Subsequent Paper.

Hon. Colonial Secretary

In view of Dr Baker's & the Imperial Institute reports I do not think that the working of the guano deposits on Kiritimu Island is a commercial proposition.

YOUR REF

JW/RC.5.

The Colonial Secretary,
FALKLAND ISLANDS.

Dear Sir,

BIRD GUANO

I understand that considerable deposits of Bird Guano are found in the Falkland Islands, and I should like to have full particulars about this, particularly with regard to the Fertiliser contents, and, if possible, full analysis.

I should be indebted to you if you would refer me to some suitable exporters, who would be able to offer me this Bird Guano in regular quantities, 2/500 or 1000 ton lots, cif London and Liverpool.

Thanking you in anticipation,

Yours faithfully,

A handwritten signature in dark ink, appearing to read "Jos. Weil". The signature is written in a cursive style with a large, sweeping flourish at the end.

JW

171/32.

11th June,

32.

Sir,

In reply to your letter No. JW/RC5 of the 29th of April, 1932, I am directed to inform you that deposits of bird guano do occur in the Falkland Islands, and notably at Kidney Island near Stanley.

2. I am to enclose in accordance with your request a copy of a report made on certain samples of this guano which were sent to the United Kingdom for analysis in the year 1921.

3. I am to add that at present I am unaware of any exporter who would be prepared to undertake this business but that on receipt of a further intimation from you of your desire to proceed with it I shall be happy to do anything in my power to put you in touch with a suitable firm or party.

I am,

Sir,

Your obedient servant,

Colonial Secretary.

Jos. Weil Esq.,
39/40 Mitre Street,
London E.C.3.
