monte Video with the leading features of the case.

In Mr. W's last letter he says that the articles of the Mary Anne states "that the crew and that of the Brig Susan also belonging to Mr. G. Whittington are engaged to work together & share alike, but in referring to those articles I find that no mention is made of Mr. G. J. Whittington being the owner of either of the said Vessels.

With regard to Mr. W's demand for me to take charge of the goods, even if I considered myself authorized to take such a step, I have no place to put them, & consequently they would be materially damaged both by sun & wind.

The goods obtained by the Susan belonging to (Mr. G. Whittington) have been landed and placed in his brother's store to await orders from England.

The Grange will proceed in about 3 weeks to Monte Video to deliver the goods procured by her to Lloyd's agent, or otherwise as the case may be.

I have the honor to inform you that
 H. M. K. Arrow sailed from this place on the 12th inst
 for Rio de Janeiro having finished her survey
 for the season. The Sparrow arrived on the 14th and
 in working up the Sound touched off Long Island
 but was floated off by the tide without receiving any
 damage. I have been necessitated to discharge
 the baptary (P. D. Gilliac) from my service in
 consequence of his remaining away the whole of
 the summer, in his vessel, having had permission
 only for 2 months, and as it is not for the exertions
 of Manuel Coronel or Indian Gaucho there would
 have been no cattle in the settlement for the winter's
 consumption, and if Lapwing houses are not
 procured by August next it will be impossible
 to catch any of the wild cattle next summer.

The Gaucho procured in Monte Video I am in
 hopes will do well. I have increased the monthly
 pay of Manuel Coronel from 25 to 30 dollars
 & have taken the care of the hides from him.
 (The Corp^l of Farrines having now the charge of them)
 which pay averaged about 5 dollars them months
 the Gaucho having sufficient to do in looking
 after the cattle. I have nothing further of
 importance to communicate.

Sir,

I have the honor to acquaint you with my proceedings since my last communication by the *May Anne* via Monte Video.

On the 15th May the "Eleon" Merchant Vessel arrived at this place from off the Horn in distress being unable for the want of Store Sails to get round the Cape. I caused her to be supplied with 2 from the Sparrow taking bills of exchange on the Owners according to the C. P. I and she sailed on her voyage on the 25th Ult.

The *Edgcombe* and *Water Nymph* two Merchant Brigs have also visited this port for refreshments on their way round the Horn making 10 sail of M. Topels which have arrived here since August last.

On the 13th April 2 dogs destroyed 9 sheep I caused them to be shot it has reduced the flock much. The butcher has set in rather earlier this year than the last and the gardens do not look so well as I could wish most of the seeds having failed. The Spring being backward and the summer dry.

The *La Grange* Schooner having part of the crew of the *Galton* on board left this place for Monte Video on the 13th May but not having sufficient hands to navigate her some of the settlers sailed in her and a decision of returning to the Falklands. Should you think it necessary to send the Sparrow to

Now I request you will be pleased to direct the Marine commands to give them a passage to this place, on travelling themselves, as they are well behaved and useful people. —

I have sent passengers by the Sparrow the family of Mr. Addenard who was sent up last time to Rio de Janeiro he not having fulfilled his promise of supporting them, they being in great distress. The family consists of his wife & five children situated according to the regulations of the service. I have given permission to Mr. Smallpiece & George Polson two persons late belonging to Mr. Whittington's Establishment to go to Rio de Janeiro in the Sparrow providing themselves.

P. B. Gillmer the late Captain, who is now at Mont Video expressed a wish to return to the employ provided horses were sent to the Falklands, & as the great want of them is the only reason I can fancy for his breaking his contract, he being in every way a thorough Sauter & a well behaved young man I consider it would be desirable for him to return with the horses, & I should much wish that he should select them as he is well acquainted with the kind of animal wanted for the work of the Islands. — Andreas & Sanchez left this place in the La George with his uncle, there are now only two Sauters & five horses fit for killing the tame cattle. As many more Merchant vessels were expected to visit this port after August next I shall not be able to supply them with S. Beef unless horses & the Glas last demanded are sent before or about that time. There are some of the party of Marines stationed at this place belonging to the S. Sparrow who are anxious to remain if an exchange can be effected when the Sparrow is relieved. As some of them are efficient & useful

horseback or on foot; and we further oblige ourselves to
acknowledge and respect the Capitaz or Capitaces, that he
may appoint.

Art. 2. Lieutenant Jysen, obliges himself to pay the
Pions, two silver dollars for every head of Cattle of two
years and upwards, which they may deliver in the
houses, Saladeros, or estancias.

Art. 3. For every wild horse caught and delivered to
Lieutenant Jysen, they being new and sound, Lieut.
Jysen agrees to pay two dollars for catching them,
and eight for taming them (until further orders from the Govern-
ment) and if Lieutenant Jysen should employ
any of the people, in any other work than that of catching
Cattle and Horses, he shall pay them One dollar a day,
or Twenty dollars a month, and he will also give them
the necessary keep for their maintenance; And for every
night watch kept over cattle, he will pay One dollar.

Art. 4. The money earned by the Pions in this

manner, shall be paid to them on their return, deducting what they may have received on account here.

Art 5 If any of the undersigned persons should desire to leave the Falklands, and return with their families to Rio de Janeiro, or to Monte Video, they shall give six or eight months notice, in order to get others, and Lieutenant Jysen agrees to give them a free passage.

Art 6 We recognize and acknowledge, that all which the Falkland Islands produces, as well as what may be found on them, is the property of the Queen of Great Britain, and what may be paid to us is for our labor, and not for the value of any of the Animals (Oxen, cows or horses;) that none of us can go out to catch cattle, without orders from Lieutenant Jysen or his Capataz; and also when we shall want hides for Lasso's, Sincha's or for balls, to acquaint the Capataz and to obtain his order to take them; We also acknowledge that the payments after the delivery of the cattle, shall be divided in equal parts amongst those employed, under the direction of the Capataz named by Lieutenant Jysen.

Art 7 If any of the people at any time shall neglect their work, or fail in respect to the Capataz, he shall lose the share of the cattle brought in, and if they commit any capital offence they shall be subject

Subject to the Laws of Great Britain.

Port Louis East Falkland Island
17 April 1841 -

Sir

In your reply to my letter of the 15th Inst^s requesting you to detain the Goods on board the Schooner Brig "Mary Ann" arriving in this Port, you say, that I have not given you sufficient legal proof of such Goods being the property of G. J. Whittington of London for whom I act as Agents, to induce you to accede to my request; I beg leave to state that you would not allow me to give you any legal proof by refusing to take down my deposition on oath to that effect, and yet you adduce as best evidence against the fact of Mr G. J. Whittington being Owner of the "Mary Ann" the mere assertion of Mr John Bennett Master of the vessel; - as regards Mr G. J. Whittington's name not appearing on the Register, it is a common practice in the Merchant

Merchant Service for vessels to sail under
 old Registers, all the having fresh Bonors;
 such is the case in this instance, & which
 I am quite prepared to depose on oath, as
 will also two other persons now with me,
 whenever you will take such statements
 down:— you have besides every circumstantial
 evidence to convince you, that Mr. G. J. Whittington
 is Owner of this Vessel. 1st by the Power of
 Attorney given me by him in London
 wherein the "Mary Ann" is named, and
 which you have perused; 2nd by my paying
 you for Beef weekly supplied to her, and
 3rd by the Articles of the said Vessel, wherein
 it states that the Captains and crews of
 her, and the Brig "Susan" also belonging
 to Mr. G. J. Whittington, are engaged to
 work together and to share alike in
 their remunerations;— these, as well as other
 documents which I have shown you,
 sufficiently confirm the fact, to justify
 your acting in accordance with my
 request. — However I set aside the

question of Ownership entirely, as that point
can be fully established in London, but
knowing these Goods to have been obtained
from the Wreck of the Brig "Calston", in
Valentin Bay by my orders, & to clear the
reputation of Mr. E. J. Whitington & myself
from sanctioning in the slightest manner
the appropriation of Property not belonging
to him, or those persons obtaining it.

I now demand that you take charge
of these Goods on behalf of the Owners or
Underwriters in England, until advice can
be received from those parties, respecting them,
as Mr John Hartnall Master of the "Mary Ann"
ad signified his intention of disposing
of the said Goods in opposition to my
express orders.

 off Buenos Ayres 20th 1801

Sir,

I have to inform you that in
 pursuance of directions from the Com-
 mander in Chief, I have this day
 shipped on board the British Brig
"Pitula" 20 Horses, 6 Peccados, and 12
 sheep (including 3 Rams) for the ser-
 vice of the Falkland Islands.

I have done my utmost
 endeavour to procure Sir George
 for the colony, and am not with-
 out hope that I shall have suc-
 ceeded at Monte Video in this mat-
 ter through the assistance of Her
 Majesty's Consul General at that
 place.

I have

To
 — System, Buenos
 Lieutenant Commander
 at the Falkland Islands.

I have intrusted him to enter
 the man Andrew and five others, to
 pay the necessary advance of Wages
 to enable them to get their outfit, and
 to forward to you a copy of the agree-
 ment which he may have entered into
 with them.

I have directed the
 Master of the "Vitula" to give into
 your charge for the use of the colony
 all the plank, timber, iron, shingles, &c.
 &c. with which he has been furnished
 by me for the accommodation of the
 Horses and Sheep, also every Surplus
 of Hay, Corn, Wages &c. &c. which may
 remain of the stock placed on board
 of the "Vitula" for the sustenance of
 the cattle during their passage.

Enclose

I enclose a copy of the Voucher
of Purchase, and a copy of the agree-
ment for the conveyance of the cattle
to the settlement, and trust that they
will all arrive in safety and good condition.

I send you also a sam-
ple of the wool produced by the sheep
which I have procured, and I feel
persuaded that if the breeding of
these animals be attended to, the
result in a few years will be most
beneficial to the colony. Their flesh
is also of a most superior quality.

I should inform you
that the sheep are presented to the
colony by Mr. Peter Sheridan, an
English Gentleman who has been
several years settled in this country,
and from whose farm any number

may
be obtained

may at a future day be purchased
for the use of the settlement.

I have the honor to be,

Sir,

Your obedient Servant

Chas. Mills. Frankland, Commanding

U.S. You will be pleased to
give receipts for the whole of the
Articles herein-mentioned, and you
will draw upon the Accountant General
of the Navy for the amount of the Freight
money, upon the delivery of the Cattle
into your hands, in the form prescribed
by the Naval Instructions, enclosing
the usual Letter of Advice.

Port Louis, East Falkland Sept^{23rd} 1841

To all Whome it May Concern, I, James
Alley, Master of the Brig Susan, now
Laying at this Port, do hereby solemnly
Protest Against John Whitington
Esq^r as Agent of this firm, so not being
a person at all Competent to Direct the
Shipping Interests of this firm, by Which
Means all parties Concerned are Greatly the
Losers. Having Arrived at this Port on
the 5th of Sept^r after a 4 Months Cruise
round the Falklands, On a Whaling and
Sealing Expedition, having been on shore
During the Cruise, Mr John Whitington
Came on board, and gave his Orders to
Lighten the Ship and take her into the
Cannash, which I Very Much Disapprove
of stating at the same time that
the Ship would sustain Great Injury
by being hauled up on the beach.

As I did not consider her so very bad
 before, As she made no Water. On Saturday
 we proceeded into the Cannack, On going in
 she struck twice and the last time she
 stopped half an hour, there not being sufficient
 room for her to corner her Elm, we run out a
 red, and hauled her into a hole and hoisted her
 with 4 dushors, there not being sufficient room
 to swing, on Wednesday hove the ship up on the
 beach as high as the Water go and commenced
 hoisting her up, with 2 heavy spars were lashed
 to the Mainmast, and foremast &c. As the tide
 left her, the ground being soft the spars would
 not take sufficient hold consequently she was
 thrown on her beam end, and has strained her
 and caused her to make a great deal of Water
 On Thursday at Dead Low Water we could then
 discover that her fore foot was gone and a
 piece of her keel was gone inside the rabbet
 of the forehouse steeple, and the Oakum hung
 out therefrom. I found it could not be repaired
 here as there is no Wood consequently we were com-
 pelled to make a temporary Securement, by lashing
 a blanket in tar, and putting over the place
 and fortifying it with a sheet of Copper. It could
 not be mended, the tide not ebbing low enough.

140
It was not a fit place for a ship of the
build to be kept up in, without doing her
a great deal of injury. And I likewise protest
against the ship laying here all the summer
at the loss of all parties concerned, when I think
Mr Whittington and all his people might have
suffered (the same as I myself did) in a hut
which I was compelled to be, in consequence of
the continued noise and quarrells between Mr
Dean and Mr Whittington's people at the very
great annoyance of the Captain. After the ship
laying here all the summer, she was sent
round the Islands in the dead of winter (when
nothing was to be done) to procure what she
could. On Monday evening on the 20th of September
Mr Whittington sent for me, and I would not go
on account of it being after business hours, I
called on him on Tuesday Morning the 21st at 9th
O'clock. When he reported I would take the ship
to South Georgia which I most decidedly refused
to do, the ship not being in a fit state to go
there, neither in hull nor rigging. And no
provisions on board and ^{only} 6 days bread. I likewise
protest against Mr Whittington trying to persuade
me to keep 2 Log Books, on purpose to defraud the
Government, in respect of killing cattle on the

235
Island, by so doing I should have myself
liable on the 2nd of Oct. I called on Mr. J.
Whitcomb, when to my great surprise he
ordered me to bring him my Papers on that
which I flatly refused to do, he called Mr.
Dean as a witness of my refusal. Also by
this Mr. Dean I was most grossly insulted
in his presence, which he took no notice
of. on September 21st as I was going
out of his house telling him the danger
the brig was in in being holed out of
the canvas for if she got on the
point she would break her back her
back, when he told me it would be
much better for him if she had broken
her back long ago.

George G. Allen

Know all men by these presents, that we
 George. Corram. Almy, Master of the British
 Brig "Tusaw", James Thomas, Mate and John
 Oreston Seamen, do Voluntarily depose upon
 solemn oath, that we sailed and departed in
 and with the said Brig from Port Louis
 East Falkland on the 29th day of April 1844
 on a voyage round the Falkland Islands. That
 at the time of sailing as aforesaid, the said Brig
 was staunch, tight and strong, well and properly
 manned, fitted, supplied and equipped for the
 performance of the said voyage. That on the 15th
 day of June last we the undersigned weighed and
 made sail from Eagle Island proceeding on our
 voyage. That after having passed between New
 and the Saddle Islands on the 20th day of June, a
 violent gale of wind commenced from the
 Southward, accompanied with squalls of snow
 and a very heavy sea, so as to prevent the
 possibility of beating up to the anchorage in
 New Island. Being in a confined and intricate
 navigation, with night approaching, islands and
 reefs lying beneath the lee, on which the said
 Brig must inevitably have been lost, had it
 been attempted to keep the sea during the night.
 The course was accordingly shaped towards

Bald Island Roads Swan Island -
Owing to the haziness of the weather, the said
Brig struck on a sunken reef, in striking on
this reef on which she remained about half an
hour, her fore & keel was broken off and floated
aboardside - The foresail, fore topsail, and after
cloth of the jib, were entirely blown away and
lost, on sail being made on the Brig to drive
her over the reef, such being the only remedy
to save the said Brig from utter destruction.
The tiller ^{also} was broken short off - Said Brig on
getting clear of the reef was shortly afterwards
anchored in security for the night, making no
water - On Sunday the 5th day of September
1841 anchored at Port Louis East Falkland
and on the 6th the following day duly noted
this protest before Lieutenant John Sympson
Commanding Her Majesty's Ship "Sparrow"
and Officers in charge of the Falkland Islands -
In consequence of the aforesaid evil events, we
the undersigned do seriously and solemnly protest
against the winds, seas, rocks, reefs, shoals and
all other causes and things for all losses, costs,
damages, expenses and prejudices that have arisen
or may arise or be occasioned to us or others,
and that the same may be borne, suffered and
sustained, paid and made good, and had and
recovered by those to whom of right it doth
or may belong, to bear suffer and sustain

open for further extension.

In reply to your letter of this date
 respecting the Catfish killed by the crew of the

 purposed paying for the service, I beg to
 inform you, that I have advised from
 my Brother in London stating, he had
 been most distinctly told and authorized
 by the Admiralty, that his vessels
 might at all times supply their crews
 with as much Beef &c as they required

 without interruption or expense --

I do not therefore feel myself justified
 in acting contrary to such instructions
 until it be ascertained they are erroneous,

Mr. T.—The Bill of Lading sent out to a Foreign Yard by the Master of a Hired Ship conveying the Stores, is to be returned to him with an acknowledgement from the Storekeeper thereon of the receipt of the Stores, in order to enable the Master to clear himself of the charge of the said Stores.

1st Great drunkenness having prevailed amongst the Settlers at this place I exerted myself to put it down as much as possible and one of the means I determined in employing was, not to exact payment for debts contracted for the sale of intoxicating liquors & with respect to the debts of Jose Espino I really do not remember the case, but I firmly believe it was not brought before me as a debt for spirits but probably mixed up with seal, rabbit skin &c. On my first arrival I settled about 18 to 20 debts of this description and it is most likely, to some of these this person alludes. I however succeeded in arranging them all to the satisfaction of the parties concerned.

2nd Joseph Addyman being a poor man with a large family I consented to let him have the horse in question for 12 doll: which was much below the value - It was not convenient to catch it immediately and I told him he should have it in about a fortnight - He failed to pay for it, I told him to wait until he received the horse he however expressed a wish to lodge the money in my hands I allowed him to do so, which 12 doll: I put into paper & marked with his name (and as I considered) took care of it for him, (which I had an opportunity of having the animal caught (which

was running wild on Long Island) during which time several that were made fast two by two broke adrift and amongst them was the horse in question. I endeavored several times, with the Gauchos to catch him but he was much too fast for any of the lassoing horses once he was driven into the corral he jumped over the fence and escaped, in fact I saw it was very doubtful if I should ever be able to catch the horse again, which I explained to Jos^{ph} Addyman when I gave him his money but that I would let him have the horse if I possibly could. Shortly after Jos^{ph} Addyman behaved himself so badly that I desired him to quit the Island and long after this order I sold the same horse to Mr Whittington for Twenty dollars. - As I anticipated in catching this one I should have perhaps not only ~~this one~~ him but several more - The camp on the opposite side being on fire at the time I feared would have assisted me, but as it happened two other horses jumped over the corral, took the pass, ran straight thro' the fire and I have never seen them since & after much trouble we caught the horse in question which was a dear one to the Government as well as to Mr Whittington as it died about a month afterwards.

In catching the Wild horses at Port William I was very much pleased with the conduct of the then Capataz and the old Indian. Mr. Corvud & the latter having expressed an earnest desire to have one of the young foals (caught there) for his little boy I gave him one & also a young filly to the Capataz as a reward for their exertions. I am not aware of ~~my~~ having shown any particular partiality to prostitute nor do I know if the person alluded to was a prostitute - The only case of prostitution brought before me was a complaint from Joseph Addyman about his own wife.

(4)

On the 4th of February 1840 I applied to Commodore Sullivan on the Melville, application to me to grant permission to let the rocks off the mouth of the Sound to A.M. for 100 £ per annum which the Commodore granted ^{until} ~~pending~~ the pleasure of the L. C. A should be known - Previous to the receipt of the Commodore's permission I found that others of the Settlers wished to enter into the same kind of agreement, and I therefore issued Notice N^o 10, which gave them sufficient time to make their arrangements. On the receipt of the order from the Lords Commissioners of the Admiralty to let the said rocks I issued Notice N^o 13 - On the day of letting, Joseph Addyman's tender was the highest

for the North Rocks but not having security on which I could rely
 viz a Mr Bagg & a Mr Mile - the master and mate of the La Grange
 Schooner who shortly after quitted the Island I declined their securities
 and told ~~John~~ Saddyman if he could pay one years rent in advance
 he should have the rocks, this he failed in doing & his securities
 would not promise to make good the deficiency of money
 required by the said J. A. to make up One years rent - he then
 said very impudently - Well I will withdraw my Tenders I see
 how things are going - The money ^{in the} possession of the afore named
 securities belonged to the owners of the Schooner La Grange
 which vessel and her cargo the master had sold at the place
 as on their arrival here they had no money to pay for their
 supplies of beef. If I had wished Mr Melville in particular
 to have had the rocks I might have done so on the receipt
 of the Commodore's permission, without resorting to Tenders.
 I never ~~put them~~ ^{decided} in the seal rocks so as to enable the poorer
 Settlers to have a fair chance for them

5

With regard to his quarrel with Mr Melville & his insulting and
 disrespectful conduct towards me I have nothing further to
 state on that head, than what is contained in my letter
 N^o 19. 3rd February 1841:

6/

184 253

On the 3rd Feby 1840 I issued Notice N^o 7 relating to the cattle of the Settlers straying into the Camp. but on Mr Whittington ~~arrived~~ here with Settlers & having informed me that more would probably soon arrive I thought it would be too great a tax on the Government to continue this practice & therefore cancelled the said Notice at the end of the year viz 31st Dec 1840 - Jasp Addyman received a fresh cow for Two dollars in lieu of one escaped to the camp which may be seen by reference to the sales of beef &c. between the 1st Oct 1840 & 31st March 1841 so that he has only one now straying at large. which as it bears his mark is still considered his property.

7/ I have repeatedly cautioned the Settlers about keeping dogs confined to their houses both by notices & personal requests (as they have done an infinity of mischief in the gardens, besides killing the sheep & lamb & pigs) but without avail. consequently I have been obliged to order them to be shot, the number killed in this manner exceed a dozen so that J. A. ~~complaint~~ ^{complaint} of losing his dogs is not singular as he would make it appear tho' I believe ^{only} ~~one~~ ^{was} the first that suffered.

8

With regard to Joseph Addyman having been paraded about the Settlement with the Corporal of Marines, I ordered the Corporal to walk to the point with him, to see him into the boat. The Corp^l was without side arms nor was he considered in the light of a prisoner - for Addyman has often walked about the Settlement with the Corporal of Marines without feeling himself insulted by so doing.

9-

Joseph Addyman preferred a complaint against a Frenchman named Alack for taking a knife to him. The only witnesses called were those named by J. Addyman who all denied the act and during the Examination of the last witness who said Joseph Addyman was drunk (of which there could be little doubt) he J. A. struck this person in face & made his nose & mouth bleed. I then ordered him into the custody of the Corporal of Marines. After such conduct I did not deem it necessary to send for the woman whom he mentions I preferred to examine. He came to me next morning acknowledging his error & bad conduct & that he was drunk & begging me not to report it to L^d Lyson. I told him I should certainly report his conduct to L^d Lyson, but that it depended on his feelings.

48 255

behaviour whether I reported his insolent & brutal language to me
both during the examinations and after he was in custody -

His statement about being the only settler who built a house
on the Island is notoriously incorrect as there have been several
built since ~~there has been~~ that person has lived here
viz the Caputay, Melbiller, Scully's &c &c and who has
lending his cart & to the Settlers it was ^{scarcely or} never done without
a consideration.

There is no doubt as the person observes at the conclusion of his
grievances that were any impartial person to peruse those
papers he would consider so 'Add' as an ill used man
but his statements altho' correct in some particulars are
so distorted from the actual truth of the case that I have
had no difficulty whatever in refuting them.

I have not entered into the theatrical part of his complaints
as they follow at the end of each, but have given my reason
for acting as I have done & which I considered were for the
good of the community at large & without favor or partiality
to any person or persons whatever and I hope after a
perusal of these remarks that you will see that I have
been acting in a fair candid and open manner to all

P. Addyman is of a litigious and mischief making
 disposition and has caused a great deal of
 trouble on the Island, & I thoroughly
 agree in opinion with Commodore
 Sullivan the late Senior Officer on the
 station, who had a great many com-
 plaints of a similar nature made
 to him by Joseph Addyman against
 the former officer in charge (Sutcliffe)
 that he believes him to be a great rascal.
 You will perceive from the style
 of his complaints what impertinence
 I have put up with him.

I am Sir

J. Tyssent

Attn: Mr. President

Kalamazoo 20th Nov. 1841.

Dear Sir

I am writing at a great hazard
not knowing who I am writing to, and whether acquainted
or not. Therefore You must take me as I am. which is
most ~~obviously~~ ^{very} ~~obviously~~ You may well wish for ~~these~~ ^{any} things in
the New Colony. I thought to have put a hand in
the matter, for about two years ago I was applied
to, to forward the views of a very able man for that
purpose, but I was then told by the Gov. that they
had no idea of doing what they appear now to have
done - in having said this much will you allow me
to claim your kindness for any attention you may be
wished to give to the cause of this. He is the Master
of the Iliana and as she is owned by a most
active and instructive young man and the son of
the Commanding Officer. Fathland Islands

One of our own cloth his Father being an old Commander
 by the name of White. I am sure will be a sufficient
 reason to claim your kindness, therefore if you can render
 this gentleman any service I shall be obliged - He also
 takes a Capt Gardner and his wife - He is upon some
 affairs of the Missionary, I believe. But I am not certain
 however I am told he leaves his very pretty and lovely like
 wife under your Govt and promises himself to Patagonia
 now they seem to be having laid this tray upon you in
 asking your attention to the good ship Inara, let
 me offer you my best wishes for your success - and should
 a kind wind blow me off when I get near the
 Falklands I should be glad to pay you a visit as
 I am now looking daily for my relief with but and
 sincere wishes for your health and success believe me
 My dear Sir Yours faithfully

Sir! I am sorry to inform you that
during my last Cruise I was under
the necessity of killing Cattle on this
Island, (Against your Orders) to supply
my Ship's Company with, not having
any Meat on Board. Rejoice in it Sir
I should not have so far trespass'd
had not absolute necessity compelled
me to do so. I have the honour to
remain, Sir your most obedient
servant

J. Alley. Master.
