SUBJECT.

192 2

Report on the Fur Seal of the Falkland Islands

17th July

Previous Paper.

19/20

MINUTES.

Minute from Govt Naturalist of 17th July 1922 — Encl (1)

Yr. Submitted

19/7/22

H.C.S.

Para 10 of (14) in 363/21 — the annual report is to deal fully with the science as well as the economic aspects of the question & in para 6 of (18) in same paper I asked to be allowed to defer putting forward proposals for meeting cost of maintenance of system of protection until I had received a report from Mr. Hamilton on the results of his investigations.

Subsequent Paper.

319/23.

2. Mr. Hamilton has given careful consideration to the economic aspect (para 22 of report) & I should be glad if he could add to the report any observations.

which might be of use: it is not necessary that
Experiments made should be conclusive: if he is unable
to add anything with regard to Economic aspect he might
explain ^{more fully} the reason why than experimental work of
farming.

p.p. for further report

ttttt

Hon. Col. Sec.

I have amended the report with
reference to the economic aspect of the scheme,
paragraphs 26 to 33 inclusive having been
interpolated.

J.H. Hamilton.

for C.S. 12. 9. 22.

H.C.S.

I have compared the report with Mr Hamilton's
 then are on a two typographical errors in
 the copies of the report which he will correct.

2. Draft despatch to S.G.S. is attached.
