Att. Governor

Dear Sir:

We sent a direct cable to your office hoping that it might speed up the procedure of getting the necessary information to file for Oil and Gas exploration permits in the Falkland Islands.

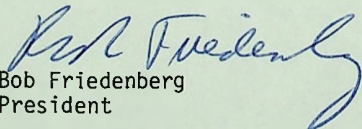

We would like to carry out seismic exploration surveys in your Islands sometime in 1970 if we can arrange for the proper permits from your government.

Would you be kind enough to direct us to the proper departments in order that we might get the ball rolling.

We are currently carrying out work in Cyprus and Turkey. We also hope to have programs started in Panama, Dominica, New Zealand, and Malta this year.

We hope to receive a favorable reply very soon.

Cordially yours,

Bob Friedenber
President

C.S. This letter was among those received by inward mail on 27th January but was only opened this weekend - OXOCO looks like a beverage in its circular-type envelope. Urgent action please.

Attention: Governor

Dear Sir:

In December of last year we cabled and wrote a letter to your office for the express purpose of getting information as to how we might go about filing for exploration gas and oil permits in the Falkland Islands, particularly offshore.

To date, we have not had an answer. However, we did see an article in The Oil and Gas Journal mentioning that there have been some interest shown in your country.

I would imagine that you were referring to us along with some others.

We are very interested in putting together an exploration program in your area and would appreciate it very much if we could hear from you with instructions as to how we can go about this.

We appreciate your efforts.

Cordially yours,

Bob Friedenberg
