Dear National,

The Jane Cameron National Archives are pleased to share our latest update. Since December we have continued with our outreach and engagement activities, following on from Explore Your Archive Week in November 2025, and have welcomed 84 people into the Archives as part of planned tours and events.

Next week we will be publishing our next newsletter. This will provide further information about the visits we have had in addition to the 'Falklands On Record' section which has articles and snippets of information sourced from our collections. If you would like to receive a hard copy of the newsletter, please let us know.

In the last month, we have also received a series of new accessions including photographs of the Girl Guides troupe from the 1930s, Eddie Andersen's personal flying logbooks (1978-2017 inclusive), and a copy of Robert Philpott's latest book on the archaeology of Port Louis.

In addition to this, the service has digitised and made available the following new files on our website, as of the end of January 2026.

All records can be accessed at: <https://nationalarchives.gov.fk/>

Please let us know if you have any issues accessing content or would like to provide feedback.
