The individuals enumerated in the margin are desirous of returning to Monte Video and state that they are willing to deliver you a bill for the orders they have received from Mr Lapone for wages due by him to them in order that you may deduct therefrom the amount of their passage-money and other expenses, returning the balance to them -

A compliance with their request would confer a benefit on the Colony and be a great act of kindness to them and I am therefore induced to request you will if possible accede to their wishes as well as to those of any other ~~the~~ foreigners in similar circumstances -

I am &c
