MINUTES OF PROCEEDINGS  
of  
THE HONOURABLE LEGISLATIVE COUNCIL

29th December, 1890.

Present :

His Excellency the Governor.

Hon. F. S. Sanguinetti, Acting Col. Secretary.  
„ S. Hamilton, Colonial Surgeon.

Hon. F. E. Cobb.  
„ J. J. Felton.

The Minutes of the last Meeting, held on the 14th May last, were read and confirmed.

His Excellency said that the first Bill which he had to introduce pursuant to notice was

“ An Ordinance for taking the Census of the “Falkland Islands.” The taking of the Census in 1891 in the Colonies was one of the subjects considered at the Colonial Conference of 1887, with a view to securing uniformity throughout the Empire, but the Census Act, recently passed, of which he laid a copy on the table, did not differ from that for 1881, to which the Bill now before them was almost precisely similar. He moved the suspension of the standing Rules and Orders and the first reading of the Bill. The Hon. J. J. Felton seconded the motion and the Bill was read a first time.

The Governor moved the second reading of the Bill, seconded by the Hon. the Colonial Surgeon, and the Bill was read a second time.

His Excellency then moved the third reading and passing of the Bill, seconded by the Hon. F. E. Cobb, and the Bill was read a third time and passed.

His Excellency then introduced “ An Ordinance to provide for the Insurance of Parcels “in the Post,” which he said was framed in consequence of a representation from the Postmaster General, who stated that the system of insurance on parcels from Great Britain to India had already been established, and had worked so satisfactorily that it would probably be established in all the Colonies, and that he was prepared, if this Colony responded, to commence it from the 1st of January, 1891.

Ordinance No. 9 of 1889 would be repealed, but provision was made in Section 2 of the present Ordinance to give compensation for loss or damage of uninsured parcels as in that Ordinance.

His Excellency moved the suspension of the standing Rules and Orders and the first reading of the Bill, this was seconded by the Hon. J. J. Felton, and the Bill was read a first time.

His Excellency then moved the second reading of the Bill, seconded by the Hon. the Colonial Secretary, and the Bill was read a second time.

The Governor then moved the third reading and passing of the Bill, seconded by the Hon. the Colonial Surgeon, and the Bill was read a third time and passed.

The Governor then introduced “ An Ordinance for authorizing the Sale and Convey-

ance of certain lands of the Crown to the Falkland Islands Company,” and said: It appears that the object of this Bill is misunderstood, and as it has come to my knowledge that some persons have objected to it, I will before moving the first reading endeavour to explain the circumstances which have led to its introduction.

By the Land Ordinance of 1871 the price of country lands of the Crown is fixed at 4/- per acre, and by Ordinance No. 1 of 1872, lessees of Crown lands are required within ten years from the date of their leases, to purchase 160 acres of land on every section of 6000 acres, and that Ordinance contains a provision that the lessee may at any time during the continuance of the lease, purchase at the upset price of and any further quantity of land comprised in his station. By Ordinance No. 1 of 1879, the price of the land which the lessees were required to purchase was fixed at 2/- an acre.

The price of Crown lands may from time to time be raised or lowered by the Secretary of State.

Most of the leases now in force were granted by Governor D'Arcy in accordance with the provisions of an Ordinance passed in 1870 which gave the lessees the preemptive right of purchase at 2/- an acre. That Ordinance was disallowed, but the lessees were confirmed in the enjoyment of their leases by subsequent Ordinances and for a long time they contended that they had the right to purchase their lands at 2/- an acre. Mr. Blake, Mr. Waldron and others, applied to me for the purchase of their land on those terms, but on my pointing out that they had no such legal right, and that the revenue to be derived from the purchase money at that rate would be less than the rent when raised to £20 a section, they asked me to favour their applications to the Secretary of State for the purchase of their lands at a price which when capitalized would give the same amount of revenue as the £20 rent. This appeared to be as nearly as possible 3/- an acre, and I agreed to forward to the Secretary of State for his consideration any applications which might be made by any of the lessees, for the purchase at that price, of the whole of the land held by them. The first application of this nature was made by the Falkland Islands Company on the 9th September last, which I transmitted to the Secretary of State for his consideration, and he has authorized the sale to be made; but as it would not be expedient to lower the price

of country lands generally to 3/- an acre, which would enable persons to select the best portions of their holdings at that price and reject the valueless land, it has become necessary to pass Ordinances in respect of each sale which is made on these terms to enable the land to be sold at a lower rate than the rate fixed by the Ordinance of 1871. Within the last few days I have received an application from Mr. Bertrand to the Secretary of State for the purchase of his Station at Roy Cove, which will be forwarded in due course, and which when sanctioned will require an Ordinance to enable the sale to be made as in the present case, and so with regard to others who intend to make similar applications.

Previous to the year 1881 all the money received for the sale of Crown Lands had been treated as ordinary revenue, and had been expended in the current service of the Government. In that year I was instructed by the Secretary of State to pass an Ordinance to provide for the renewal of the existing leases at a rental of £10 a section as they respectively expired, in consequence of which I made a full report respecting the Crown Lands, and advised that on the renewal of the leases the rents should be raised to £20 a section, and that all money received from the Land Sales should be capitalized and the interest only be used for current expenditure. I received authority to change the provisions of the Ordinance from £10 to £20, and in that form it was passed as No. 9 of 1882.

Lord Kimberley also approved of my suggestion for capitalizing the proceeds of the sale of Crown Lands, subject to the proviso that the revenue proper to the year in which any sale took place was sufficient to meet the expenditure of the year.

Since that time the proceeds of such sales have not been expended, but are intended to form part of a fund which will produce a sum in aid of revenue equal to that which would have been received in rent had the land not been sold.

The rent of the land now about to be sold to the Falkland Islands Company is at present £226 a year, and if all the leases were renewed it would be £331, while the interest from the purchase money will be £364. In the case of Mr. Bertrand his present rent is £109—if the lease should be renewed it would be £218, and the interest on his purchase money (£9,490) will be £237.

Down to the year 1867 there was not a single settler on the West Falklands. In that year Mr. James Waldron settled on 42,000 acres, and at once expended £10,000 in stocking it with sheep from the River Plate.

At that time the revenue raised in the Colony was only £1000, and of that amount £100 was derived from the sale of Crown Lands, £300 from rent of land, and the rest from Licenses, Auction duties, Wild cattle, and other small receipts. The Imperial Government granted £5875 in aid, besides an expenditure of £1200

by the War Office. In 1869 the whole of the West Falklands was settled, and the revenue from the rents of that Island was £1900—and in 1891 the revenue will be £3457 for the whole Colony. In 1898, when the whole of the rents will have been raised to £20 a section, the revenue from Crown lands will be £5298, and should the lessees purchase the lands on the terms of the proposed Ordinance, the revenue will be still further increased.

It should be a matter of rejoicing to all who have the welfare and prosperity of the Colony at heart, that the settlers on the Crown lands have succeeded, after the expenditure of a large amount of capital and after long years of unremunerative toil, exposure and anxiety, in securing the reward which they deserve, had it been otherwise the Colony would have been in a very miserable condition; as it is, the population since the Colony has been fully settled has increased threefold, employment at good wages has been afforded to a large number of people, and those among them who have been thrifty have saved considerable sums of money, as is evidenced by the large amount deposited in the Government Savings Bank, which now amounts to £20,000, and is regularly increasing, and the fact that many of the industrious shepherds and others are forming grazing Settlements in the neighbouring Republics.

My long term of administration has enabled me to observe accurately the progress which has been and is being made, which, with the opportunities I have had of consulting the records left by my predecessors, enables me to speak with some authority on this question.

I satisfied myself before proposing the increase of the land rent to £20 a section, that it was a fair and just rent for fully stocked stations as shown by the returns to which I had access, and to the statements which were furnished to me, and (looking to the risk attending the price of wool) the calculation of the value of the land in fee at 3/- per acre is in accordance with that rate of rent.

His Excellency then moved the suspension of the standing Rules and Orders and the first reading of the Bill. The Honourable the Colonial Secretary seconded the motion.

The Honourable J. J. Felton moved as an amendment that the following section be added to the Ordinance, which he said applied, as it stood, solely to the Falklands Islands Company.

“Should any other lessee or lessees of country lands of the Crown desire to purchase his or their lands without selection, it shall be lawful for the Governor, with the sanction of one of Her Majesty’s principal Secretaries of State, to sell and convey such lands on the terms hereinbefore provided in the case of the Falkland Islands Company.”

The Honourable F. E. Cobb seconded the motion, and said, he had much pleasure in seconding the amendment proposed by his honourable friend, as it would tend to remove the absurd impression that the Company was specially favoured by the Ordinance; so far

from that being the case he understood that Mr. Blake could have secured the same terms over two years ago. He considered that the policy of selling land outright at a fair value was a proper one, for people would always spend more on their own property than on leased Crown land, however long the leases might be. As an instance of this he said that the Company had ordered the whole of their purchase to be fenced in at once, and that further sub-divisions would follow, thereby leading to the employment of a good deal of labour and doing good all round. No doubt other purchasers would do the same.

The motion was carried without a division and the Bill was amended accordingly.

The Honourable the Colonial Surgeon said there had been a great deal of secrecy about this Bill, which he opposed on the following grounds. First, that the price of four shillings an acre was the proper value of the land, and Second, that the Crown land should not be sold at all. He also said the two unofficial members were interested in the Bill as representing the sheep farmers and he did not see how they could vote in the matter,

His Excellency the Governor reminded the honourable member that the existing law gave the lessees the right of purchase of the land during the term of their leases, and that he had already gone fully into the question of its value, which was a matter for the decision of the Secretary of State.

The Honourable F. E. Cobb said that had this Ordinance been introduced before the sale had been arranged by the Secretary of State, he might as an interested person have felt some hesitation in voting, but as the Ordinance was framed to carry out the Secretary of State's instructions, he looked upon it as a matter of form and would disregard the honourable member's suggestion.

The Council then divided.

For the first reading :

The Hon. the Colonial Secretary.

„ F. E. Cobb.

„ J. J. Felton.

Against :

The Hon. the Colonial Surgeon.

Majority for the first reading of the Bill. 2.  
The Bill was then read a first time.

His Excellency then moved the second reading of the Bill, seconded by the Honourable F. E. Cobb, and the Bill was read a second time.

The Honourable the Colonial Secretary moved that the title of the Ordinance be amended by adding the words "and other lessees of the Crown" to the original title.

The Honourable J. J. Felton seconded the motion, which was carried unanimously, and the title of the Bill was amended accordingly.

His Excellency then moved the third reading and passing of the Bill, seconded by the Hon. J. J. Felton, and the Bill was then read a third time and passed.

The Honourable J. J. Felton said that

he hoped the explanatory remarks which His Excellency had addressed to them respecting the Crown lands would be embodied in the minutes of the proceedings.

His Excellency the Governor then said that as the time of his departure from the Colony was drawing near and as in the absence of any immediate necessity for legislation it would probably be the last occasion on which he would meet honourable members in their places, he wished to say a few words before taking leave of them. Although there had on several occasions been differences of opinion between them on public questions, he felt quite sure that in opposing him they were always actuated by honest convictions and motives, and he was certain they gave him credit also for acting according to his views and convictions of right. His sole aim had been the welfare of the Colony and its inhabitants, and it was a matter for which he thought he could justly claim credit that the resources of the Colony had been largely developed during his administration and that the welfare and prosperity of the inhabitants had been increased. It had been his constant wish and endeavour that this end might be attained and he felt sure that he had succeeded in achieving it. No public man, especially the Governor of a Crown Colony such as this one, could expect to escape misrepresentation, but he could afford freely to forgive whoever had maliciously tried to injure him, because he was sensible that they had never been able to do him any harm, and he thought they would probably regret their conduct before they died, or afterwards.

The Honourable F. E. Cobb said, he congratulated his Excellency upon leaving the Colony in a more flourishing condition than it was when he arrived and that although it could not be denied that there had been at times considerable differences of opinion on public matters, and the atmosphere had been much heated on several occasions, he was glad to think that their differences had been confined to public affairs and that he was sure he might say both for the other unofficial member and for himself that they had the greatest respect for his Excellency personally and wished him prolonged life and every happiness in his retirement.

The Honourable J. J. Felton said that he had received every kindness and consideration at His Excellency's hands and that he joined with Mr. Cobb in wishing His Excellency health and prosperity in his retirement.

The Council was then adjourned *sine die*.

The Governor directs attention to the following Government Notice dated, 19th of February, 1886, which was a renewal of similar previous notices to the same effect.

The Governor directs it to be notified that all Memorials or Petitions addressed to him for transmission to the Right Honourable the Secretary of State for the Colonies, must be forwarded to him at least fifteen days before the time of closing the Mail for England, in order that time may be given for the preparation of the report which is required by Rule No. 222 of the Colonial Regulations.

Minutes of a Meeting of the Board of Health of the Falkland Islands held on Saturday the 7th February 1891, at Stanley.

Present:—

The Hon. the Colonial Surgeon, President.  
“ “ the Colonial Secretary.  
“ “ F. E. Cobb,  
“ “ J. J. Felton,  
The Chief Constable, Inspector of Nuisances.

The Minutes of the last Meeting were read and confirmed.

The President explained his reasons for calling a Meeting which were to consider what steps should be taken in the case of H. M. S. “Basilisk,” on her return to Stanley from Salvador, in which ship a case of small pox had recently occurred. The President said that after consultation with the Medical Officers of H. M. S. “Cleopatra” and “Beagle,” he was of opinion that it would be proper to isolate the “Basilisk” for a period up to about the 17th instant, when all danger of infection or contagion would in all probability have passed, and that the following Bye Law, if approved by the Governor, would give power to act in this and similar cases.

#### BYE LAW No. 1.

That whenever on board any ship or vessel which has received pratique from the Health Officer, any contagious or infectious disease shall break out, whilst within the limits of the Colony, it shall be lawful for the Board of Health to take such steps as they may consider necessary for the protection of the Public health by prohibiting communication with the shore or otherwise, for such length of time as in their opinion may be deemed advisable.

S. HAMILTON,  
President.

Minutes of a Meeting of the Board of Health of the Falkland Islands held on Monday the 9th February, 1891, at Stanley.

Present:—

The Hon. the Colonial Surgeon, President.  
“ “ the Colonial Secretary.  
“ “ F. E. Cobb.  
“ “ J. J. Felton.

The Chief Constable, Inspector of Nuisances.  
The minutes of the last Meeting were read and alterations being suggested were amended accordingly.

The President read the following letter which he had received from the Colonial Secretary.

No. 49.

Government Office,  
9th February 1891.

Sir.

I have the honour to return to you, approved by the Governor, the Bye Law passed by the Board of Health on the 7th instant.

The President of the  
Board of Health.

I have the honour to be,  
Sir,

Your obedient servant,

(Signed) FRED. SHEDDEN SANGUINETTI,  
Ag. Colonial Secretary.

The Colonial Secretary said the Bye Law having now been approved, it remains for the Board to determine how long H. M. S. “Basilisk” shall be isolated on her arrival in Stanley.

The President said he should be entirely guided by the report of the Medical Officer on board that vessel.

A discussion ensued as to the necessity of isolating the vessel for any lengthened period, but it was the opinion of the President that risk of contagion existed for fourteen days after a patient's convalescence from small pox. It was therefore determined to keep the ship isolated until the 16th of the month, if on her arrival there should be found no symptoms of disease on board.

The Colonial Secretary requested it to be placed on the minutes, that in assenting to the proposal to isolate the “Basilisk” for so long a period he deferred to the professional opinion of the President.

S. HAMILTON,  
President.

The Governor directs the publication for the information of Sheep Farmers and persons in the Colony interested in sheep farming, of the following Circular letter which has been addressed to the Sheep Farmers on the subject of Scab in sheep, together with a précis of the replies which have been received on the subject.

Government Office,  
Stanley, Falkland Islands,  
September 1890.

Sir.

I am desired by the Governor to forward to you a copy of a draft Ordinance, see next page, which it has been proposed shall be enacted in this Colony, dealing with the subject of Scab in Sheep and I am to invite an expression of your opinion as to the expediency of the proposed legislation, (1) in general and (2) as regards the specific clauses of the Draft Bill.

I have the honour to be,

Sir,

Your obedient Servant,

FRED. SHEDDEN SANGUINETTI,  
Ag. Colonial Secretary.

Précis of REPLIES.

Falkland Islands  
Co.'s. Manager.

Having assisted in drafting the proposed Ordinance thinks it unnecessary to give an opinion regarding its specific clauses, beyond saying that in Clause 4 and Section 5, b. & c., to adopt a period of 12 months for the season, that it is possible for the disease to lie dormant over six months and not show itself until the Autumn rains come on.

Though formerly opposed to further legislation on the subject is reluctantly obliged to say that he now considers nothing but a stringent act will be efficacious. Some farmers do not employ hands enough to make a clean muster of their sheep. Points out the effect of this and the effect of an opposite policy on the part of the Company. What the Company have done others can do. Thinks the proposed Ordinance will merely serve to open the question, but in itself it will be powerless to stop the evil.

Illustrates by the example of legislation in the Australian and other Colonies that scab can be stamped out in this Colony, and expresses surprise why it should be allowed to exist year after year for want of it.

Bertrand W. W.  
Roy Cove Station.

Is entirely opposed to the terms of the proposed Ordinance, thinking them prejudicial to the interests of the farmers for certain reasons, viz.

1 & 2. Fencing Ordinance should precede it, as it is impossible with the best shepherding to prevent sheep from straying upon an adjoining Station.

3. A driving Clause absolutely necessary to be inserted in the present Sheep Ordinance, subject to certain conditions for mutual protection, and in this connection points out the power which the existing Sheep Ordinance gives to neighbours to boycott one another and ruin the promising trade in frozen mutton which has lately sprung up.

(To be continued.)

*Draft of a proposed Ordinance to amend the Sheep Ordinance, 1867.*

Preamble.

WHEREAS it is expedient to extend and amend the Sheep Ordinance No. 3 of 1867.

Be it enacted &c., as follows :—

Title.

1. This Ordinance may be cited as "The Sheep Ordinance Amendment Ordinance 1890."

Governor to make regulations.

2. It shall be lawful for the Governor in Council from time to time, by Proclamation, to make such regulations as he may consider necessary or expedient for the eradication of scab in sheep.

Amendment of Ordinance No. 3 of 1867, clause 2.

3. Clause 2 of Ordinance No 3 of 1867 shall be amended by adding to it as it stands the words "for every sheep so driven, depastured, or suffered to be at large."

Construction of words "infected sheep."

4. In the construction of this Ordinance "infected sheep" shall mean—

(a) Any sheep infected with scab.

(b) Any sheep which have within the preceding  $\left\{ \begin{array}{c} 3 \\ 6 \\ 12 \end{array} \right\}$

months been in direct or indirect contact with any sheep so infected.

(c) Any sheep which have been infected and dipped

within a period of  $\left\{ \begin{array}{c} 3 \\ 6 \\ 12 \end{array} \right\}$

months after such dipping.

Notice of infection to be given by owners of sheep.

5. Whenever the owner of any sheep shall be or shall become aware or shall have reasonable grounds to suspect that the same are or have become infected with scab, he shall within seven days thereafter give personal notice thereof in writing, with particulars as to where such infected sheep are running, to the owners or managers or all the adjoining runs, and shall also by the first opportunity give the same notice and particulars to the Governor. Any person offending against the provisions of this clause shall, for every case in which he shall fail to give the prescribed notices, be liable to a penalty of not less than £10 nor exceeding £50.

**FRED. SHEDDEN SANGUINETTI,**  
Ag. Postmaster.

The Governor directs the publication for the information of Sheep Farmers and persons in the Colony interested in sheep farming, of the following Circular letter which has been addressed to the Sheep Farmers on the subject of Scab in sheep, together with a précis of the replies which have been received on the subject.

Précis of replies to Circular letter dated 26th September 1890, from the Colonial Secretary to Sheep Farmers on the subject of proposed legislation in the matter of Scab in Sheep.

*(Continued from the Gazette of 12th February 1891.)*

Birch, T. S.  
Wyrley.

Is of opinion that no law to be effectual in the matter of eradicating Scab can be so unless no owner or occupier of land shall be able to give his consent to infected sheep crossing his land.

Draws an example between a Small Pox patient landed in Stanley and a farmer giving his consent to infected sheep crossing his land surrounded by neighbours.

Is of opinion that a time should be fixed, and after that date no person should be allowed to move any of his flock over another's land on any pretext if he have any infected sheep in his flocks.

Prosecutions for infringement of any Ordinance should be directed by the Governor and in no way left for one farmer to institute against another.

Blake, Robert

Having again and again urged Government to take the matter up, is in favour of anything and everything which may tend to help the eradication of Scab.

Thinks the proposed alterations very insufficient, but they are nevertheless steps in the right direction.

Never work "underhanded" or it is impossible to gather the sheep clean off the ground and Scab is ever present.

Pressure must be brought to bear on people utterly careless of their neighbour's weal, or Scab will never be stamped out.

Refers to the example of the Australian Colonies, and some instances in the Falklands, where isolation has been followed by immunity from Scab.

Thinks if a flock be declared Scabby a period of twelve months ought to elapse before that flock can be safely declared clean.]

Mr. Blake further observes, "every flock master knows, that in "the summer very little scab is apparent in sheep, but as soon as the "winter sets in, or even at the close of a wet autumn, the sheep begin "to break, and it depends entirely on the season how soon they "break out, how quickly the disease spreads. Sheep then get a "winter dip, in June or July, this, if properly applied, checks the "spread of the disease, no scab, or hardly any, shows at the following "shearing. That flock is almost certain to break again the following "winter; if it passes through the winter without an outbreak it may "be declared clean."

No man with any experience, would dare give a lean certificate, during the first six months of the year, to a flock that had been dipped for scab during the previous winter.

What some farmers have done in these Islands, in the way of cleaning their stock, others can do.

Cannot comprehend why scab should be allowed to exist here when in other places stringent laws are in existence to stamp it out.

Speaks of a great loss by winter dipping and hopes that the matter will be taken up for legislation. Will do all he can to that end.

Dettleff, William

Is of opinion that Ordinance No. 3 of 1867 has been successful till now and needs no amendment.

Thinks clauses 3 & 4 of the proposed Ordinance would be very hurtful, as farmers have tried varieties of sheep dip and have gone to expense. The Monopolists would have great advantage over small farmers.

Buckworth.

Considers Section 2 quite unnecessary.

Russell H.

Section 3 is good and cannot well be improved upon.

Section 4 is also good and highly necessary.

(a) should stand.

(b) should be 2 months, and taking out the words "or indirect" in the 2nd line, as indirect would apply from one end of the Island to the other.

The rest of (b) is good.

(c) is also good and should be six months.

Section 5 very good indeed.

Felton, J. J.

Does not think it advisable to alter the existing law by the addition of the proposed amendments.

The Hon.

The unfenced state of many of the boundaries and the boundaries themselves being still matters of question and dispute, make it certain that the proposed alterations would lead to constant disputes and litigation.

States that a new enterprise for the export of frozen mutton has been started at great expense by Messrs. Spearing & Waldron, who are now about to put up works at San Carlos, to enable farmers upon the East to co-operate with them, and who were guaranteed a sufficient quantity of sheep for a term of years, to be delivered at Port Howard and San Carlos, and that the effects of the proposed amendments must be considered in connection with this trade. The proposed amendments would place two or three parties in a position to debar others from obtaining a profitable outlet for surplus stock, or to carry out their arrangements to supply stock for freezing purposes.

The addition of clause 5, and a modified portion of some of the preceding clauses might be of advantage, also the compulsory registration of ear marks and brands, the killing of stray sheep, a right to drive sheep from infected runs through infected runs, &c.

Thinks however that as most of the leases expire next year and as an Ordinance has only lately been passed enabling Lessees to purchase their land, all proposed amendments had better be deferred until boundaries are clearly defined, fresh leases renewed, or arrangements for purchase made.

Going, J. A.

Is of opinion that no fresh legislation on the subject of scab is required.

Scab would be a thing of the past if section 1 of Sheep Ordinance No. 3 of 1867 were rigidly carried out.

Only flaw in that section is a doubt as to the exact meaning of "herded by a shepherd."

Hennah, Henry H.

Does not think there is any need for any such Ordinance provided the Sheep Ordinance of 1867 be rigidly enforced.

Packe. Vere

Thinks the proposed amendment would be very beneficial. At same time thinks a fence law would be more so, making each farmer fence his boundary, or put up so much fencing every year till this is done. It would enable flocks to be more separated, and so to a great extent check scab from spreading.

Fine of £50 in clause 3 for every sheep will be heavy on those who have no boundary fence, as it is impossible to keep sheep from intermixing to a certain extent, without a fence.

Clause 4 (b). Persons ought to be able to tell if sheep are infected six months after direct or indirect contact with infected sheep.

In his opinion sheep infected with scab and dipped cannot be guaranteed clean under 12 months after dipping.

Clause 5. Thinks any farmer could comply with this Clause.

Smith. James

Is of opinion that the present flourishing position of most of the farmers is a proof that the Sheep Ordinance 3 of 1867 is quite sufficient to meet all requirements for the suppression and extinction of Scab.

Thinks Clauses 3 & 4 of proposed Ordinance would be very hurtful to the smaller farmers and would tend to strengthen the already strong monopoly.

Suggests that if possible Ordinance No. 4 of 1870 be strictly adhered to.

Stickney. Bernard

Thinks it is absolutely necessary for the good of the Colony that there should be a Scab Ordinance, and that the Sheep Ordinance No. 3 of 1867, with the amendments attached to Clause 2 in the proposed Ordinance, will be a great improvement. Then the Ordinance will be quite severe enough, and a very good one for a small Colony like this, without any further addition.

As to the construction of words "infected sheep," is of opinion this should mean

(a) Any sheep infected with scab.

(b) Any sheep which have been in contact with any sheep so infected until the flock have been dipped.

(c) Any sheep which have been infected and dipped within a period of twelve months.

Respecting the specific Clauses of the proposed Bill, thinks Clause 5 should most decidedly be inserted.

Stickney. Bros.

Are pleased to see a move has been made at last, and with the opinions of all the Sheep Farmers before Government something ought to be done to protect those who have cleaned their flocks.

Their opinions on the specific Clauses of Bill are

Clause 3. A penalty of £1 sterling per head. When it is known that a neighbour has scab on his station a Farmer should be allowed to seize, kill, and burn any quantity of such neighbour's sheep found at large on his land in addition to the penalty.

Clause 4. Sheep that have been in contact with scab, can by an experienced man be declared clean after six months.

(c) Sheep that have been infected with scab, or Station that has had scab on it, cannot be declared clean within twelve months.

Waldron. Henry.

Remarks—1. A Stringent Sheep Ordinance is necessary to the future prosperity of the Colony.

2. (b & c) in Clause 4 of proposed Bill do not go far enough. What about a neighbour wilfully driving scabby sheep through a neighbour's clean flocks?

Some Clauses of the Canterbury, (New Zealand) Sheep Act would be desirable. Compulsory curing of scab is necessary.

The following Notice to Mariners published on the 1st of January last, by the Board of Trade, relating to Navigation in the neighbourhood of the Falkland Islands, is published for their information.

FALKLAND ISLANDS.

**CAUTION TO MARINERS.—CURRENTS.**—Mariners are warned that during and after long continued S.-Ely. gales, when a heavy sea is rolling in on the S. and S.E. coasts of the Falkland Islands, there is stated to be a strong set to the N.-Wrd., to which set has been attributed the loss of several vessels in the neighbourhood of Bull Point. Vessels from Cape Horn, therefore, intending to sight Beauchère Island, should make due allowance against a possible set of 20 to 30 miles a day to the N.-Wrd.

**JASON ISLANDS.**—During March 1890, a patch of kelp (always indicative of a rocky bottom and often of a hidden danger) about ½ mile in extent, is reported to have been passed in P.D., 50° 53½ S., 61° 16½ W., Nrd., of the Islands, with the W. end of Steeple Jason, approx. S.E. by S. ½ S., 7 to 8 miles. At the time of passing, the wind was N.Ely. strong, with a rough sea, but no breakers were seen; it was estimated to be slack water, and that the kelp would be under water when the tidal stream (which in this locality attains considerable velocity) is running. *December.*

The Governor, after consultation with the Executive Council, directs the publication for the information of Land-holders of the following draft Fencing Ordinance, which it is considered would be advantageously applicable in this Colony before any further consideration of a Scab Ordinance.

*An Ordinance to provide for the construction of Dividing Fences.*

WHEREAS it is expedient that Dividing Fences should be constructed by the occupiers of adjoining pastoral lands at the joint expense of such occupiers.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council; as follows:—

Title of Ordinance.

1. This Ordinance shall be called and may be cited as "*The Fences Ordinance 1891*," and shall come into operation on the first day of January one-thousand eight-hundred and ninety-two, and shall be divided into Parts, as follows:—

"Justices." Wherever the words justices appear in this Ordinance they shall respectively be deemed to mean three justices of the peace.

"Occupier." Shall include any person who is in the actual occupation of or entitled as owner to occupy any land alienated from the Crown by grant, lease or license, but shall not mean or include any person in the occupation of land held by yearly license, or for any term less than ten years.

6. Any person desiring to compel any other person to contribute to the construction of a dividing fence under the provisions of this Ordinance may serve on such person a notice to fence, which shall be in writing or in print, or partly in writing and partly in print, and shall specify the boundary to be fenced and contain a proposal for fencing the same, and shall specify the kind of fence proposed to be constructed.

Proceeding on failure  
to carry out agreement  
or order of justices.

8. If the person serving and the person served with such notice agree as to the construction of such fence, or if in default of such agreement an order of justices or an award of an arbitrator is made as aforesaid, and in either case either of such persons fail within the time named in that behalf in such agreement, order or award, or if no such time be named within three months after the date of such agreement, order or award, to perform his part of such agreement or to comply with such order or award, then the other of such persons may construct the whole fence as agreed upon or prescribed by such order or award, and may recover half the cost of constructing the same in any court of competent jurisdiction.

CHAPTER I  
THE EARLY HISTORY OF THE UNITED STATES  
The first European settlement in North America was established by the English in 1607 at Jamestown, Virginia. This colony was founded by the Virginia Company of London, which had received a charter from the King of England to establish a permanent settlement in the New World. The colony was initially struggling due to lack of food and disease, but it eventually survived and grew into a thriving community.

Other early colonies were established in the 1620s and 1630s, including the Massachusetts Bay Colony and the Rhode Island colony. These colonies were founded by people seeking religious freedom and economic opportunity. The Massachusetts Bay Colony was founded by Puritans who wanted to establish a society based on their religious beliefs. Rhode Island was founded by people who wanted to practice their religion freely without government interference.

The colonies continued to grow and develop throughout the 17th century. By the end of the century, there were over a million people living in the eastern United States. The colonies were becoming more independent and were beginning to assert their rights against the British government.

The American Revolution began in 1775 when the colonies declared their independence from Great Britain. The revolution was fought over the issue of self-government and the rights of the people. The colonies won the war and became the United States of America in 1787. The new government was based on the principles of democracy and the rule of law.

The United States continued to expand westward throughout the 18th and 19th centuries. This expansion was driven by the desire for land and resources. The Louisiana Purchase of 1803 and the Texas Annexation of 1845 were major events in the westward expansion of the United States.

The Civil War was fought between 1861 and 1865. It was a conflict over the issue of slavery. The Union won the war and slavery was abolished. The Civil War was a turning point in the history of the United States.

The attention of Depositors is called to the fact that cheques drawn on the Falkland Islands Company and forwarded to the Treasurer, the proceeds of which are to be placed to a Depositors credit, cannot be cashed unless endorsed on the back by the person in whose favor it is drawn. Much inconvenience has been caused in consequence of the neglect in many cases to comply with this requirement, as well as a loss of interest to the Depositors.

The Acting Colonial Secretary moved the Second reading of the "Truck Ordinance."

His Excellency stated that he had proof that the system had been practised in the Colony, and that in order to ascertain the best method of putting an end to the evils resulting from the system he was prepared to appoint a Commission of Enquiry. He proposed to nominate as Members of that Commission the Acting Colonial Secretary, the Colonial Surgeon, the Hon. J. J. Felton, the Hon. A. E. Baillon and two others to represent the employes.

The Hon. J. J. Felton thought that the system was from the force of circumstances inevitable in the Colony.

The Hon. A. E. Baillon thought that the object in view would be better attained if he requested permission to decline to sit on the Commission and to nominate in his stead the Falkland Islands Company's Storekeeper at Darwin.

His Excellency hoped that the Hon. Member would not ask the Government to accept a subordinate in his place, and requested the Hon. Member to reconsider the matter.

Government Office,  
24th August, 1891.

The Governor directs the publication of the following Report of the Commission on Scab, with His Excellency's reply thereto

By Command.

FRED. SHEDDEN SANGUINETTI,  
Ag. Colonial Secretary.

We have the honour to inform your Excellency that in accordance with the terms of your Commission we have made inquiry as to the desirability or otherwise, of legislation for the eradication of Scab.

2. To facilitate the taking of evidence, a list of questions was drawn up by the Commission, which list we beg to hand your Excellency herewith.

3. We have the honour to transmit herewith a full report as to the names of the witnesses examined before the Commission and of their evidence.

4. We, the Members of the Commission, beg to make the following recommendations; from the weight of evidence taken and in our opinion, a Scab Ordinance is necessary, in the interests of the staple industry of the Colony.

As a Scab Ordinance is wanted as soon as possible, and in order to make it effective, legislation for fencing is also required, the two matters should be embodied in one Ordinance.

The present arrangements for the erection of boundary fences having so far worked satisfactorily and without friction, and as there can be no question, but that the expense and delay occasioned by a survey would be prejudicial to the eradication of Scab, a general survey as a preliminary to a Fencing Ordinance is unnecessary.

(Rider). (President.) I dissent from the conclusion to question (3) as the positions of the fences cannot be defined unless boundaries are established, and much additional expense to the Government would be entailed in most cases.

## SUB HEADS.

It is the general view of the witnesses examined, that the machinery for working a joint Fencing and Scab Ordinance should consist of a Board of practical men for each main Island.

That infected sheep shall mean any sheep infected with Scab, any sheep which have been infected, or exposed to infection, until a clean certificate shall have been granted for the same by the Board.

That there should be a penalty on owners who fail to clean their sheep within a reasonable time—such time to be left to the discretion of the Board.

That in the event of an outbreak of Scab written notice shall be sent at once to neighbours, Board and Governor, and Gazetted.

It is practically the universal opinion that persons should be punished by penal servitude for wilfully communicating Scab, and by a fine in case of negligence.

That Station earmarks should be registered, that imported sheep should be quarantined at the discretion of the Board. That the Board should draw up Bye-Laws and Regulations for driving clean or infected sheep, and for the quarantining of infected sheep and for other matters.

That straying infected sheep should be killed and buried, or burnt. As regards the definition of a Sheep-proof fence, it is the opinion of the Commission, borne out by the evidence, that it will be sufficient if it is passed as Sheep-proof by the Board.

The Commission is further of opinion that where a Farmer is unable to bear the cost of putting up a boundary fence, the adjoining occupier should be entitled to do so, and recover half the cost, such repayment to be spread over a period not exceeding five years, the unpaid balances bearing interest at a rate not exceeding 7½ o/o.

(Rider). (President). I think that the rate should not exceed 5 o/o.

The Commission are of opinion that the Board should have full powers to order the erection of Sheep-proof paddock fences if necessary in their judgment for the eradication of Scab.

That existing boundary fences should be kept in repair at joint expense.

5. The Commission beg permission to state that in their opinion one of the chief reasons why Scab is still so general in the Falkland Islands is, that Farmers, either from want of means or of knowledge, have attempted to carry on the work of their Stations with too few hands.

6. The Members of the Commission would have been glad to make recommendations in detail to your Excellency on the numerous complicated points included in a Scab Ordinance, and regret that their President has ruled that, as their recommendations were in the form of a draft Scab Ordinance, to do so is not within the scope of their Commission but they will on a future occasion be happy to place their experience at your Excellency's disposal.

7. We trust that your Excellency will see your way to give effect to the recommendations of the Commission, and, by furthering legislation that would help the Farmers to eradicate Scab, take a course which will tend to increase the production of wool and improve the resources of the Colony.

All of which we respectfully submit.

List of questions referred to in paragraph 2.

1. Is a Scab Ordinance necessary?
2. Is a fencing order to precede or follow, or be embodied in a Scab Ordinance.

Sub. Heads.

Should a Board or Inspector be appointed?

What is a satisfactory definition of infected sheep?

Should infected sheep be quarantined or isolated till clean?

Should owners be punished who fail to clean their sheep in a reasonable time?

How should clean and infected sheep be classified?

Should notice (in the event of an outbreak) be given to the Governor, the Board and neighbours?

Should any one be punished who shall wilfully, or by negligence, communicate Scab?

Should the earmarks be registered?

Should Imported sheep be quarantined?

Should there be regulations for travel-sheep?

Should straying infected sheep be butchered?

Will you be satisfied as to the definition of a sheep proof fence if any fence is passed as sheep proof which is so considered by the authority under the Act?

Where the farmer is unable to bear the cost, should the adjoining occupier be permitted to put up the fence and charge interest on half the cost?

What interest should he charge?

Should the authority under the Ordinance have power to order the erection of paddock fences if necessary for the eradication of Scab?

Should existing boundary fences be kept in repair at joint expense, and should there not be a means of enforcing this?

4. Is a survey necessary as a preliminary to a Fencing Ordinance.

The Inspector of Nuisances was in attendance.

The Minutes of the last Meeting were read and confirmed.

The following Bye-Laws were then passed unanimously.

Bye-Laws and Regulations made under Section 3 of Board of Health Ordinance No. 1 of 1886 and Section 2 Board of Health Ordinance No. 3 of 1891.

1. Before the erection of any new building shall be commenced, plans of the same shall be submitted to the Board of Health, with particulars as to water closets, earth closets, ash-pits and cesspools, together with a statement of the proposed drainage.

Before any alteration contemplated to be made with regard to any of the subjects of which the particulars are as above required shall be commenced, the alteration so proposed must have been sanctioned by the Board of Health.

2. Every occupier of a tenement shall be bound to protect the water supply attached to the building in such a way as may be considered necessary by the Board of Health, to secure the utmost purity possible. The owner or occupier of any premises shall be required to keep in a thorough state of cleanliness and repair all water-courses, open ditches, or gutters upon his premises, and to prevent the accumulation of noxious matter, by the removal thereof to any place of deposit to which the Board of Health may order.

3. All fowl-houses, fowl-coops, pig-stys, or any buildings in which animals are kept, must be placed in such position as to the Board of Health may seem best for the prevention of a nuisance, and the protection of the inhabitants of the neighbourhood.

4. Until a proper hospital or building has been provided, to which cases of contagious or infectious diseases can be removed, every person on whose premises any case of a disease of a contagious

person to adopt for the purpose of preventing the spread of such contagious or infectious disease. If the Board of Health consider it necessary to order the burning or destroying of any articles in order to prevent the spread of any disease, the owner of such articles shall be entitled to recover compensation not exceeding the sum of five pounds (£5), by order of the Board of Health, with the sanction of the Governor in Council.

5. Before any building intended to be used as a Slaughter house can be erected or converted into such, the Board of Health must have submitted to it, for approval, a statement detailing the position of such building, and must be satisfied of the necessity for the same, and may withhold or grant its sanction under such regulations as may be considered necessary.

6. Before any person intending to carry on any noxious or offensive trade, as that of a soap-boiler, tallow-melter, or such like, shall commence to take steps for the starting such trade, it shall be necessary for such person to obtain in writing the sanction of the Board of Health, and the Board of Health taking into consideration the district in which it is proposed to carry on such trade, shall have power to define what is a noxious or offensive trade, and shall satisfy themselves before granting such sanction, that every precaution is taken to prevent any noxious exhalations from chimneys and such like.

7. Before any markets shall be held the Board of Health must first approve of the same, and sanction some place for the holding of such markets, and such markets shall be conducted under rules and regulations to be issued by the Board of Health at the time of giving its sanction.

8. If it shall become necessary to alter in any way the existing Burial Grounds, or to lay out any new Burial Grounds, the alterations or laying out of the same, as the case may be, must be submitted by the Burial Board or Committee of Management to the Board of Health for its approval, the same to be submitted to the Governor in Council for his approval.

9. All lots lying to the Westward of the boundary of the Cemetery, extending Westward to the Government Reservoir, North to the Sea shore, and South facing the North of Fitzroy road, also including all Pensioners allotments, whether occupied or not, must be carefully fenced in by a substantial fence, the sufficiency of which shall be determined by the Board, and the owner or occupier shall be required to keep such fence in repair. The President then brought to the notice of the Board that the Government hulk and jetty were an eyesore to the place and dangerous to life; already one man had been drowned in the hulk and another had had his leg broken, he said that by making this report the Government might take the necessary steps to remove the hulk.

Mr. Felton thought the hulk, though an eyesore, was not detrimental to health.

Then there were the hulks of the Falkland Islands Company, which are injurious to health, owing to the offensive smell emanating from them at low water. Also the roadway in front of the Company's lower Store was in a most unsatisfactory state.

Mr. Smith said, to his knowledge, the hulk "Snow Squall" was considered a receptacle for filth of all kinds, also the cellars under the Store were in a filthy state after any heavy wet weather.

Mr. Felton thought it would be impossible to remove the inner hulk totally, it could partly be blown to pieces, but still sufficient would be left to be a danger to boats, &c., what he thought could be done was to cut it down to the level of the jetty.

The President said he thought the Company should be informed of what is required to be done for sanitation.

The Inspector was directed to inspect the hulk "Snow Squall," and corners of the jetties, and if he found a nuisance to act accor-

The following Circular of Enquiry emanating from the Privy Council of the Dominion of Canada, relative to the habits of Fur Seals, has been forwarded to His Excellency the Governor through the Secretary of State for the Colonies.

His Excellency will be much obliged if those in a position to do so, will send in particulars of their knowledge and experience in this matter to this Office as soon as practicable, in order that the result of the Enquiry may be communicated to Lord Knutsford at an early date.

By Command.  
FRED. SHEDDEN SANGUINETTI,  
Ag. Colonial Secretary.

#### CIRCULAR of ENQUIRY.

The Department of Fisheries of the Dominion of Canada, in connection with questions relating to the Fur Seal Fishery of the North Pacific, is desirous of obtaining all possible information relating to the Fur Seal Fisheries of the Southern Hemisphere. The Southern Fur Seal or "Sea bear" (of the family of eared seals, *vr. Otariidae*) is known to have formed the object of an important industry in the early part of the present century, but the Islands on which it once abounded are now reported, and believed to be, almost entirely depleted of Seals. As the habits and life history of the Fur Seal of the North Pacific Ocean appear to be closely similar to those of the allied Seals of

the Southern Hemisphere, it is thought probable that the history of the decline of the Southern Fisheries may afford some facts having a direct bearing on the Fur Seal Fisheries of the North Pacific, and may serve to indicate a proper mode of protection to be accorded to these fisheries, if such should be found necessary.

In this connection it would be of practical interest to know for each of the Seal Islands, or Sealing grounds of the Southern Hemisphere:—

(1). Whether the decline or destruction of the Fishery is attributable to the slaughter of the Seals while on shore at their breeding places, or to their pursuit at large on the circumjacent Ocean.

(2). In what manner the Fur Seal Fishery has been, or is conducted in each particular locality.

(3). Whether any, and if any, what measures have been taken by various Governments toward the protection of the Fur Seal Fisheries in their territories, or in places within their jurisdiction: and further, if any such measures are known to have proved successful in preserving or re-habilitating the Fisheries

(4). Generally any particulars as to the life history of the animal, its migrations, season of bringing forth its young, and habits of the Seals while engaged in suckling and rearing the young.

It is also particularly requested that copies of any printed documents or reports referring to the Fur Seal Fisheries, or embodying Regulations provided for these fisheries may be furnished.

By Command,  
**FRED. SHEDDEN SANGUINETTI,**  
 Ag. Colonial Secretary.

At a Meeting of the Board of Health held on Saturday, the 14th September, 1891.

Present: The Honourable the Colonial Surgeon, President.

“ “ The Acting Colonial Secretary,

“ “ J. J. Felton.

The Reverend P. J. O'Grady.

The Inspector of Nuisances was in attendance.

Mr. J. Smith through illness was unable to attend.

The Minutes of last Meeting were read.

Attention was called by Mr. Felton to Rule No. 9 of the Regulations and Bye-Laws, and the following Amendment suggested. “That the word “Cottage” be placed between the words “Pensioners” and “Allotment,” which was agreed to.

The President said that he had summoned the Members for two reasons :

1st. That he had received an application from the United States Consul, to know if the Board would give permission to exhumate the body of the late Captain Carver, who died of heart disease on board the wreck “St. Mary,” on the 12th August, 1890.

He, the President, thought there could be no danger, if a leaden coffin were provided ready in which to place the remains for transit to the vessel which was to convey it away.

The Colonial Secretary thought the remains should be disinterred in the early hours of the morning, and everything should be under the supervision of the Colonial Surgeon and the Police.

The Board concurred and sanctioned the removal of the remains with the necessary precautions.

The President stated secondly that a large amount of rubbish had been gathered from the Falkland Islands Company's back yard and premises, and that the Company wished to know where they were to deposit it. He understood that His Excellency had given permission for it to be placed along the sea wall, to the Westward of the Reservoir Jetty.

It was considered that this would be a proper place of deposit, but it was conditional that the rubbish should be rammed down to the satisfaction of the Inspector of Nuisances.

The Inspector then asked if he should serve notices on those parties who had not begun to fence in, according to the Bye-Law,

It was considered proper that time should be given; meanwhile that persons should be warned of their obligations in this respect.

### ADVICE.

No Camp dogs should on any account be brought into Stanley or vice versa.

All dogs suspected of having Distemper should be kept apart from healthy dogs.

Every dog should be given sulphur, even if distemper has not declared itself.

Should the disease be manifest Cod Liver Oil should be given at least three times a day, (half a wine glass-full as a dose.)

Sulphur should always be put in the drinking water.

Should the dog show symptoms of failing, Liebig's Extract of Meat may be given with great advantage. A small lump placed in a bit of tissue paper and put down the throat as a pill.

The excreta should be carefully cleaned away and disinfected with Carbolic or Little's dip.

And when a number of dogs are affected it should be the special duty of one man to attend upon them.

When Liebig cannot be obtained strong beef tea should be given, the disease having such a lowering tendency. The great object in view should be to support the powers of life.

The Governor directs the publication for general information of a despatch which His Excellency has received from the Right Honourable the Secretary of State for the Colonies regarding a survey of the Crown Lands of the Colony and the terms upon which renewals of Leases will be granted.

By Command.

FRED. SHEDDEN SANGUINETTI,  
Ag. Colonial Secretary

Downing Street,  
26th September, 1891.

Sir.

I have the honour to acknowledge the receipt of your Despatches No. 65 of the 15th of May, No. 81 of the 23rd of June and No. 102 of the 23rd July, on the subject of the subject of the leases held by the sheep farmers, and the necessity for a survey of the Colony.

2. There appear to be good grounds for believing that in the leases and grants of Crown land the area of the land leased and granted has been very considerably understated, and that consequently the lessees and purchasers have occupied more land than could be lawfully leased or granted to them for the rent and purchase money which they have paid.

3. If this be so, I do not think that the lessees and grantees, or those who derive title through them, can claim to retain the advantage which they have derived contrary to the law through the mistake of the Government Surveyor, although that mistake has been allowed to remain uncorrected for many years.

4. I am of opinion therefore that a survey of the Colony is required and I am in communication with the Crown Agents for the Colonies as to obtaining the services of a Surveyor and the requisite staff for that purpose.

5. Should the survey prove such errors to have been made in all or any of the leases and grants as are alleged, I consider that the lessees or grantees should have the option of either retaining (subject to the conditions of the leases or grants and to the provisions of the Ordinances) the whole of the land comprised within the boundaries described in the leases or grants on payment of additional rent or additional purchase money for any excess of acreage which may be found on survey to exist over the acreage stated in the leases or grants, or of having the boundaries of their land readjusted so as to reduce it to the acreage so stated. Such readjustment which would be a matter of some difficulty should be made either by agreement or by some impartial Commissioner, or Arbitrator to be appointed by the Judge.

6. In any case however, where the boundary line is not defined by the lease or grant except by specifying the distance from a stated point and it may be found on survey that the lessee or grantee has assumed a much more extended boundary, I am of opinion that he should not be allowed the option of retaining and paying rent or purchase money for the land so occupied through his own mistake in excess of the lease or grant.

7. Should the survey prove in any case that the acreage in the lease or grant has been overstated the lessee or grantee should have a rebate of rent or purchase money.

8. In making the survey all absolutely unproductive ground, whether rock or pond, may properly be excluded from computation.

9. The acreage of the lands recently purchased by the Falkland Islands Company must be considered subject to correction by the result of the survey.

10. In granting renewed leases to the lessees whose leases fall in before the survey and who are entitled under the Ordinances to renewal, a clause should be inserted in the new leases referring to the intended survey and providing for the increase or diminution of the rent in accordance with the result of the survey, or, at the option of the lessee, for the readjustment of the boundaries or, in the case of an undefined boundary as referred to in paragraph 6 of this Despatch, for the surrender of any land occupied by the lessee in excess of what he was entitled to.

11. If any lessee declines to accept a renewed lease containing such a clause you may issue to him a temporary license as proposed in your Despatch No. 102.

12. No claim should be made for back rent for excess of land or for back interest on the purchase money for such excess.

13. As at present advised I am disposed to think that the lessees and freeholders should bear a proportion, but only a very small proportion, of the cost of the survey.

14. The applications which you have received for new leases of Crown lands must remain in abeyance pending the result of the survey.

15. As there appear to be no copies of the leases in this Department except those enclosed in your Despatch No. 102 I should wish to be furnished with copies of some others.

ADVICE.

No Camp dogs should on any account be brought into Stanley or vice versa.

All dogs suspected of having Distemper should be kept apart from healthy dogs.

Every dog should be given sulphur, even if distemper has not declared itself.

Should the disease be manifest Cod Liver Oil should be given at least three times a day, (half a wine glass-full as a dose.)

Sulphur should always be put in the drinking water.

Should the dog show symptoms of failing, Liebig's Extract of Meat may be given with great advantage. A small lump placed in a bit of tissue paper and put down the throat as a pill.

The excreta should be carefully cleaned away and disinfected with Carbolic or Little's dip.

And when a number of dogs are affected, it should be the special duty of one man to attend upon them.

When Liebig cannot be obtained strong beef tea should be given; the disease having such a lowering tendency. The great object in view should be to support the powers of life.

Government Office,

The Governor directs the publication for general information of a despatch which His Excellency has received from the Right Honourable the Secretary of State for the Colonies regarding a survey of the Crown Lands of the Colony and the terms upon which renewals of Leases will be granted.

By Command,

FRED. SHEDDEN SANGUINETTI,  
Ag. Colonial Secretary

Downing Street,  
23th September, 1891,

Sir,

I have the honour to acknowledge the receipt of your Despatches No. 65 of the 15th of May, No. 81 of the 23rd of June and No. 102 of the 23rd July, on the subject of the subject of the leases held by the sheep farmers, and the necessity for a survey of the Colony.

2. There appear to be good grounds for believing that in the leases and grants of Crown land the area of the land leased and granted has been very considerably understated, and that consequently the lessees and purchasers have occupied more land than could be lawfully leased or granted to them for the rent and purchase money which they have paid.

3. If this be so, I do not think that the lessees and grantees, or those who derive title through them, can claim to retain the advantage which they have derived contrary to the law through the mistake of the Government Surveyor, although that mistake has been allowed to remain uncorrected for many years.

4. I am of opinion therefore that a survey of the Colony is required and I am in communication with the Crown Agents for the Colonies as to obtaining the services of a Surveyor and the requisite staff for that purpose.

5. Should the survey prove such errors to have been made in all or any of the leases and grants as are alleged, I consider that the lessees or grantees should have the option of either retaining (subject to the conditions of the leases or grants and to the provisions of the Ordinances) the whole of the land comprised within the boundaries described in the leases or grants on payment of additional rent or additional purchase money for any excess of acreage which may be found on survey to exist over the acreage stated in the leases or grants, or of having the boundaries of their land readjusted so as to reduce it to the acreage so stated. Such readjustment which would be a matter of some difficulty should be made either by agreement or by some impartial Commissioner, or Arbitrator to be appointed by the Judge.

6. In any case however, where the boundary line is not defined by the lease or grant except by specifying the distance from a stated point and it may be found on survey that the lessee or grantee has assumed a much more extended boundary, I am of opinion that he should not be allowed the option of retaining and paying rent or purchase money for the land so occupied through his own mistake in excess of the lease or grant.

7. Should the survey prove in any case that the acreage in the lease or grant has been overstated the lessee or grantee should have a rebate of rent or purchase money.

8. In making the survey all absolutely unproductive ground, whether rock or pond, may properly be excluded from computation.

9. The acreage of the lands recently purchased by the Falkland Islands Company must be considered subject to correction by the result of the survey.

10. In granting renewed leases to the lessees whose leases fall in before the survey and who are entitled under the Ordinances to renewal, a clause should be inserted in the new leases referring to the intended survey and providing for the increase or diminution of the rent in accordance with the result of the survey, or, at the option of the lessee, for the readjustment of the boundaries or, in the case of an undefined boundary as referred to in paragraph 6 of this Despatch, for the surrender of any land occupied by the lessee in excess of what he was entitled to.

11. If any lessee declines to accept a renewed lease containing such a clause you may issue to him a temporary license as proposed in your Despatch No. 102.

12. No claim should be made for back rent for excess of land or for back interest on the purchase money for such excess.

13. As at present advised I am disposed to think that the lessees and freeholders should bear a proportion, but only a very small proportion, of the cost of the survey.

14. The applications which you have received for new leases of Crown lands must remain in abeyance pending the result of the survey.

15. As there appear to be no copies of the leases in this Department except those enclosed in your Despatch No. 102 I should wish to be furnished with copies of some others.

I have, &c.,

(Signed) KNUTSFORD.

All dogs suspected of having Distemper should be kept apart from healthy dogs.

Every dog should be given sulphur, even if distemper has not declared itself.

Should the disease be manifest Cod Liver Oil should be given at least three times a day, (half a wine glass-full as a dose.)

Sulphur should always be put in the drinking water.

Should the dog show symptoms of failing, Liebig's Extract of Meat may be given with great advantage. A small lump placed in a bit of tissue paper and put down the throat as a pill.

The excreta should be carefully cleaned away and disinfected with Carbolic or Little's dip.

And when a number of dogs are affected it should be the special duty of one man to attend upon them.

When Liebig cannot be obtained strong beef tea should be given, the disease having such a lowering tendency. The great object in view should be to support the powers of life.

The Governor directs the publication for the information of those interested in the matter the following advice of the Honourable the Colonial Surgeon, with regard to the prevailing Distemper amongst Dogs in this Colony.

**ADVICE.**

No Camp dogs should on any account be brought into Stanley or vice versa.

All dogs suspected of having Distemper should be kept apart from healthy dogs.

Every dog should be given sulphur, even if distemper has not declared itself.

Should the disease be manifest Cod Liver Oil should be given at least three times a day, (half a wine glass-full as a dose.)

Sulphur should always be put in the drinking water.

Should the dog show symptoms of failing, Liebig's Extract of Meat may be given with great advantage. A small lump placed in a bit of tissue paper and put down the throat as a pill.

The excreta should be carefully cleaned away and disinfected with Carbolic or Little's dip.

And when a number of dogs are affected it should be the special duty of one man to attend upon them.

When Liebig cannot be obtained strong beef tea should be given, the disease having such a lowering tendency. The great object in view should be to support the powers of life.

# PROPOSED VOLUNTEER FORCE.

A Public Meeting was held in the Court House on Wednesday, 24th February, with a view to discussing the question of the enrolment of a Volunteer Force in the Falkland Islands, His Excellency the Governor in the chair.

His Excellency in introducing the subject stated that Captain Lang, H. M. S. "Cleopatra," the Senior Naval Officer on the South East Coast of America, had kindly attended the Meeting and would address a few remarks. His Excellency then gave an outline of the proposed scheme.

Captain Lang said he had little to add to the remarks made by His Excellency but would refer to the probability in the near future of the establishment of a Depot in the Falkland Islands and stated his conviction that if the inhabitants of the Falkland Islands showed a desire to assist the Home Government in carrying out their defence schemes by enrolling themselves as a Volunteer Force, the Home Government would be more ready to expedite the establishment of a Depot. If a body of Marines, which would be a small body, were to be sent out, a Volunteer Force would be in a position to render valuable assistance. Captain Lang concluded by undertaking so long as he retained the position of Senior Naval Officer on the Station to further the movement as far as possible by giving orders to all ships visiting the Falkland Islands to render every possible assistance.

Mr. Rowell moved the following resolution :

"That a Volunteer Force be formed to consist of 60 Infantry, or more, of whom 6 shall be available as Mounted Infantry and Scouts, and 20 Artillerymen, or more."

His Honor the Judge seconded and the motion was carried unanimously.

Mr. Packe moved

"That the Officers to be appointed be balloted for, and that His Excellency be asked to assign the position and rank as he may deem best to be held by such Officers in the Force."

Mr. Noble seconded and the motion was carried unanimously.

Hon. C. A. Fraser informed the Meeting of the regulations as to capitulation grant and the grant of ammunition in force at home and moved the following :

\* That the Officers shall consist of

- 1 Captain of Infantry.
- 1 Lieutenant of Infantry.
- 1 Second Lieutenant of Infantry.
- 1 Lieutenant of Artillery,
- 1 Second Lieutenant of Artillery
- 1 Drill Instructor.
- 1 Sergeant Major of the whole Force.
- 1 Quartermaster Sergeant of the whole Force."

Mr. F. Hardy seconded and the motion was carried unanimously.

Captain Lang moved the following :

"That a Committee comprised as under be formed to consider the details as to the uniform and equipment of the Force, which should be of grey, with facings of a darker shade—buttons bronze—breeches and gaiters with darker shade—brown leggings—brown belts, &c.' remarking on the desirability of having a uniform of a shade similar to that of the ground.

Committee. Captain Lang, Hon. C. A. Fraser, Messrs Durose, Harding & Rowell, with power to add to their number.

Mr. J. Smith seconded and the motion was carried unanimously.

The Meeting terminated with votes of thanks to His Excellency and Captain Lang.

# PROPOSED REGULATORY CHANGES

The following table lists the proposed regulatory changes to the Code of Federal Regulations, 49 CFR, Part 171, Subpart 171.101, regarding the transportation of hazardous materials. The changes are intended to improve the safety and efficiency of the transportation process.

Section	Proposed Change
171.101-1	Revising the definition of "hazardous material" to include certain new materials.
171.101-2	Revising the classification criteria for hazardous materials.
171.101-3	Revising the packaging and labeling requirements for hazardous materials.
171.101-4	Revising the training and certification requirements for personnel involved in the transportation of hazardous materials.
171.101-5	Revising the emergency response procedures for hazardous materials.

The proposed changes are being implemented in a phased manner to ensure a smooth transition for all stakeholders. The first phase will focus on the classification and packaging requirements, while the second phase will address the training and certification requirements. The final phase will cover the emergency response procedures.

It is expected that these changes will result in a more uniform and safer transportation system for hazardous materials. The Department of Transportation is committed to ensuring that these changes are implemented in a timely and effective manner.

TUESDAY, APRIL 19, 1892.

*Whitehall, January 27th, 1892.*

The following letter from the Queen has been received by the Right Honourable the Secretary of State for the Home Department :—

*Osborne, January 26th, 1892.*

I must once again give expression to my deep sense of the loyalty and affectionate sympathy evinced by my subjects in every part of my Empire on an occasion more sad and tragical than any but one which has befallen me and mine, as well as the Nation. The overwhelming misfortune of my dearly loved Grandson having been thus suddenly cut off in the flower of his age, full of promise for the future, amiable and gentle, and endearing himself to all, renders it hard for his sorely stricken Parents, his dear young Bride, and his fond Grandmother to bow in submission to the inscrutable decrees of Providence.

The sympathy of millions, which has been so touchingly and visibly expressed, is deeply gratifying at such a time, and I wish, both in my own name and that of my children, to express, from my heart, my warm gratitude to *all*.

These testimonies of sympathy with us, and appreciation of my dear Grandson, whom I loved as a Son, and whose devotion to me was as great as that of a son, will be a help and consolation to me and mine in our affliction.

My bereavements during the last thirty years of my reign have indeed been heavy. Though the labours, anxieties, and responsibilities inseparable from my position have been great, yet it is my earnest prayer that God may continue to give me health and strength to work for the good and happiness of my dear Country and Empire while life lasts.

VICTORIA, R.I.

The following official telegram has been received from Sir Francis Knollys, at Windsor Castle :—

“The Prince and Princess of Wales are anxious to express to Her Majesty’s subjects, whether in the United Kingdom, in the Colonies, or in India, the sense of their deep gratitude for the universal feeling of sympathy manifested towards them at a time when they are overpowered by the terrible calamity which they have sustained in the loss of their beloved eldest son.

“If sympathy at such a moment is of any avail, the remembrance that their grief has been shared by all classes will be a lasting consolation to their sorrowing hearts, and, if possible, will make them more than ever attached to their dear country.”

His Excellency the Governor directs the publication of the following Spanish Royal Order for general information.

*Royal Order.*

(Translation).

CONSIDERING the inquiries which have been addressed to this Ministry with regard to the interpretation of Articles 1 and 6 of the Royal Decree of the 31st December last, as to the date on which the new Tariff is to come into force, and as to the duties which are to be charged on goods from countries whose Commercial Treaties with Spain terminates on the 30th June next ;

And considering that England and the Netherlands continue to enjoy up to the 30th June next the benefits in general which are secured to them by their respective Treaties in addition to those contained in the Treaties concluded between Spain and Germany on the 12th July, 1883, and with France on the 6th February, 1882 ;

His Majesty the King, and in his name the Queen Regent, decrees :—

1. That merchandize which enters the Customs lines of Spain, either by sea or land, until midnight of the 31st of this month of January will enjoy the benefits of the Tariff now in force inasmuch as the new Tariff does not come into force till the 1st February next.

2. In accordance with the above Article, the Custom-houses will remain open until midnight in order to receive the manifests and way bills. On these documents will be entered carefully the hour at which they are presented, provided always that they conform with the Marine and Sanitary Regulations of the port of entry.

3. Merchandize of British or Dutch origin will continue to enjoy to the 30th June of the present year the benefits of the duties contained in the Tariffs, Letter (B), annexed to the Treaties of Commerce and Navigation between Spain and Germany of the 12th July, 1883, and of France of the 6th February, 1882.

4. In order that the duties in those Tariffs (which were annexed to the Treaties for merchandize to which the said Tariffs refer) may be applied, it is necessary that a certificate of origin should be presented at the Custom-house, drawn up in the form laid down in Rule 12 of the new Tariff approved of by the Royal Order of the 31st December, 1891.

5. All British and Dutch goods not specified in the above Tariffs, Letter (B), annexed respectively to the French and German Treaties, will, up to the 30th July, 1892, pay duty in accordance with the second column of the new Tariff approved by the Royal Decree of the 31st December 1891.

6. Goods of Finnish origin comprised in the Tariff, Letter (B), annexed to the Treaty of Commerce and Navigation between Spain and Russia of the 2nd July, 1887, will up to the 30th June of the present year, pay in accordance with the duties specified in the above Tariff, Letter (B), it being understood that, in order to enjoy this privilege, Finnish goods must be imported direct from Finland without transshipment on the voyage; no necessity of justifying their origin by means of a certificate being required.

7. The Regulations referred to in Rule 8 of the Tariff of the 31st December last, as well as that at present in force, are those laid down in the law of Commercial Relations with the Colonies of the 30th June, 1882, as well as in the Article 13 of the Budget Law of the 29th June, 1887 ; and they are only of a temporary nature which will last until the treatment to which the foreign flag will be subjected in the trade and navigation between the Peninsula and the Colonies has been definitely settled.

8. For the carrying out of the preceding Regulations relative to British, Dutch, and Finnish goods the Custom-houses must refer to the official edition of the Tariff of the 31st December, 1889, which is still in force, and which contains the respective Treaties of Commerce.

By order of Her Majesty, I state this for your information and guidance.

I have, &c.

His Excellency the Governor directs for general information the publication of the following Order in Council of Her Majesty.

At the Court at Osborne House, Isle of Wight, the 6th day of February, 1892

PRESENT,

THE QUEEN'S MOST EXCELLENT MAJESTY

LORD PRESIDENT

MR. RITCHIE

MR. JACKSON.

WHEREAS by "The Mail Ships Act, 1891," it is provided that where Her Majesty the Queen has made a Convention with a foreign State respecting the postal service between such foreign State and the United Kingdom, or respecting the privileges of mail ships, that is to say, ships engaged in any postal service of such foreign State, or of any part of Her Majesty's dominions, it shall be lawful for Her Majesty in Council to order that the said Act shall, subject to any conditions, exceptions, and qualifications contained in the Order, apply during the continuance of the Order as regards such Convention and foreign State and the postal service and mail ships described in the Convention ;

And whereas by section 8 of the said Act it is also provided that an Order in Council may for the purpose of a Convention with a foreign State apply the said Act, subject to any exceptions or modifications not inconsistent with the provisions of the said Act, to any British possession, and that the said Act when so applied should, subject to those exceptions and modifications, and subject as therein-after mentioned, have effect as if it were re-enacted, with the substitution of such British possession for the United Kingdom, provided that, before it should be applied to any British possession named in the Schedule to the said Act, the Government of such possession should have adhered to the Convention ;

And Whereas on the 30th day of August, 1890, a Convention was made at London between Her Majesty and the President of the French Republic respecting the postal service between France and French possessions and the United Kingdom and British possessions, the terms of which Convention are set forth in the Schedule to this Order ;

And whereas the ratifications of the said Convention were exchanged on the 23rd day of March, 1891 ;

And whereas the Governments of certain of the British possessions named in the Schedule to the said Act, namely, Newfoundland, Queensland, New Zealand, Cape of Good Hope, and Natal, have adhered to the said Convention ;

And whereas it is expedient that "The Mail Ships Act 1891," should apply as regards the said Convention and the French Republic and the postal service and mail ships described in the said Convention ;

And whereas it is also expedient that the said Act should, for the purpose of the said Convention, apply to the above-mentioned British possessions, and also to all British possessions not named in the Schedule to the said Act, subject to the exceptions and modifications in this Order contained :

NOW, THEREFORE, Her Majesty, by virtue and in exercise of the powers in this behalf by "The Mail Ships Act, 1891," or otherwise in Her Majesty vested, is pleased, by and with the advice of Her Privy Council, to order, and it is hereby ordered, as follows :—

1. "The Mail Ships Act, 1891," shall apply during the continuance of this Order as regards the Convention set forth in the Schedule to this Order, and as regards the French Republic and the postal service and mail ships described in that Convention.

2. The said Act shall apply as regards any public ship of the French Republic when employed as a mail ship in the cases authorised by Article V. of the said Convention.

3. The said Act shall for the purpose of the said Convention apply to the following British possessions, namely, Newfoundland, Queensland, New Zealand, Cape of Good Hope, and Natal, and also to every British possession not named in the Schedule to the said Act, subject, however, to the provisions of section 8 of the said Act, and also to the exceptions and modifications following, that is to say :

- (i.) The expression " officer of Customs " shall mean an officer of the Customs Department of the possession or, where there is no such Department, an officer or one of the officers appointed for the purposes of the said Act by the Governor in Council, of which appointment notice shall be published in the Gazette of the possession.
- (ii.) The provisions of the said Act as to the amount of fines shall, in possessions having a dollar or rupee currency, be read as if the amounts were stated in dollars or rupees, as the case may be, at the rate of 5 dollars or 10 rupees to the pound sterling. In Gibraltar the said provisions shall be read as if the amounts were stated in pesetas, at the rate of 25 pesetas to the pound sterling.
- (iii.) In lieu of subsections (1) and (2) of section 7 of the said Act the following provisions shall be substituted, that is to say : Every offence may be prosecuted and every fine may be recovered by action or other legal proceeding in any Court of the possession competent to impose fines, but any fine imposed by a Court of inferior or limited jurisdiction shall not exceed either the amount authorised by the said Act and this Order, or the amount of fine which the Court may impose in the exercise of its ordinary jurisdiction, whichever of the said amounts shall be the less ; and there shall be the same right of appeal (if any) against any such fine as in other cases of fines imposed by the same Court in the exercise of its ordinary jurisdiction ; and every Court, whether of original or appellate jurisdiction, may reduce the amount of any fine.
- (iv.) The regulations required to be made under subsection (4) of section 7 of the said Act, by the Commissioners of Customs with the consent of the Treasury, shall in the possession be made by the Governor in Council.
- (v.) Section 5 of the said Act, so far as relates to the Commissioners of Customs, shall not apply in the possession.

4. This Order may be cited as "The Mail Ships (France) Order in Council, 1892."

And the Most Honourable the Marquis of Salisbury, K.G., and the Right Honourable Lord Knutsford, two of Her Majesty's Principal Secretaries of State, are to give the necessary directions herein as to them may respectively appertain.

In addition to there being a substantial cash balance we have been again successful in the few competitions held during the year with our friends the "Crews of Her Majesty's ships."

Also after six years steady, though gradual improvement in the shooting and funds, the Club has at last been the means of the more easy formation of a Volunteer Corps which will, undoubtedly, be to the advantage of the Islands generally and a social good.

The silver cup, generously presented to the Club by Mr. F. E. Cobb, has been handed over from last year's winner Mr. V. A. Biggs, to Mr. F. Hardy, Senr., after a severe struggle and exciting finish.

In conclusion the Club generally wish to express their grateful appreciation of the hearty assistance given by the Patrons and Honorary Members.

Also after six years steady, though gradual improvement in the shooting and funds, the Club has at last been the means of the more easy formation of a Volunteer Corps which will, undoubtedly, be to the advantage of the Islands generally and a social good.

The silver cup, generously presented to the Club by Mr. F. E. Cobb, has been handed over from last years' winner Mr. V. A. Biggs, to Mr. F. Hardy, Sonr., after a severe struggle and exciting finish.

In conclusion the Club generally wish to express their grateful appreciation of the hearty assistance given by the Patrons and Honorary Members.

Monday, 8th August, 1892.

Present:—The Honourable the Colonial Surgeon, President.

Mr. James Smith.

Mr. Hurst, Inspector of Nuisances, was in attendance.

Plans of proposed drainage of Mr. Robson's new property were submitted by Mr. Smith.

His Honor said that owing to the mistake which had been made upon the Falkland Islands Company's premises, in allowing too much overflow to gather in the one drain, he thought it would be advisable before sanctioning the said plans to ask the Inspector to visit and report upon the same at the next meeting.

The question of the drainage of the Baptist Tabernacle was then discussed. Mr. Smith produced a sketch of the drain, which was not finished, and promised to lay a plan of the work before the next sitting of the Board.

Mr. Smith gave notice of bringing before the Board the position and state of the steam pipe leading from the works of the Falkland Islands Company.

The meeting then adjourned.

Sir,

I have the honour to acknowledge the receipt of your despatch No. 44 of the 5th of April, transmitting a draft Ordinance to amend the Ordinances relating to Auctioneers which had been passed by the Legislative Council but to which you had not assented in consequence of the opposition of the unofficial members a letter from whom accompanied your despatch, and to enclose for your information and guidance a copy of correspondence with the Falkland Islands Company on the subject of the proposed Ordinance.

FALKLAND ISLANDS COMPANY.

Sir,

I have the honour to transmit to you for the consideration of Lord Knutsford a copy of a protest made by the Unofficial Members of the Legislative Council of the Falkland Islands against the passing of the Ordinance relating to sales by Auction.

The original Auctioneers' Ordinance of 1853, No. 5, provided that it should be lawful for the Governor to grant to any person or Company a license to carry on the business of an Auctioneer on his or their own account or by his or their Agent, and this Company have for many years held a license under that Ordinance in the name of their head Storekeeper. It happens at times that property of considerable value is brought to the hammer in Stanley, and the connection of the Auctioneers with this Company has hitherto been regarded as a guarantee of respectability, so necessary a qualification in an office of this kind. The present holder of the license has been in our services for nearly 30 years, and has frequently been employed by the Government as Auctioneer. No complaint has ever, to my knowledge, been made against him, or against the Company in connection with the way his duties have been performed. The proposed Ordinance would deprive him of the post that he has held so long, and, further, is regarded by this Board as a direct imputation upon the honour and integrity of the Company, which they desire very strongly to repudiate. If any valid objections could have been raised to the arrangements for conducting auctions which have been in force for nearly 40 years, they would have occurred long before this to the minds of former Governors, several of whom were practised in the law, but this has not been the case, and we now find Sir Roger Goldsworthy proposing an alteration at a time coincident with the date of the renewal of our license. The Board are unable to understand the attitude that he has thought fit to assume towards the Company in this matter.

I have &c.,

Downing Street,  
May 26th 1892.

Sir,

In reply to your letter of the 16th instant, transmitting a copy of a protest made by the Unofficial Members of the Legislative Council of the Falkland Islands against clause 2 of the proposed Ordinance relating to Auctioneers, I am directed by Lord Knutsford to inquire whether if the Storekeeper of the Falkland Islands Company continues to be licensed as Auctioneer the Company are prepared to give up the practice of receiving a share of the Commission earned by him as Auctioneer, a practice which, as far as is known, is without precedent and does not commend itself to his Lordship's views, though there is no evidence before him of any actual complaint having been made.

I am to add that Lord Knutsford cannot agree with you in considering the Ordinance as "a direct imputation on the honour and integrity of the Company."

I am, &c.,

The Managing Director of the  
Falkland Islands Company.

FALKLAND ISLANDS COMPANY.

Sir,

I have the honour to acknowledge the receipt of your letter of the 26th May, with reference to the proposed Auctioneer's Ordinance, which has been laid before the Board.

I do not wish upon this occasion to question the competence of the Governor to inquire into and regulate the pecuniary relations existing between the Company and their servants: on the contrary, I am glad of the opportunity of showing once more that he has allowed himself to be misled by imperfect and inaccurate information into making proposals of an unjust and unnecessary nature. It is not a fact that the Storekeeper of the Company is himself licensed as an Auctioneer, nor is it true that the Company are in the habit of receiving a share of the commission earned by him: such a practice would no doubt be without precedent as Lord Knutsford observes.

The actual facts of the case, without the slightest reservation, are that this Company take out and pay for this license, not one penny of the cost of which is charged to him, and that he, their salaried servant, is nominated according to Ordinance No. 5 of 1853, (clause 1 and schedule A) to sell in their name, receiving, although this work is mainly performed in their time, a liberal share of their commission, a share sufficiently liberal, at all events, to be satisfactory to him, although, if it were not so, Lord Knutsford will probably admit that it is not a question of interest to any but the parties concerned. Upon this explanation his Lordship will observe that the facts, as presented to him, have been completely inverted.

The Board are glad to learn that there is no evidence before Lord Knutsford of any actual complaint having been made; that this should have been so, in such a small and highly critical community as the inhabitants of Stanley for a period of nearly 40 years is surely an argument in favour of leaving well alone that I may safely commend to his Lordship's judgment.

I venture to point out that if the principle of annulling the bids at auctions of any person pecuniarily interested in the result be pushed to its logical conclusions, the Government, which receives two-and-a-half per cent. on the proceeds would necessarily be debarred from competing. I question however, whether this would commend itself to the views either of Lord Knutsford or the Governor.

I owe an apology to Lord Knutsford for not having sufficiently explained the Board's view with regard to the imputation conveyed by this Ordinance. Were there half-a-dozen or more Auctioneers in the place, its tenor would be understood to be more general and less significant; but since the Company have been for some years, to the best of my knowledge the only people who have taken out licenses, it is not possible to conceive any reason for a change that does not imply a suspicion of collusion or some other misconduct equally dishonourable on their part. I am glad to gather however, from the last paragraph of your letter that we have been over sensitive on the subject.

I have &c.,  
(Sd.) F. E. COBB,  
Managing Director.

EDWARD WINGFIELD, Esq., C.B.,  
Colonial Office.

Downing Street,  
13th June, 1892.

Sir,

I am directed by Lord Knutsford to acknowledge the receipt of your letter of the 31st May, on the subject of the proposed Ordinance relating to Auctioneers in the Falkland Islands.

In your previous letter of the 16th May you stated that the Falkland Islands Company held a license as Auctioneer in the Colony in the name of their head Storekeeper, and if the license is granted to the Storekeeper, he, and not the Company is the Auctioneer, unless the license states that he holds it merely as the Agent of the Company. Assuming however that the Storekeeper is licensed as the Agent of the Company, and that they are really the Auctioneers, the objection to their being allowed to bid at the Auctions is stronger than it would be if they only received a part of the Commission earned by the Auctioneer.

If the Falkland Islands Company are willing that their head Storekeeper shall be licensed as Auctioneer on his own account and receive the whole of the Commission, Lord Knutsford will instruct the Governor to license him, and in that case it will be unnecessary to enact the proposed Ordinance.

I have &c.,  
E. WINGFIELD.

The Managing Director of the

FALKLAND ISLANDS COMPANY.

Sir,

I have the honour to acknowledge the receipt of your letter of the 13th instant, on the subject of the Falkland Islands Auctioneers' Ordinance.

Judged from an English standpoint, the Company's position as sellers and purchasers at the same sale must be admitted to be peculiar, though in a small place like the Falkland Islands, where all persons of any consequence from the Government Officials downwards, act in several capacities, it has for nearly 40 years been recognized as being in the natural order of things, and has not been considered objectionable up to the present time. However having placed the matter before the Board yesterday, I have to state for the information of Lord Knutsford, that they are willing to defer entirely to his Lordship's wishes on the subject, and that our Colonial Manager will be instructed accordingly.

I beg leave to add, as a suggestion for Lord Knutsford's consideration, that if the Auction question is to be governed by English practice, it would be only consistent to abolish the Government duty of two-and-a-half per cent. upon the proceeds of sales. The tax, I am informed, is without precedent in this country, the Government do nothing whatever to earn it and it has for years been the subject of much complaint as an unjust and unreasonable impost.

I have &c.,

I am to add that Lord Knutsford does not consider the duty on the proceeds of sales an unjust or unreasonable tax.

HIS EXCELLENCY THE GOVERNOR

Directs the publication of the following despatch received from the Right Honourable the Secretary of State for the Colonies.

*Government Office, Stanley,  
August, 1892.*

Downing Street,  
4th July, 1892.

Sir,

I have the honour to acknowledge the receipt of your despatch No. 44 of the 5th of April, transmitting a draft Ordinance to amend the Ordinances relating to Auctioneers which had been passed by the Legislative Council but to which you had not assented in consequence of the opposition of the unofficial members a letter from whom accompanied your despatch, and to enclose for your information and guidance a copy of correspondence with the Falkland Islands Company on the subject of the proposed Ordinance.

In reply to your despatch No. 56 of the 14th of April, I have to acquaint you that I am advised that a servant of a Company is not the servant of the individual shareholders.

I have, &c.,

KNUTSFORD.

Governor Sir R. GOLDSWORTHY, K.C.M.G.,  
&c., &c., &c.

39a Gracechurch Street,  
London, E.C., 16th May, 1892.

FALKLAND ISLANDS COMPANY.

Sir,

I have the honour to transmit to you for the consideration of Lord Knutsford a copy of a protest made by the Unofficial Members of the Legislative Council of the Falkland Islands against the passing of the Ordinance relating to sales by Auction.

The original Auctioneers' Ordinance of 1853, No. 5, provided that it should be lawful for the Governor to grant to any person or Company a license to carry on the business of an Auctioneer on his or their own account or by his or their Agent, and this Company have for many years held a license under that Ordinance in the name of their head Storekeeper. It happens at times that property of considerable value is brought to the hammer in Stanley, and the connection of the Auctioneers with this Company has hitherto been regarded as a guarantee of respectability, so necessary a qualification in an office of this kind. The present holder of the license has been in our services for nearly 30 years, and has frequently been employed by the Government as Auctioneer. No complaint has ever, to my knowledge, been made against him, or against the Company in connection with the way his duties have been performed. The proposed Ordinance would deprive him of the post that he has held so long, and, further, is regarded by this Board as a direct imputation upon the honour and integrity of the Company, which they desire very strongly to repudiate. If any valid objections could have been raised to the arrangements for conducting auctions which have been in force for nearly 40 years, they would have occurred long before this to the minds of former Governors, several of whom were practised in the law, but this has not been the case, and we now find Sir Roger Goldsworthy proposing an alteration at a time coincident with the date of the renewal of our license. The Board are unable to understand the attitude that he has thought fit to assume towards the Company in this matter.

I have &c.,

F. E. COBB,

Managing Director.

EDWARD WINGFIELD Esq., C.B.,  
Colonial Office.

Downing Street,  
May 26th 1892.

Sir,

In reply to your letter of the 16th instant, transmitting a copy of a protest made by the Unofficial Members of the Legislative Council of the Falkland Islands against clause 2 of the proposed Ordinance relating to Auctioneers, I am directed by Lord Knutsford to inquire whether if the Storekeeper of the Falkland Islands Company continues to be licensed as Auctioneer the Company are prepared to give up the practice of receiving a share of the Commission earned by him as Auctioneer, a practice which, as far as is known, is without precedent and does not commend itself to his Lordship's views, though there is no evidence before him of any actual complaint having been made.

I am to add that Lord Knutsford cannot agree with you in considering the Ordinance as "a direct imputation on the honour and integrity of the Company."

I am, &c.,  
(Sd.) E. WINGFIELD.

The Managing Director of the  
Falkland Islands Company.

39a Gracechurch Street,  
London E.C., 31st May, 1892.

FALKLAND ISLANDS COMPANY.

Sir,

I have the honour to acknowledge the receipt of your letter of the 26th May, with reference to the proposed Auctioneer's Ordinance, which has been laid before the Board.

I do not wish upon this occasion to question the competence of the Governor to inquire into and regulate the pecuniary relations existing between the Company and their servants: on the contrary, I am glad of the opportunity of showing once more that he has allowed himself to be misled by imperfect and inaccurate information into making proposals of an unjust and unnecessary nature. It is not a fact that the Storekeeper of the Company is himself licensed as an Auctioneer, nor is it true that the Company are in the habit of receiving a share of the commission earned by him: such a practice would no doubt be without precedent as Lord Knutsford observes.

The actual facts of the case, without the slightest reservation, are that this Company take out and pay for this license, not one penny of the cost of which is charged to him, and that he, their salaried servant, is nominated according to Ordinance No. 5 of 1853, (clause 1 and schedule A) to sell in their name, receiving, although this work is mainly performed in their time, a liberal share of their commission, a share sufficiently liberal, at all events, to be satisfactory to him, although, if it were not so, Lord Knutsford will probably admit that it is not a question of interest to any but the parties concerned. Upon this explanation his Lordship will observe that the facts, as presented to him, have been completely inverted.

The Board are glad to learn that there is no evidence before Lord Knutsford of any actual complaint having been made; that this should have been so, in such a small and highly critical community as the inhabitants of Stanley for a period of nearly 40 years is surely an argument in favour of leaving well alone that I may safely commend to his Lordship's judgment.

I venture to point out that if the principle of annulling the bids at auctions of any person pecuniarily interested in the result be pushed to its logical conclusions, the Government, which receives two-and-a-half per cent. on the proceeds would necessarily be debarred from competing. I question however, whether this would commend itself to the views either of Lord Knutsford or the Governor.

I owe an apology to Lord Knutsford for not having sufficiently explained the Board's view with regard to the imputation conveyed by this Ordinance. Were there half-a-dozen or more Auctioneers in the place, its tenor would be understood to be more general and less significant; but since the Company have been for some years, to the best of my knowledge the only people who have taken out licenses, it is not possible to conceive any reason for a change that does not imply a suspicion of collusion or some other misconduct equally dishonourable on their part. I am glad to gather however, from the last paragraph of your letter that we have been over sensitive on the subject.

I have &c.,  
(Sd.) F. E. COBB,  
Managing Director.

EDWARD WINGFIELD, Esq., C.B.,  
Colonial Office.

Downing Street,  
13th June, 1892.

Sir,

I am directed by Lord Knutsford to acknowledge the receipt of your letter of the 31st May, on the subject of the proposed Ordinance relating to Auctioneers in the Falkland Islands.

In your previous letter of the 16th May you stated that the Falkland Islands Company held a license as Auctioneer in the Colony in the name of their head Storekeeper, and if the license is granted to the Storekeeper, he, and not the Company is the Auctioneer, unless the license states that he holds it merely as the Agent of the Company. Assuming however that the Storekeeper is licensed as the Agent being allowed to bid at the Auctions is stronger than it would be if they only received a part of the Commission earned by the Auctioneer.

If the Falkland Islands Company are willing that their head Storekeeper shall be licensed as Auctioneer on his own account and receive the whole of the Commission, Lord Knutsford will instruct the Governor to license him, and in that case it will be unnecessary to enact the proposed Ordinance.

I have &c.,  
E. WINGFIELD.

Falkland Islands Company.

At a Meeting of the LEGISLATIVE COUNCIL held at Government House on Friday, the 23rd day of September, 1892, at 10 30 a.m.

Present : His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor, President.

Hon. R. M. Routledge, Colonial Secretary.

Hon. S. Hamilton, Colonial Surgeon.

Hon. A. E. Baillon.

The Minutes of the previous Meeting were read and confirmed.

The Honourable the Colonial Treasurer arrived and took his seat.

His Excellency said that he had summoned the Meeting for the purpose of laying before the Council the draft Estimates for 1893, without going into any discussion thereon. The Estimates, he added, differed but little from those of last year, but a proposition would be laid before the Council which would place the Public Works Vote on rather a different footing, by separating the Local revenue and Expenditure, including the Tenement Tax and other local taxes raised in Stanley, from the general revenue and expenditure, so that an annual sum of some £300 would be made available for expenditure towards fencing in the commonage and on general improvements in Stanley in connection with roads, drainage and sanitation, and also that a vote for the Sanitary Officer would have to be taken under the head of local expenditure.

The Honourable A. E. Baillon asked if it was His Excellency's intention to finally pass the Estimates in the absence of the other unofficial honourable member.

His Excellency answered in the affirmative and said that the introduction of the Estimates was already late.

The Honourable the Colonial Treasurer then explained the various differences in the several items.

The Honourable the Colonial Secretary gave notice that at the next meeting of the Council he would move the introduction and first reading of a Bill entitled "An Ordinance to raise a sum of money by a tax on tenements in Stanley and to provide for the application thereof and other local taxes for the proposed local improvements."

The Honourable the Colonial Treasurer gave notice that at the next meeting of the Council he would move the introduction and first reading of a Bill entitled "An Ordinance to make provision for the service of the Colony of the Falkland Islands for the year 1893."

The Council adjourned at 11 30 a.m., until Friday, the 30th instant.

At a Meeting of the LEGISLATIVE COUNCIL held at Government House on  
Friday, the 30th day of September, 1892.

Present: His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor,  
(President).

Hon. R. M. Routledge, Colonial Secretary.  
Hon. C. A. Fraser, Colonial Treasurer.  
Hon. A. E. Baillon.

The Minutes of the previous Meeting were read and confirmed.

The Honourable the Colonial Surgeon arrived and took his seat.

The Honourable the Colonial Secretary moved the introduction and first reading of a Bill entitled "An Ordinance to raise a sum of money by a tax on tenements in Stanley and to provide for the application thereof and other local taxes for the proposed local improvements."

The Honourable the Colonial Treasurer seconded and the Bill was read a first time.

The Honourable A. E. Baillon said there was a strong feeling in Stanley against the Ordinance though time had not allowed for a petition to be presented. The Honourable Member admitted the necessity of providing a fund to be raised by local taxation for the object in view, but considered that the opposition to the renewal of the "Tenement Tax" was justified, as the people, looking at the provisions of the Bill of 1882, were naturally led to believe that the tax would be discontinued after a period of ten years and it would be a breach of faith if it were continued. The Honourable Member suggested therefore that some other means, such as a wheel tax, might not be devised for raising local revenue.

His Excellency said that this was not the time, being its first reading, to enter into any discussion on the Bill, but he would be ready to hear anything any Member had to say when the Second reading had been moved. At the same time there would be no objection to the postponement of the Third reading until time had allowed of a conference being had with some of the leading townspeople.

His Excellency then proposed the suspension of the Standing Orders, which was seconded by the Colonial Treasurer. The same was carried with a view to proceeding with the Second Reading of the Bill and consideration in Committee.

The Colonial Secretary moved the Second reading and going into Committee thereon, explained the intention and nature of the Bill, and said that he did not see how a wheel tax would give the necessary funds.

The Honourable A. E. Baillon then entered a protest against the provisions in the Bill for the renewal of the "Tenement Tax." The Honourable Member said he would not oppose the Bill going into Committee, but would avail himself of His Excellency's proposal that the Third reading be postponed in order that he might obtain the sense of some of the leading members of the community upon the Bill.

His Excellency said that the object of the Bill was to provide for "local revenue." At present there was no sum available for expenditure on drainage, roads, sanitation, and general improvements in Stanley, and it was not fair that these works should be charged to "general revenue," as had hitherto been done, by which the other portion of the Colony would be taxed for "local improvements." To obtain funds therefore for this purpose it was proposed that the Tobacco, Dog, Publican's and Billiard Table Licenses, all of which are raised in Stanley itself, be eliminated from general revenue and applied to local purposes. These would, it is estimated, bring in about £239, but would be insufficient to meet the expense of fencing in the Commonage. This cost, therefore, it was proposed, should be defrayed from general revenue, and be recouped by a tenement tax to be raised (say for five years) under the proposed Ordinance.

His Excellency added that he would not press for the re-imposition, particularly of the "Tenement Tax," if some other mode were suggested for paying off the debt to be incurred by local to general revenue; but in the absence of such, whether the Bill were opposed or not, he would feel it his duty to bring the Bill in.

The Bill was read a Second time.

The Council then went into Committee.

In Clause 1, line 5, after "Stanley," the words "and payable to the Colonial Treasurer before the 30th day of January in each year" were inserted.

Clauses 2 and 3 were agreed to.

Some discussion took place as to the duration of the Bill, but was postponed until next Meeting.

The Bill was left in Committee stage.

The Council resumed its sitting in Committee on the Estimates for 1893.

The items of expenditure were read and discussed.

On vote 6, "Port & Marine." The Honourable A. E. Baillon said that complaints had been made of the inefficiency of the Pilot Service, vessels having on more than one occasion, citing recent instances, found it impossible to obtain the services of a pilot, although the pilotage had been paid.

His Excellency explained the circumstances under which the present acting pilot was also assistant pilot, and said that when Mr. Wilmer was absent arrangements would be made to provide, whenever possible, for the service of a pilot in Stanley. He pointed out also that under previous arrangements the exceptional presence of three vessels waiting for pilots could not have been provided for.

Under vote 6, "Mail Schooner." The Honourable A. E. Baillon commented on the unsatisfactory manner in which, in his opinion, the Mail Service to the West Falklands is conducted. The Honourable Member believed the Postmaster had received complaints on the subject and he questioned, if the figures were gone into, whether the "Hadassah" is running to advantage.

His Excellency drew attention that the Honourable Member was suggesting that the return which had been furnished to him was incorrect and said that he could not allow such a statement to pass unnoticed.

The Honourable Member (Mr. Baillon) deprecated having any intention of impugning the correctness of the Return, but suggested that a more detailed statement might be given. During his short experience he considered that the service was better performed, was more regular, and complaints less frequent than when an outside Schooner was engaged at £300 a year, and unless it was distinctly shown that the "Hadassah" was running at a profit it was a pity to take her from what she was intended and not run her service successfully. The Honourable Member also referred to the certificate held by the Pilot.

His Excellency reminded the Honourable Member to one thing that had not been taken into consideration, namely, that the present arrangement afforded a double service, and explained the items in the account, which showed that the "Hadassah," while affording this double service, was not running at an increased cost, and that her upkeep would be comparatively far heavier if she were not utilised on the service, for besides the £300 subsidy to another Schooner, the insurance, one hand with allowance for messing, wages of the crew, painting and repairs on her, would still have to be paid. As regards the way in which the service was performed His Excellency was aware that there had been a proposal made by some of the inhabitants of the West Island, on his first arrival, that a further subsidy of £300, making £600, should be given for the service to be conducted by an outside schooner.

His Excellency further reminded the Honourable Member that the Mail service had been conducted as nearly as possible on the lines discussed and agreed upon in a conversation with Mr. Goodhart, of the West Falklands, and taking everything into consideration the services had not been unsuccessfully carried out, and every endeavour had been made to meet the convenience of the public. With regard to the certificate held by the pilot, he said that the Insurance Company had not objected to a person not holding a Master's certificate being in charge of the "Hadassah," if he qualified in local navigation, which the pilot would be required to do.

The Honourable A. E. Baillon said he felt obliged to give his vote against the item of £466 18 11 "Mail Schooner."

Under Vote 17, "Public Works," the item "Maintenance and Repair of roads" was reduced to £250—and a new item £70 as "an instalment on loan for fencing in the Commonage was introduced."

The item "forage for cart horses" was increased to £30.

Making a sum total for Public Works of £1000

No further amendments were proposed and the Estimates were left in Committee.

The Council resumed its sitting.

The Honourable the Colonial Secretary moved the introduction and First reading of a Bill entitled "An Ordinance to make provision for the Service of the Colony of the Falkland Islands for the year 1893."

The Honourable the Colonial Surgeon seconded and the Bill was read by title.

The Honourable the Colonial Secretary gave notice that at the next Meeting of the Council he would move a resolution "that, subject to the approval of the Secretary of State, a sum of £500 be set apart from the special vote for "sea walls and jetties" for making and repairing of roads in Stanley."

The Council adjourned until Monday the 3rd of October.

VOL. 2.

OCTOBER 27 1892.

No. 43.

GOVERNMENT NOTICES.

THE ROYAL IMPERIAL INSTITUTE.

At a Meeting held at the Court House, Stanley, Falkland Islands, on Wednesday, the 26th day of October, 1892, called at the request of His Excellency the Governor.

Present.

The Honourables R. M. Routledge, C. A. Fraser, J. J. Felton, A. E. Baillon. The Very Reverend Dean Brandon, Messrs. G. A. Cobb, Vere Packe, R. Nichol, C. Williams, W. Coulson & G. Hurst. Mr. Routledge explained the objects and constitution of the Imperial Institute as set forth in the pamphlets which had been received in the Colony.

Mr. Routledge referred to the contribution already given by the Colony, which thus afforded the conclusive evidence of its earnest desire to be thoroughly represented in the Mother Country, and to be associated in the work initiated by the Institute.

In accordance with the provisions embodied in the Constitution, Field Marshal Sir Lintorn Simmons had been appointed by the Colonial Authorities as representative of these Islands to serve upon the Governing Body. A letter by Sir Lintorn Simmons addressed to His Excellency stating that a room had been set apart

for exhibits from the Falkland Islands, and adding, that it would give him great pleasure to bring forward the name of any gentlemen in the Falklands whom the Governor might recommend for admission to the honour of Membership was read.

His Excellency's reply of the 17th September stating that steps had already been taken for fitting up the room appropriately was also read.

Mr. Routledge then dwelt on the mode of procedure to be carried out with a view to meeting the object the Institute had in view, and suggested that a general Committee should be formed, consisting of the heads of all Stations, owners if possible, but in their absence the Managers, to whom, owing to their local knowledge, should be added Drs. Dale and Going.

A local Committee resident in Stanley should be also appointed to receive articles, &c., sent in, and select and forward to the Institute, such as may be conducive to the benefit of the Colony, and the development and completion of the undertaking. Mr. J. J. Felton seconded the proposal which was carried unanimously.

Mr. Routledge proposed that the local Committee should consist of nine Members, and it was eventually decided that the Honourables R. M. Routledge, S. Hamilton, and J. J. Felton, the Colonial Chaplain. Messrs Packe, Watson, Lewis & Rowell, should be asked to serve on the Committee. Mr. Baillon was unanimously elected Chairman of the Committee, and taking the chair read His Excellency's letter, reminding the Meeting that as the Colony had already recognised the advantage of such an Institute, it should not stop there, but should "endeavour to fill, and "worthily fill, the space allotted to it."

Mr. Hill accepted the post of Honorary Secretary.

Several of those present subscribed their names as desirous of being elected Fellows.

It was proposed that a Circular letter be addressed to the Heads of Stations, asking assistance in supplying articles for exhibition.

The proceedings concluded with a vote of thanks to the Honourable R. M. Routledge and to the Chairman.

C. W. HILL,  
Honorary Secretary.

*Letter from His Excellency the Governor to the Chairman of Committee in connection with Imperial Institute, Stanley.*

Sir,

Though I have conferred with you personally on this matter and the objects of the Institute are before you in the letter addressed to myself by Field Marshal Sir Lintorn Simmons, G. C. B., and in the printed accounts which accompanied his letter, still I am desirous of reminding you that as the Colony has recognized the advantage of such an Institute by a handsome contribution towards the building fund, that it should not stop there, but endeavour by its samples of wool skins, specimens of natural history, and such like, to fill the place apportioned to it.

Feeling that the Falkland Islands Company have the greatest stake in the Colony, I have already asked their representative here (Mr. Baillon) to take such steps as he might deem necessary through his Head Office, in London, to see that the Colony of the Falkland Islands is not behind other Colonies as regards the fittings of the space allotted to it, at the same time asking their co-operation.

In a work of this nature, however much differences of opinion may arise in respect to questions connected with the past, present, or the future, I sincerely trust that all may be sunk, and that one and all will co-operate with the Government in doing that which will, I feel assured, show that the Falkland Islands, though not so well known as other Colonies, have residents who are neither wanting in the "grit" which pertains to those claiming to be of the mother country, or in the powers of developing, comparatively speaking, new countries, for which the mother country has gained a reputation throughout the world.

One word in conclusion—numerically small though we are—yet let us show how in purpose we are strong and working to one end for the good of the Colony.

I am  
Sir,  
Your obedient Servant,

ROGER TUCKFIELD GOLDSWORTHY

WHEREAS it is expedient for the better protection of the public interest, as also in the interests of the owners of private property within the town of Stanley, that that part of the land known as the Commonage should be fenced in, and that from and after the completion of the same the owners of horses, mules, cattle, &c., should be compelled to restrain the trespassing of such animals within the said town,

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows :—

1.—After the coming into operation of this Ordinance the owner of every animal mentioned in the Schedule hereto annexed shall, on payment of the sum to be charged as per said Schedule for such animal, be entitled to obtain a license to maintain such animal within the fenced-in land known as the Commonage lying to the south of the town of Stanley ; and the owner of any animal taking advantage of the said fenced-in land without having paid for such license shall render himself liable to a penalty not exceeding £ for each offence.

2.—All animals included in the Schedule hereto found wandering or grazing within the town of Stanley after the coming into operation of this Ordinance, shall be liable to be seized and to be detained in the enclosure hereinafter called the Government Pound, and notice of such impounding with a description of the animal so impounded shall be placed upon the Notice Board within twenty-four hours.

3.—The owner of every animal so seized and detained shall before its release from the Pound pay to the Pound-keeper the sum of £ by way of penalty, together with the further sum of per diem for the cost of maintaining the animal whilst detained in the Pound, and every person, whether the owner of said animal or not, who shall in any way attempt to rescue any animal impounded or about to be impounded shall render himself liable to a fine not exceeding the sum of £

(5).

4.—If no owner shall claim any animal seized as above-mentioned within            days after such animal shall have been impounded, the Pound-keeper shall, by public notice placed on the Gazette Board advertise such animal for sale, and the money to be derived from such sale, after payment of all expenses, shall be deposited in the Colonial Treasury, and unless claimed within three months by the owner or his representatives shall be appropriated for the purposes of local revenue.

6.—It shall be lawful for the Governor in Council from time to time to make such rules and regulations for the management of the Pound as may seem necessary, and to appoint a Keeper of the Pound who shall for any breach of the duties allotted to him under this Ordinance or under such Rules and Regulations be liable to a fine not exceeding the sum of £            for each offence.

7.—All fines or penalties imposed by virtue of this Ordinance shall be sued for and recovered in the same way as penalties are sued for and recovered under the Summary Jurisdiction Ordinance No. 11 of 1853.
