Subsequent Paper.

Copy of minute from His Excellency dated the 29th October, 1923

Will you please ask the Ag. Ch. Inspector of Stock to visit the plantation and make a report on it.

2. The two matters to which his attention is specially directed apart from the general report are:

(1) What amount of further lifting and planting should be done this year.

(2) A fly(? green fly) is reported by the Chief Constable to be doing a lot of damage.

(intd) H.H.H.

29th October, 1923.

ON HIS MAJESTY'S SERVICE.

Sample of Lussac Seed.

Nov. 16<sup>th</sup> 1923.

(2)

Stanley  
Nov 16<sup>th</sup> 1923.

The Honorable  
The Colonial Secretary.

Sir

I have the honor to inform you that according to instructions I have to-day inspected the tussock plantation.

I do not advise any lifting and planting this season.

On the whole it looks very well, especially the south side. The few plants on the north side do not seem to be so well established, there appears to be a lack of growth there.

I may add that I have not seen any greenfly as reported.

I enclose in separate envelope, sample of tussock seed.

I have the honor  
to be, Sir

Your obedient Servant

*W. C. Thomas*

Ag. Chief Inspector of Stock.
