Stanley.

I have the honour to report that the m.v. Port Dunedin No. 148599 of London, put into Stanley on the 13th instant in order to discharge for treatment in hospital one of the crew, namely W. Levins, greaser, suffering from appendicitis.

The Falkland Islands Co. Ltd., on behalf of the owners will be responsible for the Hospital and other expenses incurred in connection with this matter.

It is hoped that in due course Mr. Levins will be sufficiently recovered to be repatriated.
