" J. Hacklock

" W. Bantcher

Sir J. R. Sartorius and

Mr. Bischoff - Solicitor -

The Share list was read by the Secretary -
Four hundred and fifty shares being now subscribed
for and it being considered that the remaining fifty
shares to make up five hundred will certainly be
taken it was the opinion of the meeting that the
preliminary arrangements for forming the Company

might safely be proceeded with but that it will not be prudent to commence active operations until 700 shares are taken — A letter dated the 29th of May last, and addressed by Mr. A.R. Lafone to the Secretary stating the terms on which his brother and he were disposed to make a transfer of their property and rights in the Falkland Islands to the Company was then read and considered — Mr. A.R. Lafone was then invited to attend and further explain his views and to consent to certain modifications of his proposal —

It was moved by W. Bantcher seconded by W. Cummins and resolved —

X That a contract for taking the transfer from Mr. S. J. Lafone be now entered into, such contract to be conditional upon a charter satisfactory in terms to the Directors being obtained from the Crown — that the transfer do include all the rights and benefits of the grant which the Crown has agreed to make to Mr. Samuel Fisher Lafone and of the Contract for the same, all tame cattle horses sheep and swine which on or since the 1st day of January last past have been in his possession upon the Falkland Islands together with all dwellings buildings corrals walls and fences belonging to him there and the house and premises lately purchased from Mr. William

8

Henry Moore and also include all Stores at Hope Place
and the other stations (except such as were imported by
the Russian vessel "Maria") as well as the benefit of all
claims which Mr. Lafone may have against the
Government up to that date, the Company taking
upon themselves Mr. Lafone's liabilities under the
Contract with the Crown - that the purchase
money for the above be the sum of Thirty
Thousand Pounds together with the cost price of
the purchase of Mr. Moore's House at Stanley -
that Mr. Lafone is to take two hundred shares
of one hundred pounds each of the Company's
Stock and to give credit to the Company for
Ten Thousand Pounds being fifty per cent paid
up on such 200 shares in part payment of
the £30,000 purchase money - that this Contract
be further conditional on Five Hundred Shares
being subscribed for over and above the Two
hundred Shares so taken by Mr. Lafone -
that in the event of no more than 700 shares in all
being taken Mr. Lafone be paid from time to
time Seven tenths of the amounts received from
calls to the extent of fifty per cent on the amount
subscribed - but that as more shares are sold he
be paid a like relative proportion of the
proceeds until the whole Twenty Thousand

9

Pounds be paid up - that the Contract be considered as concluded on the 1st June inst. and bear date accordingly and that from such date Mr. Lafone shall be entitled to receive interest at the rate of five per cent per annum on the sum of £20,000 or the unpaid balance of the purchase money - that all outlay and expenses entered into or incurred since the 31st December last past by Mess^rn Lafone on account of the establishments at the Falklands including salaries wages purchases of sheep horses and other animals and stores and the transport thereof are to be reimbursed by the Company within twelve calendar months from the date of Contract Mess^rn Lafone giving credit for all sales of Cattle horses sheep other animals and meat since the said 31st December and for all stores hides horns tallow &c collected sold or consigned since that time - Interest in account current to be calculated at five per cent - and finally that the Company are to pay all the law expenses which have been or may be incurred in negotiating and obtaining a Charter of Incorporation for the proposed Company and the expenses of the assignment and conveyance of the property sold.

~~X~~ That the Solicitor be and is hereby instructed to prepare a draft of a contract for carrying out the preceding portion of this resolution and that as soon as same be ready it be immediately

10

taken into consideration — That the solicitor
be also and is hereby instructed to take the
necessary steps to get the draft Charter finally
settled in such mode as this meeting has
indicated would be satisfactory and also, in
conjunction with Mr. Lafone, to procure such
beneficial modifications of the Contract with
the Crown as the Grantee may reasonably
be considered entitled to —

and Mr A R Lafone

The minutes of the last two meetings held upon the 30th June and 4 July having been read by the Secretary -

It was moved by Mr Boulcher and seconded by Mr Hackblock -

"That the minutes as now read be confirmed and signed by the Chairman."

Minutes signed accordingly -

The Solicitor then reported progress - he stated that in conjunction with Mr A R Lafone he had opened a communication with the

14

authorities of the Colonial Office, which, after some negotiation, had resulted in the preparation and presentation by the Colonial Authorities of a short supplementary agreement the object of which was simply to remove doubts as to the construction of the original Agreement of January 1850 made between the Crown and Mr. S. F. Lafone - that said Supplementary Agreement defined the Crown's right to sell any land not conveyed or intended to be conveyed to Mr. Lafone under the Original Agreement and over which, until so sold, that Agreement gives the right of pasturing and pursuing Cattle - that, subject to such explanation, the original Agreement could not be further modified by the Colonial Authorities - that it was considered improbable that any bona fide demand to purchase waste lands of the Crown, not included within the grant to Mr. Lafone, would arise during the term of his dominion over the wild cattle, - but that, in the opinion of Mr. Bischoff, it would be most fortunate should such demand for land thenceforward arise, as it would tend to improve the value of the Company's property. and as it had been intimated by the Colonial authorities that no intention existed on their parts to reduce, during the terms specified in the Agreement with Mr. Lafone, the upset prices which they had placed upon lands within

the Colony, which is for country districts 8/- per acre.

— The Supplementary Agreement was then read by the Solicitor, who added that within a week he expected to receive the Draft Contract between the Company and Mr. Lafone and the Draft Charter completed.

— Explanations being required from Mr. Lafone regarding his endeavours to procure certain modifications of the original Agreement, he stated that he had not succeeded to obtain any; but, that, in respect to the clause which provides that a certain number of sheep are to be placed and kept upon the East Falkland, Mr. Elliott had informed him that should the Company hereafter discover that sheep could not be reared and supported in the Colony the Government would not press compliance with this clause provided the Company, on applying for permission to avoid it, came prepared to offer to Government some equivalent advantage in lieu thereof — that however, until any necessity shd arise for such application on the part of the Company, no ~~if~~ stipulation in that sense could be introduced into the Agreement. In explanation of Lord Grey's reasons for declining further to modify the Original Agreement and for tendering the Supplementary Agreement, Mr. Lafone laid before the board two letters addressed to himself on the

10
21 July and 15 August 1851 by order of Earl Grey
of which the following are copies —

Downing Street

21st July 1851

Sir,

with reference to the arrangement now
pending for the transfer of Mr S Lafone's rights under
his agreement with the Crown to the Royal Falkland
Lands, Cattle Seal and whale Fishery Company, I
am directed by Earl Grey to state, that it appears
to his Lordship that it will be necessary, before
that arrangement is concluded, that all parties
should come to a clear understanding as to one
point on which some doubt has been expressed.

It has been suggested by Mr S Lafone's
Agent (as was mentioned in my letter to you
of the 28th June 1849) that the effect of the
agreement already subsisting is, to prevent the
Crown from pursuing the object of establishing
Colonists in the Falkland Islands, inasmuch
as the appropriation of any part of the waste
lands for purposes of settlement would interfere
with the enjoyment by Mr. Lafone of his rights
to and dominion over the wild cattle.

This was certainly not intended to
form any part of the agreement, nor does Lord

grey conceive its language to be in reality open to such interpretation. But the question having been raised it becomes of importance that it should be set at rest before any transfer takes place of Mr. Lafone's rights to other parties.

For this purpose I am to submit to you a draft supplementary Agreement, which his Lordship proposes should be executed by Mr. Lafone, and then referred to in the Charter, so as to become binding on the Company equally with the existing agreement. It declares that it was not the object of the latter to interfere with the Crown's right to sell waste lands, or reserve them for public purposes, except so far as regards the land agreed to be sold to Mr. Lafone.

I am to state that Lord Grey has no wish whatever to cause any unnecessary or vexatious interference to take place with the enjoyment by Mr. Lafone or the Company of their right to the wild cattle, nor indeed is it probable, judging from the experience of the Settlement that any sale of waste lands will take place there to such an extent as to affect that right in any injurious degree. But he thinks it essential that no obstacle should be offered to the gradual progress of regular colonization, if parties should

be found desirous of establishing themselves permanently as agricultural settlers: — and he believes that their doing so would prove very advantageous to any parties in possession of Mr Lafone's rights.

I am.

Sir,

your obedient Servant

(Signed) B Hawes

A Lafone Esquire.

Colonial Office

15 August 1851

Sir, I am directed by Earl Grey to state that he finds it impossible, on the part of Her Majesty's Government, to accede to any of the modifications proposed in your letter of the 4th of this month to the draft Supplementary Agreement.

It appears to his Lordship that the former letter, which he caused to be addressed to you on the 21st ultimo, sufficiently shewed that such modifications would be inadmissible. But in order that the gentlemen with whom you are in treaty may fully understand the reasons of his refusal, he is anxious, even at the risk of

repetition, to state the grounds of it.

The Agreement entered into between yourself and Her Majesty's Government was never intended by the latter to infringe in any degree on the Crown's absolute and unrestricted right to sell land in the Falkland Islands, or to reserve it for public purposes. Nor does his Lordship at all believe that any part of the Agreement can be so construed. He wishes to refer you, for instance, to Clause 9, where the right of Mr. Lafone to erect Corrales &c is limited to lands which may not "have been previously granted"; thereby, as it appears, clearly recognizing the Crown's right to grant them.

It was, in short, his Lordship's full understanding, that you were ready to accept the agreement, subject to the possible contingency of some part of the land being granted away during the continuance of that agreement to bona fide settlers.

His Lordship would, therefore, have been perfectly satisfied to leave the Agreement where it stood. But a difficulty was raised, not on the part of Her Majesty's, or the local Government, but of your Agent Mr. Williams. That Gentleman contended in a protest addressed to Governor Moody, that by giving Mr. Lafone dominion over the wild Cattle of the Island of

East Falkland, the Crown had precluded itself from granting away any of the soil, and thereby diminishing the area over which the wild Cattle might roam.

However unfounded such a pretention might appear, it seemed to Lord Grey nevertheless indispensable that, before your Agreement passed into other hands, the doubt, once raised, should be settled fully at rest, and the Agreement interpreted by mutual consent in that sense in which it was apparently entered into on his part. For this purpose, and with no other object, the Supplementary Agreement is tendered to you.

The alterations which you propose would recognize a limitation to the "original Agreement which would very materially impair the rights of the Crown. One of them would abridge the right to sell land by the stipulation "that it should not materially interfere with the dominion over the wild cattle" — a stipulation quite new in itself, and obviously tending, from its uncertainty, to continual litigation. Another would restrict the right of the Crown to construct public works, in any part of the Islands, to those particular classes of public works to which it is now limited in the particular district covenanted to be granted to Mr Lafone. The last seems equally open with the first to the

objections of uncertainty and tendency to litigation.

Lord Grey is particularly anxious that the gentlemen with whom you are in treaty will fully consider for themselves the substance of this letter, and of the former one of the 21st ultimo. He is anxious that they should understand that as Lord Grey has no wish to infringe on any rights already granted, so he is obliged to decline granting any new ones. If the gentlemen in question are willing to deal with you on the faith that no unnecessary and vexatious obstruction will be interposed in their way by Her Majesty's Government here, and that instructions will be transmitted to the local Government to act towards them in the Islands in a similar spirit, he believes that their security will be greater than could be attained by the attempt to insert additional clauses in the Agreement at the risk of provoking further discussion and litigation. But if they are substantially dissatisfied with the Agreement as it exists, and in the sense which the supplementary Agreement is intended to define, his Lordship although regretting that an undertaking which promised to promote the interests of this infant Colony should be abandoned, yet feels that its continuance

cannot be purchased by further concessions on his part.

I am.

Sir,

your most Obedient
humble Servant
(signed) B. Hawes

A. R. Lafone Esq
Erechtheum Club.

— The Secretary then reported progress as regarded the disposal of Shares & he stated that in compliance with resolutions of the Directors passed at ~~at~~ meetings held on the 30th June and 11th July, Mr Cummins had waited upon Messrs. Glyn & Co and invited them to keep the banking account of the Company which they, after examination of the proposed prospectus, had consented to do — that the Prospectus, as agreed, had been printed and circulated amongst the subscribers and also amongst other persons considered likely to become subscribers — that a new edition of the Pamphlet, corrected to date and in accordance with the most recent information and in correspondence with the terms of the Prospectus, had been prepared printed and circulated privately — that the number of Shares sold at the date of

the last meeting of this board were four hundred and sixty five and the number now sold amounted to five hundred and fifty one and that the sale of the remaining one hundred and forty nine shares to make up seven hundred was guaranteed by Mr A R Lafone and others to be completed on or before the 31st December next, Mr Lafone undertaking to put said guarantee in such legal form as the Solicitor Mr Bischoff might advise —

Mr Lafone requested permission to state to certain subscribers that their subscriptions in full might be paid under discount at the rate of five per cent per annum, and, in reply, was informed that the Board, as at present constituted, had not power to make an order to that effect, but that it might be understood that persons desirous of paying up in full were at liberty to do so under discount so soon as a banking account were opened and that such mode of payment would in due course be formally authorized. —

It was moved by Mr Cummins and seconded by Mr Bantcher and carried unanimously —

— That 551 shares being now subscribed for and the sale of 149 shares in addition thereto being guaranteed by Mr A R Lafone and others

the full operation of the Company do commence so soon as the Charter be obtained. —

That the Supplementary Agreement tendered by the Colonial Office as now read by Mr. Buschhoff be accepted and duly executed. —

That it is advisable for the Company to enter into a Contract with Her Majesty's Government to carry the mails between Montevideo and Stanley on the terms proposed in the letter of Mr B Hawes to Mr Lafone dated the 1st April 1851 if more advantageous terms cannot be obtained. —

That Mr. A R Lafone be and is hereby authorized to arrange and complete said Contract on the understanding that same be transferred to the Company so soon as the Charter be signed or, if not previously completed, that it be made direct between the Crown authorities and the Company —

— It was moved by Mr. Cummins, seconded by Mr. Bantcher and carried unanimously —

That a call of ten shillings per share be made immediately — that the Secretary prepare, print and forward to all subscribers a circular notice accordingly, and that, in conjunction with the Solicitor, he do arrange with the Bankers of the Company Messrs Glyn Mills & Co. the form of the Account and prepare a proper

form of receipt to be issued and of counterfoil to be retained as voucher by the Bankers.

Meeting of Provisional Directors

1. Charlotte Row, Mansion House

December 24th 1851.

Present

Mr. Wm Gore Ouseley

Mr. John Hackblock

Mr. Wm Boulcher

Mr. J. J. Cummins

Sir G R Sartorius

Mr. Bischoff - solicitor

and Mr. A.R. Lafone.

At the request of Mr. Ouseley the chair was taken by Mr. Cummins —

The minutes of the last meeting held 19 August 1851 were read by the Secretary, confirmed, and signed by the Chairman —

The Charter was laid on the table read and explained by the Solicitor —

It was proposed by Mr. Boulcher seconded by Mr. Ouseley & carried —

20

— That the Royal Charter as read be and is hereby accepted.—

The draft Contract between Mr. Lafone and the Company was then explained by the Solicitor, the Chairman comparing its clauses with the instructions given for same by a resolution of this Board passed at a meeting held on the 20th of June last — the Solicitor explained that the instructions did not provide for the payment to Mr. Lafone of the balance of purchase money in case no more than 700 shares be taken and proposed that words, which he had inserted in the draft contract and which he read, to fix the date of payment of said balance should be approved notwithstanding their variance from the resolution referred to which contained his instructions —

It was moved by Mr. Boulter seconded by Mr. Hackblock and carried —

— That the draft Contract between Mr. Lafone and this Company as now read altered and explained be accepted engrossed and executed —

The Draft Contract between the Colonial Land and Emigration Commissioners acting on behalf of the Crown and the Company for the conveyance of Her Majesty's Mails six times per annum between Stanley and Montevideo for the sum of £700 payable by reduction of instalments was next explained by the Solicitor —

It was moved by Mr. Ouseley seconded by Mr. Hackblock and carried —

— That the draft Contract between the Colonial Land

and Emigration Commissioners on the part of Her majesty the Queen and this Company for the Conveyance of Her majesty's mails between Stanley and Montevideo as now read is approved and be accepted.—

The Copy of a letter bearing date the 17th Dec.^r not addressed by Mr. A.R. Lafone to Lord Grey accreding on behalf of his brother and the Company to the wishes of government to reclaim the dominion of the Wild Cattle &c on West Falkland provided the Crown would in consideration of such concession remit the payment of an instalment of £2000 due the 1st day of January next was read to the Board and it was announced by Mr. Lafone that no answer to it had as yet been received.—

It was moved by Mr. Butcher seconded by Mr. Hackblock & carried —

— That the letter of Mr. Lafone to Lord Grey as read is approved by this Board and that it be entered upon the minutes —

It was moved by Mr. Ouseley seconded by Sir Geo. Sartorius and carried —

— That in accordance with the terms of the Prospectus and of the allotment of Shares the Secretary do issue a notice to all the Shareholders requiring them to pay the first instalment of 25 per cent to Mess^r Glyn Mills & Co on or before the 10th January next less the deposit of 10/- per share if same be already made by them — and that the Secretary do address a Circular Letter to the Shareholders informing them that the Charter is obtained whereby their liability is limited to the amount of their individual subscriptions — that the

Contract between Mr. Lafone and the Company has been finally settled and that the operations of the Company have now commenced.—

It was then agreed that the following Gentlemen were to form a SubCommittee to consider with Mr. Bischoff the details of the Deed of Settlement and report thereon to the next meeting of this Board —

Mr. J. J. Cummins
Mr. J. Hackblock
Mr. W. Bantcher

The Secretary was desired by the Chairman to place the Charter for safe custody in the hands of Messrs. Glyn & Co:-

X Meeting of Provisional Directors.

1. Charlotte Row - Mansion House

January 28th, 1852.

Present.

Mr. J. J. Cummins

Sir G. R. Sartorius

Mr. W. J. Ouseley — in the Chair

Mr. W. Bantcher

Mr. J. Hackblock

Mr. Bischoff - solicitor -

Mr. A. R. Lafone - at the request of the Board.

The minutes of the last meeting held 24 Dec.
1851 were read by the Secretary confirmed and signed by the
Chairman.

W. Bischoff announced that the Deed
of Settlement had been finally approved by the Board
of Trade —

W. Cummins, being deputed to confer
privately with W. Lafone as to the date at which interest
should commence to run upon the amount of £20,000
(agreed to be paid to his brother and himself) taking
into consideration the great delays which had taken
place and that no accounts had yet been received
from the Falklands, announced that W. Lafone
had very handsomely met the views of this Board and
on behalf of his brother and himself had consented
to postpone the rating of interest on the amount of
£20000 from the first of June 1851 as previously
agreed by a resolution of this Board on the 19th
of that month, until the 1st day of January inst.
from which day said sum is to bear interest in the
manner described by the resolution referred to.

Resolved —

— that W. Bantcher W. Hackblock and W.
Cummins are hereby deputed to effect the purchase
of a suitable vessel for carrying cargo and Her
Majesty's Mails between Stanley and Montevideo
with full discretionary power as to price and all
other matters appertaining to the procuring, equipping
and manning the vessel ready for sea as speedily as
possible without further reference to this Board and
are requested to report their proceedings accordingly
when completed.

A letter addressed by Mr. John Pownall Dale, under date of the 22nd inst, to the Directors offering himself to take the office of Colonial Manager was then read —

Resolved —

— that a letter be addressed by the Secretary to Mr. Dale informing him generally of the nature of the duties which the Colonial Manager will be expected to perform and of the terms on which the Company are prepared to engage his services in that capacity — namely that he will have to furnish approved securities to the extent of £5000 in the form usually adopted and to appoint and pay his own Clerk — that he will be provided with a suitable residence in tenable condition rent free and a free passage to the Colony and that the remuneration for his services will be £700 per annum clear of any deductions and without any extra allowances whatever — the first year to commence from the day of his leaving England — these terms to be considered fixed for five years subject to revision and modification by this Board on the expiry of two years after the arrival of the Manager at the Colony but the engagement may be determined by the Directors on giving six months notice of their desire to put an end to it, or, after the expiration of two years by either party on giving like notice to the other — notice in all cases to date from the day of its receipt.

— Mr. A.R. Lafone having communicated to this Board the obliging consent of his brother Mr. Samuel Fisher Lafone of Montevideo to undertake gratuitously the management of the Company's operations

in the Colony for the period of two years after his receipt
of their letter of authorization —

Resolved —

— that Mr. Samuel Fisher Lafone be requested to
undertake the office of Resident Director and the
management of the Company's colonial operations
accordingly with full authority and control over
the Company's servants in the Colony.

Resolved —

— that in compliance with the foregoing resolution
the Secretary is directed to address a letter to Mr.
S. F. Lafone informing him generally of the
constitution of the Company under the Charter and
Deed of Settlement as also of the steps already
taken relative to appointments to the purchase of
a vessel and the Contract to carry the mails —
handing a copy of the preceding Resolution and
requesting him to adopt the needful measures for
carrying it into effect.

Resolved —

— That the Deed of Settlement as approved by
the Board of Trade and now read by Mr. Bischoff,
with the formal blanks as now filled in, be
engraved and prepared for execution immediately.

Resolved —

— that the Form of Share Certificate now presented
as examined by Mr. Bischoff is approved and that the
Secretary is directed to have a plate engraved
accordingly and one thousand blank forms printed
and bound by the Counterfoils.

Resolved —

— that the design for a common seal of this

Corporation now presented is approved and that the Secretary is directed to have it engraved on Steel in the best manner and fixed in a proper press complete and also to procure a suitable Office Seal in brass for ordinary use.

W. W. Butcher -

W. Bischoff - Solicitor.

W. A.R. Lafone - at the request of the Committee.

The Committee had a long conference with W. Alexander R. Lafone accompanied by Mr. Field his Solicitor in regard to doubts which had arisen as to the numbers of tamed cattle and sheep assumed to be on the Falklands the property of Messrs. Lafone and which formed the basis of the calculations on which the purchase from them by the Company was founded.

Mr. Lafone stated that he never intended to be responsible for the exact numbers so assumed that he had freely furnished to the Directors all the information possessed by him and had no reason to doubt the correctness thereof - still, as the question had been raised he was willing to meet the views of the Committee and finally to adjust the matter in the terms of the following letter which he then addressed to the Committee - namely -

Present

Mr. J. J. Cummings

Mr. J. Hackblock

Mr. W. Bantcher

Mr. Bischoff - Solicitor

and Mr. A. R. Lafone.

The minutes of the last Committee meeting held on the 6th inst^r were read & confirmed.

Mr. Bischoff reported that the Deed of Settlement was engraved and ready for signature.

Ordered - that twelve Copies of the Charter be printed and placed in the hands of the Solicitor for the information of Directors as occasion may arise.

The Secretary was directed to prepare a draft Report to be laid before the General Meeting on Wednesday next and to call the Directors together on Monday the 16th inst, at one o'clock precisely to consider same and arrange the proceedings for the meeting.

Mr. Bischoff stated that the draft Mail Contract was agreed with the Crown Officers but proposed that some small additions should be made and asked leave to endeavour

to procure these alterations and to have the vessel
approved &c

Resolved -

that Mr. Bischoff is requested to call on Mr. Wood
and ask him to have the Amelia surveyed
for Government approval and finally to settle
the terms of the Mail Contract.

Mr. Lafone submitted a tender with
specification and drawings to construct a
wooden lighthouse for Cape Pembroke by
Mess^rs A & G Holmes of Liverpool for £580
inclusive of plate glass lightning conductor
and Vane but exclusive of Lights.

Resolved -

- that the plans for a lighthouse submitted by
Mr. Lafone be placed before the Secretary of the
Trinity Board by Mr. Hackblock and Mr.
Bantcher and if approved by him presented
to Lord Grey with a tender for its erection
by the Company for £2100 if authorized
in time to go out by the "Amelia".

Resolved -

- that the debt due to the Mess^rs Lafone be
secured to them by the Company's Debentures
for £1000 each whereof seven are to be payable
in 12 months, seven in 24 months and the
remainder in 30 months.

Resolved -

- that Mr. Lafone is not to be called upon to

pay up on any of the one hundred and twelve shares required to make up seven hundred unless at the end of the current year they shall not be taken up by other parties in which case whatever then remain unallotted are to be taken by Mr. Lafone and the payments thereon made good by him in debentures or money at his option.

a cheque for £1608..15/-, being less 2½ per cent discount £41..5/- for the purchase money £1650 of the "Amelia", was handed to W. A. Lafone who was requested to obtain the Bill of Sale duly executed, to procure a new Register for the vessel and to have her ownership transferred to Messrs. Meeting of Committee.

1 Charlotte Row

London Jan'y 29. 1852

Present.

Mr. Butcher.

Mr. Cummins.

Mr. Hackblock.

The Committee deliberated upon the purchase of a suitable vessel to carry the Mails and after considering various proposals agreed to accept one tendered by Messrs. Tonge, Barry & Co. of Liverpool through Mr. Lafone who was thereupon authorized to purchase the Brigantine "Amelia" of 245 tons O.M. and 150 tons N.M. now lying in Liverpool for the sum of £1650 if less would not be accepted and Capt^r Wilson late of the "Chelydra," who had previously inspected the vessel at the desire of the Board was requested to examine her thoroughly and report as to her answering the description given by the sellers, on the understanding that if she was bought he was to be appointed to command her.

The Committee met - January 31.
present as above -

A communication was received from Mr. Lafone announcing that he had found it expedient to close at once for the "Amelia," in order to secure her, which he had done for the sum of £1650 payable in 14 days less 2½% disc.

Capt. Wilson was therefore appointed to the command required to address a letter to the Board defining the terms of his engagement which he accordingly did and was at once dispatched to Liverpool to superintend the overhauling and outfit of the Vesel.

S. J. Cummings

January 31. 1852

A Deputation from the Board of Directors consisting of Mr. Ouseley - (Chairman) Mr. Cummings Mr. Butcher and Mr. Hackblock waited, by appointment, upon Earl Grey at the Colonial office on the subject of the expenditure of the money yet to be paid to Government under Mr. Lafone's contract and his Lordship intimated his willingness to entertain any suggestions which the Corporation might make for the application of these funds to objects calculated to promote the improvement of the Colony.

The Directors then informed Lord Grey that they had purchased the "Amelia" a suitable vessel to carry the mails under their contract with Government and expressed their wish to be permitted to hoist the Admiralty

or Post Office flag on board her and so place her on the footing of a Royal Packet, citing in support of their request several instances in which this privilege had been conceded to vessels purchased under like circumstances. His Lordship admitted the propriety of the application and promised his aid to procure the compliance of the competent authorities.

The next object brought under his Lordship's notice was the erection of a lighthouse on Cape Pembroke the vast importance of which to British shipping generally and to the colony was fully set forth - his Lordship assented to the proposition that such an erection should be constructed and paid for out of the instalments due payable by the Corporation, suggesting that the Company might build it here and send it out ready made, or offer a tender to construct it for the Government. The Directors thereon proposed to undertake the erection of the lighthouse and his Lordship suggested that their proposal should be submitted to him in writing accompanied by proper specifications and plans.

The important advantages which would accrue to the port of Stanley and to shipping calling there by the laying down of a patent Slip were next explained to his Lordship

and his consent solicited that such a work should be undertaken by the government, in which case the Corporation would provide for its execution. Lord Grey did not feel inclined to entertain this proposition as he considered such works were more appropriately left to private enterprise. Upon the Directors urging that the subject had already been submitted to and received the consideration of government Lord Grey observed that he was not aware of any application or correspondence on the subject.

Lord Grey was informed of the Agreement that the sums due by government to Mr. Lafone for supplies furnished by him should ~~also~~ be ^{placed} ~~expended~~ to the credit of the Company against the instalment now payable ~~and so soon as may be after receiving~~, but his Lordship was not aware that any sums were due or that Mr. Lafone had any claims upon Govt.; if however such claims could be properly substantiated the ^{amount thereof would be disposed of} ~~early execution of their heads~~ ~~as provided by the Company's Contract with Mr. Lafone.~~
~~may be seen above mentioned~~

In reply to a question put by the Directors Lord Grey observed that there was no fund at present from which to aid or defray the expenses of Emigrants to this Colony on the part of government, but he recommended that applications should be made to certain Scotch landed proprietors who were desirous of sending out some of their tenants and

labourers, more particularly those on the western shores and Islands the inhabitants of which seemed to him well adapted for the climate and soil of the Falklands.

Reference was then made to a discussion which had taken place in the House of Commons and the false impression likely to be created by statements then made, that no vessels or almost only two or three in a year touched at the Falkland Islands - and it was shewn to his Lordship that a progressive increase in the number of vessels calling had actually taken place - the numbers ~~not~~ being 15 in 1847 to 1848 36 in 1850 - and upwards of 30 in the first 6 months of 1851 - which his lordship appeared to consider an important fact.

Lord Grey then intimated his wish that the Directors should address him officially on all the topics entertained when their communications should have his attention. The interview then closed.

The Secretary was desired to procure and lay before the Committee on Monday next a plan and estimate for an Iron Light House.

February 2. 1852

The plan of an iron Lighthouse accompanied by the estimates of Mess^{rs} Bottam & Hallen were considered and the Secretary directed to write them and request them to submit a specification and tender for an iron lighthouse 70 feet high.

The Secretary was also directed to write to Lord Grey requesting the privilege of carrying the Post Office Flag on the "Amelia".

It was decided to be expedient to urge on a future occasion the question of a Patent Slip being laid down at Stanley at Government cost, supporting the renewed application, in an official form, by a recital of the correspondence already received by Government on the subject and of the Report of the Colonial Land and Emigration Commissioners thereon.

The financial position of the Company in regard to its prospective operations was then discussed at great length, when it appeared that it would not be prudent to make such large money payments to the Mess^{rs} Lafone as originally intended and a plan was arranged for modifying the terms of payment so as to square with the Company's means and proposed expenditure - same to be definitively settled so soon as

an interview could be had with Mr. A.R. Lafone.

It appeared that, with the number of shares at present allotted, the Company could afford to give Mr. Lafone £7000 at the end of the current year and would have for their expenditure £11000 remaining; whereof about £10,000 would be required ~~to meet all expenses connected with the formation of the Company and also to establish a permanent office of the Company;~~ to equip, outfit and provide a certain amount of cargo for the "Amelia" as well as to pay for her cost; to establish a store at Stanley and agencies at the Rio Negro & Bahia Blanca; to purchase certain eligible plots of land with rights of pasture on East Falkland, and generally bring the Colonial operations of the Company into full play.

The nature of the instructions to be sent out by next packet to Mr. Sam'l. Lafone was then very fully discussed and the Secretary was directed to prepare a draft of a letter embodying the result of this deliberation and submit same to the next meeting of the Committee.

The members of the Committee had a long interview with Captⁿ. B. Sullivan and obtained his opinion and advice as to the erection of a lighthouse and the laying down of a patent slip as well as other important information relative to the state of the Islands and the economy of the present local government - from which it appeared that much public money had been injudiciously employed (to the extent of fully £10,000) in a manner not likely to secure any solid advantage to the Colony. Capt Sullivan strongly recommended that the Beacon now standing on Cape Pembroke should, on the erection of the lighthouse be removed to Point William.

W^m BautcherFebruary 12th, 1852.

M^r Hackblock and M^r Bautcher, as deputed by the Committee, waited upon M^r Herbert the Secretary to the Corporation of Trinity House and submitted to him the plan and specification of the proposed lighthouse in which he suggested some alteration and that the lights of M^r Wilkins should be adopted - the Committee accordingly accepted M^r Lafone's offer to communicate personally with M^r Wilkins and request him to furnish a plan and specification for a lantern and lights.

Mr. Burt.

The minutes of the Committee meeting held
28th Feby were read and confirmed.

Mr. Burt explained to the Committee the various methods of rendering timber incombustible & indestructible by dry rot & worm. He recommended Sir William Bennett's process as being the most efficacious and no more expensive than Payne's patent and stated that the timber could be prepared in the best manner at his works at Runcorn at the rate of 16s. per load of 50 feet the ordinary rate was 12s. @ 13s. per load but the price of 16s. was stipulated in order that the solution of chloride of zinc should be applied in the strongest possible form - this price did not include carriage to & from his works - which would be for the water carriage from Liverpool 1/6d per each way and for cartage to the waterside dependent on the situation of the works where the timber was cut up.

Mr. Lafone reported that he had been assured at the Colonial Office that the Post Office Flag would be granted to the Company's mail boat "Amelia" and he recommended that application should be made to government to allow her

Officers to wear the Post Office button.

He suggested that government should be asked to grant the Company a plot of land at Stanley for their Warehouses and Wharf - also that the cost of any emigrants they might send out should be paid for by government out of the instalments due by the Company. He stated that it had been suggested to him at the Colonial Office that a letter embodying these requests should be addressed officially by the Board and recommended that they should avail of that opportunity to announce that they had placed the Colonial Management of their Establishment in the hands of Mr. Dale, a gentleman of high character in whom they have entire confidence who, they have every reason to expect, will always be found co-operating heartily with the local Government for the benefit of the Colony and that he will take his passage out in the "Amelia".

A petition to the Honorable Comrs. of H: Ms Customs that they would allow a new register for the "Amelia" notwithstanding that the Bill of Sale to Mr. Mackean could not at present be produced was read, approved, and signed by Mr. Boulcher, Mr. Cummins, & Mr. Hackblock, as owners and ordered to be sent in to the Comr^s with the old Register.

Ordered that a cheque for £27 be signed and forwarded to Mess^{rs} J. & T. Watson of Sunderland in payment for a Coble built by Mess^{rs} Mr. Hodgson & Son for the "Amelia" and approved by Capt^r. Wilson.

Ordered that a letter be forthwith addressed

To Capt^r. Chas. R. H. Bethune RN. Chief Officer of the Harbour Department of the Admiralty stating that Mr. Cummins & Mr. Bouscher who had an interview with him yesterday had made diligent enquiries and ascertained that the timber for the lighthouse can be rendered incombustible by the application of Sir Wm. Burnetts patent process and that this important object can be accomplished in the most perfect manner at Runcorn but that as the timber in the rough would have to be sent there and afterwards taken back to the works at Liverpool to be refitted they cannot estimate the additional cost at less than £350- and that if this is sanctioned they will be able to ship the light house by the "Amelia" in accordance with the terms of the tender already before him.

Mr. Lafone laid before the Committee drawings Specification and Estimate for the erection of a Store at Stanley by Messrs. Holmes of Liverpool - and was requested to write to the Contractors and ask them to furnish a detailed Specification stating the quantities with separate prices and the fittings also priced. He was also requested to write to Messrs. Holmes and explain to them the wishes of the Directors in respect to having the timber for the lighthouse rendered incombustible by Burnetts process and that same can be done at Runcorn by Mr. Burt in the best

manners at high flood and to require them to state & return for the information of the Board at what extra cost they would undertake to have the whole of the timber Burntized in the strongest manner.

Ordered that 500 sailing Directions for entering Port Stanley be sent to Mr. Cummins for distribution in the various ports of Australia and 500 copies to Mr. Lafone for distribution in Liverpool.

The Draft of a ^{to Mr. F. Lafone} letter was read and approved and the Secretary desired to address same to him with the enclosures therein specified by the Packet "Severn" on the 8th Inst.)

A Tender for the erection of an Iron light house on Cape Pembroke was received from Messrs. Cottam & Hallen which being read was ordered to be laid on the table for further consideration.

The Secretary was directed to address a letter to Sir John Pakington requesting that he would name an early day to receive the Chairman and Directors on matters of importance to the Colony.

Ordered that a cheque be signed for £79.⁴.⁶.⁰ and handed to Messrs Cummins with the Directors thanks.

The Secretary was desired to address a letter to Sir John Pakington asking his permission that the expenses of selecting emigrants sent out by the Company may be charged against instalments due to the Crown and informing him of the appointment of Mr. Dale as Colonial Manager and that he is preparing to go out in the "Amelia".

A letter was read from Mr. Hicks asking to be appointed the Company's Storekeeper at Stanley.

A note was received from Sir John Pakington appointing tomorrow at 3.30 to receive the Directors.

The Secretary was directed to write to Mr. Hicks to inform him that the Directors are willing to engage his services on the terms proposed (salary to commence on the day of his leaving England) provided he sign an agreement prepared by Mr. Bischoff and give security for £300.
