30. May 1930

Dear Mr Ellis

After a perfect trip of 26 days
we reached Liverpool one day ahead of
time

Stanley (See Elephant), who incidentally
answers to his name, arrived in excellent
condition having doubled his bulk in
five weeks. He gave no trouble, just
constant attention brought him home.
coupled with water. The Zoo people are
very pleased, but to my astonishment I find
they purchased two in 1913, Shortness of fish
in the war ended their lives; I suspect
with the help of a bullet.

I called on Mr Freestone at the
b/o. yesterday & regret to find him no
longer connected with the F.I. I understand

that he is now Secretary to the
Colonial Development Scheme.

By the way, I used, or wasted for good
reasons, just half a ton of fish in five
weeks on Stanley.

Believe me

Yours respectfully

A J Bennett

PS.

I have not, so far, seen any press articles,
or pictures of Stanley worth a moment's time.
