Harbour Master

SUBJECT.

1921

Reports condition of Watering Jetty

10th February

Previous Paper.

MINUTES.

Minutes from Harbour Master of 10th February 1921. *Encl!*

Harbour Master.

Please ask Col. Engineer what he can do to assist you, & report.

W.D.
15.2.21

Hon. Col. Sec:

The Colonial Engineer states that he has the material to enable watering jetty to be made serviceable, there being no suitable new, old pipes will have to be fitted.

I submit that the valves, pipe work, reservoir and appliances be placed under the P.W. Dept, the Sale of water being under the Port & Marine Dept.

Colin Stockley
Harbour Master.
18/2/21.

W.D. The necessary arrangements should be completed before the arrival of the whaling fleet from S. Shetlands.

May Col. Eng. be instructed to proceed forthwith? Expenses against Head XXIII item, 11.

W.D.
21.2.21

Subsequent Paper.

H.C.S.

Work may be proceeded with & charges as proposed. I understand that what is intended is to lay piping over now to carry out expansion repairs to jilky irons.

HARBOUR MASTERS OFFICE

STANLEY

10th FEBRUARY 1921

The Hon. Col. Secretary,

Sir,

I beg to submit that the pipes from the Fresh Water reservoir to the watering jetty are disconnected at the bankside and the watering jetty in an unfinished state.

I would respectfully point out that should any vessel, calling at this port, require fresh water I have no means of obtaining and of conveying fresh water to her.

Owing to the approach of the return of the whaling fleet, I would respectfully ask your instructions in this matter.

I am, Sir,

Your obedient Servant.

Colin B. Stockley

Harbour Master.
