MAJOR THE HON. J. INNES MOIR.

Our heartiest congratulations are extended to Major the Hon. J. Innes Moir (Senior Medical Officer) who has been offered and has accepted the post of Principal Medical Officer of British Honduras.

Major Moir's associations with the Falklands need no introduction to our readers for after spending his boyhood days in the Colony he went home to Aberdeen to be educated at Gordon's College and University, taking his M.B. and Ch.B. in 1921 and in 1923 qualifying for the Diploma for Public Health.

After serving during the war as a Surgeon Sub-Lieutenant in the R.N.V.R. Major Moir became a Lieutenant in the R.A.M.C. in 1921. The same year he became House Surgeon to the Sick Children's Hospital at Aberdeen and Assistant Medical Officer to the City Hospital, Aberdeen, holding the latter position until 1923 when he was appointed Medical Officer at Darwin for the Falkland Islands Company. In 1927 Major Moir severed his connection with the Company and in 1929 he was appointed Principal Medical Officer to the Falkland Islands Government. After holding a captaincy in the Falkland Islands Defence Force for a year he was promoted to the rank of Major in 1930 and was for a time Commanding Officer. Major Moir is also a member of the Executive Council and the Legislative Council.

British Honduras is situated in Central America and lies between latitudes 18°29' 15'53" north of the Equator. Its extreme length and breadth are approximately 174 miles and 68 miles respectively; it is bounded on the north and north-west by Yucatan (Mexico), on the west and south by Guatemala, and on the east by the Caribbean Sea. The total area is about 8,598 miles (about twice the size of the Falklands) with a population of about 53,000 people which include but a few hundred Britishers

The climate generally is damp and hot, but not unhealthy. The temperature ranges from 50 to 98 °. The average lies between 75 and 80 degrees, but this is considerably tempered by the prevailing sea-breezes. The country consists chiefly of primeval forest, with savannahs and so-called "pine-ridges" which are open sandy plains covered with a wiry grass and dotted with pine trees affording fair runs for cattle. The capital of the Colony is Belize with a population of about 20,000.

THE ROYAL BETROTHAL.

Prince Nicholas and Princess Helena of Greece have received the news of the betrothal of their daughter Marina with joy, a message from Bled states, adding that there is nothing political in the marriage and that it is entirely one of affection. In Yugoslavia the news of the engagement was unannounced in the press but the romance was "sensed" and the couple are being assured of a hearty welcome on arrival.

While Athens makes no comment, Paris is "delighted with the news" and Berlin emphasises that this is "not an affair arranged by the courts but purely a love match."

Melbourne expresses "public satisfaction" and Ottawa, stressing the prince's personality, extends every wish for happiness while South Africa with congratulations points out how so close an association of the House of Windsor with Grecian royalty may have a significance in years to come not now apparent.

Johannesburg declares that the engagement is a matter of satisfaction to the people of the Empire as a whole with the South Africans among the first to offer congratulations.

THE LEAGUE FOR THE SOVIET ?

Swiss diplomatic circles are seeking to persuade Canada to support their opposition to the Soviet's entry to the League of Nations, states the Daily Telegraph correspondent at Geneva, it being known that Canada is already averse to Russian admission.

A further message states that the League Secretary has drawn up a plan whereby after the admission of the Soviet, invitations to join are to be issued to all the remaining non-member States. It is anticipated that Brazil, Ecuador and Afghanistan will accept and probably Costa Rica and Iceland.

This leaves the United States as the only nation outside the League until the German and Japanese withdrawals become effective in 1935.

Persia has applied for the non-combatant Asiatic seat on the League Council now held by China but it is anticipated that complications will arise in China endeavouring to retain her seat and Turkey and India putting in claims.

"NO DEBT OBLIGATIONS" FOR GERMANY.

Doctor Schacht, the President of the Reichsbank and Hitler's chief economic adviser, in addressing an Agricultural Congress in Berlin on Thursday, called for the complete release of Germany from her international debt obligations "for many years," at the end of which indefinite period he wants the debt burden reduced to a level which is "within the country's capacity to pay" states the Daily Telegraph correspondent.

Schacht emphasised that reparations were no longer a matter between Germany and foreign creditors but affected the whole world while Germany was unable to provide foreign currency to discharge her obligations.

He concluded by asking for an early international agreement or a prolonged moratorium and London political circles are inclined to believe that Germany's request is dictated by the necessities of the present situation though it would appear that the arguments are unconvincing.

TIT-FOR-TAT BOYCOTTS.

Following the receipt of a cable from London, the Australian High Commissioner, Mr Bruce, is outlining the Lancashire objections to the new cotton tariffs to the Federal Cabinet who will reconsider the matter at the earliest convenient meeting.

This news has been received with satisfaction in Manchester but, pending some definite statement, the grocery boycott of Australian products is developing.

As a retaliatory measure the Queensland cotton growers are endeavouring to enlist the support of other primary producers with a view to boycotting Lancashire products.

THE AMERICA CUP TRIALS.

A message from Newport, Rhode Island, states that the "Rainbow" will probably be the defender of the America Cup, having defeated the "Yankee" in the last trial races on Thursday by two minutes over a thirty-mile triangular course.

The British challenger "Endeavour" easily led "Vantite" and "Weetamoe" in the trials.

GRAVE STRIKE FEARS IN U.S.A.

The Union headquarters in Washington have issued an order for 600,000 textile workers to strike at midnight to-day (Saturday,) this being the biggest workers' movement since the inauguration of the Recovery Administration. It is thought that the allied industries will follow suit and there is apprehension that the strike may culminate in violence and bloodshed.

SAAR COMPLICATIONS.

It is reported from Geneva that the British chairman of the Saar Commission, Mr K. Cox, alleges that young Saar leaders have been recruited for voluntary work in the German labour camps and are being trained directly for the purpose of attacking public security in the Saar in connection with the plebiscite while it is added that Germany is interfering with Saar affairs through organisations which force the officials to commit acts or refrain from legal proceedings.

From Saarbrucken it is reported that over half a million applications for enrolment as voters in the January Plebiscite have been received, this far exceeding all forecasts.

ARRIVALS.

Dr & Mrs J.M. Patterson of Darwin arrived in Stanley on Sunday from Fitzroy.

---o---o---

London : It is now realised that the question of Russia's entry to the League of Nations will meet with more opposition than at first anticipated but a majority is almost assured.

Cardiff : A month's notice to terminate the South Wales coal-fields wages agreement has been handed in but it is unlikely to that there will be any developments until September, 18th when the men meet the owners.

Melbourne: The Australian Premier, Mr Lyons, has appealed to Lancashire to leave the settlement of the cotton duties difficulties to the respective governments.

Newport, Rhode Island : In further trials "Rainbow" beat "Yankee" by one second. Sopwith has announced that he is prepared to race the "Yankee" and the "Rainbow" in turn as they are apparently equal.

FOOTBALL.

No. 2 Platoon 2 : No. 3 Platoon 2.

Sunday's game between No. 2 Platoon and No. 5 Platoon produced perhaps the best continued display of combination among a line of forwards that has been seen for some time among local footballers, and the marks on this occasion go to No. 2 Platoon who are struggling hard to lift themselves up from the bottom of the League. And though the game resulted in a draw it was no fault of No. 2 that they didn't take both points.- it seemed to be the decree of fate; for certainly No. 3's goal was as if bewitched, particularly in the latter part of the second half when the continued onslaught of the opposing forwards had completely worn down the defence.

In the first half the ball was evenly distributed with the attack on both sides exploiting a distinctive style of play. No. 3 Platoon depended entirely on their ability to bear down and sweep the opposing defence off their feet. No. 2 Platoon set themselves out to place the ball to the greatest advantage and by deft passes mesmerise the Threes' halves and backs. Somehow or other both sides lacked finish, this being partly due to the state of the field, and when the interval had arrived no goals had been scored.

In the second half the game opened phlegmatically but livened up somewhat after No. 3 had scored a somewhat lucky goal - lucky because two defenders gave an opening almost on the goal line - from a well-placed shot of D. Fleuret's. Somewhat vivified by this advantage the Threes showed some of their characteristic dash and scored a second point from F. White's foot. Meanwhile No. 2 Platoon had also captured the spirit of offence and the forwards worked together almost automatically, with L. Grant, at centre-forward, being by far the best player on the field. Several times Grierson made excellent saves in goal but it was obvious that his "citadel" was bound to fall and fall it did when D. O'Sullivan scored a good goal with a shot that the goalkeeper could not hold, though he made a fine effort to prevent the ball going into the net. Soon afterwards Grant had very hard luck with a clever shot on the goal-line while Pike's well placed shot was neatly tipped over the bar for a corner. At this period of the game No. 3 could only make spasmodic breakaways for their opponents' game had improved tremendously and they showed just as much dash with the advantage of a better understanding among the forwards. Then about fifteen minutes from the end L. Grant scored a neat goal bringing his side in view of victory. But no matter how much No. 2 tried to get the odd goal they could not succeed in defeating Grierson again although the latter's goal was at times almost literally bombarded.

There is no doubt that Grant was completely in his element at centre-forward and was ably supported by Wallen and Greece in the inside positions with two good wings in O'Sullivan and Kirk.

The outstanding player for No. 3 Platoon was W. Grierson who in his unusual role of goalkeeper undoubtedly was responsible for saving his side.

Other players who were worthy of mention were P. Hardy for No. 2 and J. Potterssen for No. 3 Platoon.

The League Table now stands as follows :

	P.	W.	D.	L.	Goals.		Pts.
					For	Agst	
No. 1 Platoon	5	3	1	1	15	7	7.
No. 3 Platoon	5	1	3	1	10	12	5.
No. 2 Platoon	6	1	2	3	8	14	4.

JOHNSON ADAMANT.

It is revealed that the personal quarrel between President Roosevelt and the Advisory Executives is more serious than at first reported states the Daily Telegraph correspondent who adds that the suggestion is that General Johnson should stage a dramatic walk-out carrying with him many of the discontented business men. So disastrous a move has only been averted by Johnson's loyalty and friendship with the President.

It appears that Johnson's alternatives were : complete control of the Recovery Campaign or severance with the organisation; and the question has not yet been settled.

THE U.S.A. TEXTILE STRIKE.

Between 85,000 and 1,500,000 workers were expected to join the textile strike commencing at midnight on Saturday, the original half-million cotton workers being joined by the woollens, silk, rayon and the garment and clothing employees.

Yesterday being a holiday the full strength of the movement would not be revealed until to-day (Tuesday) but all America anticipates one of the gravest conflicts in the country's post-war industrial history going so far as to threaten the basis of the Recovery Administration.

Tempers, a New York message reports, are running high and there is a fear of serious disturbances with the troops and police being mobilised in all the affected areas and extra supplies of tear-gas being prepared.

Late on Saturday night a conference was held between the officials of the Labour Relations Board and the leaders of the Textile Unions, but little hope is held out of the stoppage being averted. Outbreaks of violence have been already reported from South Carolina, Georgia and Alabama where the strike commenced on Friday, and conflicts occurred between the police and the workers.

THE SAVE THE CHILDREN FUND.

In connection with the appeal launched in Stanley in May last by Father Migone on behalf of The Save the Children Fund we are able to publish the following correspondence from and to Father Migone :

Stanley, 20th May, 1934.

"Dear Miss John - I have the pleasure to enclose a cheque for £30, being the amount collected this year in Stanley for the Save the Children Fund. The response to the appeal, amounting to more than twice the sum collected last year, has been most generous and is very gratifying indeed to all concerned. Taking into account the general depression of business and the difficulties most people find in balancing the family budget, the present contribution to your fund speaks very highly in favour of the charitable sentiments common to the whole community. There are persons in the list, and amongst them even children, whose contribution, though small, means privation or a sacrifice of some sort.

"It is for the same reason that I take the liberty of pointing out to you the convenience of putting a stop in time to a rumour which, if it spreads, would be a serious set back to the present generous feelings. Travellers from London have hinted in their conversations that perhaps as much as half of the amount collected for the Save the Children Fund goes in the form of salaries and travelling expenses to the support of the members of the Committee in charge of its distribution. I have not the least doubt that the sums of money sent to you go in their integrity to the support of needy and hungry children and I call the report a simple slander. I should feel very much obliged if you could afford me the means of disavowing it in order that, if needs be, the support to this good cause which you have in your hands may be continued in the future. Yours faithfully, (sd) M.R. Migone."

"23rd June, 1934.

"Dear Father Migone - It was a delightful surprise to receive your letter enclosing your magnificent cheque for £30, which you have collected from among the people of the Falklands towards the work of the Save the Children Fund, and I am now writing to try to convey to you our thanks for the wonderful kindness of you all.

"We cannot express adequately to you how grateful we are and how much we appreciate this evidence of the sympathy and keen interest throughout the Falklands in the work of the Save the Children Fund. Our mutual desire to help the innocent little ones in distress links us together in the bond of brotherhood although we live thousands of miles apart, and we rejoice to know that we can all work together with one unifying aim of bringing health and happiness to those, who are experiencing the pain of hunger and want,

"We were distressed to hear that travellers from London had been bringing you such false tales regarding the distribution of the money collected by the Fund. It is, of course, quite untrue that half the amount collected goes in the form of salaries and travelling expenses. The members of the Committee are precluded by our constitution from any pecuniary benefit. At the same time, you will understand that it is impossible to distribute large sums of money efficiently without a paid organisation. I am enclosing our last annual report to show you how we spend the money entrusted to us.

"Will you please convey to all those, who have contributed to this splendid sum, our heartfelt thanks, and tell them how sincerely we appreciate their self-sacrifice and gifts, that the children may be clothed and fed.

"We would ask you to accept personally our most grateful thanks for your great kindness in launching this appeal on behalf of the Fund, and in arousing the interest of the people of the Falklands in our work. With greetings from the Committee to you and all who have helped to make this appeal such a success. Yours sincerely, (sd) (Miss) Cecilia John; Hon. Overseas Organiser, Save the Children Fund."

Acknowledgement of further contributions will be made in to-morrow's "Penguin."

MERCHANT SHIPPING DEVELOPMENT.

Sir John Simon's memorandum to all maritime countries on the possibility of the restriction of merchant shipping has been despatched, states a report from London.

The memorandum invites opinions but it is pointed out by New York that while the note coincides with the investigation of the United States ocean mail contracts there is no suggestion of an international conference though it is believed that such a development may ensue.

---o---o---

THE FORTHCOMING NAVAL TALKS.

It is anticipated that Britain and Japan will be aligned for the forthcoming naval talks on the proposal that the maximum armament for battleships should be twelve-inch guns.

Just as an eighteen-inch gun for cruisers at the last naval talks was the American objective so at the forthcoming conference it is understood that the U.S.A. aim will be for fourteen-inch guns for battleships.

There is likely to be a compromise on the British submission for 25,000-ton battleships and the United States proposal for 35,000-ton vessels while tonnage and armament replacements are likely to form major points in the discussion.

THE DUCE'S NEW COUP.

According to the Daily Telegraph correspondent in Milan, the Socialist headquarters have been approached by Mussolini that the party join him to form a new "Socialist Wing" of the Fascists and declare themselves his adherents. In return they will receive important posts in the party, especially in the administrative departments controlling the country's labour and output.

This is the boldest coup of the Duce in the history of his home policy.

Opinion is divided as to the probability of Caldera, the Socialist leader accepting the Duce's invitation and many rumours are current relative to the Mussolini-Caldera interview. It is said that Mussolini greeted his visitor as "comrade" and that when Caldera stated that he would join the Fascists if liberty were restored the Duce replied that he was prepared to grant collective but not personal liberty.

Milan holds the opinion that Caldera's prestige and honesty would aid both capital and labour if a fusion was achieved.

STRIKE REPORTS FROM U.S.A.

Further messages from New York confirm the fear that there will be violence if attempts are made to keep the mills open during the textile strike and this is supported by reports from Madon, Georgia, where officials, in endeavouring to pacify workers, have been clubbed and five arrests effected.

Reports from the south, which is determined to "fight to the finish", and New England, Boston and Chicago indicate extremely grave positions.

THE U.S.A. TEXTILE STRIKE.

A message from Washington reports that more than a million textile workers are on strike, including woollen, worsted, silk and rayon operatives and the very foundations of Roosevelt's Recovery Campaign are threatened states the Daily Telegraph.

Monday was "Labour Day" and a general holiday so that the full results of the stoppage could not be revealed until Tuesday. It is considered though that the strike will become a major problem if the dispute assumes the proportions predicted by the labour leaders while the employers are up in arms against the government's plans to furnish relief at the country's expense.

Relief on the union side will cost a million dollars a week it is estimated.

Throughout the whole of the affected areas elaborate precautions have been taken to protect mill property with extensive mobilisation of the police and the National Guardsmen.

The mill-owners assert that the strike is only affecting fifteen per cent while the unions say that not a single unionist will be working.

Roosevelt, a message on Monday stated, remained silent.

A HYDE PARK "FIELD DAY."

Fascists v. Communists.

A message from London states that every available police officer will be on duty on Sunday for crowd control on all the roads leading to Hyde Park where there will be a mass meeting of Fascists and a counter demonstration of Communists.

With all police leave stopped there will be 6,000 concentrated on central London while the special constabulary will be mobilised for carrying out minor traffic control.

It is probable that Scotland Yard's auto-gyro will maintain an observation post from the air.

AMERICA CUP REVELATIONS.

The Daily Telegraph correspondent at Newport, Rhode Island, who has sailed in the "Rainbow", America's Cup defender, makes startling comparisons with the "Endeavour", Sopwith's challenger.

The "Rainbow" is entirely without internal comforts such as state-rooms and cabins and is strictly a racing machine with virtually an empty hull.

Speed remains an open question but it is envisaged that the "Rainbow" would gain great pace on reaches in smooth water.

THE SALVATION ARMY.

TRANS-ATLANTIC AIR MAIL.

Investigations are still being followed up regarding the possibility of operating a trans-Atlantic air mail service and arrangements are under discussion with Newfoundland and the Canadian government and with the Canadian Airways Limited.

THE DUKE OF GLOUCESTER.

The Duke of Gloucester on Tuesday afternoon began his journey to Australia when he left Hendon Aerodrome in the Prince of Wales Dragon Moth aeroplane for Le Bourget, Paris.

The Duke said he was looking forward to a good time in the Dominions.

He will spend over two months in the Commonwealth visiting all the six States and will then proceed for a five or six weeks' visit to New Zealand.

From Marseilles to Australia he will travel in H.M.S. Sussex which, on arrival in Australian waters, will be attached for some months to the Royal Australian Navy. The Duke will make the return journey in H.M.A.S. Australia which, on reaching England, will be attached for the same period to the fleet in Home waters. The occasion is thus being taken to revive the practice of the interchanging of cruisers between the British and Australian Navies which was interrupted by the financial crisis in Australia.

The main purpose of the Duke's visit to Australia is to represent the King at the Centenary Celebrations of the State of Victoria which will be officially opened by the Duke from the steps of Parliament House in Melbourne in October.

SAAR AIDE MEMOIRE.

According to a message from Paris the establishment of an arbitral tribunal of mixed nationality for a period of fifteen years in the event of the Saar voting to return to Germany is advocated in an Aide Memoire addressed by M. Barthou to the League of Nations; this is advised because the French government considers that more complete measures should be adopted for guaranteeing the security of the voters, the rights of the inhabitants, property and money contracts.

In order to avoid long delays France suggests a preliminary agreement on the price of the mines, stipulating that the price should be paid in gold before the mines are evacuated.

The Aide Memoire adds that in the event of the Saar voting "status quo", France would be willing to hand over on equitable terms the large port mines in the Saar territory itself.

AN ECONOMICAL FOWL.

A reader acquaints us with an unusual sidelight in poultry economy wherein a fowl suffering from the economy complex - to the benefit of its owner - on being prepared for the table was found to contain enough fat to dispense with any other means of basting.
The bird in question was a hen in its third laying season and weighed 5 lbs 8 oz. This in itself is not phenomenal but at the point of incision it was found to contain 1 1/2 inches of fat!
Not many fowls have their master's interest so much at heart as to provide the means of "stewing in their own juice."

A FRANCO-ITALIAN PACT.

According to a report from London a Franco-Italian Pact is believed to be imminent following the conversations in Rome between Mussolini and the French Ambassador, the Comte Chambrun.

The Daily Telegraph Paris correspondent has been informed that a complete understanding has been reached on the vital issues and it is confidently expected that when the French Foreign Minister, M. Barthou, visits Rome next month the seal will be set to the agreement.

Mussolini took the opportunity on Wednesday at the Levant Fair to pay a tribute to the Latin associations, referring in contemptuous terms to the Germans as "A people who did not know how to write when we had Caesar, Vergil and Augustine."

It is understood that Canada is not against the Soviet's admission and Sweden will give her support while "The British Movement" states that London is against China standing for re-election to the far eastern seat for which there is Asiatic competition.

RUSSIA & THE LEAGUE.

According to a message from Geneva it has apparently been decided that on the question of Russia taking a permanent seat on the League Council, Argentina, Spain and Portugal would refrain from voting rather than impose a veto thus ensuring the necessary unanimity.

Swiss opposition still remains to be negotiated and it is being unofficially discussed whether Switzerland might withdraw if Russia is elected in which case the League would have to move its headquarters from Geneva.

Another possibility of Russia's admission is the re-entry of Japan.

U.S.A. BID FOR NAVAL SUPREMACY.

The Daily Telegraph correspondent, commenting on the awarding of contracts under the 1934/35 American warship programme, envisages a giant stride towards United States naval supremacy.

The programme, estimated at 135,000,000 dollars, includes one 10,000-ton eight-inch cruiser, three 10,000-ton six-inch cruisers, two heavy flotilla leaders, twelve destroyers and six submarines.

Work on the new vessels is commencing at once.

FRANCO-ITALIAN ALLIANCE.

Considerable interest is being taken in London political circles in the negotiations between France and Italy for, since the Nazi putsch which resulted in the death of Doctor Dollfuss, the tendency towards a closer rapprochement between Rome and Paris is becoming increasingly evident states the Daily Telegraph.

If M. Barthou's visit to Rome results in an agreement on the Libyan frontier question, the status of Italians in Tunis and naval parity it may be taken as assured and the understanding will be cordially welcomed in London.

The idea of a military alliance including a Little Entente is completely discredited in Whitehall but it is felt that if the problems at issue between France and Italy are settled next month a naval agreement might well follow.

The proposed pact was also discussed on Friday at Geneva by the French Foreign Minister, M. Barthou, and Baron Aloisi, the Italian Minister.

RUSSIA ON THE LEAGUE THRESHOLD.

The Council of the League of Nations has reached unanimity on granting Russia a permanent seat and her entry is now practically assured states the Daily Telegraph correspondent at Geneva.

This unanimity, it is understood, is largely due to the diplomacy and persuasiveness of Sir John Simon and the French Foreign Minister, M. Barthou.

Russia's seat on the Council was agreed after a two hours' secret session and announced by Doctor Benes, the Council President, but when the formal vote comes up Portugal and Argentina will abstain it is understood.

8 DEATHS IN SPANISH DISORDER.

The attempt of the Spanish labour organisations to paralyse life in Madrid by a general strike has resulted in eight deaths and forty people being injured. The strikers completely failed to prevent the holding of a mass meeting by the Catalan farmers against which the strike was a protest.

Sprung upon the city at 06.00 on Saturday morning the strike aimed to leave the householders unprovided with food for the week-end, states the Daily Telegraph correspondent, but the authorities succeeded in making good the supply of necessities.

The strike leaders ordered resumption of work at midnight and on Sunday morning the capital had resumed a normal appearance, the principal sufferers being innocent victims who had intercepted bullets in a clash between the strikers and the police.

COMPLETE ORDER IN HYDE PARK.

The large scale Fascist and anti-Fascist demonstrations in Hyde Park on Sunday evening passed off practically without incident thanks to the firm and good humoured handling by the police.

Arrests amounted to sixteen and a number of people were injured in the crush but only one hospital case is reported.

Camps were pitched scarcely a quarter of a mile apart but between them was a wall of police on foot and mounted while Scotland Yard's auto-giro hovered overhead.

A chorus of hooting and shouting from a crowd containing noticeably a rough element at first prevented Sir Oswald Mosley's speech from being audible but when the police found it necessary to remove the noisy offenders they were hurried through the great crowd without incident and the police succeeded in maintaining a no-man's land between the rival factions.

THE 20TH ANNIVERSARY OF THE MARNE.

Marshal Petain in Paris, at the twentieth anniversary in commemoration of the first battle of the Marne on Sunday said "May the thought of her dead who sleep here beside so many of our own remind Germany that humanity after having suffered so many trials aspires only to heal its wounds."

The first battle of the Marne is considered as the first great turning point in the World War. Fought from the 6th to the 9th of September, 1914, it was considered a strategically decisive victory for the Allies for it brought the rapid and apparently resistless advance of the German hosts through Belgium and France to a halt within a few miles of Paris and then forced them northwards in retirement.

Both the "Rainbow" and the "Endeavour" have been taken from the water at Newport, Rhode Island, and measured and found to show only the most trivial difference with the designer's figures.

The "Rainbow" appears longer in the side than the "Endeavour" to Major Hesstall Smith, the Daily Telegraph special correspondent, who thinks that she ought to display her highest quality in sailing upon a long close-hauled reach.

The Cup defender has ordered new sails states the Daily Telegraph correspondent in a further message, including "Garbo" jibs and "Mac West" spinnakers.

The growing scale of the Aldershot Tattoo, held every June, has imposed such a burden on the command and staff, interfering inevitably with military duties that the post of Manager is being created to take charge of the production as distinct from the business side.

THE U.S.A. STRIKE.

The prospect of a settlement of the United States textile strike by arbitration was considerably lessened on Monday when it was announced that, following a conference between the Textile Institute and the Arbitration Board, the manufacturers would meet the arbitrators during the week.

At the same time though, the strike committee chairman, Mr Gorman, announced that the unions offer of immediate arbitration on the conditions that all the mills were closed, expired Monday night and if this was not accepted the strike would continue until the employers yielded.

The figures now available indicate approximately a fifty per cent response to the strike call.

U.S.A. TEXTILE STRIKE.

Hopes of a settlement of the textile strike are expressed in many quarters with the extension of the strikers' period for the acceptance of their arbitration efforts by the employers.

Meanwhile the strikers feelings are being gradually aroused in many areas and outbreaks have occurred resulting in six strikers being wounded by National Guards at High Point, North Carolina, and the same number in rioting at Lancaster, Pennsylvania.

At the latter place a thousand rioters and sympathisers attempted to wreck the Stehli silk mill, among America's largest factories, but they were repulsed by the City State police.

The mills at Saylesville have been wrecked and many rioters have had to go to hospital.

THE SOVIET & THE LEAGUE.

A message from Geneva states that it is believed that the Soviet may not be eager to accept the invitation to join the League in its present form as "all the butter has been scraped from the bread," while further, it is not impossible that some power may request that the whole question be referred to a commission which would not suit Russia.

It is unlikely that there will be any further developments until Litvinoff has replied to the communication giving the text of the proposed invitation.

The Japanese press comments bitterly on the matter, stating that the League has become "A league of European nations" while Russia's entry is likely to check Japanese influence in the east or German influence in the west.

THE LATE MR JOHN DETTLEFF.

It is with deep regret that we have to record the death of Mr John Dettleff of Stanley, who passed away early yesterday morning at the age of eighty years. The funeral will be held Sunday afternoon at 2.30 o'clock.

Mr Dettleff, who was born on St Patrick's Day 1854 in Stanley, began work as clerk with Magistrate Smith in the Court House and then went to work with Mr Eddie Paocke at Fitzroy. Later he went to Albermarle as dairyman and from there he changed to Port Louis afterwards staying for a time at Rincon Grande. He then returned to Stanley as a carter for Messrs G. Dean at the time the West Store was sold to the Falkland Islands Company. For several years then he ran a butchery of his own, giving that up to take over the butchery belonging to the Falkland Islands Company retiring from that about fourteen years ago.

He spent practically the whole of his life in the Colony with the exception of two short trips to South America. When nineteen years of age he sailed to Montevideo with his father in the schooner "Foam". Some years later he went to Tierra del Fuego in the schooner "Ready" with his sister and her husband, Captain Nugent.

He and Mrs Dettleff celebrated their Golden Wedding in 1929 and he is survived by his wife, six sons, one grandson, two grand-daughters and one sister, Mrs Nugent of New York.

FOOTBALL.

No. 1 Platoon 2 : No. 3 Platoon 1.

In a very well matched game on Sunday last No. 1 Platoon maintained their superiority by defeating their rivals for the premier position by 2 - 1.

At the end of the first half no goals had been scored although No. 3 Platoon failed to take advantage of a penalty kick for hapds. In the second half No. 1 Platoon went ahead with two goals scored by Clifton and D. Williams but for all the advantage gained No. 3's forwards were playing more decisive football though they met with a very strong opposition in the defence, Aldridge being an outstanding player. Summers, Aldridge's partner at back, had an unfortunate experience in scoring No. 3's goal from a centre put in by D. Peck who was perhaps the best man for No. 3 and had the losers concentrate on feeding him more effectively they might have given No. 1 Platoon a very close run for the two points. Grierson, in goal for No. 3 Platoon, also played well.

In the North African port of Bizerta is a navy which is owned by no nation; has not been to sea for thirteen years; and has been without crews for ten years.

This derelict navy is described in the latest report of the Straits Commission of the League of Nations, listing the naval forces of the Black Sea Powers.

The force consists of twelve warships, a dreadnought, a cruiser, destroyers and submarines. It is the remains of the navy of Tsarist Russia left there by the "White" Russian forces when they evacuated the coast of the Black Sea.

THE CUP COMES BACK.

Enthusiastic crowds gathered on the landing stage of the Falkland Islands Company's East Jetty soon after 7.0 o'clock this morning to welcome back to the Colony the three members of the Bisley team who have returned by this trip of the s.s. Lafonia - Lieutenant A.I. Fleuret, the captain who, incidentally led the team to victory in 1930, Sergeant J.R. Gleadell (also a member of the previous winning team) and Private Len. Reive - with the Junior Kolapore Cup.

His Excellency the Acting Governor was represented by his Private Secretary while the Hon. M.C. Craigie-Halkett O.B.E. (Acting Colonial Secretary) represented the Government and Captain W.M. Allan represented the Defence Force in conveying to Mr Fleuret, Mr Gleadell and Mr Reive the heartiest congratulations which come from the hearts of everyone in the Colony. There were also present Major the Hon. J. Innes Moir, the Hon. G. Roberts and the Hon. L.W.H. Young to welcome them back to the Falklands.

In spite of the rough trip experienced and the cold, snowy morning everyone was in the best of spirits and agog for news of the Team's experiences at Home.

Among the tit-bits picked up we gleaned the following :

- "Mac" came about 72nd or 71st in the Final Stage of the King's;
"Sir Arnold Hodson was also one of the 'King's Hundred';
"The Falklands' team collected about £72 in prize money between them;
Our team shot next to that of Sierra Leone for whom Sir Arnold Hodson was shooting;
"Sir Arnold exhibited the utmost enthusiasm and during the shoot paid periodical visits to Our Team's board to see how they were progressing."

Notification will be made in due course as to the suitable celebrations to take place in honour of Mr Fleuret's and his team's success in returning home with the coveted trophy.

- o -

In reply to telegram sent by the Acting Colonial Secretary on Wednesday, Lieutenant A.I. Fleuret replied the following day with : "The Team desire to thank His Excellency for the kind message of welcome. Fleuret."

THEIR MAJESTIES.

An official announcement from London states that their Majesties the King and Queen will leave Balmoral on the 26th of this month (September) for Clydebank where the new Cunard liner is to be launched.

They will return to Balmoral Castle after the launching ceremony and the Court will remain in residence until the beginning of October.

Prince George is at Balmoral Castle with his parents and it is understood that Princess Marina with her parents will also arrive for a short stay as the guests of the King and Queen.

NEW BRITISH WARSHIPS.

The new British destroyer "Electra" left Tyneside on her trials yesterday and will later proceed to Portsmouth. She is one of the eight destroyers ordered to be built in 1931 and the second to be completed.

Orders have been given, a London message reports, for the building of a new 9,000-ton cruiser. It is understood that this warship will be built at Walton-on-Tyne.

---O---O---

WILEY POST CANCELS AIR ENTRY.

According to a message from New York Mr Wiley Post has reported that owing to damage to his aeroplane he will have to withdraw from the London to Melbourne Air Race which takes place next month.

The machine was damaged while Mr Post was making an attempt on the stratosphere record; he was not seriously hurt himself.

Sir Kingsford Smith in an audience with the press said that he had sent a message of sympathy to Mr Post on his having to withdraw. He also stated that he considered that the race had lost its most formidable competitor.

---O---O---

THE AMERICA CUP.

By this morning's press bulletin news has been received from London that people all over the world are watching with great interest to-day's first race for the America Cup.

There are seven races in all and the cup goes to the yacht that sails the best four races.

America has held the cup for sixty years but the hopes of the British challenger, the "Endeavour" are as favourable as ever they have been. It was feared at one time that the captain of the "Rainbow", the defender, would have to be released from the race as he had been called up for strike duty with the National Guard, but owing to the apparent improvement in the textile strike position he has been excused and is in command of his yacht.

President Roosevelt has made a special journey to see the first race.

---O---O---

LANDING ON A LION.

Parachutist's Peril.

A message from London this morning states that a parachutist jumping from an aeroplane over Surrey, had an alarming experience to-day of landing on a lion's cage in Chessington Zoo.

There were two lions in the cage and he was in imminent danger of being severely mauled when he was rescued by the keepers in the nick of time.

IMPORTS & EXPORTS.

The Board of Trade announces that the British imports for August last amounted to £60,000,000 and the exports slightly over £32,000,000.

---O---O---

WHEAT PRICE "HEAT WAVE."

The people in Stanley enjoying to the utmost the "delicious spring weather" we are experiencing in the Colony at the moment will be interested to learn that a bulletin from London this morning is loud in its praise and appreciation of the Autumn heat wave holiday makers in Britain having.

With what envy do we feel towards the hundreds of sun-bathers at Home when we look out of our windows and cannot distinguish the other side of the harbour for snow and sleet. Last night there were seven degrees of frost and the only glimmer of sunshine we have felt ~~this week~~ has been early one or two mornings when most of us were still thinking about breakfast.

HURRAH ! THE CODE'S COME.

All sweepstake enthusiasts and football fans will greatly rejoice on learning that the Code has come by this mail and that the correct results will be broadcast and published from to-day.

We understand that the petition for a Boxing Board has now been cancelled and that all boxing gloves will be returned to store.

Our representative of the League of Nations "telegraphs" that peace and harmony reigns again!

WETTING THE CUP.

As many members of the Defence Force as possible were present at Headquarters on Saturday for the informal welcome home to the members of the Bisley Team who returned in the s.s. Lafonia that morning with the Junior Kolapore Cup and drank to their success from the spacious bowl of the trophy.

His Excellency the Acting Governor, accompanied by Major the Hon. J. Innes Moir (Aide-de-Camp) was present while Captain W.M. Allan presided, the guests of honour being Lieutenant A.I. Fleuret, Sergeant J.R. Gleadell and Private Len. Reive.

Supporting the chairman were the Hon. M.G. Craigie-Halkett, O.B.E. (Acting Colonial Secretary), Lieutenant S.W. Harding and Second-Lieutenant L.W. Aldridge.

After the introductory remarks of Captain Allan who acquainted those present with his "inspiration", Major Moir toasted the Team while in conclusion His Excellency called for three hearty cheers for Lieutenant A.I. Fleuret and his men which were given with great gusto and with the additional "Tiger."

Before the proceedings terminated members of the Force gave a number of impromptu turns which were greatly appreciated.

THE AMERICA CUP.

The first race of the series of seven for the America Cup took place on Saturday at Newport, Rhode Island with a maximum of five hours and a half for covering the course.

According to the Daily Telegraph correspondent before the race there were varying interpretations of the rules relative to cabin fittings but Sopwith had not raised any objection.

The Endeavour cost £30,000 while the Rainbow cost £80,000 and Sopwith and Vanderbilt, the respective owners were at the helm. The weather was reported to be fair with a light north-east wind.

At half-way the Rainbow led by two minutes & $\frac{1}{2}$ mile within a mile of the finishing line but "No contest" was declared as neither vessel finished within the five and a half hours; therefore Saturday's race will not count in the series.

The Endeavour made a better fight than the earlier Shamrock challengers.

Intense interest was shown by the spectators whose fleet crowded the wake of the competitors.

When it was apparent that either the Rainbow would win or that the race would be declared void a rush was made for harbour to announce the result.

Wireless traffic control proved effective.

A further message from Newport states that never in the eighty years' history of the races has such public interest been displayed and the entire twenty-mile was crowded by enthusiasts. Newport Harbour was choked with yachts of all categories long before the race started.

Among the wide precautions taken were ; air patrols and strict control of excursion steamers.

According to current reports there are but few Americans who do not wish for a British win, Mr and Mrs Sopwith being immensely popular as testified by the arrangements made for the dinner to them to take place on Thursday.

---o---o---

THE TEXTILE STRIKE.

According to a message from New York the textile strike position remains practically unchanged. The Daily Telegraph correspondent adds that minor outbreaks are continuing.

At Burlington, North Carolina, the National Guardsmen had to use bayonets and tear gas to disperse the strikers who attempted to prevent the mills re-opening.

It has been arranged that President Roosevelt, who is attending the America Cup races, will receive radio reports of the situation.

The question of the use of United States troops is in suspense still as the legislature's reluctance is predominant at the moment against authorising the governor to demand intervention.

MESSAGE FROM BISHOP de JERSEY.

We have received by this mail the following message for publication from the Right Reverend the Lord Bishop de Jersey :

"I don't propose to enlarge on my former message of farewell. I would just say that I was very pleased at the Islands' success at Bisley. I hope to subscribe each year to the Bisley Fund. Having said this I again say 'God be with you,' Farewell."

In his own simple way His Lordship shows once again how close to his heart are the fortunes of our Islands and we in turn extend to him our deep appreciation of his kindly thoughts.

It is with great concern, however, we learn that at the time of writing this message His Lordship was still confined to the Chesterfield Nursing Home, Bristol, but his words are full of cheer and aid us in the fervent hope that he will soon regain his normal health. The same day he penned his letter he was sitting up in a wheeled chair in the garden for the first time for over a year.

SCHOLAR'S SUCCESS.

Our heatiest congratulations are extended to Miss Phyllis Turner, the elder daughter of Mr and Mrs G.I. Turner of Stanley, who, we learn, has been successful in passing the Cambridge School Certificate from Chelmsford High School thus enabling her to enter Whiteland's Ladies' Training College, Putney,

Miss Turner will go into residence when the next session begins on the 25th of this month.

PEACOCKS IN STANLEY.

For the first time for many years Stanley possesses two Peacocks which had been shipped from Montevideo for Mrs E.A. Davis in the s.s. Lafonia and which arrived in the Colony on Saturday last.

We learn that both the birds had suffered no ill effects from their voyage and Mrs Davis has every hope of their withstanding the rigours of the climate and becoming a novel ornament to her garden with a part of her lawn being specially prepared for their reception.

The first peacocks to make the acquaintance of Stanley we believe were those kept by Mr Montagu Dean some years ago.

THE AMERICA CUP.

"Endeavour" Wins First Race.

News from America last evening announced that the British Challenger "Endeavour" won the first of the series of the America Cup races yesterday by two minutes nine seconds.

It will be remembered that Saturday's race in which the "Rainbow" came home ahead of the "Endeavour" was declared void since the contest was not finished within the specified time limit of five and a half hours.

Yesterday's race was held in uncertain weather and it was at first thought that the event would have to be postponed owing to high winds and rain, but an improvement was discerned and at 2.55 p.m. G.M.T. both yachts got away.

The "Rainbow" held the lead until the turn and then, with splendid sailing, the "Endeavour" picked up and took the lead for the remainder of the course, eventually winning the race by 2 minutes 9 seconds.

Deafening acclamation greeted the Britisher at the winning point, ships sirens and hooters screaming everything else into oblivion.

The second race will take place to-day (Tuesday) over a triangular course, weather permitting.

In summing up Saturday's race a press bulletin from the Daily Telegraph correspondent states that he takes the view that the "Rainbow's" Genoa jib was an essential factor in giving her the lead while the American defender's build was more suitable to the light airs prevailing that day.

Sopwith steered the "Endeavour" and Vanderbilt the "Rainbow" and no fault could be ascribed to the English crew for the result though the "Endeavour's" decks appeared overcrowded.

After the race Sopwith stated "We don't like Genoa jibs" and the sail lent by the "Vanitie's" owner was only used when the "Rainbow" adopted it.

President Roosevelt watched the race throughout from Astor's yacht "Nourmahal" but both Sopwith and Vanderbilt complained of low flying planes carrying newsmen and photographers.

PEACOCKS 40 YEARS AGO.

A reader informs us that Peacocks were brought to the Falklands over forty years ago by Mr Waldron who kept them on his station at Port Howard. We have not yet been able to discover how long they remained there or from whence they came and went.

Perhaps others of our readers who remember the time and saw them can enlighten us with more detailed particulars ?

THE AMERICA CUP.

"Endeavour" Wins The Second Race.

The British challenger "Endeavour" for the America Cup won the second of the series of seven races against the defender "Rainbow" yesterday at Newport, Rhode Island.

In the previous race on Monday the contest took place over a leeward-windward course while yesterday's event was over a thirty-mile triangular course.

The "Endeavour" established an early lead and rounded the first mark with a small margin over Vanderbilt's defender. When the second mark was turned the lead had been increased to 94 seconds and though the "Rainbow" decreased this somewhat on the homeward stretch the "Endeavour" came in first by 45 seconds.

The Daily Telegraph's special correspondent at Newport, Rhode Island, (Major Heckstall Smith) ascribes the "Endeavour's" win in the first contest to superior strategy and sail-changing, her crew acting without a flaw throughout the many variable conditions of the race.

Both yachts broke a forty-year-old record on a fifteen-mile windward beat, the "Rainbow" rounding in 2 hours, 4 minutes, 9 seconds and the "Endeavour" in 2 hours, 4 minutes, 30 seconds, beating the American "Vigilant's" 2 hours, 6 minutes, 40 seconds, in 1893 when racing against Lord Dunraven's "Vigilant."

Heckstall Smith says "It was a devil of a race," but a thoroughly honest test of the vessels and the "Endeavour's" advantage came when the sea moderated and the wind held steady.

The "Rainbow" hoisted a "parachute" in an attempt to pick up but the breeze carried it over the headstay to destruction and the "Endeavour" crossed the line with sails "gallantly sheeted home" and Sopwith steadying the helm to the winning line.

The official times were : "Endeavour" 3 hours 38 minutes, 44 seconds; "Rainbow" 3 hours, forty minutes, 53 seconds.

TEXTILE STRIKE GRAVER.

A message from New York states that the textile strike situation was much graver on Monday the outlook being forbidding with the proclamation of martial law throughout Georgia and Gorman, the strike leader, threatening to call out another 100,000 workers in the dying, rayon, underwear, knitted and carpet industries.

It is estimated that 13,000 National Guards have been mobilised in eight States for strike duty and in Georgia an artillery brigade is standing by.

The view of the president has not been disclosed; he is awaiting the report of the Mediation Board but Gorman hopes to obtain the support of the Labour Federation Convention for the resignation of General Johnson as N.R.A. Administrator.

"ENDEAVOUR" LOSES.

After leading at one time by over a thousand yards, the "Endeavour" lost the third race of the series yesterday, the "Rainbow" beating her by seventy-five seconds. During the latter part of the homeward run the "Endeavour" lost considerable ground on tacks and encountering airless patches, the "Rainbow" then taking the lead half a mile after the final turn. Towards the line the "Endeavour" picked up but was unable to regain the advantage, the "Rainbow" winning in four hours, thirty-three minutes,

COLONIAL SMALL BORE &

DOMINION MATCHES.

This week the main topic not only among Defence Force members but in the Colony generally to hold interest is the shooting for the Colonial Small Bore and Dominion Matches which will take place on Friday at 7.0 p.m. in the Drill Hall.

Practice matches for the purpose of selecting teams begin this evening and will continue on Wednesday and Thursday, the Committee, immediately after the Thursday practice, then choosing the members who will represent the Colony in these competitions.

The following members have been chosen to appear on the practice nights : Pte L. Reive, Sgt J.R. Gleadell, Capt. W.M. Allan, Ptes W.J. Grierson & A.H. Hills, Cpl J.P. Peck, Ptes E. Lellman, K.V. Lellman, Cpl C.H. Thompson, Pte J. Petterssen, Cpl W. Browning, Ptes H.H. Sedgwick, W.T. Aldridge, J.W. Grierson with Sgt J.J. Harries in reserve.

Two cards under Small Bore conditions will be fired off each night and the members will shoot for places to be decided as under:

The ten with the highest aggregate score for the three matches will fire in the Small Bore Match. The two next best will be included in the "B" Team of the Dominion Competition. The six who make the highest aggregate score in the Colonial Small Bore Match on Friday will form the "A" Team in the Dominion Competition, the remaining four firing with the "B" Team.

The Hon. G. Roberts (Director of Public Works) has kindly consented to officiate as Official Referee for both matches and has generously given a prize of a Silver Tankard for presentation to the member of the Colonial Small Bore Match team who makes the highest aggregate score on Friday night.

Lieutenant A.I. Fleuret has kindly agreed to collect the cards and check them for Club records on Friday night.

Two very enjoyable games were played against the R.R.S. Discovery II over the week-end. One on Saturday when the Defence Force beat the ship by the only goal scored in the match, and the other on Sunday following an Inter-Platoon contest when the Local Boys beat the ship by 2 - 0. Several of the players in the Defence Force team for the latter match played in both the games on Sunday.

The R.R.S. Discovery team for Saturday was : Hunt; Moreton & Thomas; Fry, Hill & Horsburgh; Oates, Gobart, Reed, Miller & Buckel. On Sunday the team was the same with the exception of Oates whose place was taken by Lashmar.

---o---o---

THE AMERICA CUP.

A message from Newport, Rhode Island on Saturday evening stated that it was not then known why Mr Sopwith had raised a protest flag half way down the last leg but as seen from one of the following boats it appeared that the "Rainbow", in passing the "Endeavour" to windward failed to meet the latter's luff as required by the rules governing overtaking.

The "Endeavour" had a big Genoa jib ordered from the Ratsey Yard to replace the illfitting one lent by "Weetamox" while the "Rainbow" had the "Mankee's" big parachute spinnaker and carried Mr Paine, the designer of the "Mankee" who has no superior on trimming these big kites.

Mr Sopwith opened up the lead 200 yards after passing the first buoy but it seemed to lose some little time in breaking out her Genoa which Mr Vanderbilt had already set before rounding and the latter walked past him. This may have been the crucial point in the race.

Mr Sopwith stated that he preferred not to disclose the details of the protest which is being placed before the Committee.

A later message states that absolute secrecy is being maintained concerning the protest.

Mr Sopwith's protest in the first instance relates to the incident during the manoeuvres about four minutes before the start of the race reports Major Heckstall Smith.

After the "Endeavour" had gybed to go back to make her start the "Rainbow" then gybed on her weather bow and Mr Sopwith claims that the windward boat "Rainbow" had obstructed the "Endeavour" and caused him to alter his course.

The second incident occurred in the second leg of the triangle when the "Rainbow" was catching up the "Endeavour" on the windward side. Sopwith luffed and the "Rainbow" did not.

Had the "Endeavour" continued to luff and the "Rainbow" never luffed at all there must have been a collision. To avoid it Sopwith put up his helm.

No decision had as yet (Sunday night) been promulgated by the Cup Committee.

A message this morning stated that the fifth race had not been postponed and was due to start at 11.40 a.m. the first leg being a fifteen mile course to windward.

At noon the "Rainbow" was leading by 100 yards.

SIR ALAN COBHAM'S MISFORTUNE.

According to a bulletin from Portsmouth Sir Alan Cobham and Squadron leader Helmore began their non-stop flight to India at 6.30 Saturday morning.

Additional fuel supplies were successfully loaded in mid-air about twenty miles out, ninety gallons being taken on board. The plane refuelled again at Malta.

A Reuter message from Malta stated that Sir Alan Cobham had to make a forced landing there after refuelling. The throttle jammed when he was several miles out and he was forced to return.

The flight was abandoned and the airmen returned by sea, shipping the plane.

The "Youth of New Zealand" plane from which Sir Alan Cobham refuelled at Portsmouth met with disaster on returning to Coventry, crashing on the main road near Aylesbury and bursting into flames.

The four occupants, including the pilot, C.H.G. Bembridge, formerly of the R.A.F., ~~was~~ killed.

GANGSTERS SOAP RUSE.

An ingenious ruse nearly enabled two of Dillinger's henchmen, Pierpont and Makley, to escape from prison at Columbus, Ohio, last week-end while awaiting execution. Both, however, were shot seriously.

Dillinger, who was killed in a "show down" recently was a notorious gangster and known as America's public enemy No. 1.

It appears that Pierpont with a revolver overawed the guard and escaped from his cell, releasing seven others in the "death corridor".

Pierpont and Makley, brandishing revolvers, delivered an assault on the door of the guards' room when the riot squad attacked them from behind shooting both.

The discovery was then made that the revolvers had been cleverly fashioned from prison soap.

SENSATIONAL NATIVE TRIAL.

The most sensational trial in the history of Kenya terminated on Saturday, states a message from Nairobi, with the death sentence being passed on seven Lumbiva natives who were charged with the murder of Alexander Semini, a settler, in atrocious circumstances.

The scene of the crime was at a lonely farmhouse near Naivasha.

A poignant episode in the court was Semini's wife's weeping description of being criminally assaulted while the murderers were mutilating her husband.

The accused were unmoved by the sentence and said they only went to the farmhouse to steal.

WELSH COLLIERY DISASTER.

A message from Wrexham, North Wales, reports of a terrible disaster at Gresford Colliery.

An early bulletin reported that over a hundred men had been entombed in a circle of flame following on a terrific explosion which took place three miles from the pitshaft and which is thought to have been caused by the fusing of electric wires.

Heavy roof falls were followed by a wall of fire and the men were trapped about a mile and a half from the bottom shaft with flames and fire-damp between them and freedom.

A message on Saturday evening stated that the fire was being got under control. "If this is achieved within twelve hours" Mr Dyke Dennis, the managing director of the colliery told a Sunday Times representative, "there is still hope that the entombed men may be found alive."

A bulletin received on Sunday evening stated that all hope of saving the entombed men in the Gresford pit had been abandoned after rescue work had continued for nearly forty hours. The full toll of the victims is 261.

The decision to abandon rescue work was reached after a fresh outbreak of fire had occurred with the increasingly frequent explosions and the heavy accumulations of gas making the task most dangerous.

The greatest heroism was displayed by the rescuers who faced intolerable heat with their boots burned off and their hair and eyebrows singed. Of the first rescue party of five, only two returned alive. One man, who escaped by climbing a vertical air-shaft two feet wide for 200 feet, insisted on returning.

It was hoped to get access to the possible survivors through the road to the right but fire gained further hold there and carbon monoxide had accumulated in dangerous quantities.

Rescue work was abandoned when the authorities had come to the conclusion that nobody could be possibly alive in the workings and it was decided to seal the head of the shaft.

THE AMERICA CUP.

News received yesterday stated that the "Rainbow" had won the sixth race for the America Cup thus retaining the trophy which the British challenger "Endeavour" has tried hard to win.

According to an earlier bulletin from Newport, Rhode Island, concerning the fifth contest a message states that the "Rainbow" won the race on Monday by four minutes while the whole country was discussing the over-ruling of Sopwith's protest against the "Rainbow's" manoeuvres on Saturday.

The press reports show that there is a considerable body of opinion favouring Sopwith and opposition to the committee abiding by a "trivial technical formality."

Major Heckstall Smith, the Daily Telegraph special correspondent states that opinion is agreed that the "Endeavour" is the better vessel but the helmsmanship and afterguard work in the "Rainbow" is superior. The sail-trimming aboard the "Endeavour" also has left much to be desired.

Yesterday's report of the sixth race stated that the "Endeavour" crossed the starting line six seconds ahead of the "Rainbow". It was immediately observed that the "Rainbow" was flying the protest flag and shortly after that the "Endeavour" hoisted the protest flag.

The British challenger rounded the first mark nine seconds ahead of the defender but the "Rainbow" gained on the second leg and at the second turn was leading by two minutes forty seconds.

On the last stretch the "Endeavour" gained considerably but the "Rainbow" was the first to cross the finishing line with the "Endeavour" about fifty-five seconds behind.

An announcement early this morning stated that while Mr Sopwith highly praised his men the American spectators and yachtsmen put his failure down to the inexperience of his crew and their inability to work together in complete unison. Mr Sopwith officially withdrew any protest.

THE TEXTILE STRIKE.

A message from Washington states that the strike which paralysed the American textile industry for three weeks ended on Monday following the President's intervention and the United Textile Workers' Union has instructed the workers to return to work.

The strikers' leader, Gorman, and other union officials have issued a statement that "We gained every substantial thing we could from the strike which has torn apart the whole of the unjust structural structure of the National Recovery Act."

Fifteen people have been killed and over 200 injured during the dispute.

A later message states that considerable tension still exists between the employers and the textile workers despite the conciliatory terms under which the resumption of work has been arranged.

The employers have not yet made clear their attitude towards the Enquiry Board and it is alleged that there is considerable discrimination against the trade-unionists particularly in the south.

LAST NIGHT'S DANCE.

A dance with a novel feature.- that of an accordeon band.- was held in the Town Hall last night under the auspices of the Mothers' Union and greatly enjoyed by all who attended.

Among those present was His Excellency the Acting Governor, who was accompanied by Major the Hon. J. Innes Moir (Aide-de-Camp) and his Private Secretary.

The event, which was the final of a series of dances organised by the Mothers' Union and previously held in the Church Hall, was like its forerunners, in aid of Church Funds and had the added attraction of permitting fancy dress, many of the dancers appearing in costume. The M.C. was Mr Cyril Betts while the music was supplied in the main by accordeon players whose services were free.

The dance started at 9.0 p.m. and finished at 1.0 a.m. with an interval for refreshments of excellent taste and kindly provided by the members.

THE NEW CUNARD DER.

A message from Clydebank, states that though the weather was unpropitious yesterday Her Majesty the Queen's launching of the Cunard White-Star "534" was perfect with the vessel gliding down the ways and taking the water without a hitch.

The well preserved secret of the vessel's name met with universal approval when the Queen with the words "I am very happy to name this ship 'Queen Mary'" pressed the button which released the vessel from the slipway.

It is estimated that a quarter of a million people watched the ceremony which was broadcast over the Empire circuit and listeners in Australia at midnight reported wonderful reception.

The King, in speaking prior to the launching, dwelt upon the "Queen Mary's" contribution to friendship and goodwill between the English speaking peoples.

Sir Percy Bates, the chairman of the Cunard White-Star, stated later that the sister ship to the "Queen Mary" would be built "as soon as we are less pressed with work on the vessel which is now launched."

Official particulars now released show that the vessel is the biggest and most powerful and safest afloat, embodying the safeguard of a ship within a ship which has never been previously utilised.

A further message states that on Her Majesty naming the vessel she pressed the button releasing the electrically controlled triggers which alone held the mighty hull in position after the removal of all other checks and the vessel glided smoothly down the ways. There was no hitch and within one minute she was safely afloat in the Clyde. The tugs were quickly in position around her and half an hour later she was in position for berthing in the neighbouring dock where the work of fitting out the 72,000 tons liner will take place. It will not be completed until 1936.

DEFENCE FORCE FAREWELL

TO HIS EXCELLENCY.

On Friday last the Defence Force held a smoking concert at Headquarters to bid farewell to His Excellency the Acting Governor who is leaving the Colony this week-end for his new appointment in Grenada.

A delightful programme of impromptu items was given by past and present members while during the latter part of the evening His Excellency went amongst those present bidding each one good-bye.

Captain W.M. Allan (Adjutant) presided and supporting him were the Hon. M.C. Craigie-Halkett, O.B.E., (Acting Colonial Secretary), Lieutenant S.W. Harding, Lieutenant A.I. Fleuret and Second-Lieutenant L.W. Aldridge with His Excellency, who was accompanied by Major the Hon. J. Innes Moir (Aide-de-Camp), as the honoured guest.

In a few appropriate remarks Captain Allan stated that sometime ago His Excellency had expressed the wish to be among the members of the Force one evening before he went away. It was not necessary for him (Captain Allan) to emphasise how great was the interest His Excellency took in the activities of the Volunteers. His Excellency had been in the Colony for about eight years and during that time he had had the welfare of the Force very near to his heart and had gone out of his way to assist in whatever manner possible, no matter whether it had been shooting, football or other matters appertaining to the F.I.D.F..

In conclusion Captain Allan likened the life in the Colonial Service to that of a soldier's "Here to-day, gone to-morrow." Old friends were hard to part and he was sure His Excellency would think often of the happy times he had spent among the Falkland Islands Volunteers.

"I want you, "Gentlemen," he ended, "to stand up and raise your glasses and drink to the health of His Excellency and Mrs Ellis and may they spend many happy days in Grenada and have good health and prosperity."

After the toast had been warmly given His Excellency in response said that though he did not intend making a speech he felt that he had to say a few words to them and thank them for their cordial wishes.

"I am enjoying myself to-night," he went on, "and I think we are all very happy, but at the back of it all I am not quite so happy. There is something pulling at my heart-strings - I do not want to be emotional - but I feel this is the beginning of the end; the long farewell has started. This afternoon I packed up my ducks and cats and put them in cases. I do not want to compare you with my pets but really these ducks and cats are very dear to me, and, having said goodbye to them I have now to say good-bye to you. And this is too much for one day.

"I have been here eight years and one cannot be eight years in a place without getting roots, and these roots, when pulled out, they are only pulled out with a wrench. However long I live and wherever I may be I shall have had my roots in the Falklands and I shall not forget; I shall always think kindly and affectionately of the Defence Force."

His Excellency went on to impress his hearers with the seriousness of their work in the Force and how necessary it was to be prepared to defend oneself if attacked.

He did not think that any Windward Islands team had entered for the Junior Kolapore. He was not going to say he would take a team home from there to Bisley but perhaps the Windward Islands one day may send a team, or later he may go to another Colony which will shoot side by side with the Defence Force at Bisley - and then his heart would be torn between his old love and the new.

In conclusion His Excellency said - "I will not say 'Good-bye' because I expect I shall meet some of you again. Perhaps in the next war, though I hope we never have one, "Let me just say one parting word to the Defence Force : In the last war I was proud to go into action with a platoon of the finest regiment in the British Army - the 9th Platoon of the old Sixth Foot of the Royal Warwickshire Regiment - and if the call should come again and if it should be my fortune to take part, I shall be equally proud in the next war to go into action with the Falkland Islands Defence Force." (Loud applause.) "Well, gentlemen, thank you very much for this evening. I have enjoyed myself with you."

THE AMERICA CUP.

A message from Newport, Rhode Island, before the final race stated that as the "Rainbow" had won three and the "Endeavour" two of the contests and as the trophy would go to the yacht winning four races first the event on Tuesday had created special interest which had been heightened somewhat by the controversy regarding the protest episode in the fifth race.

The course on Tuesday was triangular, ten miles each leg, and there was an eleven knot breeze at the start.

The "Endeavour" got away first and took the windward berth and almost immediately the "Rainbow" hoisted a protest flag. Sopwith, mindful of the Committee's recent ruling, at once hoisted a similar flag on the "Endeavour" in order to preserve his rights. The British vessel rounded the first mark nine seconds ahead but the "Rainbow" gained on the second leg, leading at the second turn by two minutes forty seconds. On the last stretch the "Endeavour" gained some of her lost ground but the "Rainbow" was the first across the finishing line with the "Endeavour" about fifty-five seconds behind.

A later message reports that though the "Rainbow" crossed the line ahead of the "Endeavour" her fourth victory was subject to the Committee's decision since both vessels had lodged a protest by hoisting a burgee before crossing the starting line.

The decision was not likely to be made before Wednesday.

Meanwhile public opinion has rallied to Sopwith and on Saturday's race Professor Owen of Massachusetts Technology Institute, expressed the view that the New York Yacht Club had missed the opportunity of extending a courtesy to a worthy visiting sportsman.

Tuesday's race provided a very thrilling finish, says Major Heckstall Smith, the Daily Telegraph special correspondent, with the "Endeavour" rapidly overtaking the "Rainbow" on the homeward run and gaining two minutes on the ten mile stretch but it was not sufficient to gain the verdict.

According to Major Heckstall Smith the unanimous opinion of the experts is that the "Endeavour" is the fastest yacht but she was handicapped by an inexperienced crew.

Mr Sopwith is remaining in America for a week during which he will attend many functions as the honoured guest.

American observers and members of the "Rainbow" afterguard condemn her tactics on which Mr Sopwith's protests are based and Sir Ralph Gore, an observer aboard the "Rainbow", described the treatment of Sopwith's first protest as "abominable."

The American press is unanimously in favour of Mr Sopwith and the "New York American" in summing up the situation says that he saw fit to end the bickerings with a graceful and dignified flourish.

Mr Sopwith has withdrawn his protest, stating that he was fairly beaten and does not intend challenging again.

HAVE YOU HEARD THIS ONE ? : The Colonel had married late in life and amongst other instructions laid down for "discipline" in the house was one order that on no account was he to be disturbed when in his library. His wife, however, wanted him urgently one day and knocked at the Library door. The following conversation took place : WIFE : "Honey !" (no answer) WIFE : "Honey !!" VOICE FROM WITHIN : "Go away my dear woman; this is a library, not a blasted BEE-HIVE !!"

SWITZERLAND'S REFUSAL.

According to a report from Geneva the Swiss Federal Council has refused to agree to the Saar Government Commission's request that neutral police to be recruited to ensure free voting at February's plebiscite should come from Switzerland's nationals.

The government has decided that they will not take the risk in view of the possibility of the threat to neutrality.

Belgium and Italy are prepared to facilitate police recruiting and while Lithuania is indefinite Switzerland is definitely not in favour of the project.

BRITISH TRADE RETURNS.

The traffic returns of the four main railway systems in Great Britain for the past week again show an aggregate increase exceeding £100,000 over those for the corresponding period of last year. These returns are generally regarded as a reliable index of industrial activity.

The money value of the retail sales in Britain for the last month was 4.8 per cent greater than in August 1933.

The sales of food and perishables have advanced by 4.6 per cent and of other merchandise by 5.1 per cent.

For the first seven months of the trading year the total retail sales have shown an increase of 3.2 per cent over the corresponding period for 1933.

Stocks at the end of August, 1934, were of a slightly higher value than the year earlier and employment in the retail trade has shown an improvement of 3.0 per cent.

THE COLONIAL SMALL BORE

& DOMINION MATCHES.

Great interest prevailed in the Defence Force Drill Hall last night when the Colonial Small Bore and Dominion Matches were shot off, the Hon. G. Roberts acting as official referee.

Although no brilliant totals were obtained in the Colonial Small Bore competition the scoring was consistent and, different from last year, the team did not have a tail, the aggregate number of points being 1,943, some seven or eight points more than Kenya scored last year to get the Cup. In the Dominion Shoots, however, the totals were somewhat disappointing, "A" team only obtaining three more points than "B" team. The totals are subject to confirmation.
The scores were :

MINERS' STRIKE POSSIBLY AVERTED.

The Daily Telegraph states that as a result of the provisional agreement reached between the South Wales coal-owners and miners on Friday the threatened stoppage of the industry on the wages question is likely to be averted.

The terms are to be submitted to the Cardiff Miners' Delegation with a recommendation favouring acceptance and it is fully expected that this will be endorsed.

In the absence of an agreement a stoppage involving 130,000 men is due to commence this week-end.

A provisional agreement has been reached a later message announces as a result of the Mines Department Secretary's efforts on behalf of the government and both sides have paid tribute to his skillful mediation paving a way to a happy issue of the discussions.
