Re New Motor Launch.

Harbour-Master to see.

Colonial P. M. and Superintendent of Telegraphs to see.

1. The new motor launch will be under the charge of the Harbour-Master.
2. It is hoped for the sake of economy it will be able to replace the "Penguin" as much as possible.
3. The Colonial P. M.'s department is requested to assist the H.M. in the running of the launch ~~as far as they can conveniently do so,~~ as they have the necessary technical qualifications. The H.M. will let this Department have the use of the launch where it is required by them unless there is a good reason to the contrary.
4. A careful record must be kept of the cost of running the launch & submitted to you at intervals.
5. The launch must not be used for private purposes without your permission. If permission is given the running costs must be paid.

A.H.

26/27.

Has it a name? Should it have one?

If so let it be called the Molly-mawk.

A.H.

When I mention the Colonial Post-Master's Dept I mean it to include "Telegraphs" as well.

From His Excellency the Governor

to the Honourable the Colonial Secretary.

I should like the motor Launch, weather permitting, 4 P.M.,
Governors' jetty, Friday, to visit whaling Factory. Please inform
Harbour-Master.

IF she has not a like-body please ask the H.M. to arrange it
for one to be issued to her as one never knows when it
may be wanted.

Ask his advice as to whether smoking should be pro-
hibited or not on that kind of craft.
