Memorandum.

At a meeting of nearly all the Freeholders & Inhabitants of Stanley (called by His Excellency the Governor) held at the Town House on Thursday the 19th October 1857 - His Excellency addressed the Chairman & Board of Commissioners as follows in substance:

His Excellency stated he had two serious complaints to make of the conduct of some of the settlers. The first had reference to the Cattle on the Peninsula. Soon after his arrival the Colony was in a state bordering on famine from want of fresh meat and he had sent down Provisions & Stores while at the same time he proposed measures which he hoped would have prevented the recurrence of such a state of things. The Commissioners were aware that the Peninsula had been fenced off, 40 cattle placed there, and a notice issued requesting all persons to abstain from trespassing thereon. This request had been disregarded by some of the settlers who had gone in & killed for dogs and for work. The consequence was that the cattle were frightened and had decreased; and the disturbance caused by these persons had reduced the Colony to the state it was in 3 months ago. He hoped it had not been done designedly but inconsiderately. He did not trust himself and he requested the settlers to follow his example, as, if the settlement were not placed out of reach of famine & supplies & shipping arrived, none would call and the Colony would be deserted. He was anxious not to adopt severe measures but he was also determined to cause the Town Regulations to be respected and Ships in future to be speedily furnished. He wished none of the settlers themselves than to compel him to do evil.

The second complaint was that persons have been residing beyond certain runs, - such persons might not be aware that they thereby placed themselves in a position to be accused of

horse-stealing and brought up on a charge of felony- He had no doubt this practice also had originated inconsiderately, but they must understand that a strict watch would be kept in future, & persons riding horses without their own consent permission would after this caution be severely punished— In conclusion he begged the Elders to give up these practices and to assist him in keeping them down—

Minutes of Interview between His Excellency and his Officers and Captain Sullivan and his Party relative to the Burial land they wish to occupy—

(Copy)

Memorandum

At a conference held at Government House on the 21st April 1849, in consequence of Captain Sullivan having intimated that he would be very happy to see His Excellency the Governor and Captain Sullivan and also the Surveyor General and Captain Reynolds, Captain Sullivan made the following proposals on behalf of himself and Partners—

1. To enter upon the immediate occupation of the whole on the south shores of Port Harriet under the provisions of a Proclamation dated 3rd July 1847, that as soon as a portion shall be surveyed by some skilful person acquainted with the Royal instructions, and should the Government be willing to grant a lease for twenty years on payment of Ten Pounds per annum for 10,000 acres comprising the peninsula on the south side of Port Harriet and the land lying westward of a line drawn due south from the end of Port Harriet to the chain of hills bounded on the north by the chain of hills on the south of Port Egmont and York Burn and on the West by the stream of water running into the West end of North Burn,

shown as more particularly shewn in the Map of the Islands in the Surveyor General's Office.

The Governor agrees to this and states that the Roads shall be surveyed as early as practicable.

Captain Sullivan pays one pound and is put in possession, under the provisions of the said Proclamation, of the land above bounded.

The Governor at the same time makes a distinct declaration that Captain Sullivan shall in no way interfere with the contract of Messrs Hayes with Mr Jones and that in the event of any collision occurring between them Mr Jones's remedy shall be against Captain Sullivan and not against the Crown.

Captain Sullivan undertakes to do these things and in the full and legal sense all the rights and privileges granted to Mr Jones in the Deed of 10th March 1865 and should any dispute as above named arise Captain Sullivan shall submit it.

Captain Sullivan then proposes

to

to grant under the terms of said Proclamation and subject to the same conditions a station at Port Pleasant — in proposing this he agreed to add that the duties be undertaken by Messrs Harmon, Hamond and Sullivan

2. All the land bounded as follows on the north by Port Fitzroy and the Fitzroy River, on the east and south by Port Pleasant and Island Harbour, and the north shore of Great Pond and Boundary Pond, and on the west by a line drawn due south from Boundary Pond over the survey station on Mount Pleasant to the Fitzroy River, including Pleasant Island and the Islets in Port Pleasant but excluding Goat Island and the Islands in Port Fitzroy.—

Captain Phillip Hamond then proposed to grant the undermentioned station on the same term and condition.—

3. All the land bounded as follows: on the east side by a line from the Peckham Heights to the south over the survey station on Mount Pleasant to Boundary Pond, thence in a south easterly direction to the east

side

side of the Isthmus of Fort Cove, Mare Harbour, on the South by Channel thereof and Mare Harbour, on the West by Swan Inlet and Bays at the Head thereof, thence due North by a Line drawn to the Northam Heights, and bounded on the North by those heights.

And Colin Mitchell proposed to rent the following Station on the same terms and conditions.—

4. All that Land, bounded as follows on the North by a Line from Boundary Point along the Shore of Great Pond to Island Harbour and Fort Pleasant, on the East and South by the Sea, and on the West by a Line from the East side of the Isthmus at Fort Cove, Mare Harbour, to Boundary Point, including the Islands adjacent to the same North of those described but not those in Fort Pleasant.—

The Governor stated with reference to these propositions he required some time to consider, and as Captain Tulloch and his Partners could not enter on immediate occupation nor could the Surveyor General afford season undertake to Survey them

by

by reason of their remoteness from the Settlement to thought best at present to defer the further discussion relative to them for the present which was assented to by Captain Stirling on behalf of Thindale and Isley.

In the meantime previous to the question of purchase and Lieut Sullivan requested to have a yearly grazing license and the Lt Governor stated he at present saw no objection to, but would rather before finally concluding take a few days to consider and.-
