# SOREX NEWS

published by the world sales office of  
Sorex (London) Limited  
159, Victoria Street, London, S.W.1. England.

Dear Sir,

How do you pick your pesticide?

Why not avoid costly damage to stock or reputation by using SOREXA guaranteed products. With these you can more surely and more quickly exterminate rats, mice and insect pests.

Freedom from insects in your home or club will greatly increase your personal comfort; ruthless extermination of pests in ship, factory, hotel or farm will contribute towards better health and, incidentally, increase your personal prestige or profit. Scientifically and decisively our products and our advice will help to clear and protect the property under your care. Rats, mice, or crawling insects that damage both material and prestige need not now be tolerated. Wipe them out ... for good.

At our finger tips we have the answers ... at our factory we have the products. Ask for advice or order now ... we can help.

Yours faithfully,  
SOREX (LONDON) LIMITED.

Harley Watkins.

**Those  
who know...  
insist on SOREXA**

## REPORTS

11. RATS; Another island goes all out to exterminate rats and mice and, of course, SOREXA is used. A letter from the Clerk of the Works, Ascension Island, reports "... technique entirely new to me (SOREXA). We made 50 wooden bait boxes 12"x 9"x 5" with 2" square entry spaces at each end ... sliding lid ... numbered for record purposes. We mixed in clean dust-bin 4 parts of sugar, 1 part oil, 14 parts maize meal, 1 part SOREXA. We baited on the following principle: 20 boxes were placed in strategic positions where we knew that rats and mice abounded; these we placed as permanent boxes. With the remainder we completely encircled Georgetown.

In each box we placed two tins, one to contain bait, the other water; these we filled to a set level to note the take. We began to pick up rats and mice on seventh day ... majority Rattus rattus ... to keep account of rats and mice picked up became impossible. The result had to be seen to be believed. It has now become difficult to see a rat or mouse in or around Georgetown".

In 30 days SOREXA had wiped out thousands of rodents and now they are rarely seen.

## 12. INSECTS:

# Stop-Stik

From Switzerland comes the report - "After having received the samples of STOP-STIK we have been able to make some trials, which show the wonderful effect of this new form of insecticide".

The secret of STOP-STIK lies in the peculiar crystal "bloom" which appears on the surface of the drawn line. Only STOP-STIK has this unique killing feature.

*The unique crystal "bloom" on a STOP-STIK line . . . greatly magnified.*

13. SALES: Some exceedingly good work by the Oslo Helserad (Health Authority) is shown by four orders this year for insecticidal lacquer.

Mexico have re-ordered SOREXA 10% for, in spite of the proximity of U.S.A. supplies, they find they can still "Buy Better in Britain". Another 1,000,000 rats will be exterminated if the new supplies are all used correctly.

Since publication of SOREX NEWS 1 we have supplied over thirty countries from Australia to Zanzibar. SOREXA guaranteed products are available in most parts of the world.

## OUR SERVICE

It is our desire to help all those concerned with health, hygiene, and the extermination of rodent and insect pests. In our chemical control laboratories products and processes are carefully examined and precise standards are established. Our biological laboratories investigate materials and ideas and our field workers thoroughly test all SOREXA products in a practical manner.

Our field experiments and close liaison with pest control companies throughout the world ensure that all SOREXA products are fully tested, always efficient, and above all practical. Our aim is complete extermination of the pests that spread

disease and damage and by offering guaranteed products together with technical advice on all pest control problems we believe we can help you towards this aim.

# Can we help you?

For supplies, literature, or technical assistance write to your local agents or direct to our world sales office:-
