## MARRIAGES, BIRTHS, AND DEATHS

Of Members of the Crew, and other persons on board, which have occurred during the voyage.

**MARRIAGES.**—Section 240 (6) of the Merchant Shipping Act, 1894, requires the Master of the Ship to enter in his Official Log the particulars of every Marriage that has taken place on board. Masters are reminded that they have no power to perform the marriage ceremony on board their ships, and that if such ceremony is performed by them the marriage will not be a legal one.

**BIRTHS AND DEATHS.**—The duties of the Master with regard to the registry of births and deaths on board ship are defined in the following extracts from Section 254 of the Merchant Shipping Act, 1894:—

254.—(1.) The Master of every British ship, whether registered or not in the United Kingdom, shall, as soon as may be after the occurrence of the birth of a child or the death of a person happening on board his ship, record in his log-book or otherwise the fact of the birth or death, and the particulars required by the Eighth Schedule to this Act to be registered concerning the birth or death, or such of them as may be known to him.

(2.) The Master of every British ship, upon its arrival at any port in the United Kingdom, or at such other time and place as the Board of Trade may with respect to any ship or class of ships direct, shall deliver or transmit, in such form as the Board of Trade direct, a return of the facts recorded by him in respect to the birth of a child or the death of a person on board such ship to the Registrar-General of Shipping and Seamen.

(5.) If the Master of any ship fails to comply with any requirement of this section, he shall be liable for each offence to a fine not exceeding five pounds.

Spaces are provided on the following pages of this book for the entry of all particulars required by the Eighth Schedule mentioned above. The facts should be carefully entered under the appropriate headings; and upon the next arrival of the ship in port (except when the log-book itself is surrendered at the end of the voyage or termination of the Agreement), a true copy of the entries must be delivered on a Form B. & D.1 to a Superintendent or Consular Officer for transmission to the Registrar-General of Shipping and Seamen.

In addition to the brief statement of the "Cause of Death" on the following page, the Master should be careful to add in the body of the official log-book, *full particulars of all the circumstances attending the death*, more particularly in the case of murder, disappearance or suicide.

If a death occurs in a port the name of the port should be given, and it should be stated whether the death occurred on board or in hospital.

If a seaman dies on shore from an accident which happened, or from a disease which developed, while he was a member of the crew, it is desirable that an entry of the death should be made.

When reporting the required particulars upon a Form B. & D.1, the Master is also, if so required, to give an account of any moneys due to a deceased seaman or apprentice, of any deductions from his wages, and of his clothes and effects, on the relevant Form W. & E.1., C.15, or C.C.15. The Forms required will be furnished by the Superintendent or Consular Officer, upon application.

## LOAD LINE, DEPTH OF LOADING, Etc.

### POSITIONS OF THE DECK LINE AND LOAD LINES.

Freeboard from deck line.			Load Line.		
Tropical	—	feet	2	inches.	(T) $\frac{3}{4}$ inches above S.
Summer	—	feet	2 $\frac{3}{4}$	inches.	(S) Upper edge of line through centre of disc.
Winter	—	feet	6	inches.	(W) $3 \frac{1}{4}$ inches below S.
Winter North Atlantic (if assigned)	}	feet	8	inches.	(WNA) $5 \frac{1}{4}$ inches below S.
Allowance for fresh water for all freeboards:—			3 $\frac{1}{2}$ "	inches.	

The upper edge of the deck line from which these freeboards are measured is 0 inches above the top of the skull deck at side.

Maximum draught of water in summer 13 feet 32 inches.

(The maximum draught of water in summer is the draught of water which would be shown on the scale of feet on the stem and stern post of the ship if she were so loaded that the upper edge of the summer load line were on the surface of the water and the ship were upright on an even keel.)

## NOTES.

1.—The above particulars, and particulars of depth of loading as detailed on the following pages, are to be recorded before the ship leaves any dock, wharf, harbour, or other place, for the purpose of proceeding to sea.

2.—The actual freeboard amidships on each side of the ship is to be measured from the upper edge of the deck line to the surface of the water, when the ship is loaded and ready to leave. The actual "mean" freeboard is the mean of the actual freeboards, port and starboard, measured as indicated above.

3.—Unless the ship is a home trade ship, a Notice, Form L.L.14A, is to be posted up in some conspicuous place on board the ship before she leaves any dock, wharf, harbour, or other place, for the purpose of proceeding to sea, and the Notice is to be kept so posted up and legible until the ship arrives at some other dock, wharf, harbour or place. The date and time of posting the Notice is to be entered in column 15.

4—In the case of a home trade ship, columns 9-15 need not be filled in.

5.—No entries are required in columns 8-14 when the actual mean freeboard (column 7) is not less than the appropriate salt water freeboard.

0.—If, in determining density of water, use is made of a hydrometer on which the reading at the top of the scale is 1000 or 00, meaning "full fresh water," the hydrometer reading gives the density to be entered, e.g., a reading of 15 on such hydrometers means a density of 1015. If the hydrometer used has the scale reversed, i.e., if the reading 00 is at the bottom of the scale and means "full salt water," the density must be obtained by subtracting the hydrometer reading from 1025, e.g., if the reading is 15, the density to be entered will be 1010.

7.—The Winter North Atlantic load line, if assigned, applies for voyages across the North Atlantic, North of latitude 36° N. during the winter months as defined in the Load Line Rules, 1932, and shown on the chart which forms part of those Rules.

The periods during which the other seasonal load lines apply in different parts of the world are as indicated in the said Rules and chart.

8.—*Penalty*.—Failure to enter the required particulars of load line, depth of loading, etc., in the Official Log Book at the proper time renders the Master or Owner liable to a fine not exceeding £20 for each offence.

# LOAD-LINE, DEPTH OF LOADING AND FREEBOARD.

The Merchant Shipping (Safety and Load Line Conventions) Act, 1932, provides among other things, as follows :—

## Load Line Ships.

Every ship registered in the United Kingdom proceeding to sea (except sailing ships under eighty tons register engaged solely in the coasting trade, ships solely engaged in fishing, pleasure yachts and ships to which special exemption has been granted) is a load line ship.

## Marking of Deck-Line and Load Lines.

No load line ship registered in the United Kingdom shall proceed to sea unless she has been surveyed and marked on each side with a deck-line and with load lines indicating the several maximum depths to which the ship can be safely loaded in various circumstances prescribed by the Load Line Rules and complies with the conditions of assignment to the extent required by the Act.

On receipt of the load line certificate the owner shall forthwith cause it to be framed and posted up in some conspicuous place on board the ship, and to be kept so framed and posted up so long as it remains in force.

Any load line ship registered in the United Kingdom attempting to proceed to sea without being surveyed and marked as required may be detained until she has been so surveyed and marked and any ship which does not comply with the conditions of assignment to the extent required by the Act in her case may be detained as an unsafe ship.

## Submersion of Load Line.

A load line ship registered in the United Kingdom shall not be so loaded as to submerge in salt water, when the ship has no list, the appropriate load line on each side of the ship, that is to say, the load line indicating the maximum depth to which the ship is for the time being entitled under the Load Line Rules to be loaded; and if she is so loaded she may without prejudice to any proceedings that may be taken, be detained until she ceases to be so loaded.

## Penalties.

If—

- (a) any load line ship registered in the United Kingdom proceeds or attempts to proceed to sea without having been surveyed and marked as required by the Load Line Rules, or without complying with the conditions of assignment to the extent required by the Act; or
- (b) the owner or master fails without reasonable cause to keep the ship properly marked or any person conceals, removes, alters, defaces or obliterates or suffers any person under his control to conceal, remove, alter, deface or obliterate the deck line or load lines, except with the authority of a person entitled under the Load Line Rules to authorise the alteration of the marks or except for the purpose of escaping capture by an enemy.

the master or owner shall for each offence be liable to a fine not exceeding one hundred pounds.

If any owner or master allows the ship to be so loaded as to submerge in salt water the appropriate load line he shall for each offence be liable to a fine not exceeding one hundred pounds and to an additional fine, not exceeding one hundred pounds for every inch or fraction of an inch by which the appropriate load line is submerged or would have been submerged if the ship had been in salt water and had had no list.

If any master

- (1) fails to comply with the Regulations made under Section 50 of the Act (see below); or

- (2) fails to enter in the official log-book the particulars as to the position of the deck-line and load lines specified in the certificate; or
- (3) fails to insert in the agreement with the crew the particulars as to the position of the deck-line and load lines specified in the certificate; or
- (4) being the master of a foreign-going ship, fails to post up, before the ship leaves any dock, wharf, harbour or other place for the purpose of proceeding to sea, the Notice relating to the depth to which the ship is loaded, and to keep the Notice posted up and legible until arrival at some other dock, wharf, &c.

he shall for each offence be liable to a fine not exceeding twenty pounds.

If any owner fails to cause the load line certificate to be posted up in his ship, and to be kept so posted up, he shall for each offence be liable to a fine not exceeding twenty pounds.

## Regulations.

In the Regulations made by the Board of Trade under Section 50 of the Merchant Shipping (Safety and Load Line Conventions) Act, 1932, it is provided that the master of every load line ship registered in the United Kingdom shall before she leaves any dock, wharf, harbour, or other place, for the purpose of proceeding to sea, enter in the official log book :—

- (1) If not previously entered, all the particulars stated in the load line certificate of the positions of the deck line and load lines and the maximum draught of water in summer.
- (2) The actual draught of water of the ship as shown on the scale of feet on her stem and stern post when the ship is loaded and ready to leave any dock, wharf, harbour or other place together with the actual freeboard amidships on each side of the ship and the mean freeboard.
- (3) The density of the water in which the ship is lying at the time when the particulars required in paragraph (2) are ascertained.

## FOREIGN-GOING SHIPS.

Masters of foreign-going ships are also required to record in the official log book before leaving any dock, wharf, harbour or other place for the purpose of proceeding to sea the following additional particulars :—

- (4) the allowances, if any, to be made in order to arrive at the mean freeboard which the ship will have when she first reaches salt water, in respect of :—
  - (a) the weight of any ashes and rubbish which it is intended to throw overboard.
  - (b) the weight of fuel, water and stores required for consumption before the ship reaches salt water.
- (5) the mean draught of water and the mean freeboard which the ship will have in salt water as calculated after making the aforesaid allowances.
- (6) the date and time of posting up the Notice relating to the depth to which the ship is loaded.

The entries mentioned in (3), (4) and (5) above need not be made if at the time at which the particulars mentioned at (2) above are ascertained the load line indicating the maximum depth to which the ship is for the time being entitled to be loaded in salt water is not submerged.

## CONDITIONS AND EXCEPTIONS IN APPLYING SCALE.

EGGS.—Not less than four eggs, fresh or preserved in shell, shall be issued during the first fortnight of any voyage starting from a port within home trade limits, and two eggs for each week thereafter should be issued, if obtainable at a reasonable price, and if there are facilities for keeping them. Each egg so issued shall be regarded as the equivalent of 1 1/2 ozs. of fresh meat under the scale. Eggs in excess of these may be issued, but shall not count against the scale.

6. POTATOES.—Fresh potatoes (when procurable in a sound condition) must be issued for at least the first eight weeks of the voyage in the case of every ship leaving a port within the home trade limits, at any time between the last day of September and the first day of May, and at any other time when they can be procured at a reasonable cost.

When fresh potatoes are not so issued, an equal amount of rice, yams, sweet potatoes, or vegetables preserved in tins, or an equivalent amount of dried or compressed potatoes or dried or compressed vegetables in the proportion of 1 lb. to 6 lbs. of fresh potatoes, or fresh bread in the proportion of 1 lb. of bread to 1 lb. of fresh potatoes, must be issued in their place.

8. VEGETABLES.—Fresh vegetables should be supplied as often as possible when they can be procured at a reasonable cost and are not likely to be injurious to health.

On each day when 1/2 lb. of fresh vegetables (or vegetables preserved in tins) is supplied, these are to be regarded for purposes of the scale as equivalent to one day's supply of dried or compressed vegetables and of green peas, haricot or butter beans.

# INSTRUCTIONS TO MASTERS.

## Agreements.

1. The Merchant Shipping Acts require the Master of every Ship, *except Ships of less than eighty tons registered tonnage exclusively employed in the coasting trade of the United Kingdom*, to enter into an Agreement with every Seaman whom he carries to sea as one of his Crew. The term "Seaman" includes every person, except Masters, Pilots and Apprentices (duly indentured and registered), employed or engaged in any capacity on board any ship.

2. In order to enable the Crew to know the contents of the Agreement, the Master, at the commencement of the voyage, is bound, under a penalty of 5*l.*, to have a legible copy (omitting the signatures) posted up in some part of the ship which is accessible to the Crew.

3. Every erasure, interlineation or alteration in the Agreement (except additions in shipping substitutes or persons engaged after the first departure of the ship) is inoperative unless proved to have been made with the consent of all the persons interested, by the written attestation (if in His Majesty's dominions) of a Superintendent, Justice, Officer of Customs, or other public functionary, or elsewhere, of a Consular Officer, or where there is no such Officer, of two respectable British Merchants.

4. Fraudulently altering, or making any false entry in, or delivering a false copy of any Agreement, or being a party to such an act, may be punished by the infliction of a Penalty not exceeding 100*l.*, or by imprisonment with or without hard labour for a period not exceeding six months.

## Young Persons and Children.

5. The Agreement with the Crew must include a list of all young persons under the age of 18 years who are members of the Crew together with particulars of the dates of their birth. (See page 5). The employment of children under the age of 14 years is prohibited.

## Engagement of Crews and Seamen in the United Kingdom.

6. The Crew of a British foreign-going Ship must be engaged (in the United Kingdom) in the presence of a Superintendent of a Mercantile Marine Office.

7. Whenever the Master is desirous of making use of a Mercantile Marine Office for the purpose of selecting his Crew, he must inform the Superintendent so that a notice may be published for the information of those men who are seeking employment.

8. In all cases the Superintendent should have at least six hours' notice of the time at which the Master and Crew are to attend to sign the Agreement. Before the engagement of the Crew is proceeded with, the Master must—

- (a) Produce the Certificates for himself, his Mates, and his Engineers, and
- (b) Produce the Apprentices destined for the voyage, together with their indentures.
- (c) Produce the load line certificate and insert in the Agreement the particulars as to the positions of the deck line and load lines specified on the certificate.

9. Upon the Master complying with the above Regulations, the Superintendent will, when the engagement of the Crew has been completed, give him a Certificate for clearance outwards.

10. The Superintendent will give the like Certificate to a Master who has entered into a Running Agreement with his Crew, upon his complying with sub-Section 115 (7) of the Merchant Shipping Act, 1894, and producing at the Mercantile Marine Office the Certificate of any Mate or Engineer engaged during or subsequent to the last voyage.

11. The engagement of substitutes for Seamen, who have died or left the Ship within twenty-four hours of her putting to sea, is to be made before a Superintendent, if practicable, but if not, the Master as soon as possible is to have the Agreement read over and explained to the substitutes in the presence of a witness, who is to attest their signatures.

12. Carrying any Seaman to sea without entering into an Agreement subjects the Master to a Penalty of 5*l.*

13. The Master of a foreign-going Ship incurs a Penalty of 5*l.* if he does not report to the nearest Mercantile Marine Office any changes in his Crew before he finally leaves the United Kingdom.

## Ports Abroad.

14. Upon the arrival of the Ship at a Port abroad where there is a British Consular Officer, or a Superintendent, the Master is bound under a

Penalty of Twenty Pounds to deliver within forty-eight hours of the Ship's arrival (if the Ship remains forty-eight hours at the Port, and is not a Passenger Ship) to the Consular Officer, or the Superintendent, the Agreement, and all Indentures and Assignments of Apprenticeships. The Officer will keep the documents during the Ship's stay in the Port, and will return them to the Master within a reasonable time before his departure with a Certificate stating when they were delivered and returned.

15. If the Ship remains at any port for a period less than forty-eight hours, and the Consular Officer or the Superintendent is required to issue a certificate for production to the Local Authorities before the Ship's departure from that port, the Ship's Articles should be produced to the Consular Officer or Superintendent for inspection.

16. The engagement or discharge of any Seaman abroad must be made before a British Consular Officer, or before a Superintendent, as the case may be, who will endorse upon the Agreement a Certificate accordingly. If this Certificate be not made the Master of the Ship is liable to a Penalty. (See also paras. 20, 21 and 22 below). The Master must also obtain the sanction of the Consular Officer, or Superintendent, as the case may be, before he leaves a seaman or apprentice behind at a port abroad, whether by reason of desertion or of illness, or through some other cause.

## Return to the United Kingdom.

17. The Crew of every British foreign-going Ship, if discharged in the United Kingdom, must be discharged and receive their wages in the presence of a Superintendent of a Mercantile Marine Office. An infringement of this law renders the Master or Owner liable to a Penalty of 10*l.*

18. In every case in which a Crew is to be discharged at the Mercantile Marine Office, at least twenty-four hours' notice should be given to the Superintendent by the Master or Owner.

In the column for particulars of discharge, the date, etc., of termination of service should be entered and if the wages continue to accrue under the Agreement until some later time, the date when they cease should also be stated. It is not necessary to enter the date, etc., of the payment of wages.

19. Within forty-eight hours after the Ship's arrival at her final port of destination in the United Kingdom, or upon the discharge of the Crew, whichever first happens, the Master is to deliver to the Superintendent of the Mercantile Marine Office the Agreement, and the Official Log-book, and accounts of the wages and effects of any Seaman or Apprentice who has died on board during the voyage, whether he formed part of the Crew or not, any effects remaining unsold, and the balance of wages or other moneys belonging to any such Seaman or Apprentice. When the effects of a deceased Seaman have been sold on board a ship the proceeds of such sale must in every case be handed over to the Superintendent, without deduction, unless such proceeds have already been paid by the Master to a Consular Officer or Superintendent abroad on behalf of the Board of Trade. The Master is also to deliver to the Superintendent the Certificates (Masters', Mates', Engineers', or R.N.R.) of any who have died or deserted during the voyage. The Superintendent will then give a Certificate for the purpose of clearance inwards.

20. The Master is to give to every Seaman (or leave with the Superintendent on his behalf) an account, on a form sanctioned by the Board of Trade, of his wages, and of all deductions to be made therefrom, at least twenty-four hours before the time of payment or discharge, under a penalty of 5*l.* for non-compliance. Deductions for fines, forfeitures, etc., which are sought to be made in this account must be proved by proper entries made in the Official Log-Book.

21. Upon paying off or discharging any Seaman, the Master is bound under a Penalty of 10*l.* to give the Seaman a Certificate of Discharge; and the Master is also bound under a Penalty of 20*l.* to return to any certificated Mate or Engineer upon his discharge his Certificate of Competency or Service.

22. A statement of the conduct, character and qualifications of each Member of the Crew, or a statement that he declines to give an opinion on such particulars, is to be entered, and signed by the Master in the Official Log-Book as required by the Merchant Shipping Acts.

23. Upon payment of wages and settlements of disputes (if any) being effected the Officer before whom the men are discharged will require the Crew to sign in his presence a release from all claims in respect of the voyage just finished, subject to the right of any member of the Crew to except from the release signed by him any specified claim or demand in accordance with the provisions of Section 60 of the Merchant Shipping Act, 1906. (See page 7, cols. 19 and 20.)
