# BARGAINS FOR EVERY MEMBER OF THE FAMILY

Never before have we been able to offer such remarkable values. Here in the centre of the world's largest industrial area, we get the fullest benefit of the keenest manufacturers' prices. Prices of all goods are at a lower level than they have been for years. Added to that, our orders are of such magnitude that manufacturers compete eagerly for them; and when they are assured of months and months of steady production they are able to keep all costs at astoundingly low levels and so are able to quote us amazing prices. Following our usual practice, we pass on the benefits to our customers. It is a good time to buy for every member of the family.

AMERICAN TELEGRAPH CONTROL.

at the annual meeting of the Constantinople Telegraph Company on Saturday the manager, Mr. F. Douglas Watson, confirmed the statement that a large block of the Company's stock has been sold to the International Telephone and Telegraph Corporation of New York.

The latter concern has, during the past few years, acquired the control of several important British operating companies including the Chile Telephone Company, the Monte Video Telephone Company and the United River Plate Telephone Company.

Sir Alexander Roger who has resigned the presidency of the Constantinople Company says that he did so because he disagreed with the policy adopted by the Board. The presidency is still vacant although Mr. Frank Gill has been elected to succeed Sir Alexander as a director.

"HUSH HUSH" AIR LINERS.

Imperial Airways Fleet.

The "Daily Mail" air correspondent writes that eight luxurious air liners are being constructed at Cricklewood for the "Hush Hush" fleet of Imperial Airways with which the company expect to outdistance all competitors to the Continent this summer.

The planes will be as commodious as pullman cars and should by far, surpass any passenger machine in service. They are to carry forty passengers each and are to be provided with a cocktail bar and smokeroom. They will be ready in about three weeks and in service in three months.

GENERAL ROUTEPOFF.

Little Son's - "Where is Daddy."

A pathetic attempt is being made by Madame Routepoff, the wife of the kidnapped Russian general to assure her little son or five that his father will return although herself, she feels that he is dead.

The story was told the "Daily Mail" by Commander Oliver Locker-Lampson who saw her in Paris. "I found her," he said "stricken indeed and worn to a shadow but she was encouraged by the high spirits of her small son who begged to be told where his daddy was. Madame prayed that her husband had not suffered or been tortured."

CHARLIE CHAPLIN.

Charlie Chaplin will visit England in the near future for he intends to tour Europe as soon as he finishes his film "City Lights". Plans have already been made to entertain him in London. It is now nearly nine years since he visited England when he was lionised all over the country particularly in Lambeth, London where he was born.

NAVAL CONFERENCE.

Delegates inactive.

The British Official Press bulletin reports that except for a conversation between the Prime Minister and Messrs. Stimson and Gibson, of the American Delegation there have been no meetings between the Naval Conference Delegates during the last few days nor have any been arranged before Monday morning next when the Delegation chiefs will again meet.

Contact is likely to be maintained by experts on whom has devolved the task of revising and testing informally all possible means of achieving an agreement with particular reference to the political aspects of the problem.

On Saturday night all the Delegations were the guests at a reception held at the House of Lords after which the Prime Minister left for Chequers where he remained until Sunday night.

GIALDINI'S MONEY.

Police Action.

On Friday, the Italian police at Milan impounded about £10,000 cash deposited in the Italo-American Bank, Rome by Gialdini who is under arrest in conjunction with the Hatry frauds.

Other large sums are said to be deposited in another Italian bank placed there by Gialdini in his wife's name but before seizing this money the police want to make sure that this really belongs to him.

There may be difficulties because the wife who is a Rumanian says she knows nothing of what her husband has done with his money. Her repeated applications to see him have been refused. It is denied that Gialdini has recently been ill with influenza. He seems all right, he eats well, smokes and takes exercise daily.

BRITISH LACEMAKING DIFFICULTIES.

U.S. Raise Import Duty.

A grave blow to British lacemaking industry is threatened by the decision of the United States to raise the import duty from 90 to 150 per cent.

The Nottingham manufacturers have appealed to the Government to resist the proposed increase while at Calais, the centre of the French lace industry, a similar protest is being made to the French authorities.

Britain has been exporting £200,000 worth of nets annually to the United States and it is thought that this trade will be exterminated as soon as the United States can lay down their own plants. The British manufacturers also fear intensified French competition in the Home market owing to the less American trade. On Friday the shops closed for two hours during the afternoon while a procession of 30,000 marched to the Town Hall to protest.

To the Editor of the "Penguin"  
 from our Correspondent in the Dependencies.

Dear Sir,

This is a hurried note to say that the Sports Meeting went off splendidly in spite of the appalling weather conditions on both days. Everyone was disappointed that the Governor was not there and the Managers hope that His Excellency will be able to be present at the next Meeting.

The times et cetera as you will see from the report were wonderfully good considering the conditions. The ground was ankle deep in mud and slush and out up very badly.

The football match was played in a storm of wind and snow, the wind must have been in the neighbourhood of 50 miles an hour. Altogether everything went off well and everyone enjoyed the Meeting. By Jove they are keen on it here now, everyone from the Managers down and there is no likelihood of the Sports falling through.

The weather has been very bad during this month with the result that whaling has been particularly poor. The factories in the ice appear to be doing well yet and are still able apparently to obtain a certain amount of shelter from the pack ice. The number of whales taken by the end of the season will be terrific over 30,000 I estimate. I think the end of whaling in these waters, unless some stops are taken to curtail it, is in sight. I think at the present rate of killing another three seasons will just about finish it.

Yours faithfully,

"Georgia."

### SOUTH GEORGIA SPORTS.

The Third Annual Sports Meeting in South Georgia was held at Stromness Harbour on the 22nd and 23rd of February, 1950. The movement which was inaugurated by His Excellency the Governor in 1928, has made a tremendous appeal to the employees on the whaling stations and friendly rivalry between them is growing more intense every year. Enthusiasm is not confined to the athletes and their supporters but is also evinced by the Directors of the companies themselves.

The Sports Committee are to be congratulated on the splendid manner in which the Meeting was organised. The arrangements were excellent and showed with what care and forethought the Committee had carried out their work. The thanks of all who attended are due to Captain Sorlle, Manager of the Vestfold Company, who as host on the occasion provided for the comfort of the competitors and spectators in a way which left nothing to be desired.

It was unfortunate that the weather during the two days was almost as bad as it could be even for South Georgia. Rain and snow and a bitterly cold gale of wind from the south west on the first day would have resulted in a postponement anywhere else but the enthusiasm of the competitors was not one whit damped by the elements and the sports were carried on as if such an occurrence was of a trifling nature. The ground was a quagmire yet the times and distances were wonderful and would have been considered good even on a perfect day.

The events carried through on this day were as follows :-

100 Metres - Heats.  
Throwing the Discus.  
400 Metres - Heats.  
Putting the Shot and  
Throwing the Javelin.

The best time in the 100 metres was 12.2 seconds and in the 400 metres 67.1 seconds. The winning distance in the Discus throw was 55.55 metres, this latter effort was remarkably good in view of it being performed by a youth of 19 years who had only taken up the sport this year. The Throwing the Javelin event was won with a throw of 42.63 metres.

The second day was a little better than the previous day as far as conditions were concerned. Snow had fallen overnight and there had been a sharp frost. The following events were carried out :-

100 Metres - Final.  
High Jump.  
Long Jump.  
400 Metres Relay Race.  
Hop, Step and Jump and  
Football Competition - Final.

The 100 Metres resulted in a win for Husvik in 12.2 seconds, the High Jump was won for Leith with 1.49 metres, the Long Jump for Stromness with 5.79 metres and the Hop, Step and Jump for the same station with 12.41 metres. The Relay Race resulted in a desperate struggle between Husvik and Leith, the former Station winning by inches in 56.1 seconds. It is interesting to record that this time, notwithstanding the exceptionally bad conditions, was better than that in the same race last year.

The final of the Football Competition which was between Leith and Grytviken finished off the two days' sport and was the tit-bit of the Meeting. Grytviken were generally considered to have had the best chance on account of their having eliminated Stromness which had been considered to be the best team.

The match commenced in a perfect storm of wind and snow and Grytviken were set to play against the wind. From the beginning Leith assumed the aggressive and within three minutes had scored. Grytviken were playing with their backs to the wall and striving desperately to keep Leith out. The work of their goal-keeper was marvellous and he was practically carrying the whole team. Leith, however, managed to score two more goals and the teams changed over with Leith leading by 3 - 0. The second half saw Leith on the defensive and Grytviken striving to reduce the lead. Leith, however, were always dangerous and in a break-away in the teeth of a gale worked down to the Grytviken goal mouth where fine work by the left wing resulted in a perfect centre being headed into the net in a no less perfect manner. Following this score Leith were continually on the defensive and eventually Grytviken managed to score a rather scrappy goal. The Leith team on the day's play were by far the better. The left back and the left half were towers of strength being sure and certain tacklers and kickers. The team as a whole worked beautifully even against the wind and there was not a weak spot anywhere.

At 7.30 p.m. the competitors and spectators assembled in the cinema where the prizes were distributed. Mrs. Williams, the wife of Dr. Williams of the s.s. "Ernesto Tornquist", and the only lady present at the Meeting very graciously consented to present the prizes to the successful competitors.

General regret was felt and expressed at the inability of His Excellency the Governor to be present at the Meeting and the good wishes conveyed in His Excellency's telegram were received with great appreciation.

Annexed hereto will be found a summary of the results of the Meeting :-

IDRETSSTEVNET SYD GEORGIA.

Det tredje Idretstevne blev holdt paa Strømnaes Harbour den 22 og 23 Februar 1930. Det aarlige idretstevne blev sat isene av Hans Exelens Guvernøren 1928 har virket som en staerk appel til mandskaperne paa Hvalstationerne og den venskaplige rivalisering mellem stationerne er blit mere intens for hvaert aar, ikke bare mellem idrettsfolkens og lederne, men ogsaa bestyrelsen og Direktøren er begejstrede for sporten.

Komiteen maa gratuleres for det utmerkede arrangement og den omtanke som var utvist for deltagerne og tilskuerne. Captain Sørli som har forestaaet det hele skyldes stor tak fra deltagere og tilskuere for den utmerkede maate alt var ordnet paa.

Det var uheldig at vaeret under stevnets to dage var meget slet selv for Syd Georgia at vaere. Regn sne og bitende kold vind fra Syd West, den første dag hade forandlediget utsaettelse av stevnet paa hvilket som helst andet sted, men begejstringen av deltagerne lot sig ikke dempe av elementerne. Stevnet blev holdt og seultaterne varv fortrinlige. Sports grungen var meget bløt, men resultaterne var gode selv for god grund og godt vaer.

Første dags øvelser hade følgende rekkefølge :  
100 mtr. løp.  
Discus:  
400 mtr. løp.  
Kuulestøt og spydkast.

Bedste tid for 100 meter blev 12.2 sec., 400 mtr ren 67.1 sec. Vinneren i Discus kastet 53.53 mtr. Bedste kuulestøt var 11.42 mtr, prester av en 19 aaring som hade begyndt treningen i indevaerende saison. Laengste spydkast var 42.63 mtr.

Anden dags Stevne.

Vaeret var lidt bedre end første dag. Der var faldt sne om natten, frøst om morgonen. Øvelserne hade følgende rekkefølge:

100 mtr. Final.  
Høidesprang.  
Laengdesprang.  
400 meters Stafet løp.  
Trestegssprang.  
Fotball Final.

100 meteren blev vundet av Husvik H. tid 12.2 sec. Høidespranget gik til Leith H. med 1.49 mtr. Laengdespranget til Strømnaes H. blev efter meget hard concouranse mellem Husvik og Leith vundet av den første med tomers forsprang tid 56.1 sec. Det var intressant at constatere at tiden iaar uanset ugunstigere forhold var bedre end foregaende aar.

Finalen i fotball blev spillet mellem Leith og Grytviken som **siste kamp** i to-dagersstevnet. Grytviken var anset som det bedste lag ved at seire over Stromnaes som var favoriten.

Spillet foregik under storm med snedrev Grytviken spilte første halvdel mot vinden. Fra gegyndelsen av var Leith den angripende og tok første maal efter 3 minuter. Grytviken prøvet desperat at dekke maal og holde Leith ute, Grytvikens maalmand arbeidet fortrinlig og var lagets bedste mand han bar praktisk hele spillet.

Leith fik to maal til og ledet efter første halvdel med 3 - 0. I anden halvdel var Leith i forsvar og Grytviken prøvet at utgjevne, men Leith spillede godt gik op under sterk vind mot Grytvikens maal ved venstre wing og center tok Leith yderligere et maal som Grytviken utlignet. Liets lag spillede meget godt selv i motvind venstre half og back var sikre baade som "taklers og kickers" laget for øvrig var uten svake sider.

Klokken 7.30 mødte deltagerne og indbuete i Cino lokalet hvor sneste tilstedevaerende dame Fru Dr. Williams fra "Ernesto Tornkvist" velvillig hade overtat premieutdelningen.

Dosvaerre var Hans Exelens Guvernøren forhindret at overvaare stevnet i aar. De gode ønsker som Guvernøren ønsket stevnet tel telegrafisk blev mottat med staerkt bifald.

### GOLF.

The "W. Morrison Cup".

The Challenge Cup presented by Mr. W. Morrison, to be competed for annually, was won this year by Mrs. Vaughan and Mrs. Hoare, who beat Mrs. Moir and Miss E. Summers by three and two. The match was very close, the competitors being all square at the thirteenth hole but from there onwards the tide of fortune turned in favour of Mrs. Vaughan and Mrs. Hoare.

Major Hay's Challenge Cup.

His Excellency the Governor meets Mr. A.T.A. Byron in the final for the Challenge Cup kindly presented by Major Malcolm Hay of Seaton.

His Excellency won his way to the final by defeating the Hon. J. Innes Moir and Mr. L.B. White whilst Mr. Byron had a comparatively easy passage by his opponent scratching in the first round. In the semi-final Mr. Byron defeated the Hon. G. Roberts.

LOCAL BISLEY CONCLUDED.

Sunday's "Last" Day On The Ranges.

After weeks of "Bisley in a blizzard" the eather relented on Sunday sufficiently to allow the long drawn out Local Bisley Meeting to be brought to a close with the Final Stage of the Governor's Cup and the Bishop's Cup - the only remaining competitions to be fired off and both of which were won by Mr. E. McAtasney who also takes the Governor's Cup with the highest aggregate. The light was good but the wind proved tricky and though to a degree there was disappointment because the ranges were taken from the 500 and 600 yards instead of the 900 and 1,000 owing to the ravages of the wind, everyone thoroughly enjoyed the contests which proved extremely thrilling.

His Excellency the Governor looked a likely winner of the Final Stage for, firing with the first detail, he made a total of 62, and as man after man rose from the 600 yards range without a higher or even the same score, it seemed immune from danger. But in the last detail Mr. E. McAtasney, who came down from the 500 yards with 54, made 51 and so wrested away the position by three points, at the same time, making himself a sure winner of the Cup with an aggregate score of 158. Mr. J. Grierson was second with 154 and His Excellency third with 151 while Mr. W. Summers, who made a lower score in the Final Stage, was fourth also with 151. The N.R. Medal was awarded Mr. J.W. Grierson in the Final Stage of the Governor's Cup since both Mr. McAtasney and the Governor have won it previously.

In the Bishop's Cup Mr. D. Lehen senior, the last man of all to shoot, created a sensation by making 32 at the 600 yards with two inners, five bulls and the last shot an inner and so running the Governor very close for the second position which His Excellency held by only one point. The scores are as follows :-

3rd Stage Governor's Cup.		Bishop's Cup.	
E. McAtasney	65.	E. McAtasney	65.
His Excellency	62.	His Excellency	62.

TO HELP INDUSTRIES.

Formation Of New Financial Company.

The "Daily Mail" reports that details can now be disclosed concerning a new Financial Company which is being formed under the auspices of the Bank of England for the purpose of financing industry.

The plans are well advanced for the formation of the new company which is to be called the "Bankers' Industrial Development Company" with a capital of six million sterling in shares of 100,000 each. Banks and Issuing houses may subscribe but the Bank of England will control the new company through the Securities Management Trust which it formed last year.

Mr. C.B. Gardner, the managing director of the Securities Management Trust, will probably be the managing director of the new company.

It is believed that the new company will be able to assist in the nationalisation of industry by providing capital to finance reconstruction schemes. Its resources will not be limited to capital. It will be in a position to raise loans. The formation follows Mr. J.E. Thomas' recent announcement for city cooperation for assisting industry.

"FALKLAND'S" BO'SUN SENTENCED.

Jury And A Strong Recommendation For Leniency.

Six Opened Lettors.

Yesterday's Long Hearing At The Supreme Court.

The Good Name Of The Post Office.

At yesterday's sitting of the Supreme Court Hjalmar Johannes Frederik Fuhendorff, the Bo'sun of the s.s. "Falkland", was sentenced to three months' hard labour and fined £25 and in default of payment to a further period of hard labour for three months. In pronouncing a verdict of "Guilty" the jury adoo a strong recommendation for leniency. The prisoner was charged with "wilfully secreteing, keeping and detaining certain postal packets" on the s.s. "Falkland" between the months of October 1929 and March 1930. The Court was filled for the hearing which lasted well into the afternoon and intense interest was aroused in the proceedings particularly since the case followed so shortly upon that heard in February in connection with irregularities in the postal service of the Islands.

The case was heard before His Honour the Chief Justice, the Hon. J.M. Ellis (Colonial Secretary) conducting the prosecution while Mr. A. Martin appeared as counsel for the prisoner who pleaded "Not Guilty". Those on the jury were - Messrs. J. McNicoll, A. Newing, E.H. Bound, J. McD. Thomson, S.A. Parkinson and G. Bowles with Mr. J.F. Summers as foreman.

In opening for the prosecution Mr. Ellis pointed out that the case ranked as one of the most serious that had come at any time before the Supreme Court of the Falkland Islands. It was common knowledge that for some time past grave irregularities had occurred in the postal services in the Colony. The blame for these irregularities had been assigned, naturally enough, to the Postal Department of the Colonial Administration and it was not long since an official of the Post Office stood his trial and was acquitted. It was his task to demonstrate that the blame was to be assigned, at any rate, in part to the accused. The case had in no way been trumped up or worked up but had been brought forward after careful investigation originating in a chance discovery and it had been brought by the Crown with the sole object of serving the common weal and of clearing the good name of the public service of the Crown.

The evidence showed that the prisoner was the bo'sun of the s.s. "Falkland" which acted as a carrier of local mails being subsidised by the Government for that purpose. It was part of the accused's duties to handle the mails including collection and delivery at the different ports and it was possible that he would be handed, in transmission, mail bags, packets and single letters. On standing orders it was his duty to bring them on board by the raft and hand them over to the chief officer immediately. It would not be permissable for him to retain the letters. The letters were generally kept on the bridge although single letters were brought on board and placed about by unknown persons. On 24th March the Postmaster (Mr. V.A. Byron) visited the ship in which a new postal box was being placed in position

and he was shown the odd corners where it was usual to find letters though none were discovered. Later the same afternoon Captain D.W. Roberts (the master) asked the cook (George Hansen) if there were any more letters lying about on the ship. The latter replied that there might be some in the mess below and after going to look returned within a few minutes with about ten or a dozen. On seeing them Captain Roberts told him to put them back where he had found them. In cross-examination the master admitted that the bo'sun would be very busy with the ship's work besides the mail work and in picking up the letters it would be possible to put them in a pocket and for them to chafe open and if the accused wished to destroy any letters it would be quite easy for him to do so. Up to that time he had no knowledge that the accused had tampered with the letters. Hansen said he found the letters behind Fuhlendorff's bunk in the mess room, and came upon them only by chance.

Chief Constable S.H. Hooley said that complaints of cheques and money going astray had been brought to his notice. In one instance ten guineas in notes had disappeared and on another occasion a letter containing thirty four pounds in notes had not reached its destination.

The witness went on to explain that he was called to the s.s. "Falkland" and asked to make a search. With Constable Morris he examined the bo'sun's cabin and on the shelf behind the bunk he found a number of letters among newspapers and magazines. Under the bunk was a locker which Captain Roberts opened with a key and about ten letters were found inside. Those on the shelf were spread about. Altogether there were twenty-four six of which were open, one of the latter containing a cheque. This was for Mrs. A. Pettersson junior and dated 9th February 1930, the value of the cheque being £5 18/-. The letter had been cut open. The dates of the others varied from October 1929; several had been cut open and one torn open. All of these, with the others found, could reasonably have been expected to contain valuables, money or cheques though such was not the case. Another letter was found in the pocket of a coat belonging to the accused, in the stoke hole of the ship by Louis Richards, one of the stokers, who put the coat on in mistake for his own. The envelope was jagged and contained a cheque for £5 18/6 for Mrs. A. Pettersson and was dated 11th March 1930. And yet another letter was found by the ship's boy, Jack Kirk when he was cleaning up the cabin or mess room. The letter was open and there was a note inside written by a lad named Mark Gleadell to his sister Vivien asking for some fish hooks for which he enclosed sixpence. But the sixpence was not there.

In evidence Kirk said that he slept in the mess room with the bo'sun and was in the cabin when the letters were found in the bo'sun's bunk. Mr. Martin, in cross-examination asked "Have you been spoken to about the matter before coming here to-day? - Yes Sir, who spoke to you? - The Colonial Secretary. Did he advise you in any way as to what to say?" After a pause the boy whispered "Yes". "And what did I tell you to say" countered Mr. Ellis. "Speak the truth" came the reply amid smiles of amusement from the Court. Peter Reive of San Carlos and W. Newman of North Arm spoke of having given the accused letters for transmission. The former said he gave the bo'sun one on February 12th for Mrs. Petterson containing a cheque for £5 18/-, and another on 11th March also for the same lady for £5 18/6. The latter swore to having sent Mrs. A. Pettersson senior four pound notes which she stated she had not received. With the evidence of Mr. Byron the case for the prosecution closed.

Mr. George Osborne senior, a witness for the defence, said that in his many years experience round the coasts of the Islands it had been the custom for any member of his boat to carry mails; it was the only way for a sure and speedy delivery. He knew the accused and could give him a good character. In reply to the jury witness said that he knew of occasions when letters had been chafed at the corners. Robert Reive, employed by the Falkland Islands Company, related how on one occasion a letter came unstuck after he had got it wet. Mr. A.W.N. Vincent, accountant to the F.I.C. which carried out an extensive banking business in the Islands, said that altogether there

were fifty-six cheques not accounted for during the past two years, amounting to a value of £430. He had no cause to connect the accused with the disappearance of the cheques.

Fuhlendorff then gave evidence stating that he had held the position of bo'sun on the "Falkland" since 1921. He had never been notified by the captain or chief officer that the letters had to be handed over to them. He placed the letters on the shelf behind his bunk because there was no where else for them. He explained that one of the letters that were opened had been opened by him in mistake. He put it on one side intending to take it to the addressee. Four others of the crew had meals down in the mess room which was continually open. There was no privacy whatever with no way of locking the place up and anyone could tamper with letters there. He added when he came into port he was very busy and could not guarantee to deliver the letters the same day. The accused produced a large number of excellent characters received by him.

Cross-examined the accused admitted he put his coat in the stoke hole to dry and had left it there for some time. He had no recollection of receiving a letter from W. Newman in October of last year but had he received one it would have been delivered in due course. He had no recollection how any of the six letters had been opened except the one he spoke about. He was always in charge of the raft but in the past, the mails had not been handed to him alone. People gave letters to anyone. asked "Have you carried loose letters yourself?" he replied "Yes". "Then why" the prosecuting counsel proceeded "Did you state in the Court on 7th February that you did not carry loose letters?" Mr. Ellis submitted that the witness was not reliable.

Both Mr. Ellis and Mr. Martin then addressed the jury, Mr. Martin saying that the prosecution, in his opening remarks, did not wish the jury to think the case was a conspiracy on the part of the Post Office to find a scape-goat. But to his (Mr. Martin's) view a more deliberate attempt to do so had not been seen. He asked the jury to consider that while the accused may have been guilty of carelessness he had not been guilty of criminal intent. The Colonial Secretary retorted that the accusation had not been brought by the Post Office but by himself.

After the summing up by His Honour the Chief Judge who dwelt upon the unreasonableness of the prisoner's carelessness accounting for the large number of letters which might fairly be expected to contain valuables in the form of cheques or notes being found in his cabin, the jury retired for nearly an hour before they returned with their verdict of "guilty". The foreman announced that the verdict was given with a strong recommendation to leniency on account of the prisoner's previous good character adding that the accused had more temptation placed in his way owing to the careless manner in which letters had been posted in the past.

His Honour then pronounced the sentence already stated after taking into consideration the jury's recommendation.

CHARLIE'S FORMER WIFE

Lita Grey, the former wife of Charlie Chaplin who is visiting England shortly, arrived in London two days ago to make an appearance in vaudeville. When interviewed she declined to commit herself as to her intentions of returning to Charlie Chaplin. She did not appear to take an interest in Chaplin's old London home nor of his haunts in the days of his early struggles. She is now twenty three years of age and has two children. She was married to the famous film star when she was sixteen years of age.

GANDHI CLIMAX.

Pilgrims Mass Meeting.

Gandhi and his seventy nine Disobedience Pilgrims arrived at Surat on Thursday night, the town being only fifteen miles from Dandi the seaside village where it is expected that the extremist leader will attempt to break the salt laws. A crowd of 10,000 met the pilgrims and at a mass meeting it was announced that 179 village officials had resigned in sympathy with the Independence Movement. Thousand of volunteers were enrolled and some 21,125 were presented to Gandhi.

Large numbers of mill owners who travelled to Surat by a special train offered Gandhi their support but left disgruntled when he refused to sanction the use of mill cloth by his followers in addition to the home spun cloth. A message from Calcutta states that disturbances have been taking place and seven were killed and seventy injured.

Friday's bulletin announces that Gandhi authorises the "Mass" Civil Disobedience Campaign to begin on Sunday. Hitherto the word "mass" has been avoided because in his previous campaign the affair ended in violence.

In the paper "Young India" the extremist leader states "All may regard this as a word from me that all are free and where over there is violent eruption volunteers are expected to die in an attempt to quell the violence."

From Karachi a number of Indian merchants declare that they have received threats of death from the "Hindustan Republican Army" unless they refrain from selling foreign cloth. The editor of the Bombay newspaper has been similarly threatened for anti-extremist comments.

AUSTRALIAN TEST TEAM CRICKET.

The Australian Test Team arrived at Colombo on Wednesday on their way to England and thousands watched them play versus Ceylon. The wicket was similar to that in Australia but the heat was intense even for the aussies who wore cork helmets.

The unpleasant conditions affected the Australian bowling. Australia obtain 233 all out. Woodfull 54, Ponsford 62, Bradman 40 while Kelaart took six wickets for 65. Ceylon had scored 50 for one wicket when the match was left drawn.

The players were entertained at the hotel before embarking in the "Orford" for Naples where they will dis-embark and travel to London over land.

### MAJOR HAY'S CHALLENGE CUP.

His Excellency Wins The Trophy.

It was a happy circumstance that fortune favoured His Excellency in the final of the Major Malcolm Hay Challenge Cup for golf played off on Saturday and yesterday when the Governor met and defeated Mr. F.A. Byron by the wide margin of 12 up and 10 to play thus winning this handsome trophy presented by Mrs. Hodson's father the first year it has been competed for. The umpire was Mr. C.A. Parkinson.

The match was played under handicap conditions, Mr. Byron receiving ten strokes.

After the first nine holes on Saturday the rest of the day's play was fairly closely contested but His Excellency was in fine form and was driving consistently well finishing eight ahead after the eighteen holes.

On Sunday the Governor won the first four holes straight off giving a beautiful exhibition of the science of the game but Mr. Byron managed to keep the match going by winning the twenty-third hole and halving the twenty-fourth. His Excellency, however, came away strongly and won the match comfortably by 12 and 10, doing the eight holes that morning in 35. The previous day the Governor's scores were 45 and 40.

### HOCKEY.

Yellows 6 : Reds 2.

The Yellows won by a comfortable margin on Saturday when the usual keen rivalry was to be seen with the clash of the colours although neither team played with a full eleven.

The score at half-time was 3 - 0. But in the second half the Yellows had to fight hard to keep the upper hand of the play the final score being however, 6 - 2. The Yellows goals were obtained by Miss Mona Gleadell (3) and Miss Millicent Pettersson (3) while the Reds' were scored by Miss Emily Atkins and Miss Sylvia Summers.

FOOTBALL.

England Beat Scotland.

England beat Scotland by 5 goals against 2 in the association football match at the Wembley Stadium on Saturday and so became the International champions. There were over 90,000 spectators including the Duke of Gloucester and the Premier, Mr. Ramsay MacDonald. Thirty five special trains brought 25,000 Scots to London to see the match and altogether there were estimated to be thirty thousand Scots present.

The masses of tam-o-shantered Scots had the shock of their lives when they saw the eleven Englishmen trample on the Thistle and giving thier countrymen the heaviest defeat England has inflicted on Scotland for thirty five years.

The chief reason for the Scottish debacle was that the Scottish Rangers half-back line, which has carried the team into the final of the Scottish Cup and won the Scottish League, completely collapsed against the English forwards and was demoralised before the interval. England scored three goals in five minutes.

London was crowded with Scottish visitors.

GOVERNMENT CRISIS.

To-day a series of searching questions are expected to be put to Mr. MacDonald in the House of Commons. If the answers are not re-assuring a full discussion in the form of a motion for the adjournment of the House will probably be demanded.

An adverse vote on this occasion could not be disregarded by the Government and should lead to resignation. Inquiries are now being made with regard to the attitude of the Liberals. The Conservatives are asking the Government to-day whether Britain and France are proposing an independent agreement. This action is viewed with mis-giving.

MOTOR AMALGAMATION.

It is understood that negotiations are continuing for the amalgamation of about a dozen British motor firms engaged in manufacturing only. In July last year a plan was put forward for merging about half a dozen firms. This is still being considered but meanwhile a large financial group is trying to arrange a larger scheme.

The negotiations are still tentative and may take months to complete. If the combine matures in its present form it will involve a capital of more than twenty millions sterling and only a few manufacturers would remain outside. These will include two or three luxury car makers, Sir William Morris and his group companies and the British Ford Company, the Humber-Hillman-Comer Combine and certain commercial vehicle manufacturers.

INVALID'S GALLANT ACTION.

A woman who had already lost two sons and her husband in one year saw her third son, an invalid, jump to death in a gallant attempt to save the life of a clergyman who fell from the pier at Blackpool on Saturday. Her last bereavement was but a few weeks back.

Both men were drowned but the body of the clergyman who was said to be about seventy years of age was not recovered. The man who sacrificed his life was Francis Phythian of Birmingham who was staying at Blackpool with his mother. When the alarm was raised he leapt into the sea and got a life-belt round the clergyman but both were carried away by the tide and the strong wind. The mother, on the verge of a collapse wept bitterly.

DEATH OF MR. A.W. GAMAGE.

Romantic Life Of Haberdasher's  
Assistant.

Mr. A.W. Gamage, the founder of the great London store of that name, died in the city of his life on Saturday after being unconscious for two days. A fascinating romance of modern business is enshrined in the story of his struggles.

In 1855, after given a little schooling he started work early as a haberdasher's assistant but before he was out of his teens he found his way to London and in the nineties Gamages was the best known sports outfitters in the Country.

It was the reward of his grit and enterprise and unceasing personal supervision. Many days he worked until mid-night and one of his mottoes in life was "advertise". His first newspaper advertisement cost three shillings but before the close of his life the firm was spending thousands yearly in advertising.

The remains of this amazing character are to lie in state until this evening in the famous Holborn store he founded until the time of the funeral service to-morrow. A motor-car show-room is being converted into a temporary chapel and throughout the night old employees will watch by the bier of their former chief. The day of the funeral all the employees will file past the draped coffin. The chapel is not to be opened to the public and the store will be closed the whole day.

FOOTBALL FINAL TO BE BROADCAST.

Association's Decision.

The Football Association has decided to allow the broadcasting of the final of the Association Football Cup between the Arsenal and Huddersfield on Saturday 26th April.

This decision was reached after an appeal from the Suffragan Bishop of Buckingham, Doctor Philip Eliot. The Bishop who spoke at a luncheon before the England v. Scotland match on Saturday urged the Association to regard the final as a National event of great public interest.

He pleaded that the sick and others unable to attend should not be deprived of the pleasure of listening to a running description of the play. The Association will take no fee from the B.B.C..

GANDHI & A "PINCH OF SALT."

Progress Of Extremist's Campaign.

The "Mass" Civil Disobedience Campaign ordered by Mahatini Gandhi, the Indian Nationalist leader was to have begun on Sunday at 6.30 a.m.. On Saturday Gandhi was due at Dandi on the sea-coast near Bombay where he and his followers proposed to break the law by collecting and selling the salt which is the Government monopoly.

Sunday's bulletin states that Gandhi's infringement at the appointed hour was to be a signal to his followers in the various parts of India to defy the British Rule. He arrived that day at Dandi - a desolate village in the Bombay Presidency. - the objective of a two hundred miles tramp from Ahmedabad. He and his followers had marched for twenty-four days.

Preparations had already been made for the simultaneous breaking of the law in a number of places and the auxiliary forces of the Government had been ordered to stand by for the next forty-eight hours.

When interviewed on Saturday Gandhi declared "God be thanked for what may be termed a happy ending to the first stage of the struggle".

The extremist proceeded to break the Bombay Salt Laws with punctilious precision. These laws prohibit the private manufacture or collection of salt but, far from his expectations and much to his chagrin, he was not arrested. Although there was a strong force of police posted in the district not one policeman was to be seen. After prayers Gandhi emerged from the rest house to break the laws. He was accompanied by about a hundred volunteers and looked very tired as he stooped to pick up the first bit of salt. Elsewhere in India the police arrested sixty-nine of his supporters for salt offences.

STANLEY ATHLETIC CLUB.

Secretary's Report for 1929 - 30.

The Annual Report of the Stanley Athletic Club presented at the General Meeting held in the Church Room on Monday and passed with approval is as follows : -

Membership.

"The yearly subscriptions to the General Fund have been collected from approximately the same number of persons as last year, and as usual there are quite a number of persons enjoying the privileges of the Club without paying any subscription whatsoever. I feel a word of thanks is due both to the Hockey and Golf Sections for the prompt manner in which they have collected these pots from their members and forwarded them to the General Treasurer.

Football.

"This Section, after its usual beginning-of-season burst has again subsided into the state mentioned in the Secretary's Report last year. Games have not been played regularly except when warships have been in the Port and consequently the standard of play has not improved. The membership has increased and it is to be hoped that this year some definite arrangements will be made with regard to this Section.

Cricket.

"No Cricket has been played this year, partly owing to the adverse climatic conditions and partly to the number of counter attractions, such as Golf, Shooting, etc. An extra-ordinary Meeting was held in 1929 to attempt to re-animate the Club, but no appreciable result has been forthcoming.

Hockey.

"This Section has had a particularly successful and happy year. Despite the number of enthusiasts who have left the Colony during the last twelve months the membership still stands at 51. Attendance at all matches has been good and the standard of play considerably improved. It is unfortunate that very little outside competition can be obtained but games have been played against warships visiting the Port. The members have also arranged dances in connection with the Club, which, I understand, have been great social successes.

Golf.

"The optimistic view taken by the Secretary in his Report last year with reference to this Section has been amply justified in the progress made during the last season. The membership has increased from 40 to 53. Numerous improvements have been carried out on the course including new 1st and 2nd greens and new 9th tee.

"A full programme of competitions was arranged and carried out including three competitions for which His Excellency the Governor gave prizes, the Hay Cup, the Coutts Cup, W.H. Luxton Cup, W. Morrison Cup, R. Greenshields Cup and a prize by Mr. D.M. Galloway. In addition there have been regular monthly Medal Competitions. It is to be hoped that this Section will have an equally prosperous season this year.

- o -

"In conclusion, I remind members that each Section has to elect its Section Committee for the ensuing year and that the present Committees of each Section are responsible for the calling of Meetings for this purpose."

H. Thompson, Acting Hon. Sec.  
7th April 1930.

POSSIBILITY OF FRENCH AGREEMENT.

Naval Conference Question.

After the back bench of the Conservatives had secure time for the adjournment of a motion to discuss the Naval Conference in the House of Commons on Monday night, the wiser counsels prevailed and the debate was called off thus the advice given in the "Daily Mail" leading article that day was effective among the Party leaders who succeeded, not without difficulty, in persuading the hot-heads among their followers that public opinion is entirely against any attempt to make party capital out of the situation.

News was received from Paris late on Monday indicating that the French Government may accept Security formula in terms proposed finally by Great Britain. But it is not to be looked upon as sufficiently binding to justify any substantial reduction in its the ship-building programme. M. Briand is expected to arrive in London to-day to give a formal reply of the French Government but in view of the continued refusal to admit Italy's claim to parity there is no increase of hope for the Five Power Pact.

Great heroism was displayed at Feltham, Middlesex last week by a Royal Army Service Corps cook in a vain attempt to rescue an airman whose light aeroplane crashed and burst into flames. The airman concerned was Mr. C. Swatt who, in learning to fly was trapped in the wreckage and received fatal injuries from burns dying before he could be extricated. At the time of the crash the cook, Driver E.W. Hillyer was preparing a meal. He dashed through the swampy ground, climbed a fence, scrambled through a stream and leapt into the flames. Although he fell back burnt he returned to the flaming wreckage and finally had to be dragged to safety himself.

WALKER CREEK SLANDER CASE.

Plaintiff Awarded £25 And Costs.

His Honour and The Credibility Of The Witnesses.

Contradictory Evidence.

"It appears to me that there has been so much lying on one side or the other that I am quite at a loss to sum up and I must leave you to decide on the credibility of the witnesses and then pronounce your verdict" announced His Honour the Chief Justice yesterday morning at the Supreme Court after hearing a Civil Action for Slander brought by Robert Cartmell, a shepherd of Walker Creek, against Mrs. Dividinia Dickson Jaffray who is alleged to have made public that the plaintiff had tried to take liberties with her at her house at Walker Creek, East Falklands, about Christmastide 1929. The plaintiff, who claimed damages against the defendant in the sum of £100, was awarded the verdict, the defendant being ordered to pay £25 and the costs.

Mr. V.A.H. Biggs appeared for the plaintiff while Mr. A. Martin took the case for the defendant. Mr. A.E. Dettleff was foreman of the Jury.

Mr. Biggs pointed out how serious it was for a man like Mr. Cartmell to have such an allegation made against him particularly in his position, which, in the course of his work, necessitated visiting other peoples houses in the Camp and if his character were not cleared he would probably lose his work.

A Woman's Word.

The story for the plaintiff was that Cartmell visited the defendant's house on the 7th of January 1930 when engaged in fencing work. She gave him some gin and while she went outside to attend to the cows he walked into the garden. On returning she gave him some tea and then he left. Cartmell said they were the best of pals although Mrs. Jaffray was very free with him, more than he liked and when she had visited his (plaintiff's) house she had said she always wished to have a house like that. The first he heard of the scandal was on an occasion he went to Darwin and called at Mrs. Jaffray's mother's and when he denied having made unseemly remarks about Mr. and Mrs. Jaffray. He saw the defendant about it but she jumped about and clapped her hands saying that her mother was a most mischievous making woman. But when he returned to Mrs. Morrison, the mother, the defendant took that lady's part and said to him "A woman's word is taken before a man's and I have got you." He went out to see to his horse as Alex Jaffray came up to him and accused him of taking liberties with Mrs. Jaffray. This was about three weeks after the visit on the 7th of January.

He let the matter rest until a man named George Scott came down in a motor boat and spoke to him about it saying it was the talk of Darwin and Goose Green. He decided to take immediate action since he heard that Jaffray was taking the case to Stanley but he found that the case had been with-drawn and so he asked Jaffray for a written apology from Mrs. Jaffray which was refused.

He (the plaintiff) then took action for slander. Evidence was given by a Spendiard, Phillip Berrido for whom Mr. E. Enestrom acted as interpreter, Joseph Curran, and John McPherson, that Mrs. Jaffray had told them of the plaintiff's alleged offence while Mrs. J.J. Skilling of Walker Creek attested to Cartmell's character being exemplary.

#### Rum And A "Racket."

But Mrs. D.D. Jaffray's story was that Cartmell visited her house on the 7th of January and stayed for about three hours. She did not offer him any gin though she gave him some tea. She went out to see to the cows leaving her two baby children indoors with a little girl to look after them. The plaintiff said he was going out into the garden but came over to the shed where she was, took hold of her arm and tried to molest her. There was no struggle. She then went back into the house but did not run away although she was frightened. She did not give him any tea when she got back. Up to that time they had been good friends.

Her husband returned home the next day and she spoke to him about it but she did not say a word to any of the witnesses brought forward by the plaintiff; they must have been told by her father. She admitted that she and her husband stayed at Berrido's house for the Darwin Sports.

Referring to the "racket" which took place between the mother and the plaintiff witness asserted that Cartmell started it and he hit her mother in the mouth with a bottle of rum. She (witness) had nothing to do with that "racket."

#### Some Truth In The Matter.

Alexander Jaffray mentioned that the first time he heard of the scandal was when his wife told him the day he arrived home on 8th of January. He spoke to Cartmell the first opportunity afterwards and that was when he was at Mrs. Morrison's house. He admitted that he had been gathering with Cartmell previously but did not "tackle" him then because he did not want to "kick up a row" while at work. He wanted to get them together with his wife before he spoke to Cartmell about it. The latter replied "What have I been doing. There is no truth in it."

He and his wife with Cartmell and Mrs. Cartmell had always been friendly and there was no earthly reason whatever for his wife to bring him a "yarn" like that unless there was some truth in the matter. He started to take action but his overseer said it was not worth going on with so he let the business drop. But he did not tell anything about it.

After both counsels had addressed the Jury His Honour said "You have heard the evidence of the plaintiff and the defendant in this case. I must point out to you that slander is only actionable if it lays the plaintiff open to hatred, contempt, ridicule et cetera. In other words if he has actually suffered or will suffer some damage. It appears to me that

I feel it, however, my duty to inform you that the plaintiff has been accused by the defendant of attempting to molest her with serious intent. It is a well-known axiom that there is no charge easier to bring against a man by a woman and no more difficult position for a man to be placed in. It is therefore perfectly obvious that the defendant's assertion in this respect must be conclusive namely, that you must have no doubt in your minds as to its credibility. I certainly think she would have strengthened her case by bringing in as a witness the little girl who was with the babies and who is quite old enough to be able to give reliable evidence in a Court of Law."

After retiring for only a few minutes the Jury found for the plaintiff also awarding costs.

#### BRITISH AIR CHALLENGE.

£30,000 For A Machine.

British aircraft designers and builders have thrown down a challenge to the world and are producing a fleet of machines worthy in every way to be called "Air Liners". They are as much advanced on the post-war passenger aeroplanes as is the modern liner on the first steamship to cross the Atlantic.

Eight of these wonder machines are being built by Messrs. Handley Page for the Imperial Airways for the London to Paris route. The building contract is the largest ever placed for commercial aeroplanes and involves the sum of £250,000, each machine costing about £30,000.

The new liners will hold forty passengers, two pilots and two stewards. There are to be two cabins, one a smoking room and the other a drawing room. There is to be also a bar with upholstered seats. There are to be four engines developing 2,000 horse power.

Less criticism is being levelled against the Oxford crew from those on the banks than against the Cambridge men although the latter are the favourites.

RATS AND CATS.

( In view of the proximity of "Rat Week" in the Colony the following leading article from the "Times" is published)

It has been calculated recently - though such calculations are always of a tentative nature - that there are at present upwards of forty million rats in Great Britain. These rats eat, each year food the value of which cannot fall much short of £10,000,000, and impose in addition an expenditure upon attempts to destroy them of about £250,000. This is a formidable bill, but it represents only a part of the cost of the upkeep of rodents. To it must be added the destruction of property caused by rats, and the cost of public health measures to prevent the entry into this country of rats from areas where plague is endemic.

The "Black Death" was most probably pneumonic plague; if so, it was a rat-borne epidemic. Every outbreak of plague which has occurred anywhere has been due directly to the fact that rat-fleas, when plague-stricken, bite human beings. It is necessary, therefore to exercise a sleepless vigilance at all ports at which ships arrive from India and other Eastern countries. If even a small proportion of the rats in this country become infected with plague, an epidemic of that disease would most probably occur.

Nor is plague the only disease in the spread of which rats play a decisive part. No doubt can exist that infective jaundice, cases of which have occurred recently in pits in this country, is rat-borne. That other afflictions can be laid to the charge of rats is less certain; and nothing is gained by making accusations in advance of exact knowledge. The indictment is serious enough as it stands.

Rat-week needs, therefore, no justification. Indeed, the only objection which can be urged against it is its brevity. To make war on rats for a week once a year is to trifle with a serious matter unless this annual effort is locked on merely as a spur to continuous activity. There can be no discharge in this war. Rats possess so high a degree of fertility that the efforts at present being made to cope with them are largely fruitless. Each year sees an addition to the rat population. In these circumstances it is necessary to reconsider ways and means and to effect co-ordination between the various agencies now at work.

Personal experience undoubtedly suggests that the domestic cat is the most efficient rat-catcher in the world. Houses and offices in which cats of proved metal are kept remain free of rats even when neighbouring houses and offices are over-run. A sharp distinction however, must be drawn between efficient and inefficient cats; some never catch rats.

It would be a service of the utmost value were a strain of "ratters" to be bred and placed on the market, so that anyone might obtain a cat the capacity of which could be guaranteed in advance. Cats kept for the purpose of destroying rats need good food and a reasonable degree of care, facts often overlooked by their owners; when they receive these necessities they work with exemplary diligence and display a quality of patience which but seldom lacks its reward.

AFFAIRS AT BOMBAY.

"Untouchables" Against Gandhi.

A tense situation has arisen at Nasik in Bombay Presidency where the depressed classes known as the "Untouchables" are living under Police protection following a fight with caste Hindus on Wednesday.

The "Untouchables" who number some sixty millions have refused to support Gandhi because he has done nothing to abolish caste distinctions and they have decided upon a counter-campaign.

Meanwhile Gandhi continues to break the Salt Laws and to incite the people into so doing. More arrests have been made among his followers.

FORTUNE OR LOVE.

£78,000 On Conditions.

A pretty woman, Miss Marjory Clementson, aged twenty four and the daughter of the rector of Staplehurst, Kent, has been left the major part of £78,000, the estate of the late John Newlyn, a company director, who died in 1929 at the age of seventy six, on conditions that she does not marry. The villagers are asking "will she sacrifice fortune for love". As a matter of fact though, she will not forfeit the legacy if she marries since a condition of this kind is deemed void by law. If the legacy is valid she obtains the property unconditionally.

GOLF.

Annual Meeting.

The Annual General Meeting of the Golf Section of the Stanley, Athletic Club was held in the Church Hall on Thursday evening last.

The following officers were elected :- Captain - His Excellency the Governor; Vice-Captain and Chairman - Mr. A.W.N. Vincent; Hon. Secretary and Treasurer - Mr. L.B. White; Committee - Officers ex officio, the Hon. G. Roberts, Mr. J. Morton, Mr. C.A. Parkinson and Mr. H. Thompson.

It was unanimously decided that the annual subscription remains as for the previous year, that is 15/- plus 1/- towards the General Fund of the Athletic Club. The subscription of 16/- becomes due immediately from all persons intending to play golf and the Hon. Secretary, Mr. White, will be pleased to receive subscriptions as soon as possible.

Mr. A.W.N. Jones was proposed and seconded as Auditor for the coming season.

It was proposed that a small lawn mower be purchased from the funds of the club and it was decided that the question be left to the Committee to choose and order a suitable mower.

The report for 1929 - 1930 showed that there were fifty three members belonging to the Golf Club at the end of the season there being an increase of thirteen on the previous year. Three members left the Colony permanently during the year, but there are more prospective members to take their places during the coming season.

The season has not by any means been devoid of competitions and matches. The competitions include two prizes given by His Excellency the Governor and also his annual prize with Challenge Cups presented by Major Hay of Seaton, Messrs. J.M. Coutts, W. Morrison, and W.H. Luxton, a Cup presented by Mr. R. Greenshields and a prize by Mr. D.M. Galloway. In addition there have been monthly Medal Competitions and matches with His Majesty's warships.

The improvements to the Course include new first and second greens and a new ninth teeing ground. Thanks are due to His Excellency the Governor for instigating the introduction of sheep over the course. The long grass has been removed and the soil strengthened. The pond has been emptied and drained and the course drained generally while some of the rocks over the course have been removed. The greens have been kept in good condition and mowed periodically.

CAMBRIDGE WIN.

Great achievement.

For the first time in the history of the boat race Cambridge lead Oxford in the number of victories after the Light Blues won Saturday's race by two lengths in a dramatic contest. The scores are now :- Cambridge 41 and Oxford 40.

Brockelbank and Martinsau, the respective Cambridge and Oxford strokes had a tremendous duel. For the first three of the four and a half miles course from Putney to Mortlake Oxford led.

Then Brockelbank sputered and drew level and within three hundred yards of the post drew clear. Both crews were rowed out.

The "Daily Mail" critic says the race destroyed Oxford's inferiority complex.

The time taken was nineteen minutes and nine seconds.

THE BUDGET TO-DAY.

Mr. Snowden And Taxation!

Mr. Snowden, the Chancellor of the Exchequer, has completed his Budget, the secrets of which will be revealed in the House of Commons to-day when he will inform an anxious Nation how he proposes to provide additional revenue to the extent of about thirty millions which he needs to balance the Budget.

The grand total is likely to be about 865 millions, the highest since 1922.

The lowering of the Super Tax limit from £2,000 to £1,500, a change in motor taxation and a slight impost on the brewing and tobacco trades are among the expedients expected to be adopted but it is still hoped that Mr. Snowden will be able to avoid an increase in the Income Tax.

A bright spot in the Budget is that the McKenna Duties will be allowed to remain and that no attempt will be made to end safeguarding duties. It is doubtful if the Land Tax actually figures in the Budget but preparations will certainly be made for a future tax.

### DEATH DEALING DEVICES.

#### Getting Ready For The Next War.

The "Daily Mail" is able to reveal that at the moment the most appalling weapons of war ever devised are being forged in secret. Death winged and terrible, and despatched from afar defying all defences, is the latest conception of science now in the process of realisation.

A gyroscope and another mechanism makes the "robot" flying devices described in the "Daily Mail" recently, a new horror of a bombing aeroplane without a crew - a huge engine driven projectile like an enormous flying torpedo.

Inside the machine's hollow metal-hull a mechanical brain is to be placed in a protected armour container. The gyroscope in the mechanical brain will establish electrical contacts instantly the machine deviates from its course and these will cause the compressed air mechanism to move ailerons, elevators and rudder, thus keeping the pilotless craft upon an accurate course.

A clockwork device set beforehand to operate at any given time will govern the action of the "brain" which after allowing the machine to fly a predetermined distance will cause the engine to stop and, with its deadly load, tilt down and fall to earth.

It is now becoming possible to combine with the gyroscope a form of control, another device which operates in a similar way as paper music-rolls for automatic pianos. With meteorological data obtained beforehand concerning the course the aerial "robot" is to take, a perforated slip will be inserted in the apparatus provided in the machine which will constitute the special "instructions" which the manless craft implicitly obeys as its interior machinery causes the paper slip to unwind.

### LORD DEWAR DEAD.

Lord Dewar, the famous millionaire whiskey distiller died on Friday at his residence at East Grinstead, Sussex. He was a bachelor and sixty six years of age. The end came suddenly.

apart from his business activities Lord Dewar had a great interest in the turf. He owned many good horses four of which were entered for this year's Derby. These will not however be eligible. An old rule of the Hockley Club provided that horses nominated for the race by an owner who died before the race, should be void. This rule was revised a year ago option being given to the trustees to decide whether the horses should be run or not, The rule, however, was not retrospective.

Dewar was regarded as a most brilliant story teller and after-dinner speaker of the day. His epigrams which have become known as Dewarisms are quoted wherever English is spoken.

She was formerly Miss Vivienne Huntingdon and the daughter and heiress of the famous American architect.

"It was the luckiest crossing" she confessed "because it brought me love and a husband. My mother was away when we married at the registry office and in deference to her wishes we shall be married again in America. I am pleased to say she is really attached to my husband.

"We have decided to go to Canada to settle where Cecil will have a chance to succeed."

Durban said "Although my wife has money I am not going to let that affect my intentions. I want to earn my own living."

"Third Degree" Illegal.

Sweeping changes in the Paris Detective Department and the manner in which prisoners and suspects have been examined have been ordered by the French Premier, M. Tardieu, and the Minister of Justice, M. Roul Peret, consequent upon the notorious Almazian case.

Almazian, a French tailor, was arrested in October last and charged with the murder of an accountant, named Rigaudin. Throughout Almazian protested his innocence and brought charges of illegal detention and assault against the Paris Police.

He declared that they kept him a prisoner without a warrant for seventy hours and tortured him in an attempt to extract a confession. He is to be brought before the Court on Thursday and all the charges are to be dropped.

A new head of the Paris Detective Force has been appointed and will be called upon to stop illegal "Third Degree" examinations. The Police Laboratory is also to be re-organised.

### THE NEW CUNARDER.

Stupendous Horse Power & Tonnage.

For Clydebank Firm ?

The order for the new Cunarder with which it is intended to re-capture the Atlantic speed record is to be placed by the end of May. She is almost certain to be built by John Brown and Company, Clydebank and work will begin as soon as the order has been received.

The liner which is to be the largest in the world, is to have a horse power of 200,000 with turbine engines, a tonnage of between 70,000 and 75,000 and a minimum speed of twenty-eight knots.

She will contain many features which will surprise not only naval architects but ship-builders and marine engineers. Her construction will involve a slight breakaway from the usual Cunard practice though it is unlikely that any such pronounced departures as in the "Bremen" or the "Europa" will be seen.

Politicians Present.

New York enjoys the unique distinction of housing a dinner in honour of a bootlegger. It was held on Sunday night and the cost, it is understood, was about three thousand pounds.

"Prominent politicians" attended and the guest of honour was John T. Dunne, a reputed leading bootlegger of West New York. The occasion was on his retirement with a fortune estimated at hundreds of thousands of pounds and made within the last ten years.

His speech was elequent in its brevity. He said "I am not a speaker. I am a beer runner - that is, up to now. My wish is to see you folks have the deuce of a good time".

One of the diners, a Democratic politician, contributed his quota of praise by saying "Never in all the time I have dealt with him have I found him anything but square with Government officials."

EMPIRE BROADCASTING SCHEME.

Special Bulletin.

The British Broadcasting Corporation have submitted to the Secretary of State for the Colonies and Empire Broadcasting Scheme which is now under consideration and which it is hoped will be ready for discussion at the forthcoming Colonial Office and Imperial Economic Conference.

The essence of the scheme is to construct a medium powered station in England to carry out an experimental service to Dependencies Overseas on short wave for a period of some five years.

In order that the representatives at the above Conference may, before they sail, have some preliminary idea of what the service would be like, Routers have agreed to broadcast an experimental news bulletin for a month without charge.

It is understood that the bulletin will be of about a quarter of an hour's duration and will be broadcast by the British Broadcast Corporation from Chelmsford daily at 16.55 G.M.T.. It will be preceded by a tuning note for a few minutes and will be transmitted on short wave.

This experiment will commence on the 23rd of April. It should be realised that the transmission will be purely of an experimental character and not a fair representation of what is actually possible with a new station specially designed for such a service.

WEST STORE NEWS AND CHIT CHAT.

Our Bi-Weekly Chatterbox.

You will see among the 'specials' this week several wines. This is in case you raise a thirst with the 'Raisley'.

A LITTLE RED TIE STORY.

High overhead the sun shone from a cloudless sky, behind a bunch of mesquite lay a solitary paleface with his rifle roady at his shoulder. From the cover of some rock crept an Indian chief, hideous in his war paint and feathers, it was the great chief Black Bull. Behind him crept some twenty braves. Taking a careful aim from his cover, the paleface fired. BANG. With a terrible scream the Indian sprang into the air and dropped dead. His companions, somewhat nonplussed, paused, and three of them dropped in quick succession. Then realising the position of their opponent they charged, uttering bloodcurdling yells, before they reached the clump of mesquite seven more were accounted for. Then a terrific hand to hand struggle took place. Knocking an Indian on the head with his now useless rifle the white man seized him by the leg and commenced using him as a club. Five of the remainder were placed hors-de-combat when a cry arose, clear in the noonday air,

"TOMMY, DINNER TIME"

Reluctantly the little boy arose from behind the gooseberry bush and dropped the broomstick he had been using as a rifle. "Just when I'm in the middle of a game," he muttered. "What's for dinner, anyhow? Ah, soup." and away he ran, forgetting all about his thrilling fight.

Now why did he hurry home when he remembered that there was soup for dinner? Was it the thought of soup? No! not merely soup, or just tomato soup but they were having HEINZ CREAM OF TOMATO SOUP. You see the word HEINZ in front makes a wonderful difference. Heinz manufacture several other soups, call at the West Store and see. The name HEINZ is a guarantee of purity and quality.

THREE MEN BURNT TO DEATH.

Derbyshire Tragedy.

Three men were burnt to death in a saloon car near Cresswell, Derbyshire, on Monday evening. They were William Tomlinson, Walter Holmes and Arthur Bacon.

Bacon, the owner of the car, was driving in the direction of Cresswell when the vehicle collided with a telegraph pole breaking it in half and cutting off communication between Cresswell and Worksop.

The car, it is believed, next struck a stone wall and overturned, the driver and the two passengers being trapped inside. The impact punctured the petrol tank and the car burst into flames.

The steering wheel had entered Bacon's body and it is thought he died almost instantly.

THE BOAT RACE DETAILS.

How Cambridge Won.

The official report of the Boat Race rowed on Saturday last when Cambridge won an epic event by two lengths shows that the battle was contested in a strong south westerly wind.

Oxford won the toss and chose the Surrey side which gave them considerable advantage. Oxford led slightly from the start to Craven Steps where the crews were level. Cambridge led slightly at Crabtree Wharf but at Hammersmith Bridge Oxford were three-quarters of a length in front.

At the two miles' point Cambridge had slightly decreased Oxford's lead while at the Doves the crews were again level. At Chiswick Eyot Oxford led by half a length and at Dukes Meadows still held on to their advantage.

But at the three miles' point the rivals were again level, Cambridge taking the lead slightly at Devonshire Meadows and increasing their advantage to three-quarters of a length at Bull's Head. Oxford tried hard to reduce the distance but with a quicker stroke Cambridge spurred on further and at Mortlake Brewery were a good two lengths in front.

Oxford made a magnificent spurt towards the end but could not reduce the leeway. The official time was 19 minutes 15 seconds.

LATE FALKLAND ISLANDS POLICE

CHIEF.

Honour For Mr. D.J. O'Sullivan.

We have heard by the mail just arrived that His Majesty the King has been pleased to confer on Mr. D.J. O'Sullivan, the Police Force Long Service Medal so richly deserved by our late Chief of the Falkland Islands Constabulary, whose recent retirement through ill-health and consequent departure for England, lost us a very popular officer and member of the community.

In a talk with a representative of the "Naval and Military Record"; recently, Mr. O'Sullivan related his unusual experiences which included a close connection with the events leading up to the Battle of the Falkland Islands.

"Starting as a boy in the "Defiance" at Devonport, Mr. O'Sullivan, who has arrived at Plymouth after an absence from England of twenty-eight and a half years, has progressed through an interesting and uncommon career to the position of Chief Constable of the Falkland Islands.

"He is staying with his brother, Commissioned Boatswain G. O'Sullivan (retired), at 59 Peverell Park-road. With him are Mrs. O'Sullivan and two daughters, the Misses Laura and Mary O'Sullivan, who were born in the Islands, and who are seeing England for the first time.

12,000 Miles' Journey.

"Mr. O'Sullivan and his family were something like eight weeks on the return voyage to England. They sailed 12,000 miles from the Falkland Islands, through the Straits of Magellan, up the west coast of America, through the Panama Canal, the Caribbean Sea, Gulf of Mexico, and across the Atlantic to Liverpool. Thence they travelled to London, and finally to Plymouth; and when they arrived at North-road Miss Laura O'Sullivan was still carrying a hockey stick, which she fondly described as 'my best friend - I have brought it 12,000 miles.'

"As a boy Mr. O'Sullivan was in the "Defiance" at Devonport under Admiral Jackson, who first introduced a system of wireless at Plymouth. Later he worked in the gunboat "Scourge" on experimental trials between the breakwater and Mount Wise in Admiral Freemantle's time. In 1898 he commissioned in the "Flora" at Devonport for the South-East Coast of America, and in 1900 left the "Flora" for the Admiralty Coaling Station in the Falkland Islands.

"Within twelve months the station was closed down and Mr. O'Sullivan then joined the police there, serving in both police and prison departments. In succession he was gaoler, police-constable, sergeant, superintendent and eventually Chief Constable which rank he held for sixteen years. He has now retired on pension and hopes to settle down in Devonshire.

"During the Great War" Mr. O'Sullivan told a representative of the "Western Morning News", "I was in charge of our post in the Falklands and had the honour of providing Admiral Cradock with his last guard of honour when he left the Falklands on his last commission before meeting Von Spee's squadron in the battle of Coronel. I was also on duty during the great naval battle that followed.

"Mrs. O'Sullivan was at the exchange and plugged all the messages from the various outposts of the appearance of the German squadron, when Von Spee thought he was going to occupy the Falklands but caught a tartar instead.

#### Admiral Sturdee's Arrival.

"I have vivid recollections of the arrival of Admiral Sturdee's squadron. I was on the jetty when he landed to see the Governor and, being Scoutmaster, and no service men being available, I detailed a troop of Scouts to escort him to the Governor's house. Falkland Islanders have vivid recollections of the morning of December 7th, when Admiral Sturdee arrived and anchored in the outer harbour, and remember even more vividly the morning of December 8th when he broke his flag in that harbour and sailing out sent Von Spee steaming due east. The Falkland Islanders always keep December 8th as a holiday in commemoration of Admiral Sturdee's brilliant victory.

"The Falkland Islands are the most southerly Colony of the British Empire with a population of about 3,000. They are divided into the east and west Islands and the population is all British and of the white race. They are well governed and of special interest is their educational system which for so small a Colony is magnificent.

"His Excellency the Governor, Arnold Hodson Esq. C.M.G., is a first class administrator and a popular head of the Islands. The principal industries are wool and whale oil. There are both shore and floating factories in the whaling industry, the principal interests being Norwegian, though there are also large British interests. It is a very profitable enterprise. Last year whales were in abundance and new factories are being started.

#### Surprise for Amusement.

"In addition to receiving a good general education, the children are taught handicrafts and needlework and fancy work are special features. I am sure the average Britisher would have the surprise of his life if he could see the school exhibitions in the Falklands at the end of each year.

"There is plenty of scope for amusement in the Falklands - golf, cricket, hockey, football, riding and shooting and so on for those who like an outdoor life. The winters are very severe but the summers are genial.

"All sorts of vegetables can be grown and though it may seem to people who know nothing of the Islands that they are almost at the bottom of the world, they nevertheless have many attractions."

HIS MAJESTY THE KING.

Completely Restored to Health.

Everyone will rejoice at the King's restoration of health which is now regarded as complete. His Majesty will now take his full part not only in the affairs of State but also in social events at which his presence means so much to the London Season.

The fact that he has been enjoying horse riding at Windsor almost daily despite the cold weather shows that the medical advisers do not fear a return of the lung trouble.

PETITION FOR PODMORE.

Seventy-nine M.Ps. names are among the 15,000 signatories to a petition for the reprieve of William Henry Podmore, who is under sentence of death for the murder of Vivian Messiter at Southampton in October 1928.

The decision of the Home Secretary, the Right Hon. G. L. Clynnes, was expected on Thursday.

If Podmore remains unreprieved the execution will be carried out at Winchester gaol on Tuesday.

THE BOLSHEVIKS ORDERS.

Easter Effrontery.

In many churches throughout England the special prayer used on the day of intercession last month for the persecuted christians in Russia was read at the Good Friday services. The prayer was composed by Dame Beatrix Lyall and runs :-

"O God who alone can'st overcome the unruly wills and passions of simple man, we beseech Thee at this time to change the hearts and wills of the rulers in Russia that they may cease their cruel persecutions on men women and children and their attacks on the sanctity of marriage, home life and Sunday."

Undeterred by the universal wrath aroused by their attack on religion, the Bolsheviki have been conducting an energetic campaign against the observation of Easter. The "Daily Mail" understands they had the effrontery to send orders to Russians in England and acknowledge their authority that they were not to attend any form of church service during Easter.

SHEPPING NEWS.

In anticipation of a further mail arriving by the "Loreto" the news that that vessel is leaving Bahia Blanca on the 23rd (to-morrow) and is expected to arrive at Stanley on the 27th or 28th is extremely welcome.

The s.s. "Falkland" left Stanley last evening for Hill Cove, Saunders Island, San Carlos South, Fox Bay, North Arm, Darwin and Fitzroy.

The s.s. "Fleurus" left South Georgia yesterday and is expected to be back in Stanley on Saturday, the 26th.

R.R.S. "Discovery II" arrived at Grytviken yesterday.

The steamship "Marurano" from Magallanes, arrived at Fox Bay on Good Friday and after clearing left for Port Howard with her load of horses for Mr. Pole Evans. The boat is expected to call at several other ports on the West for sheep before returning to the coast.

E-STER-TIDE IN THE CATHEDRAL.

The Cathedral was tastefully decorated for the Eastertide services by Mrs. Vaughan, Miss A. Felton and Miss V. Gleadell, and exhibited an unusual profusion of flowers for this time of the year.

On Sunday there were about eighty communicants, the number being above the average. The service at 7.0 a.m. was taken by the Dean and at 8.0 a.m. by the Bishop who also preached at matins and evensong. The Dean also administered the sacrament in the houses of those who were sick or too aged to be able to attend the services.

A feature of the service Sunday evening was the rendering of the Seventeenth Century Joyful Easter Hymn by the choir, the solo being taken by Mr. A.J. Davis.

The collections, apart from the Freewill Offerings were allocated to the Sustentation Fund and amounted to £7. 7s.

### FIRE AT NIGHT.

#### Engine Called Out.

Considerable commotion was caused in Stanley soon after 7.0 p.m. on Saturday when the alarm bells clanged ominously and cries of "fire" were heard.

It was found that the chimney of Mrs. M. Clark's house in Pioneer Row had caught alight and was belching smoke over the centre of the town reminiscent of a London fog at night.

The outbreak was caused by a tin of grease becoming ignited in the oven. The fire engine was called out but found to be unnecessary, the flames being extinguished without much damage being done.

### PERSONAL.

Major Hay of Seaton and Miss Hay have arrived at Prince Olaf Harbour, South Georgia. It is expected they will leave for Europe this week.

His Lordship the Bishop left Stanley yesterday by the s.s. "Falkland" for a short visit to the West.

We extend our heartiest congratulations to Mr. R.E. Marshall on his appointment as Deputy Auditor of Tanganyika.

Among those who are leaving for England by the "Orinda" next week are His Lordship the Bishop, Mr. R.E. Marshall, Mr. and Mrs. A.R. Hoare, Mr. and Mrs. A.L. Fleuret, Mr. and Mrs. Harling and Mr. and Mrs. J. King and family.

We are pleased to learn of the recovery of Miss Lottie Blythe from illness and that she has been able to leave the hospital to return to her duties as cook at Government House.

### THE GOVERNOR'S CUP.

His Excellency the Governor's Cup, won by Mr. A.P. Hardy's "Minster Jim" at the Sports on Boxing Day, has been received in the Colony and forwarded to Mr. Hardy with a personal letter of congratulation from His Excellency. The cup, which came by the "Falkland" is a handsome and fitting trophy standing some eight inches high with the plinth and suitably engraved.

The Annual General Meeting of the Football Section of the Stanley Athletic Club was held in the Church Hall last night when Mr. M. F. Crece presided. There were also present Messrs. D. Fleuret, W. J. Grierson, H. Thompson and H. Thomas.

The finances of the Club showed that there was a balance in hand of £1. 2s. 5d..

The officers elected for the year were :- Messrs. A. J. Davies (captain), D. Fleuret (vice captain), H. Thomas (hon. secretary and treasurer), A. W. Beardmore and O. A. Parkinson (members of the committee.)

The meeting closed with votes of thanks to His Excellency and the retiring officers.

MR. D. J. O'SULLIVAN.

The particular distinction conferred on Mr. D. J. O'Sullivan is not, as we informed our readers on Thursday last, the Police Long Service Medal but the Imperial Service Medal awarded Civil Servants for over twenty-five years meritorious service. Only five of these medals are awarded throughout the Empire in the course of a year.

We feel certain that so rare an honour being recommended our late Chief Constable will be acknowledged as well deserved not only by officials of the Falkland Islands Administration but also by the whole community.

Mr. O'Sullivan is the first person from this Colony to be awarded this medal.

When asked why she undertook the journey she said "I am happy when I am flying and Captain Barnard, my pilot, likes making records. I love the air." The return journey started yesterday after a rest of two days.

Bank Holiday Birthday.

Princess Elizabeth, the daughter of the Duke and Duchess of York, was four years old on Monday - the Eastertide Bank Holiday. The Queen and the Duchess have arranged a children's party for her at Victoria Towers, Windsor at which the two sons of Princess Mary will be present.

The little Princess, who is known as "Lizabet" by members of the Royal Family, was taken to the Grand Quadrangle of Windsor Castle on her birthday to watch the changing of the guard. She appeared at the window and waved her hand to thousands of people assembled on the terrace and delighted them all by pretending to conduct the band which was playing below.

The only fortunate holiday makers appear to be those who might have taken an excursion trip to Iceland where the temperature on Easter Saturday was seven degrees higher than that at Kew.

ITALIAN COURIER "CAUGHT".

Mixed Up With A Stolen Mail Bag !

After the cross-channel steamer "Biarritz" had berthed at Folkestone on Sunday with the passengers comfortably settled in the train for London a man was seen clambering into a carriage with carrying what looked like a mail bag. But it was too late to stop the train and when the mail bags were checked before leaving Folkestone one was found to be missing.

The description of the man was wirelessed to London and a large number of the Flying Squad met the train at Victoria Station. Detectives challenged the man answering the description given them but the "suspect" was found to be unable to speak English.

A detective spoke to him in French with the result that a message was sent to the Italian Embassy. Shortly afterwards an official arrived and declared that the detained man was an courier of the Embassy on legitimate business.

But no trace was to be found of the missing mail bag which contained a number of registered letters.

United States Prophecy

Dr. John Stewart, professor of Astronomical Physics at Princeton University, United States, foretold to an audience to which he was lecturing in New York recently that in another 120 years time people will be travelling in rocket ships at 50,000 miles an hour.

In twenty years, he said, we shall be travelling at 1,000 miles an hour, and when sufficient speed has been attained to overcome gravity lunar trips will be taken. For this purpose the vehicles will be round and will carry a crew of six and twenty passengers.

Projecting from the ship in all directions will be twelve cannons generating a speed of about 190 miles a minute. Telephone communications will also be established between the moon and the earth by means of the wireless beam system.

RIOTS IN INDIA.

Armoured Car Set Alight With Paraffin.

Two Occupants Burnt To Death.

A serious outbreak took place at Peshawar on the North West frontier on Wednesday when troops fired on the rioters with machine guns and rifles. Twenty rioters are reported killed.

A British armoured car was held up by the mob who poured paraffin over the vehicle and set it alight, two of the occupants being burnt to death. A British sergeant was also pulled off his motor cycle in a bazaar, attacked and killed. The streets are strewn with stones which the mob hurled at the police and soldiers.

Wild reports of prison atrocities are spreading from Calcutta where the authorities of Alipore Gaol have refused to give Gandhi's followers information concerning the convict riot which took place there on Wednesday. The agitators declared that Sengupta was dead and another political prisoner was dying.

As large crowds have collected round the prison the Government authorities have issued a communique stating the facts. It appears that newly admitted prisoners refused to obey orders and the other convicts joined in the altercation, but eventually the trouble was subdued.

BROWNIES AT GOVERNMENT HOUSE.

A Happy Afternoon.

Thursday was a Red Letter Day for the Stanley Brownies who were invited to tea at Government House by His Excellency the Governor and Mrs. Hodson. Fifteen Brownies were present under the charge of Mrs. Vaughan (Brown Owl), and Miss Bossingham (Tawny Owl), their names being Molly Roberts, Molly Bundes, Dot Aldridge, Bessie Clark, Betty Roberts, Ellen Lellman, Phyllis Atkins, Millie Lees, Iris Davis, Irene Meierhofer, Iris Meierhofer, Ruth Harvey, Evelyn Howatt, Nan Clark and Alma Jones. Mrs. Williams (Guide Commissioner) was also present.

The reception took place in the drawing room and it hardly needed the kindly word of His Excellency over the charming smile of Mrs. Hodson to chase away any lurking shyness which might have tried to subdue these happy sprites who looked particularly neat in their trim uniforms.- A more happy or homely gathering could not have been imagined.

After a sumptuous tea during which crackers were distributed the party gaily returned to the drawing room to listen to the special broadcast programme given in honour of the little guests and which was greatly appreciated. It is a deep debt of gratitude the Brownies must owe the artistes who so generously entertained them.

Before departing soon after five-o'clock the officers and Brownies gave thanks to His Excellency and Mrs Hodson for their kindness in providing so pleasant an afternoon and also for the crackers which caused such interest on the way home.

BOOKS TO READ.

Below we give the first of what we hope to be a series of short reviews of interesting books to be borrowed from the Library.

"Almayers Folly" by Joseph Conrad. :- After reading some of to-day's sensational "shockers" I find it a pleasant change to turn to the exquisite style and faultless English of Conrad. "Almayers Folly" deals with a young Dutchman in the East Indies, married to a native woman and later practically living as a native himself. It is really an absorbing study in psychology, describing vividly the tragedy of this man's life. All his hopes and affections are centred in his beautiful half-caste daughter, whom, by the dint of pinching and saving he hopes to send to Europe, but true to the inherent savagery of her nature the girl revolts, eloping with her native lover. The closing chapters portray Almayer's agony of mind and gradual consequent degeneration. The book will provide food for much interesting thought and mental argument.

## BOY SCOUT NEWS.

### Going Ahead.

His Excellency the Governor has been graciously pleased to return the Club Room to the Stanley Boy Scouts and this step has been of primary importance in establishing us upon a firm basis. Since then we have been able, with the installation of the electric light and all the other amenities that have been so kindly showered upon us, to enter fully into playing the game of "Scouting For Boys."

The Troop is divided into three Patrols - The Seal, The Owl and The Curlew - and these are always engaged in competition, each to prove its efficiency over the others. Points are won or lost for everything from a clean pair of boots to the way to tie up a fractured limb! From this it will be seen that keenness is bred from within and is far from being a rare quality in some of the boys; enthusiasm is rapidly growing infectious.

The internal organisation is proceeding apace turning a handful of boys into a machine with smoothly working parts. Just a few of the things that go to make up this homogeneity are :- The Patrol System, Patrol Corners, registers, fines and duties; a Troop System, Troop Library, equipment room, funds, instruction nights and even a Troop War Cry. Our Patrol System is such that in the normal course of duties our rooms are cleaned and scrubbed weekly.

And our Troop "Esprit de corps" is such that when one boy was recently asked to clean out a stove half the Troop wanted to help.

These things however only form the part that shews and we should not lose sight of the behind-the-scenes work being done by our Association Chairman - the Hon. J.M. Ellis - and the Executive Committee. To feel that these gentlemen are so interested in our endeavours to go ahead is a moral support of no small standing.

We have now, however, a further stimulus than this even. His Excellency the Governor, the Chief Scout of the Falkland Islands, has presented us with two prizes for competition. One is to be awarded the Patrol Leader who pilots his Patrol to the top the greatest number of times during 1930 thus proving himself most efficient. The second prize will be presented to the Scout who, by his perseverance, accomplishments and, in short, his Scout Spirit, is the most worthy. The prizes themselves are of no small value, one being an autographed copy of one of His Excellency's own publications. Dr. J.I. Moir (Commissioner for Boy Scouts) has promised to help in adjudging this part of the Competition.

### Wolf Cubs.

If one happens to hear animal shouts and growls proceeding from the Cub Den behind the Colonial Secretary's Office it should be remembered that only the Wolf Cub Pack - some two dozen strong - are doing their best to aspire to the prowess and wisdom of something between a 'Scotch Old Wolf' and a 'Denizen of the African Jungle'. "Doing Your Best" though simple in sound is an achievement worth shouting about when properly accomplished and when it is a Wolf Cub of the First Stanley Pack doing his. Whatever the results they should certainly be unique

These "little brothers" also have their systems, and with their Sixes, Sixers, games nights and hours of instruction, are progressing in their way to high ideals. Between us all, from the Chief Scout downwards, the boys of the Falklands should soon be brought to a recognised place in the World-wide Brotherhood.

PRINCE CAROL THE PRODIGAL.

The ex-Crown Prince Carol of Rumania may now find a way clear to return to Budapest. His love affairs with Madame Zizi Lambrino Lupescu led to his falling into disgrace and final exile from his country and a divorce from his ex-legal wife.

Manculescu the former Under-Secretary recently visited the Prince in Paris to take such steps as will free him from sentimental entanglements. It is understood that the Prince is not so averse to the undertaking as he was. Negotiations are continuing and an official rupture between the Prince and Lupescu is now possible.

ROUND THE WORLD IN THREE HOPS.

Eleriot's Monoplane.

Louis Eleriot, who astonished the world in 1909 by flying the English Channel and winning the £1,000 prize offered by the "Daily Mail", is now constructing an immense monoplane.

The huge wings sustaining the machine will be hollow to lessen the weight and thus increase the speed range and will contain the engines, the fuel tanks and the control tanks for the pilots and engineers. The monoplane will have enormous flying wings and it is believed that it will be able to make a journey of eight thousand miles without alighting.

It is understood that an attempt will be made with it to beat the long distance flight record and also accomplish a flight round the world in three hops - Paris, Tokio, San Francisco and Spain.

THE CHURCH'S £20,000 APPEAL.

Schema To Raise Funds.

Annual Registered Vestry Meeting.

Last Year's New Ventures.

In his remarks at the Annual Meeting of the Registered Vestry, held in the Church Hall on Friday evening, the Very Reverend the Dean, who presided, announced that he had launched a further scheme for an Appeal chiefly to the people at Home for the sum of £20,000 for the endowment of the Chaplaincy and Assistant Chaplaincy, the renovation of the exterior brickwork of the Cathedral, to provide new clergy and choir stalls and to meet the balance required for the recently installed electric light.

The Dean drew attention to the balance in hand of the annual accounts which had been adopted when giving his resume of the last year's work and pointed out that it was rather smaller than usual. This was due to an exceptional expenditure which included the cost of repairs to the Church property in particular to the printing office roof, the Church Hall and the painting of the rails and fencing. In addition to that there was the cost of the installation of the electric light amounting to £150 towards which they had received £75. He expressed his gratitude to His Excellency the Governor for making the installation possible, and to Mr. F.A. Byron and his competent assistants for the very efficient way in which they carried out the work.

One new venture started during the year was the Free Will Offering Scheme to which there had been a good response although the £5. 2s. required per week for the cost of maintaining the Cathedral services, irrespective whether they were conducted by priest or layman, had not been reached so far. But one good result was that the weekly collection had been doubled. Another new organisation recently started was the Communicants' Guild which was proving very useful. Throughout the whole of last year the Sunday evening services had been broadcast due to the praiseworthy enterprise of the Government and the skill of its officials. The Cathedral authorities were glad to co-operate in that creditable undertaking and it was to be hoped, the Dean said, that no able-bodied person would get into the habit of neglecting to attend the Church because of the possibility of listening-in.

Recently the Church had had another welcome visit from His Lordship the Bishop who would have been present that evening but for the fact that he had gone to the West Falkland to hold a Confirmation and to Consecrate cemeteries at Saunders Island and Fox Bay. In closing his report the Dean expressed his warm appreciation of the services of all Church helpers, the public, the Government and the Falkland Islands Company, saying he was perfectly happy with the workers paid or unpaid and had no desire to see any change.

The election of officers resulted in Mr. F. Binney and Mr. A. Newing with Mr. S.E. Browell and Mr. D.E. Richardson being unanimously re-elected respectively the Dean's Warden, People's Warden, Hon. Secretary and Hon. Treasurer, with Messrs. C.A. Parkinson and H. Thompson as members of the Council.

In "any other business" the Dean raised the question of the advisability of continuing the publication of the Falkland Islands Magazine which, he pointed out was being run at a loss to the Church's finances. After considerable discussion it was decided to continue for at least another year, Mr. A. Newing kindly offering to canvass for advertisements. Arising out of the discussion though not connected with the subject a motion was moved for the formation of a Social Committee, the details of which were to be left to the Council.

## HIS EXCELLENCY VISITS GOVERNMENT SCHOOL.

### Holiday Farewell To Headmaster.

On Friday last His Excellency the Governor, who was accompanied by Captain R.H. Marshall, visited the Government School. His Excellency is the school's most popular visitor, partly no doubt because his visit usually means a holiday, but also because of the friendly and personal interest he shows in the pupils and their work; his manner is so kindly and unofficial that the children seem to feel no nervousness.

An amusing case of presence of mind was shown by one little boy who was explaining to the Governor an imaginative forest he had just made of the shooting of King Rufus in the New Forest. The boy said that these were the trees and that was the bow and arrow. The Governor then asked "But where is King Rufus?" to which the boy promptly replied "Behind that tree, Sir."

After all the classes had been visited the school was assembled and His Excellency addressed the children, telling them that he had come down to extend the good wishes of all present to the Headmaster for a pleasant leave. His Excellency hoped that both teachers and pupils would do all they could to assist the Acting Headmaster, Mr. W.J. Davies, in the difficult and responsible work of conducting the school during the coming months. After reminding the boys of the wonderful chance that was at present being offered them of joining the Navy, His Excellency gave a whole holiday for Wednesday, the 30th April, the day the homeward bound mailboat is expected.

Mr. A.R. Hoare, The Headmaster, responded, expressing his appreciation of the honour done to him by this visit, and called for three cheers for the Governor. The school has a reputation for its capacity in this matter, but it can be safely said that the cheers on this occasion exceeded its loudest previous effort.

### FRIDAY'S DANCE.

Members of the Hockey Club and their friends spent a very enjoyable evening in the Town Hall on Friday evening when a pleasant dance was held, organised by Miss S. Summers, Miss W. Bonner, Mrs. Bowles, Mrs. Rose Fleuret, and Miss M. Davis. Mr. W.D.A. Jones kindly acted as M.C., and Mr. J.F. Summers was responsible for the refreshments, the bands providing the music being "The Melody Sheiks" and "The Jazz".

A feature of the evening was the Quick Polka Competition Dance but after over half an hour the pianist tired before the enthusiastic dancers who had to draw for the prize which went to Mrs. B. Reive and Mrs. Jennings. Mr. Martin Creece obtained the Cinderella Dance prize while those for the Spot Dances went to Mrs. J. Bowles and Miss F. Jones, and Miss D. Walker and Mr. McIntosh.

HARROD'S HANDWRITING COMPETITION.

Papers To Be Sent Home By This Mail.

Twenty-two specimens of handwriting executed by scholars of the Government School are being sent Home by the Orita to be entered for the Harrod's Challenge Shields Competition which is open to children under fourteen years of age.

This praiseworthy movement to engender enthusiasm for good handwriting was first promoted for the benefit of pupils in schools in Great Britain but through the enterprise and keen interest of His Excellency the Governor arrangements have been made with Messrs. Harrod's whereby the children of the Stanley Government School were allowed to compete. Two trophies are being awarded; one for a team of eleven girls and the other for the same number of boys.

If there is one thing the Stanley school children can claim to their advantage it is their ability to write a good, round and legible hand and their efforts, even if not successful in securing the trophies, must assuredly open the eyes of the examiners as to the merits of young Britishers in this distant spot of the Empire, particularly since the average ages are only 11 years and 10 months for the girls and 11 years 7 months for the boys.

The names of our little competitors to whom we wish every success are :-

CUP FINAL.

Arsenal 2 : Huddersfield 0.

The Arsenal won the final of the Association Football Cup Competition which was played at the Wembley Stadium on Saturday before 93,000 people. His Majesty the King, accompanied by the Duke of York, was present and received an enthusiastic reception. It was the first sporting function the King had attended since his illness.

The "Daily Mail" reports that the game was a great match and above the average standard of the recent Cup finals. The Arsenal owed their brilliant victory to the superiority of their forward play together with a dazzling display by James.

Huddersfield were slow off the mark but when going Jackson and Davies were particularly dangerous and nearly pulled the game out of the fire. Huddersfield played magnificently and were very unlucky on several occasions but the Arsenal had more incisive forwards and a better defensive plan. Huddersfield were the better team in the second half but could not push home their attacks.

Parker the Arsenal captain said "We had to fight hard" while Wilson, the Huddersfield captain said "We played our best football but the Arsenal played better than we expected." The teams dined together in the evening.

The German monster airship passed overhead bound for Cardington during the game and dipped in salute to His Majesty the King.

In moving the adoption of a Bill to regulate the speed of motor traffic in the town of Stanley, the Hon. Colonial Secretary pointed out that there was no legislation in the Colony giving the police powers to deal with motor traffic which may be dangerous to the public. In view of the increasing number of cars coming into use in the Colony it was desirable that a Bill should be passed before damage had been done and it was too late. Included in the clauses of the Bill which was approved there was one concerning the speed limit and was couched in the following terms "No person shall drive or cause or permit to be driven any motor car at such a speed as to be a danger to the public health and safety." The term "motor car" included a motor cycle and any vehicle propelled by means of mechanism within itself.

The Bill provided for the penalty of a fine not exceeding £50 or imprisonment with or without hard labour for a period not exceeding six months, or both fine and imprisonment, being liable on conviction.

The question of passing an Ordinance protecting flocks of breeding ewes from the persecution of dogs which might be passing through breeding paddocks close to or during the lambing season, was raised by the Hon. Colonial Secretary who said he had been approached on the matter by the Hon. G.J. Tolton and the request appeared to be reasonable. If an Ordinance was enacted he thought it might take the following form "To prohibit any person taking with him dogs through the Camp belonging to any other person without the permission of such owners during the months of August, September and October" and, in the opinion of the Hon. W.H. Luxton, November as well. Members expressed their approval and leave was granted to bring the matter before the next Legislative Council Meeting.

His Excellency the Governor said that he had been advised that, at the present time, the question of gun licences was very unsatisfactory and that it was a very difficult matter for the Hon. Colonial Treasurer to collect the taxes. Besides that the Government had no knowledge of what lethal weapons were in the Colony. He believed that the Falkland Islands was the only British Colony where no check was kept on the number of rifles and such weapons imported. His Excellency put to the Council the suggestion that every owner of a gun or revolver should be registered and should take out a small licence.

In reply to a question the Hon. Colonial Secretary said that there was no taxation on the importation of a gun but a licence costing 10/- was required by anyone carrying or using a gun. The Hon. Colonial Secretary begged leave to bring a Bill forward on the subject at the next Meeting of the Legislative Council and this was granted.

FINDING A CURE FOR SEA SICKNESS.

Tests On a Curious Chair.

The Commission set by the Cunard Line to investigate the cause and to seek a cure for sea-sickness completed its voyage on the Aquitania last week, and acquired interesting data from the tests made on 180 passengers.

Dr. Gwynne Maitland, Medical Superintendent of the Line, was in charge of the Commission and had the assistance of Dr. Martin Flock, the Medical Director of Research R.A.F., Dr. Marrack of a London Hospital, and Major Reid an Aeronautical expert.

One of the tests was with a curiously shaped chair screwed to the deck and revolving on a moveable plate, the movements resembling the motion of a ship in heavy weather. The subject was seated and told to depress the head and was then spun rapidly round.

In many cases only a few spins were necessary to produce unwelcome symptoms and then a rapid examination of the patient was made and the results tabulated.

KAYE DON STILL HOPEFUL.

Kaye Don is still convinced that the "Silver Bullet" when a few modifications are made to the carburation and supercharging system, will be capable of beating Sir Henry Seegrave's record. If he does not think Daytona Beach suitable for his further attempt he will consider going to Verneuk Pan, South Africa, - a huge plateau with tremendous possibilities as a speed track discovered by Captain Malcolm Campbell.

LACE TROUBLES.

Mr Snowden And The Safe Guarding Duties.

Delegates of the Scottish Lace and Textile Workers Union have arrived at Nottingham for a Conference with the British Lace Operatives Federation to discuss the Government's decision to revoke the lace safeguarding duties.

Mr. Patterson, the president of the Federation and one of the delegates said "The question is even more serious for the Scottish lace workers than the English, for the lace industry in Scotland is concentrated in the Irvin Valley and it is the only industry there. If it is taken away there will be nothing left.

"When safeguarding was proposed most of us including myself opposed it. But now we can see that it will protect the interests of workers we are for it. It has kept the trade steady. Mr. Snowden's threat to discontinue the duty has already had disastrous effects."

Later the Executive Federation held a meeting at the close of which it was announced that a mass meeting of operatives in Nottingham would be held at an early date.

**BARGAINS FOR EVERY MEMBER OF THE FAMILY**

Never before have we been able to offer such remarkable values. Here in the centre of the world's largest industrial area, we get the fullest benefit of the keenest manufacturers' prices. Prices of all goods are at a lower level than they have been for years. Added to that, our orders are of such magnitude that manufacturers compete eagerly for them; and when they are assured of months and months of steady production they are able to keep all costs at astoundingly low levels and so are able to quote us amazing prices. Following our usual practice, we pass on the benefits to our customers. It is a good time to buy for every member of the family.

**OUR CATALOGUE is Full of Bargains for every member of the Family.....FREE**

The Postmaster, Port Stanley, will gladly hand you a copy of our Money-saving Catalogue on request

The Catalogue will save you pounds on clothing, underclothing, footwear, etc. for every member of the family.

THE DEPARTURE OF "STANLEY".

After a week's sojourn in the temporary shelter on the Government Jetty "Stanley" the young male sea-elephant on the "Orita" yesterday for his destination - the London Zoo. At first he was rather impartial to food away from his natural element but under the patient management of his newly found friend, Mr. A.G. Bennett, who is superintending the removal of the animal, he has regained an excellent appetite and for the short journey up to Monte Video 150 pounds of fish have been placed on board for his food.

CONFIRMATION IN THE WEST.

Through the kindness of the Hon L.W.H.Young, the Manager of the Falkland Island Company, His Lordship the Bishop was given facilities for paying visits to a few of the camps. He left in the "Falkland" and arrived at Saunders Island at Midday on Tuesday the 22nd. Here he was met by Mr Benney and in the course of the afternoon he consecrated the station Cemetery.

In the evening he Confirmed the following in Mr. Benney's house. Harriet May Felton, Ellen Clara Felton, Arthur Alfred Felton, and Edward John Biggs. These had been prepared by the Rev. S.E.E. Aylward. At 6.30 a.m. on Wednesday he celebrated the Holy Communion which was attended by others besides the candidates.

Later in the morning the "Falkland" having returned from Hill Cove the Bishop proceeded to San Carlos South where he arrived after dark. He spent the night at the house of the Hon. George and Mrs Bonner and left later for Fox Bay East. Here he consecrated a new cemetery and visited practically all the people. Having spent the night at Mr & Mrs Jobb's house he left about 6 a.m. for North Arm. Visitation and two Baptisms took up the available time. Mr and Mrs Harding who looked after the party there dispatched them before 5.30 a.m. and they sailed for Goose Green and Darwin. Every house was visited in both places and Mr and Mrs Slaughter kindly gave the Bishop and the others with him accomodation for the night. The Bishop with Mr Aylward organised a Celebration on Sunday morning last which was largely attended and an Evening Service at Goose Green which was attended by some men in Goose Green and some from Darwin. At 6 a.m. the last part of the journey took place and they left for Fitzroy and Stanley arriving there at 4 p.m.

THE "N.R.A." AND THE "PENGUIN."

In a February issue of the National Rifle Association's Journal the following interesting notice appeared :-

"We have received two numbers of a most interesting paper. The Penguin which is the official organ and, we believe, the only newspaper published in the Falkland Islands. It is a daily, and the cover is printed and contains advertisements; the interior consists of four sides of duplicated typewriting.

The issue of November 5th and 6th, which we have, contain an account of the welcome home of the Bisley team and the speech of His Excellency the Governor, and also a transcript of the broadcast talk of the team captain.

"Yes, Falkland Islands has a broadcast station. The issue of November 6th gives the night's programme. It runs from 8 p.m. to 9.30 p.m. and gives two talks, a recitation and some music. We know the fellows from the Falklands, and we know His Excellency.

"Next time the team comes to Bisley we hope they will meet with the success their pluck deserves. To shoot in July, they left home at the beginning of May, and did not arrive home until the beginning of November.

INDIAN TROOPS' CONDUCT.

Official Statement.

Disquieting development of unrest which is rapidly spreading through out India is revealed by the following communique issued by the Government of India and circulated in the India Office, London.

"In view of the possibility of exaggerated and misleading rumours the Government of India think it advisable to make it known that during the recent disturbances at Peshawar when troops had to be employed the conduct of a small element, namely two platoons of the Second 18th Royal Garhwal Rifles was found to be unsatisfactory. The battalion has been sent to Abbottabad where an enquiry will be held in due course."

The fact that messages sent from India have been subject to censorship accounts for the news not having been known before. The regiment which is formed of Indian infantry served in France, Egypt and elsewhere during the European War.

FRENCH AND GERMAN RIVALRY.

Dr. Bokener's announcement that the Zeppelin Organisation is planning a regular air service between Germany and the United States has stirred the French to renewed efforts.

The French experts pin their faith to heavier-than-air craft and are not inclined to advocate the heavier expenditure entailed by airships. M. Laurent Cynac, the Air Minister, has been conducting important negotiations in London for the establishment of air lines between London, Paris and the near East. An agreement regarding these liners is imminent.

THE GRAF ZEPPELIN OVER WIMBLESY

Spectators Protest.

There has been lively comment over the week-end regarding the low flight of the Zeppelin on Saturday over Wembley Stadium while the Arsenal and Huddersfield cup final was in progress.

The "Mail" understood that the flight originated from Doctor Bokener who was anxious to show the ship to the people of England. He has recently returned from the United States to London and conceived the idea of having the Zeppelin sent to England to pick up his wife and himself at Cardington.

The Air Minister gave permission. Captain Lehmann who commanded the Graf on its flight from Friedrichshafen and who flew over London in war-time air raids, dipped the ship over the stadium when he was informed that the King was present at the match and flew so low that spectators could distinguish the people in the ship. Some of the spectators protested.

Phil Scott signed an agreement on Wednesday to fight Young Stribling, the American heavyweight at Clapton Open Air Stadium on June 10th. Jeff Dickson is promoting the fight and although the amount of the purse is not disclosed the "Daily Mail" boxing correspondent believes himself to be very near the mark when he says that Scott will receive 25,000 and Stribling 23,000. A gate of 40,000 is expected.

NEW MOSCOW MOVE.

Continued Campaign Against Britain.

One of the latest moves of the Moscow Bolsheviks in their intensification of the campaign of hate towards Britain and the spread of poison in the form of propaganda has been to send beautiful women agents to London over the last week-end. These women have friends in every grade of society.

Thanks to the concessions of the Socialist Government the Russians have re-established their poison centres and sent back to Britain people who were expelled a few years ago. One of these latter can be seen any day in the West End carrying on propaganda under the guise of philanthropy, being plentifully supplied with money.

The eastern colleges of Russia are turning out trained propagandists to undermine Britain's Eastern possessions and news from India shows that they are succeeding.

As she careered away she smashed a boom on the West Jetty and then fell foul of the yacht Sirena, smashing the smaller boat's mast, before finally grounding near the Public Jetty.

"Stanley,  
April 29th, 1930.

Your Excellency,

As Bishop of the Diocese I wish to thank you as heartily as I can for the part you have taken in promoting what is a great public benefit in the installation of the electric light in Christ Church Cathedral.

The Dean also wishes to identify himself with this little tribute of grateful acknowledgment of another of the little tokens that you, as Head of the Government, wish to make the services of the Church as efficient as possible.

With renewed thanks,  
I have the honour to remain  
Yours faithfully,

## INDIAN GOVERNMENT WAKING UP.

### Gandhi To Be Stopped.

It is revealed that Gandhi, the leader of the Independence Campaign in India, is trying to raise an army of 100,000 volunteers to support him in the great Civil Disobedience Demonstration in Bombay.

From Karachi come persistent reports that the Government of India decided that Gandhi's activities are to be stopped. If he carries out his threat to raid the State controlled salt depot at Dharsana he will probably be arrested there.

Arrangements have been made for joint action by the Government of India and the Bombay Government to cope with any emergencies that may arise.

It is clear that Gandhi's efforts to force the Government to concede Dominion status before the issue of the Simon Report is failing and he is deliberately trying to rouse the puzzled masses of the people by every means in his power to rise against the King.

On Thursday a tardy manifestation of the power of the Government had a salutary effect at Karachi for the agitators who led the recent rioting have died down in their activities which are now almost wholly confined to Congress Members.

## WOMEN'S GOLF.

### Progress Of Match At Sunningdale.

The "Daily Mail" Golf correspondent says that the meeting of the captains of the British and American ladies golf teams on Thursday at Sunningdale, Berks, resulted in a most desperate struggle in which Miss Courlay beat the English captain, Miss Collett, in a match which was produced some of the finest golf ever seen in a contest between women.

Each player went round the course in seventy-five strokes. Miss Gourlay owed her success to a fine recovery at the end by playing six magnificent wooden club shots which clinched the game. Miss Collett fought valiantly against a thrilling finish by her rival.

Helen Hicks, the baby of the American team, was beaten by Jean McCulloch, the former Scottish champion, who lost many yards from the tee but recovered ground as she neared the hole.

SOVIET ACTIVITIES UNEARTHED.

Red Conspiracy In U.S.A.

The "Daily Mail" correspondent from New York relates that a conspiracy by the Red masters of Russia to foment a revolution in the United States through the Communist Party has been revealed during the past few days in documents published by Police Commissioner Whalen of New York.

In the opinion of the police the documents provide the most sensational revelation since the German Secret Service files were seized there during the war. Some of the documents were brought into the United States under a diplomatic cloak and were not subject to inspection. Others were found in the pockets of Russians travelling privately.

Mr. Whalen states that the attention of the police was drawn to the Soviet subversive propaganda through complaints being made by the United States Labour Department concerning the number of unnecessary and violent strikes.

The New York police made investigations and found that the Communist International at Moscow was directly operating in the United States through certain agencies with headquarters in New York, fomenting strikes, riots and disturbances both there and in other parts of the country.

### GANDHI FIGHTS SHY OF BOMBAY.

#### Congress Invitation.

More secret conditions laid down by Gandhi, the leader of the Indian Independence Campaign in reply to the Congress War Council's invitation to visit Bombay were made known on Friday. The Council have asked the fanatical leader to take charge of the local Civil Disobedience programme.

Apart from the demand for an army of 100,000 volunteers pledged to non-violence, Gandhi insists on the local supporters boycotting foreign goods including cigarettes and adhere strictly to the regulations governing eating and drinking. He imposed a diet consisting mostly of fruit and prohibits intoxicating liquors.

The War Council are holding a secret meeting to consider these proposals which are generally considered impossible of fulfilment. It is suggested that Gandhi made these purposely as he does not want to visit Bombay.

But the application of the enforcement of the Prevention of Seditious Meetings Act in Peshawar and the north west frontier province illustrates the gravity of the Indian unrest. So far no decision has been made to strengthen the British forces but the authorities are prepared, if a request is made, to place in readiness more Border troops..

The Bombay branch of the European Association has asked the Governor, Sir Frederick Sykes, to adopt a firmer attitude since they declare that the Law is being brought into contempt.

Ma Jinnah, the Moslem leader in Bombay, has advised his countrymen, particularly the Moslems to disassociate themselves from the Civil Disobedience Campaign. There have been a number of further arrests in the city.

### SAILORS V. SOMALIS.

#### Wild Battle At North Shields.

A wild battle between five hundred white seamen and one hundred Somalis took place on the New Quay, North Shields on Friday and was only ended by a police baton charge. A large number of arrests were made.

Knives and razors flashed and several men were wounded. The trouble began over the signing on of a crew for a ship named the Cape Verde for there had been a feud of long standing over the increased employment of coloured seamen.

As thirteen Somalis approached the shipping office the whites blocked the way and forced them off as result of which fierce fighting began.

The coloured men drew razors and knives and the whites fought with fists. One white was stabbed in the back and then the whites seemed to go mad and singling out the Somalis with knives and then. The police, with batons as arms, were drawn from the quay of the Tyneside. Fierce fighting continued and it was not long before order was restored.

THE CHURCH SALE OF WORK.

His Excellency the Governor

Looking For A Dinner Jacket Suit.

With the unusual buzz of bustling feet and the interminable chatter of bargain hunters ( and at such an affair too) The Town Hall was transformed into a perfect paradise for the shopper. yesterday evening when the first of the two-day Sale of Work in aid of the Cathedral was held. The opening ceremony was performed by His Excellency the Governor with the Very Reverend the Dean in the chair supported by the Colonial Secretary (the Hon. J.M. Ellis) and Mr. G.R.L. Brown (Assistant Colonial Secretary).

In introducing His Excellency the Dean pointed out that the funds of the Church were in low water owing to the various expenditures which had to be met. One was the installation of the electric light in the Cathedral. They felt deeply indebted to the Governor for granting permission for the installation and they had in His Excellency one who was always to the fore-front of a good cause and greatly appreciated from the Church point of view. He wanted to thank all those present on behalf of the Church Council and the large number of ladies and gentlemen who had been working for weeks and in some cases months, for the Bazaar.

In declaring the Sale open His Excellency explained that it was the third year he had had the honour of performing the ceremony. The Cathedral loomed large in the life of Stanley. And all of them took a great interest in its work and wished to see it well supported. He was very pleased indeed that through the excellent services of Mr. Byron and his electric light staff they had been able to install the electric light in the Cathedral. "Personally" The Governor added " in one way I regret it because I shall have to prepare myself with more care when I come to evening service and give my hair more attention with the brush.

Continuing the Governor expressed the hope that all present would spend freely in order to further the good cause. As they knew, the money collected that evening would be devoted towards defraying the expenditure incurred through the installation of the electric light and partly to the Sustentation Fund. He was sure they would all very much regret if they were to see the Dean and Mr. Summers fading away for the want of good nourishment. (laughter.)

His Excellency added that Mrs. Hodson had asked him to express her sorrow at not being able to make things for the stalls. As they knew, Mrs. Hodson was not very strong and was not allowed to do very much but she promised to make some garments and satchels for the Sale next year. (applause.)

MEDICOS GATHER TOGETHER.

Dr. Craddock Goes after 15 Years.

An event unique in the medical history of the Falkland Islands was the meeting of all the medical men in the Colony at the Principal Medical Officer's quarters in Stanley on Friday last. The whole faculty gathered together in friendship and goodwill and spent a pleasant hour discussing the Principal Medical Officer's hospitality and various aspects of medical life in the Falklands.

The gathering extended to Dr. J.F. Craddock best wishes on his retirement after fifteen years valued services in the Islands during which he has been Acting Colonial Surgeon and Medical Officer to the West Falklands. At the same time Dr. Craddock's work has erected in the memories of his grateful people a monument more lasting than brass. A hearty welcome was extended to Dr. D.T. McGibbon who has taken over Dr. Craddock's duties on the West Falklands.

Those present were Major the Hon. J. Innes Moir M.B., Ch.B., D.P.H. Aberdeen (Principal Medical Officer), Lieut. W.R.B. Jones M.R.C.S., L.R.C.P. (Medical Officer), J.F. Craddock M.R.C.S., L.R.C.P., and E.A. Wilson, M.B., Ch.B. Glasgow (Medical Officer Falkland Islands Company Limited), D.T. McGibbon M.B., Ch.B. Glasgow, (Medical Officer, West Falklands.) The wives of the Medicos were also present and rumour has it that they enjoyed a discussion on the ever new topics of housekeeping, maids and the all important question of clothes.

This amicable gathering of the British Medical Association in the Falkland Islands and their good ladies will, it is felt, consolidate and help on a good medical understanding and the progress of the work in the Islands.

Shortly after leaving South Georgia on the 1st instant, the whaling factory "Southern King" sighted an iceberg 150 miles in length. The vessel set out for her homeward journey at noon and has as passengers Major Hay of Seaton, Miss Hay and Miss Dawson.

---o---o---

"As a matter of fact, the Governor continued, "I did not intend to spend much this evening but I saw the Honorable the Colonial Secretary the other afternoon passing down the road with a paper parcel under his arm and he said to me 'I am taking an excellent dinner jacket suit to be sold at the Bazaar' - and as my own dinner jacket suit is worn out I have come here to buy it if anyone doesn't buy it up before me." (laughter and loud applause.)

In conclusion His Excellency thanked the ladies and gentlemen who had done so much to assure that the Bazaar would be a success.

A list of the stalls and stall holders is given below. A further account will appear with the results of the competitions et cetera, in to-morrow's issue.

General :- Mrs. Gleadell, Mrs. Pallini, assisted by Mrs. A. Hardy, Mrs. A. Lellman, Miss W. Bonner, and Miss N. Lellman.

There is an unofficial rumour that the Town Hall is cracking in that part where the concert is taking place and that Mr. Davies with his troupe of fun makers have been up all night repairing the damage and reinforcing portions of the building in order that the full houses expected to-night will have no cause for alarm and find themselves in the midst of an explosion of laughter thrust from the jolly scene never to return to enjoy such another night of hilarity. (Pheew what a long sentence!).

NEGRO SINGERS.

ROUND LIVINGSTONE TOMB.

Forty men and women singers of the Hampton Negro Training Institute, Virginia, sang round the tomb of David Livingstone, the explorer, in Westminster Abbey after evensong on Sunday in memory of his services to their race. Doctor Foxley Norris, the Dean of Westminster welcomed the singers and with other clergy listened appreciatively to the beautiful singing of the choir. Hundreds of people pressed about the barriers which enclosed them. Doctor Nathaniel Dett conducted and the choir sang the characteristic anthem "Come Along Home".

SIR HENRY SEAGRAVE'S NEW ATTEMPT ON

WORLD SPEEDBOAT RECORD.

"Miss England II" and 120 Miles An Hour.

Designers are engaged on a revolutionary idea in speed boats. A gleaming monster with 4,000 horse power engines; driving a tiny propeller and moving at an incredible speed; steered by two rudders in the stern and with a bow streamlined of wood, steel and duralium; and with the tail of an aeroplane. This is the brief description of "Miss England II" in which Sir Henry Seagrave will attack the world's speed record on Lake Windermere in June. America holds the record with 96 miles an hour,

Interviewed Sir Henry Seagrave said that the boat cost over £25,000 and should be capable of over 120 miles an hour. "It is one of the most unorthodox speedboats yet designed. I hope to travel well over a hundred miles an hour with it but until it is tested in the water I cannot say how it will behave".

The boat is forty feet long and weighs four and a half tons. It has two Schneider Rolls Royce engines and will drive a screw of fifteen inches in diameter revolving at 12,500 revolutions a minute. Sir Henry said that no other seaboat has ever been designed that way and they were relying on the great strength of the hull and the duralium shield to withstand the strain.

GIRL'S SOLO FLIGHT TO AUSTRALIA.

Miss Amy Johnson, golden haired and pretty, left Croydon at dawn yesterday in a tiny moth 'plane "Jason" for Australia 22,000 miles solo.

She explained that the 'plane had been fitted with special tanks and delays have occurred so that she will now be flying through the monsoon tracks. "This makes the journey difficult she added" but I shall have to risk it. Behind the cock pit is fitted a cupboard for changes of dresses and travelling equipment. I have no wireless but am keeping in touch with my parents by telegraph." She is a member of the London Aeroplane Club and the only woman to hold a ground engineer's licence.

WHALING NEWS.

The Roald Amundsen and the Maudie left Stanley yesterday.

The Solstreif and the Salvestria, as far as is known, are still operating in the South Shetland waters and are waiting instructions from home before they finish fishing. We understand that the weather at the South Shetlands during the last fortnight has been exceptionally bad and that whales have been very scarce. It is said that the water temperature is much colder this season than it has been in the past seasons at this time of the year. Small patches of sea ice are beginning to form in the Brandfield Strait to the south of Deception.

The Solstreif is definitely expected to call at Stanley on her way to Europe at the end of the week or the beginning of next.

NEED FOR EXAMPLE.

The Dean And Parental Control.

"Parents, what example do you set your children? Do you encourage them by your example to 'walk in the fear and admonition of the Lord'? If not, what right have you to complain if they cause you pain and anxiety by their conduct?" In such trenchant words did the Very Reverend the Dean speak during the course of his sermon in the Cathedral on Sunday evening.

"Now and then" he went on "we come across parents who are well nigh broken-hearted over some sin or scandal committed by their son or daughter, and, of course, we are profoundly sorry for them. Their grief is all the more intense when they know, in their heart of hearts, that they might have set their children a better example.

"There are parents who never enter the House of God, who never pray, who never read their Bible, who are, apparently, although they say otherwise, indifferent or careless as to where their children go, and with whom they go, who show no signs of religion in themselves, and then are surprised and distressed when they learn that their child's conduct is far from satisfactory. A tightening up of parental control is badly needed in this place, and what is even more urgently needed is a better example from a vast number of parents.

"Young people need the strength and guidance of religion to help them keep right, and if parents show no religion in themselves; if they are indifferent as to whether their children have any religion, their remorse must be intense when they find trouble in their family which they themselves might have prevented by a better example.

"What about the young people themselves? There are many here to-night. If you have parents who set you a good example thank God for it, and sometimes thank them for it. But if you feel you do not get much help in the way of example from your parents do not despise them, but try and do better than they. You may lead them to better things. There is many a man and woman who owes his soul, humanly speaking, to the example and encouragement of his child. And never think for a moment that you can excuse any of your wrong-doing by saying that your parents do not set you a good example.

"Immediately we know right from wrong, at about the age of seven, our sins are our own, and the responsibility is our own. Some of the greatest saints in history were children of wicked parents; and although, of course, your parents can help or hinder you so much, yet, whatever they are, you have the voice of God in your conscience within you, and if you follow that you will not go far wrong. Example is better than precept; a good example is an argument which everyone can understand; and none of us is so insignificant but what our example counts."

WEST STORE NEWS AND CHIT CHAT.

Our Bi-Weekly Chatterbox.

SWIMMING THE CHANNEL.

We have received information regarding another attempt to swim the Channel. The well-known philanthropist, Hiram P. Bunk of Chicago is assisting financially. Our representative interviewed Mr. Bunk recently and obtained the following statement :-

'While at Miami, on vacation, I met a fellow countryman, Mr. Silas W. Immer who was just the best swimmer I have ever seen. Mr. Immer loves the water as it is the only liquid in America in sufficient quantity to alleviate his continual thirst. Mr. Immer is now in England and his training programme will be as follows :-

'Every day he will make a visit to a whiskey distillery and imbibe three samples. This will give him a taste for whiskey for, being an American he will know nothing about liquor. These visits will continue for a month, each successive sample being better than the previous. It is obvious that the final visit will be to the Johnnie Walker distillery. After tasting so much 'fire-water' Immer will realise that life is worth living only when Johnnie Walker is in the vicinity. The moment this fact dawns on him his whiskey allowance will be stopped and he will be carefully guarded to see that he obtains no liquor of any description. On the day he enters the water at Dover I shall be sitting in the stern of the motor-boat, with a bottle of Johnnie Walker in my hand, keeping just ahead of him. I think we shall require a very fast motor-boat.'

Mr. Bunk is apparently a good judge of whiskey. Are you ?

It's very simple; you merely take a drink of Johnnie Walker and you realise that it is impossible for any whiskey to be better.

GANDHI ARRESTED.

Taken To Prison Secretly.

A profound impression has been created by the arrest of Gandhi on Monday. The action was carried out in the greatest secrecy after the fanatical leader had addressed a meeting at Sarat and had returned to his camp at Karachi. In the early hours of the morning he was awakened by the light of an electric torch which was flashed into his face by the police superintendent who arrived from Jalalpur with the district magistrate and twenty armed police.

Gandhi was taken in a motor-lorry to Naysari where the Gujeat mail train was stopped by a previous arrangement. Twenty miles from Bombay Gandhi was transferred to a motor car with pink blinds drawn over the windows presumably to give the impression that it was a purdah or veiled woman's car, and he was driven to Yeroda gaol.

SERIOUS POSITION IN CAPE COLONY.

Bloodshed At Worcester.

Unrest which has been growing for months in the western districts of the Cape Province, South Africa, came to a head on Saturday with serious encounters resulting in blood being shed in Worcester, sixty miles from Cape Town, where seven non-Europeans were killed and thirty injured.

The fight followed a meeting urging non-Europeans to "no longer endure oppression and slavery." The police attacked and when arresting armed natives one constable was stabbed and another was shot dead. The police then fired on the mob. The crowd fought back and the police commander was seriously injured by an axe. The police then charged with fixed bayonets. Armed police farmers and others arrived in the expectation of further trouble and aid is being sought from Cape Town.

PHOTOGRAPHER'S "SHOT."

The Hon.G.Roberts' Rare Prey.

On Sunday whilst out on a photographic ramble, the Honourable G. Roberts came across a very fine specimen of a King Penguin. He managed, with the assistance of a friend, to secure some good photographs of the bird in different positions.

It is only on very rare occasions that this beautiful specie of penguin is to be seen here as its home is on Staten Island and South Georgia.

We have before us a copy of one of the photographs taken, and can congratulate the Hon G. Roberts on having secured such a life-like picture. The bird, we understand, is from 36" to 38" in height, is the second largest specie, and can be distinguished by the orange patches on the side of the head and a band of the same colour on the forehead. It has a long black pointed bill, with the base of the lower mandible red.

This specie lays but one egg a year, and breeds between October and March; whereas our well known Gentoo and Rocky lay from 2 to 3 eggs and breed between September and December. It is to be hoped that we shall have more such visitors and that they will breed and eventually make their home here.

ARTIFICIAL WOOL.

Australian Criticism Of New Fabric.

Mr. J.R.Fenton, Australian Minister for Trade and Customs, who has just completed a tour of West Riding textile factories, technical colleges, and research centres, when at Leeds was shown cloth made from artificial wool.

Asked his opinion on the new fabric, he said: "Wear that next to your skin for twelve months and you would be with the doctor for the rest of your life."

The Australian wool-growing industry has suffered from the increase in the popularity of artificial wool fabrics.

When in Bradford on Friday Mr.Fenton received, on behalf of the Australian Government, the memorandum drawn up by the Yorkshire Tariff Committee regarding the recently imposed Australian duties on yarns and cloth. The memorandum contained representations by the Yorkshire manufacturers on the duties, which are stated to be prohibitive, and made suggestions as to their alteration.

The memorandum is to be placed in the hands of the Australian Premier, and will be considered by the Australian Cabinet.

"Daily Mail" reporter met Fairbanks who said he was labouring under a great subterfuge. "I came here on business" he whispered "but it is really golf I am crazy about it. I took it up in England about three years ago and now, during the season, I am at it all day."

He expressed a wish to take part in the St. George's open scratch competition at Sandwich on Saturday and he said he was going to see the Walker Cup British Open Championship.

RACE TO SAVE CHILD'S LIFE.

By Air, Car and Train.

A dramatic race by air, motor car and train to save a child's life was completed on Tuesday in Egypt. A resident in Cairo whose child has developed symptoms of spinal infantile paralysis and failing to find in Egypt the only possible cure sent for the special serum from Paris and a chartered aeroplane was dispatched in order to catch the Egypt bound air mail at Vienna. The 'plane arrived too late so chased the train to Budapest where the packet was transferred.

The air mail was delayed by bad weather and reached Alexandria - where the father was waiting - ten minutes too late for the Cairo train. The packet was sent by car to a station outside Alexandria where the train was stopped specially. The serum therefore reached Cairo within the believed effective period.

DEFENCE FORCE GENERAL MEETING.

Praise For Capt. D.R. Watson:

New Commanding Officer And Adjutant Introduced.

A general meeting of the Defence Force was held in the Club Room on Wednesday evening when the Hon. J. M. Ellis (Colonial Secretary) presided supported by Major the Hon. J. I. Moir, Lieutenants W. M. Allan, W. R. B. Jones, and J. Morton. There was also present a large gathering of the force approximately forty in number.

In his opening remarks the chairman said that there was no necessity for him to introduce to the members of the Force their new Commanding Officer, Major the Hon. J. I. Moir and the new Adjutant Lieutenant W. M. Allan as they were already well known to each other. He wished to pay tribute to the valuable work done for the Force by the late Commanding Officer, Captain D. R. Watson. He felt that he said everything when he said that the new Commanding Officer took over the Force from the late Commanding Officer in a very flourishing condition, both as regards numbers and efficiency. He added that His Excellency the Governor had wished him to convey to the meeting his good wishes and his great interest in the future developments of the Force in the way of shooting, Field Day and the like. They all knew that His Excellency's kind message was not mere words but that His Excellency meant what he said.

The chairman then referred to certain reports that had reached him with regard to unpleasant occurrences from time to time in the Club. He asked the members themselves to put their own house in order and not make it necessary for him to have to interfere in the domestic matters of the Club.

In conclusion he thanked them for the honour and pleasure they had done him in asking him to take the chair that evening and he assured them that he was ready at all times to do anything he could to further the interests of the Force.

Major Moir in a few well chosen words referred to His Excellency's well-known enthusiasm for everything concerning the welfare of the Force and thanked the chairman for his remarks. He said that he was proud to be the Commanding Officer of the Force. He reminded them of the high name won by His Majesty's Territorial Troops during the war and exhorted them to live up to that high name both on and off parade, in uniform and in multi. He expressed his confidence in the continued progress of the Force and the sustained keenness of the members.

Mr. Allan gave a detailed account of the work of the Force and how it had progressed during the last year. He also detailed the policy as to the future training of the Force. In his remarks about recruiting the Adjutant expressed the hope that he would be able to bring the strength of the Force in Stanley up to a hundred members. Mr. W. Cooper who has been a member of the Club for many years and was an ex-Sergeant-Major of the Regular Army had joined the Force and he hoped that such a praiseworthy example would be an incentive for the young men in the town to come forward and join up. He referred also to the proposed formation of a Miniature Rifle Club in the Force on the lines of the Rifle Association.

After a short discussion the meeting closed.

---o---

We understand that the proposal to establish a Miniature Rifle Club has now received His Excellency's approval and steps are being considered to bring the club into being at an early date.

Algernon.

"Oh yes, all their prices are low; I see their advertise icing sugar at 1/4 for 2lb.tin.personally I prefer the West Store to any other"

Mr. Jones.

"H'm, I must let Mrs Jones know. Apparently she has not been buying from the cheapest firm.I am sorry to have interrupted you with this sordid talk of prices and bills, but you certainly have taught me something about economy. I suppose you must have saved quite a little sum of money?"

Algernon (proudly)

"Oh,quite, I now have over £500 in the bank".

Mr Jones.

"Very nice, In that case you may perhaps be able to lend me, say ten pounds to pay this bill."

THE GANDEI SCOURGE.

Outbreaks In Delhi.

A particularly brutal attack was made by the mob in Delhi on Wednesday when three police lorries were attacked when returning to headquarters.

The first two lorries though severely stoned reached the police station but the third was cut off and marooned in the midst of the mob.

To rescue the occupants of this vehicle the senior superintendent led a charge from the police headquarters. The mob thereupon hurled stones and bricks from the Sikh shrine next door and the only means the police had of protection while rescuing their comrades in the lorry was to open fire with buck shot.

This was the only means of rescuing those in the lorry and that at the cost of six police casualties.

FROM TEAL INLET TO STANLEY BY CAR.

Mr. R. Greenshield's Achievement.

After travelling for eight hours Mr. R. Greenshield's drove his Citroen car from Teal Inlet into Stanley yesterday arriving just before 3.0 o'clock in the afternoon after starting out just before 7.0 in the morning. With him were Mrs. Greenshields, Mrs. G.J. Felton, and Mr. P. Anderson of Teal Inlet who acted as guide. And it is the heartiest congratulations we extend to him on his noteworthy accomplishment of a journey fraught with the perils of a treacherous track which was liable to dangerously bog the intrepid adventurers at any moment. Modesty, ever a pronounced characteristic of Mr. Greenshields, prevailed over his pride of such an achievement and his first thought on arrival was the care of his car.

It is a high tribute to Mr. Greenshields' skill as a driver and Mr. Anderson's acumen in picking out a track - for it was not possible to keep to the ordinary horse track - that not until almost in Stanley were the passengers obliged to dismount in order that the Citroen might get through. Even then it was only for a short distance.

Through glasses the travellers were seen approaching an hour or two before their triumphal entry into the town. Their progress was tedious but the car withstood the journey well and a horse could not have arrived sooner. When starting up for its resting place in one of the warehouses of the Globe Store the purr of the engine and the smooth movement of the vehicle as it left Mr. Grierson's suggested the beginning of an afternoon's pleasant ride instead of the end of a long, difficult and not to say exhausting effort. But it was only from mass of bog adhering to the caterpillar wheels that it was obvious tremendous difficulties had been encountered.

This is the first time a car has been brought into Stanley from Teal Inlet but we understand that the journey has been made before on two occasions by the Hon. G.J. Felton in his Citroen lorry. Mr. Greenshields attempted to get through from Teal Inlet on Tuesday but when he arrived at the Male it was found that one of the front axle springs was broken and there was nothing for it but to retrace their steps to Teal Inlet where another spring was made.

SOVIET RENOUVEAU IN LONDON.

Another Exit ?

Messages have been received by the "Daily Mail" from Berlin, Paris and Brussels which show that the diplomatic circles in these Countries are much concerned over the information about the Soviet happenings in Great Britain. In London, however, there is nothing but calm.

The "Mail" Political Correspondent says that "On making inquiries in London I ascertained that it is quite possible that not only may a number of the staff of the of the Soviet Embassy but other Soviet departments be re-called but that the ambassador M. Sokolnikoff, is in danger of accompanying them.

"The Soviet correspondents have, apparently, fallen foul of Sokolnikoff who, I understand, has asked them in a friendly way to refrain from attacking British Government policies and particularly individual ministers until the treaties, now being negotiated, are ratified.

"I understand that further trouble awaits Sokolnikoff, from the OGPU's agents who recently made an attack on the Embassy in their reports."

FAMOUS CLUB DIRECTOR DEAD.

Former Butler's £125,000.

Luigi Nainiro, the Managing Director of the Embassy Club, Bond Street, London, collapsed in a taxi several days ago and died in his flat of heart failure.

Luigi was the presiding genius of Clubland. To thousands of famous men and women who counted themselves his friends it is as though part of London gaiety had died with him.

London first knew him thirty five years ago when he left his native land - Italy - to seek his fortune. He started by becoming an assistant butler at Hampstead at the salary of six shillings a week. Later he made £125,000 out of the Embassy Club.

He was a great gambler and was often to be seen at Monte Carlo.

THE BEGUM AGA KHAN.

To Be presented At Court.

It is reported from Paris that the Begum Aga Khan, formerly Mlle. Aurélie Carron, the wife of the Aga Khan whose romantic wedding in 1879 at Aix-le-Bains created great interest, is to be presented at Court in June.

The Begum spent last Wednesday shopping in Paris accompanied by her husband. She ordered a magnificent white silver brocade gown to be worn at Buckingham Palace and purchased a diamond tiara.

"HELLO - HELLO."

London Conversation In Canadian Train.

A telephone conversation was carried on recently for the first time between London and a train in Canada travelling at sixty miles an hour. In the London office of the Canadian National Railways, Mr. J. Smith, the European Vice-President, exchanged greetings with Sir Henry Thornton, the President, who sat in the "International Limited" running between Montreal and Quebec.

Mr. Smith said that he heard Sir Henry as though he were in the next room and he spoke to about six people on the train. The conversation was at first distinct but later fading took place and noise interfered. Greetings were also exchanged with a number of pressmen. Arrangements had been made for the Premier, Mr. Ramsay MacDonald to speak to Sir Henry Thornton but fading and atmospheric intervened before the land-line could be linked up.

The conversation between Sir Henry Thornton and Mr. Smith was about the weather which was good at both ends.

BAN ON IMMIGRANTS.

Canada And Southern Europeans.

A five years ban on Central and Southern European immigrants was suggested by witnesses who appeared at Prince Albert recently before the Saskatchewan Government Commission on Immigration.

They declared the fact that the present conditions permit the entry of seven non-English speaking persons to every Briton. Archbishop Walter Burd claimed that given a fair wage and decent living conditions a Briton could do as hard a day's work as any man with a sheepskin coat.

PROTESTS AGAINST AMERICAN TARIFFS.

Representatives of the Watch-making Industry and workers of the Trade Union at Geneva have followed the lace makers example by vigorously protesting against the proposed increase in the American tariffs.

Resolutions were passed several days ago urging the Swiss Federal Government to impose heavy duties on parts of watches exported to the United States and which are indispensable to American manufacturers.

Should the new tariff be maintained it was declared that a boycott on American motor cars, typewriters and other goods should be organised in Switzerland.

France's recent threat to impose high duties on American imports resulted in the United States lowering by 3.0 per cent the proposed import duty on lace.

RADIO PROGRAMME.

The programme for this evening's Broadcast will consist of a selection of music from the Electrical Reproducer.

S.S. "FALKLAND".

The s.s. "Falkland" leaves Stanley for Monte Video on the 20th instant and on the way up will call at Hill Cove on the West Falklands in order to collect the West Mail for England and Europe.

She will leave Monte Video to return about May 31st and is expected to make Fox Bay about the 6th June, this being her first port of call on the return journey. Afterwards she will proceed to Stanley where she is due to arrive on the 8th June after stopping at Albermarle and North Arm.

The s.s. "Falkland" will take with her Mr. L. Aldridge of the Colonial Secretary's Office as Mail Officer. He will seal the outward mail bags from the West Falklands at Hill Cove and on the way back from Monte Video he will sort the West Mail from the General Mail and will drop it, for the convenience of the "Westers" and in order to save time, at Fox Bay as the vessel calls there.

MAILS FOR HOME.

The s.s. "Solstreif" floating whaling factory left Stanley on Saturday and took with her two mail bags for the United Kingdom.

HOCKEY.

Reds 2 : Yellows 0.

In their usual encounter on Saturday a fast game took place between the Reds and the Yellows though neither side was up to full strength. Both teams did their share of the attacking and it was only the arresting blow of the whistle that prevented the Yellows as well as the Reds from scoring expected goals.

Both the Reds goals were scored in the second half by Mrs. Rose Fleuret who used her opportunities to good effect. Millicent Petersson and Mrs. Bowles played determinedly while Margerie Mercer was a strong back.

The Teams were :- Reds - D. Atkins, M. Thompson, M. Mercer, Mrs. R. Fleuret, W. Bonner, E. Atkins and M. Davis. Yellows :- D. Hardy, Mrs. Bowles, F. Whitney, G. Wikser, H. Fuhlenderiff, M. Petersson, Mrs. Parkinson and E. Berntsen.

SCOUT ACTIVITIES.

Enthusiastic Committee Meeting.

Keen Scouts And Cubs.

The prevailing feeling at the Committee Meeting of the Stanley Boy Scouts Local Association, held in the Colonial Secretary's Office on Friday evening last, was one of keen enthusiasm generated, for the most part, through the assiduous and excellent work of the Group Scoutmaster - Mr. E.E. Frowin, and the Acting Submaster - Mr. T. Killop who presented excellent reports and gave every confidence that, under their skillful guidance and leadership and with the able assistance of Miss McKenzie, this valuable movement will flourish happily.

The chair was taken by the Colonial Secretary (the Hon. J.M. Ellis). Those present besides Mr. Frowin and Mr. Killop were - the Hon. J.I. Moir (Commissioner), Mr. G.I. Turner (Treasurer), and Mr. Hutchinson.

The Submaster's Report showed that the Pack numbered 23 Cubs who were in regular attendance, the percentage at parades being practically 100%. A stimulus had been effected in proficiency badge work and eighteen had passed their first test, six the second test while five were now able to send and receive in somaporo. The keenness of the youngsters knew no bounds and as an illustration of the "esprit de corp" he narrated an example of five who were at a recent bazaar while a parade was in progress and when he sent word to them four immediately turned up. Their conduct was generally excellent and they showed a very high standard of intelligence, easily assimilating the work.

In explaining the system of running a Pack Night Mr. Killop said that the Pack were commanded to fall in in a circle just as in Nature the cubs gather round the old wolf who sits on a rock. The work and games were conducted in a similar manner to those illustrated in Kipling's Jungle Tales. The Meeting expressed a complete satisfaction and appreciation of Mr. Killop's methods and shewed with what enthusiasm they were looking forward to the suggested Scotch "Parents' Night" which as Mr. Killop explained was a free night for parents and friends, to be held in the Church Hall on the 27th instant, at 7.0 p.m. It was explained that the Parents' Night would not constitute an occasion for a special display but had only been arranged in order that parents could see how the boys' time was utilised during the course of their ordinary meeting.

Mr. Frowin, in his report on the Scout Troop said that they were now twenty-three strong with the addition of three recruits on probation. Meetings were held every Thursday from 7.0 to 8.30 p.m. with Instruction Classes every fortnight on Fridays for Patrol Leaders and on Saturday afternoons for all boys over the tenderfoot stage. There was no intention of merely cramming the boys for badges but to teach them material which would be useful to them in after life. The Troop Funds were now run on a permanent basis and registered accounts for the past month had been submitted and received the Committee's unanimous approval. A Troop Library had also been opened.

The Troop was run under the Patrol System which was explained to the Chairman as consisting of Inter-Patrol Competitions, being awarded for such things as attendance, prompt payment of subscriptions, clean uniforms, hands and faces. The Patrol Leaders themselves also kept weekly records of much of the work

12<sup>th</sup> May 1930

which, in summing up, dealt with the progress of their general training and their aptitude at games. A Parents' Night was also provisionally arranged for June 26th. The attendances at the Scout Parades also averaged a 100%. Again the Committee expressed their entire satisfaction with the manner the Troop's training was being carried out.

The Hon. J.L. Moir expressed himself highly delighted with the firm footing on which the Movement had been placed and stated he would make a surprise visit to both the Pack and the Troop at an early date. He was warned not to be nervous of the Troop's yells or the Pack's howls which would greet him, since they were part and parcel of the Scout and Wolf Cub Lore.

THE FALKLANDS AND BRITAIN.

Direct Telegraphic Communication.

Test Schedules Already Worked.

We are privileged to publish the following telegraphic messages which have been exchanged on the subject of the establishment of a direct communication by Wireless between Stanley Station and Portishead Station in the United Kingdom.:-

To the Postmaster General, London from His Excellency the Governor, 7th May. "We are now ready to accept your traffic whenever convenient. I hope this new service will be successful. Am sending this the first direct message to you personally with my compliments. Governor."

To His Excellency the Governor from the Postmaster General, London, 7th May. "Many thanks for your kind message. Arrangements are being actively discussed between Departments of State concerned and I have every hope that a service through the Communications Company will shortly be inaugurated. Kindest Regards. Postmaster General."

Test schedules are already being worked with Portishead and messages have been exchanged without difficulty and with entire satisfaction to both parties. Portishead reports that our signals come through very strongly and their signals are also received in good strength at Stanley. It is hoped that this service will be inaugurated as a regular channel of business traffic between the Colony and the United Kingdom and Europe at an early date thus assuring an All-British route.

In signalling the advent of this notable development it is incumbent upon us not to forget to pay a warm tribute to the high standard and marked degree of efficiency of our Local Wireless Services which are now under the direction of Messrs. A. and J. Mercer.

"Fight Against The British."

An alarming sensation has been caused in Bombay and Poona by the appearance of bills under the signature of "Commander-in-Chief of the Hindustan Army" and posted throughout the latter city.

The pamphlets, which were apparently affixed during the night urged the people to collect all arms and ammunition possible for a fight against the British and their overthrow.

The people set about destroying the pamphlets as soon as they were noticed but the police managed to retain a few.

There was an air of nervousness and expectancy in Shelapur where over twenty, including a number of police, were killed in last Thursday's fighting. Armed troops and police were posted everywhere. The Central Sikh League, it is understood, has resolved to support Gandhi's Civil Disobedience Movement.

In Rangoor, a message states that, the whole of the port is paralysed by the strike of several thousands of dockers. Gandhi's arrest is stressed as the motive.

STANLEY SPORTS ASSOCIATION.

Annual General Meeting.

The Chairman and Members Subscriptions.

Mr. J.M. Hamilton's Trophy.

One of the discussions which took place at the Annual General Meeting of the Stanley Sports Association held in the Church Hall on Saturday evening under the chairmanship of Mr. R. Greenshields was the tardiness of members in paying their subscriptions. The chairman pointed out that out of sixty-four members only the sum of £2 7s. 6d., representing nineteen subscriptions, had been collected leaving forty-three unpaid. It seemed that it was the same eighteen or nineteen which paid each time. The meeting decided that notices should be inserted in the "Penguin" drawing members attention to the fact while further consideration of the matter was left to the Executive Committee.

The meeting showed considerable enthusiasm over the proceedings as can be gathered from the fact that, after commencing a little later than 8.0 p.m., the members did not disperse until half an hour before mid-night. Mr. Greenshields was supported by Mr. V.A.H. Biggs (Vice-Chairman), Mr. A. Newing (Hon. Secretary) and Mr. G.I. Turner (Hon. Treasurer.) Others present were - Messrs. J. Aldridge, W. Aldridge, S. Aldridge, T. Paice, T. Campbell, A.W.H. Vincent, H. Jennings, R. Reivo, A. Petterson, J. Dowles and H. Thomas.

The Secretary's Report showed that the membership stood at the same number as the previous year. The Executive Committee met once, in November of last year, the gathering being informally held on the race course and concerned the erection of the new corral. The Twenty-First Annual Race Meeting was held at Christmas-tide and proved a great success. The totalisator brought in 250 lgs. 4d. this year to the Funds as against £48 15s. the previous year. The Sweepstake on the Governor's Cup realised a nett profit of £64 13s. 2d.. The sale of tickets during the year 1928 amounted to £357 15/- whereas the amount was £264 5/- this year, there being a decrease of £93 10/-. The large decrease was attributable to some measure to the large number of tickets sold in the Grand National Sweepstake at 2/6 each and with more attractive prizes.

The Treasurer's Report showed that the year's receipts amounted to £497 11/6 while the expenses totalled £547 6/9 leaving a deficit of £49 15/3 which had to be covered from the reserve balance which now stands at £258. The unusually large expenditure was accounted for by the amount of money spent on improvements, the corral and the Jockeys shelter. The amount collected in subscriptions was only £2 7/6. The chairman expressed his approval of the Reports which were carried unanimously and after the chairman had expressed his deep thanks to all the officers and committees for their invaluable work, the meeting went on to elect the following new members - Messrs. H.D.A. Jones, A.W. Beardmore, W.J. Davies, H. Thompson, L.B. White, W.M. Allan and H. Thomas.

The officers for the year were elected as follows :-  
His Excellency the Governor (President), the Hon. J.M. Ellis, Messrs. W.A. Harding, - the Hon. G.J. Felton, Mr. Vere Packe and Mr. J. Aldridge. (Vice Presidents); Mr. R. Greenshields (Chairman), Mr. V.A.H. Biggs (Vice Chairman), Messrs. A. Newing and H. Thomas (Hon. Joint Secretaries), Mr. G.I. Turner (Hon. Treasurer), Sub Committees Messrs. V.A.H. Biggs, G.I. Turner and A.W.H. Vincent (Finance),

Messrs. S. Aldridge, W. Aldridge, J. Bowles, H. Jennings, J. McGill, R. Reive and A. Newing (Course); Messrs. V.A.H. Biggs, T. Campbell, B. Fleuret, (Sweepstake); Messrs. C.G. Allan, H. Thompson, J.D. Creamer, R. Hannaford, E.E. Richardson and A.W.N. Vincent (Tote); Messrs. C.G. Allan, E. Aldridge, L. Aldridge, S. Browell, E. Mc-Atasnoy, R. Reive, L. Sedgwick, W.J. Davies, A.W. Beardmore, W.D.A. Jones, L.B. White and H. Thomas. (Entertainment).

The Programme of the next Sports Meeting was fixed as follows :  
Boxing Day (December 26th) Horse Events and Dance in the evening;  
Saturday (December 27th) Foot and Gymkhana Events with Concert in the Evening. The Sweepstake Draw was fixed to take place towards the end of January the actual date to be decided upon later.  
Before proceeding with other business the Meeting passed a vote of thanks to Mr. W.D.A. Jones and Mr. A.W. Beardmore for their services as Auditors and re-elected them for the following year.

A letter was read from Mr. A.I. Fleuret, as Secretary of the Falkland Islands Defence Force Rifle Association, informing the Association of the Bisley Fund which had been established and enquiring if the Sports Association would wish to contribute. On being put to the Meeting it was decided to send to the fund the sum of one guinea.

A letter was also read from Mr. J.E. Hamilton who offered a Challenge Cup and five miniatures for a two mile Trotting Race for horses fully equipped for the track, the miniatures to be given one each year for five years. The deepest thanks of the Association were evinced and it was unanimously decided to accept Mr. Hamilton's generous offer.

TREATY DISREGARDED.

Bolsheviks Inflammatory Manifestoes.

Conservative Proof.

The "Daily Mail" Political correspondent states that the Conservative Headquarters are now equipped with complete proof of the fact that continuous propaganda is being issued by the Communist International against the British both at Home and abroad, and renewed efforts will be made to force the Socialists to live up to their protestations on the matter. It has already been shown how the Communist daily paper being run in England is printing inflammatory manifestoes prepared in Moscow and circulated in all languages from Berlin.

It is clear that Russia's actual rulers are the Politbureau of Moscow's Communist party. This body issues orders to the Council of Commissars and the Communist International or Comintern. No fewer than eleven organisations in Britain from the Communist Party to the Workers' Defence Union are controlled and inspired by the Comintern. The Young Communist League boasts that it "aims at the preparation of the masses of young toilers for revolutionary conflicts".

Such propaganda are a flagrant disregard of the Socialist Treaty with Russia and Mr. Henderson will have to face a fire of questions on his retire from Geneva.

GHASTLY TRAGEDY AT BROOKLANDS.

Two Cars Crash at 100 Miles An Hour.

Machine Flung 20 Feet In Air.

A shocking fatality took place at Brooklands on Saturday last just an hour and a quarter before the conclusion of the first day's run in the Double Twelve Hours' Race. Two Talbots came down the straight at about a hundred miles an hour when suddenly the front Talbot seemed to skid and turned broadside across the track. The second Talbot hit the front one and flung it twenty feet into the air. It fell and jumped through a stout six foot iron fence into a crowd of spectators ploughing its way through them like a projectile in the sand. Bits of fence and portions of the car shot into the air and the whole scene was obscured by a cloud of dust. The driver of the car, Col. G.S.C. Rabagliati was seriously injured in the head and his mechanic, Albert, was killed. Among the spectators F.C. Herworth of Ashford, Middlesex, was killed and many were seriously injured.

The other car rolled over and over finally coming to rest upside down on the track. To the astonishment of the onlookers the driver, R. Hebelner, and his mechanic, Jury, scrambled out almost unhurt although the car was badly wrecked.

The crash followed a series of thrills wherein two cars caught on fire and another skidded after a shower of rain eventually turning over. Lord Howe also missed death by a fraction of an inch while tearing down the stretch at almost a hundred miles an hour. He was signalled by other drivers and found that the rear car wheel had worked loose and was secured only by two threads which had less than a quarter of an inch to slip. The race resulted in a signal English victory, the Bentley cars coming in first and second. W. Barnato and Scott Davies were the respective drivers.

Annual General Meeting.

The Annual General Meeting of the Stanley Benefit Club was held in the Club Room on Monday evening when Mr. R.H. Hannaford presided, supported by Mr. E.V. Dixon (Hon. Secretary), and Mr. A.T. Lellman (Hon. Treasurer.)

The Secretary's report showed that a very successful year had come to a close. There were 242 members on the Roll, approximately 140 of whom were resident in Stanley while the remainder were in the Camp or abroad.

The financial report showed that the total assets over liabilities was £2,869 this including £2,500 invested in Registered war Stock. The total receipts over the year's working were £511, the balance over payments being £235. Both reports were adopted with acclamation.

The election of officers for the year resulted as follows :-

Mr. W.L.H. Biggs (Chairman), Mr. R.H. Hannaford (Vice-Chairman), Mr. E.V. Dixon (Hon. Secretary), Mr. K.V. Lellman (Hon. Treasurer), Messrs. R.M. Bound and J. Barnes (Stewards), Messrs. E.S. Crawford, A.L. Kiddle, S. Sumners, G. Newing, and A. Lellman (Committee). Mr. J.W. Griarson was automatically re-elected Trustee and an ex-officio member of the Committee.

In his remarks the new Chairman commented upon the apparent unconcern of the members and their disinterestedness in the meetings and appealed for more enthusiasm at the meetings. It was announced that the dates for the Annual Ball had been fixed for May 21st and 22nd instant, and to hold a Children's Treat on or about 8th December.

Church Council's Decision.

A meeting of the Christ Church Council was held in the Church Hall on Tuesday at 8.0 p.m. at which the Very Reverend the Dean presided. There were present also Mr. T. Binnie (Dean's Warden), Mr. A. Newing (People's Warden), Mr. C.A. Parkinson, Mr. H. Thompson, Mr. D.E. Richardson (Hon. Treasurer) and Mr. S.E. Browell (Hon. Secretary).

After opening the meeting with prayer the chairman extended a hearty welcome to the Council at their first meeting since election, specially to their new member Mr. H. Thompson, whose keen interest in the welfare of the Church had been obvious, the chairman said, for some time.

Mr. T. Binnie submitted the Balance Sheet of the recent Sale of Work which showed the net proceeds as £258 4s. 1d.. After careful consideration the Council allocated this sum as follows : £120 4s. 1d. to the General Purposes Fund, £100 to the Sustaination Fund and £38 to the Endowment Fund. The Church Council Expressed its grateful thanks to all stall holders, donors of gifts and to all who helped in any way towards bringing about the great success of the effort.

Considerable discussion then took place as to the advisability of continuing to publish "The Falkland Islands Magazine and Church Paper" and the maintenance of the Cathedral Press. After much careful consideration it was decided that, in view of the fact that the Cathedral Press is a heavy financial burden upon the Church Funds - it has cost the Church £130 during the last ten years - the publication of the Falkland Islands Magazine be suspended and the Cathedral Press be closed until further notice.

The chairman after discussing the matter with the Council, appointed the following ladies and gentlemen to form a Social Committee to assist the Council in social functions connected with the Cathedral :- The Very Reverend the Dean (chairman), Mrs. G.R.L. Brown, Mrs. E.J. Gleadell, Mrs. Pallini, Mrs. Richardson, The Rev. S.E.E. Aylward, Messrs. W.A. Beardmore, T. Binnie, S.E. Browell, W.J. Davies, W.D.A. Jones, K. Lellman, A. Newing C.A. Parkinson, H. Thomas, D.E. Richardson (Treasurer) and H. Thompson (secretary).

Among other business the Council also revised the scale of charges for hiring the Church Hall.

## STIRLING OF THE FALKLANDS.

A Missionary Bishop of the Westcountry.

Recently Dartmouth celebrated the birthday 101 years ago of one of the greatest missionary heroes of the last century, Bishop Waite Reckin Stirling of the Falkland Isles.

Bishop Stirling was born at Dartmouth in 1829, and in 1921 when 92 years of age he wrote to his life-long friend Dr. Townsend; "Dartmouth! There I was born, and my associations were in early years connected with the Gearbold town. In the waters of its harbour I have bathed and boated and on the hills overlooking the entrance I have climbed with boyish delight".

"Bishop Stirling; of the Falklands," by Canon F.C. McDonald, published by Seeley, Service and Co., Ltd., at 10s.6d., is a book that should find a place on every Westcountry bookshelf. It is a book which brings pride to elders, and inspires younger people, for it is the life story of one of the most remarkable men who ever set in the mission field. In its 248 pages we have the story of yet another Westcountry hero, one who endured hard-ship and privation in the wilds of foreign countries for the sake of the Gospel.

The biography contains countless thrills of jungle life, but the dominant factor throughout is the character of the Bishop himself. To quote the author "The story of his life so far as he has allowed it to be known, reveals a character bold and caring reticent and self-restrained, simple and deeply spiritual. A born missionary, he was never so happy as when he was among the poorest and most ignorant natives. He was one of the missionary heroes of the last century His nobility of character is not to be wondered at when his ancestry and early influences are revealed".

The Bishop died on November 18, 1923.

## THE EXTINCTION OF THE WHALE.

A Feeling Of Foreboding.

With the close of another whaling season - the first in which the Pelagic factories have been used extensively and intensively - and the ever growing record of catches achieved by some, cannot but pronounce the feeling of foreboding. The methods of whale hunting are now so efficient as to make the danger of extinction of some members of the species a very real one.

Whale oil, the principal product of the industry, has been increasingly used by European and American nations, and undoubtedly its chief application is in the margarine industry. Formerly, whale oil was regarded as a dark, evil-smelling product identified with train oil. But with the introduction of scientific methods of dealing with the carcass, it is now produced as a pleasant pale oil resembling a vegetable oil of good quality.

Since as early as the 10th century the whale has been hunted. But the enormous increase in the production of whale oil since the war would have been impossible with the old methods of catching. The invention of the shell harpoon gun by Svend Pavn, "the Father of the Norwegian whaling," in 1868, revolutionised the whole industry, with the shell harpoon which is timed to explode in the body of the whale, the catching possibilities have increased without limit.

"DAILY MAIL" DISCLOSURES.

Bolshevik Intrigue.

The "Daily Mail" discloses an amazing story of Bolshevik intrigue against Britain. This is not a vague story of alleged spies, the paper says, but the sworn statement of a subject of a friendly nation who, because of his residence in Britain and his wide influential association, emissaries of Moscow have tried to secure as a chief spy in England.

He is Sava Popovitch, an artist and a member of an old Serbian family. The Bolshevik agents posing as art experts, demanded that in return for payments he would receive, he should procure - Plans of the latest British Tank; Naval Training Instructions; Secret Air Force Documents; and Confidential Industrial Information.

Popovitch's story tells that among other strange and dangerous personalities there are mysterious men of three names and a very beautiful young woman in the hotel at The Hague.

The artist's great uncle was the General Zingar Marcovitch, the Premier and Commander-in-Chief of the Serbian Army who was murdered the night in 1909 that the Queen Draga and King Alexander were assassinated at Belgrade.

PHIL SCOTT'S FOUL.

British Board Uphold claim.

The Stewards of the British Board of Control have decided to support the claim Phil the British Heavy-weight Champion for the World's title.

This is a sequel to the fight in Miami in February when Sharkoy was given the verdict and Scott alleged that the winning punch was a foul and that it was preceded by other foul blows.

The British Board's representatives saw the film of the fight and after listening to the evidence of Scott and his manager, wrote to the United States for further information, they then announced their attitude. Meanwhile plans are well advanced for the fight between Sharkoy and Schmeling for the championship right at New York in July.

DUSSELDORFF "RIPPER".

Man Arrested.

A man has been arrested in one of the working class suburbs of Berlin on suspicion of being the Dusseldorf "Jack-the-Ripper". He is the alleged murderer of four women and four girls in 1927. It is stated that the man, who is a mason, was in Dusseldorf from March 1929 until November. He has been living with relatives in Berlin for at least a month and his arrest appears to be due to the fact that a neighbour thought his conduct suspicious and told the police of her fears.

NAIDU INDIAN POSTESS RISES.

The Dharsena Salt Depot.

Mistress Sarojini, the Naidu Indian postess, who is the present leader of the Gandhi Volunteers, arrived at Bombay on Wednesday night and left on Thursday for Dharsena where she intends to lead the Volunteers in a raid on the salt depot. A Bulsar order has been promulgated prohibiting the carrying of weapons or instruments or the wandering or collecting of groups of more than four persons within the limits of Dharsena village.

From the "Daily Mail" correspondent in Calcutta comes the news that five Indians were injured in a baton charge by the police in the course of rowdy incidents there on Wednesday.

A Hartal, that is - a 'mourning strike',-had been declared owing to the arrest of Abbas Tyabji, Gandhi's successor, and the mob held up the omnibuses and attempted to persuade the passengers to leave. As a result the police were forced to take active measures. Although the Hartal was a signal failure omnibus and taxi-cab drivers were forced into disorganising the city's traffic.

The Government is, at last, taking severe action. Three leading Civil Disobedience Councils have been declared unlawful associations.

MR. HENDERSON AND OPIUM.

Shipload At Large.

Somewhere on the high seas there is a vessel laden with 2,300 cases of opium. This disclosure was made by Mr. Henderson at a meeting of the League Council at Geneva on Wednesday.

The cargo represents £250,000 worth of raw opium which, converted into narcotics, would be sufficient to poison the whole Continent. There is no doubt that the opium is destined for illicit traffic and the League Opium Committee is seeking means to prevent it reaching its destination.

The ship recently left Bushire, in the Persian Gulf, and she had clearance papers made out for Vladivostok. Since then she has disappeared but as most of the opium from Persia finds its way to China officials there are warned to keep a sharp look out.

THE RED NET.

Popovitch Disclosures.

The disclosure of the latest Bolshevik intrigue shows the extent of the Moscow espionage system in Britain. The sworn statement of Sava Popovitch, the Serbian artist, whom the Russian agents tried to suborn as a Soviet spy reveals also that somewhere in London are Bolshevik agents who move freely and apparently elude the authorities.

Moscow warns all secret agents against associating with British Communists because the latter are suspected by the police and to Bolsheviks themselves.

On Wednesday, continuing his story of how the net was spread to entangle him into the Red espionage system Popovitch disclosed how he was urged not only to procure British secret documents but abstract from the Legation of his own country blank pass-ports so that they might be used for Bolshevik agents.

The "Daily Mail" has reason to believe that the case of Popovitch is but one of many similar schemes of the Reds for adding to their army of spies.

Recently an American lost £20,000 to a clever gang he met or while crossing the Atlantic.

The present tricksters gain thousands of pounds whereas their predecessors earned only hundreds. All the victims have been obtained as a result of a lavish display of wealth and power convincing the victims that they are on the road to untold wealth, in Stock Exchange speculation. The police machinery follows many loop-holes of the tricksters revealing that they know practically every device to frustrate the police.

### LORD ROTHERMERE SPEAKS OUT.

#### Law Openly Defied.

"What India means to us" is the title of what the "Daily Mail" describes as a stirring article written by Lord Rothermere and printed in the "Daily Mail" on Thursday.

The article states "Grim news is continually reaching us from India where British soldiers are being murdered, faithful Mohammedan police clubbed to death and burnt alive, British women and children huddled in forts and fleeing in trains, the great frontier fortress of Peshawar for days in the hands of Indian revolutionaries trying to lure wild tribes across the Afghan border, the law openly defied, the Union Jack trampled underfoot, the Vice-Roy's train bombed and warlike sikhs resolving to support Gandhi - these are not dramatic, unreal incidents but deadly threats on the lives and well-being of British subjects not only in India itself but in Great Britain.

"India is the linchpin of the British Empire and if we lose India the Empire must collapse - first economically and then politically. The promise of Dominion status should not be confirmed but cancelled. The first instalment of the transfer of Governmental authority to a small minority of sharp witted, self-seeking Hindus is to turn our back on India and be such a cowardly betrayal of our great trust that the Nation's name would be blackened for ever."

### STREET ACCIDENT STATISTICS.

#### Fatalities Increasing.

On an average eighteen people are killed daily in street accidents in Great Britain. The compiled police statistics show a total of 6,696 - an increase of 554 on the year 1928.

London is still the greatest danger area one person in every 540.4 being killed in the city and metropolitan areas as compared with one in every 7,442 in the rest of the country.

170,917 were injured in street accidents in 1929 as compared with 164,838 in the previous year. The greatest number of accidents are caused by private cars, motor-cyclists without pillion passengers coming next.

CHURCH CHOIR SOCIAL.

Members of Christ Church Cathedral Choir and their friends spent a most enjoyable time in the Church Hall on Friday evening last when a dance was held, the first of what we hope will become a series which, we are certain, will be highly delightful. There were about seventy present and mingling among the dancers were the Very Reverend the Dean and Mrs. Vaughan, and the Rev. S.E.E. Aylward. It is an interesting fact that the dance was the first at which the newly installed electric lights were used and the novel adventure was the subject of much appreciative comment.

The catering, excellent as usual, was under the capable charge of a number of the Church ladies while a word of praise must be given to Mr. Allan Willis who is deserving of the warmest thanks for his voluntary services. The duties of M.C. were efficiently carried out by Mr. W.J. Davies and Mr. W.D.A. Jones who took it in turns to keep the "Ball" rolling, a feat at which they excel. The winners of the prizes which were kindly given were Miss M. Summers, Miss D. Riches and Mr. K. Biggs. And last but not least we have to mention the band - "The Stanley Jazz" to whom the Choir are deeply indebted for their very efficient playing.

LORD DERBY BROADCASTS.

Broadcasting from America on Saturday evening Lord Derby, the great English sportsman, paid a great tribute to the way the Americans had attended the Kentucky Derby which he had himself witnessed earlier in the day, and especially to the way they had received his Country's Anthem. He said he had travelled 5,000 miles to see a great race and he had not been disappointed. "Gallant Fox" owned by Mr. Woodford was a great horse and with a good jockey on his back had won a great race and a lovely trophy.

Following his speech Lord Derby presented the owner with the cup amidst tremendous applause. In response Mr. Woodford expressed himself as being fully sensible of the tremendous honour that had fallen to him particularly since he was receiving the Cup from the hands of the one after whom the great race was named.

### HOCKEY.

Reds 4 : Yellows 2.

In an extremely interesting game on Saturday the Reds showed their superiority by winning the match by 4 - 2. The game however was very closely contested and the score does not completely do justice to the losers. Up to half time neither side could be certain of the result and, as a matter of fact, the odds were against the Reds who were due to hit against the wind.

The Reds were, apparently, on tip-top form and eventually obtained the victory but only after a tremendous struggle. The Yellows goals were secured by Mona Gleadell and Hadassah Fuhlendorff while the Reds came from Winnie Bonner and Molly Davis, the latter scoring three.

The teams were :- Yellows - Mrs. Bowles, Misses E. Summers and D. Fuhlendorff; Mrs. Parkinson, Misses M. Pettersson, G. Pettersson, M. Gleadell, A. Mills and A. Clifton. Reds - Misses M. Mercer, E. Atkins, Mrs. Rose Fleuret, Misses W. Bonner, M. Davis, G. Wilson, P. Thompson and D. Hardy.

Reports of serious rioting involving injuries to over a hundred people has filtered through from Mymensingh, 200 miles north east of Calcutta. Apparently a strong picket of Civil Disobedience Volunteers tried to prevent liquor dealers taking delivery at the Government Depot and when armed policemen led by European officers intervened, an orgy of stone throwing began. Order to fire was given and a crowd of some two thousand rushed the police, broke open the barrels and set fire to the cart. More shots were fired and the mob dispersed. Eighty-seven people were taken to hospital and thirty-four were detained. One officer, four N.C.Os. and twenty-eight constables were injured while the Assistant Sub-Commissioner is in a critical condition.

### THE "SHAMROCK V".

On Saturday Sir Thomas Lipton's new yacht "Shamrock V" made her debut at the Harwich Regatta. The yacht is the new challenger for the America Cup and, in making its bow to the world, won its first race beautifully with 7,500 square feet of sail against the 9,000 of the boats against which it was competing. The craft is in every way a sea-going yacht and not a mere racing machine. It is beautifully fitted with two luxurious sleeping cabins and a bathroom besides a skipper's cabin and the mess deck where the crew live.

HOUSE OF COMMONS NEWS.

Conservative Back-Benchers Restless.

The "Daily Mail" Political correspondent writes that the motion for challenging the Naval Conference Treaty recently put on the Order Paper by a number of Conservative members of Parliament has taken a new importance.

"I am told" he writes, "that many Conservatives attached their names as a protest against the lack of official action taken by Mr. Baldwin and the other party's leaders. The lethargy of the party leaders has stirred up the rank and file into a deliberate protest. Previously over eighty members had signed the protest but on Saturday the number grew unexpectedly to 140 while further names are expected."

It is stated for Mr. Baldwin and his colleagues that the attack on the Government should be launched on the Supplementary Naval Estimates and not on the worn issue of the Treaty. But the back-benchers denounce these tactics as symptomatic of the dilatoriness of the front bench and they demand that Mr. Baldwin should lead an immediate frontal attack against the Government.

THE LONE GIRL FLYER.

Noaring Her Destination.

The Toast Of The East.

Miss Amy Johnson, the lone girl flyer from England to Australia landed at Singapore on the east coast of the Malay Peninsula on Saturday afternoon. She had to battle with wind, rain and clouds which combined to make the flight the most difficult since she started. For several hours she was flying "blind", trying to find a way through the mountains into Siam.

Tremendous interest is again being shown in the wonderful success so far achieved by the English "Girl Lindbergh" not only has her flight made her a national heroine but she has captured the imagination of the world. She is still 2,850 miles from Port Darwin - her goal and she has just two more days to beat Bert Hinkler's record. Her indomitable spirit is the talk of all the clubs in the East and the popular toast is "Success to the Lone Girl Flyer" although she is 500 miles behind Hinkler's record.

Six women aviators from Melbourne have arranged to escort Miss Johnson on the last stage of the flight to Sydney. The public demonstration on her arrival threatens to be greater than those given to Bert Hinkler and Sir Allan Cobham when they were officially welcomed at Darwin, North Australia. An invitation has been extended to her to visit Canberra as the guest of the Government.

It is only two years since she first started to take up flying, and so interested was she that she went for instruction at six in the morning and returned from the office in the evening for more trips. Her father, in an interview, said that Amy was decidedly feminine but to prevent himself from restricting her opportunities he had to regard her as a son for a time. Until she answered the call of the air Miss Johnson was a secretary in a city office and was remembered as a grave, shy and soft voiced girl with golden hair..

BRITISH EMPIRE TRADE EXHIBITION.

Buenos Aires, 1931.

Official notice has now been given to the management of the great British Empire Trade Exhibition to be held in Buenos Aires in 1931, that His Majesty's Government has recognised the importance of the occasion and has decided to participate on a suitable scale.

For this purpose the Government exhibits will be housed in one of the finest buildings in the extensive Exhibition grounds, which have been so generously lent by the Argentine Rural Society.

The Government of Great Britain exhibits, besides illustrating the contributions of the British people to the world's progress, will show much of the development of our British Colonies and Protectorates.

The Dominion of Canada has already reserved another building of 40,000 square feet, thus demonstrating the increasing interest taken by the Canadian manufacturers in South American trade.

BOOKS TO READ.

"JANE CARROLL" - by E. Temple Thurston. "Jane Carroll" is, I think, the best novel I have read of Thurston's and indeed the best of its type by any author I have seen during recent years. Although the story is a tragedy and a direct breach of the Seventh Commandment, is entailed, there is a complete absence of sordid detail and morbid sentiment usually so prevalent in books written with this plot.

The title character is vividly portrayed and the book cannot fail to interest any person who recalls the horrors of the 1921 rebellion in Ireland where the greater part of the story takes place. Certainly after reading this book my opinions of those responsible for this terrible catastrophe underwent drastic changes.

(The above is the second of what we hope will be a series of short reviews on interesting books to be borrowed from the Library. The first "Almayer's Folly" by Joseph Conrad, was given in our issue of Saturday, April 26th 1930.)

AMERICAN DR. JEKYLL & MR. HYDE.

Millionaire And Convict.

Dr. Jekyll and Mr. Hyde is said to have come to life again in the person of Frank J. Parker, the Millionaire distiller of Montreal who is under arrest in Montreal on a charge of perjury. The Chicago police declare that he is the convict of the same name who was released from prison in 1920. In Montreal, Parker, whom the police of Chicago say is worth 21,000,000, was one of the leading citizens and sought permission of Parliament to change his name owing to the unpleasant publicity associated with the Chicago namesake.

The Canadian customs officers are convinced that he is the same man and have preferred charges against him in connection with the failure of the Dominion Distillers Ltd. of which he is the president.

From a petty gangster he rose apparently to be a millionaire in Chicago. The police state that he supplied wealthy clients with Canadian liquor which was brought to the country by a fleet of aeroplanes.

DESCENDANT OF PRINCESS POCAHONTAS MARRIED.

Wedding In Surrey.

The Red Indian princess romance of three centuries ago is recalled by a wedding at Cheam, Surrey between Dr. Ronald Harward of Hampshire and Miss Lillian Gaston of Cheam.

The bride is a descendant of Princess Pocahontas of Virginia who died on a visit to England in 1618 and was buried in St. George's Churchyard, Gravesend,

The Princess saved the life of Captain John Smith, who was condemned to death by her father, by flinging herself between him and the executioner. Later she was falsely told he was dead, married a young planter and came to England. The following year she died of a broken heart when she learned that Smith was still alive.

President Hoover said that he understood that General Dawes was paying a visit in connection with plans for the Chicago World's Fair in 1935.

BOMBS USED IN RIOTS.

Many Arrests In India.

The "Daily Mail" bulletin Monday night from Karachi tells that violent attacks, many in which bombs were used, have been made against the police in various parts of India. Seventy-two were arrested when a raid on the salt depot at Wadala took place. This is the second time riots have occurred in that part of Bombay. Sixty-one were arrested elsewhere and the police superintendent and eight constables were injured by a bomb in the Multan Bazaar. The Punjab saw a number of disturbances resulting in the arrest of forty-one rioters. At Madras, six crudely made bombs were thrown at the police near the High Court compound. Luckily only one exploded but a sergeant (European) and an Indian constable were injured. News has been received from Simla that the city Congress Committee intend holding a meeting at Kala three miles away and a preliminary gathering was called. The police arrived and declared the proceedings unlawful but the members refused to disperse. Nineteen of the ringleaders were arrested and brickbats were hurled at the police by the crowd and, as a result, the District Magistrate gave the order to fire.

MAIL VAN BURNED.

Three Men Killed In Vendetta.

From Ajaccio, Corsica comes the amazing story of a vendetta which lies behind a robbery near Lopigna on Sunday when three men were shot dead and a mail van robbed and burned.

Spada, a bandit who for eight years hold the hills following the murder of a gendarme, contrived, through a third party, to obtain the concession of a motor mail service between Ajaccio and Lopigna. The mayor of Lopigna refused to renew Spada's contract and Spada threatened to kill him. The mayor appointed his son-in-law as contractor and as the van was on its journey Spada appeared from the thicket and held the vehicle up. A volley was fired from an ambush killing the contractor and two gendarmes who were accompanying the van. Spada then compelled the chauffeur to unload the mail and set fire to the van.

AN INTERESTING INNOVATION.

Broadcast Dance Music In The Town Hall.

By the kindness of His Excellency the Governor an interesting innovation was arranged in the Town Hall, in conjunction with a The Dansant given by the Hon. J.M. Ellis (Colonial Secretary), on Tuesday when some fifty residents of Stanley were invited and danced to music relayed from the Local Broadcasting Studio by means of ten loudspeakers placed at intervals at the ends and along the sides of the floor.

As this was the first occasion that a dance has been held in the Colony in similar circumstances the innovation, which was almost in the nature of an experiment, was followed with pleasurable excitement by those present. The strength of the music came through in full volume and its even distribution throughout the entire body of the Hall was a noticeable feature. It was evident that with a good selection of records the music obtainable in this manner is as good as can be heard in any restaurant or ball-room in any part of the world.

We welcome this new departure and we have to express our congratulations to His Excellency on thus enabling the Falklands to show the lead in this direction also to other Colonies in the Empire. We are proud of the fact that our Colony is the first Colony in which a novelty of this nature has been introduced.

We wish also to add a warm word of praise for the ever enthusiastic Electrician-in-Charge, Mr. F.A. Byron, and his keen and capable assistants, Mr. G. Butcher and Mr. E.E. Frewin, to whom the credit for this successful venture is largely due.

We are authorised to announce that the Hall with music relayed in the manner described will be available for hire both in the afternoon and evening for the present on a limited number of occasions only and, on the early receipt of certain additional apparatus, as and when required. Applications for the music should be made simultaneously with the applications for the Hall to the Colonial Engineer; the following scale of charges for the use of the music have been fixed - Evenings from 9.0 to 12.0 p.m. £2 with an extension at the rate of 10/- an hour up to 2.0 a.m. At all other times at 10/- an hour. In order to avoid clashing with the usual Broadcast programmes prospective applicants are advised to consult the Electrician-in-Charge as to convenient dates before making a definite application. The programmes of music, in like manner, can be especially arranged in consultation with the Electrician-in-Charge.

An opportunity is being given to the public to hear the results which can be obtained from this innovation at the forthcoming May Ball to-night and to-morrow night when, by the courtesy of the Committee of the Stanley Benefit Club, selections will be interspersed in the evenings' programmes.

DEATH OF SIR W. GORDON-CUMMING.

Card Scandal Recalled.

The death occurred on Tuesday of Sir William Gordon-Cummings at the age of eighty-two years of age at his Scottish home Altyre House near Elgin. Sir William, when a Lieutenant-Colonel of the Scots Guards was involved in a card scandal which gained considerable notoriety and ended in a court case which gained Sir William. At the time he was a very popular man in society and a friend of the Prince of Wales. He was staying at Tranby Croft with the Prince as a guest of Mr. and Mrs. A. Wilson who had a house party during the Doncaster races. While the guests were playing baccarat one night Sir William was accused of cheating. He stoutly denied the accusation but the volume of evidence was so great that he signed an undertaking never to play cards again and this pledge was witnessed by the Prince of Wales and others. Although they bound themselves to secrecy the story leaked out and as an alternative to admitting his guilt Sir William brought a slander action against the host and hostess. A verdict was returned against Sir William and thereupon he resigned from the army, gave up society and club life and retired to the country.

SIR OSWALD MOSLEY RESIGNS.

The Government's Disinclination.

The "Daily Mail" political correspondent reports that Sir Oswald Mosley, the Chancellor of the Duchy of Lancaster handed in his resignation to the Premier Tuesday morning and afterwards had a long conversation with the Premier and Mr. J.H. Thomas.

His resignation has been expected ever since it became clear that the Government was disinclined to accept the proposals contained in the memorandum on the mitigation of unemployment submitted to the Cabinet by Sir Oswald, George Lansbury and Tom Johnston. The memorandum proposed a great loan for relief works and measures to reduce the number of people available for industry by raising the school age for leaving and pensions whereby a reduction would be made in the number of elderly workers.

MISS AMY JOHNSON.

Feeling The Strain.

In describing her journey from Singapore on Tuesday in a graphic despatch to the "Daily Mail" by wireless telephono, Miss Amy Johnson says that she was caught in a violent rainstorm which completely obscured visibility, making navigation extremely difficult. The sea and coast-line were completely blotted out and at times the aeroplane descended almost to the wavetops.

She eventually passed the Java coast ten hours after leaving Singapore and was forced to land at Tjomal early Tuesday morning owing to petrol shortage. After replenishing her supplies she carried on her way and was fortunate in having an unexpected pilot in an air mail Fokker 'plane which guided her to Sawabaya in Java without further incident.

Miss Johnson expected to start for Bima early yesterday morning and continue thence to Atambua or Kupang and thence to Port Darwin to-day (Thursday).

In her message Miss Johnson states "I am beginning to feel the strain and shall be glad to find myself among my own folks "down under."

WITH THE MORRIS LORRY.

The Intrepid Adventure To Darwin.

Honeycombed With Bog Holes : A Creeper Track Lost.

Extracts From Official Report.

Mr. T.G. Slaughter's Letter Of Congratulation.

Perhaps one of the most remarkable and far reaching episodes in the history of the Falkland Islands is that chronicled by the Hon. G. Roberts (Colonial Engineer) and describing the eventful journey to and from Port Darwin with the Morris motor-lorry fully equipped to the weight of twenty hundredweight. We have at hand a copy of the report of the intrepid adventure from which we are privileged to take extracts which emphasise the difficulties encountered by the little party on this expedition in connection with the proposed improvements of the tracks of the Colony. The expedition was under the charge of the Colonial Engineer who had with him the following volunteers :- Messrs. T. Paice, E.G. Gleadell, P. Smith and R.H. Ballard. The extract is taken from the report of the homeward journey when the party were heading for Cave Rosia and before reaching the welcome hospitality of Mr. W. Morrison who was, as the report describes, "kindness personified" and gave them considerable assistance both on the outward and return journeys.

"We reached Hill Side at 4.0 p.m. (Monday, March 31st 1950) but did not stop as we were anxious to get to Bluff Cove that evening and more anxious to get through the Cave Rosia Stream before dark. This is one of the worst streams between Hill Side and Bluff Cove because the approaches to the pass are honeycombed with bogholes and underground runners. These underground runners are very treacherous, especially in the dark. Apparently on the surface they are hard and one can see but very little of them as they are covered with a hard crust which promptly gives way when any weight is put on it. It is then possible to be deposited into a hole from three to five feet deep or more with perhaps a couple of feet of water in the bottom. At this stage of the journey we had a nasty peat bog to go through, stretching some three miles and since it was an uphill climb through there was every possibility of getting bogged. We went all out but after three quarters of a mile we began to sink. The wheels had to be dug out and planks placed underneath. During the next mile we were bogged no less than five times and on each occasion we had to unload to lighten the lorry, dig out the wheels and carry rocks from the stone runs a quarter of a mile up the hill; each man making three or four journeys each time. All were tired out and darkness was setting in so we decided to turn the lorry south, in order to get a down hill run and make for the sea with a view to finding a track round the beach. After a time we struck a small creek through which we found a pass. We climbed over a high ridge and travelled east. It was now pitch dark and we had to travel cautiously with all four headlamps on. Our fuel then gave out and then we discovered we had lost one of our creeper tracks. We had to trace the track of the lorry back a mile with the aid of a spent torch before we discovered it. It was now 8.0 p.m. and the party had been on the track since 5.0 a.m.. Before reaching Cave Rosia we had another little experience for we found ourselves going down a steep incline instead of keeping on the ridge. We stopped and went on foot to examine the valley and it was well that we did so, for we found that we were making for a steep cliff, some thirty feet deep and dropping into Fitzroy

River. This decided us to rely on our compass and so we steered due east. We were soon rewarded for on the skyline we saw the reflection of Cape Pembroke Lighthouse. It was then not long before we found Cave Rosia and then Bluff Cove.

Below we give copies of the correspondence which has passed between His Excellency the Governor and Mr. T.G.Slaughter of Port Darwin :-

From Mr. Slaughter to His Excellency ( 31st March, 1930.)

Your Excellency, Great excitement prevailed in Darwin when the Hon. G. Roberts and his team of men and lorry with one ton load arrived here from Stanley!

Knowing the state of the Camp at the present time and the difficulties one encounters on the track, I take this opportunity of heartily congratulating Your Excellency on the success of this undertaking to further the means of facilitating transport to the outlying parts of the Colony.

I have the honour to be,

Sir, Your obedient servant,

T. G. Slaughter.

From His Excellency the Governor to Mr. Slaughter ( 30th April, 1930)

Dear Mr. Slaughter,

I am directed by the Governor to thank you for your very kind letter of the 31st of March, regarding Mr. Roberts's motor journey from Stanley to Darwin.

His Excellency is deeply gratified by your generous appreciation of this difficult pioneer work which he feels sure will pave the way for the gradual improvement of inland communication in these Islands.

I am to say that your letter which His Excellency regrets has remained so long unanswered has the distinction of being the first conveyed by motor mail in the Colony.

Yours very sincerely,

(signed) G.R.L. Brown, Private Secretary

MISS AMY JOHNSON.

Machine Under Repair .

Miss Amy Johnson, the English girl Lindbergh was prevented from continuing her flight to Australia on Wednesday, and by wireless from Surabaya, Java she states that mechanics worked all night on the engine but when it started up they found the magneto coupling defective and one of the magnetos not working. They were able to complete the repairs during the day and she hoped to start at dawn yesterday direct for Itanbua on the northwest coast of Timor, a distance of 750 miles. She did not intend to touch Koepong and expected to arrive at Port Darwin on Friday.

Miss Amy Johnson's parents and sister Mollie are sailing from Southampton on June 7th, in the liner "Germania" to attend the Rotary Conference at Chicago they have cabled Amy to meet them at San Francisco after her flight to Australia.

Mr. Hogan, the Premier of Victoria, states that a reception will be accorded Miss Johnson as she visits Melbourne.

THE NEW POLICE COMMISSIONER.

FOR NEW YORK.

The acceptance of the Police Commissionership of New York by Mr. F. Mulrooney is heralded by the New Yorkers as marking a new regime in that important office and they are seeking an explanation as to why Mayor Walker selected for the service a man so different from Mr. Whalon.

An intimate friend of the Mayor said that Mr. Walker had to find a man who was tongue-tied. "You cannot have a banjo act followed by another banjo act", he is reported to have said "You must have jugglers."

THE MAY BALL.

Seventy-Second Anniversary.

Successful Event.

The Speeches.

In spite of the unfavourable weather all steps were turned to the Town Hall on Thursday and Friday evenings last week when the Annual May Ball was held. It is one of the most looked forward to of those events which follow in regular succession year after year and do so much good in helping to cheer the hearts of our lonely Islanders. Successfully organised by the Stanley Benefit Club for so many years now it has, we believe, reached its seventy-second anniversary at least. On Thursday night when His Excellency the Governor honoured the dancers by his appearance there must have been well over two hundred present while the following night there were even more and the gaily decorated Hall could not have assumed a more festive appearance with its galaxy of charming girls in richly coloured dresses, partnered by gallants many of whom wore the Club sashes. There was present also a large sprinkling of people from the Camp.

A word of praise is due to the Committee responsible for organisation of the event, their names being Messrs. V.A.H. Biggs (Chairman), E.V. Dixon (Secretary), K.V. Lellman (Treasurer), with G.L. Pallini, S.R. Summers, S.E. Browell, J. Summers, A.L. Kiddle, N. Bernisen, and H.W.N. Riggs. The M. J. who carried out their duties so well were Messrs. J. Barnes and A. Summers while excellent music was provided by the Stanley Jazz and the Melody Sheiks Bands. A novel feature of the dance was the introduction of the experimental broadcast of suitable music relayed from the Studio through ten well arranged loudspeakers. This pleasing and greatly appreciated form of providing us with the most up-to-date music from the finest of the world's famed bands is due to the initiative of His Excellency the Governor to whom we cannot but be deeply grateful. Last but not least we must pay a warm tribute to the excellent catering of the Stanley Bakery. The delicious refreshments alone would have made the dance worth while. The receipts, we understand amounted to about 255 from which about 255 will have to be deducted for expenses.

In welcoming His Excellency the Governor, Mr. V.A.H. Biggs pointed out that the Ball had been given now for a great number of years. He himself had attended them for forty-two years without a break. (Applause.)

Some little time ago, the speaker continued, somebody dared to whisper that the Club should discontinue the May Ball. Now, though they were having some most drastic changes in the life of the Colony he asserted that the dance among other things should not be allowed to be dropped. (Applause.) But last year there was a drop in the accounts of over twenty pounds due mostly to the Children's Treat. He was certain they did not want the children to be robbed of one thing worth while. The little ones had to put up with enough trials and troubles. They were not now allowed to roam the Common from end to end without anyone interfering with them. Previously no trespass notices were put up restricting their pleasures so he advised them to put their hands deeper in their pockets next time the list went round for the children.

"To-night," Mr. Biggs concluded, "has also another mark of interest for we have the electric light in the Town Hall.

I must say this is the first time the May Ball has been held with electric light. and this is entirely due to His Excellency the Governor who has done a tremendous amount of good. We have asked His Excellency's permission also to-night for a demonstration of the loudspeakers to be given in the Town Hall and I cannot but say that if they are as good as the loudspeakers in the houses nothing more could be desired." (Loud applause.)

In rising to reply His Excellency was received with a tremendous ovation. He explained that he could not say he had attended the May Ball dances for forty-two years but perhaps he would be able to say so later on. (Laughter and Applause.) He had listened to what Mr. Biggs had said with great pleasure but there was one thing which came as a surprise. He did not know any restrictions had been made on the peregrinations of the children and he would assure Mr. Biggs that they would be allowed to wander anywhere they liked unless they were threatened by the danger of being lost or charged by cattle.

The Governor expressed his great pleasure at having been able to have the electric light installed although in one way they had suffered as the attendance in the gallery opposite him, which he thought was called the "Skinning Gallery", had sadly dwindled evidently shunning the bright light! However, if the habitues wished it, he would ask Mr. Byron to dim or shade the lights in order that they might return to their old haunts and the revenue not drop. (Laughter and applause.) He was very pleased to see so many people present that evening and he sincerely hoped that the May Ball would never cease to function as it brought among them a number of welcome friends from the Camp. The young ladies in Stanley, he was sure, would sadly miss it if it were to end. But His Excellency did not think there was any danger of that happening if they took the attendance there that evening as any criterion. (Applause.)

"This winter", the Governor continued, "we are trying to liven Stanley up as much as we can. In July we are going to give a performance which I hope many young people from the Camp will be able to attend and enjoy. I have also great pleasure in stating that Vice-Admiral Sir Vernon Haggard, K.C.B., the new Commander-in-Chief, will probably pay us a visit before long. He has undoubtedly heard from the late Commander-in-Chief about our Beauty Chorus! So we have several things to look forward to. (Applause.)

"To-night, I am going to give you a demonstration of our loudspeakers because many people from the Camp have not heard them. We are experimenting with a new idea to enable people to give dances by simply applying to Mr. Byron and thus relieving the bands to whom we owe so much for the public-spirited way they always oblige with their services when it is not convenient for them to attend. I feel it must be difficult to arrange for orchestras to come to the Town Hall night after night as they have so many calls on their spare time. I, for one, firmly believe that dances are very good things during the winter months because they give a great deal of recreation and social pleasure. As for the music to-night you will be able to decide for yourselves whether it is good or not." (Loud applause.)

In conclusion His Excellency facetiously reminded the young ladies of the song "Here we come gathering Nuts in May." He counselled them to be quite sure that none of the (k)nuts he could see on his right went back to the Camp but also be quite sure to see before they picked their (k)nut that a good kernel was inside. (Prolonged and loud applause.)

The Socialist Government are now expected to survive by a small majority the Conservative Challenge on Unemployment on Wednesday next. It became apparent in the House of Commons on Friday that the rebels in the Party have not been crushed.

It is likely that both the rebels and the Liberals will abstain from voting on Wednesday.

THE "BERENGARIA" SAILS

WITHOUT THE EDITOR OF ITS DAILY PAPER.

"Daily Mail's" Enterprise.

When the liner "Berengaria" was due to leave Southampton on Saturday morning with Mr. W.H. Robertson as travelling editor of the "Atlantic Daily Mail" which is printed on the "Berengaria" and twenty-one other Cunard and Anchor liners, Mr. Robertson was found to be seriously ill and unable to travel. Arrangements were immediately made to transfer him to a nursing home and the ship sailed with the up-to-date daily newspaper but with no editor.

The facts were communicated to the headquarters of the "Atlantic Daily Mail" in London and within four minutes the services of another editor, Mr. S.E. Young, were secured. An aeroplane chartered from the Imperial Airways took him to Cherbourg and as the "Berengaria" crossed the Channel the 'plane winged her way along the same route of the ship which had had a flying start but was beaten by a short head. Mr. Young caught the ship at Cherbourg with eleven minutes to spare.

This was made possible by the prompt action of the Cunard officials at Southampton, by the celerity of the Imperial Airways who placed a special 'plane at the disposal of the "Atlantic Mail" and by the cooperation of the head of the Cunard Line at Cherbourg who arranged for a high powered car to wait at the aerodrome to convey Mr. Young from the landing grounds to the docks.

HUMAN WHO SCREAMED WHEN TOUCHED.

Faint Shadow Of Skeleton.

A most astonishing patient just discharged from a London Hospital is a woman whose bones were slowly vanishing from the body. An X-rays examination revealed a faint shadow of a skeleton instead of a solid structure and she screamed when anyone shook her hand.

Research showed that the wasting skeleton was due to a deficiency of calcium. The body's supply of calcium is controlled by a small gland in the neck and in the case of the patient the gland was not functioning. When the defect was remedied the bones renewed themselves, the pain was lost and the broken thigh from which the woman had been suffering from, healed.

MISS AMY JOHNSON.

SAFE ARRIVAL AT PORT DARWIN.

Graphic Story.

Miss Amy Johnson's safe arrival at Port Darwin on Saturday was greeted with enthusiastic delight throughout Australia. She has been officially welcome on behalf of the Australian Government whose guest she is while staying in the country. The King telegraphed the Governor-General of Australia - "The Queen and I are thankful and delighted to know of Miss Johnson's safe arrival in Australia and heartily congratulate her upon her wonderful and courageous achievement. The premier, Mr Ramsay MacDonald, and Lord Thomson (Air Minister) were among others who sent congratulations to the English Girl Lindbergh.

Telegraphing to the "Daily Mail" Miss Amy Johnson states that although the white population in the vicinity of Port Darwin is about 800 over 1,000 coloured and white assembled with three hundred and twenty motor cars to greet me. The message goes on to say that the crowd were astonished to see such a flapper step out of the cockpit and it was impossible for them to imagine her capable of the flight.

The 'plane showed very little signs of wear and only one wing reveals the bracing wires. The engine is in perfect order and while crossing the Java Sea, storm and rain beat my single seater Gipsy Moth down until it just skimmed the waves. I expected every minute to be the last for it only required the 'plane to touch a wave and then 'good-bye'.

"I would not take on the trip again in Monsoon time. Group Captain Cave-Brown-Cave R.A.F. at Singapore, and other fliers advised me to abandon the trip as it was considered madness to go on with the attempt. On one occasion I followed the Java coast for five hours and could not see sky, sea or land but only a dim haze of the Java Sea when the 'plane nearly hit the waves. I was surrounded on all sides by rainbows the weird effect of which nearly made me lose my nerve. At last I saw a bright spot between two rainbows, and came out and round land. This weird experience lasted three hours."

At a civic reception at Port Darwin on Saturday night the Mayor Mr. Adams said I had achieved an almost impossible feat and every single man in the world would want to propose to me. I asked the people of Port Darwin to call me 'Johnnie' as that is the name by which I am best known in England.

A GREAT ANNIVERSARY.  
ASCENSIONTIDE MESSAGE.

(by The Very Reverend The Dean)

On Thursday this week life and pleasure will go on in Stanley and the Camp much as usual; it will not be a public holiday, there will be no special display of flags, there will be no unusual ringing of bells but for many it will be a Great Day, a great anniversary, and a great Coronation Day. It is the anniversary of the return to His Home of The King of Kings, and His Coronation upon the Throne of God. In other words, as all Christians know, next Thursday is Ascension Day, the yearly commemoration of the ascension of our Lord Jesus Christ into Heaven.

It was His return Home. Those who live miles away from their homes friends and loved ones know something of the longing for home, and if during their exile, they are engaged in bitter warfare, as so many were in the years 1914-1918, their longing for home and peace is all the more eager and intense. So it was with our Lord; He came down to this world where He fought many a fierce battle with evil, and where, in the conflict, He received five great wounds in hands and feet and side. But on Ascension Day He returned Home. No more suffering no more pain no more hardship, no more wounds. Some of us remember the rejoicing and flag waving and guns thundering and bells ringing that took place when some of the heroes of earthly warfare returned home. What must it have been in Heaven when Christ returned Home? The angels and archangels and all the company of Heaven rejoiced and the trumpets sounded for Him on the other side.

It was His Coronation Day. The King of Kings and The Redeemer of Kings takes His place upon the throne of God. As St. Paul says:- God highly exalted Him, and gave Him a Name which is above every name, that at the Name of Jesus every knee should bow, of things in heaven, and things in earth, and things under the earth, and that every tongue should confess that Jesus is Lord, to the glory of God the Father."

He reveals our destiny. When He went up to Heaven He took with Him a human nature. He raised our nature to the very throne of God, to teach us that the end of life is not to rot in death to the dust of the grave, but, if we try to serve Him here on earth and live, by His grace, decent and clean and straightforward lives, that our destiny is to be with Him for ever.

Amid the drabness and difficulties and sorrows and wickedness of this life, it will do us good to "lift up our hearts" to the higher and brighter and purer life which God offers us in Heaven and of which, if we like and by His grace, we may experience something now.

### £10,000 FOR MISS JOHNSON.

The "Daily Mail" announces that the paper has instructed their bank to pay Miss Amy Johnson the sum of £10,000 in recognition of her magnificent flight to Australia. This is the largest amount ever paid any woman for a feat of daring.

Previous sums paid by the "Daily Mail" include £1,000 to M. Bleriot for the first cross-Channel flight in 1909; Beaumont received £10,000 for the first flight round Britain in 1911 while Alcock and Brown were presented with £10,000 also for the first trans-Atlantic flight in 1919.

After attending the welcome of the Victoria League the day she arrived Miss Johnson went to bed and slept soundly for eleven hours. After breakfast the next morning she played a few games of tennis and then, with the aid of a private secretary provided by the Government, attempted to deal with the thousands of telegrams and cablegrams from all parts of the Empire.

Miss Johnson left Darwin on Monday for the first stage of her flight across the country. After a journey of 375 miles over tree-tops and dead level plains she arrived at Dalywaters at noon and left after re-fueling making for Alexandria Station about two hundred miles away. Owing to the absence of telegraph stations no news was expected to be received concerning her progress until she reached Long Reach where she was due yesterday afternoon.

There were over two hundred casualties including about ten killed.

It was the duty of everyone, Major Moir continued, to be interested in the training of the Wolf Cubs and Boy Scouts. In this matter His Excellency the Governor set a leading example which all ought to follow. As Chairman of the Local Association, the Hon. J.M. Ellis (Colonial Secretary) also took a keen interest in the Movement. He went on to explain that the boys were not going to give a special display that evening. They were merely going to show them the work they did at their meetings in the Scout Club Room. He hoped all the parents would take a great interest in the Movement. The Pack wanted to show them what Cubs could do.

Included in the programme were games modelled on the Jungles Tales from Kipling interspersed with the formation of the Parade Circle when various tests were made, or the separation of the Pack into the different sixes for Sixer work. It was a kindly thought, too when Mr. Killop invited the boys and girls among the audience to join with the Cubs in some of their games. Everything was intensely interesting and every move was carried out quickly and enthusiastically.

The Cubs on parade were : Ernest Fuhlendorff (Senior Sixer); O. McPhee, R. King, P. Bowers, D. Newing, S. Hennah and L. Hirtle (Red Six); R. Lellman, V. King, F. Aldridge, H. Sedgwick, A. Thompson and T. Biggs (White Six); E. Meierhofer, S. Allan, L. Summers, and J. Bowles (Green Six); T. Thomas, S. Barnes, D. Grier-son, K. Lellman, D. Harries and B. Gatten (Brown Six).

#### CHURCH ENTERTAINMENT.

##### Hall Rocks With Laughter.

The newly formed Church Entertainment Committee's first effort could not have found a better reception than that received when a Concert and Dance were given in the Church Hall on Monday. The encouragement given by the large audience was not misplaced and for an hour the Hall reeked with laughter or echoed with applause during the concert. The fact that that part of the entertainment was organised by Mr. W.J. Davies at once would assure its success though with such an excellent partner as Mr. A.W. Beardmore in the role of comedian more than half the difficulties which might have been encountered were brushed away with one sweep.

Mr. Beardmore is a born maker of mirth and the extent to which his high talent was appreciated can be gauged by the fact that an early turn - "The Gay Cavalier" - had to be repeated before the end of the performance. But from the opening chorus to the finale everything went with a swing and so good were the other members of the Concert Party that their ability was not dimmed by the versatility of Mr. Davies or the mirth of Mr. Beardmore who showed themselves perfectly at home in their songs and cross-talk. In these as in the Hunting Sketch in which Mr. H. Thomas was the third member with the Party assisting in the chorus, the applause was loud and long. Mrs. Brown delighted all with her pianoforte solo while Mrs. Pallini, taking the title character in the Sketch "Cook", gave Mr. Davies and Mr. Beardmore admirable support. We were delighted to hear again Mrs. Kelway's voice in the charming duet sung by her and Mr. Davies and later, in a solo for which she received a well deserved encore. The other members of the Party, who did so much to make the performance as successful as it was, were the Misses M. Summers, D. Atkins and E. Berntsen, Mr. K. Lellman, and Mr. W.D.A. Jones who also acted as announcer.

Following the Concert the Hall was cleared of chairs and, with the Stanley Jazz and the Melody Sheiks Bands taking command, the floor was quickly filled with dancers who numbered as many as two hundred. Mr. S. Browell as usual carried out his duties efficiently as M.C. ably assisted by Messrs. A. Newing, D.E. Richardson, A. Lellman and T. Binnie as Stewards. The refreshments were admirably arranged by the Ladies of the Entertainment Committee - Mesdames Brown, Molloy and E.J. Gleadell.

HIS MAJESTY THE KING.

We deeply regret to learn of the indisposition of His Majesty the King, who is suffering from an attack of rheumatism. But it is reassuring to know that the attack is not serious and it is in no way connected with His Majesty's recent illness.. Apart from the Courts His Majesty is following the normal routine.

ROLLS ROYCE COMPANY'S DECISION.

The "Daily Mail" City Editor understands that the English Company of Rolls Royce are taking steps to close down on the production of cars in America.

In answer to inquiries, the Managing Director of Rolls Royce said he could make no statement on the subject but at the Annual General Meeting last month the Chairman said that extensive work would be carried out at the Derby Works for the Rolls Royce American Company. It is understood that the English Company's employees are working double shifts to meet the increased demand from America.

RIOTS AT LUCKNOW.

Grave rioting has taken place in India during the last two days and on Tuesday, for the first time, the outbreaks spread to Lucknow the scene of the famous siege during the Indian Mutiny in 1857/8. The police were forced to fire on the mob led by Gandhi's Volunteers. Four persons were reported killed and thirty injured.

Rioting in Bombay continued on Tuesday having proceeded all through Monday night. The casualties included four killed and fifty-three injured.

WEST STORE NEWS AND CHIT CHAT.

Chatterbox Page.

Mr. Punch's advice to those about to get married is

DON'T.

Our advice to those who want the best goods at the lowest prices, is

DON'T go elsewhere till you've tried the West Store.

- o -

How do our 'specials' strike you this week ?

Dutch cheeses. What can we tell you about these. Everybody knows what Dutch cheeses are like and these are no exception, the only difference being in the price.

Walking Sticks. Just the thing for winter. No, they won't keep you warm or your feet dry but you will find one very useful when the snow is packed down and slippery. They can also be used to test the depth of the mud before walking through it in wet weather.

Gold Block Tobacco. This is well known to all smokers as the tobacco with the fine aromatic smoke.

Wills' Embassy Cigarettes. The manufacturers regard these as their best cigarettes. What do you think ?

Toilet Sets. You can buy these on Saturday at 50% off the marked price. We are confident that such value has never been offered, not even in the West Store.

Millinery Store. These bargains show the usual value. You ladies should not neglect paying a visit to our Millinery branch.

- o -

WEST STORE SPECIALS. SATURDAY 31st MAY. MILLINERY SPECIALS.

Dutch cheeses 4/6.

Silver mounted walking sticks 4/6.

Gold Block Tobacco 2/6 per tin.

Embassy Cigarettes 2/- per tin.

Toilet Sets. 50% off marked prices.

Coloured cotton and

Lace camisoles. 2/6 each.

Yellow crepe Stanley

3/6 per yard.

Ladies Black Kid gloves

MacNab. "How much to press a pair of trousers ?"

Agent. "One shilling."

MacNab. "Then press one leg for sixpence - I'm having my photograph taken side view."

NEW CUNARDEP.

Work For Three Years.

It is officially announced that the new Cunard Leviathan, with which it is hoped to regain the Atlantic speed record for Great Britain, is to be built by John Brown and Company, Clydebank, at a cost of six millions sterling. The work will thus relieve the depression in the Clydeside for some five thousand men will be employed for at least three years.

The new vessel will be of 70,000 tons and will have a speed of thirty knots with luxurious accommodation for 4,000 passengers and over five hundred crew. It is to be built as strong as a cruiser to withstand the strain when travelling at full speed and the ship yard stocks are to be specially lengthened for the new ship which will be 1,000 feet long.

John Brown and Company have already built six Cunarders including the "Aquitania" and the ill-fated "Lusitania". There is great rejoicing at the announcement of the contract.

REORGANISATION OF B.B.C.

New Chairman and a "Showman".

The "Daily Mail" learns that an important reorganisation of the B.B.C. with the appointment of a new Chairman is being considered by the Cabinet.

Mr. J.H. Whitley, the former Speaker of the House of Commons, is likely to succeed the Chairmanship of Lord Clarendon who is becoming Governor-General of South Africa. It has also been suggested that a "Showman" should be appointed to the Board of Governors and C.B. Cochrane's name has been unofficially mentioned.

RIOTS IN RANGOON.

Police Captain's Lone Hand.

The rioting between the Burmans and Indian coolies is still continuing and the total casualties have reached - 94 killed and 334 seriously injured. Captain Rust of the Rangoon Military Police, armed with a revolver and alone, held the rioters - a mob of a thousand Indian coolies and dis-armed them without firing a shot.

The situation is quieter in India but the Bombay correspondent of the "Daily Mail" reports that the Indians' Congress Committee is sending 207 volunteers to Sholapur, the scene of the recent bad riots, to defy martial law and raise the prohibited Congress flag. Unless drastic steps are taken serious consequences seem inevitable.

LEGISLATIVE COUNCIL MEETING.

Colonial Treasurer's Report For 1929.

Fire-Arms Ordinance.

Bills Become Law.

A Meeting of the Legislative Council was held in the Council Chamber yesterday morning when His Excellency the Governor presided. The members present were the Hon. J.M. Ellis (Colonial Secretary), the Hon. M.C. Craigie-Halkett (Colonial Treasurer), the Hon. J.L. Moir (Principal Medical Officer), the Hon. G. Roberts (Colonial Engineer), the Hon. G.J. Falton and the Hon. L.W.H. Young with Mr. G.R.L. Brown (Acting Clerk to the Council.)

The Hon. Colonial Treasurer's Report and Financial Statement for the year ending 31st December, 1929 was laid on the table. The report showed that the total revenue collected from all sources in the Falkland Islands during the year amounted to £73,598-19-5, the amount collected in ordinary revenue being £66,649-19-8, Land Sales £6,842-19-9 and Marine Insurance Fund £106. The total expenditure incurred during the year amounted to £59,041-9-5, Ordinary expenditure accounting for £46,000-2-10 and Extraordinary expenditure £13,041-6-7. The total revenue exceeded the total expenditure by £14,557-10-0 thereby increasing the Surplus Balances from £241,849-3-8 on the 1st of January 1929 to £256,408-13-8 on the 31st December 1929.

The Ordinary revenue of the Dependencies, exclusive of the Research and Development Fund, amounted, during the year, to £122,813-19-11. It exceeded the Dependencies expenditure for the year by the sum of £83,428-13-5 which was transferred from the Dependencies Account to the credit of the Research and Development Fund. The ordinary revenue exceeded the original estimate by the sum of £30,768-19-11 but was £71,339-10-0 less than in 1928.

Other papers laid on the table were 'Regulations amending Sections 7 and 11 of the Consolidated Leave and Passage Regulations of the 23rd September, 1929' and the 'Hospital and Medical Fees Regulations 1930.'

In introducing a Bill to legalise certain payments for the year 1929 in excess of the expenditure incurred by the Ordinance No. 13 of 1928, the Hon. Colonial Secretary, explained that the amount involved was £20,739-11-6 of which £15,098 was on account of the Dependencies.

(continued over -

The Hon. Colonial Secretary then introduced a Bill for the Registration of Fire-arms. Hitherto in the Colony, he said, there had been no registration of fire-arms and the Government had no knowledge or check as to the fire-arms in the Colony or imported into the Colony. He thought the Falkland Islands must be the only Colony and almost the only country where the Administration had not some similar check. It was only to be wondered at that powers had not been provided earlier. The Bill was primarily introduced for administrative purposes and secondarily only for financial reasons. The financial object was not to increase the revenue but to simplify its collection. In the past, particularly in the Camp, the Treasury had no means of checking the number of persons carrying guns or taking out licences. The matter had been left to the discretion of the Camp managers or shepherds. But, as a result of the Bill, collection would become automatic.

It was not intended to increase the revenue and therefore the sole fee to be paid for the possession and use of a gun had been reduced from 10/- to 7/6 for the year. Since the publication of the Bill it had been represented that this might hit hard a number of persons in the Colony, and particularly shepherds in the Camp, namely men with more than one gun, and he, the Colonial Secretary, proposed to bring forward an amendment when the clauses of the Bill were brought before the Council in committee that the fee should be further reduced from 7/6 to 5/-. The ordinary man would therefore still be able to have two guns for the payment of the same amount of 10/-. In many cases the Ordinance should prove to be a positive benefit for, instead of paying 10/- for carrying a licence a man would only have to pay 5/- for the possession of a gun and be free to use it where-ever and whenever he pleased.

Mr. Ellis went on to say that other representations had been made and when the Council went into Committee he would move further additions to the saving clause so as to exempt from the operation of the Ordinance rifles which were the private property of members of the Defence Force Rifle Association and which were used for the sole purpose of target practice. Though the owners would be exempt from the Ordinance and the payment of the annual fee, they would have to register their rifles with the Commanding Officer of the Defence Force. Furthermore he would propose that exemption from the provisions of the Ordinance should be made in the case of guns kept for bona-fide sale by recognised dealers in fire-arms.

The Amendments were duly passed in the Committee stage of the Bill. An amendment proposing that the taxation should be personal and irrespective of the number of guns, introduced by the Hon. G.J. Felton, was not adopted.

A Bill providing for the better control of dogs in the Colony was enacted. The Hon. Colonial Secretary remarked that the Bill had been brought before the Council on the motion of the Hon. G.J. Felton and with the support of the Hon. W.H. Luxton. It was intended to protect ewes during the breeding season from attacks by dogs crossing the Camp and through the paddocks where such ewes are kept. The concluding business of the Council was to pass a Bill amending the Post Office Ordinance 1898 bringing the local practice in this connection into line with the International order to prevent counterfeiture of stamps at oterra and the traffic in illicit drugs.

JAPAN AND NAVAL AGREEMENT.

Government Irregularity.

The Naval members of the Supreme War Council of Tokio have passed a resolution that the Japanese Government committed an irregularity in signing the London Naval Agreement and had disregarded the advice of the Naval General Staff.

The War Council's action is unlikely to affect the Naval Treaty but it may affect the position of Admiral Takarabe, the Minister of Marine who attended the London Conference.

THE CHANNEL TUNNEL.

Disapproval Of Scheme.

The "Daily Mail" political correspondent writes - "I understand that, as the result of the decision reached by the Committee of Imperial Defence at a meeting held on Thursday, it is now unlikely that the Government will express approval of the Channel Tunnel Scheme although the final decision has not yet been reached.

The Committee are expected to report to the Government against the Scheme both on economic and strategic grounds. If the Government finally reaches an adverse decision there is no doubt that there will be pressure in Parliament for the disclosure of reasons. Opinion remains largely in favour of the Scheme which is supported on all sides of the House.

GOLF CHAMPIONSHIP.

Bobbie Jones Favourite.

The "Daily Mail" golf correspondent writes that events are shaping for the Anglo-American Golf Championship Final to-day which will see a worthy conclusion to the Amateur Golf Championship at St. Andrews. Anyhow, it cannot be all-American as many predicted after the crushing defeat of Great Britain in the Walker Cup.

Bobbie Jones still remains the strong favourite though he only beat Harrison Strong, the present United States Amateur Champion on the last green. Their clash attracted the largest crowd of the day.

The most unexpected result of the Fifth Round was the defeat of Vonelm by the Hon. Michael Scott. Guimet was out-played by Lister Hartley who won with four threes.

BULL FIGHTING IN FRANCE.

Scenes of wild disorder took place on Thursday afternoon at Melun, near Paris, where 500 men, women and girls, members of the Society for the Prevention of Cruelty to Animals tried to stop a Bull fight. The fight was realistic in every particular except the bulls were not to be killed.

Those protesting went to the front of the ring armed with police whistles and when the picadors appeared pandemonium broke out. Led by a pretty athletic woman the members of the Society scrambled into the ring and formed a circle facing the picadors.

Spectators rose to their shouting and free fights broke out round the ring. It was not until after many charges by the gendarmes that the demonstrators were thrust back and the bull-fight continued amid the uproar.

## FORTUNE Knocks at Your Door, NOW!

—Revelations of this significant offer

### SIGNIFICANT FACTS

There is an out-of-season period when no one seems to buy leather. Leather stocks in London and elsewhere had to be sold. Williams secured this high-grade box call leather at even lower prices than before the War, and the price concession obtained when this leather was bought could not be secured now. Williams are actually offering these Boots and Shoes at prices 3/6 per pair extra. "COMBIBABLE" footwear have no equal in quality. BUT they have many limitations in appearance, hence, beware of the profiteers. Reduce all substitutes. For Williams with their 33 and 34½ years experience and undoubted reputation for highest quality leather at lowest prices, you can only expect the unparallelled bargains, which will extend all over the world.

A POPULAR WEDDING.

Mr. F.B. Dixon And Miss E.M. Riches.

More than considerable interest was shown in the marriage of Mr. Frederick Basil Dixon, the second son of Mrs. Dixon and the late Mr. W.B. Dixon, to Miss Dorothy Maud Riches, the eldest daughter of Mr. and Mrs. S.H. Riches, which took place on Saturday afternoon in the Cathedral, for both the bride and bridegroom are members of highly respected and well-known families in Port Stanley. Miss Riches herself, has been a teacher at the Government School for the past nine years and for a long time, until quite recently, she was a Sunday School teacher.

The Cathedral was almost packed as the bride was escorted down the aisle by her father who gave her away to the waiting 'groom who was standing by the chancel steps with his eldest brother, Mr. E.V. Dixon - the best man. The Very Reverend the Dean, who performed the ceremony, and the choir met the bride at the doors and as the procession passed through the church during the singing of the hymn every eye in the congregation was focussed on her with wrapt admiration.

With a happy smile Miss Riches looked a perfect picture in her beautiful gown of cream satin beaute with georgette and trimmed with pearls and diamente. On her head was her mother's veil and the symbolical wreath of orange blossom while in her gloved hand she carried a bouquet of bronze and white Crysanthemums and a spray of White Heather.

Her sister Vera, as bridesmaid, looked no less charming in her becoming gown of pastel blue trimmed with diamente and carrying a bouquet of pink Chrysanthemums; her hat to match was set off with delicate Rose buds. The two little attendants, Connie Riches - the youngest sister, and Cora Newing - a cousin of the bride, looked perfectly sweet in their pink frill frocks, caps to match and little silver shoes and socks. To complete the charming picture each of the two carried a pretty posy of Rose buds and Sweet Peas.

Before the service and after, Mr. A.W. Beardmore, the organist, played appropriate festal music including Mendelssohn's "Wedding March". As the happy couple passed out after signing the register, they were met with showers of confetti and were almost snowed under before they could gain the welcome protection of the car kindly loaned by Mr. E.G. Rowe and driven by Mr. G.L. Pallini.

At the Town Hall some two hundred and fifty guests assembled to offer their congratulations to Mr. and Mrs. Dixon and to enjoy the excellent Tea-Dance provided for the occasion. Mr. W.J. Davies made a first-rate M.C. and with the merry music of the "Stanley Jazz" and the "Melody Sheiks" bands contributing their share, everyone was soon put at ease. The delicious catering was under the able supervision of Mr. J.F. Summers who also made the greatly admired wedding cake. Two great features of the Party were the set of Lancers for which Mrs. R. Robson very kindly played, and the song entitled "Here's to the Bride and Bridegroom" - a vocal interpretation of Mendelssohn's "Wedding March" rendered by Mr. Davies. It was not until about 8.0 p.m. that the happy gathering dispersed.

The bride and bridegroom were the recipients of many beautiful and useful presents outstanding among them being an autographed copy of one of His Excellency, the Governor's books "Seven Years in Abyssinia." Presents were also received from the Government School staff - Mr. W.J. Davies, Miss Purdie, Miss MacKenzie, Mrs. Osborne, Miss Carey and Miss Newing, while among those who sent gifts from England and Scotland were Mr. and Mrs. Reid of Perthshire, Mrs. Bird of Cookham and Mr. and Mrs. Payn of Canterbury.

P.S.A.

The usual monthly meeting of the Pleasant Sunday Afternoon took place yesterday in the Tabernacle when there were a good many people present. Mrs. Kelway sang "The Promise of Life" and Mr. W.J. Davies rendered "My Task". Both singers were accompanied by Mrs. Brown who also gave as an organ solo Handel's "Largo in G."

SHIPPING NEWS.

Up to the time of going to press yesterday evening no news had been received of the departure of the s.s. "Falkland" from Monte Video.

The s.s. "Fleurus" is going to Port Howard during the week probably to-morrow (Tuesday) and return to Port Stanley about Friday leaving direct for South Georgia as soon as she has collected the Dependency's mail from the s.s. "Falkland".

The cutter "Peronelle" arrived back in Stanley harbour late Saturday afternoon.

TELEPHONE LINES SEVERED.

While excavating for the laying of a drain near the Colonial Secretary's Office on Friday a Public Works' gang of men unfortunately laid bare the telephone lines leading to the west end of the town and some of these were accidentally cut by a chance blow of a pick.

The trouble was not serious and by this time the damage has most probably been repaired.

BADMINTON MATCH.

Men's Doubles.

The Town Club were entertained by the Defence Force Badminton Club to a men's doubles match in the Drill Hall yesterday afternoon when the Town won after a good struggle by 7 games to 2. Each Club played three pairs and at the conclusion a singles match was begun but, unfortunately, through the failing light this had to be abandoned with the Defence Force Club having won both the games played.

The scores, with the members of the Defence Force given first, were :-

Mr. W.M. Allan and Mr. R. Campbell lost to Mr. A.W.N. Vincent 9 - 15, beat Dr. W.B.R. Jones and Mr. L.B. White 15 - 7, and beat Mr. W.D.A. Jones and Mr. H. Thomas 15 - 2.

Mr. W. Aldridge and Mr. M.G. Creece lost to Mr. Vincent and Mr. Byron 15 - 18, lost to Dr. Jones and Mr. White 5 - 15, and lost to Mr. Jones and Mr. Thomas 10 - 15.

Mr. D. Fleuret and Mr. V. Summers lost to Mr. Vincent and Mr. Byron 8 - 15, lost to Dr. Jones and Mr. White 12 - 15, and lost to Mr. Jones and Mr. Thomas 8 - 15.

In the singles games Mr. Allan beat Mr. Vincent 11 - 5, and Mr. Campbell beat Mr. Byron 11 - 5.

HIS MAJESTY THE KING'S BIRTHDAY.

Yesterday Morning's Impressive Ceremony.

His Excellency's Speech.

A more inspiring parade, significant of the loyalty and respect in which our staunch Islands hold His Majesty the King, could not have been more sincerely expressed than at the Ceremonial Parade held in the Town Hall on the occasion of His Majesty's sixty-fifth birthday yesterday morning when the Defence Force, Girl Guides, Boy Scouts, Brownies and Wolf Cubs took the Salute before His Excellency the Governor who also carried out an inspection.

Accompanying His Excellency were the Hon. J.M. Ellis (Colonial Secretary), Major the Hon. J.I. Moir (Commanding Officer of the Defence Force), and Mr. G.R.L. Brown (Private Secretary). On the platform watching the fascinating scene Mrs. Hodson, the Hon. M.C. Craigie-Halkett, and Mrs. Halkett, Mrs. Moir, the Hon. G. Roberts and Mrs. Roberts, the Hon. W.L.H. Young and Mrs. Young, the Very Reverend the Dean, the Rev. S.E.E. Aylward, Mr. and Mrs. A.W.N. Vincent, Miss Bessingham, Mr. E.G. Rowe, Mrs. Jones, Mr. G.I. Turner with the Heads of Departments and their staffs.

At the west end of the Hall a large number of the public had gathered and were obviously keenly thrilled. Adding to the impressive character of the proceedings was the broadcasting of military music by such bands as the Guards, relayed to the Town Hall from the Studio and through the ten loudspeakers which have recently been placed into position round the walls. This innovation was greatly appreciated.

The Parade assembled in the centre and south bays of the Hall with the Girl Guides, Boy Scouts, Brownies and Wolf Cubs smartly in line under their respective officers - Mrs. Williams (Commissioner), Mr. E.L. Frewin (Group Scoutmaster), Mrs. Vaughan (Brown Owl) and Mr. T. Killop (Acting Submaster).

The Defence Force, with a precision worthy of the excellent training to which Lieutenant W.N. Allan has devoted the whole of his skillful ability, marched into their places smartly, equipped with their rifles and, at a prompt command, fixed bayonets with amazing dexterity. With Lieutenants Allan, A.B.R. Jones and J. Morton at their head they were ready for the appointed moment when His Excellency, who is also the Commander-in-Chief of the Force, should appear. On the very stroke of eleven - the precise second advertised - the Broadcast music had ceased and the Governor entered, distinguished in his uniform and accompanied by the Hon. J.M. Ellis, Major Moir and Mr. Brown.

(continued over -

Lieutenant Allan, who as Adjutant was in command of the Parade, whipped out the order "Present Arms" and, as one man, the Force cleanly and crisply came to the salute. Everyone stood rigidly to attention while the National Anthem was played by the Defence Force Drum and Pipe Band who are now more than a useful adjunct to the Force and are to be deservedly commended for their enthusiasm.

The commands "Order Arms" and "Stand at Ease" relaxed the tension but a pregnant silence awaited the opening words of His Excellency's speech.

"Major Moir, Officers, Non-Commissioned Officers and Men of the Defence Force" the Governor commenced, "You are gathered together to-day in honour of His Majesty's birthday. It is unnecessary for me to say a great deal about the King because you all know as much about His Majesty as I do. I do think on this particular birthday we are all extremely happy because we feel that the King has got through his terrible illness safely and I am sure, we all hope most sincerely he will be spared to us for many years.

"As you know, we English do not show our feeling easily but I do think once a year it does no harm to remember what the King stands for. Our Empire is scattered and the King is, so to speak, the hub of the wheel on which the whole work and administration of the different Colonies and Protectorates revolves. It is pleasant to think to-day that we, in this Colony, although far away, are doing our bit and it is with thankfulness and with pride we realise how much you men of the Defence Force have done to raise up the name and prestige of the Colony. I am perfectly certain where so much keeness and enthusiasm is to be found that the Defence Force will go on from strength to strength. It is obvious to all that you are improving month by month and year by year in efficiency.

"The Force now, I am proud to say, is ready to take the field, fully equipped and well trained for any emergency. I do hope those members of the Public here to-day will realise what a real debt of gratitude they owe to these men who give so much of their time and trouble to become good soldiers, because the Defence Force is no child's play at all. It is a very real and living thing and is taken seriously and in the right spirit as it should be, and as I told you before the Defence Force has been congratulated by the Secretary of State for its excellent showing against His Majesty's Ships which is an honour few of our Colonies can have had.

"As the Governor and the Commander-in-Chief I am extremely proud of the Officers and Men. I am also glad to see so many of the younger generation such as the Girl Guides, Boy Scouts, Brownies and Wolf Cubs present to-day. I am sure you will all agree with me it is an excellent thing for the younger generation to be so well trained and disciplined. I wish to thank very much indeed all those ladies and gentlemen who have taken and are taking so much trouble in looking after them. I have not time to say any more to-day as I have to inspect you all. Therefore, I will now conclude by thanking you - Major Moir, Officers and Men, on the really splendid Parade I see in front of me."

At the conclusion of his address His Excellency the Governor made his inspection and the ceremony which could not but excite the deepest admiration, concluded with the National Anthem. It was typical of his sincere appreciation of excellent work well done that the Governor, as he passed out, should whisper his heartiest congratulations to Lieutenant Allan on the manner in which the Parade had been carried out. In the evening His Excellency the Governor held an Official Dinner at which the members of the Councils and their wives were present.

HEROINE OF A NAVAL VICTORY.

Telephone Reports Which Sank Two Ships.

Falklands Epic.

Englishwoman's Four-Hour Ordeal.

(The following is an account of an interview secured by a representative of the "Daily Express" on the arrival of the m.v. "Lobos" in England in April and which we publish as of considerable interest to our readers.)

A woman who sat for four hours by her telephone transmitting to Admiral Sturdee information which proved of great importance in the Battle of the Falkland Islands arrived in London yesterday with her husband.

She is Mrs. Creamer, formerly Mrs. R.S. Felton, the daughter of an English professor who settled in the islands, which are about two hundred and fifty miles from the mainland of South America.

Presence Of Mind.

Mr. Creamer told a "Daily Express" representative the story of his wife's presence of mind and initiative which resulted in the sinking of two German ships and earned for her a silver salver, which was presented by the admiralty, and the O.B.E.

"On December 8th, 1914," Mr. Creamer said, "my wife was at home in her farmstead at Fitzroy with her three children, two maids and a boy servant. Her maids reported to her that they had seen from a hill nearby three German ships making for Stanley.

"These were the "Baden" and the "Santa Isabel". The third vessel is believed to have been the "Seidlitz" - either a hospital ship or a transport.

"She immediately ordered the maids to saddle two horses and to ride in relays to the top of the hill, and report to her every few minutes the ships' movements. Meanwhile, she telephoned to the authorities in Stanley, and her reports were rushed to Admiral Sturdee.

Pursuing The Germans.

"She sat there for four hours, with her baby boy in her arms, while her messages directed the movements of the "Bristol" and of the armed liner "Macedonia", which set out in pursuit of the Germans.

"The enemy tried to steam at full speed for safety, but the information which reached Admiral Sturdee minute by minute enabled the British to follow them. In a few hours the "Bristol" and "Macedonia" had caught and sunk the "Baden" and "Isabel". The third ship escaped.

"It has sometimes been said that the ships she sighted were the "Scharnhorst", "Gneisenau", "Nurnberg", "Leipzig" and "Dresden", but that is incorrect.

"The two maids who rode to and from the hill-top were presented with engraved silver teapots by the admiralty."

(continued over -

Mr. Creamer is an official of the Falkland Islands Company, and he and Mrs. Creamer have arrived in London after thirty days at sea. Their voyage was a non-stop run of over seven thousand miles on board the motor vessel "Lobos".

They brought with them Mrs. Creamer's thirteen-year-old daughter, Olive, who is visiting England for the first time. They were met at Waterloo Station by Mrs. Creamer's other children - Betty, who has been attending school in England for the past three years, and Roy, who has been one year in an English school.

"My wife's eldest son," Mr. Creamer added, "Mr. J.B. Felton, is sheep farming in Patagonia, and we are here for a holiday. Olive will remain to attend school here when we return to our Falkland Island home."

##### Outbreaks In Bengal.

Serious anti-police riots which have resulted in heavy casualties have broken out near Midnapore in Bengal says the Calcutta Central News. Details are at present lacking.

The Bengal Chief of Police left Calcutta by a special train for the scene of disorder.

A "Sunday Despatch" cable from Lahore says it is rumoured that 6,000 Afridi tribesmen have penetrated the Peshawar city cantonments and came into conflict with troops who drove them out towards the hills where the Afridis were bombed by airmen.

Eighty planes dropped 5,000 bombs in the course of operations which resulted in the raiders being driven back. Both sides had casualties.

#### "LONDON GAZETTE" SENSATION.

An announcement in the "London Gazette" that the presentation of Mrs. Christopher Courtney at the Royal Court has been cancelled was the subject of much speculation on Saturday.

At the office of the Lord Chamberlain strict silence was observed and an official explanation is expected to be forthcoming. Both Mrs. Courtney and her husband, Group Captain Courtney, Director of Operations and Intelligence at the Air Ministry, are well-known in fashionable London.

They were married at the Register Office in Hanover Square on September 1st, 1926. In the marriage certificate Mrs. Courtney was described as Constance May Rayson, 27, spinster, the divorced wife of Alexander Arnold Rayson.

THE DANGER OF STONE THROWING.

Yesterday's Police Court.

Fine Of £2, Imposed.

The danger of stone throwing and its consequences were emphasised at the Police Court held yesterday morning when Raymond J. Carey and Keith McGill were summoned before the Magistrate - the Hon. M.C. Craigie-Halkett - for throwing stones on the roof of the house of Mr. T. Burns, Drury Street, Stanley on the evening of 31st of May.

Carey pleaded 'Guilty' to the charge and stated that Keith McGill had nothing to do with the matter.

In evidence, Police Constable Norris said that while he was on patrol duty in Drury Street about 6.35 p.m. on the evening in question he saw Carey and McGill going along the road together. He then saw Carey pick up a stone and throw it on the roof of Mr. Burns house. Both men were quiet. He did not see McGill misbehave himself. He went up and spoke to Carey about it but the latter did not then acknowledge having thrown the stone. Witness added that he was satisfied that McGill did not throw a stone.

The defendant, in answer to the Court, stated that he threw the stone out of devilment and not maliciously.

The Court pointed out that such conduct must be stopped. Apart from the annoyance it caused the public it was also a danger especially to old people who would be frightened.

There had been far too much stone throwing going on at night. Only recently a heavy stone was thrown through the window of a house and had it struck anybody it might have caused serious injury.

A fine of £2 was imposed on Raymond Carey, this being the full penalty, or one month's hard labour in default. The case against Keith McGill was dismissed.

THE LORDS V. THE COMMONS.

A Parliamentary situation of the greatest importance is developing in connection with the Coal Mines Bill, for it raises the old issue of - The Lords versus the Commons - upon which so many battles have been fought.

Most of the Lords amendments to the Bills have been rejected and the fact that it is being returned to the House of Lords virtually in the form in which it appeared when it first left the House of Commons shows that the Upper House is being challenged in a measure of major importance.

- 2nd. "Iliad", owner Somerville Tattersall, jockey Jones.
- 3rd. "Diolite", owner Sir Hugo First, jockey Ray.

The betting odds on the three horses were :  
18/1, 25/1 and 11/4 respectively.

The message announcing the result of the race was received at Stanley 12.18 local time which, of course, corresponds to 17.18 or 5.18 English Summer Time.

The message was received from the Rugby Radio and its reception at such an hour pays a high tribute to the alacrity and efficiency of modern broadcasting knowledge and skill, particularly when we consider that the result of the race was received in this Colony before the race was actually run as the start was timed for 5.0 o'clock.

### ITALY'S OFFER.

A naval offer has been made by Italy to France in a speech in the Senate given by Signor Grandi, the Minister for Foreign Affairs. Italy, he said, was willing to suspend her 1930 programme for naval construction during the period of the proposed Franco-Italian conversations providing France agreed to do the same.

This offer, he pointed out, was far more to the advantage of France than to Italy in view of the numerical superiority of the French navy.

### PRISON RIOTS IN INDIA.

#### Stone Throwing Reprisals.

The "Daily Mail" Bombay correspondent reports that troops have again been called out to deal with rioting in the temporary prison at Worli, from which two hundred salt raiders attempted to escape on Sunday.

On Tuesday, owing to the report that a Congress procession intended to visit the prison, it was decided to extend the wire entanglements. Four lorry loads of gunners went to Worli and began work but a crowd, consisting largely of women, obstructed the soldiers. The police were called out but they were abused and spat on while the major commanding them was roughly handled.

Stones were thrown at Europeans and so hostile was the mob that a detachment of the Hyderabad regiment and extra police were summoned. The crowd again threw stones and made rushes on the wire. Twelve rioters were seriously hurt.

From Karachi comes the news that the parade held there on Tuesday in honour of the King's birthday was boycotted by Indians who formerly attended the ceremony in large numbers.

Lever Brothers Win Claim.

In the King's Bench on Thursday, Justice Wright decided a claim made by Lever Brothers and the Niger Co. for the return of £50,000 and £20,000 paid to Ernest Bell and Walter Snelling as compensation when the Niger Company, whereof they were Chairman and Vice-Chairman respectively, amalgamated with the African and Eastern Trade Corporation.

In giving judgment in favour of the plaintiffs for the return of both the amounts, the Judge said that Lever Brothers would not have agreed to pay compensation had they known the truth about the defendants private cocoa transaction while employed with the Niger Company.

VAST INDIAN SCHEME ENDANGERED.

Fifteen Millions Sterling Involved.

According to the Bombay Minister of Agriculture, the Civil Disobedience Campaign is likely to endanger the success of the Government's fifteen millions sterling scheme for the irrigation of the Sind as Volunteers, of the movement are attempting to erect a huge barrier at Sukkur.

The present agitation has shaken the confidence of investors and decreased the revenue in the Province owing to the picketing of liquor shops. Threats of the non-payment of land revenue also appear likely to curtail money available for the development of the scheme.

THE "BEATTIE" CUP.

His Excellency Watches The Final.

Mr. D. Peck - The Winner.

Keen interest was shown in the Final of the Billiard Competition for the "Beattie" Challenge Cup, held in the Working Men's Club on Friday when His Excellency the Governor, who we all know to be a keen sportsman himself, was present with his Private Secretary (Mr. G. R. L. Brown) and watched the match intently. The winner this year was Mr. Desmond Peck who beat Mr. V. A. H. Biggs in a very closely contested match. The competition was held under handicap conditions and on a nominative basis - that is to say, each player called his stroke before positioning his cue.

Mr. Peck had a handicap of -50 while Mr. Biggs had the advantage of 20, the match being for 200 up. The former, although with so much leeway to make up played confidently and used his cue with judgment. For a long time Mr. Biggs held the lead - with the handicaps in his favour but a break of 25 and, when standing at 150 with a beautiful run of 41 Mr. Peck rose to within one point of his opponent's score of 177. Mr. Biggs then missed an "in off white" thus practically playing the match into the hands of Mr. Peck, who, with an "in off white", a beautiful cannon followed by another well placed cannon, a second "in off white" and a six for pocketing the "red" and his own ball brought his total to within four of the aggregate. But in trying to get an awkward cannon he caught the shoulder of the pocket after coming off the end cushion and left the balls for Mr. Biggs. The latter unfortunately, missed his opportunity in attempting a cannon which failed. Then, with an "in off white" which was nearly missed and a cannon Mr. Peck brought the match to an end amid the loud applause of the spectators.

Mr. McNichel, the chairman of the Club, then introduced His Excellency and in a few words spoke of the honour the Governor had done the Club by being among them that evening to present the Cup and he expressed the hope that they might see His Excellency there on future occasions to enjoy perhaps, a game with them. The Governor, before handing the Cup to Mr. Peck, amid loud applause, said that he was very surprised to see such splendid play and he would very much like to accept Mr. McNichel's offer though he did not think he could pit himself against such skilled exponents. His Excellency again graciously offered a prize for competition among the members this year, as he has done previously, but asked amid laughter, that they would not impose "nominations" since he had seen Mr. Biggs suffer so much. He would rather it be won without forfeiting the element of luck. As they were aware, he took a very great interest in the Club and most of the members he knew personally. He was sure they were very comfortable there and he was confident they would be still more so with the electric light which he hoped they would have before long.

LADIES BADMINTON.

WOMAN WHO HELPED A FLEET.

Falkland Isles Heroine Goes Shopping In London.

"Gloating" Family.

Hats Preferred To Talk Of Her Part In Battle.

(We are able to publish a further interesting account of Mrs Creamer's reception in England, the following being taken from the "Daily Mirror"

I have just interviewed the woman who played a great part in the winning of the Battle of the Falkland Islands for Britain.

She is Mrs. J.D.Creamer, and she is staying in London with her family for a holiday. Mr. Creamer told me that his wife stood for two hours at the telephone explaining to the British authorities exactly what movements Admiral Von Spee's German squadron were making.

This enabled Admiral Sturdee, in charge of the British squadron, to sink the entire German squadron with the exception of one cruiser.

For this, Mrs Creamer was invested with the O.B.E. and received a silver salver from the Admiralty in recognition of her services. Her servants, who rushed backwards and forwards on horseback with the news, were given silver teapots.

Yesterday morning Mrs.Creamer went shopping. She was extremely pleased with her new hat she bought, and confessed she only came back to the hotel because she had no more money. But she was rather overwhelmed at the welter of publicity showered on her.

"Someone must have given me away," she said, "for I was over here five years ago on a very peaceful visit." With her two daughters, Betty and Olive, her younger son and her husband, Mr. J.D.Creamer, who is a Londoner.

Round Of Theatres.

Miss Betty Felton, (Mrs.Creamer has been twice married) will go back with her mother when the six months' leave is up, while her younger sister, Olive, a remarkably beautiful girl with flaxen hair and a fair sun-tanned skin, will remain to finish her education.

"We intend to do a round of the theatres, visit friends and do some shopping, of course, for we shall have to take a lot of things back with us," said Mrs. Creamer, absolutely refusing to admit that she did anything wonderful in December, 1914.

"And just look at my family gloating over me," she said with a smile, as she settled down in a chair to have her photograph taken.

"The only transport we have over there is by horseback or the coastal steamers," continued Mrs. Creamer, "but it is not necessary for me to do much riding unless I want to, as we live in the town. And we don't count journeys by miles as you do here, but by hours. For instance, we say it is a six hours' journey."

Miss Olive Felton was obviously far the most excited member of the family. She perched her green beret on her flaxen curls and said: "Let us go out and have have lunch somewhere else." said

She has the true tourist spirit and obviously means to enjoy every second of her holiday before she starts on her school days in England."

RECORD ENTRY FOR GOLF CHAMPIONSHIP.

Next Week's Tournament.

Sixteen Americans are included in the record entry of 296 for the British Open Golf Championship to be decided next week at Hoylake. Players from the United States have won the tournament eight times during the past nine years. The only exception was in 1923 when Arthur Havers was victorious.

Walter Hagen of New York, who gained the victory for the fourth time last season is an absentee but Bobby Jones is an equally formidable challenger. Jones won in 1923 and 1927 but has not competed since. There are four other members of the United States Walker Cup Team in the lists - Voneln, Voigt, Harrison Johnson and Loe.

The United States professionals are Diegel, Saragen, Armour, Barnes and Horton. Of these Saragen, Armour and Barnes have won the United States Open whereof Bobby Jones is the present holder.

COMMUNAL RIOTING IN BOMBAY.

Clothshops Boycotted.

Serious outbreaks of communal rioting have occurred at Kapaadwanj in the Kaira district of Bombay. Moslems taking part in a procession became involved in a fight with Hindus and four hundred are reported injured. The District Magistrate and the Police Superintendent have left Kaira with reinforcements.

As a result of the crisis on the Bombay Cotton Exchange caused by the Boycott on the clothshops, the Exchange has decided to fix minimum prices and has recommended the introduction of forward trading in Indian cotton.

Gandhi volunteers still picket European shops in the Fort business area of Bombay.

A European woman was harangued by a picket after making a purchase there on Monday. When the man tried to prevent her from entering her motor-car the manager had him forcibly removed.

A Hockey match was played in Government Paddock on Monday afternoon the 3rd of June, with the following result :

KING'S BIRTHDAY CELEBRATIONS.

His Majesty's birthday yesterday was marked as usual by a parade held in the Government Paddock, in which a large muster of the Falkland Islands Defence Force, the Boy Scouts, Girl Guides, Brownies, and Wolf Cubs, took part. The Defence Force was commanded by Captain D. R. Watson and Lieut. J. M. Coutts, M.E., the Scouts by Scoutmaster the Revd. S. E. E. Aylward and Assistant Scoutmaster D. Richardson, the Guides and Brownies by Acting Islands Commissioner Mrs D. Roberts and Guide Captains Miss A. E. Felton, and the Wolf Cubs by Miss Mary O'Sullivan.

Punctually at noon His Excellency wearing full uniform and accompanied by the Private Secretary and Members of the Executive and Legislative Councils left Government House and on his approaching the parade ground his flag was broken and the usual salute given. His Excellency then inspected all sections which thereafter marched past in column formation headed by the Band and forming line, advanced in review order towards the Saluting Base where they were halted. The Royal Salute was then given followed by three rousing cheers in honour of His Majesty led by His Excellency. The proceedings then terminated.

His/

His Excellency was particularly pleased with the smart appearance and deportment of the Defence Force, their steadiness under arms and the efficient manner in which they performed the different evolutions, all of which reflect the excellent instruction the members are receiving at the hands of Sgt.-Major Allan. His Excellency also remarked how keenly and admirably the Scouts, Guides, Brownies and Wolf Cubs, sustained the high standard of the parade.

Though the day was bitterly cold a large representation of the public was present.

In the evening the Governor gave an official dinner at Government House at the conclusion of which His Excellency accompanied by his guests proceeded to the Town Hall where a whist drive and dance arranged by the Defence Force Rifle Association was in progress.

In his speech on the occasion His Excellency said how pleased he was to be present at their celebrations of His Majesty's Birthday, and stated he had sent a congratulatory message on behalf of the Colony and the Dependencies saying how thankful they all were that His Majesty was recovering from his long and tedious illness. In delightful vein His Excellency related anecdotes in illustration of His Majesty's habitual kindness and genial humour and said that in all his actions His Majesty made them feel they had a real friend in their King.

Referring to the King's Birthday parade His Excellency stated it was a great pleasure to him to express his appreciation of the way in which the Defence Force had appeared on the occasion. The cut ensemble of the parade was excellent and did the utmost credit to the instruction the Force was receiving. He was certain the Force could hold its own with any other regiment of its kind and he hoped that next year when they assembled in the Town Hall for the same purpose there would be on display a Cup and photographs showing the Colony's success in the Junior Kolapore Competition.

His Excellency also stated that he could not let the opportunity pass of complimenting the Boy Scouts and Girl Guides on their smart appearance and deportment that day, which contributed largely to the success of the parade.

Captain Watson in thanking His Excellency for being present said it was due to His Excellency's untiring efforts that the Force was in such a flourishing condition. The Drill Hall and Headquarters, so long thought of, had now become realities and the Colony had realised its ambition in being represented at Bisley.

On leaving the Hall His Excellency announced that a message had been received that His Majesty's condition was improving. This news was received with cheers.

---

The following telegram was transmitted by His Excellency to the Right Honourable the Secretary of State for the Colonies, on the occasion of His Majesty's Birthday :

2nd June.

"On behalf of the people of the Falkland Islands and Dependencies I respectfully submit Birthday Greetings to His Majesty. Our hearts are full of joy and thankfulness at His Majesty's recovery."

### ARMY'S NEW RIFLE.

Lighter And With A Shorter Bayonet.

For the first time since the war, the April number of the "Rifleman" states, a new rifle has been approved for general issue to British troops. This is the Mark VI, S.M.L.E. (Short Magazine Lee Enfield), which, according to a War Office official, embodies improvements which the experience of the war showed to be desirable.

A Mark V rifle was approved some time after the war, but it was not made in any quantities and was not issued to the troops. The Mark V was an improvement on the Mark IV which was issued to the troops during the war, and Mark VI is a greater improvement still.

It is not revealed whether the new rifle has any unusually great range, but, in the words of the War Office official, it has a barrel and body of increased strength and stiffness, although it is eight ounces lighter than Mark III and the bayonet is shorter than the sword type of bayonet of Mark III and one pound lighter.

The rifle has a projecting muzzle and virtually no nose cap. It embodies a number of improvements in the detail of the action and safety catch and there is also an aperture sight.

It is not possible to state yet whether the new rifle will be issued generally..

Sir Henry Seagrave's Claim.

The "Daily Mail" Windermere correspondent states that Sir Henry Seagrave claims to have broken the world's water speed record both ways over the measured mile on the lake there with only five eighths of "Miss England II's" total power.

Just as Sir Henry reached the end of the mile on the return journey there was a terrific roar from the engines. He shut off and a sheet of flame shot from the exhaust.

When "Miss England II" was hauled back it was found that the blade of the propellor had snapped but the boat was not otherwise damaged.

BROADCASTING.

"Wired Wireless" In The Falkland Islands.

Distant Programmes On Simple Apparatus.

(We are privileged to publish the following article extracted from a recent number of the "Birmingham Post".)

A few weeks ago it was reported in "The Birmingham Post" that a system of "wired wireless" was being inaugurated in Bradford. This has caught the eye of Mr. J.M. Ellis, Colonial Secretary of the Falkland Islands, who is a native of Birmingham, and he writes to the editor of "The Birmingham Post" as follows :-

"I was interested to notice in a recent issue a paragraph dealing with 'wireless on tap,' which is being planned for a Bradford suburb. The system by which programmes will be broadcast from a central station over wires to subscribers' houses is actually being installed in Bradford at present, and is regarded there, it would seem, as being in the nature of a novel experiment. Permit me to state that this same system has been in regular working order in the town of Stanley the capital of the Falkland Islands, for some time. It was installed by the permanent staff of the Telegraphs and Telephones Department, and has proved an unqualified success."

Enclosed with the letter is a copy of "The Penguin," the local paper, in which the news item regarding "wired wireless" is quoted, with the addition of a comment to the effect that the fee for the service in Port Stanley, Falkland Islands, is only 10s, a year.

This system of "wired wireless," which has been fully explained in previous articles, is becoming increasingly popular all over the world. It, of course, will be of particular service to the small isolated community in this outpost of the British Empire, for it will enable them, at small cost, to keep in touch with the affairs of the outside world. If this system were not in operation residents who wished to pick up distant broadcasts would have to install powerful multi-valve sets.

Radiophone For Small Vessels.

Increasing use is being made of the radiophone in the U.S.A. maritime service. Small-power short-wave radio-telephone sets are being installed on a number of tugs, barges, coasting vessels, &c., which enable them to maintain reliable communication over distances up to about twelve miles. As the sets are very simple in operation messages can be transmitted by any member of the crew, and it is therefore not essential to carry a fully-trained wireless operator. The U.S.A. Government has amended the regulations in order to allow this to be done.

The regulations in this country order that, where wireless apparatus is carried, a qualified operator must be on board to work the installation. While this is necessary in the case of sea-going vessels, it precludes the smaller craft from taking advantage of wireless facilities on the grounds of expense. In view of the great advantages to be derived from radio it would appear that the regulations might well be amended so as to permit coasting vessels, &c to carry radio sets of the class described.

BISLEY

THE "MORNING POST" TROPHY.

Colonial Interest Increased.

Admiral of the Fleet Earl Jellicoe, Chairman of the National Rifle Association, recently stated that the remarkable development in the last few years, of Imperial interest in the Bisley meeting was due largely to the trophy presented to the Association by the proprietors of the "Morning Post" for competition among representatives of the smaller Colonies and to the commemorative badges which the "Morning Post" presented to each individual member of competing teams.

There was a larger representation of the "outposts of Empire" last year than at any of the 65 previous meetings. Considerable credit for that must be given to the Secretary of State for the Dominions and Colonies, for as soon as arrangements for the Imperial match for the "Junior Kolapore" were announced, the Dominion Office sent particulars to all the Governors inviting their interest and support.

Two New Cups.

Lord Passfield, the Dominion Secretary, has already communicated with the Colonial Governors concerning this year's match. He pointed out that all teams qualified to shoot for the "Morning Post" trophy were also entitled to shoot for the "Junior Mackinnon," which was competed for the first time last year, and won by Nyasaland. This challenge cup was presented by Major Richard Barnett, a member of the National Council and an International competitor with the Match rifle. Two other Cups are "open only to members qualified to shoot in the Morning Post (Junior Kolapore) match in the common year." One of these is presented by the Governor of the Falkland Islands, Mr. Arnold Hodson, who is a well-known marksman, and the other by Commander Sir Lionel Fletcher, a member of the Council.

It is hoped in the future, that Colonies not able, for financial or other reasons, to send team to Bisley will consider arrangements for teams of grouped Colonies. Two years ago the China Treaty Ports sent a team to compete for the "Morning Post" Cup, and it is suggested that there might be teams representing the Far East, East Africa, West Africa and the West Indies.

The Falkland Islands, Nigeria, Malay States and Penang and Southern Rhodesia have already notified the National Rifle Association that they will be represented at the Imperial meeting this year.

KING CAROL AND HIS QUEEN.

The "Currentin" newspaper, Budapest, publishes a semi-official statement on the decision taken by King Carol regarding his former wife, Princess Helen.

The King considers that as the National Assembly restored his rights as Crown Prince and that at the time of their action in renouncing him he was not divorced, the King regards the divorce as non-existent and it was therefore unnecessary to cancel it. In consequence of this the Princess automatically becomes the queen.

### SIR HENRY SEAGRAVE'S RECORD.

#### Double Distinction.

The figures of the new record for the world's water speed, set up by the late Sir Henry Seagrave, just before his tragic death, are to be forwarded to the International Marine Yachting Union for official recognition the mean speed was 98.76 miles an hour. Sir Henry had, thus, before his death, achieved the double distinction of creating the world's record for speed on both land and water.

At Daytona Beach on March 11th, 1929, in the racing car "Golden Arrow" he set up a world's record for land with an average speed of 251.3 miles an hour, beating by nearly 24 miles an hour the record set up the previous year by Day Keach, the American driver. It was for this magnificent achievement that he was knighted. Seagrave's triumph was marred by tragedy for, two days after his brilliant success Lee Bible, the American driver competing against him at the time, was killed in attempting to eclipse the new record.

Seagrave was thirty-four years of age. He was educated at Eton and Sandhurst, and served in the Great War with the Second Warwickshire Regiment and the Royal Air Force. He was three times wounded and mentioned in Despatches. In 1917 he was the Private Secretary to the Chief of the Air Staff and the following year went on the British Aviation Mission to Washington.

Lady Seagrave who saw the tragedy had strange premonitions of the catastrophe. She was with her husband when he died a few hours afterwards and then collapsed. Messages of sympathy were received from Their Majesties the King and Queen. Mr. Charles Seagrave, Sir Henry's father, made a dash by air to reach his son when he heard of the accident but he arrived too late.

It is understood that Norman Smith, the Australian motorist intends attacking Sir Henry Seagrave's land speed record.

### HEAT WAVE IN FRANCE BROKEN.

#### Worst Storm For Many Years.

Violent thunderstorms, sweeping France from the north to the south, have broken the heat wave of the last week. On Saturday and Sunday, Paris saw a succession of the worst storms she has experienced for many years. Torrential rain fell accompanied by severe electrical disturbances, which put hundreds of telephones out of action.

The storm on Sunday burst just as the fifth race was being run at the famous steeplechase course of Auteuil in the Bois de Boulogne. The horses were taking the big brook in front of the stands when a vivid streak of lightning rent the sky. The lightning struck the rails on which a policeman and a lad were leaning and knocked them unconscious. The jockey Sautour was blinded by the flash and fell from his horse. The three men were taken to hospital badly injured.

THE FIRST TEST MATCH.

Ready For Trent Bridge.

A wildly enthusiastic welcome marked the arrival of the British and Australian cricketers at Nottingham on Thursday evening for the first Test Match of the 1930 series which was booked to begin at Trent Bridge yesterday.

Women fought to get close to the players at the railway station and the teams had a triumphal procession through the streets. Although they went to separate hotels they dined together in the evening. Mainly fair weather was forecast on Thursday and the pitch was in a fine condition. The teams were picked yesterday.

SHARKEY AND SCHMELING.

Fight For World's Heavyweight Championship.

Crowds converged on the Yankee Stadium, New York, on Thursday night to witness the world's Heavyweight Championship fight between Jack Sharkey and Max Schmeling, the German. The fight was arranged for fifteen rounds. Sharkey, who is the American champion, was the favourite. To allay any fears that might have existed that Schmeling would not be well-treated by the referee, the official's name was not announced until the boxers entered the ring.

BALLOONISTS REMARKABLE ESCAPE.

Dangling Head Downwards.

A captive observation balloon at the Trewsfynydd Artillery Camp Merionethshire, broke from its moorings on Thursday and rose to a great height, disappearing over the Aronig Mountains. In an effort to force the balloon down, the two occupants opened the safety valve allowing it to drop sufficiently for them to jump.

Although Sergeant E.W. Robinson, one of the two men, succeeded in landing safely except for being dazed, he was appalled to see the balloon still drifting with his companion, Flying Officer Pelham Groom, dangling head downwards with his feet entangled in the basket work. After a two mile cross-country chase Robinson caught the balloon and managed to release Flying Officer Groom.

A later message states that Flying Officer Groom had a remarkable escape for while drifting he missed electrocution by electric power lines by inches. He was found to be badly shaken when released after the ordeal. The balloon was eventually found eighty miles away.

Prize Presented By

His Excellency The Governor.

An Eclectic Competition has been arranged to be played off over the week-end 28th and 29th June, weather permitting. The flag, which will be flown from the flagstaff near No. 1 Tee, will indicate whether the competition will take place on the dates fixed.

An Aneroid barometer, kindly presented by His Excellency the Governor, will be the prize for the lowest Eclectic score returned.

The conditions of the competition are as follows :-

Four rounds of 9 holes each to be played either on one or both of the days fixed. Competitors to choose own partners (not necessarily the same person for all rounds), and signed cards are to be handed in to the Secretary or placed in the box on flagstaff at No. 1 tee, by Monday the 30th of June. Three-sixteenths of the competitor's handicap to be deducted from the Eclectic score.

June Medal.

Members are reminded that entries for the June Medal, to be played on the 21st and 22nd June; close this evening, and those desiring to compete are asked to inform the Secretary or any member of the Committee.

THE LATE SIR HENRY SEAGRAVE.

Memorial Service.

The body of Sir Henry Seagrave, who was killed after breaking the motor-boat speed record on Lake Windermere on Saturday, was cremated at Golders Green Crematorium on Tuesday. The funeral was of the simplest nature.

The coffin, across which lay the Union Jack, was covered with wreaths. Some of these came from representatives of Colonial and Foreign Governments, and there were tiny circlets of summer flowers from humble folk. Lady Seagrave decided that some of the wreaths should be placed on the Cenotaph in Whitehall.

Memorial cards bore such inscriptions as "To a Brave Man" and "To a very Courageous Gentleman." A memorial service was held at St. Margaret's Church, Westminster, Canon Carnegie officiating. General Trotter represented the Prince of Wales and the Prime Minister was also represented.

ENGLAND WIN THRILLING FIRST TEST MATCH.

Australia's Record Fourth Innings Score.

Bradman's Century.

Sutcliffe Injured; Larwood Ill.

England won the first Test Match, which was concluded at Trent Bridge, Nottingham on Tuesday, by 93 runs although Australia made a record fourth innings score on Tuesday. The game thrilled to the last and the Australians fought all the day against the bowling of England which was weakened by the absence of Larwood who fell ill. Wild enthusiasm followed the last ball and A.P.F. Chapman, the English captain who said afterwards "It was very worrying until Bradman was out. It was team work that pulled us through."

When the game was resumed on Monday Australia only added four more runs to their Saturday score of 140 for eight, thus being 126 runs behind England's first innings score. In England's second innings Hobbs and Sutcliffe opened with a magnificent stand. Their partnership was only dissolved when Hobbs, having contributed 74, was stumped with the score at 125. A little later Sutcliffe was badly injured on the hand which had been hurt by a ball on Thursday and had to retire having made 58. After Hammond, Woolley, Chapman and Tate had been dismissed fairly lightly, Hendren improved the position considerably with a well-played 72. Seven wickets were down for 203 but England was all out for 302. In the Australians' second innings Woodfull, the captain, was quickly disposed of but Pondsford and Bradman were still together at the close of play with the score standing at 60 for one wicket. On Tuesday the last day, Australia made a magnificent stand, Bradman the hero of the day, compiled 131 and thus hit up the first century in this year's Tests. England was handicapped through Larwood the English fast bowler falling ill and not being able to play.

PEACE MOVES IN INDIA.

Negotiations In Progress.

The "Daily Mail" Bombay special correspondent reports that current peace moves, particularly of negotiations with Gandhi who is now in prison, have been started by Sir Prabhaskar Pattani, the Regent for Bhavnagar State and a former member of the Governor of Bombay's Executive Council who has gone to Poona to confer with Gandhi. He also saw the extremist before he began his Civil Disobedience Campaign.

The correspondent writes "I understand Sir Prabhaskar refused to approach Gandhi. Nevertheless, it is certain that unofficial leaders are consulting with a view to sounding Gandhi, regarding a settlement. Fresh impetus is given to a report of a visit of the Pundit Motilal Nehru, the president of the Indian Congress which was expected to take place to-day.

MAN KILLED BY LIGHTNING AT ASCOT.

Memories of Wednesday at Ascot will remain imperishable to the tens of thousands who were present for they suffered thirty minutes of unmitigated terror while a storm of tremendous violence raged. Swift death came to one man in Tattersalls Ring where several hundreds of book-makers huddled together beneath umbrellas. The storm was at its height when one flash of lightning, more vivid than the others, seemed to descend perpendicularly from the menacing clouds. It struck the Ring and, from the Press stand, there appeared a flurrying movement. In the space created among the umbrellas there lay the figure of a man, limp and dead. Thousands of women had their frocks ruined.

The storm caused the abandonment of the day's racing and the remaining events were added to yesterday's and to-day's programmes. Among the events run off yesterday was the Ascot Gold Cup. A special message from Rugby yesterday morning (local time) gives the results of the race with the starting prices as follows :- 1st "Bosworth", 3/1, owned by Lord Derby, jockey Weston. 2nd "Hobweed", 3/1, owned by Mr. E. Esomd, jockey Garner. 3rd "The Bastard", 6/1, owner Lord Roseberry, jockey Wragg.

## THE UNEMPLOYMENT PROBLEM.

### Questions In The House Of Commons.

Raising the question of Unemployment in the House of Commons on Wednesday afternoon, Sir Austen Chamberlain, said he thought it desirable that the Premier should define exactly the nature of the cooperation he asked for and the scope of activities in which he asked the other parties to take part. Sir Austen pointed out that the cultivation of trade with the Dominions would give Britain an opening to markets of the greatest promise, and the greatest possible development.

The Premier said a body had been chosen to consider the unemployment problem. It consisted of men of varied experiences and he believed that they would work in full harmonious cooperation together. He also believed that the custody of the work would be very safe in their charge. So far as the work done by the Minister in charge of Unemployment was concerned - to re-adapt the industrial conditions to enable the country to compete in the world's markets in the future it would be continued and no change that had taken part in the machinery must be taken as a change in the purposes of the Government.

### Relations With The Dominions.

On the question of economic relations between the Dominions and Britain, Mr. MacDonald said it would be very difficult to find a time when good-will was better and the desire to cooperate was stronger than it was now. The Premier mentioned that the Government had taken a body of Civil Servants temporarily from their own departments and they were devoting the whole of their attention with their departmental experience to this problem. Chief of them was Sir John Anderson, a permanent secretary of the Home Office. Very important representatives of the Treasury, the Board of Trade, the Ministry of Labour and the chief advisor of the Economic Advisory Council has also been attached.

This organisation had been brought together for the purpose of dealing with unemployment in its new phase and of enabling more use to be made of the coordinated experiences of the departments that had been dealing with the subject in a more piecemeal way. Mr. Lloyd George said that the Premier had indicated that he was prepared to put into operation an invitation which he extended to both parties some weeks ago to cooperate with the Government in the solution of what was after all a National problem. "I have accepted the invitation," Mr. Lloyd George continued, "and the whole of the conditions laid down by the Prime Minister."

### Always A Million Unemployed.

Mr. Lloyd George said that unemployment had been aggravated by conditions which he hoped were temporary but the country would always have a million unemployed. That was the problem the Government gave out to be considered from the National point of view. Britain had the largest export trade in Europe and, as far as manufactured goods were concerned they had certainly the largest export trade in the world. He agreed that mere expenditure of money on things which were not in themselves productive would not only leave the problem unsolved but would aggravate it. The money might be spent with a view to re-conditioning and re-equipping the Nation.

While the body was being examined a man was seen to leap overboard and disappear. A boat was sent to the rescue but capsized and a member of the crew was drowned.

A roll call of the passengers was taken but it failed to reveal anyone missing and it was thought the murderer was a stow-away who set fire to the stateroom to destroy evidence of the crime and when the discovery was made committed suicide by jumping overboard.

As every woman player's ambition is to appear on the centre court the promise is quickly forthcoming.

Miss E.L. Harvey collapsed in her match with Mistress Mollquham and had to be assisted from the court. Bobby Jones was present with his wife during the afternoon and were given seats in the royal box.

Historic buildings in Oxford are in danger of being destroyed by the traffic problem.

#### Oxford's Traffic Problem.

Irreparable damage is likely to be caused to some of the most historic of the buildings in Oxford unless something is done to cope with the traffic problem of the city.

At All Souls College, three of the Oriel windows had to be taken down because the walls behind were giving way and at the Bodleian Library, vibration caused by the traffic has caused a crack in the roof of one of the cellars with the result that books installed there have been damaged.

Sir Charles Oman M.P., Oxford University, says that the state of Oxford's streets bears out the complaints he has been making in the House of Commons as to the congestion in the main thoroughfares.

### LABOUR'S DESPAIR.

#### "Wholesale Loss Of Seats."

The "Daily Mail" political correspondent writes that it would be difficult at the moment to exaggerate the depression that has gripped the Labour Party a year after their triumphant entry into office.

Members are in a state bordering on despair and smouldering with rebellion. Never before in political history has there been a change of heart so rapid and complete. Officials of the party who have been touring the industrial north report that it is almost impossible to get a hearing at Socialist meetings in such towns as Newcastle, Leeds, Bradford, and Sheffield,

The probability of a wholesale loss of seats in such areas is fully admitted in official circles and there is an outcry against the party leaders particularly against Mr. Ramsay MacDonald which threatens to cause an internal eruption.

It is understood that the Party is within a measurable distance - a month perhaps - of a complete break-away from the Trade Unions and Mr. MacDonald has been credited with the view that dissolution is the only solution and he is seeking an issue upon which to go to the country.

Byron, the Electrician-in-charge, and his assistants, the newly arrived Igranic Neutrosonic Six Valve Short Wave wireloss receiving set was used for the first time for relaying programmes from London and New York to our many listeners-in.

The experimental hour commenced at 6.0 p.m. and continued to 7.0 p.m. (local time). G.5.S.W. (Chelmsford) was tuned in and though we sensed a keen thrill at this new delight our appreciation received a check for, at first, reception was slightly distorted and interference from local oscillators was noticeable. But as atmospheric conditions improved the music was heard clearly.

G.5.S.W. was switched off at about 6.50 p.m. for W.G.Y. (Schnectady, New York) from whence a talk on the victory of Bobby Jones in the Open Golf Championship at Hoylake was being relayed from Liverpool. The cognisance of such an event cannot but deeply impress our listeners with the latent possibilities in such a set as we have now installed. It seemed inconceivable that the voice sounds had originated in Liverpool, had been transmitted across the Atlantic and had been relayed from the United States to be picked up with perfect clarity in this distant corner of the earth. But atmospheric conditions intervened and the voice developed a "boom". Switching back to Chelmsford at 6.50 we heard the last of the dance music at Circ's Club and Big Ben striking mid-night just as our clocks pointed to the hour of 7.0 p.m..

The experimental broadcast closed down after London's "Good-night" but at 8.30 p.m. a studio programme was given followed by a return to W.G.Y.. To our amazement we heard the voice of President Hoover as he about to present Admiral Byrd and members of his Antarctic Expedition the award of the National Geographical Society of America. The words of the President could be heard distinctly and but for the impression of the voice rising and falling the speaker might have been in the very room.

(continued over -

With such a display of potential ability demonstrated by the new set, we cannot doubt but that the local broadcast listeners' keen enthusiasm and appreciation will be maintained in anticipation of yet further benefits to be obtained from this most modern method of modern entertainment the inauguration of which is due to the personal initiative of His Excellency and the sustained efforts of the Electrical staff.

WAST INDIAN SCHEME ENDANGERED.

Fifteen Millions Sterling Involved.

According to the Bombay Minister of Agriculture, the Civil Disobedience Campaign is likely to endanger the success of the Government's fifteen millions sterling scheme for the irrigation of the Sind as Volunteers, of the movement are attempting to erect a huge barrier at Sukkur.

The present agitation has shaken the confidence of investors and decreased the revenue in the Province owing to the picketing of liquor shops. Threats of the non-payment of land revenue also appear likely to curtail money available for the development of the scheme.

AUSTRALIA AND HER TARIFF.

Britain's Treaty With Argentina.

For years Australia has been steeped in economic crime, the evasion of economic laws having become almost second nature. But, the correspondent of the "Observer" writes from Australia that this career has come to a sensational end with the tariff prohibitions and surcharges introduced by Mr. Scullin.

The majority of the items in the prohibited list are produced in Australia. There is no reason to suppose that local manufacturers cannot produce as well and as cheaply as their competitors overseas. Parts of the increased duties schedule appear inconsistent, as woollens bear higher duties than cottons and silks, though these are wool's chief competitors.

The tariff changes will be reflected in the attitude of Australian delegates of Imperial Economic Conferences. Mr. Scullin said: "Britain cannot have it both ways, cannot criticise us, tell Australia to put her house in order, balance her imports and exports, and reduce loans and then complain when we did so."

The recent British Argentine treaty created a very bad impression here, as the goods receivable from Argentina compete directly with Empire products. Empire Free Trade is impossible as a solution for Australia's difficulties. Rather, there must be some scheme of Empire economic co-operation, guaranteeing her a market for her primary products, with reasonable latitude and assistance to build up her own secondary industries.

SIR HENRY SEAGRAVE'S AWARD.

The fund being raised for the "Seagrave Award" for achievement on land, water or in the air, which is being set up as a memorial to the late Sir Henry Seagrave, is receiving good support.

Mr. K. Lee Guinness, the racing motorist, says that before the annual award will be made the Committee will have to be satisfied that whatever the achievement may be it is well thought out and has a definite instructive object in view.

In view of the conditions under which the award is made possible it may not be granted for two or three years if no performances of merit justify the granting of it.

"Admiralty House,  
Bermuda.

28th April, 1930.

My Dear Governor,

Before giving up command of the America and West Indies Station I wish to write and thank Your Excellency for your valuable co-operation and kindness to myself and the officers and men of the ships of the Royal Navy who have visited the Falkland Islands during my time in these waters.

It has been a source of great pleasure to me to have been able to arrange with you combined operations between the Falkland Islands Defence Force and the Royal Navy, as I am sure that such operations have a lasting and beneficial effect. I shall be grateful if you will convey my kind remembrances to all whom I met in the Falkland Islands and South Georgia.

I am indeed sorry that I shall not be fortunate enough to visit you again in my flagship and I desire to take this opportunity of wishing you and Mrs. Hodson all prosperity.

Yours sincerely,

(sgd.) Cyril Fuller."

BAD RIOTS IN BOMBAY.

Over five hundred people were injured in the riots which broke out in Bombay on Saturday. Further trouble was expected on Sunday for the Commissioner of Police had notified the new President of the Bombay Congress Committee that the procession of sympathy for the court-marshalled men of the Garvali Battalion, to have taken place yesterday, would be prohibited. This prohibition however is expected to be ignored.

Indian women Volunteers, clad in picturesque native costumes and commanded by Mrs. Gokhale, a member of the Municipality of Bombay, played an active part in the disturbances.

The band of Indian amazons were asked by the Commissioner of Police to leave and not get mixed up in the Police charges against the crowds of men. But when the police began dispersing the main body of the volunteers the women intervened and formed a cordon around the men. The excitement was too much for one woman who fainted while another was accidentally hit by the police staves.

INTERFERENCE WITH BROADCAST SERVICE BY

PRIVATE WIRELESS SETS.

We regret to call attention to the fact that considerable interference with the reception at the Stanley Studio of wireless programmes from London and overseas has been caused recently by the oscillations of aorials belonging to privately owned sets. We are ready to believe that this interference is involuntary but at the same time we ask those offending to appreciate the difficulty thus created to the Studio Staff and the disappointment thus occasioned to the large number of their fellow townsmen and listeners-in in Stanley.

We request earnestly the owners of private sets not to spoil the pleasure of others in this manner, and we are authorised also to remind them of the conditions under which they hold their licences from the Government which state expressly that :

"The station shall not be used in such a way as to cause interference with the working of other stations. In particular, valves must not be connected in such a manner as to be capable of causing the aerial to oscillate.

### THE TEST MATCH.

#### English Selections.

The latest news concerning the British team to meet Australia in the second Test Match on Friday, reveals that Sutcliffe will be unable to play. On Tuesday he telegraphed to the Selection Committee that his injured thumb was still in a doubtful condition and his doctor had advised him not to play.

Geary, the Leicestershire bowler, has developed rheumatism in his left shoulder and is also unable to play. Sandham of Surrey, Hobbs partner in many a first wicket stand, has been asked to be present at Lords. It is possible that R. Tyldesley, Freeman, and Leyland will be invited for the final selection to be made from fourteen players.

Three wickets are being prepared at Lords for the match but it depends upon the weather as to which one will be used.

### WIMBLEDON TENNIS.

The Lawn Tennis Championships at Wimbledon opened on Monday with plenty of thrills so writes Stanley Doubt, the "Daily Mail" special correspondent. The first match on the centre court was between Alison of America who beat the "seeded" Australian player Moon. Cochet was in an impudent and careless mood and before beating Timmer, of Holland, he was two sets down. Nigel Sharpe lost to Doug, the American, in the fifth set and Austin beat Avery.

On Tuesday it was left to the last match of the day to provide the best thrill. The scene was at the centre court and the combatants were Borotra and H.G.N. Lee. Lee won the first two sets on merit, keeping better length and doing more of the attacking than Borotra. But changing his tactics and volleying brilliantly the Frenchman took the next three games and the match.

Mangin, the young American created a profound impression by beating Turnbull. Doubt writes "In my opinion Mangin will be Tilden's successor in America."

Other results include - Lott beat Kingsley; Cochet, Malfroy, Tilden, Mather, Wills-Moody, Fraulein Krahwinkel, Andrews and Brugnon won.

WIMBLETON TENNIS.

This year's battle at Wimbleton which began yesterday has aroused greater enthusiasm than ever before judging from the demand for tickets. The atmosphere of narrow defeats and victories won only after hard struggles has caught the imagination of the British public. ### MAN HURLS FAMILY TO DEATH.

#### Mautiacal Father Then Dives To Doom.

From New Haven, Connecticut, comes the ghastly news of four children and their mother being hurled to death by a mautiacal father before he caused his own destruction.

The man, whose name was P. Spatz, escaped from a New York hospital on Friday and arrived home saying he had been released. The next day the family went out for a walk and visited a precipice. People noticed them walking along the cliffs when they were horrified to see the man pick up his four little children and hurl them, one by one, over the edge.

Immediately afterwards he meted out the same treatment to his wife who witnessed his atrocious behaviour to the children, paralysed with fright.

He then sat on a tiny ledge and threw stones and dirt at those who sought to pick up the bodies. An hour later he rose and crossed himself, and dived off his precarious perch as if it were at the side of a swimming pool. He crashed lifeless amid the pitiful and misshapen remains of his family.

### AVALANCHE IN SWITZERLAND.

#### Forests And Vine-yards Wiped Out.

A press message from Lausanne states that on Saturday, a great avalanche of rocks and mud swept down the valley from the Dent du Midi mountain some 10,690 feet high on the frontier of France and Switzerland.

It wiped out forests and vine-yards in the neighbourhood of St. Maurice and covered that part of the Rhone Valley to the extent of some hundreds of yards with a layer of rocks and mud fifteen deep.

Following the track of a similar fall in 1927, the torrent roared its way across the main road, through the pass and crashed down to the Lausanne tunnel bringing destruction in its path. All means of communication between the upper and lower valleys were cut and traffic had to be diverted many miles to the east.

### FRANCE AND AMERICA'S TARIFF.

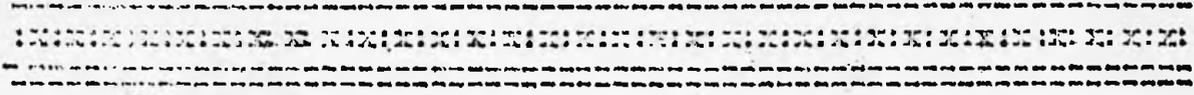

#### Request For Alteration To Certain Duties.

Speaking on the new American tariffs, the French Minister of Commerce stated in Paris on Saturday, said that he proposed to address to the American Government a "Global" claim emphasising if they were able to obtain an alteration to certain duties there would be no need to embitter relations with America, but it was clear that normal relations between France and the United States could only be assured on a basis of absolute reciprocity of treatment.

WEDDING OF MISS F. BRAXTON & MR. F. BERNTSEN.

A pretty wedding took place on Wednesday when the marriage was solemnised between Mr. Frederick George Berntsen and Miss Flora Braxton in the Cathedral, the ceremony being conducted by the Rev. S.E.E. Aylward.

The bride, who was given away by her only brother Mr. Thomas Braxton, was charmingly dressed in ivory satin with a coronet of pearls and orange blossom and a veil. She carried a bouquet of Lilies of the Valley given by Mrs. Pallini. Mr. N. Berntsen, a cousin of both the bridegroom and the bride, was the best man.

The bridesmaids were Miss Mary Millor and Miss Ellen Berntsen (cousins) and Beatrice Braxton and Mildred Braxton (nieces). All looked exceptionally charming in their dresses of Turquoise Blue and Fleur de Chine trimmed with Diamante. The pretty bouquets they carried were given by Mrs. Campbell of Stanley Cottage, and Mrs. J. Davis. Master Norman Paice was the attendant.

After the ceremony a reception was held at the bride's home where some sixty guests assembled full of admiration for the excellent selection of wedding presents. Following supper a dance was held in the Town Hall and over three hundred people were present, everybody enjoying themselves immensely. Mr. V. Summers was M.C. and the music was supplied by the "Stanley Jazz" and the "Melody Sheiks". Mr. J.F. Summers was responsible for the delightful refreshments as well as the handsome five tier wedding cake which graced the table.

S.S. "FLEURUS" The "Fleurus" was expected to arrive back in Stanley from South Georgia last night at 8.0.

GOLF On account of the adverse weather conditions the Ecclectic Compositon arranged to be played off this week-end has been postponed.

### ATLANTIC FLOWN.

#### Second Flight From East To West.

A brief message reports that Captain Kingsford Smith and his two companions have succeeded in flying the Atlantic in the "Southern Cross". The machine arrived in New York on Wednesday having made the trip from Port Marnock, in thirty hours and twenty-eight minutes.

This is the second time the Atlantic has been flown from East to West. The first successful flight was made by Alcock and Brown in 1919 when they made a faulty landing in Labrador.

### A GENTLE RAID.

#### New York Round Up.

The Central Park Casino, New York, one of the newest and most fashionable entertainment centres in the city was raided by prohibition agents on Wednesday night in a genteel style.

Some five hundred guests were dining and dancing when the agents arose and put a stop to the merriment. They had been scattered throughout the hall. The dancers were on the floor when one of the agents stopped the music and said apologetically "Gentlemen, I regret I must do this. We are Federal agents and I must ask you all to return to your tables."

Nine guests with Sidney Solomon, who was the lessee and maitre d'hotel, with several of the waiters were arrested. Among the visitors was Princess Obotensky, the daughter of Lady Ribblesdale. She was there with her husband but neither of them were arrested.

### BOMBAY COTTON CRISIS.

Panic prevailed in the Bombay Cotton market on Wednesday afternoon following a heavy slump in the prices.

This occurred when the Board of East India Cotton Association withdrew their restrictions fixing the minimum cotton rates which they had fixed recently to avoid a crisis. In view of the collapse of the prices the Board have been obliged to make a settlement rate, but the losses are very heavy and many failures are expected among the cotton merchants.

One Indian operator will have to pay 2300,000 at settlement. The effects of the collapse extended to the Stock Exchange where the shares in certain mills, for instance the Hydro-Electric Company, fell heavily.

Bombay :- A Wednesday bulletin states - A foretaste of what the North West frontier would be like if the British Army were withdrawn is afforded by a daring attack of forty Afridis on a village ten miles from Peshawar. They were armed with rifles and dressed in khaki and entered a bazaar stating they were officers of the Frontier Constabulary. They picketed the gates and by firing their rifles freely terrorised the villagers. They looted the shops and houses and threatened to set fire to the bazaar if there was any resistance.

LAUNCHING THE PONTOON.

After abandonning the attempt to launch the first of the four pontoons on Sunday owing to the poor tide an effort was made yesterday morning to float the seventy tons of metal, sixty-one feet wide, thirty-seven feet broad and five feet deep, which forms "B" section of the new floating dock.

The pin was released about 8.30 a.m. and the mass slowly travelled at the rate of an inch or so a minute along the slip-way assisted by jacks. Although the tallow placed on the way to facilitate the movement had "frozen", progress was of necessity slow in order to assure that no damage would be done.

After several hours' labour as a result of which the pontoon had travelled about two thirds of the distance with its outer edge lapped by the water, the tide had receded too far for the process to be completed. When the tide rose again last evening it was hoped to complete the launching by the aid of acetylene lamps.

As soon as the pontoon is safely moored at the West Jetty hulk work will commence on the other centre section, section "C". Work on section "B" started in March.

### HAPPINESS IN RUMANIA.

#### The Beginning Of The End.

King Carol of Rumania arranged a special banquet at Bucharest on Friday night at which his final reconciliation with the Queen was effected.

A special correspondent at Berne writes - "The denouement is about to begin of a tragi-comedy of Carlos' breach with the beautiful Madame Lupesca for whom, five years ago, he renounced his right to the throne he has so dramatically recovered. I saw Lupesca at her villa near Lucerne where she has been staying. She said she was only a private person wanting to be left in peace.

I learn on the best authority that she intends to go back to Bucharest and desires to retain at least a close friendship with King Carol. Unless she made a last minute change she should have been in Bucharest on Sunday evening. She was to be escorted by two of the King's most trusted officers.

Following the failure of Marshall Prejan to form a Cabinet, M. Mariu, the leader of the National Peasant Party, and former Premier, after a long interview with the King Carol agreed to form a new Government.

### AUTHORITIES FAITH

#### But Court Martial Sentences.

A striking incident showing the authorities continued faith in the loyalty of the 2/18th Garwhal Rifles two platoons who gave trouble at Peshawar during April riots, is reported from the north-west frontiers.

Two hundred disaffected tribesmen from Tikoi demonstrated in front of the Oghi Post, 30 miles north of Abbotabad in the Punjab but finding the post strongly held withdrew. The frontier constabulary has now been re-inforced by two companies of the Charwalis and one section of pack artillery from Abbotabad.

A courtmartial at Abbotabad sentenced 17 Charwalis for the April Mutiny. One is to be transported for life, another for fifteen years, and the remainder on terms of vigorous imprisonment ranging from three to ten years.

From His Excellency the Governor :- "On behalf of the Colony and self offer you heartiest congratulations on promotion to Admiral. Governor."

From Sir Cyril Fuller :- "I thank you and the Colony for your kind telegram and wish all prosperity."

SEALING PRODUCTION.

During the last month the Sealing Company at Albermarle has extracted fifty tons of oil and hopes to ship a hundred tons by the middle of July.

P.S.A.

The usual monthly P.S.A. Meeting will take place in the Tabernacle to-morrow at 3.0 p.m. when the service will be conducted by Mr. J.C. Lanham. Among those contributing to the programme are - Miss Ellen Borntsen, Mr. A.W. Beardmore and Mr. H. Slade.

SCHOOL TEACHER WEDS.

Miss W. Carey And Mr. J. Barnes.

More than usual interest was shown in the wedding on Thursday between Miss Winnifred A. Carey, the youngest daughter of Mrs. Carey and the late Mr. Dave Carey, and Mr. John S. Barnes, the sixth son of Mr. A.J. Barnes and the late Mrs. Barnes.

In honour of the happy event His Excellency the Governor granted a half holiday to the pupils of Government School where Miss Carey has been a highly esteemed school teacher for the past six years. Both the bride and bridegroom are popular figures in the town while Mr. Barnes has the distinction of being the first man to introduce a motor lorry into the Colony, having shown the initiative of securing a Ford model some seven years ago.

The ceremony took place in the Cathedral and was conducted by the Rev. S.M.E. Aylward, the service being choral. The bride, who was given away by her cousin, Mr. C. Evans, looked perfectly sweet in her dress of white satin and lace trimmed with diamonds and wearing a fine old lace veil with a coronet of orange blossom. Her bouquet of assorted flowers and fern was presented by Mrs. Tom. Smith. She was attended by Miss Kathleen Smith (niece) and Miss Mary Middleton (friend) who looked no less charming in their dresses of cyclamen trimmed with beige and wearing Dutch caps to match.

After the ceremony a reception was held at Mr. Barnes' house and in the evening, by the kind invitation of Mr. and Mrs. G. Brechan, a house dance was held at "Bon Accord" where about a hundred guests assembled. A very pleasant time was spent there to the music of the piano, to Mr. Peck-Betts accordion, and the harmony of the Peck instrumentalists whose numbers were augmented by a friend or two. Dances old and new kept the happy throng on the move and at refreshment time the abundance of delicacies prepared by Miss Ivy Barnes, the bridegroom's sister, were only surpassed in taste by the handsome three tier wedding cake made by the bride's mother.

The happy couple were the recipients of many useful and valuable presents included among them being an autographed copy of His Excellency's latest book "Where Lion Reign", presented by the Governor. Tasteful presents were also received from the Staff of Government School.

SHIPPING.

After beaching and repairing her propellor the s.s. "Falkland" was expected to leave San Carlos last night or this morning for North Ann and then make direct for Stanley where she is expected to arrive either Monday or Tuesday next. The steamer hopes to leave for Salvador and Port Howard on Thursday next.

The s.s. "Flegrus" arrived at Stanley at 2.0 a.m. yesterday morning with Mr. S. Atkins as passenger and will leave for Pebble Island on Tuesday calling probably at Port Howard.

MYSTERIOUS JAPANESE MURDER.

Burning Stateroom In Liner.

A mysterious murder was discovered in the Japanese liner "Tatsutamaru" of 13,300 tons bound from Kobe to Yokohama on Thursday.

A fire was reported in a locked unoccupied stateroom and when the flames were extinguished the chief steward was found dead in a berth with knife wounds in the neck. While the body was being examined a man was seen to leap overboard and disappear. A boat was sent to the rescue but capsized and a member of the crew was drowned.

A roll call of the passengers was taken but it failed to reveal anyone missing and it was thought the murderer was a stow-away who set fire to the stateroom to destroy evidence of the crime and when the discovery was made committed suicide by jumping overboard.

STOCKINGLESS TENNIS PLAYERS.

Unwritten Law Violated.

Despite the unwritten law, stockingless women players outnumbered those wearing stockings on Thursday in the Wimbledon Lawn Tennis championships on the outside courts but on the centre court they still lacked the courage to appear with bare legs.

Although the Committee recognise that there is no jurisdiction of the stocking issue, it has, however, power to prevent players having matches arranged on the centre court unless a promise is given that stockings are worn.

As every woman player's ambition is to appear on the centre court the promise is quickly forthcoming.

Miss E.L. Harvey collapsed in her match with Mistress McIlquham and had to be assisted from the court. Bobby Jones was present with his wife during the afternoon and were given seats in the royal box.

HISTORIC BUILDINGS IN DANGER.

Oxford's Traffic Problem.

Irreparable damage is likely to be caused to some of the most historic of the buildings in Oxford unless something is done to cope with the traffic problem of the city.

At All Souls College, three of the Oriel windows had to be taken down because the walls behind were giving way and at the Bodleian Library, vibration caused by the traffic has caused a crack in the roof of one of the cellars with the result that books installed there have been damaged.

Sir Charles Oman M.P., Oxford University, says that the state of Oxford's streets bears out the complaints he has been making in the House of Commons as to the congestion in the main thoroughfares.

LABOUR'S DESPAIR.

"Wholesale Loss Of Seats."

The "Daily Mail" political correspondent writes that it would be difficult at the moment to exaggerate the depression that has gripped the Labour Party a year after their triumphant entry into office.

Members are in a state bordering on despair and smouldering with rebellion. Never before in political history has there been a change of heart so rapid and complete. Officials of the party who have been touring the industrial north report that it almost impossible to get a hearing at Socialist meetings in such towns as Newcastle, Leeds, Bradford, and Sheffield,

The probability of a wholesale loss of seats in such areas is fully admitted in official circles and there is an outcry against the party leaders particularly against Mr. Ramsay MacDonald which threatens to cause an internal eruption.

It is understood that the Party is within a measurable distance - a month perhaps - of a complete break-away from the Trade Unions and Mr. MacDonald has been credited with the view that dissolution is the only solution and he is seeking an issue upon which to go to the country.

SHOCKING ACCIDENT AT PORT HOWARD.

Stanley Man Dies Of Injuries.

Steamer's Unavailing Dash.

A shocking accident occurred at Port Howard on Friday afternoon as a result of which Harry Hall, aged 23 years and 11 months died of injuries after being admitted to Stanley Hospital in the early hours of Sunday morning. When the news was wirelessed to Stanley the s.s. "Fleurus" dashed out to the West Falklands in a frantic effort to bring aid to the young man whose tragic end has cast a deep shadow of gloom over the town.

The accident happened about 4.0 p.m. on Friday. Harry Hall was feeding a bone crusher when his glove was caught and carried his right arm into the machinery, completely crushing it almost to the shoulder. Mr. George Johnson, the foreman, was standing near and on hearing the unfortunate man's agonising cry rushed to his assistance while a lad named James Leo who happened to be close at hand, had the presence of mind to slip the belt from the pulley and stop the crusher.

Although in terrible agony Harry Hall displayed the utmost stoicism. He did not faint and though with his arm torn off, he walked from the scene of the accident to his room - a distance of between two and three hundred yards - with the assistance of two of his mates. Meanwhile Mr. Pole-Evans, the manager, had been informed and he 'phoned to the Doctor at Fox Bay who told him how to render all the assistance possible until the latter could arrive. At the same time a wireless message was sent to Captain Carlsen of the "Fleurus" which was berthed in Stanley harbour, to send out assistance as soon as possible. The same evening the steamer left at about 10.0 with the Principal Medical Officer and Mr. Hall's brother-in-law, Mr. W.J. Hutchinson on board while every preparation was made in the Hospital for an operation on their return if necessary.

While the "Fleurus" was ploughing her way to the West as hard as she could go, the Doctor from Fox Bay made for Port Howard, riding post haste through the night. W. Lee acted as his guide from Fox Bay to Black Hills where James Binnie was waiting to take him to the Hill Gap Mountain. There he was met by G. Llamasa and George Hall, a brother of Harry Hall, who brought him to his destination just before two-o'clock Saturday morning.

The "Fleurus" arrived at 11.0 a.m. on Saturday. The doctors did what they could for the young man who showed amazing pluck and it was decided to bring him into Stanley. He was transported to the steamer which immediately started on the return journey. But

before the Port was reached soon after 2.30 a.m. the unfortunate young man showed signs of collapse and lapsed into unconsciousness. Everything possible had been done to withstand the shock while at the jetty-side a Government lorry was waiting to convey him to the hospital. Mr. E.G. Rowe was also present with his car to assist if necessary.

Inspite of the aid of ship and wireless, and medical skill and care, the injury proved mortal and the hapless man passed away within an hour of arriving without gaining consciousness.

Harry Hall was the fourth son of Mr. and Mrs. L.J. Hall of Stanley and by reason of his good nature and cheerful countenance was a great favourite among his fellows both in Stanley and at Port Howard where he had been employed for some time. He was a member of the Defence Force Section at Fort Howard and a member of the Stanley Benefit Club. The interment, which will be preceded by a Military Funeral, will take place to-morrow (Tuesday.)

TURMOIL IN SPAIN.

Anarchy Threatens Seville.

A "Daily Mail" news message from Madrid states that anarchy threatens Seville as the result of a General Strike declared in the Old City early last week after the closing of the Spanish-American Exhibition.

Preparations in outlying villages had obviously been going on for some time in order to bring about the movement. The pretext for several violent outbreaks had been the alleged brutality of the police.

The Governor has had instructions to restore order at all costs and troops are ready to lend a hand if necessary. Hundreds of arrests have been made and all the suspected leaders are being detained. Reports from private sources in Seville indicate that a General Strike may be called throughout Spain.

A later message from Hendayo states that Seville was under armed patrols occupying every strategic point in the city where the General Strike has paralysed civil life for the past forty-eight hours.

Over two hundred arrests have been made including Trade Union agitators who arrived in Seville on Thursday last week secretly from Barcelona and Madrid.

This is the first serious strike that has occurred in Spain since the advent of the late General Primo de Rivera as Dictator. The San Sebastian correspondent of the "Daily Mail" writes that Mazzo, the Spanish Minister of Justice, left for London over the week-end to confer with King Alfonso.

R. 100 AND R. 101.

Lord Thomson, the Air Minister, stated at the Imperial Press Conference on Friday that the airship R. 100 would leave for Montreal in the last few days of July and that he himself would be making the journey to India in September. He went on to say he could never see that the flight across the Atlantic from east to west by aeroplane would be a commercial proposition.

Experts were now in Greenland, Lord Thomson went on to say, considering another route and he believed their investigations would result in something practical within the next eighteen months or two years. What a factor that would be in linking the Old World with the New - when they would be able to go from Croydon to Chicago through Canada in three or four days.
