FRENCH EXPORTS TO GERMANY.

Observer.

M. Lamoureux, the Minister of
 Commerce for France, has made a com-
 munication to the press in which he
 points out the danger of the fact
 that French exports to Germany for
 the month show for the first time
 an excess over German imports to
 France.

If this state of things con-
 tinues the present clearing house
 arrangements between France and
 Germany will not admit of as much as
 two-thirds of the French exports
 being paid for.

French exporters must, there-
 fore, consider whether in the ab-
 sence of an increase of German ex-
 ports to France they will be wise
 in not reducing their sales to Ger-
 many.

This warning by the Minister
 has created a certain sensation in
 commercial circles.

APPOINTMENT OF

COLONIAL SECRETARY.

His Excellency the Acting Governor has been informed by the Secretary of State for the Colonies that he has selected

THE HON. M.C. CRAIGIE-HALKETT,
 O.B.E.

for the appointment as Colonial Secretary of the Falkland Islands.

- o -

Mr M.C. Craigie-Halkett is the eldest son of the late Captain Frederick John Craigie-Halkett, Fife Artillery Militia, who was at one time Colonial Secretary of this Colony and administered the Government prior to his death, and a grandson of the late Major-General John Inglis Craigie-Halkett, C.B., of Crammond, Scotland, and Ghilgat (India), famous for his defence of that post against heavy odds in Britain's early struggles in India.

- o -

All our readers will join with us in extending to His Excellency the Acting Governor heartiest congratulations on his being selected for this appointment, a post well deserved and attained after many years of faithful service. Mr Craigie-Halkett commenced his career on the bottom rung of the ladder and on taking over office as Colonial Secretary reaches the highest - that of the senior executive position obtainable in the Colonial Service - an achievement of which one might well be proud.

THE LATE MR J.W. ETHERIDGE.

SPORTS SPEECHES.

Although the weather was perhaps as bad as ever it has been for the annual meeting of the Stanley Sports Association, this Christmas, the consensus of opinion is that far from having run their course the Sports have taken a new lease of life.

The evening functions were well attended and all the dances were thoroughly enjoyed.

At the Prize-giving on Friday last a really happy and Christmas-tide spirit prevailed.

In introducing His Excellency the Acting Governor who presented the prizes, Captain D.R. Watson spoke of the pleasure they all felt at having His Excellency's company at the Meeting. The Committee had made every effort to bring the sports this year to a success as they all knew that the event had been on the decline for some years and every endeavour had been made to stop the decline. This year they felt that they had been amply rewarded by the response of the public. "If the public," he went on to say, "did not want the Sports it was no use the Committee carrying on." But he was sure they all wanted the Sports to continue at Christmas time.

In replying to Captain Watson His Excellency commented on the very bad luck that had befallen the sports on the first day when, on account of the weather, the meeting had to be postponed after the first six events, leaving a large number of the horse races with all the foot and gymkhana events to be run off on the second day. He congratulated the Sports Association on getting through the complete programme so successfully in spite of this set-back, and complimented the officials on their able management and good work.

In stating that he would not take up time in dealing with the individual items in the Programme, His Excellency, however, congratulated the owner of Bambina on once again winning the Governor's Cup, at the same time congratulating Mr Biggs, the owner of Caradoc, for bringing his horse into Stanley; although he had had no luck with it.

His Excellency expressed the hope that in future it would be more fortunate.

His Excellency then spoke of the sporting spirit shown by those people who had brought horses in for the sports, thereby materially assisting in the success of the meeting, feeling sure that the Sports Association was very grateful to them.

In conclusion His Excellency drew attention to the possibility of handicapping horses, pointing out, however, the necessity of determining form and securing the services of an experienced handicapper. (Applause.)

At the conclusion of the prize-giving, Mr V.A.H. Biggs (the vice-chairman) thanked His Excellency for distributing the prizes. He went on to say how much they appreciated His Excellency's interest in the Sports and how much he felt the attendance of the Acting Governor and Mrs Halkett at the sports - even though the weather was very bad - had influenced the success of the meeting.

Mr Biggs thanked in turn all those who had done so much to bring about a happy conclusion to the sports, including all the Sub-Committees of the Association, the jockeys, all others who had competed and the public. He was certain that they had not had a better Sports Meeting - excepting the Centenary Meeting - ever since they had been inaugurated; he thought it had been the finest Christmas meeting they had had.

In the prize list published on Friday last mention should have been made of the awards presented by the Hon. L.W.H. Young and Messrs J. McGill and W. Aldridge for the Maiden Trotting Race & the Back-to-front Race respectively.

CARDINAL BOURNE DEAD.

Cardinal Bourne died about twenty minutes after 12 o'clock New Year's morning.

Vatican City, 1.1.35.

Cardinal Bourne's successor as the Archbishop of Westminster will be decided by the Pope from names suggested by the Consistorial Congregation.

Among those mentioned are - Monsignor Arthur Hinsley and Monsignor Charles Duchemin.

It is expected that the new Archbishop will be made at the same Consistory at which the question of the canonisation of Thomas More and John Fisher will be decided.

CHINESE ART EXHIBITION.

London, 1.1.35.

An exhibition of Chinese Art is being held next winter at Burlington House states the Daily Telegraph.

Sir Percival David and Mr Oscar Raphael, the well-known collectors, are leaving next week for China to collect exhibits and Mr George Eumorfopoulos is following.

The Chinese government has promised help and it is hoped that the art treasures of great palaces will be lent.

The Eumorfopoulos collection of Chinese and Far Eastern Art in London has been bought by the British Museum for £100,000. This collection of rare carvings and sculptures has been made over the past thirty years not in the sale rooms but from people importing directly from China.

WOMAN AIR MAIL PILOT.

New York, 1.1.35.

Miss Helen Richley, aged 25 years, the first air mail pilot of her sex in the United States, has made her first flight with a man co-pilot in a regular mail and passenger service, taking the controls of the machine with seven passengers over half the flight from Washington to Detroit where she made a neat landing.

She has flown over 100,000 miles since 1930.

FURTHER ABYSSINIAN COMPLAINT.

Geneva, 1.1.35.

Abyssinia has made a further complaint to the Secretary of the League of Nations, complaining of a further movement of Italian troops on the borders of her territories.

The Daily Telegraph correspondent in Ababa states that a tense situation prevails in Abyssinia where Italy is regarded as being desperately anxious for colonial expansion.

Neither Eritria nor Italian Somaliland are very valuable but the incorporation of a slice of the intervening rich Abyssinian territory would make all the difference.

Abyssinian spies report that the Italians are building roads in both territories to the Abyssinian frontier.

FRANCO-ITALIAN HITCH.

Rome, 1.1.35.

The reports that German intervention is responsible for the hitch in the Franco-Italian negotiations for Central European security are flatly contradicted here.

Mussolini has never considered leaving Germany out and is convinced that the Four-Power Pact of June 1933, signed by Italy, Britain, France and Germany, should remain the basis of international peace.

A Council of ministers is meeting in Paris to-day to discuss the deadlock in the negotiations and Premier Flandin, and the Foreign Minister, M. Laval, are visiting London next week to discuss questions bearing on the Pact.

Franco-Polish relations are strained according to the official "Polska Gazeta" of Warsaw over the fact which Poland is unable to sign on principle, refusing to participate in projects about which they have not been consulted beforehand.

14,000 SPANISH SMUGGLERS.

Observer.

According to "El Debate" Spain
 loses £5,000,000 annually in duties
 on smuggled goods.

The customs authorities es-
 timate that 14,000 people in Spain
 take some part in these smuggling
 activities, and that of these 2,000
 are women. Tobacco is the chief
 article of contraband, and some
 1,200 tons are introduced annually
 in clandestine fashion.

NEW ZEALAND'S TRADE REVIVAL.

British Industry Benefits.

Observer.

There is a distinct revival in
 the import trade of New Zealand.

According to information re-
 ceived by the High Commissioner, the
 figures for the first eight months
 of last year show (in New Zealand)
 currency) an excess over those of
 the corresponding period for the pre-
 vious year of £3,376,000.

Details of the Dominion's pur-
 chases abroad are not yet to hand,
 but, since fifty per cent of her im-
 port trade is with Great Britain,
 there is no doubt that manufacturers
 in Britain are benefiting from New
 Zealand's return to more normal con-
 ditions.

The revival is largely due to
 better prices for her wool and lamb
 in the home market, and it would re-
 ceive a still further impetus if a
 similar improvement took place in re-
 gard to dairy produce, which is her
 leading export line.

SOVIET'S NEW GIANT INDUSTRY.

Observer.

Approximately twenty-four
 thousand people will be employed at
 Russia's newest giant industry, the
 Kramatorsk machine-building plant in
 the Don Basin, the centre of the
 Russian coal industry.

This announcement was made at
 the formal opening of the enterprise,
 which is to produce the machine that
 will make the machines.

It is claimed that the plant
 will be the largest in the world;
 its output will be twice that of the
 great Krupp works, which have hitherto
 supplied Russia with much of her
 equipment for heavy industry.

No longer, it is held, will
 the country be dependent on foreign
 markets for the purchase of equip-
 ment for her ferrous metallurgical
 industry.

REAL LOUDSPEAKER.

Human Voice Magnified Million Times.

Scientists have invented a new loudspeaker which can magnify the human voice 1,000,000 times.

At full power, according to the gentlemen who designed it, it hurls sound into the air with the force of a 40 lb. hammer blow, and over flat country can project intelligible speech for several miles.

The ability to obtain such tremendous power was obtained by focussing on those frequencies which make speech most readily intelligible, and by filtering out the other frequencies. Hence the machine deliberately sacrifices natural tones of the voice.

Its inventors claim that among its uses would be shouting instructions to a distressed crew at sea on a disabled vessel, or to people adrift in lifeboats.

It could also be used at fires where firemen, deafened by the din, could be directed in their work by a single voice.

MADRID'S OLD BULL RING.

Observer.

Madrid's old bull ring, which has done service since 1874, has seen its last fight before being pulled down to make way for a motor-bus station.

The old ring is replaced by a new huge ring to seat 20,000, which is situated on the outskirts of the town in the dreary suburb of Ventas, and far too near to Madrid's large municipal cemetery for the liking of the superstitious bull-fighters.

ORIGIN OF DRESS ODDITIES.

Why Barristers Wear Black Gowns.
Clocks on Ladies' Hose.

Observer.

Why do barristers wear black gowns ? Because the members of the profession went in mourning for Queen Anne. Queen Anne is still dead; so they still keep on mourning.

This is one of the examples given by Mr Wilfred Mark Webb, the biologist and secretary of the Selborne Society in a lecture explaining British conservatism in the matter of clothes.

"We are all horribly conservative in the matter of clothes, and when we once have a thing we like to keep it, whether there is a real reason for it or not; just as we cling to our appendix, the biological vestige of days when we were vegetarians, like rabbits," he said.

The Knights of the Garter used to wear a short cape and hood known as a chaperon. After dining not wisely but very well, the dandies of a later day often found difficulty in donning their red chaperons, so they put them on like wet towels, flopping over their faces, and earned the title of "Coxcombs."

The clocks on ladies' hose were put on to hide the gusset seams when the stockings were of cloth. That the soldier wears many buttons on his sleeves to prevent his using them as handkerchiefs was a slander.

THE FREE STATE AGREEMENT.

London, 3.1.35.

THE LINDBERGH BABY CASE.

Flemington, New Jersey, 3.1.35.

The jury in the Lindbergh baby murder trial has been completed with eight men and four women constituting it.

The prosecuting attorney opened the case alleging that the accused, Hauptmann, was alone in plotting and executing the crime, painting every detail of the probable happenings which resulted in the baby's death.

The defending attorney protested against the prosecuting attorney's inflammatory tone and the judge noted the protest but permitted the latter to continue.

Mrs Lindbergh, as the first witness, identified the child's clothing and, followed by Colonel Lindbergh, gave evidence of the child's disappearance.

BRITISH TELEVISION COMMITTEE TO VISIT U.S.A. & GERMANY.

Observer.

The Committee appointed by the Postmaster General under the chairmanship of Lord Selsdon, to consider the development of television and the conditions under which any public television service should be provided in Britain, has completed the hearing of the large amount of evidence offered it in the country. Many demonstrations of television have been witnessed; and the work of the Committee in the direction of the formulation of a policy is well advanced.

But the Committee considers it essential, however, before completing its work and submitting its report, to obtain first-hand information concerning recent developments in the United States.

The chairman and three other members are accordingly leaving for New York, meanwhile other members of the Committee are visiting Germany for a similar purpose.

THE SUPER-TRAMP

30 Years' Walk For A Bet.

Observer.

The "Magyarsag" of Budapest reports that a super-tramp has arrived in Pecs, after covering 166,000 kilometres of the world on foot.

Thirty-three years ago, at the age of sixteen, Mr Imre Fibinger, emigrated to Mexico and concluded his studies as an engineer. While employed at the Mexico Railway Building Trust he made a bet with Mr Astor, the President of the Trust, by which he undertook to walk over the whole world in thirty years, and visit the capitals of fifty-six States, for the sum of a hundred thousand dollars in gold.

Mr Fibinger, who is en route for Poland, the Baltic States, Liverpool and San Francisco, pays his way by lecturing and will publish his memoirs at the conclusion of his walk, which he expects to end on December 31st, 1932. Mr Fibinger states that the two most unpleasant experiences he had were

being knocked down by a motor-cycle in Hyde Park and being attacked by Wolves in Irkutsk, Russia.

MISSING LINK IN EVOLUTION.

100,000 Year-Old Skeletons.

Observer.

Four human skeletons, believed to be more than 100,000 years old and described by Professor Albright the director of the American School of Oriental Research as "undoubtedly the missing link in evolution of mankind," have been discovered near Nazareth.

The finds occurred during excavations in a cave, after the most ancient palaeolithic level had been reached. They are thought to be the most ancient human remains unearthed in Western Asia.

TO PUT AN END TO THE SLUMS.

Observer.

Sir Hilton Young, the Minister of Health, speaking at Rochdale deals further with the Government's forthcoming Bill for remedying the evil of overcrowding.

It was proposed, he said, to provide local housing authorities with powers to take over overcrowded areas on a large scale and to re-develop them with proper regard to general schemes of town planning.

Financial assistance would be provided by the government to enable buildings erected on such sites to be let at rents which wage earners can afford.

In order to abolish overcrowding once and for all, the forthcoming legislation would set up a national standard of accommodation, which would provide for the separation of the sexes over ten years of age for adequate space for each occupant of a house.

It would be made a legal offence, punishable by a fine, to overcrowd beyond the standard, but until housing authorities had provided alternative accommodation it would be a defence to plead that such accommodation was not available.

A "FET" DAY.

Yesterday was undoubtedly the best day experienced this season for from morn to night there was hardly a trace of wind while the atmosphere was delightfully warm with the sun shining most of the time. Pic-nic parties ventured forth on horse-back, by foot and by boat, spending a really happy time while in the town summer frocks were displayed to advantage and some lady cyclists sported trousers - or were they beach pyjamas?

GERMANY & AUSTRALIAN WOOL.

The President of the German-Australian Chamber of Commerce has stated that he had been officially informed that Germany would not purchase any more Australian wool in the current season unless the present trade balance between the two countries, which is in favour of Australia is considerably improved.

ROOSEVELT NOT ENCOURAGING.

U.S.A. Congress Statement.

Washington, 4.1.35.

President Roosevelt's Congress message contained no surprises and avoided matters of detail, states the Daily Telegraph correspondent, but he frankly emphasised the foreign situation, saying "The international relationship outside our borders has not improved and on the surface many old jealousies have been resurrected and old passions aroused with a new striving for power raising its ugly head."

He foreshadowed important plans designed to abolish unemployment in the United States and make all relief dependent upon public works employment rather than on the dole.

He further hinted that there would be a tapering off of emergency credit activities and a renewal and a clarification of the general purposes of the National Recovery Act.

While specific legislative projects were being left to his budget statement the general reaction in business circles of the Presidential address doesn't give much encouragement to finance or industry since the cost of his plans are not mentioned.

Washington, 4.1.35.

A later message announces that Roosevelt is asking Congress on Monday to appropriate 4,000 million dollars to finance job-making for 3,500,000 unemployed when financing details will be supplied in the budget message, and the President has given assurance that the figures would be "within sound credit of the government."

In a conference with bankers, senators and representatives, plans have been discussed for bringing the relief plans into immediate operation.

The press generally has received the President's Congress message with approval and as a tonic appeal to every citizen.

Wall Street experienced a minor boom with most shares higher and the day's sales amounting to 7,750,000 dollars.

THE SAAR PLEBISCITE.

Saarbrueken, 4.1.35.

Considerable excitement is intensifying throughout the Saar as the Plebiscite Day is only one week hence and to-morrow sees a revival of the staging of mass meetings.

Elaborate police precautions have been taken and in view of these it is anticipated that there will be serious clashes. It is understood that armoured cars are being used to carry votes from outlying districts to Saarbrueken when the polling is concluded.

Although an official announcement has not yet been made Hitler intends to deliver a final appeal to the Saar population and the world in a broadcast on the 12th of January.

The Reichstag will be convened on the 30th of January.

LINDBERGH BABY TRIAL.

Flemington, New

Jersey, 4.1.35.

Colonel Lindbergh continued his evidence to-day in the Hauptmann murder trial and expressed the opinion that the accused's voice was the same as that of the person accepting the ransom in the Bronx Cemetery. He added that he believed the accused was the kidnapper.

The attorney for the defence, Reilly, suggested in cross-examining Colonel Lindbergh that the Colonel himself was the object of the kidnapping attempt and that the plot was hatched within a household of five persons but no member of his family was involved.

Reilly later asserted that by Thursday four persons would be named as responsible for the kidnapping of the baby; two men and two women, but neither the nurse Betty Gow nor the accused Hauptmann were implicated.

Brussels : Trade negotiations between the Irish Free State and Belgium, Holland & Lithuania will be commencing shortly.

FRENCH MINISTER IN ROME.

Rome, 4.1.35.

The French Foreign Minister, M. Laval, received a tumultuous reception on arrival, the Duce attending the station in person and handing a bouquet to Mlle Laval.

Subsequently the carriages passed through a cheering throng en route to the apartments reserved for the visitors from France.

The press welcomes M. Laval but stresses that while the ice is broken it is useless to enumerate the possibilities of the forthcoming discussions, envisaging the meeting as a beginning rather than the end, with Austria's independence as "the least ration."

THE ABYSSINIAN AFFAIR.

Rome, 4.1.35.

Italy is maintaining a reserved attitude on the Abyssinian report but Abyssinian circles state that the troops have been withdrawn since the matter has been placed before the Duce and there is a hope of a peaceful issue.

SOUTH SEA ISLANDS & JAPAN.

Geneva, 4.1.35.

The report of the Mandate Commission's secret meetings is now published, dealing particularly with the South Sea Islands under Japanese control and, in view of the expenditure of government harbour works, the Commission finds it is disproportionate to the comparative commercial activity of Saipan, Palau and Rota, but would gladly receive further particulars in the next report.

FRENCH BOURSE BOOM.

Paris, 4.1.35.

The bourse boom which commenced on Wednesday last continues, the purchases of State loans on Thursday totalling over 24,000,000 while the official agencies are reported to have intervened to prevent movements getting out of hand, states the Daily Telegraph.

The Bank of Brazil has remitted to London funds for the service of Brazilian foreign loans.

CRISIS PENDING IN EGYPT.

Cairo, 6.1.35.

A crisis is pending with the opening of the Wafd Conference when the leaders will probably be assuming an aggressive attitude, following the acquiescence of Nessim Pasha's government to the Wafd demands.

Though the Cabinet is supported by the better elements, the Wafd party is forming for strong wrecking moves and the outlook is now sombre.

Unless something intervenes to change the Cabinet course the advent of a revolutionary element to power is foreseen.

FRANCO-ITALIAN RELATIONS.

Rome, 6.1.35.

While an agreement in principle has apparently been reached between M. Laval and Mussolini, on some aspects of the Franco-Italian Pact, guaranteeing Austrian integrity, the negotiations over the Colonial problems have not been proceeding so smoothly, states the Daily Telegraph correspondent.

There will be another meeting Monday to discuss difficulties.

French circles state that the three documents which will be initialled if the negotiations are successful are - a statement affirming Italo-French friendship and a joint intention to ask for a continuous States' guarantee of Austrian integrity, a similar agreement for mutual consultation if Austrian independence is threatened, and an agreement settling all issues remaining over the African colonies.

It is pointed out that the essential thing is not the Pact but that France and Italy, after many years, have come together.

A later message reports that full agreement has been reached in the conversations.

ROOSEVELT PLAN ABANDONED.

Washington, 6.1.35.

President Roosevelt, Secretary of State Hull and Assistant Secretary of State Sayre, with Senator Pittman and other Senate leaders, have held a three hours' conference on the question of the U.S.A. and the World Court and also the St Lawrence Waterway Scheme, states Reuter.

IRISH BISHOP'SCONDEMNATION.

Waterford, 6.1.35.

Civil Guards were present outside and inside the Roman Catholic Cathedral when the Bishop of Waterford and Lismore criticised the Republican Congress Party and the I.R.A..

The principles of the movement, were opposed to the churches' teachings and were socialistic and communistic, the bishop said, being based on the Russian model.

He warned the legitimate labour unions against projected class hatred and class warfare, notwithstanding the patriotic glamour attached to the movements.

In declaring the I.R.A. sinful and an irreligious society, he said that it was a mortal sin for any Catholic to belong to, assist or cooperate with it.

THE SAAR.

Searbrueken, 6.1.35.

With special guards of British and other foreign soldiers stationed at strategic points, the great demonstration to-day passed off noisily but peacefully, states the Daily Telegraph correspondent.

The Pro-Hitler German front & the Status Quo United Front swarmed into the town and paraded the streets in dense columns, their respective numbers being estimated at 100,000 and 300,000.

There were no uniforms displayed and flags were furled throughout the march, and though clashes occasionally threatened the police precautions prevailed.

EUROPE'S HIGHEST MOTOR ROAD.

Observer.

The highest road in Europe saw its first motor-car a short while back when French officials made an adventurous trip up the half-finished new highway over the Iseran Pass, part of the French "Route des Alpes."

The summit of the pass on which an Alpine refuge stands, is 9,084 feet above sea level, 121 feet higher than the summit of Stelvio, higher to the highest Alpine road in Europe.

PREMIER'S NEW YEAR MESSAGE.

London, 4.1.35.

Mr Ramsay MacDonald, the Premier, in broadcasting from Lossiemouth, gave a New Year Message of optimism, stating that the nation showed an encouraging return to health with the position of first exporting country in the world regained and with probably more employed than there ever were.

Industrially there would be an effort to maintain a steady work with fewer hours while in foreign affairs there was every indication that 1935 would be marked by great advances in the tranquility of Europe.

BRITISH ROAD ALLOCATIONS.

London, 4.1.35.

It is estimated that £25 millions will be devoted towards the improvement of roads during 1935 from the Road Fund, partially allocated to a £360,000 scheme for the Winchester Bye-pass while the construction of a Thames Tunnel at Dartford is likely to be put in hand. An improvement in the dock approaches and the metropolis's worst traffic block at Vauxhall Cross will also be commenced.

FOOTBALL.

Second Division Leaders.

Bolton Wanderers or Brentford?

The mid-week match between Bolton Wanderers and Burnley received by listeners-in who heard that the former had won 7 - 0, has given rise to the possibility of Bolton being the leaders of the Second Division League Table, taking the position from Brentford on goal average. But as no indication has been received through the wireless press of this match and as the Code League positions agree with those published in the "Penguin", no notice has been taken of it in compiling the League Table.

Since, however, Bolton Wanderers and Burnley were the only two teams not playing in the Christmas Holiday exchange games on Boxing Day (according to the League fixtures) while Burnley beat Bolton Wanderers 2 - 1 at home on Christmas Day, it is possible that the mid-week match should be included as a league game.

LATE GUARDSMAN

C.W.E. HARVEY.

It is with deep regret that
 we have to record the death of
 Guardsman Cyril William Edward
 Harvey of the Scots Guards, the
 youngest son of Mr and Mrs A.J.
 Harvey of Chartres.

The tragic news of his death
 was received by his parents on the
 27th of December by wireless and
 no details of this sorrowful oc-
 currence have yet been received.

Born at Portsmouth in 1910
 Cyril Harvey came to the Falklands
 with his parents when only a few
 weeks old and left the Colony in
 1931, joining the Scots Guards at
 home in the following year. He
 was in the Second Battalion and
 had had the honour of being on
 guard at Buckingham Palace several
 times. He was very popular among
 his fellows and had applied him-
 self to his duties with a willing-
 ness and conscientiousness that had
 commended itself to his officers &
 had enabled him to pass his exam-
 inations for promotion. He had
 also obtained a medal for shooting.

He died on the evening of
 Boxing Day in the Royal Hospital

IRISH HOPES OF ECONOMIC PEACE.

Dublin, 7.1.35.

The success of the coal for cattle agreement is ascribed to the negotiators' decision to separate business from politics and in continuing this policy it is believed that the economic war will be ended.

ITALO-FRENCH AGREEMENT.

Rome, 7.1.35.

Mussolini and M. Laval have signed the protocols embodying the results of their negotiations. The signatures were given at 9.15. to-night when both described the event as of great historical significance.

The Daily Telegraph understands that France and Italy in the protocols express the hope of reaching an agreement on armament limitation and negotiations are being re-opened on the basis of the Italian Memorandum of January 1934.

This Memorandum stated that Germany should be allowed defensive weapons while the armed powers should agree to limit military expenditure to present levels and abolish chemical warfare, prohibiting the bombing of civilians.

Mussolini said: "We have reached complete agreement in all questions of a general character as well as in Franco-Italian problems;" while M. Laval stated that he had come to Rome with hope and the understanding had become a reality.

M. Laval subsequently was received by the Pope at the Vatican City, he being the first French Minister so honoured for the past sixty-five years. The Pope invested him with the Grand Cross of the Order of Pius, while Madame Laval was presented with a coral and gold rosary.

It was later announced that under the protocols Italy has received two territories in North Africa bordering Somaliland.

7.1.35.

The Scottish nurse, Betty Gow who last saw the Lindbergh baby alive withstood the defence attorney's tactics in the witness box & with quiet dignity established her credibility as a testifier, states the Daily Telegraph correspondent.

Supported by the sympathy of all in the court, Miss Gow, collapsed when the cross-examination ended. The evidence only related to the baby's disappearance.

FOOTBALL.

Second Division Leaders.

Bolton Wanderers Are On Top!

It would appear that the return match between Bolton Wanderers and Burnley postponed on 1st of January is the elucidating point of the controversy as to whether the former team is at the head of the Second Division of the League.

Though the Code League positions give Brentford as the leaders it seems quite clear now that the "mid-week" match referred to in yesterday's "Penguin" is the postponed New Year's Day game between these two teams with Bolton's 7-0 win giving them the premier position on goal average. This, however, is still subject to official confirmation.

39,000 MILLION DOLLAR DEBT.

Washington, 7.1.35.

In presenting his Budget message, President Roosevelt said that it was evident that the point was not yet reached where a complete balance could be obtained, though the 1936 budget balanced except for the expenditures on unemployed.

With the expenditure estimated at 7,500 million dollars and the revenue at 4,000 million, the deficit was approximately 4,500 million. Added to the realised deficit of the previous budget, amounting to 4,670 million, the National Debt was now increased to a new high record of 39,000 million dollars.

The new deficit would be financed by using 740 million from the working balance in the Treasury and the borrowing of 3,800 million.

Unemployed appropriations amounted to 4,000 million, the Navy 478 million and the Army 315 millions

BRITISH UNEMPLOYMENT PEAK.

It weighs 29 stone and though bigger halibut have been caught, this is a perfect specimen.

GOLD RUSH BY AIR

Daily Mirror.

Details of what is believed to be the first gold rush by air have been received at Croydon Aerodrome.

When gold was discovered in a remote district in Rhodesia, 105 miles from Salisbury, two rival prospectors chartered aeroplanes to take them to Salisbury to register the same claim.

The nearest place to the gold region where a plane could land was 87 miles away. One of the prospectors raced there in a motor-car and then jumped into a plane, arriving at the Mines Office, Salisbury, seven minutes before his rival.

GERMAN-MADE PULP.

Daily Mirror.

Germany, which, hitherto has annually imported 2,500,000 tons of foreign wood pulp for its newspapers, is now testing a new process for the manufacture of pulp from wood from the German forests.

PARIS WOMEN POLICE.

Daily Mirror.

Women police may soon be seen in Paris if the suggestion of M. Armand Massard, a municipal councillor is adopted.

He considers that they will be of special use in public pleasure gardens, at railway stations and other crowded places and also in dealing with children and young people.

A few women engaged in preventative work, it is suggested, could do much to save young offenders who might otherwise develop into hardened criminals.

The question of uniform would naturally be of importance to Parisian women police, and it is hoped that something superior to that worn by their sisters in England will be devised.

PETROL 5d A GALLON.

Daily Mirror.

Petrol price wars are spreading through the United States, particularly in New Jersey, where the retail price is now in some places 5d a gallon.

The impression is current in oil circles that the larger companies will not meet the price-cut in crude oil for the time being, but will wait until the oil administration is given an opportunity of showing if it is able to curb the flow of "hot" oil in the near future.

GOVERNOR REMOVED.

Daily Mirror.

The Governor and chief warden of Belle Isle Penitentiary have been removed from their posts at the instance of the French Minister of Justice, M. Lemaire. The Governor has been appointed to another post while the warden has been dismissed.

It was in August last that a mutiny broke out in the penitentiary, fifty-six boys overpowering the warders and breaking gaol in a vain endeavour to leave the island in small boats.

The mutiny led to a great outcry for the revision of the French penal system for minors, and resulted in the dismissal of a number of warders.

BIGGEST ENGLISH COIN.

Daily Mirror.

Two coins of King Charles's stirring times at Oxford in 1642 have been sold at Glendinning's, London.

The university authorities were keen Royalists and gave Charles their gold and silver plate for coinage.

An Oxford treble unit, 1642, which contains three-quarters of an ounce of gold, was sold for £21.10s.

An Oxford silver penny, weighing nearly a quarter of a pound, realised £22.

The Oxford Royalists aimed at making the largest English coin, & they succeeded. The record stands to this day.

BRITISH TRAIN RECORD BEATEN.

Daily Mirror.

A thirty-year-old British railway train speed record has been broken, it is claimed, by the new aluminium streamlined Diesel-engined train which reached New York from Los Angeles in 56 hours, 56 minutes over a distance of 3,334 miles, the average speed being 58½ miles an hour.

At one time, it is stated, the train attained a speed of 120 miles an hour, thus surpassing the highest authentic speed hitherto recorded in Britain, namely, 102 miles an hour between Plymouth and Paddington in 1904.

KENTISH RIVIERA ?

Daily Mirror.

Margate wants to be the Kentish Riviera, and a row of palm trees may be planted on the sea front to prove that her climate rivals that of Cornwall.

At a recent meeting of the Town Council it was decided to offer a prize of £50 for the best suggestion that will overcome the impression that the south-east coast is not suitable for early and late holidays. The competition is open to everybody.

The Air Ministry figures show that Margate has a higher temperature, more sunshine and fewer ground frosts than the Cornish Riviera.

On the fifth day of the Lindbergh baby murder trial two witnesses definitely identified Hauptmann as the person loitering in the vicinity of the Lindbergh home on the night of the crime, in a car which carried a ladder, while a taxi-driver said that the accused paid him for the delivery of the letter to ransom the go-between, Doctor Condon.

an early resumption of the Naval Talks with a good chance of the United States, Britain and Japan reaching a limitation agreement.

N.R.A. ON PRECARIOUS GROUND.

Washington, 9.1.35.

The Supreme Court has rejected the provisions of the Recovery Act controlling petroleum production in the case raised by the Texas companies under which they questioned the section of the Act prohibiting price raising and, as a result of this ruling, it is feared that a severe blow will be struck at the foundations of the All New Deal Organisation, states the Daily Telegraph correspondent.

The tribunal held that the Congress had unconstitutionally abdicated its law-making prerogative and therefore this announcement affects nearly all the measures enacted by Roosevelt towards the restoration of prosperity.

Both the supporters and the opponents of the new deal envisage difficulties as a result of the court finding, but the government circles are discrediting the suggestion that the N.R.A. would be wrecked and state that it doesn't affect the oil code leaving with the government the authority to determine production.

NAVAL TALKS DIFFICULTIES.

London, 9.1.35.

The desirability of including the smaller naval powers in the proposed Naval Conference, as suggested by France largely depends upon the progress made in general disarmament, is the view held in diplomatic circles.

The outline of practical procedure is that of the three major powers reaching an agreement after which the five Washington signatories would discuss the general findings.

Following this the third stage of the negotiations would include all the naval powers.

Britain adheres to the ideal of a naval section to the general disarmament question and has never opposed the admission of the smaller powers, but the problem at the moment is the finding of the most useful practical procedure.

From Washington it is reported that Ambassador Davis has informed the President that there will probably (continued in previous column.)

General Jose E. Belloni, of Argentine Army, and formerly president of the Armament Committee in Europe, has been deprived of his rank and uniform by a military court.

He was found guilty of a charge in connection with alleged graft and bribes, said to have been exacted by his nephew, Dr Tito R. Johngi, in the placing of certain contracts.

About £200,000 was said to have been involved.

She did not fail on any of the hills or lose marks on time in any of these strenuous events.

Miss Richardson who has competed in big races at Brooklands, won the special cup for the best performance in the London-Exeter trial.

Germany, handicapped by the lack of raw material, is to endeavour to get her requirements met so far as wool is concerned by South Africa.

IRISH RATES SITUATION.

Dublin, 9.1.35.

A serious situation prevails in connection with the unpaid rates throughout the Irish Free State and though the operation of the reciprocal agreement with England may ameliorate conditions there remains the fact that most of the public bodies are burdened with a heavy overdraft and of over £3,000,000 rates collectable on the 30th of September, only £128,000 has been received.

GERMAN SAAR FEARS.

Berlin, 9.1.35.

Hitler's Saar Plenipotentiary, Herr Merckel, speaking at the Kaiserlautern, prepared the German people for a considerable adverse vote in the plebiscite, branding the voters of the "Status quo" as separatists and Marxists, states the Daily Telegraph correspondent.

Every precaution is being taken for ensuring the secrecy of the ballot and the conveyance of the results from the outlying districts. Meanwhile excitement is gradually intensifying and the clashes between the opposed political bodies is increasing but no serious outcome is reported yet.

"Can you find me a wife with not less than £4,000 capital? Must be well educated, virtuous, a good partner, of good health and plump, aged between 25 and 40, and one capable of taking care of me.

LEANING TOWER PERIL.

Daily Sketch.

Professor Cicconetti, surveyor of the Leaning Tower of Pisa in Italy, has reported to the government in Rome that the inclination of the tower has continued insensibly for thirteen years, but that the movement has become accentuated during the past two years.

The reinforcing works intended to stop the progress of the inclination have not yielded the desired results, and the quickening of the movement from the upright, still imperceptible, has become dangerous.

Professor Cicconetti advises, says the Central News, that the carillon should no longer be played and that further assents of the campanile should be stopped.

10-YEAR-OLD TRACTORDOES SAN CARLOS TO NORTH ARMJOURNEY IN 6½ HOURS.

Not to be outdone by the most recently imported vehicles endeavouring to transform the mode of transport in the Camp, the San Carlos Citroen Kegresse (cavalpillar tractor) made a journey to North Arm via Darwin on December 28th last, the actual travelling time being some 6½ hours as against approximately eight on horseback.

The distance between San Carlos and Darwin was covered in about three hours, this being also the time one would spend on horseback since the mountain range had to be negotiated. The journey between Darwin and North Arm was completed in about 3½ hours or 1½ less than by horseback.

Mr W.S. Britton was the driver with Mr G. Bonner, O.B.I., Mrs G. Bonner and Mr N.K. Cameron as passengers. A break was made at Darwin where the travellers spent the night.

While Mrs Bonner remained at North Arm Mr Bonner and Mr Cameron returned on the 2nd of January doing the whole distance in the one day, Mr Britton again driving.

The Citroen, which is the same type of vehicle as at Teal Inlet and at Douglas Station but a 1925 model, is regularly employed at San Carlos in foughing and general cultivation. It has done the same journey once before - in 1931 - when the distance was covered in about the same time.

The new model Ford at Darwin Station has made the journey from Darwin to North Arm in about two hours.

WHERE A WOMAN REIGNSSUPPINE.

The interest aroused by the assiduous work of the swarm of bees recently imported by Mr E.G. Rowe has prompted us to delve a little into the fascinating story of their lives. As they busily go from one flower to another in the gardens of our readers, not stopping a moment but in the execution of their work, it is difficult to believe that they do all this for one woman - the Queen Bee - particularly since they are all females themselves. Yet there it is!

It is estimated that there are as many as from 30,000 to 50,000 bees, to a swarm all dependant upon the Queen Bee for their existence yet living in a hive in a commonwealth that has no equal.

A worker bee's life is estimated at six months while a Queen Bee lives for from three to five years, according to the decree of her subjects. Only the Queen Bee can lay eggs and it is her purpose to guard against the extinction of the swarm. For once her proclivity is on the wane, the worker bees provide a Queen Bee cell in which to place an egg to fertilise and to produce a new queen to take her place. At the height of the season the Queen Bee lays from 2,000 to 3,000 eggs a day in the marvellous compartments wonderfully constructed by her subjects. There are special cells for the worker bees (females) and special cells for the drones (males) besides special cells - the largest of all - for the Queen Bees. And in each she lays the same kind of egg - at least it would be more correct to say in the first two, since naturally she would not bring about her own destruction by begetting a rival; the worker bee with human sagacity extracts an egg from a worker bee cell and secretes it in a Queen Bee cell.

The worker bee, true to its name does all the work - gathering the nectar from the flowers and the pollen and providing the wax for the combs from secretions in its jaws. The drone, the mere male - larger but useless except to mate with the Queen and helpless since it has no sting - once it has fulfilled its purpose is disposed of

STEEL PRODUCTION HIGHER.

London, 10.1.35.

Although the final 1934 returns are not yet available, the Director of the Iron and Steel Federation states that the provisional figures indicate that the steel production was nine million tons, being an increase of 30 per cent over 1933, and pig-iron six millions, being an increase of 35 per cent, with the exports proportionately higher.

BRITAIN TO RETURN TO GOLD STANDARD.

Washington, 10.1.35.

Possibly alarmed by Attorney-General Cummings significant statement relative to the pound and dollar moves, the government officials have refused further comment on the currency stabilisation prospects.

The general attitude is one of watchful waiting.

The Daily Telegraph states that London circles give slight credence to the American reports that stabilisation is being discussed in the near future but it is declared that Britain intends to return to the gold standard whenever circumstances permit, but this will not be until experience proves to what extent the trade routes of the United Kingdom and the Empire have been altered under the changed fiscal policy.

Moreover, the United States gives no indication that she is prepared to discuss war debts, tariffs and associated subjects.

LINDBERGH BABY TRIAL.

Flemington, New Jersey, 10.1.35.

The seventh day of the Lindbergh baby murder trial was uneventful with the defending attorney Reilly, completing the cross-examination of Doctor Condon. The witness remained unshaken in his testimony.

Colonel Brechenbridge, Lindbergh's lawyer, was called next & gave the details of the arranging for the ransom payment.

FRANCE COPIES N.R.A.

Paris, 10.1.35.

The Minister of Commerce has laid a Bill before the Chamber proposing to give France industrial codes on modified N.R.A. lines.

The objects defined are the disciplining of professional organisations and an adjustment between production and consumption. The government considers it unwise to wait for the result of the free play of competition to extract the country from her present difficulties and quotes the examples of the United States, Italy, Germany and Great Britain.

The measures contemplate the stoppage of production, the limitation of working hours, the withholding of stock from the market, the rationalisation and the issue of loans, states Reuter.

SAAR SCENES.

Saarbrueken, 10.1.35.

Tension is increasing in the Saar area as larger numbers of overseas and extra-territorial voters arrive.

According to the Daily Telegraph the South American contingent arriving to-day met with a tumultuous reception and though the police were reinforced, scenes occurred and numbers were injured when mounted officers charged the mob.

The "United Front" alleges that the large assembly was due to a Nazi "whip" and threaten to parade in force on the next occasion to stage a counter-demonstration.

Results To Be Broadcast.

It is announced that there will be a broadcast on Monday giving the complete details of the Plebiscite result in German, French and English from Wartburg Hall, this being understood as an effort to lessen the chances of disorder by congested assemblages.

Lord Wakefield has made a substantial donation to a commercial air company in England.

WHERE A WOMAN REIGNSSUPREME.

(continued from page 2.)

without compunction. His wing severed he is cast from the hive to await his fate. Of the many drones hatched out only one is mated to the Queen and he dies immediately. Were male has short shift in the bees' hive of industry.

Once the Queen, who spends practically all her life laying, diminishes the supply of eggs, the workers prepare for her successor and she either departs swarming with those who will remain with her or await a regal end. Not for her is the fate of the common herd. Lavished with carresses throughout her life so surrounded in affection does she meet her end. The worker bees gather round her & hug her in solemn ceremony until she is she is squeezed to death.

When the new Queen Bee is hatched out she turns on the other queen bee cells as the worker guards permit her, wrenches out the larvae and kills the insects to preserve her sovereignty.

And so the cycle of life continues with the preservation of the swarm.

The worker bees, in their travels in search of sustenance do not fly further than two or three miles from the hive but as minute as they are they instinctively return home laden with the results of their labours.

Although some of the older inhabitants of Stanley have heard of bees being imported to the Colony "some time ago" none have been kept in Stanley for many years and it will be interesting to see how they survive the conditions of a country not so amenable as those with which they are usually associated.

THE MAURETANIA.

Absence of the Mauretania from the list of winter sailings has caused considerable comment in America. Though the ship has finished her Atlantic crossings it is not expected that her career is ended. She will probably be used for American cruising.

£16,000 FOR A SONG.

Observer.

Mr Ivor Novello is one of London's youngest actor-managers and with the production of "Murder in Mayfair" he celebrates his tenth year of London management.

Most things that he has touched have turned out a success, from the time, when, aged nineteen, he wrote a war-time song about home fires that was sung in every quarter of the globe.

In answer to an enquiry Mr Novello said that he made about £16,000 out of it. But that was spread over several years. By luck the song seemed to have a longer innings than most war-time songs. He wrote it originally in 1914. Then, just when it was "slacking off" the United States came into the war and "Keep the Home Fires Burning" had another wave of popularity. A tenor who made the gramophone record got £10,000.

THUNDER & PICNICS.

The first real claps of thun-
 der this season were experienced
 yesterday with a little rain but
 this failed to interfere with the
 pleasure of the many townspeople
 who had deserted Stanley to enjoy
 pic-nics and rides on what proved
 to be one of the most enjoyable days
 that we have had this season.

Very little wind was blowing
 while the sun was to be seen most
 of the day in spite of the desultory
 atmosphere.

The first thunder was heard
 about the middle of the afternoon
 when a terrific clap vibrated over
 the town followed by others less
 severe throughout the rest of the
 afternoon.

Marksman had a very busy time
 on the ranges both yesterday and
 Saturday while on Saturday also
 the long delayed Children's Sports,
 organised by the Stanley Benefit
 Club, at last took place. After
 many disappointments the children
 had the satisfaction of seeing the
 Flag go up to indicate that the
 races would be held and after lunch
 the town was deserted. Although
 the sun was intermittent there
 was very little wind and the air
 was quite warm. The children had
 a really rollicking time although
 it was a pity that a fair number
 should have been absent owing to
 departures to the Camp for holi-
 days.

LANCASHIRE TRADE PROSPECTS.

 fied.

SOUTH AFRICA SOLID.

Capetown, 11.1.35.

In a speech from the throne Lord Clarendon stated that all sections of the community were united and he referred to the auspicious occasion of His Majesty's Jubilee. He further dealt with the improved economic condition of the Dominion and the expansion of the gold mining industry and added that everything possible was being done to consolidate the advances already made.

The government programme chiefly turns on the readjustment of the relations between the Union and the Provinces, states the Daily Telegraph correspondent, while efforts are to be made to extend the overseas markets for base metals.

The Opposition Leader, Malan, gave notice of a "No Confidence" resolution which was greeted with laughter. General Smuts, in addressing the General Council of the South African Party, ridiculed the suggestions of secession and said that from the common allegiance to the King had sprung the common status which covered the British Empire.

BIGGER COTTON DEMAND.

Manchester, 11.1.35.

The Chamber of Commerce reports to the effect that there was an increased demand in cotton piece goods by Canada and South Africa during 1934, the latter increase being better than in 1933 when the increase was 250 % above that for 1932.

The Ottawa Facts, it stated, had proved a valuable factor in this state of affairs.

Paris, 12.1.35.

France is eager for international stabilisation as, if postponed indefinitely, she might be forced to devalue.

The French minister of Finance, M. Germain, reaffirms the determination of the Chamber to remain on the gold standard.

Saarbrueken, 12.1.35.

The Plebiscite Commission held a special meeting to-day to consider the demand by Herr Braun, the leader of the "Status Quo" party for the postponement of the poll on the grounds that the Nazis were circularising members with slips wherein to furnish information concerning their votes.

A decree has been issued prohibiting the distribution of handbills, circulars, newspapers and all printed matter.

As darkness fell, reports the Sunday Times, a great chain of beacons was lighted on every hill-top and continued over the frontier into Germany.

Voting by 540,000 people at 860 polls begins at 7.30 Sunday. The ballot boxes are heavily guarded by International troops and will be conveyed by special trains to Wartburg Hall here where the counting is being done.

Strong opposition to the flight was made by the United States Navy owing to the recent disaster to the Australian airman Ulm. No fewer than ten flyers have perished making this dangerous flight.

After sighting the coast Miss Earhart was delayed by fog. In explaining her delay in arrival Miss Earhart stated that she throttled down during the last five hours to conserve her petrol supply.

The red monoplane had been converted into a veritable flying lifeboat with apparatus for converting the tanks and tail into airtight floats.

There will be a two-fold programme of compulsory old age unemployment insurance, the latter being wholly financed by the employers and employees, both systems coming under the Labour Department. From 1937 contributions will be required from forty-five million workers at a cost of 150 million dollars for the first year.

CATHEDRAL CHURCH STRUCK
BY LIGHTNING.

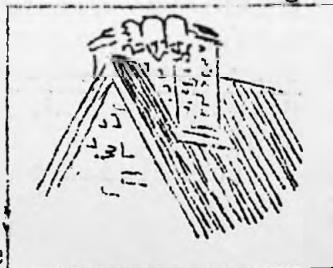

On Sunday afternoon a vivid flash of forked lightning struck the eastern end of the Cathedral Church, scattering lumps of the chimney stack as far distant as fifty yards while a large piece of masonry over a foot square was hurled almost into Ross Road.

The electric light fuses were blown out but fortunately no other damage was done to the edifice.

Similarly at Mr Bigg's "Penguin" Shop nearby the light fuse was damaged.

The lightning was accompanied by a terrific crash of thunder and many householders in the vicinity feared that far more serious damage had been done.

This is the first time the church has been struck by lightning. On the right is an impression of the damage done to the chimney stack.

SAINT MARY'S CINEMA TO CLOSE.

Father Migone informs us that owing to various reasons he is obliged to discontinue the Cinema Shows at St. Mary's after twenty-years of continuous work.

He hopes somebody else, on his own account, will undertake to carry on this public entertainment.

He takes this opportunity to thank all those who have patronized it, particularly during the sad years of the European Conflagration, and with whose help he was able to contribute £3,000 to the different war charities in England and on the Continent.

THE BISHOP'S TROPHY.

Lt Fleuret The Winner.

The Competition for the Trophy presented by the late Bishop de Jersey was held on the Range on Saturday when twenty-five competitors took part and the weather could not have been better. At times, however, shooting was rendered difficult by a variable wind increasing and decreasing in strength. At one moment a drastic change of wind took place. This happened at the 1,000 yards when the first detail were shooting. A 3.0 o'clock wind necessitated 23 minutes right on the gauge but suddenly it flipped round to 11.0 o'clock when it was found necessary to put on 4 minutes left - a change of 27 minutes between two shots.

The Trophy was won by Lieutenant A.I. Fleuret with a score of 62 out of a possible 70. Private L. Sedgwick, a comparative stranger to the range was second with 60 & Pte E. McAtasney was third also with 60.

THE SAAR PLEBISCITE.

Saarbrueken, 14.1.35.

It is estimated that seventy-five per cent of the Saar voters have voted in favour of a return to Germany. Some 98 per cent of the total of 539,000 voters polled.

All day long patient queues lined up in the snow covered streets some waiting for four hours. Scores came in ambulances, some in bath chairs and others accompanied by nurses.

Troops remained in the background and were only in evidence when the ballot boxes were brought in.

The Nazis preserved iron discipline and cleared the slippery roads for motor traffic, assisted elderly voters and exhibited notices "Keep your mouth shut; a warning against possible disqualification."

Though the ballot was absolutely secret states the Daily Telegraph correspondent the only secret to be revealed on Tuesday by wireless broadcast is the size of the Nazi German front majority.

Firemen in uniform and brass helmets acted as attendants to the polling officials, marshalling the voters.

A bomb was thrown into the offices of the local Nazi headquarters at Neunkirchen but nobody was injured.

THE SAAR GOES BACK TO GERMANY.

Overwhelming Majority.

After fifteen years the Saar mining district has returned to the control of Germany. The result of the voting was announced early yesterday morning and wireless broadcast relays from the Saar carried the news to all parts of the world.

The official figures were as follows : Total electorate 539,541; total valid papers 523,005; percentage of votes cast - 97; votes cast for the return to Germany - 477,109 or 90.8 %; "Status Quo" - 46,516 or 8.87 %; for union with France 2,124 or .4 %.

Immediately after the result had been communicated to Herr Hitler he made a broadcast speech to the German nation in which he appealed for the maintenance of discipline in the Saar during the coming weeks.

He went on to say that with the return of the Saar there were now no more territorial claims by Germany against France and, he said, "I declare that no more such claims will be raised by the German nation. We are now certain that the time has come for appeasement and reconciliation."

Hitler expressed the German nation's gratitude and satisfaction for the loyal help given by other countries to France and Germany by guaranteeing order during the Plebiscite. He went on to say that he wanted to assure the whole world of his, and Germany's, deep desire to preserve peace just as he was determined to cooperate fully in the creation and preservation of international solidarity which is essential for the welfare of the peoples of the world.

REVELATIONS.

Moscow, 13.1.35.

The investigation into a grave sleeping-car train collision on the 6th instant with 102 casualties has disclosed that Soviet drivers, in their eagerness to win the premiums for arriving punctually, habitually disregard the signals against them.

Although formally reprimanded they draw the punctuality premiums and the custom has developed.

TROUBLE IN PARIS.

Paris, 13.1.35.

U.S. GOLD DEMAND.

New York, 13.1.35.

The almost insatiable demand for government bonds payable in gold has reached astonishingly large proportions and last week Saturday's trading exceeded six million dollars compared with two millions on the previous Saturday.

The demand followed doubts as to whether the Supreme Court would uphold the government in cases contesting the legality of abrogating payment in the gold clause in certain government securities.

An adverse decision would mean that gold bonds would be worth 169 per cent face value in devaluated currency.

The Court's decision is not likely to be given before February.

If adverse there is a possibility of a presidential order to suspend all payment till permanent remedies have been devised.

SAAR PEACE BROKEN.

14.1.35.

Notwithstanding the widespread precautions, the peace has been broken in the Plebiscite area by a revolver battle between Communists and Nazis with two of the former and one of the latter shot and two others stabbed.

There were several minor injuries among the 100 combatants.

The clash was of brief duration and was due to Communists invading Nazi clubs. The police quickly restored order.

THE JUNIOR KOLAPORE AND
THE JUNIOR MACKINNON
MATCHES, 1934.

Official Reports.

We have received the official reports of the "Morning Post" (Junior Kolapore) and the "Pernett" (Junior Mackinnon) Matches, 1934, in the National Rifle Association's 71st Annual Prize Meeting, which we publish in to-day's "Penguin" as being of general interest.

- o -

The "Morning Post" (Junior Kolapore) Match instituted by the National Rifle Association in 1926 with the approval of the Secretary of State for the Colonies, and the very kind assistance of the Colonial Office, enabled the smaller countries of the Empire which find it impossible to send teams of eight to compete in "The Raja of Kolapore's Challenge Cup" Match to be represented at the Imperial Meeting at Bisley.

The Match was open to one of-
 ficially accredited team of four
 past or present members of His
 Majesty's Forces or the Forces of
 any British Protected State resi-
 dent or stationed in and qualified
 to represent any part of the Brit-
 ish Empire or any territory under
 a condominium shared by Great
 Britain or any group of such parts
 or territories (sanctioned by the
 Council for the purposes of this
 match) other than Great Britain &
 Northern Ireland, the Indian Em-
 pire, the Dominion and Provinces
 of Canada, the Commonwealth and
 States of Australia, the Dominion
 of New Zealand, the Union of South
 Africa and its Provinces, the
 Irish Free State, and any depend-
 encies of those Dominions or Terri-
 tories administered by them under
 Mandate.

The Directors of the London
 "Morning Post" most generously pre-
 sented a handsome Silver Challenge
 Trophy to be held for the year by
 such person representing the win-
 ning country as the Bisley Com-
 mittee may direct, and also give
 embroidered badges to the members
 of the competing teams. Special
 Commemorative Souvenirs were pre-
 sented by the N.R.A. to each mem-

ber of the winning team.

A Challenge Trophy has also
 been presented by Commander Sir
 Lionel Fletcher, C.B.E., R.N.R.,
 for a competition at 300 and 600
 yards open only to competitors who
 are qualified to shoot in the
 Junior Kolapore Match in the cur-
 rent year, the Trophy to become the
 property of the competitor who wins
 it on any three occasions.

The "Morning Post" (Junior
 Kolapore) Match was fired at Bisley
 on July 20th, under the same con-
 ditions as those of the 'Raja of
 Kolapore's Imperial Challenge
 Trophy', viz :-

Distances - 300, 500 and 600 yards
 (aggregate.)
 Targets - Bisley, 1934.
 Rifles - S.M.L.E. (S.F. a.b.)
 No. of Shots- Ten and one sighting
 shot per man at each
 distance.
 Time limit - One hour at each dis-
 tance.

The following countries took
 part in the Match :

Ceylon,
 Falkland Islands,
 Federated Malay States,
 Gold Coast,
 Kenya,
 Nigeria and
 Sierra Leone,

as against three in 1926, six in
 1927, ten in 1928, eleven in 1929,
 seven in 1930, seven in 1931,
 seven in 1932, and nine in 1933.

The absence of teams from
 Johore, Nyassaland, Straits Settle-
 ments, Southern Rhodesia, Tanganyika,
 Trinidad Uganda, The Sudan and
 China Treaty Ports, which have been
 represented in previous years, is
 regretted.

The National Rifle Association
 is greatly indebted to the Secretary
 of State for the Colonies for the
 interest he has taken in the Match
 and the assistance so kindly af-
 forded by the Colonial Office. It
 is hoped that as the competition
 becomes more widely known it may be
 the means of further stimulating
 marksmanship throughout His Majesty's
 Colonies and Protectorates and lead
 to a wider representation at the
 Imperial Rifle Meeting, also that,
 should the number of entries con-
 tinue to increase greater opportu-
 nity will be taken to enter teams
 to represent groups of Colonies,

Protectorates and Dependencies sanctioned by the Council of the National Rifle Association, to compete in the "Kolapore" and the "Mackinnon" Matches, viz :- the "Far East", "East Africa", "West Africa", and the West Indies.

The Challenge Trophy was won by the Falkland Islands Team with the aggregate score of 547 out of a highest possible score of 600; the Team from Sierra Leone taking second place with a score of 537 marks.

The detailed scores of the competing representative teams are attached.

CALVES' LIGHTNING DEATH ?

Subsequent to last Sunday's
 violent thunderstorm two of Mr Des
 Biggs calves have died as a result
 it is thought, of the effect of
 the vivid lightning experienced
 that day.

Eye-witnesses who were near
 the green by the cemetery where
 the calves were kept state, that
 the flash considerably affected the
 animals which careered round mad-
 ly and bellowed furiously. One
 was found dead the next morning
 while another died subsequently.

This strange incident brings
 to mind a similar episode which
 was reported in "The Falkland Is-
 lands Magazine" of March, 1901, as
 follows :

"On Sunday, December 16th,

1900, a very severe thunderstorm
 accompanied with much lightning,
 heavy rain and large hail stones,
 passed over Lafonia between 11.0
 and 12.0 o'clock in the forenoon.

"Mr James Steel, junior, of
 Tranquillidad, while securing the
 calves, was struck to the ground
 by a flash of lightning, which
 killed a cow some twenty yards from
 where he was standing. His little
 girl, who was quite near him, suf-
 fered no ill effects."

The ladies' dressing room - 20 feet by 9 feet - will be built as a lean-to at the east side - opposite the present stage; the gentlemen's dressing room - 20 ft by 14 feet - on the west side, will be divided into two rooms, one as a cooking galley for the caterer, the other for a dressing and refreshment room. The work will be taken in hand as soon as the material arrives.

THE SAAR.

Geneva, 16.1.35.

Hitches in the procedure for the restoration of the Saar territory to Germany have resulted in the postponement of the League's consideration of the question, but there is every reason to believe that a basis for the transference has been arrived at.

The French delegation has raised the question of demilitarisation under the Marseilles Treaty while Germany requests a fixed date for the territorial transfer.

A Council of Three, under Baron Aloisi, has drawn up a formula for presentation to the Council & it is understood that a solution will be reached over the week-end with the decision that the Saar returns to Germany before the 1st of March.

Meanwhile the negotiations will continue between France and Germany on the outstanding questions, principally demilitarisation.

Negotiations between Great Britain and overseas countries regulating meat imports, have resulted in an agreement covering the first quarter of 1935, based on the principal sources of supply on the average imported in the first quarters of the last three years.

The Annual General Meeting of the Farmers' Union has criticised the Irish cattle for coal pact with particular reference to its effect upon home livestock producers.

SOVIET INVASION OF MARKETS.

Moscow, 16.1.35.

The Soviet, which has hitherto been a big importer of manufactured goods is planning an increased production and an invasion of the world export markets.

The official press states that Turkey is already taking textile machinery on long credits while agricultural machinery is being bought by Greece, Italy, Belgium, Holland and Denmark.

In addition to machinery, the exports will include fertilisers, cement, electric fittings, knitted goods, ready-made clothing, potash and pig-iron.

GOLD UPHEAVAL IN U.S.A.

New York, 16.1.35.

Wall Street is greatly excited by a Washington report that a decision adverse to the government in the gold clause cases might cause Congress to restore the dollar to the original gold content, thus preventing further inflation, states the Daily Telegraph correspondent.

Consequently a worldwide demand for the dollar has forced the value well above old parity with sterling and the uncertainty in the exchanges has led to great activity in the bullion markets, approximately £1,500,000 gold changing hands.

The Congressional leaders are convinced that too much is at stake for the Supreme Court to turn down the government and they decline to consider such an eventuality.

- o -

A later message from New York states that the exchange excitement caused by the rumours that the dollar might return to the old parity has died down, but government circles, alarmed by the disastrous market reaction, have hastened to spread unofficial statements denying the rumours.

There is a general feeling that President Roosevelt will find some way round the possibility of an adverse gold clause in his decision without retreating from his original view.

WILL HAUPTMANN CONFESS ?

Flemington, New

Jersey, 16.1.35.

The eleventh day of the Lindbergh baby murder trial was occupied with further evidence from the handwriting experts. All of them are emphatic that the accused Hauptmann wrote the ransom notes which were not forged.

A later message from Flemington adds that while further handwriting experts have been testifying to the similarity of the ransom notes and the accused Hauptmann's writing, new witnesses from Germany arrived to-day and they are expected to refute the suggestion that another person received the ransom. It is expected that the accused will confess.

SOUTH GEORGIA SUMMERLESS !

We understand that South
 Georgia is experiencing worse sum-
 mer conditions than we in the
 Falklands, for up to yesterday only
 20 hours of sunshine had been re-
 corded at Grytviken during the past
 eighteen days. Instead a "good"
 assortment of bad weather has been
 provided including snow, sleet,
 rain and plenty of wind.

We are lucky ! We have had
 nearly a week of almost continuous
 sunshine. Yesterday - well, we'll
 refrain from commenting on that.

THE "PENOLA" IN A FOG.

Rumour has it that the Research

Yesterday conditions were bad
 and communication with her was dif-
 ficult.

MEXICAN CAMPAIGN AGAINST

ILLITERACY.

Observer.

The National Revolutionary
 Party of Mexico, the country's
 greatest political organisation,
 is forming associations of women
 workers and peasants throughout
 the country for the purpose of
 decreasing illiteracy by inducing
 more children and adults to at-
 tend Government day and night
 schools and to combat fanaticism,
 "especially that fostered and
 spread by the clergy," and such
 vices as drinking and gambling.

SAYINGS.

 casting and the motor-car have

 Bishop of Chelmsford.

"We are told to be air-minded
 but we must be careful not to be
 hot-air minded." - Lord Ulls-
 water.

CANADIAN REFORMS.

Ottawa, 17.1.35.

In his speech from the throne at the opening of Parliament, the Governor-General of Canada, Lord Bessborough, said that measures of reform had been designed to remedy the social and economic injustices now prevailing and to ensure all classes a greater degree of equality in the distribution of the capitalist system of benefits.

Provision for workers during unemployment, sickness and old age with a definite minimum and maximum of wages and hours respectively, were outlined, states Reuter's correspondent.

FAR EAST RAILWAY CHANGE.

Dairen, 17.1.35.

The South Manchuria Railway, as a trust dominating Manchurian utility concerns, is being dissolved and becoming purely a transportation enterprise. An agreement in principle has already been reached.

NO BRITISH STATUS INIRISH FREE STATE.

Dublin, 17.1.35.

The Irish Citizenship Bill passed its second reading to-day without a single dissident.

Following the contention of the Regius Professor of Law at Dublin University, Dr Brown, that the deprivation of a British subject's status was outside the government's powers, de Valera replied that there was no common status in the Commonwealth and the Bill ended, legally, in the Irish Free State, the British status as applicable to Irish citizens.

New York : The 1935 cotton allotment, under the Bankhead act has been fixed at 10½ million 500-pound bales.

Football Result : The F.A. Cup (3rd Round) replay between Blackburn Rovers and Middlesbrough resulted in the former winning 1 - 0.

SAAR REFUGEE WARNING.

Will Question Become of
International Concern?

Metz, 17.1.35.

The influx of refugees from the Saar into France is reaching high figures and the French police are facilitating border formalities in respect of 2,400 daily.

According to the Daily Telegraph correspondent, most of these refugees are German intellectuals and Jews who have fled from the Reich under death threats, and found asylum in the Saar.

The French Foreign Minister, M. Laval, in addressing a Council meeting in Paris, expressed the hope that Hitler would prevent reprisals against the Saar minority, adding that France received the refugees in a spirit of humanity, but if the problem became serious it assumed a matter of international concern.

LIFEBOAT CREW REWARDED.

London, 17.1.35.

The lifeboat crew of the liner "New York" received a great reception when the ship berthed to-day and the coxswain was presented with the Lloyd's Society's gold medal with the members of the crew also receiving suitable recognition for their gallant rescue of the crew of the Norwegian steamer "Visto."

WHY WE SWEAR.

Observer.

"Swearing is really bound up with magic," says Professor A.E. Heath of Swansea University. "For instance, there is a certain race of primitive people who, before they go out to fight, call their enemies 'rotten tree trunks' in the hope that they will really be turned into rotten tree trunks."

"Similarly when a man says 'blast you', there is a primitive feeling deep down in him that the man may really be blasted though he would probably have the shock of his life if this happened."

"Swearing among modern man might be described as a method of letting off steam."

BROADCASTING & WIRELESS.

(continued from second column)

Broadcasting of a crude kind had, however, been tried almost as soon as any sort of continuous wave signal was possible, and at least as early as 1906 crude speech and music had been transmitted & received in the United States.

Broadcasting proper started in 1921 at Pittsburgh, U.S.A., and in the same year a regular weekly transmission was to be heard from the tiny Marconi station at Writtle to be followed in September, 1922, by the real start of British Broadcasting. Within a year there were eight stations at work in Britain.

WHY WE SWEAR. (from page 2.)

"By swearing he feels better & this is why things which have been behaving very awkwardly seem to behave very much better after one has sworn at them."

BROADCASTING & WIRELESS.

History of Radio Communication.

On a bleak December day thirty-three years ago, Marconi, standing with his assistants Kemp and Paget, on the shores of Newfoundland, heard faint signals from his station at Faldhu, Cornwall, where Ambrose Fleming was in charge of the first crude transmitter to establish radio contact across the Atlantic.

The practical use of wireless waves is actually little more than twenty-five years old. In 1909 the Marconi Company had a very limited trans-Atlantic service at work, and there were one or two other stations in Britain and other parts of the world. A host of investigators were busy. Among them Sir Oliver Lodge, Dr Muirhead, Sir Henry Jackson and Professor Ernest Wilson in Britain had already contributed valuable improvements to the crude apparatus with which Marconi had interested Sir William Preece and the British Post Office fourteen years before.

So rapid has been the development of wireless that we are apt to forget the work of the pioneers & accept broadcasting and the marvels of the radio links which enable us to communicate by telephone with ships at sea, aeroplanes in flight, and friends and business firms in almost any part of the world, as ordinary conveniences, like water supply and drainage which are so well established that they have apparently always been at our command.

In these days when short-wave working is the backbone of long-distance telegraphy and telephony, it is interesting to be reminded that the first experiments of both Hertz and Marconi were carried out on wavelengths of one or two metres, and that Marconi only temporarily abandoned his faith in directional beam transmission because the apparatus available in the early days necessitated the use of very long waves to span any considerable distance.

Broadcasting owes its possibility to the development of the thermionic valve, which had been the subject of a good deal of intensive research during the war.

ROOSEVELT'S APPEAL.

"In the Interests of Peace."

Washington, 16.1.35.

President Roosevelt's brief message to the Senate to-day urged American adherence to The Hague Permanent Court of Justice "in the interests of peace", states the Daily Telegraph correspondent.

A movement to make international justice practicable and serviceable was not subject to partisan considerations, the President added, and he asked the Senate's approval to be given in such a form as not to delay the objective of adherence, since the sovereignty of the United States would not be jeopardised or diminished in any way thereby.

The opposition attacked adherence on the grounds that it would impair American independence and tend to introduce the United States to the League of Nations by the back door.

for making two-way flights in 1935.
The President is stated to
agree with the Federal Aviation

Lord William Scott, has accepted
the invitation to become a pros-
pective candidate.

EASTERN FACT PROGRESS.

Geneva, 19.1.35.

The Soviet Commissar for Foreign Affairs, Litvinoff, stated that only Germany's consent was now wanted for the conclusion of the Eastern Fact, this statement implying that the Polish Foreign Minister has withdrawn his opposition.

According to Reuter Polish circles remain reticent and point out that the government organ's declaration of Poland's attitude has not changed but the view is taken that Poland's consent is probable on the condition of Germany's adhesion.

Further European diplomatic moves are reported from Rome where the German ambassador left to-day for Berlin where it is understood that he is to discuss his government's participation in the Franco-Italian agreement regarding Austria.

ITALY & ABYSSINIA.

Geneva, 19.1.35.

Thanks to the efforts of the Hon. Anthony Eden, the British Under-Secretary, and M. Laval, the French Minister of Foreign Affairs, Italy and Abyssinia have agreed to negotiate a direct settlement, both parties consenting to address letters to the Secretary-General of the League stating that they had decided to discuss the question under Article 5 of the 1928 treaty.

The League Council has adjourned the question until June.

FRANCE & SAAR REFUGEES.

Geneva, 19.1.35.

The League Council has decided on the proposal of the French delegates who have pointed out that the French reception of the Saar refugees was an act of humanity that the question dealing with the subject be placed on this session's agenda.

France also considers that the cost of establishing the refugees in a new country should be borne by the League.

It is estimated that the number of refugees is 20,000 according to the Saar Socialist leader, Herr Braun, who has been forbidden by the French Minister for the Interior to address an anti-Fascist meeting in Paris to-night.

Sealed coaches of refugees have arrived at Toulouse, accompanied by a police officer. They received a warm welcome.

Meanwhile Italy is expressing misgiving at the signs of pan-Germanism among the Nazis but Berlin discounts these fears. Nevertheless Nazi circulars are re-appearing in thousands in Vienna and innumerable "Hitler coins" bearing inflammatory inscriptions were strewn through the streets during the night.

The League Council has also warned the pro-Nazi Dantzig government that they must respect the city's constitution.

THE DOLLAR'S FUTURE.

London, 19.1.35.

Uncertainty regarding the dollar's future is resulting in large shipments of gold from Europe as it is feared that if the U.S.A. Supreme Court decides upon Congress action in revoking the gold clause, the unconstitutional gold dollar will revert to its former value and the American gold price will drop accordingly, states the Daily Telegraph.

During the next four days £11,000,000 gold is leaving Southampton for the United States and £1,500,000 silver.

The customs returns for the four days to the 17th of January indicate that £26,000,000 has already been despatched.

TELEVISION REVOLUTION.

London, 20.1.35.

The Television report, placed before the Postmaster-General is understood to recommend a pool of patents among manufacturers in order to secure cooperation in the interests of this young industry.

ANOTHER SAAR PROBLEM.

Currency Difficulties.

Berne, 20.1.35.

An important step was taken during the week-end for the solution of the currency problem which the plebiscite created in the Saar states the Reuter correspondent, and the exchange of German marks for the French francs which are now circulating is commencing immediately with 350 bureaux set up for this purpose.

French currency is to be kept at the Saarbruecken Bank at the disposition of the Bank of International Settlements who will release it as desired by the Bank of France.

The American president of the Bank of International Settlements, Mr Fraser, has announced his retirement, this causing great surprise and general regret, but Mr Fraser states that the only reason for his doing so is his desire to visit the United States.

Reason Over Force.

London, 20.1.35.

The President of the American Steamship Owners Company, Mr Baker who is a delegate to the preliminary Shipping Rationalisation Conference, spoke highly of the conference in a broadcast to the United States to-night, stating that while shipping history was a record of chaos and strife, frequently resulting in strained relations and even war, the outstanding fact of the London Conference was that the nations were willing to discuss this vital industry, so auguring well for the future.

Regardless of the outcome of the conference it indicated that force was no longer the law of the sea and that reason had now been brought to bear.

What cheer? The father said his small son ought to have been named "Flannel" because he shrank from washing.

MOTOR-CYCLIST FINED £1.

Sequel to "No Road" Offence.

Mr Noel Biggs, was fined £1
 yesterday morning in the Police
 Court for driving a motor-cycle
 on the 16th instant, along a road
 in Stanley, entrance to which was
 forbidden by a "No Road" notice.

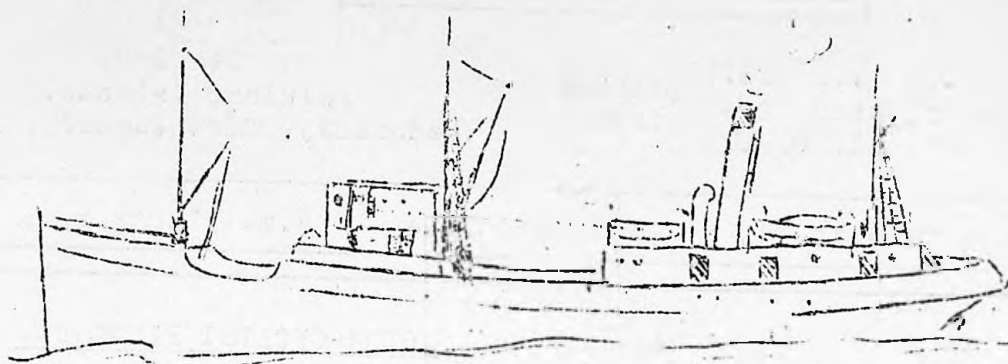

In convicting the defendant
 who pleaded "Guilty" the Magistrate
 pointed out that the case was of
 a straight-forward nature. Road
 notices were put up for the safety
 and convenience of the public and
 they must be obeyed. A fatal
 accident may occur at any time
 through disobeying such a notice.

"No doubt," the Magistrate
 added, in addressing the defendant,
 "when you disobeyed the notice you
 felt sure that no accident could
 happen, but it must be plainly
 understood that it is not for per-
 sons in charge of vehicles to de-
 cide for themselves whether on this
 or that occasion it is safe to
 ignore a notice. A notice must
 be obeyed every time by everybody
 to whom it applies.

"If drivers were to find that
 a 'No Road' notice was unnecessar-
 ily obstructive they would have
 their remedy by bringing the matter
 before the authorities who, no
 doubt, would carefully consider it.

"Restrictive regulations and
 the whole army of 'don'ts' are not
 devised, as young people are apt
 to imagine, by elderly kill-joys
 for the purpose of preventing other
 people from enjoying themselves.
 They are made for the good of all
 and to ensure that no class of per-
 sons in the course of their business
 or pleasure shall cause avoidable
 injury or annoyance to others."

The Magistrate concluded by say-
 ing that this was the first case of
 its kind & the Court would impose a
 fine of only £1. The maximum
 penalty that can be inflicted for a
 breach of the Ordinance is £50.

FAREWELL TO THE S.S. FALKLAND.

To-day the s.s. Falkland is expected to leave the Colony which she has known as her home for the past twenty years or more and from which she derives her patronimic, to ply in other waters engaged in the timber trade.

As the result of negotiations that have been proceeding between the Falkland Islands Company, Limited, and Messrs. Dick and Brayo of Magallanes on behalf of her new owners - negotiations that have been delayed on account of exchange difficulties in South America - a successful transaction has been made.

She now departs for Hill Cove on the West before proceeding to her destination when joined by the s.s. Lafonia later this week, leaving behind her intimate memories for most people in the Falkland Islands.

It is probable, however, that she may still be seen occasionally on a visit to the Colony so that for some time at least one may expect her acquaintance not to be completely severed.

On first arriving in these latitudes before the Great War she was the property of the Falkland Islands Transport Company. A few years later she was purchased by the Falkland Islands Company, Limited, and up to November, 1931, had voyaged continually round the Islands besides sailing to Montevideo and the Coast. Since that date she has lain inactive in Stanley Harbour.

The personnel taking charge of the vessel to Magallanes will return to Stanley by the s.s. Lafonia and consists of : Messrs J. Walsh (Master), H. Fuhlen-dorff (Mate), J.M. Thomson (Chief Engineer), R.D. Atkins (First Engineer), M. Jacobsen, A. Etheridge, G. Walsh, J. Gleadell, W.J. Halliday, S. Bonner, J. Jennings, B. Berntsen and H. Anderson.

It is understood that the Government contends that the Association aimed at bringing about a revolution in Indian villages.

JAPAN EXPLAINS.

Tokio, 22.1.35.

Japan's desire for a new naval treaty embodying sweeping reductions in armaments and an appeal for a cordial collaboration with China, were the keynotes of the speech of the Foreign Minister, Naito, in the Diet, states Reuter.

He added that Japan's denunciation of the Washington Treaty must not be taken that she intended to launch upon an armaments' extension, but that she looked forward to a new treaty based on a new formula truly consonant with the spirit of disarmament.

The Japanese government's negotiations with Great Britain & the United States envisaged total abolition or a drastic limitation of offensive armaments so making it impossible for any power to menace another.

It was unimaginable that there could be cause of conflict with the United States while it considered that an adjustment of matters relative to the safeguarding of overseas trade easily obtainable with Great Britain.

GUILD'S PICNIC IN RAIN.

Yesterday the 1st Falkland Islands Company of Girl Guides with a number of friends held a picnic at the Two Sisters. Under the charge of the Guide Lieutenant, Miss O.H. Felton some thirteen Guides and seven guests set out at about 10.30 in Mr Summers's lorry and had a most enjoyable lunch in the shelter of the "mountains", not even the rain upsetting their appetites. The downpour continued however, somewhat curtailing the picnic and the whole party returned home about 2.45 p.m.. Though the rain was troublesome it did not dampen their spirits and they kept themselves happy with lusty songs. Not to be outdone by the weather the majority remained at Headquarters where they continued their "outing."

THE S.S. FALKLAND left Stanley en route for the Coast at about 4.30 o'clock yesterday morning.

LONDON DEVELOPMENT SCHEMES.

London, 22.1.35.

Two important development schemes are under consideration by the London Port Authority one of which is a £3,000,000 barrage across the Thames and the other is increased docking facilities for dealing with the rapidly expanding trade of the port.

According to the Daily Telegraph the barrage scheme is intended to maintain the river at a constant level by the construction of a dam at Woolwich and another at London Bridge. Power to deepen the Royal Victoria & Albert Docks and other improvements is also sought.

DISAPPOINTING LOCAL BISLEY.

Bad Weather Again Mars Annual Meeting.

Only Three Competitions Completed

- Remainder Postponed.

Once again the Annual Local Bisley Meeting of the Defence Force Rifle Association has been marred by bad weather. The stage had been set for the competitions to take place on Saturday and Sunday last with disappointing results.

On the first day a very bad morning necessitated postponement but as the skies improved at lunch time it was decided to proceed in the afternoon. On Sunday a start was made at about 9.0 a.m. but it was not found possible to complete all the various events.

In spite of the adverse conditions there was considerable keenness and the competitors did not let the trying circumstances undermine their enthusiasm. On Sunday afternoon the Ranges were visited by His Excellency the Acting Governor and Mrs Craigie-Halkett who took a great interest in the shooting.

A Committee Meeting of the Rifle Association was held last night to consider the position and to determine a future date to complete the programme.

On Saturday afternoon last a start was made on the First Stage of the Governor's Cup and the Open 500 and 600 Yards. The conditions for shooting were ideal and some good scores were registered.

Both A. Hills and P. Hardy secured possibles, at 200 and 500 yards respectively in the First Stage of the Governor's Cup, while A. Hills added further to his laurels by obtaining a second possible, at the 500 yards in the Open 500 and 600 Yards competition.

Conditions suddenly changed as the first detail were about to finish at the 500 yards of the 1st Stage and rain commenced to fall heavily. Shooting was suspended for an hour but as the weather showed little or no improvement the Committee decided to abandon the competitions until the following day, cancelling all scores but those obtained at the 200 yards.

Sunday morning found a cloudy sky but the Committee, after meeting on the Range, decided at about 9.0 o'clock, to proceed with the Meeting. It was found possible only however to complete the 1st Stage of the Governor's Cup, the Falkland Islands Company's Handi-

cap and the Open 500 and 600 Yards.

A very strong wind was blowing and continued to increase in force throughout the day making accurate marksmanship extremely difficult.

The Douthwaite Trophy was won by J.W. Grierson with the creditable score of 96, while the Hamilton Challenge Cup was secured by A.I. Fleuret with an aggregate score of 310. L. Reive, W. Aldridge and M. Campbell tied for the first prize in the Open 500 & 600 with scores of 64. The shoot off resulted in L. Reive taking first place with M. Campbell second & W. Aldridge third. The Recruits' Prize went to E. Harvey with a score of 31 at 200 yards. The Falkland Islands Company's Handicap resulted in a tie with W. Grierson, W. Browning and J. Bowles each obtaining a total of 105 points with their respective handicaps. The tie has yet to be decided by shooting off.

The competitions were keenly contested &, taking into consideration the weather conditions, the scores compiled were creditable.

The list of the prize-winners and the scores registered by the competitors in the several competitions are :

JAPAN STANDS FOR JUSTICEAND FRIENDSHIP.

London, 22.1.35.

The Japanese naval delegate, Admiral Yamamoto, who is returning to Japan shortly to report on the preliminary conversations, has expressed the view that the Naval Conference due under the Washington Treaties should be held as early as possible since Japan is not likely to consent to postponement until 1936, states Reuter.

His orders to return via Siberia are considered to be indicative of Tokyo's desire for early information.

Yamamoto, in answering a question as to the British and United States defence of their far eastern interests if the Japanese thesis of capital ships and aircraft carriers' abolition is adopted, said that the only true defence was justice and international friendship while the relative naval strengths would thus be altered allowing cruiser replacement.

The Colonial Small Bore

Trophy, 1934.

The Falklands Second Win.

News was received by this mail of the Colony's success in the Colonial Rifle Association's Small Bore Match, 1934, and our heartiest congratulations are extended to the members who so well deserved their victory and to the Defence Force Rifle Association under whose aegis those members were able to participate in this important Colonial contest.

The competition has only been running for three years and we have won it twice - the first and third time - which speaks volumes for the marksmanship of our men.

The official card returned by the Falklands, already recorded in the "Penguin" of the 12th December, 1934, gives a total of 1945 - the highest score yet made. The first year of the competition the Falklands won the event with a total of 1901; in 1933 Kenya won it with 1936; while last year we took it from Kenya, making six points more than their 1939. In 1933 we were third with a total of 1908.

The members of the Force who have taken part in all the three competitions are : Sergeants J.R. Gleadell & J.J. Harries, Corporal W. Browning and Privates L. Reive & W.J. Grierson. Those who were also in the winning team of 1932 but did not shoot in 1933 were : Corporal C.H. Thompson and Privates A.H. Hills and E. Lellman.

In addition to Private A.H. Hills possible, mentioned in the "Penguin" last December, four other 100s have been recorded in the competition, one being obtained by Mrs C.J.F. Irvine of Kenya; the others were secured by W.R. Triebel (Kenya), F.H.C. Hobson (Trinidad) and I/Cpl A. Bakar (Federated Malay States). The highest individual score was made by W.R. Triebel (Kenya) and Private G. Child of the Federated Malay States with 198 each, which six tied for the second highest with a score of 197, among them being Private L. Reive of our team.

Eleven teams competed as

SEA DISASTER (Friday night London.)

It is regretted to report that a further sea disaster has befallen an American passenger vessel. The Mohawk was rammed by a Norwegian cargo vessel late Friday evening. The captain of the Mohawk immediately turned his ship ashore with the engines going full speed in an endeavour to beach the vessel to save loss of life. He was unsuccessful & the vessel went down in

some twenty feet of water. Many ships rushed to her assistance to take off her passengers but up to the time of going to press there were forty-seven persons missing.

SENSATIONAL COURT CASE.

Great satisfaction has been shown in all circles by the successful action of Sir John Simon for slander against a speaker who had alleged that he had pecuniary interests which affected the Government's policy.

The success of the action is welcomed irrespective of parties as a vindication of British political morality.

The Daily Herald, the Labour paper, says: "Sir John Simon's vindication in the court of his personal integrity, will give genuine satisfaction to everyone who has any care for morality in public life. The charge that was made was the most terrible that could have been brought against a man in his position.

"No one who knows Sir John Simon could for one moment subject him of being influenced in his policies by any pecuniary motive. But the charge was made. It was essential to repudiate it, and we, who have on occasions criticised his policies unsparingly, are glad that his honour which should never have been impugned has been publicly vindicated."

WARSHIPS RESCUE TANKER.

The British tanker Valverde which has been in distress in the West Indies since Tuesday owing to an outbreak of fire has now been taken in tow by H.M.S. Frobisher which is endeavouring to take the vessel to Bermuda. The Frobisher reports that the Valverde is not very manageable & her rudder is out of action, but it is hoped to effect repairs to this to-day. Earlier H.M.S. Guardian was also standing by but has now left for St Lucia

The Dupont Company announces the discovery of a new foolproof explosive, twenty per cent stronger than T.N.T., which it is impossible to explode by rifle-shot, fire, blow-torches or percussion.

MAINTAINING HIS PREROGATIVES.

Roosevelt Stands Up.

Washington, 24.1.35.

President Roosevelt has informed the weekly Press Conference that he is definitely opposed to Senator Norris's proposal that the ratification of the United States adherence to the Permanent Peace Court should be conditional on a two-thirds Senate vote.

His view is that such a proposal is a definite limitation of the constitutional prerogatives of the President, states Reuter.

WEAVERS' WAGE PROSPECTS.

The negotiations for the Weavers Wage agreement which has been continued since July last, have at last been virtually completed and, subsequent to a statement by the Cotton Spinners and Manufacturers' Association chairman, Mr Grey, it is understood that a report will be made to the respective organisations within a day or two with only minor details remaining for settlement.

In opening his address the
 Bishop said "On my way over I de-
 cided that on the first opportunity
 I would say something of the work of
 my predecessor, Norman Stewart de
 Jersey, but as this service is not
 the Enthronement Service I propose
 postponing it until Thursday evening
 and to-night I would give you a
 short address upon the message which
 comes in the Gospel and in the Les-
 sons in the early part of the year -
 a Message that God gave to the world
 on the Birth of Jesus Christ : St
 Matthews Gospel, 1st Chapter, 23rd
 Verse - "And they shall call his
 name Emanuel which being interpreted
 is 'God is with us.'" His Lord-
 ship then gave a very impressive
 discourse which was heard clearly
 not only by those in the Cathedral
 Church but also by all those who
 were listening-in.

During the service the Very
 Reverend the Dean announced that
 the Enthronement Service would take
 place on Thursday evening commencing
 at 8.30 o'clock while on Friday at
 7.0 p.m. the Confirmation Service
 would be held.

THE BRITISH DOMINION CLUBS'

TEAM COMPETITION, 1934.

Falklands Teams Do Not Shine.

- o -

After the splendid achievement of 1933 when the Colony's team was first in a field of seventeen competitors last year's results, although not unexpected in view of the comparatively poor scores returned, found us taking a far lower stand in the picture.

The previous year's success had encouraged the Defence Force Rifle Association to enter two teams but "A" Team was eighth while "B" was tenth, the latter tying with the Zomba Ladies team of Nyasaland.

When the competition was held in Stanley last year the Shoot was fired off the same evening as the Colonial Small Bore match and afterwards. This fact undoubtedly stands as a mitigating circumstance and we believe that in future years the competition will be staged on a separate evening thus relieving the fatigue that must consequently result from the strain of firing off these keen events.

Five of the members of the 1933 winning team were again competing last year only one improving his total. The detailed results of the Falklands Teams with the 1933 totals in brackets besides the respective marksmen are :

8th Falkland Islands D.F. "A" Team.

C. Thompson	99.
W.M. Allan	99.
L. Reive (99)	97.
J.R. Gleadell (98)	95.
E. Lellman	95.
A.H. Hills	95.
	<u>576.</u>

10th Falkland Islands D.F. "B" Team.

J. Petterssen (96)	97.
H.H. Sedgwick	96.
W.J. Grierson (97)	95.
K.V. Lellman	95.
J.J. Harries	95.
W. Browning	95.

The sixth member of the 1933 winning team who was not firing last year was E.J. McAtasney.

"OPEN WOUND IN FRENCH SIDE".

Financial Bill Debate.

Paris, 25.1.35.

A Bill to raise by 50 % the government's borrowing limits by short term credit loans is being debated in the Senate.

According to the Daily Telegraph the introducer of the Bill said that the government's policy was easier credit with the ultimate object of improving French trade & industry, but the former Finance Ministers de Lasteyrie & Reynaud Bonnet criticised Flandin's policy as aiming at cheapening production

by covering borrowing requirements on a short term market and thus reducing the interest paid by the industry on long term credits.

Bonnet said that the Bill was only a borrowing device destined to cover the budget deficit which was an open wound in the French side and must be healed.

GERMANY COVETS DANZIG.

Danzig, 25.1.35.

Now that the Saar dispute has been cleared up interest is shifted to another European "percussion," states Reuter.

The supreme chief of the Nazi party in Danzig, Herr Forster, in addressing a Nationalist Socialist rally, declared that no effort must be spared to keep Danzig truly German and the task of every Nationalist was to ensure that all Danzigers became so friendly that they could not think otherwise than for the furtherance of Germanism.

Considerable interest is evinced in the question whether the Danzig President, Herr Greiser, who has just returned from Geneva, will uphold Danzig's "independence."

THE BABY MURDER TRIAL.

Flemington, 25.1.35.

On the eighteenth day of the Lindbergh baby murder trial, the accused Hauptmann resumed his evidence, emphatically denying that he was connected with the kidnapping or the murder.

In giving details of his movements on the night of the crime he scornfully repudiated the workmanship of the ladder produced by the prosecution.

The ransom money found in his possession he accounted for by property left in his charge by Fisch who subsequently died in Germany. The currency was only revealed to the container by accident and was only used when Fisch was dead.

An air liner, it was reported from London last evening, on arriving at Weybridge, Sussex, from Paris with several passengers and luggage in addition to a consignment of gold worth about £20,000, was found to have had the luggage department ripped open by the wind. The luggage and the gold was missing. It is thought that the gold dropped out out and may have fallen into the sea. Both the police in England and France have been searching for it and yesterday morning the French police found a suit case which may have dropped out of the aeroplane. It is hoped that the gold may be found in the same district.

GRAVE NEW YORK STRIKE FEARS.

New York, 27.1.35.

Fears have been expressed to-day that a strike as disastrous as the San Francisco strike last July might occur at the Port of New York following to-day's decision of 35,000 teamsters and lorry-drivers to cease work for one day - Monday - as a protest against the employment of non-union men.

If the strike is prolonged 30,000 waterfront workers will be faced with idleness.

The strike is without the approval of the men's union leaders who say that if the waterfront workers are drawn out business will be paralysed.

IMPORTANT GERMAN & POLISH

TALKS ON EASTERN PACT.

Warsaw, 27.1.35.

The greatest secrecy surrounds General Goering's hunting trip to Warsaw.

The Prussian Premier is opening conversations with prominent Polish military and political personages in the Baolowierza Forest.

The entire area of the hunt & all the lines of communication are guarded by numerous police and army detachments. The Daily Telegraph correspondent states that the meeting at Baolowierza and the conversations which will follow with Marshal Pilsudski are of the utmost political importance.

Both Germany and Poland are the principal opponents to the suggested Eastern Pact sponsored by France and the Soviet.

Germany has shown a tendency to compromise in her attitude towards the pact but Poland is still critical of many of its aspects.

Warsaw is revealing a more lenient attitude towards the Austrian problem, as embodied in the recent Rome agreements, as the results of the conversations in Paris between the French Foreign Minister, M. Laval, and Colonel Beck, the Polish Foreign Minister.

F.I. DEFENCE FORCEIN LEEDS PAGEANT.

Represented at Armistice
Festival.

At the Leeds Armistice Festival of Remembrance held on the 11th of November last, a feature which excited considerable interest was the representation of the Falkland Islands Defence Force in a glorious pageant known as "The Rally of the Empire" and described in the local press as "a living lesson in Geography."

Every Dominion, Colony and Protectorate was represented, the variety of uniforms ranging from the canary yellow coat, striped turban and white breeches of "Skinner's Horse" (India) and the scarlet, blue and rifle green of pre-war full dress to the khaki service dress, with drill suit & sun-helmet of the Sudan as an effective contrast to the thick blanket coat, fur cap and snow shoes of Canadian winter kit.

The characterisation of the Defence Force was taken by Mr C. V. Young who also carried the Colony's Emblem.

Mr Young served throughout the Great War with the West Yorkshire Regiment and holds the 1914-15 Star, the British War Medal & the Victory Medal. During the war he had the grave misfortune to have his lower jaw shattered by an enemy bullet and the way his injury has been repaired is one of the many marvels of modern surgery.

In a synopsis of "The Rally of the Empire" the programme states that : "The West Indies and neighbouring British Possessions sent fifteen battalions to the Great War, serving on almost every fighting front. The Falkland Islands Defence Force, a numerically small unit, furnished a striking example of courage in 1914. It will be remembered that Captain Sir James O'Grady, ex-M.P. for East Leeds, was Governor of the Falkland Islands until recently."

The Festival was held at the Paramount Theatre, Leeds, under

the auspices of The Combined Ex-Service Organisations of the City of Leeds, and the opening ceremony was performed by Princess Royal's husband, the Earl of Harewood.

As a result of the Festival over £130 was raised for ex-service and military charities.

LITTLE POWERS' FEAR.

Belgrade, 26.1.35.

The Turkish Foreign Minister, Tewfik Rushdi Aras, conferred with the Premier and received an audience with Prince Paul for the discussion of the uneasiness resulting among the States of the Little Entente, the Balkan Entente and Russia by the Rome Pact and the forthcoming visit of Ms Flandin and Laval to London.

It is feared that the Four Power Pact may be resuscitated, making the great powers supreme in Eastern Europe and excluding Russia.

EFFORT FOR SPANISHUNEMPLOYED.

Madrid, 27.1.35.

The Cabinet is considering the drafting of a new law providing for the expenditure of 1,000 million pesetas in an effort to reduce unemployment over a period of four years, states the Daily Telegraph correspondent.

The money, which will be raised by the issue of treasury bonds will be used for the erection of public buildings, the provision of homesteads for farmers and other public utility works.

POLISH UNCERTAINTY.

Warsaw, 28.1.35.

Public opinion is showing great uncertainty about the Nazi Minister Goering's visit, and the press points out that Germany wants more from Poland than she is offering, says the Daily Telegraph correspondent.

Doubts are also expressed of Germany's assurances of friendship and of her renunciation of Upper Silesia in view of the allegations that Hitler wants to alienate Poland from France to make time for re-arming, thereafter showing Poland her real intention.

Cricket The West Indies have won the second Test Match at Port of Spain, beating the M.C.C. by 4 wickets & 217 runs.

EMPIRE AIR SCHEME.Development Move.

London, 28.1.35.

According to the Daily Telegraph, acceleration and the development of the Empire air services are to be brought a stage nearer by the departure to India, Siam, Singapore, and Australia of a delegation from the Air Ministry and the Post Office on Tuesday.

The delegation is travelling by Imperial Airways and consists of the following for the Air Ministry - the Deputy Director of Civil Aviation (Mr Bertram) the Parliamentary Private Secretary to the Under-secretary for Air (Mr Guinness M.P.), and for the Post Office - The Postal Services Director (Sir Frederick Williamson,) and the Parliamentary Private Secretary to the Postmaster General (Sir Edward Campbell M.P.)

The delegates will discuss with the local experts, grounds' organisation including wireless services, night flying, beacons and landing guides, and the coordination of an Empire air network.

The full scheme will occupy two years of preparation. Meanwhile aircraft types envisaged are to be approved and produced.

APPEAL FOR WORLD COURT ENTRY.

Washington, 28.1.35.

The advocates of the United States adherence to the World Court anticipate a vote ratifying American participation to be reached on Tuesday. But in the final opposition stand the Californian senator, Mr Johnson, declared to the Senate that the sole question was whether the United States should enter foreign politics since, once she entered, it would be hard to get out and hard to swim.

The President's wife, in a nation-wide broadcast urged the country's entry to the World Court, stating that the conditions under which George Washington had declared against entangling alliances no longer existed and as a great creator nation, the United States was a part of the world no matter how great the desire to live unto themselves.

THE ENTHRONEMENT OF THE BISHOP.

This Evening's Impressive Service.

This evening at 6.30 o'clock the Cathedral Church will witness a service that has not been held in the Falklands for some sixteen years and has only been seen in the Colony four times previously. It is the Enthronement of the Bishop of the Falkland Islands.

The Right Reverend John Reginald Weller, who was consecrated on St Peter's Day, the 29th of June, 1934, is the fifth Bishop of the Falkland Islands and succeeds the late Right Reverend Norman S. de Jersey who passed away last year.

His Excellency the Acting Governor and Mrs Craigie-Halkett will close with the Episcopal Blessing to be followed by a hymn with members of Councils and their wives are expected to be present in the Church together with the congregation for this impressive event.

and the sermon. After the Blessing at the conclusion of the service the Lord Bishop will lead the procession to the West Door and then the Dean will escort His Excellency the Acting Governor from the

After the opening offices the Very Reverend the Dean, preceded by the Cathedral Church Clerk, Mr J.F. Summers, the Church Council and with the Wardens - Messrs R.H. Hanneford, K.V. Lellman, P. Smith, S. Bennett and A. Newing - will proceed to the West Door when the Lord Bishop will be admitted after knocking three times with his staff.

The Dean will then lead the Bishop by the right hand, followed by the Bishop's Chaplain, Mr T. Binnie, who will carry the staff, and his Lordship will kneel at the Litany Stool during the singing of the appropriate hymn. The Petition of the Lord Bishop and the reply of the Dean will next be heard followed by the taking of the Oaths of Fidelity, Assent and Allegiance. After which the Enthronement will proceed with the Bishop being led to the Throne by the Dean. Then will take place the Act of Recognition and the most solemn part of the service

To-morrow Evening, at 7.0 o'clock, His Lordship the Bishop will hold a Confirmation Service while on the 11th of next month he will proceed to the West Falkland and hold Confirmation Services there.

The Bishop's Career.

Born in Buckinghamshire His Lordship the Bishop was educated at Bedford Grammar School and started life as a tea planter in Ceylon. In 1901 he went to South Africa for the Boer War as a trooper in the Imperial Yeomanry while the following year saw him crossing the Atlantic to Canada and the United States

THE WORLD'S SMALLEST DAILY.

Half the Size of the "Penguin".

Great interest has been taken in the publication of the "Penguin" by officers of the Clan MacQuarrie from one of whom we learn that :

Though the "Penguin" has the reputation of being the world's most southerly daily (with the exception of the production by Admiral Byrd's Expedition in Little America), the honour of being the world's smallest daily paper would appear to go to that published on Thursday Island, off the Torres Straits, thirty miles from Cape York, Queensland.

This paper, which has been running for at least six years, is only half the size of the "Penguin" and is printed in English with cable news.

The island is a cable station and a pilot depot for the Torres Straits. But most important of all it is the centre of the pearl fisheries of North East Australia, with sometimes as many as 200 schooners in the excellent harbour of Port Kennedy.

Less than the size of Port Stanley, the island has about 1,700 inhabitants half of whom are Britishers while the remainder are Asiatics.

The pearl fisheries of Australia bring in a revenue of about £550,000 per annum. The fleets are owned by Australians but are equipped with Japanese divers who, dressed in diving suits are trailed under the water behind the boats on the look out for pearls. When they sight a bed they signal to the boat which stops and lowers them to glean what harvest they may.

Over 7,000 persons have died from malaria in Ceylon up to yesterday. A record of 45 knots was put up by a French destroyer yesterday.

POLICE AS GOLD DIGGERS.

A £2,000 Reward.

One of the most amusing side-lights on the gold mystery resulting from the luggage of an air liner being lost on Saturday when the machine was crossing from Le Bourget to England, occurred shortly before the discovery of the bars.

While the hunt was waging fast and furious an enquiry telephoned by the Police in London to the Prefecture of the district where the gold was found elicited the response - "No reply. Entire Force out gold digging."

The amount, now placed at £22,000, was miraculously found by a woman walking in a field near the Paris-le Treport road near Oisemont. She stumbled across the debris of a wooden case, half-buried and, being suspicious, informed the police. Digging operations were at once instituted and the missing ingots were unearthed from a depth of several feet. The lucky woman is entitled to a reward of over £2,000.

GREEN BELT FOR LONDON.

The London County Council has decided to provide £2,000,000 for the acquisition of land which may form a green belt around London.

The chairman of the Parks Committee states that unless this is done they will see London as one big block of property stretching as far south as Brighton, to Reading on the west, to North Hertfordshire on the north and to the coast on the east.

It is necessary for the lives of Londoners, he continues. Otherwise the children of the future will have to grow up amid chimneys and smoke.

The question was raised forty years ago.

RICHMOND BRIDGE ALTERATIONS.

The Surrey County Council has determined upon the expenditure of £73,000 for the widening of Richmond Bridge from 25 to 36 feet.

This bridge, which is over 130 years old, is one of the most beautiful of English bridges and care is being taken to do nothing to mar its beauty.

U.S.A. WORLD COURT DECISION.

America has decided to become a member of the World Court.

The question that now concerns the League of Nations is : Which country is to forfeit her seat on the Council in order to make room for America whose position as one of the foremost nations of the world entitles her to this recognition ?

Canada, Belgium or perhaps Italy is mentioned as being the luckless country to have to stand down.

where he worked on farms and in the lumber camps for eight years. Altogether he has crossed the Atlantic seventeen times. In 1908 he started mission work in the lumber camps and in 1910, when about thirty years of age, he went to Selwyn College, Cambridge, being ordained in 1913.

After travelling out to Delhi with the Cambridge University Mission he was soon transferred to cantonment work among the troops and in the early part of the war served as chaplain on the frontier at Waziristan. Later he went to Mesopotamia, Egypt and Palestine.

In 1919 he was appointed chaplain of Quetta and when the Afghan War broke out he went with the 4th Quetta Division into Afghanistan. Resigning from the Indian Service in 1920, he worked for three and a half years in a parish of 30,000 in the South East of London and then, at the request of the Missions to Seamen's Board in London in 1923, he went to Melbourne, Australia, as the Superintendent of their work in that port. After five years the Board withdrew him to their headquarters in London.

As the Superintendent of the Mersey Mission for Seamen he succeeded Lord Thurlow in 1930 but in 1934 on the death of his wife whom he married in 1915, and at the request of the Archbishop of Canterbury, he relinquished his work at Liverpool to succeed the late Bishop de Jersey in this Diocese.

His Lordship has read the lessons in St Paul's Cathedral, and preached at Ordination Services both at the most recent of Britain's cathedrals - the beautiful modern edifice at Liverpool - and as far distant from the seat of the Empire as at Melbourne Cathedral.

His present work will take him as far north as the Panama Canal, to Bogota in Columbia and over the Andes to La Paz in Bolivia, as a result of which he will be travelling for eleven months in the year.

THE CARGO BOAT.

The Cargo boat Clan Macquarrie left Port Stanley en route for England yesterday about noon.

Departure : Mr G.M. Goddard returned to Darwin from Port Stanley on Monday.

OBITUARY.

It is with deep regret that we have to record the death of Miss Minnie Agnes Parrin, aged 19 years, who passed away yesterday soon after noon at the house of Mrs McAskill where she was staying.

A daughter of Mr & Mrs W.M. Parrin of Teal Inlet, she was born in Stanley. She returned to Stanley from the camp some months ago and succumbed after a long and trying illness. Our deepest sympathy is extended to her parents and relatives.

The funeral will take place on Friday at 2.0 p.m., the service being held in the Cathedral Church.

A FAR EAST BLOC.

Japan, China and Manchukuo.

A report from Japan outlines a new Japanese foreign policy towards China. It is far more sweeping than the Munroe Doctrine and completely severs the present relations with foreign nations with the formation of a political and commercial bloc including Japan, China and Manchukuo.

Among the points envisaged in this policy are : The maintenance of China's integrity with the hope expressed that she will stop all internal agitation; Japan will offer political, economic and military assistance to any association or individual unit which would assume full responsibility for a unified China.

Japan wants China to withdraw from the League of Nations & to dispense with British and American assistance, allowing Japanese authorities to assume the position of her foreign advisers.

The report, which emanates from a Japanese newspaper speaks of the formation of a bloc between Japan, China and Manchukuo as politically imperative.

tried to help them, and the answer he got was "No. Sailors have not got souls. Nobody cares about sailors." And so it was that the Missions to Seamen commenced.

His Lordship gave this illustration just to bring before his hearers the fact that it was in this service that the Bishop de Jersey tried to render his share to God and man. During the war he was a chaplain in His Majesty's Navy and then the call came to service in this Diocese.

The Bishop went on to say that he did not know the late Bishop de Jersey well - and then only as a very sick man. But this he did know of him: He

SERVICE.

Bishop de Jersey's Example.

At a most impressive Enthronement Service in the Cathedral Church last evening attended by His Excellency the Acting Governor and Mrs Craigie-Halkett, who were accompanied by Dr H.G. Edmunds (Aide de Camp), His Lordship the Bishop spoke feelingly of the work of the late Bishop de Jersey.

"I am taking as my text the words from the Twenty-second Chapter of St Luke's Gospel, and the twenty-seventh verse," the Bishop said in commencing his address. "I am reading them to you from a small vest-pocket Testament which was given to me by Bishop de Jersey on the day of my consecration: 'I am among you as he that serveth.'"

His Lordship went on to say that Our Lord Jesus Christ was continuously impressing upon his hearers that if they accepted the message he had come to give to the world they were called upon to render service.

After illustrating the point from parables the Bishop went on to say that there are two kinds of service to render. One was the preaching and telling to men of the Life of God and the Message of the Gospel; the other was bringing it into our daily lives.

It was these two ideas of service that Norman Stewart, the late Bishop of this Diocese, tried to render throughout the whole of his life. In the early days of his ministerial work he spent twenty years with the Missions to Seamen in the Port of Bristol.

The work was started many years before his time by a man who realised that nobody was taking an interest in these seamen and that they did not have the opportunity of corporate worship that the people in the towns and cities had. This man, whose name was Ashley, went on board one of these ships and enquired if there was anybody who

Flemington, New Jersey.

The nineteenth day of the Lindbergh baby murder trial was occupied with the cross-examination of the accused Hauptmann by the prosecutor Wilintz, during which handwriting eccentricities in the ransom notes and Hauptmann's private documents were compared.

30.1.35.

The twentieth day of the trial saw the continuation of the cross-examination of Hauptmann relative to his expenditures and bank deposits subsequent to the kidnapping date.

Hauptmann explained these by the money that Fisch left behind, and successful stock exchange operations.

The twenty-first day of the trial saw the end of the cross-examination of Hauptmann with questions relative to the tools found in the garage alleged to have been used in connection with the murder.

The accused's wife testified to the alibis and was supported by a fellow German.

loved the people up and down the whole of the Diocese. They had been very much in his mind and he was desperately anxious to come out once more before he died to see if he could not do something more to help them. But that could not be. In dozens of out of the way places men and women are thankful to him for his interest in them. He used to get to the out of the way places where men did not have the opportunity of keeping in touch with things and God. He was loved for that and he was liked for something else. He was a rich man. He gave of his wealth willingly; he believed in God sufficiently for that. He did not save it up to spend for pleasure. He gave, and gave until it hurt. In the northern part of the Diocese there is work going on among the isolated communities, work that could not have been carried on but for what the Bishop de Jersey did. It cost him £500 a year.

"He came among you as one who served and to-day," the Bishop continued, "I have been Enthroned as following him. I have this much in common with him - I believe in the message Christ gave to the world. I have this in common with him also - the two methods of service: There is the one method of service to mankind to pass on the knowledge handed down to us through out the generations since Christ came to the world; and there is the method to try and make our land, our people, the people of Great Britain, have better conditions to live in that they may have the opportunity of rising to the things Christ meant them to have through the gift of the Holy Spirit.

"This gift I will read from the little Testament I have: 'The gift of the Spirit is - Love, joy, peace, long-suffering, gentleness, goodness, faith, meekness and temperance. Against such there is no law.'"

WORLD COURT SURPRISE.

U.S.A. Senate Fails to Ratify.

Geneva, 31.1.35.

Though it was announced that America had decided to become a member of the World Court it is now stated that the United States Senate has failed to ratify the decision.

Surprise and incredulity best describes the feeling in League circles with regard to the Senate's failure to assent to admission. A favourable vote was looked upon as a foregone conclusion and this final adverse measure is regarded as unfortunate for the League.

According to a message from Washington it is learned that President Roosevelt has declined to comment upon the Senate vote while Professor Newton Baker said that the campaign must continue until the necessary votes have been obtained.

The New York representative on the Senate, Mr Fish, has expressed the opinion that American sentiment has changed largely because of the war debts repudiation.

STRAUSS COMPANY BANKRUPTCY.

London, 31.1.35.

Following the bankruptcy application against the Strauss Company yesterday, they have been suspended from the Baltic and London Corn Association.

The Daily Telegraph states that notwithstanding the unsettled feeling in the Liverpool Grain Market, conditions are generally stable while in New York the Strauss failure has attracted little attention.

A Bombay message states that the inquest verdict on the general manager of the company who jumped from the Taj Mahal hotel, was "suicide while temporarily insane."

ARRIVALS

Mr G.M. Goddard is expected
 to arrive in Stanley to-day.

LAST NIGHT'S CONFIRMATION.

The first Confirmation Ser-
 vice taken by His Lordship the
 Bishop was held in the Cathedral
 Church last evening when twelve
 candidates were presented;- they
 were - Mrs E. Evans, Miss N.
 Biggs, Miss N. Carey, Miss L. Sum-
 mers & Miss N. Steen, Mr C. Evans,
 Mr E. Ashley, Mr S. Bennett, Mr J.
 Bound, Mr H. Evans, Mr O. Gleadell
 and Mr W. Jones.

In the course of his talk
 to the candidates the Bishop said that
 now they were going on a Christian
 journey through life and it was not
 going to be easy. Whether they
 went on the journey on Christ's lines
 or whether they went through it with-
 out Christ. But it could be easier
 with the guidance, help and inspira-
 tion of Christ. Difficulties were
 going to come, sorrows were going
 to come and joys were going to come.

With a simple illustration of
 his own experience in making a jour-
 ney through a Canadian forest with a
 deep snow on the ground, His Lord-
 ship, painted a vivid picture of
 the errors people make; how devia-
 tions from the path retarded one's
 progress and led to the possibility
 of being lost. If one started on
 a journey one would take food not
 only for the first day but suffi-
 cient to last the whole journey.
 One had to arrange for food on the
 following days and in this journey of
 life that is what God had arranged
 for us. The Gift of the Holy
 Spirit was God's gift to those who
 waited upon him : "Those who wait
 upon the Lord shall renew their
 strength." And they, now that
 they were confirmed, waited upon the
 Lord at Holy Communion.

The "Prefecto Garcia" arrived
 back in Stanley yesterday from Sea
 Lion Island.

U.S.A. INTERNATIONALISM APPEAL.

Washington, 1.2.35.

State Secretary Hull, in addressing the Senate Agricultural Committee to-day, denounced the selfish nationalistic policies apparent and proposed that the United States should lead the world away from blind and dumb nationalism which was leading nowhere, states the Daily Telegraph.

He declared that America's foreign trade was jeopardised by isolationist policies and it was impossible to make progress with any trade agreements unless the nation kept on speaking terms with the others.

Replying to Senator Wheeler, Hull said that sympathetic nations had not yet got faith in American intentions but in a reasonably short time it was hoped that they would go forward with the United States, adding that he advocated a gathering of the interested nations in a Conference for the reduction of trade barriers and for the promotion and interchange of commodities.

In a statement on the Soviet defence plans to-day, Tuchachevsky said that the Soviet had constructed several fortified regions on the western and eastern frontiers and garrisons had been established while in the far east a whole system of aviation, tanks and artillery had been created owing to the force of circumstances.

"IT PAINETH EVERY DAY" -

- ALMOST.

The number of days on which
 rain fell during the past month
 equalled a twelve years' record
 in Stanley by totalling 27 al-
 though the amount registered was
 2.86 inches - quite a normal fall.

Yesterday a "good" start was
 made for February for rain fell
 practically continuously from early
 morning to night, registering
 over $\frac{1}{2}$ -inch ! It was significant
 that the wind was again from the
 South while it is interesting to
 note that by the end of January
 another record had been broken.
 The number of days that the wind
 had blown from the south from the
 beginning of November to the end of
 January, was 52 - two more than
 the previous highest total.

SATURDAY'S BISLEY RESULTS.

On Saturday the postponed
 Local Bisley Meeting was resumed
 and the programme arranged for the
 day was successfully completed al-
 though shooting conditions were
 poor, there being a very strong wind
 and bad light.

J.W. Bowles won the tie shoot
 for the Handicap Trophy (F.I.C.)
 with W.J. Grierson second and W.
 Browning third. It will be remem-
 bered that in the actual shoot these
 three marksmen tied with 105.

J. Bound, a recruit of the
 Defence Force, won the Consolation
 Handicap with a score of 119. J.W.
 Bowles also obtained 119 points but
 Bound took the premier position with
 a higher score at the 600 yards. D.
 Lehen snr was third.

The bad conditions had a marked
 effect on the returned cards for the
 Second Stage of the Governor's Cup
 the highest score in which was 134
 made by L. Reive while M. Campbell
 was second with 133, and H.H. Sedg-
 wick third with 132.

As rain fell practically all
 yesterday - and heavily too - shoot-
 was out of the question, and con-
 sequently the Final Stage of the
 Governor's Cup and the Team Shoot
 have yet to be fired off.

ENTHRONEMENT SERVICE BROADCAST.

Not only did residents in
 Stanley hear with perfect clarity
 the broadcast of the Enthronement of
 the Lord Bishop on Thursday evening
 last but listeners-in from various
 parts of the East Falkland heard His
 Lordship's address as clearly as if
 the Bishop had been in the room of
 the house instead of being miles away
 in the Cathedral Church.

The gathering is limited to members not less than fifteen years of age; any members of the Choir under this age (including boys who were in the Choir last year) will, however, be able to be present.

PETTERSEN JOSES.

Conditions were very bad last night for listening-in to the Pettersen-Neusel fight which was broadcast from London but sufficient was heard to learn that Pettersen was beaten in the eleventh round on a technical knock-out.

Up to the eighth round it appeared to have been a splendid fight but towards the end Pettersen was badly battered.

ANGLO-FRENCH AGREEMENT.

London, 3.2.35.

The Anglo-French Conversations ended at 17.45 when an official communique was issued which showed that the main provisions of the agreement reached were: A joint desire to remove tendencies which might result in an armament race; an offer to the Locarno signatories of an Aerial Convention designed to give mutual protection in the event of aerial transgression by any contracting party; the establishment of an agreement regarding armaments generally and replacement in the case of Germany; limitation of armed forces under the Versailles Treaty.

A proposal for an aerial pact has been submitted to Germany for consideration and she is asked to join on terms of absolute equality thus precluding any question of affront.

Developments will now proceed through the diplomatic channels and M. Laval in broadcasting to France, expressed the hope that Germany would respond to the "Pressing call we are making."

Hitler has been given a statement on the agreement by the British Ambassador, Sir Eric Phipps and according to the Daily Telegraph, the Nazi Ministry was continuing its consultation on the plan throughout the night.

In Rome, Sir Eric Drummond, has communicated the text to the Under-Foreign Secretary, Suvich, and there is every reason to believe that Mussolini will accept the proposals as a basis of his conversations with Britain, France, Germany and Belgium.

Paris regards the plan as a great step towards the consolidation of peace.

Regarding PORT WINE.

There is no such thing as EMPIRE Port.

Port Wine can only be made from grapes grown in a certain district of Portugal, and the law, in Great Britain, prohibits any wine being sold, offered, or advertised as Port Wine unless it is shipped from that district of Portugal - our oldest Ally.

The Port Wine sold, offered, and advertised by the "GLOBE STORE" are all genuine Port Wines, imported by us from Portugal, and our customers are warned against being persuaded to acquire wines which do not come from Portugal and are therefore not PORT WINES.

Regarding SHERRY.

Almost identical conditions apply to SHERRY. This wine can only be made from grapes grown in the district of "Jerez de la Frontera" in Spain. The process by which Sherry is made and matured requires that it should be blended by very special and very old stocks.

All Sherries sold, offered or advertised by the "GLOBE STORE" are all Genuine Sherry wines, and imported by us direct from old established manufacturers.

PEPPER MORATORIUM.

London, 4.2.35.

The problem facing the pepper market has been solved by the declaration of a three days' moratorium, covering commitment early this week and permitting further discussions with the banks.

GOLDCLAUSE DECISION POSTPONED.

Washington, 4.2.35.

The Supreme Court has established a precedent by announcing that the gold clause decision would not be given Monday but that it would probably be delayed a week, though some announcement may be made earlier states the Daily Telegraph.

The postponement of the verdict has caused a wave of uncertainty and feverish speculation through an attempt at an interpretation of the Court's intentions.

While many believe that the delay indicates a split in the Court others consider that a decision has been reached but that the text is uncompleted. It is generally feared, however, that the delay indicates that the Government is even in greater danger of losing its case while the Roosevelt money policy is so delicately balanced. A reverse opinion would mean the government debtors paying 160,000 million dollars to satisfy 100,000 million obligation in terms of the former dollar.

Istanbul : President Mustapha Kemal has directed that Friday's National Assembly elections must provide a certain number of minority seats viz Greeks, Jews and Armenians. The independent seats ceded number 16.

GENERAL ELECTION FORESHADOWED.

London, 4.2.35.

Cabinet circles anticipate that there will be a reconstruction of the Government in the Autumn of this year as a prelude to the general election a few months later and the present view is an appeal to the country on a "National Platform" probably in January or February next with a pre-budget election strongly advocated by government political organisers.

Rumours that Lloyd George will be invited to join the Cabinet in view of his new deal, are entirely without foundation.

SOCIALISTS REFUSAL.

London, 4.2.35.

The National Labour Council, representing the Socialists, the Trade Union Council and the Cooperative Union, have refused to meet the Communists and the Independent Labour Party in a joint conference to discuss resistance to the new unemployment relief scales.

At Pontypool 30,000 men, women and children demonstrated against the new scales and the means' test.

AUSTRO-ITALIAN CULTURE.

Rome, 4.2.35.

A Cultural Agreement between Austria and Italy has been signed whereby Italian will be taught in Austrian schools while an Institute of Italian Culture will be established in Vienna and chairs in Austrian and Italian history are to be founded in Vienna and Rome, states Reuter.

U.S.A. & U.S.S.R. COLLAPSE.

Moscow, 4.2.35.

The collapse of the United States and Soviet negotiations apparently prove that Roosevelt was out manoeuvred by the Soviet Commissar at White House in November 1933, in securing Soviet recognition. Roosevelt was left with the impression that the Soviet would make a debt settlement & place big trade orders while Litvinoff believed that Russia would obtain a loan.

CORRESPONDENCE.

THE PETERSEN-NEUSEL FIGHT.

Stanley,
5th February, '35.

The Editor,
"Penguin,"

Dear Sir,

Having had the pleasure of listening-in to the running commentary of the Petersen-Neusel heavyweight boxing contest at Wembley last evening I contribute the following which may interest a few of your readers.

Although conditions of reception were exceedingly bad it was evident that Petersen provided the spectators with a fine display of straight-left boxing against an opponent to whom he conceded some 18 lbs in weight. Neusel appeared to be using his weight to advantage by clinching and holding consistently causing the referee to caution him at frequent intervals. These tactics caused Petersen considerable annoyance and subsequently to lose the fight.

During the earlier rounds the exchanges were evenly distributed at a rapid pace with Petersen outboxing Neusel at intervals and appearing to have a good margin on points to the tenth round, during which, though fighting furiously, both boxers showed intense signs of distress with Neusel the stronger of the two. The tenth round proved too much for Petersen whose keenness in the earlier part of the fight to avoid Neusel's holding tactics and keep the boxing open had taxed him considerably and Neusel quickly took the advantage and had Petersen down to the canvas twice in rapid succession. At this point the fight was stopped when Petersen's seconds tossed the towel to avoid further abuse as Petersen was then in a very groggy state, Neusel being awarded the fight on a technical knock-out.

One would imagine by the uproar and applause from the excited spectators that they had enjoyed a thrilling fight crowded full of anxious moments for both parties.

"TECHNICAL KNOCK-OUT."

Stanley,
5th February, '35.

The Editor,
"Penguin,"

Sir,

Can any of your readers tell me what is a "technical knock-out"?

Our British heavyweights have long ago discovered every known method of losing their contests, but this sounds rather a new one.

THE SAAR FRONTIER.

Saarbrueken,
5.2.35.

The frontier barrier between the Saar and Germany is being removed on the 19th instant while at the same time the French customs' posts are to be withdrawn.

The Saar railways are to be taken over by the Reich Railways on the 1st of March.

RUSSIA SUSPICIOUS OFANGLO-FRENCH AGREEMENT.

London, 5.2.35.

Worldwide interest has been expressed in the Anglo-French Air Locarno and the general agreement between Germany and the other powers to supersede the provisions under the Versailles Treaty is welcomed except in Russia and Czecho-Slovakia, states the Daily Telegraph.

In a semi-official statement from Berlin it is deduced that Germany is prepared to cooperate but the Moscow organs view the proposals with suspicion and allege that France has "sold them the dummy."

Russia considers that she has been cold-shouldered and in consequence the French Foreign Minister, M. Javal, has made a call on the Russian Ambassador while the French and Soviet Ambassadors in London had a conversation to-day.

Rome regards the Pact as the turning point in the European situation while Warsaw considers it the most positive step since the war.

General Smuts, the deputy Premier of South Africa, is ill.

LOCAL BISLEY EFFORT.

Again.

Bad Weather; Bad Scores.

An attempt was made during last week-end to complete the programme originally arranged for the Local Bisley Meeting, 1935.

The competitions remaining to be fired off were the Second and Final Stages of the Governor's Cup, the Consolation Handicap and the Team Shoot. Owing to bad weather it was found possible only to carry out shooting on Saturday and the Second Stage of the Governor's Cup and Consolation Handicap were fired off.

When shooting commenced at 300 yards a fresh breeze blew across the range from right to left and as the day advanced so the wind increased; when the competitors had reached the 600 yards firing point the wind was so strong that steady aim was almost impossible.

The scores obtained by the fifteen marksmen in the Second Stage of the Governor's Cup are given below.

How Mr William G. Halliday Died.

- o -

The circumstances by which Mr William George Halliday, aged 52 years, of Main Point, Hill Cove, West Falkland, died on Sunday, the 3rd instant, illustrate once again the perils which the Islanders have to encounter in their daily lives.

At an Inquiry held at Hill Cove on Monday last, conducted by Mr W.H. Luxton, J.P., a verdict of "Death by Misadventure" was returned, while Dr T.P. Binns of Fox Bay stated that the deceased had appeared to have died from exposure following a long strain.

The sad story reveals that Mr Halliday with his two sons, Guy and John Halliday, and Norman Morrison, rowed over to Christmas Island on Sunday morning to shear sheep and in the early afternoon, having completed their work, set out for the mainland. Although the sky was dull the water was quite calm and there seemed every prospect of their rowing back in the usual time of about half-an-hour. But on the way a terrible blizzard rose suddenly, sweeping sleet, snow and hail over the open boat. So strong was the wind that they could not possibly get back to their starting point on the mainland where they had left their horses and, in consequence, they were compelled to make a fair wind. Conditions became worse & worse and twice they had to "tie up" in the kelp to bale out the boat. After a hard struggle and with everybody in the boat completely wet through and perishingly cold they reached the mainland in an exhausted condition. Feeling that it would be better to make direct for Main Point house and so keep warm by walking, rather than go back for the horses a long way back they set out together. The weather was still bad & the hills were covered with snow.

The journey across the water in the boat had taken three times longer than ordinarily and all were feeling the strain terribly.

The house was also about one and a half hours distant from where they landed and on the way Mr W. Halliday showed signs of collapsing.

Guy went ahead to obtain help while the other two remained behind with the father but as the latter's condition became so bad when within a quarter of an hour's walk of the house, John Halliday and Norman Morrison frantically went ahead to in case Guy had not been able to get help.

Meanwhile Guy had arrived at the house and fell practically exhausted while Mrs Halliday rang up Shallow Bay house at about 6.30 p.m. for Mr Victor Peck. Immediately on hearing that he was wanted at once Mr Peck took horse and found Mr Halliday lying in the camp unable to get home. He assisted the helpless man on to the horse but the deceased was then in a semi-conscious condition and had to be held on, and was probably dying when he arrived at Main Point House.

Dr Binns came as soon as he was called but when he arrived on the scene Mr Halliday had been dead some sixteen hours.

A poignant feature of the tragedy is that the journey to Christmas Island was probably Mr Halliday's farewell visit in the ordinary course of things for he was about to move to Hill Cove Settlement to work.

The news of the shocking affair caused great concern not only on the West Falkland but on the East too for wherever he went Mr Halliday had been a great favourite among his fellows and was highly esteemed by the managers under whom he worked. He was born at Roy Cove, we understand, and had travelled over both Islands, having been at Hill Cove for the past 12 years.

The funeral took place on Thursday & the sympathy of all is extended to his widow & children.

BAD WEATHER CONTINUESIN EUROPE.

London, 8.2.35.

The reports from the continental centres indicate a continuance of the wintry weather, resulting in considerable damage and casualties.

Avalanches in the Walser Valley have resulted in four deaths while many peasants have been isolated for five days. At Standonien seven have been buried by an avalanche.

From Paris it is reported that high seas on the Coast of Brittany have swept away the dykes and the sea has advanced inland.

According to a Berlin message the Rhine, Moselle, Naine and Nette have been swollen by snow water with the highest level for twenty-seven years now reached. Villages are under water and extensive damage has been done to crops.

GOLD STANDARD EXEMPTION.

Washington, 8.2.35.

In addressing the Agricultural Committee yesterday, the Economist banker, Vanderlip, expressed the opinion that all countries would shortly abandon the gold standard and would not re-adopt it. He advocated the adoption of the British system of managed currency.

CANADIAN EXPORTS RISE.

Ottawa, 8.2.35.

For the first time since 1930 the Canadian exports have passed the £200,000,000 mark with the 1934 increase of £46,500,000 rising the figure to £233,200,000.

The exports to Empire countries have increased by £15,500,000 to £65,000,000.

THE BABY MURDER TRIAL.

Flemington, 8.2.35.

The twenty-seventh day of the Lindbergh baby murder trial heralded the closing of the case with the probability of the jury returning their verdict on Tuesday.

AIR EQUALITY SATISFACTION.

Berlin, 8.2.35.

The press, commenting on the London Declaration, envisages full air equality for Germany and expresses satisfaction that French and British opinion is now against German air inferiority.

According to the Daily Telegraph the German Ambassador in Paris has returned from Berlin and it is believed that he has been entrusted with the first tentative steps in reply to the Declaration.

There is no indication that Sir John Simon thinks it useful to visit Berlin at the moment, but he is visiting Paris unofficially. The visit of General Goering to London, suggested two days ago, is now considered unlikely.

Diplomatic circles do not minimise the difficulties yet to be overcome but the spirit obviously animating the British, French and Italian governments is that a genuine atmosphere for the organisation of peace has been created.

IRISH ALIENS.

Dublin, 8.2.35.

An Aliens' Bill, regulating the position of aliens in the Irish Free State has been issued proposing that the Irish Free State should have its own legislation in substitution to the existing British regulations.

The Bill permits exemption of alienship to persons whose country makes similar exemptions in respect of the Irish Free State.

ANTI-TRUST ALLEGATIONS.

Washington, 8.2.35.

The Department of Justice is taking action against sixteen Cleveland steel companies under the Anti-Trust Laws.

It is alleged that there has been an interlocking of the directorates and the Federal Court has been asked to dissolve the relationships.

 flags fluttering on the jetty and
 throughout the town, - harmonising
 perfectly with the spirit of warm
 welcome embuing the large throng
 assembled to honour His Excellency's

 Falkland Islands who was accompanied
 by the Very Reverend the Dean, Mem-

"Mr Craigie-Halkett, My Lord, Members of Councils and Ladies & Gentlemen.

"The aim and purpose of Government is the happiness of the governed and with your assistance I shall endeavour to do my best to contribute towards that end.

"Shortly before I left England I had the honour of an interview with the King and His Majesty was pleased to evince his never failing interest in the people of this Colony which he himself visited more than fifty years ago.

"I am not now prepared to make any promises whatever except of profound goodwill to one and all of you and of good intent.

"I will add one thing only. Although I have served here before I shall approach every question with an open mind, without favour, affection of ill-will, bearing in mind that the health and prosperity of the Colony and every single person depends upon the Sheep Farming Industry in which all assist in various ways. I trust that the industry may flourish and that the people may be in health, prosperity and content during the ensuing years."

On His Excellency the Governor's leaving the Town Hall the gun crew on Victory Green, under the charge of Lieutenant A.I. Fleuret, fired a salute of seventeen shots proclaiming that His Excellency had duly taken the Oaths of Office. Accompanied by Miss Henniker-Heaton and Miss F. Henniker-Heaton, and the Hon. M.C. YESTERDAY'S WEATHER.

Although the morning yesterday gave every promise of a fine day almost immediately after the proceedings in the Town Hall on the Assumption of Office by His Excellency the Governor, the sky became overcast and rain fell with a cold wind blowing.

Every day this month so far rain has fallen.

WINSTON CHURCHILL.

London, 9.2.35.

Mr Winston Churchill has written to his constituency that he hopes to stand as a Conservative and National candidate at the next election, and wants a "sincere and effectual reunion of all those forces which carried us through the Great War and broke the General Strike."

It is pretty clear says the Sunday Times, that he is ready to cooperate with Lloyd George whose new campaign he has warmly welcomed.

Meanwhile Lloyd George intends to continue his campaign in the country in the belief that it will secure him public backing which will open the doors of the Cabinet later on.

GERMANY & LONDON PROPOSALS.

Berlin, 9.2.35.

In unofficial but influential circles in Germany there is a suggestion that Germany would prefer to thrash out the London Proposals with Britain before sitting down to a round table conference with other powers.

U.S.A. GOLD CLAUSE.

Washington, 9.2.35.

It is announced that the decision of the Supreme Court on the Gold Clause is not being given on Monday.

The twenty-seventh day of the Lindbergh baby trial saw the close of the defence proceedings with the evidence relative to the car alleged to have been used by the accused Hauptmann.

IRISH OPTIMISM.

Dublin, 9.2.35.

A spirit of optimism prevails that the King's Jubilee Celebration might bring a settlement to the Anglo-Irish dispute.

The "Irish Times" drawing attention to the Commemoration spoke of it as an occasion when every racial member of the British Commonwealth will do honour to their Visible Head and expresses the hope that His Majesty will announce an Anglo-Irish peace.

The desire prevalent in Britain for an ending to the long struggle will be heartily reciprocated in the Saostat, it is stated.

NEW TREASURE HUNT.

Another attempt is being made to find the treasure supposed to be buried on Cocos Island in the Pacific with an expedition starting from Lowestoft yesterday.

The Minister of Economics in an address here has defended the barter system and announced a new German foreign trade plan whereby as little as possible would be bought while selling as much as possible.

FRENCH CABINET IMPERILED.

Paris, 9.2.35.

A war between the government and the bankers has begun states Peuter and it is freely prophesied that the Cabinet will fall unless Premier Flandin takes drastic measures to curb the banks who are opposed to lowering the money rates but favour a long term loan policy.

The danger of the government appears to be exaggerated but there is an undoubted recrudescence of lobby intrigue.

ODDS AGAINST HAUPTMANN.

Flemington, 10.2.35.

The odds laid in New York are 4 to 1 against the complete acquittal of Hauptmann who has been arraigned as the murderer of Colonel Lindbergh's baby son in 1932 while bets of 3½ to 8 against imposition of the death penalty are being called.

The backing has been influence by the late evidence of a State trooper who has re-affirmed that a part of the ladder used at the time of the murder was made from wood in Hauptmann's attic.

NAZI THREAT IN AUSTRIA AGAIN.

Vienna, 9.2.35.

A state of nervousness prevails reports the Daily Telegraph correspondent owing to renewed Nazi activity and the threat of a Socialist demonstration on the 12th instant which is the anniversary of the Fascist triumph over the Social Democrats.

POTENTIAL PACIFIC DANGER.

General Smuts' Startling Speech.

Capetown, 10.2.35.

General Smuts, in an important speech, declared on Saturday that there were two features in the world situation which appeared to him as potential dangers.

One was the decay of political liberty in Europe.

The other was the situation which appeared to be developing in the Far East.

Sleeping Asia, he continued, was awakening. With the policy on which Japan was now embarked there was a serious risk that the Pacific would become the potential danger spot of the world on a colossal scale. Japan, Russia, China, the United States, Britain, Canada, Australia, New Zealand and India might all be involved.

Japan's situation called for a large measure of patience and goodwill.

The Dominions desired the closest association between the United States and Britain in world affairs for their own security in the future.

If Japan knew that, treaty or no treaty, there was in fact a policy of practical cooperation between the British and American groups, the knowledge would in all probability ensure the peace of the Pacific.

In the face of recent developments thinking America cannot but realise that the very basis of the old isolationist policies are being undermined.

POTENTIAL PACIFIC DANGER.

(Continued from page 2.)

Regarding the League of Nations, General Smuts said that "Locarno" was part and parcel of the League's system. A complex system of regional Locarnos with a declared policy of general disarmament would be the most feasible way of dealing with the present baffling peace problem.

The proposed Air Pact would fail unless accompanied by a reduction of armaments among the heavily armed powers.

SOUTH AFRICA & ANOTHER WAR.

Capetown, 9.2.35.

Premier Hertzog informed the House of Assembly to-day that the question whether South Africa would permit herself to be involved in another war embracing Britain would be decided by the people of the Union, speaking through the government and parliament. He added that there was not any special agreement between the British Government and the Union for the defence of Simonstown.

A PEPPERY SITUATION.

London, 9.2.35.

After another day's continuous conference the Pepper "arket has been saved from disaster, the Pepper Committee issuing a statement announced that: "The shippers and brokers meeting has confirmed that with the exception of two firms, Mincing Lane has made satisfactory arrangements for carrying out contracts."

The Moratorium is now ended.

The losses of the two firms mentioned are believed to total £1,000,000 but in view of the action taken the repercussions are expected to be less severe than anticipated at first, states the Daily Telegraph.

A later message reports that the second firm posted on the Mincing Lane Market is that of J.F. Adair, stated to be acting solely as brokers and agents in reliance upon purchasers meeting their commitments.

Although the pepper market has reopened there is little actual trading. Difficulties have been caused in the market, states the Sunday Times, by the large scale operations of a pool which has accumulated about 21,000 tons - some three years' supply.

UNEMPLOYMENT RETURNS.

The monthly unemployment returns have been issued for the number of unemployed on the 28th of January and show a total of 2,325,000, or 664,000 less than at the end of January last year. The figure shows an increase over that for the middle of December last but some increase in the number of unemployed is usual at this time of the year, the greatest increase being in the distributive trades and building.

There has been a large decrease in the number of unemployed engaged in mining and general engineering.

ITALY & ABYSSINIA.

The dispute between Italy and Abyssinia has taken a bad turn for serious fighting is reported during the past fortnight from the north of Italian Somaliland. Yesterday the Italian Government ordered two army divisions to be mobilised as a precautionary measure.

The situation is showing an unpleasant aspect with everything short of an ultimatum.

Considerable anxiety is felt in Geneva and most of the European capitals.

ITALY & ABYSSINIA.

Rome, 12.2.35.

According to the Daily Telegraph correspondent the relations between Italy and Abyssinia have reached a dramatic point. Though every endeavour has been made to maintain secrecy, the publication of alarmist news abroad has resulted in the informal declaration by Italy that the mobilisation of two divisions does not mean that the troops have sailed. They are remaining in their own barracks and the Italian government is hoping that there will be no need to despatch them to Abyssinia.

Many ex-officers and men with experience of the world war are offering their services it is reported but these volunteers have received no official recognition.

CANADA'S ECONOMIC REFORM.

Ottawa, 12.2.35.

The Canadian government's economic reform programme is advancing towards embodiment in legislation but questions are being freely asked whether the Dominion Parliament is competent to enact laws establishing an 8-hour day and similar socialist legislation.

The opposition contends that such jurisdiction belongs to the provinces and not to the Dominion, but the government contends that the Dominion has the right to ratify treaties.

Resolutions are being introduced this week relative to the statutory hours and a weekly day of rest, states Reuter.

GENERAL SMUTS' SPEECH.

Paris, 1.3.2.35.

The press points out that General Smuts' speech on Anglo-American cooperation against an Asiatic bloc omits to mention the implication that the maintenance of Pacific peace is co-related to European peace and this is a problem which Britain for her own security cannot ignore.

The U.S.A. Government has failed to give a decision on the Gold Clause for the third time.

AGRICULTURAL RETURNS.

Rome, 12.2.35.

The International Institute of Agriculture issues figures showing that between August the 1st and December 31st last Great Britain & Northern Ireland have increased their wheat exports by approximately 10,000 metric tons while the imports have decreased by a quarter of a million compared with 1933. Flour figures show similar changes.

While France makes almost an equivalent return the exports have dropped from 387,100 metric tons to 5,200 and imports from 331,600 to 202,900.

The Canadian and Australian figures cancel out each other while the United States wheat figures have shown an increasing adverse balance.

ITALY & ABYSSINIA.

Rome, 13.2.35.

Mussolini presided over a Supreme Commission of National Defense meeting yesterday when the delicate position vis-a-vis Abyssinia was discussed.

Strict secrecy surrounds the deliberations states the Daily Telegraph correspondent who adds that it is officially declared that no fresh developments have occurred in the situation.

Nevertheless Messina has the appearance of an armed camp and it is estimated that 300,000 men under arms are stationed there with troop trains proceeding southwards.

Italy has lodged a protest and formulated demands relative to the January 9th fighting but the terms are not disclosed. Relative to the December 5th affair Italy demands an indemnity, an apology, homage to the Italian flag and the punishment of the native chiefs concerned.

According to the Daily Telegraph correspondent the Ethiopian government is still without official intimation relative to the Italian ultimatum or mobilisation and continues to deny the Rome charges.

CONGRESS TALKS DEPLORED.

New Delhi, 13.2.35

A Reuter message states that the three days' debate on the Select Committee's Report commenced in the State Council yesterday when Sir Phiroz Sethna deplored the Congress talks of repudiation but objected that the Report contained too many safeguards.

The Maharaja Darbhanga supported the scheme despite the safeguards but wanted the retention of the landholders fundamental rights against disturbing the permanent settlement.

The Chamber of Commerce spokesman, Miller, appealed to the Indians to accept the scheme which was wonderfully constructive in its work, adding that safeguards would be forgotten by both sides with the

increasing identity between Indians and Europeans in industry and commerce.

THE CHINESE EASTERN RAILWAY.

Agreement Possibilities.

Tokio, 13.2.35.

Among the possibilities being discussed in connection with the forthcoming signature of the Chinese Eastern Railway sale agreement, are the disarming of the Soviet forts east of Lake Kaikla near the Siberian and Manchukuoan border, the reduction of Japanese troops in Manchuria, and the establishment of a neutral zone on the Russo-Manchukuoan border.

The press suggests that if the Soviet is prepared to accept these proposals far eastern peace will be assured.

REVOLUTION IN COMPETITION FIRING.

N.R.A. Council Decision.

Another Rifle For S.R. Aperture Competitions.

Local marksmen will be interested to read the following article which appears in the N.R.A. Journal for January, 1935, revolutionising Service Rifle Aperture Sight Competitions at Bisley.

- o -

Rifle Pattern '14 is permitted to be used in all S.R. (b) or aperture sight competitions for the year 1935.

Note particularly that the rule as it appears in the Programme Book will be permissive. Any competitor who wishes to do so may use the Patt. '14. Doubtless there will be some who are content to go on with the "regulated" S.M.L.E. Others will leap at the chance of experimenting with a weapon which is known to be remarkably accurate and stable.

Official permission to use a Service rifle which is not issued for general use by the Services, in competition under N.R.A. Rules, has not been given without a thorough examination of every reason for & against the alternative.

Purists whose sole objection is that the Patt. '14 is not our Service rifle should consider that the present regulated S.M.L.E. with peep-sight, broad foresight, and sling attached to the magazine swivel is only a Service rifle by courtesy. The Patt '14 was in the experimental stage when the war broke out & was issued to Home Defence troops; because of its great accuracy it was used in France & on other fronts as a sniper's rifle. Probably, in another emergency, it will again be issued to Home Defence troops.

There has been a very great deal of grumbling at the vagaries of the S.M.L.E. as a target weapon. We have been told, with truth, that many men have given up full-bore shooting in disgust after some years struggling with it. We have been told, also with truth, that small bore enthusiasts cannot be persuaded to take up full-bore shooting, because when they use the S.M.L.E. the bullet does not always go where they know they hold it.

The Council, realising that

competitive shooting under Bisley conditions depends on contented riflemen, has done its best to meet the conditions which have arisen since the S.M.L.E. became the Service rifle. It has permitted packing and regulating; it has allowed the broad foresight; it has enlarged the bull's-eye; it has permitted the use of all sorts of small metal gadgets in restocking.

These things have been palliatives, not cures. The S.M.L.E., admitted by all to be an excellent Service weapon, has achieved a bad reputation as an accurate target weapon, for accuracy and stability are the principal factors in which the N.R.A. competitor is interested. No doubt many men think the S.M.L.E. a good deal worse than it really is, since when you distrust your rifle you tend to blame every bad shot or bad shoot on the rifle and forget human fallibility. For all that we have been doctoring the S.M.L.E. for thirteen years and nothing will make it a good target rifle.

The attention of the Council was drawn to the Patt. '14, many thousands of which are in existence. It is a cheap rifle, since a complete equipment can be bought for less than half the cost of a complete equipment for the S.M.L.E. in S.R. (b) conditions. It is an accurate rifle. It is a stable rifle. It will require no more attention in the way of stocking-up than the old Long rifle - probably it will be found to require less. It can be taken straight from the rack, fitted with a peep-sight and magazine swivel, and will then perform as well as the very best "regulated" S.M.L.E. - and will go on doing so. The Council has permitted its use.

Objections Refuted.

Objections may be made on the ground that there are many thousands of S.M.L.E. rifles in private ownership and that if the Patt. '14 is so good, S.R. (b) competitors will be forced to use it or go out of the game. This need not be the case. The answer is that the Patt. '14 is as accurate as a successfully regulated S.M.L.E., and will cost less than a new S.M.L.E. barrel, that existing sights can be fitted to it

at a very small cost or be exchanged for a new pattern, and that if a competitor does not wish to buy a new rifle at once he can hire one from the N.R.A.. Finally one Patt. '14 will be enough for any one man. He will not have to keep an expensive "stable" nor will he have to spend a minimum of 25s. a year a rifle for restocking. The Patt '14 will make shooting cheaper, both to the newcomer and to the man who already has two, three or four rifles of his own.

Another objection may be that permission to use a privately owned rifle of known accuracy and stability will operate to the disadvantage of competitors from the Armed Forces of the Crown. So far as S.R. (a) competitors are concerned, it will be seen that the 1935 programme offers them every inducement to compete with the weapon with which they are armed.

The Serving Competitor.

Let us examine the procedure of the serving officer or man who wishes to compete under S.R. (b) conditions. He knows that something less than 3 per cent of the rifles on issue to his unit can be trusted to shoot to Bisley standards of accuracy at short ranges. He therefore acquires a rifle of his own, which he has restocked & packed by an armorer at the cost of 25s. He buys a back-sight which may cost him anything up to £2.2s., and that is really the only satisfactory part of his equipment. His restocked rifle may give him good shooting for a day, a few weeks or a few months; but he is practically certain to have to spend at least 25s. a year on it. All the time he is using it he has the certainty, at the back of his mind, that sooner or later it will let him down. He knows that the heat and stress of the Bisley Meeting will almost certainly lead to rifle trouble.

For each and every competitor who chooses to take advantage of the permission to use the Patt. '14 rifle, shooting will be cheaper & very much more fun than it has been at any time since 1919.

Finally, you can teach a man to shoot with any sort of rifle, but the more accurate it is the more quickly the pupil learns & the more keen does he become.

LOCAL BISLEY.

The Local Bisley programme

 as on previous occasions had been
 postponed on account of the bad
 weather, will be carried out this
 week-end if conditions permit.

The Final Stage of the Gover-

 morrow while the Team Shoot will be
 held on Sunday. Failing good
 enough weather on Saturday both
 competitions will be fired off on
 Sunday.

Yesterday, for the first time this
 month Stanley experienced a com-

 noon and during the earlier part
 of the evening, however, a fairly
 strong breeze blew.

By the last mail books to the

 volumes for adults and children,
 making a total of over 140.

Miss M. Biggs, the Librarian,
 has been busy indexing them and
 already the adults books are on
 issue while the Children's will
 be ready, we understand, this even-
 ing.

The Children's section contains
 a good variety of interesting ad-
 venture stories with the "Big Book"
 series besides the "Golden" volumes
 adding to the imposing collection.

Among the volumes for the
 adults mystery tales predominate
 closely followed by yarns of the
 West.

BABY MURDER VERDICT.

Hauptmann for the Chair.

Late last night it was announced that Hauptmann who had been on trial for the past 30 days as the murderer of the infant son of Colonel & Mrs Lindbergh in 1932 - a crime which shocked the world - was sentenced to die on the 18th of March.

An earlier message from Flemington, New Jersey, states that the trial dramatically closed with the crowds outside the courthouse demanding lynch law.

The judge's summing up is considered to be adverse to the accused.

Unconfirmed rumours after five hours deliberation by the jury put the voting at 10 to 2 favouring a first degree murder verdict, without mercy being recommended. After six hours there was still no official statement.

THE FAULKLAND ISLANDS COMPANY LIMITED.

STORES DEPARTMENT.

ITALY & ABYSSINIA.

Rome, 14.2.35.

According to the Daily Telegraph correspondent the Italian Foreign Minister, Suvich, received the Abyssinian Minister yesterday when the position between the two countries was discussed but no official statement was issued.

The official Ethiopian communique has been sent to London and not to Rome. This has been interpreted in official quarters as proof that the Ethiopian Emperor has not made a single move towards the Italian point of view.

The Spokesman of the Italian Government says that while the Emperor's goodwill is not doubted it is clear that he has no control over the armed bands which are attacking the Italian outposts.

The Italians believe that if the Addis Ababa dispute is to be settled Mussolini must demand sufficient indemnity to cover mobilisation expenses.

The troops have not yet sailed for East Africa but even short leave to the mobilised men has not been granted.

JAPAN'S BUDGET PASSED.

Tokio, 14.2.35.

Reuter's correspondent reports that Japan's 1935/36 budget has been passed by the Lower House after the Premier's promise that an extra session of the Diet will be convoked.

The suggested appropriation for the fighting services when the budget was discussed in November, was 939,000,000 yen but this is now increased by 100,000,000 while approximately 148,000,000 has been allocated for Manchuria expenses.

The budget totals 2,190,644,938 yen of which the services take 1,021,470,000.

WILL GERMANY RE-ENTERTHE LEAGUE OF NATIONS?

A late message gave occasion to hope that Germany will be prevailed upon to re-enter the League of Nations.

An earlier message from London states that Germany's comments on the Anglo-French declaration will be probably handed to the British and French Ambassadors in Berlin to-day.

The Daily Telegraph correspondent states that apparently inspired comment from Berlin suggests that the Government has not appreciated the vital principle of the declaration that Germany should agree on the settlement, security and disarmament problems simultaneously with her re-entry to the League, but will maintain an attitude that the preliminary to all discussion is the question of her rearmament.

Messrs Buxton, Ronald, Du Crox & Company, in communicating the Falkland Islands wool quotations at the series of sales prior to the 31st December last, state that the offerings at that time of the year are very small and mostly in poor condition so that the prices given below are largely approximate.

REVIVAL.

The Disarmament Conference was revived with to-day's sitting when the Committee on Arms' Traffic met under the chairmanship of the Danish representative, M. Scavenius.

Roosevelt's spokesman Wilson said that America had expressed the opinion last November that there was no possibility of definite disarmament decisions being reached, since when, the European situation had altered considerably and he now suggested that the American draft convention on arms' control might be accepted as a basis of discussion.

This has been accepted states the Daily Telegraph correspondent, but the British representative, the Under-Foreign Secretary of State, Earl Stanhope, criticised the plan and stated that Britain wanted something simpler. The elaborate system of permanent and automatic supervision of arms' manufacture was unsuitable he added while the export

license principle was open to abuses.

Britain would submit other proposals including the licensing of all aircraft civil or military.

It is reported that American circles are greatly upset by the Earl Stanhope's speech.

INDIAN REFORMS SCHEME PROGRESS.

New Delhi, 15.2.35.

The State Council has decisively repudiated all the opposition efforts to secure a virtual rejection of the Indian Reforms Scheme, states the Daily Telegraph correspondent, and at the end of a three days' debate the House approved of the motion by 32 to 14 votes, declaring that though the Parliamentary Report fell far short of the aspirations of the political parties it was a great advance on the present constitution and would be given a fair working trial by India.

GERMAN REPLY TO

ANGLO-FRENCH

DECLARATION.

Berlin, 15.2.35.

A verbal statement of the German reply to the Anglo-French Declaration is to be published on Saturday, it is understood.

The reply consists of two typewritten pages and according to the French view are "favourable to the initiation of negotiations".

Contrary to general expectations it is believed that the German reply does not raise queries which might tend to delay the opening of the negotiations.

APPEAL FOR HAUPTMANN.

Flemington, 15.2.35.

The condemned Hauptmann's attorney has lodged a notice of appeal which will be heard on the 14th of May, but the dramatic outcome of the verdict is the announcement by State Officials that four of the defence witnesses, connected with the establishment of the prisoner's alibi are to be charged with perjury.

CORRECTION.

The final sentence of the Governor's short address in the Town Hall on arrival was incorrectly reported in our issue of the 11th of February. It should read as follows :-

"I will add that although I have had service in this Colony before, I shall approach every question which comes before me with an entirely open mind subject only to the conviction that the prosperity of the Colony and of every single person in it depends upon the sheep industry towards the success of which all can assist in their various ways. I trust that with the blessing of Providence that industry may flourish and bring prosperity, content and health to the people during the ensuing years."

ITALY FOREBEARS.

Rome, 15.2.35.

Italy is refraining from an immediate reply to the Ethiopian Note but it is reported that the Abyssinians have occupied another post at Scillare.

Paris considers that the dispute is evolving towards a friendly settlement while an Addis Ababa message suggests that there will be a settlement by the establishment of a neutral zone between Walwal & Gerlogubi where the recent clashes occurred, as a result of the conferences with the Italian Count Vinci.

RIFLE PATTERN '14.

About The New S.R. (b) Weapon.

On Thursday last publicity was given in the "Penguin" to the permitted use of the Rifle Pattern '14 in Bisley Competitions, countenanced by the National Rifle Association.

To-day, with due acknowledgement, we take the opportunity of publishing details concerning this Rifle as printed in the January number of the N.R.A. Journal and contributed by Capt. Ernest H. Robinson, G.M..

- o -

The following quotation from the "Textbook of Small Arms" (1929) gives in the briefest possible words the history of the rifle which is now allowed for use in S.R. (b or Aperture) competitions :

"A new pattern of rifle was under trial in 1913-14, having a front-locking bolt action of a modified Mauser pattern, and a calibre of .276 inch. The cartridge was semi-rimless & bottle-shaped, the bullet, of 165 grains weight, received from the charge a velocity of 2,800 f.s. The barrel was much thicker & stronger than that of the S.M.L.E., and its length was 26 inches; it had a light nosecap & a naked projecting muzzle to which the bayonet was attached. In place of the ordinary backsight, a light aperture sight was fitted; this was placed on the bridge over the action, being housed between projecting flanges. This rifle met the demand for a weapon ballistically more efficient than the S.M.L.E., but the flash and the violence of the blast issuing from the muzzle were unduly great. Between the mouth of the chamber and the front end of the double-column magazine, front-locking actions necessarily interpose a space in which the locking recesses lie, and across which the cartridge has to be thrust before it begins to enter the chamber; this adds to the length of the movement made by the hand in opening & closing the breech. The

rifle, however, did well in its trials for rapidity & accuracy of fire. But it was found that, with the large charge and high pressure used, the heating of the barrel was very great, and that if a cartridge loaded with cordite charge remained for more than a short time in the chamber, dangerous pressures were produced. The best way to deal with this difficulty was under consideration in the summer of 1914.

Members of the Rifle Association in the Falklands desiring to make application for the purchase of one of these rifles are requested to communicate with the Adjutant of the Defence Force, Captain W.M. Allan, at an early date.

During the war a large number of rifles were made to this pattern, but with the modifications to the magazine, chamber & barrel necessary to enable them to take the .303 Mark VII

cartridge. These were known as 1914 pattern rifles. They proved to be admirable for sniping, being extremely accurate, but except for this purpose were not issued to troops fighting abroad. With many of these rifles, there was some difficulty in adjusting the magazines to feed the Mark VII cartridge correctly into the chamber, owing to its rim, which tended to upset its alignment during its forward travel."

It is now no secret that several people who know a good rifle when they see it had for some time been considering the possibility of using the pattern '14 at Bisley. The matter came to a head when, immediately following the last Meeting, there appeared in "Game & Gun" an article advocating the use of this rifle at Bisley. This article was immediately followed by others in "The Times" and in the Journal. The use of the pattern '14 rifle appealed to most people as being so good that the only wonder was that the idea had not been publically discussed many years before.

The only objection advanced was that this rifle, having "negative compensation," was not likely to shoot as well at long ranges as the S.M.L.E. On tests this objection proved to be without foundation, as was expected by those who realised that compensation is not important with the excellent ammunition which we now use.

(continued from previous page)

Some official tests were made for the Council early in October. Ten rifles were taken haphazard from the rack, fitted with the old fashioned type peep-backsight by means of a not too satisfactory plate, and shot at at 200, 500, 600, 900 and 1,000 yards. The day was an ideal one, but the major fact which arose was that all ten rifles, without any touching up or adjustment, shot as well as the best restocked and packed S.M.L.E. One of the men who was testing made the full score of 150 points in the King's second stage conditions. This is believed to be the first time such a score has been made in this country.

There is no doubt at all that the secret of the accuracy of rifle is in the very fine and strong action and in the weight of the barrel. There are, of course, many differences between the pattern '14 and the S.M.L.E. These will be found in tabular form at the end of this article. It is expected that some men will find that it takes them a week or two to get used to the different feel of the weapon. The balance is rather different and the weight is greater. In adapting the pattern '14 rifle for Bisley use, the peep backsight fitted will normally be removed and a Bisley pattern peep-backsight fitted. Manufacturers are ready with several quite useful methods of attaching the Bisley backsight.

The only warning to users of this rifle which need be given at present concerns cleaning operations. When the boiling-water method is used, care should be taken that no moisture is allowed to remain in the hood in which the lugs engage. This is a rather difficult portion of the mechanism to keep clean, but doubtless a piece of 4 by 2 pressed in on the end of the finger will do the job efficiently until some ingenious person invents a tool for the purpose.

FINAL OF LOCAL BISLEYSTILL UNDECIDED.

Marksmen were again disappointed this week-end by the adverse weather conditions and the Final Stage of the Governor's Cup with the Team Shoot had again to be postponed.

On Saturday though the sky was clear the high wind made shooting impracticable while yesterday a heavy mist overhung the range and a drizzling rain fell.

The flags indicating that the shoot was "on" were flown and in anticipation of concluding the Meeting, marksmen gathered at the pavilion but at times the targets were hardly visible and it was not until about 4.0 p.m. when any attempt was made at shooting. Then, it was decided to hold a Club Shoot, the competitions having to be again reluctantly postponed.

GERMAN REPLY TOANGLO-FRENCH PROPOSALS.

London, 16.2.35.

According to the Sunday Times the position relative to the German reply to the Anglo-French proposals is summarised as follows :

Britain will insist that the Air Fact must be a part of a wider settlement and will agree with France before taking further steps;

France is genuinely desirous of a settlement and will not oppose direct Anglo-German negotiations;

Germany emphasises her willingness to contribute to any policy which will prevent the arms' race and holds that any proposals other than an Air Convention are subsidiary and capable of adjustment;

Russia interprets the German reply as meaning that she wants a free hand for eastern expansion and holds that the Eastern Pact is essential if a world war is to be avoided.

The Sunday Times suggests that the German Foreign Minister, Von Neurath, is likely to be invited to London to open direct Anglo-German talks but nothing will be done without the full collaboration of France.

ITALIAN TROOPS SAIL.

Rome, 15.2.35.

The Daily Telegraph correspondent states on the direct authority of the Emperor of Abyssinia that he reiterates his desire to settle the dispute with Italy amicably but the Italian attitude has rendered his endeavours for a direct settlement impracticable.

Abyssinia has sent an official protest to Rome against the mobilisation of troops, describing the action as unjustified and embarrassing to present negotiations.

A later Reuter message from Rome states that three battalions of the Fascist Militia are sailing immediately for Italian East Africa, being reviewed on Sunday prior to embarkation by Mussolini and the Prince of Piedmont.

Troop trains continue to arrive at Messina and it is estimated that 100,000 men are in camp under orders.

GALE OVER BRITISH ISLES.

A sixty-mile an hour gale has swept over the British Isles inflicting considerable damage besides imperilling coastal shipping and resulting in the suspension of the London, Brussels and Cologne air service.

The sailings from Tilbury have been cancelled and heavy rain interrupted the sports fixtures with many of the premier football games abandoned.

On the north-east coast telegraph wires are down and the rivers are over the banks.

A Bombay message states that the legislature has rejected by 38 to 21 votes that the house should discuss the Indian Reform Bill.

AIR FORCE DISASTER.

9 Killed.

Flying-boat Crashes.

A Royal Air Force flying-boat crashed into the side of a mountain near a small village above Messina, Italy, on Friday night resulting in the death of the nine occupants - officers and men of the service.

The tragedy occurred in a thick fog and the machine, K. 3595, was one of four flying-boats that left England on the 15th of January last to fly in easy stages to the Singapore base to join the station there.

Just before the disaster occurred two of the flying-boats which were proceeding in company to Malta, arranged by wireless to separate as the fog made it difficult for them to maintain visual contact. The ill-fated craft then encountered a very thick bank of fog, crashed into the mountain side and burst into flames. Its sister boat alighted safely at Malta.

H.M.S. Durban left Malta on Saturday for Messina to convey the bodies of the nine men who lost their lives.

Both fliers were exhausted after a four hours' peril over the ocean.

GENERAL ELECTION AT HOME.

Not Yet.

Referring to the many rumours concerning an imminent General Election in Britain, Mr Neville Chamberlain, the Chancellor of the Exchequer, gave an emphatic denial at Birmingham on Saturday. He added that the date had not yet even been considered.

As to the rumoured reconstruction of the Cabinet, he said that the business of the Government at the present moment was to get on with their job. They had still a great task before them and were not going to think either of elections or of the reconstruction of the Cabinet until the back of that work had been broken.

ANTHRAX MYSTERY SOLVED.

Traced to Imported Goat Hair.

The Home Secretary, Sir John Gilmour, stated in the House of Commons on Saturday that experts had solved the anthrax problem which had been giving medical and other authorities some concern.

It has now been found that the dread disease came from goat hair imported into Britain and used in many industries.

For a considerable time experts had been engaged at an experimental station working on the problem and the solution found would necessitate the Home Secretary asking the industry to send all imported goat hair to a centre to be disinfected in order that the risk to workers handling it might be obviated.

Jones. "Isn't Brown folish?"

Smith. "What has he done now?"

Jones. "Offered Colonel MacTavish a tot of whisky
'made in Japan'."

Smith. "Bad form, by Jove, very bad form. Still he is
always doing that sort of thing. He tried some
imitation port on me last week, only I had to
keep my temper, which Mac need not have done."

Jones. "No. Mac did not. Poor Brown."

Note. Brown is a purely imaginary person who wanted to do the
'right' thing - with a cheap product.

Christ
Church.

ANNIVERSARY OF THE CONSECRATION
OF CHRIST CHURCH CATHEDRAL.

43 Years Ago To-day.

On the 21st of February, 1892, - a Sunday - the Consecration of the Cathedral Church took place in Stanley. The Church has been built on the site of the former edifice, Holy Trinity Church, which was destroyed as the result of a disastrous peat slip in 1886.

The new church, named after the great mother Church of Canterbury from which came the oak Cathedral Chair now reposing in the Sanctuary, was designed by Sir Arthur Blomfield. The foundation stone had been laid by Governor Kerr on the 6th of March, 1890 while the first contribution towards the cost - estimated at £6,000 but which reached nearly £9,000 - was three sovereigns from a merchant captain whose ship foundered off Cape Horn after leaving Stanley.

In the Falkland Islands Magazine for March 1892 a contributor "X", in describing the Consecration, wrote :

"It is with much satisfaction that we are able to record in our Magazine the Consecration of Christ Church, and the opening for public worship, on Sunday, 21st February. The event has been long looked forward to as one of importance in the Colony, and we are glad to state that it excited deep and general interest.

"A succession of days of beautiful weather had preceded the day of opening the Church; but the early hours of February 21 were wet and stormy, causing some misgivings to the wakeful as to what the ripper hours would prove to be. The sun, however, triumphed, and bright skies looked down propitiously upon the solemn ceremonial.

"The Consecration took place at 11.0 o'clock in the forenoon, in the presence of a congregation exceeding three hundred.

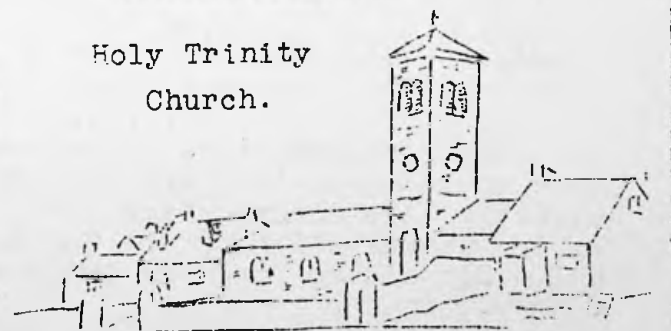

"The service began with the Bishop, Dr Waite Hockin Sterling, entering the Church by the West Door. His Lordship was preceded by the Rev. L.E. Brandon and the Rev. W.B.K. Francis (Chaplain of H.M.S. 'Cleopatra') who were themselves preceded by the Wardens & Sidesmen - Messrs

F.I. King, J. Kirwan, P.I. Hardy and C. Aldridge. Following the Bishop was the Honourable R.H. Routledge, in full judicial attire, who acted as His Lordship's Chancellor and who was the composer of a hymn sung during the service specially for the occasion.

"His Excellency the Governor & Lady Goldsworthy were present supported by the Members of Councils Captain Iang, R.N., Senior Officer on the S.E. America Station, Captain Horsley, R.N., Officers and Men of H.M.S. 'Cleopatra' manifest their interest also by assisting on the occasion.

"Thus, although Christ Church has been built by the many generous contributions of friends, and many of whom have never seen the Falklands, it is now made over for the benefit of the Colonists, to whom is entrusted its management.

THE UNITED STATESRETAINS THE PAPER DOLLAR.

Washington, 19.2.35

As a result of the U.S.A. Supreme Court's decision on the Gold Clause, companies which have issued bonds under this measure can pay in paper dollars but on Federal Bonds the government must pay 1.69 dollars for every dollar of interest and capital.

Commenting on the decision, the Daily Telegraph correspondent says that, by judgment bewildering to the plain man, the United States loses its case but keeps the paper dollar.

The Supreme Court has decided that no citizen has been wronged by this administrative action since none can suffer because the dollar has depreciated when all other dollars are suffering similarly.

Roosevelt's action is thus pronounced legally wrong but actually it is unassailable and though his judgment is involved its issue is straightforward in that the administration's policy is upheld. Roosevelt and his advisers decided after the decisions that no legislation or action was required.

Wall Street greeted the announcement with relief & frenzied buying led to a substantial rise while the grain market trading was temporarily suspended owing to overwhelming activity.

- o -

A later message from Washington announces that legislation, to safeguard the government's position arising from the Gold Clause decision, is likely to be introduced in view of the contingency of further action against the administration.

During the year ended the 31st March last the Indian imports from the United Kingdom showed a steady increase states the Trade Commissioner, the greatest increase being in cotton piece goods, artificial silk, rice and kerosene.

Half of the total imports were from the British Empire.

LEAGUE OF NATIONS FINANCES.

Geneva, 19.2.35.

The monthly statement of the League of Nations finances shows an improvement with 10.45 per cent of the total sum due received in the first month of the budgetary year as compared with 6.26 per cent in 1934.

The total credits voted amount to 30,639,664 gold francs.

AUSTRALIAN MEAT ACCEPTANCE.

London, 19.2.35.

According to Reuter the Australian government has decided to accept in principle the new British meat regulation proposals until the Argentine Agreement expires in 1936.

The regulations include : No restriction on Dominion exports; continued restriction of foreign meat under the Ottawa Agreement; preferential duty of a penny in the pound on foreign and a half-penny in the pound on Empire meat to provide British producers with a subsidy.

The Prime Minister for New Zealand, Mr Forbes, has denied the statement that New Zealand would accept the levy on beef but not on mutton imports to Britain, adding that the consideration of the question was undeveloped beyond generalities and a London Round Table Conference might be necessary before finality was reached.

MYSTERY WRECK.

We understand that during the recent trip of the Penelope in the vicinity of the Jason Cays the wreck of a fair sized barque was discovered perched on a rock some thirty feet out of the water. The wreck which is green with age has not, however, as far as is known been seen there before, nor was it known that a ship of that size had been lost off the Cays for years.

It is believed that the vessel has been there since 1927 or thereabouts for about that time a large quantity of timber was reported to have been washed ashore along the coast in that neighbourhood while a barque with a cargo of timber was reported as being missing while attempting to round Cape Horn.

It was not possible for a landing to be effected by the Penelope for further investigation but there was no doubt that the wreck had been there for a long time and the seas that had hurled it to its doom would have been so tremendous that no life could have possibly survived the catastrophe.

AIR LINER TRAGEDY.Sequel To Air Force Crash
At Messina.

London, 22.2.35.

The Misses Elizabeth and Jane Dubois, aged respectively 23 and 20 years and the daughters of the United States Consul General at Naples, fell 3,000 feet to death from a Paris bound airliner when over Upminster this morning.

It is understood that the tragedy is connected with the R.A.F. flying-boat crash at Messina on Friday last, as the Misses Dubois were very friendly with Flight Officer Forbes and Flight-Lieutenant Beatty who lost their lives in that disaster.

The pilot did not discover the absence of the passengers until an hour later as the ladies had requested the closing of the communicating doors to the cockpit and the shutting of the observation windows.

The sideport was discovered open and on the seats were their handbags containing letters addressed to their parents.

The bodies were recovered on waste land adjoining a building estate but many people witnessed the tragedy in being and rushed to give aid but both were dead, the impact having made a hole a foot deep.

The evidence suggests that the women fell clasped in each other's arms.

London, 22.2.35.

British concern over the Italo-Abyssinian situation is growing and following a second Cabinet discussion this week Sir Eric Drummond, the British Ambassador in Rome, may be instructed to draw Mussolini's attention to the grave implications involved.

The Daily Telegraph Addis Ababa correspondent states that the negotiations for a neutral zone are held up and the Emperor of Ethiopia, having made no war preparations, threatens to throw the whole onus on the League of Nations.

The Italian government is far from confident as to the outcome, states a message from Rome, and mobilisation having unaffected Abyssinian opinion, two more transports sail Friday.

SOVIET MISGIVINGS.

Moscow, 22.2.35.

The Soviet press, in commenting on the Anglo-French Note, stress their opinion that the situation in Europe is very tense and that time is pressing. They demand not endless diplomatic talk but decisive action, adding that the Soviet misgivings could only be removed by a decisive struggle on the part of both of the signatories to the London Agreement for its full realisation.

London circles state that the Dominions are maintaining close touch on the matter but no desire has been expressed that they should be closely associated with European concerns.

THE HABSBURGS VERSUS THELITTLE ENTENTE.

Paris, 23.2.35.

The Austrian Chancellor, Schuschnigg, met Flandin and Laval in conference to-day and it is believed that the talks tended to induce the great powers not to support the Little Entente's attitude for prevention by force, if necessary, of the restoration of the Habsburg monarchy in Austria and Hungary.

London, 24.2.35.

Dr Schuschnigg, and Baron Von Berger-Waldenegg, the Foreign Minister, arrived in London to-day for informal conversations with the British Ministers following similar talks in Paris.

In the course of their visit, which will last two days, they will meet the Premier (Mr Ramsay MacDonald), Sir John Simon, Mr Baldwin, Mr Chamberlain and Mr Norman (the Governor of the Bank of England.)

It is understood that the Austrian Ministers wish to discuss:

1 Britain's attitude to a possible restoration of the Habs-

burg monarchy.

DARWIN SPORTS FINISH IN

GOOSE GREEN HALL.

On account of the bad weather on Friday the children's sports were held in Goose Green Hall while the men's foot events were held over until the next day.

A start was made with the men's races on Saturday and those that necessitated the "wide open spaces" were completed fortunately before the rain drove one and all into the Hall again. There the remainder of the events - of the type indulged in on board ships - took place.

Although the weather throughout was not as good as could have been wished - far from it in fact - it failed to put a damper on the proceedings, and everybody has voted that they could not have had a happier time or a more enjoyable week, for any disappointment experienced through the persistency of the rain was easily and quickly forgotten in the delights of the evening functions which filled up every night. The dance on Saturday brought the Sports Week to a fitting conclusion.

Now Darwin is assuming once more its usual placid atmosphere & the many visitors are parting on their ways. Some of those from Stanley are expected to arrive home to-day.

CORRESPONDENCE.SWEEPSTAKES.

The Editor,
"Penguin",
Sir,

Stanley,
25th Feb. '35.

Reviewing the various SWEEPSTAKES run by Clubs in Stanley I would like to ask through the medium of your paper : -

Are Sweepstakes becoming a curse ?

Is it not just a mild form of gambling ?

Is it not having a very bad influence on our people, especially the younger generation ?

Can the people who indulge weekly afford this speculation or do they neglect other very important obligations in order to recover previous losses ?

Having a very comprehensive knowledge of the people who partake in these speculations I certainly think this sweepstake fever has developed to an alarming stage and makes one wonder if these Clubs realise the harm they may be unconsciously doing; and do they actually need this particular type of support to maintain their Clubs.

Surely there are other means of raising funds, such as Concerts, Dances, etc. ! These, instead of demoralising and depressing the rising generation would help to entertain and promote amongst them a brighter and more intelligent outlook.

Yours faithfully,
"Bystander."

THE "BLUE" DANUBE !Political Situation Talks.

London, 25.2.35.

The Austrian Chancellor, Dr Schuschnigg, and the Foreign Minister, Baron Von Berger-Walden, on arrival in London for a two days' visit via Paris where they had talks with the French Premier and Foreign Minister, have expressed their satisfaction with the Paris talks so far as they are related to the Rome Plan for stabilising the political situation in the Danube basin.

The Paris conversations and

the hint given in advance by the British Government have convinced the Austrian Ministers that the present time is not propitious for the discussion of an early Hapsburg restoration, states the Daily Telegraph.

The British Government is to be asked to approve of the extension to Austria of equality rights in the matter of her army. It is understood that Dr Schuschnigg is giving his assurance that the increased forces are required solely for maintaining order in Austria.

GERMANY TO DISCUSSPROBLEMS WITH BRITAIN.

London, 24.2.35.

Germany has agreed to take part in a general discussion with Britain on all aspects of the European problems surveyed in the Anglo-French Declaration & with this advance made Sir John Simon will proceed to Berlin early in March to review the position with Hitler, states the Daily Telegraph.

France fully approves of this response to the German request for direct negotiations with Britain.

The same journal adds that it is almost certain that Sir John Simon will continue from Berlin to Moscow and then to Warsaw to complete the European picture by conversations with the Polish government. The formalities for the journey have not yet been completed but Moscow has responded warmly while there is a reason to believe that the Soviet would have issued an invitation earlier had it been confident of a favourable reply.

A later message states that it is reported from Berlin that the practical certainty of direct talks between British and German Ministers in the near future has aroused great satisfaction in Germany.

PROTEST AGAINST ITALIANIMPOSITIONS.

Rome, 24.2.35.

The new import restrictions have caused the Store and Commercial Departments of the Foreign Embassies and Legations besides the Ministry of Finance to be besieged by protests, states the Daily Telegraph correspondent.

In Milan the British, American and Swiss industries consider that they may as well close their doors but every European State has been affected while the United States has received a blow by a reduction of 75 % of her cotton imports calculated on the 1934 figures.

Many shipments have been held up but negotiations are proceeding with Britain and Italy for a more satisfactory settlement of the coal question.

The Chancellor declared that he would not put his name to any pact until Germany was granted equality of rights.

Hitler said "We demand an unequivocal answer. A 'yes' means peace and a 'no' means a denial of German honour. The world must realise by now that we will adhere to these demands.

A PERFECT DAY.

As perfect a day as could have
 been wished was experienced yester-
 day with a glorious sunset to bring

 shortly afterwards the prospects
 seemed a little brighter though the
 wind was in the east.

WAR CLOUDS OVER ABYSSINIA.

Messina, 25.2.35.

There were stirring scenes to-day when thousands of citizens watched 3,500 troops embark for East Africa.

Tanks, horses, mules and 3,000 tons of material were also placed on the troopship.

The city was beflagged and military bands paraded the streets.

A Rome message states that a further detachment of 2,700 are leaving for embarkation by another troopship later.

It is reported from Addis Ababa that the Ethiopian government has issued a communique denying the Italian allegations that Abyssinia has caused a delay in the proceedings to establish a neutral zone between Walwal and Gerlogubi - the scene of the recent clashes.

It is understood that the Italian government has not replied to the Ethiopian notes on arbitration and the Daily Telegraph states that it now appears that the Emperor is going to carry out his threat and place the whole onus on the League of Nations to effect a settlement.

The Ethiopian Legation in Rome expect a break-down in negotiations at any moment while the Charge d'Affaires says that the Abyssinians are not impressed by the despatch of Italian troops but they feared the prospect of chemical warfare.

A decree has been passed in Rome to expedite the commandeering of ships and their crews as in war time.

U.S.A. RELIEF SCHEME URGE.

Washington, 25.2.35.

The President faces a fresh crisis by the action of the Senate in passing an amendment in favour of paying the prevailing wage scales on relief schemes instead of the lower rate advocated by the government.

This would cost 2,500 million dollars.

Faced with the apparent total collapse of the 5,000 million dollars relief works plan, the Presi-

dent's lieutenants are considering the best way to rescue the measure from complete oblivion.

The President declares that the Senate amendment is totally unacceptable. Meanwhile a draft scheme of public works, involving 60,000 specific projects has been indefinitely held up.

SWEEPSTAKES.

Stanley,
 26th Feb. 1935.

The Editor,
 "Penguin."
 Sir,

As one who read with interest "Bystander's" letter in the "Penguin" of to-day's date I would like to reveal an aspect on the "Sweepstake" question which endorses your correspondent's views.

I myself have seen children still of school age tossing coins and dicing for sweepstake tickets in Stanley.

I cannot but think that this is hardly helpful to the rising generation.

Yours etc.,
 "Observer."

ANOTHER SHIP FEARED LOST.

Yesterday evening it was reported that the "Blair Gowrie", on her way to Boston with a crew of 26, had been lost with all hands.

Her S.O.S. stated that her situation was desperate with her steering gear out of action and her main hold full of water.

The German liner Europa and two other liners answered the S.O.S. but on arrival on the scene could find no trace of the ship or her lifeboats.

The Olympic which is passing over the scene to-day has been ordered to delay her passage to search for survivors.

How Not to Ride A Horse.

Looking for "Greta Garbo".

The Annual Race Meeting of the Darwin Sports' Association was commenced on Tuesday, the 19th instant.

For several weeks before the chief topic of conversation had been the Sports - and it was whispered that there were to come some startling surprises. During the week-end prior to the Sports riders arrived not only from the Falkland Island Company's camp but also from Stanley, San Carlos, Douglas and Port Louis with everyone ready to enjoy a good time.

A cine show was given on Monday evening with a record crowd gathering. There was no need to ask if it were being enjoyed, the peels of laughter were sufficient proof of that.

Early on Tuesday morning jockeys were out to attend to their racers and promptly at 10 o'clock the events commenced. Although it was a very cold day with a sou' east wind blowing, it did not deter the spectators and there were great scenes of activity at the Tote. A race programme of twenty-two events had been arranged and this was carried through successfully. The Stanley Cup was won by "Bambina", owner P. Coutts and ridden by James Middleton ("Gull") while "Go-Bang" came in an easy second. In the Pony Race a record number of entries was obtained and the race itself proved to be the "big surprise" item of the day, H. Curran passing the post with a wide margin. No one backed the winner and the Tote staff were highly delighted with the result. The Champion Cup for Falkland Island horses was won by "Bluebell", owner Mrs Langdon & D. McLeod jockey, with P. Peck's "Daffodil" a close second.

The Champion Cup Open was won by "Bambina", the "Gull" up, but "Go-Bang" gave a very close race and finished second, "Tronador", ridden by C. McCarthy being third.

We are deeply indebted to a Camp Correspondent who has sent this full account of the Darwin Sports which began on Tuesday, the 19th instant & were carried on to the end of that week.

The drawing of the Sweepstake is always a great attraction and this took place on Wednesday afternoon. The moments of suspense passed very slowly until the winning tickets were secured. The result of the draw has already been given in the "Penguin."

A gymkhana held at Goose Green on Thursday was highly entertaining. In addition to the race events there was a staged a most amusing and unrehearsed number by Sandy Coutts on "How not to ride a horse."

Friday was Children's Day and as the weather clerk had not been too kind a programme of novelty races was carried out in the hall. The search for three famous film stars present caused great excitement with the most unlikely persons feeling highly flattered for having been asked - "Are you Greta Garbo?" The prizes were kindly distributed by Mrs R. Finlayson at the close of the programme.

On Saturday the weather had sufficiently improved to allow the carrying on of the foot events. In Throwing the Hammer, W. McMillan secured an easy first with a distance of 53 feet while in the Mile, Rory Morrison finished in splendid style followed closely by G. Middleton & A. Coutts. Novelty events were further introduced in the hall and were greatly enjoyed by both competitors and spectators alike.

Had these attractions alone completed the Sports Association's programme they would have been well worth the long journey undertaken by the many visitors. But in Darwin the Sports Week is not complete

without the dances and it was a very happy crowd that gathered for the first one on Tuesday evening in joyful anticipation of yet more to come. The hall had been gaily decorated and the gorgeous colours of the ladies' dresses added to the brilliant spectacle.

The music was supplied by "Don and His Serenaders" with several accomplished accordeon players.

The presentations of the Champion Cups were made by Mr F.G. Langdon and Mr Birt Elliott, the former presenting the Open Champion Cup to James Middleton ("Gull") - the jockey of "Bambina" - in the absence of Mr P. Coutts who was ill in Stanley Hospital, while Mr Elliott presented the F.I. Champion Cup to Mrs Langdon, owner of "Bluebell".

Five days of races and sports events with five nights of dancing found all a little tired but very well satisfied and it was a usual occurrence to hear remarks such as "The best sports we have had" and "The best dance yet."

Having raced and danced together for practically a week those at the final dance on Saturday bade goodbye to this year's sports with all joining hands and singing "Auld Lang Syne." The big family was breaking up yet all hope to meet again next year ready to make the occasion a bigger and even better event.

ITALY & ABYSSINIA.

Rome, 26.2.35.

The position between Italy and Abyssinia remains unaltered and no agreement has been reached at Addis Ababa on the neutral zone question, states the official spokesman.

A total of 15,000 officers and men are now en route for Italian East Africa.

Rome, 27.2.35.

Italy is apparently insisting upon negotiations on which Abyssinia based the 1928 treaty whereby conciliation and arbitration follow consecutively when direct negotiations fail.

The military authorities have requested the foreign press not to transmit details of mobilisation and troop movements but an official statement points out that it is possible to mobilise eight million men.

The neutral zone negotiations are still in abeyance.

THE END OF THE SAAR

CONTROVERSY.

Paris, 27.2.35.

The Saar Commissioner, Knux, will hand over police powers to Prefect Sassaz representing the German Saar Commissioner on Friday while the formal surrender of the territory will be effected Saturday morning by the Italian Baron Aloisi.

CORRESPONDENCE.SWEEPSTAKES.

Stanley.
27th Feb. 1935..

The Editor,
"Penguin."
Sir,

Your correspondent Bystander asks four questions in your issue of the 26th February and I will answer them according to my wisdom (I have none) and understanding.

At first sight Bystander strikes me as one who is a laggard. These Sweepstakes have been carried on for several years. Then why has he not spoken before? He cannot be a newcomer to the Falklands because he says he has a very comprehensive knowledge of the people. Then why this long silence? If rumour is correct he is preparing the ground to be tilled.

Now to the four questions.

1 Are Sweepstakes becoming a curse? The answer is - No. They make a weekly break in our life of monotony and dullness.

2 Is it not a mild form of gambling? An absurd and stupid question. It is gambling, pure & simple, not a form at all. But, Sir, I am sure many will agree with me when I say, every human soul loves a mild flutter now and again. It is in human nature; history tells us the Senators of Rome gambled on the fights between the gladiators and further back we have evidence that man in his infancy gambled. Probably Adam and Eve had a "mild form" of gambling and man will gamble till the end of time.

3 Is it not having a very bad influence on our people, especially the younger generation? No, our Falkland Island people are too sane and level-headed to be influenced by the risk of a shilling. There are far worse influences on the younger generation than Sweepstakes, such as pride, snobbery and impurity. Let Bystander attack these evils.

4. Can the people who indulge in this weekly speculation afford it? My answer to this point is clear and easy. Let everyone mind his own business. Bystander included. What a happy country we would have if each one did.

Finally your correspondent suggests that the clubs could devise better means for raising funds. He mentions dances and concerts. I say emphatically that more moral harm is done to the young generation in one dance than in fifty sweepstakes.

If we closed down the "Sweeps" because it is gambling, then we must close all forms of gambling, viz. Raffles at Church Bazaars, the Tote on the race course and ask the police to visit clubs where gambling at cards is carried on to the early hours of the morning.

Your obedient servant,

ITALY & ABYSSINIA.

Rome, 28.2.35.

According to the Daily Telegraph correspondent the Emperor of Abyssinia has written to the King of Italy and Mussolini in connection with the current dispute, stating "We will never molest, nor have we thought of molesting the Italian colonies of Eritrea and Somaliland."

The Abyssinian Charge d'Affaires has informed the press that Italy is demanding £20,000 reparations for the Walwal clash, adding that there is clearly a misunderstanding and that the Abyssinians ardent wish is that the matter be solved peacefully and quickly.

From Geneva it is reported that there is a probability of China being re-elected to a seat on the League Council following Japan's evacuation.

SOVIET INVITATION TO BRITAINDECISION DEFERRED.

London, 28.2.35.

STICKING UP FOR ARMAMENTS.

Washington, 28.2.35.

In giving evidence before the Senate Arms' Enquiry, the President of the Bethlehem Steel Works, Mr Grace, admitted to receiving personally 3,750,000 dollars in war bonuses and emphatically opposed the elimination of war profits, expressing the opinion that under government ownership there would never be effective production if a war came.

CORRESPONDENCE.MYSTERY WRECK.

Stanley,
 28th Feb. '35.

The Editor,
 "Penguin".

Sir,
 I was most interested in the account of the "Mystery Wreck" on the Jayson Cays, published in the "Penguin" of the 23rd of February. As no mention was made of the condition of the hull of the vessel except that it was green with age (and, I presume therefore, made of wood) it is difficult to draw any conclusion as to whether the wreck is identifiable and whether it has been officially noted or not. In spite of vigorous enquiries I have been unable to trace any wooden vessel having gone missing while rounding Cape Horn about 1927. Timber is an unusual Cape Horn cargo for sailing vessels in these days, also it is extremely doubtful whether wooden sailers were in the Cape Horn trade as late as 1927.

It is likely that this wreck is the remains of one of the many lost vessels in the vicinity of the Jaysons. Two to my knowledge have been wrecked on the West Cay, viz, the "Alto" a wood barque of some 200 tons wrecked in 1870 and the "Lady Dufferin" a wood barque of 1,330 tons in 1882. The whereabouts of the iron barquette "Thetis" is unknown except that she was lost on the north side of the West Falklands and it is quite possible that this vessel was either wrecked on the West Cay or that the underwater currents have moved her hull into the influence of the surf on that island.

With regard to the wreck being perched on a rock thirty feet out of the water it is an interesting fact for comparison that the after part of the "Craigie Lea", wrecked off Bull Point, was thrown high and dry several years after being wrecked, while an instance is known of a sailor

JAPAN PERPLEXED.

Tokio, 27.2.35.

Reuter states that referring to the rumours relative to the British-American attitude towards the Sino-Japanese rapprochement a statement has been elicited from the Japanese Foreign Office in which reference is made to the press suggestions that they should intervene under the Nine Power Act Pact.

The statement adds that Sino-Japanese cooperation commenced as a result of China's appreciation of Sun Yat Sen's greater Asia doctrine. In the concluding paragraph it states that it is regrettable that Britain and America, who previously held the view that a Sino-Japanese understanding was essential to world peace, are now showing vacillation at this juncture and Japan is perplexed concerning the real Anglo-Saxon attitude.

THE SOVIET INVITATION.

London, 1.3.35.

The Cabinet decision to defer consideration of the Soviet invitation to the British Foreign Minister to visit Russia in order to discuss the Anglo-French plan for the organisation of European peace has come as a great surprise.

According to the Daily Telegraph London has known for some days that the invitation was on its way and at the Cabinet Meeting that was to have been called to approve of its acceptance a favourable answer seemed assured.

Cabinet members opined that direct talks would serve a very useful purpose and no difficulties were anticipated with regard to the German point of view.

YUGO-SLAVIA CABINET DIFFICULTY.

Belgrade, 28.2.35.

There is an increasing belief that Jevtitch is preparing to restore the Cabinet formed by King Alexander in January 1929 which was actually a military dictatorship under General Zuvkovich, but Prince Paul strongly opposes this.

HITLER REDUCES LOAN INTEREST.

Berlin, 28.2.35.

An enactment has been signed by Hitler reducing the interest on bonds and municipal loans from 6 to $4\frac{1}{2}$ per cent, the total capital involved by the conversion which becomes effective on April 1st, being £166,000,000.

The new law does not apply to foreign loans or certain categories of internal loans. The Stock Exchange suspended operations in public loans for two days as a result of the decree.

A FIANNA FAIL DENIAL.

Dublin, 28.2.35.

Deputy MacDermott has asked the President of the Executive Council whether they had considered making an order under the Public Safety Act declaring the I.R.A. an unlawful association. De Valera, in replying, said that the necessity had not arisen and the organisation's belief that the Fianna Fail supported them was without foundation.

ITALY QUERULOUS.

Rome, 28.2.35.

The press comments on the British protest to the country's import restrictions and points out that England's nationalistic policy is carried out with the utmost indifference to international usage and the collective interests of other States, adding that abroad, there is no case against Italy's new policy.

KING OF SIAM TO ABDICATE.

Rangoon, 1.3.35.

It is definitely considered that King Prajadhipok will abdicate as parliament has refused his terms.

It is thought that his eleven-year-old nephew, Prince Ananda Mahidol will then succeed, governing through a Regency Council until he attains his majority.

U.S.A. NEW DEAL SET BACK.

Wilmington, Delaware.
28.2.35.

The New Deal suffered a legal set-back when the Federal Judge dismissed the government suit seeking the establishment of Section 7 of the National Recovery Act, involving collective bargaining.

Judge Neild held that Section 7 as applied to the defendants, The Wierton Steel Company, was unconstitutional and void with the government contending that the company's employee representation plan did not constitute adequate arrangements for collective bargaining.

The government is likely to appeal.

It is reported from Washington that the controversy over the Relief Bill has resulted in the worst legislative deadlock ever experienced. The Daily Telegraph correspondent states that the Democratic leaders are awaiting President Roosevelt's return, looking to him to solve the problem which threatens the overturn of the administration programme.

The rebellious senators include twenty-one Democrats who refuse to listen to governmental arguments while Roosevelt's supporters are increasing their pressure that he should appeal to the nation by wireless for support and for a free hand in respect of the unemployment problem.

ANOTHER FORTH BRIDGE.

Edinburgh, 1.3.35.

The Town Council has generally approved of a scheme for the construction of a suspension road bridge half a mile to the west of the Forth Bridge provided that a satisfactory agreement is reached with the other interested bodies.

The approximate cost is given as £4,000,000.

SAAR AMNESTY.

Berlin, 1.3.35.

An amnesty has been proclaimed for all Saar residents sentenced for a year or less for their respective offences.

INDIAN BUDGET.

New Delhi, 1.3.35.

The Indian budget for the forthcoming year shows a surplus of £1,125,000 and the Finance Member of the Legislative Assembly, Sir James Grigg, has announced a proposal to devote £1,020,000 for the reduction of taxation, primarily income-tax.

The current and last years' surpluses have enabled the provision of £1,500,000 for relief and reconstruction work in connection with the Bihar earthquake with substantial grants for rural developments in road-making, broadcasting and civil aviation.

ITALY AND ABYSSINIA.

London, 1.3.35.

It is now confidently expected that Italy and Abyssinia will shortly be in a position to settle their differences by diplomatic negotiation.

The British representatives in Rome and Addis Ababa have continued to enjoin both powers on the need of negotiations as suggested by the League.

Geneva considers that an Abyssinian appeal is almost certain but meanwhile additional troops are embarking from Messina and four additional liners are standing by.

It is reported from Djibouti that Abyssinia has paid an indemnity of 800,000 francs in respect of the incident at Dikkil.

CORRESPONDENCE.

Sweepstakes.

The Editor, Stanley,
 "Penguin". 2nd Mar. 1935.
 Sir,

There is a point in the controversy re sweepstakes that does not seem to have been dealt with by your recent correspondents. That is the legal aspect. The sweepstakes that we all support in the Falkland Islands, are a 'lottery', and, I think, are dealt with in the Gaming Act of 1802 which is applicable in the Colony. Both those who promote lotteries (or sweepstakes) and those who subscribe to them are liable to penalties, and promoters are liable to conviction as 'rogues and vagabonds.'

I think it remains for each one to decide what sweepstakes are, in their own opinion, in support of a good and reasonable cause and which are to be avoided as devoid of reasonable justification. For instance I willingly support all sweepstakes run by the three Sports Associations in the Colony, but seldom buy tickets in other sweeps.

If the multiplicity of sweeps at present in operation are deemed, by the authorities, to be detrimental to the general interest, a hint of legal action, dropped in the proper quarter, would soon put a stop to those sweeps that are redundant.

As to children participating in sweeps, this obviously, is for parents to correct if they deem it advisable.

With one or two exceptions, I do not think any of the sweeps promoted in Stanley are run for individual profit, but it might be worth while clearing up this point.

Yours truly,

E.G. Rowe.

STANLEY IN THE NINETIES.

His Excellency the Administrator, in response to the Bishop's request, is about to lay before the Legislative Council an Ordinance "Incorporating the Trustees of Christ Church, Stanley, Falkland Islands as a Body Corporate." THE ABDICATION OF THE KING
OF SIAM.

London, 4.3.35.

The Siamese King, Prajadhipok, has abdicated.

In a document explaining his reasons His Majesty, who now becomes Prince Suknodaya, states that the present Siamese government is employing administrative measures incompatible with his subjects' personal liberty and the principles of equity according to his own personal belief.

He adds that he is unable to agree that any party should carry out the administration in this way under the cover of his name and while willing to surrender former powers to the people he refuses to surrender them to any particular party so that they can use their power in an autocratic way without the people having voice in the matter.

Washington : The President's wife has earned 45,000 dollars during the past 9½ months in broadcast fees all of which was devoted to philanthropic purposes.

STRIKE IN IRELAND.

Dublin, 4.3.35.

Following the dismissal of bus-drivers and engine-drivers two strikes have developed involving 3,000 men and the paralisation of the entire transport services.

No wages question is involved states the Daily Telegraph correspondent, adding that the companies have taken disciplinary measures against employees for personal misconduct which should not be subject to a review by the unions.

GOLD PRICE RISING STILL.

London, 3.3.35.

The gold price has continued skyrocketing with an exceptional jump of 2½ pence to a record figure, meanwhile in foreign exchanges & markets, sterling is further depressed against gold currencies.

The city is not disturbed by the fall, states the Sunday Times, but the gold bloc countries, particularly France, are perturbed & there is a growing desire for the calling of an International Conference with the object of effecting some form of stabilisation.

Wall Street believes that the British Equalisation Fund is not operating and the view is that the pound was permitted to decline as an experiment so that the re-actions of the United States and the European gold countries might be examined.

HITLER ACTIVE.

Berlin, 2.3.35.

Hitler is taking an active and personal part in the preparations for the impending discussions with Sir John Simon, states the Daily Telegraph correspondent, and is maintaining close touch with the responsible officials of the departments affected.

No formal agenda has yet been drawn up but it is understood that Hitler will personally conduct the conversations with Sir John Simon through an interpreter.

The German attitude is that she cannot be denied the right to bombing planes & in general her security requires her ratio of military powers to be adequately increased.

Commenting upon the incredibility of the nations concerned with the restoration of world confidence being unable to meet and arrange currency rates, he adds, that it is a tragic prospect that Britain, France and the United States are unable to cooperate. Each going its own way should bring disadvantage to all at the risk of new misery to everyone.

REVOLUTION IN GREECE.

Athens, 4.3.35.

In an attempt of the military and naval supporters of Venizelos, under General Plassiras, to overthrow the government and set up a military dictatorship, many have been killed and injured with the total casualties unknown.

The flagship "Averoff" under the command of Vice-Admiral Demestichas, with twelve warships - which is half of the Greek navy - has joined the revolutionaries and sailed for Crete.

A later message reports that following continuous bombing by aeroplanes, Demestichas has agreed to surrender on the condition that all the rebels are pardoned.

Martial law has been declared in Athens and the government claims that the revolt has been crushed with the arrest of many of the rebel leaders.

Certain sources state that Venizelos joined the rebels but that he was warned by the Premier that he would be held responsible for the extension of the revolt to Crete where he is now living.

An arsenal in the occupation of the revolutionaries was subdued following a four hours' artillery bombardment and only the naval units remained free.

THE GRECIAN REVOLT.

General Offensive Begun.

Athens, 11.3.35.

A general offensive was begun yesterday morning against the rebels in Eastern Macedonia and the loyal troops were reported to be advancing beyond Struma without serious opposition.

The infantry advance began at 06.00 covered by an artillery bombardment and aerial attacks by thirty planes.

According to Sir Percival Phillips, the Daily Telegraph special correspondent, it remains to be seen if the rapid retirement of the rebels indicates a complete rout or whether they intend to stand on fortified positions further east where, besides the natural protection of the hills, and ravines, they have sections of the trench and strong points of the German and Bulgarian defences surviving from the Great War.

The rebels, according to General Knondyli, the War Minister, are throwing down their arms and fleeing in disorder.

All the country in Northern Thessaly and Macedonia lies under heavy snow and the plain of Seres lies deep in mud, necessitating the slow movement of the government troops.

Reuter's correspondent in Belgrade reports that the rebels withdrew before the artillery barrage started, to strong positions in the hills.

Film Company, states the Daily Telegraph, is under consideration.

The scheme includes a cinema to seat over 3,000, a dance hall for 1,000, telephone, news theatre and 140 modern flats.

AVOIDING A TRADE WAR.

Paris, 10.3.35.

The Ministry of Commerce which has been examining the questions to be discussed during the visit of the Belgian Premier, states that the possibility of extending the commercial exchanges between the two countries is being examined.

The French press, however, does not envisage any satisfactory method of extending the commercial exchanges between the countries of the gold bloc and a surtax on goods from countries with debased currencies is again being discussed, states the Sunday Times, though the French are unwilling to risk a trade war with Britain with whom close collaboration is considered essential.

The "Bertha."

On October 11 the Danish bar-
 que "Bertha", Captain Hansen, was
 wrecked on the East Falklands, be-
 tween Fox Point and Direction Is-
 land.

The ship left Punta Arenas
 (Costa Rica) on June 30, with a
 cargo of cedar and rosewood for Eu-
 rope.

They experienced heavy gales
 near Cape Horn, a tremendous sea
 struck the ship, which brought her
 almost on her beamsend, causing ser-
 ious damage, the mizemast had to be
 cut away and when the ship had right-
 ed itself again, they discovered that
 the port bulwarks had given way, the
 upper shear strake started, the
 starboard bulwarks badly damaged &
 a boat completely stove in. The
 cabin and the deck house had been
 filled with water where serious dam-
 age was caused to the provisions;
 some cargo was jettisoned to lighten
 the vessel.

On Sept. 29 at 3.0 p.m. a
 British fourmasted steamer, east-
 ward steering was sighted, a signal
 of distress was hoisted and the
 steamer answered by showing the
 British Ensign. There was a S.S.W.
 gale blowing at the time with a high
 sea running, which did not permit
 lowering a boat. The vessel leaked
 much as soon as bad weather com-
 menced. On Oct 3 they had a heavy
 S.W. gale which caused more damage,
 another boat was stove in and the
 tarpaulings of the mainhatch torn &
 swept overboard. As the wind and
 weather did not allow them to make
 for Staten Island, they steered for
 the Falkland Islands. On the 10th
 they were eight miles off Cape Pem-
 broke lighthouse, but could not beat
 up into Port William through the loss
 of the mizenmast and damaged state of
 the rigging. A S.W. gale coming
 on the next day, the Master, fearing
 that the vessel would not out-live it,
 ran her ashore near Direction Island
 where they landed. She was sold
 to the Falkland Islands Co. by auc-
 tion for £120.

GOVERNMENT NOTICE.

No. 35. Colonial Secretary's
Office, STANLEY.
11th March, 1935.

WHEREAS a great number of accounts due to the Government Hospital have been left unpaid many of them for a long time and the amount involved is very considerable and

WHEREAS it will be recognized that it is improper and unjust that public funds should bear the cost of the maintenance and treatment in Hospital of those who can afford to pay,

His Excellency the Governor has been pleased to issue the following directions : -

All accounts due to the Hospital must be paid promptly. Legal action will be taken to recover outstanding indebtedness.

Persons who are now indebted for treatment or medicines supplied prior to the 31st December, 1934, are required to pay into the Public Treasury the amount owing on or before the 15th day of April next. Failing this summonses will be issued, the legal cost of the summons and if necessary of the hearing will be added to the amount payable.

Persons who, owing to poverty are unable to afford payment for treatment, will be given free treatment where not otherwise so entitled, on production of a certificate from the Chief Constable that they are unable to pay by themselves or through their parents or other persons responsible for them.

The public are reminded that heavy expenditure has been incurred and is entailed in the maintenance of the Hospital. Further extensions of the premises are urgently required for the comfort of the staff and patients and for improved methods of treatment. These cannot be carried out unless all those who are able to pay the very moderate charges made meet their indebtedness.

By Command,
M. Craigie-Halkett,
Colonial Secretary.

CURRENCY STABILISATION AIM.

Lyons, 11.3.35.
M. Flandin, in a speech, declared that the aim of the government in France was to hasten the stabilisation of the great currencies.

Such a move was necessary for the prosperity of international trade. It was planned to avoid all influences tending to provoke a fall in foreign currencies which paralysed French exports.

If they were unable to influence foreign monetary policy they could check the influx of foreign capital which was a source of currency inflation fatal to French industry.

"To leave gold accumulating in the vaults," he said, "is to deprive the country of purchasing power for which it could serve as a basis. In the time of crises the banks' job was to use all resources to give the country purchasing power and thus invigorate it."

NIGHT TIME FIRING.

Vickers Machine Gun Training.

On Saturday night the members of the Falkland Islands Defence Force attached to the Machine Gun Section made a rendezvous at the Range Pavilion in order to carry out their annual firing. The guns were mounted on the high rocks to the south of the race course and night firing was carried out, in the first instance, on a target to the west of Fairy Cove on the opposite side of the harbour.

Fire was opened at 10.0 p.m. with tracer bullets and the course of the bullets could be defined almost to the target so clear was the atmosphere.

The following morning, however, when firing was carried out on targets in the vicinity of Sapper Hill anything but ideal conditions prevailed. The tests began at 7.0 a.m. when a strong wind blew from the north-west supplemented by almost continuous squalls of sleet and rain. But taking into consideration the adverse weather, the results obtained were very encouraging. The tests concluded at 9.0 a.m..

The undermentioned members attended and qualified for their Machine Gun badges :

Cpl B. Fleuret, Privates C. Henrickson, G. Pearson, W. Gleadell, E.J. McAtasney, J. Petterssen, W.T. Aldridge, B.M. Biggs, A. Etheridge, W.J. Halliday, H. Jennings and R.L. Robson.

The Section which was under the command of Captain W.M. Allan, spent the night in the Range Pavilion.

CORRESPONDENCE.

Sweepstakes.

Stanley,
 13th Mar. '35.

Sir,

Without wishing to stir up rabid partisanship on the question of SWEEPSTAKES so interesting to your readers recently and so provoking in the diversity of views expressed, I would like to bring to mind a point of age-old reasoning.

Horace, a Classical Poet, wrote before Christianity saw light "Virtue is the mean between opposing vices," and though I doubt if he foresaw its applicability to Sweepstakes I feel sure that were he in the Falklands at present he would have no hesitation in using it in order to sum up the arguments of your protagonists.

Sweepstakes may engender vice; they may add just that stimulant which promotes a happy and contented frame of mind - for all things a man's ingenuity can invent can be useful in helping him to live happily. He has a palate for sweets yet even the most tasty confectionery if eaten in excess will ruin a digestive system and cause untold misery. On the other hand even so virulent a poison as strychnine or arsenic can restore a man to normal health. To ensure happiness man must apply common sense and not take advantage of those things which in moderation achieve this end.

The Laws of Nature cannot condone the abuse of virtues and peremptorily deal with any that degenerate into vices, and the Laws of Man are framed with the same object in view.

Yours etc.,

BRITISH TRADE.

London, 14.3.35.

British trade is maintaining its early promise at the commencement of the year & following the increased employment announced on Tuesday the February export figures show an increase of over 13 per cent, equalling £4,000,000, states the Daily Telegraph correspondent.

The imports have been again reduced with the February total the least since July, 1933, marking a decline above one million pounds compared with 1934.

The adverse balance for the month fell to £17,796,000 compared with £22,094,000 a year ago, while for the first two months of 1935 the adverse balance was £39,000,000 as against £51,000,000 in 1934.

The analysis shows the January and February percentages of 8 % total increase in exports and a 10 % decrease in imports.

Manufacturing industries report increased activity with fresh expectations of the iron and steel output being increased while the Savings' Bank deposits have increased during 1934 by nearly £6,000,000 to a total of £94,750,000, with the depositors increasing 78,000 to almost three million with £2,500,000 paid in interest.

EMPIRE BOYS RIFLE SHOOTING.

London, 14.3.35.

The result of the Empire Boys Rifle Shooting Competition for 1934 shows South African boys as the winners of the King's Trophy with 81.4 points with Great Britain second with 77.7 points and New Zealand third with 75.2 points.

The total number of boys competing was 27,600.

FRANCE & GERMANY'S AIR DESIGNS.

Paris, 14.3.35.

The French press expresses astonishment at Germany's air declaration, regarding it as the first official violation of the Marseilles Treaty, and asks what it is Great Britain, France and Italy intend doing.

NEW ANGLO-FRENCH TRADE PACT.

Paris, 14.3.35.

It is believed that the French Government is taking an early opportunity of opening conversations with Great Britain for a new trade agreement to operate shortly and which would compensate the country (France) for the losses caused by the fall of sterling, while an expensive defensive trade policy is projected.

ITALY & ABYSSINIA.

Addis Ababa, 14.3.35.

The Italo-Abyssinian discussions with reference to neutral zones and compensation have ~~achieved nothing~~. Latter blame the Italians' attitude, pointing out that the military operations are continuing.

The Ethiopian government has despatched a note to Rome declining further discussions without a previous impartial enquiry.

RECOVERY ACT DIFFICULTIES.

Newark, New Jersey, 14.3.35.

For the third time within a fortnight a Federal Judge has ruled against the Recovery Act.

Justice Fake has decided that the Act is unconstitutional in respect of authority to regulate "Inter-State" business, with reference to granting the A.C.N.E. Company an injunction restraining the government from the enforcement of the Fabricate Metal Code. Presumably the Supreme Court is still to pronounce on these issues.

A coal strike threatens, states a message from Washington, the men workers of the unions demanding a 6-hour day with a 5-day week, instead of 7 and 5 respectively, with a wage increase.

Athens, 14.3.35.

Martial Law is being continued until the conclusion of the Court Martial dealing with the revolutionaries whereat Venizelos and fugitives in foreign territory are being arraigned. Their property has already been confiscated, including Venizelos's £50,000 villa.

The Cabinet is believed to favour an early election for a modification of the situation, strengthening the Premier's authority and for providing facilities to purge the country of all reactionaries.

Athens, 15.3.35.

RAMSAY MACDONALD & DEFENCE.

Reasons For White Paper.

London, 14.3.35.

The reasons for necessitating the adoption by the British Government of the policy set forth in the recent White Paper on Defence are referred to in an article which the Prime Minister contributes to this week's "News Letter" - the National Labour Fortnightly.

He says he was greatly concerned at the way in which peace prospects in Europe were deteriorating and at a virtual standstill reached at the Disarmament Conference.

"Some of us who are peace lovers were not satisfied to give voice to well-used and familiar formulars", MacDonald continues. "We were determined to work to make conditions hard for aggressors and not to allow nations who did not appreciate our efforts to assume that our peace lead meant that we had ceased to take a practical interest in opposing tendencies making for war. The White Paper makes it clear that whilst peace is our policy we shall not neglect obvious defences."

"The Paper is issued by the Government after full consideration and very careful review extended over many months during which all aspects have been debated and examined as a contribution to peace. Were it not a peace document I should not have agreed to its issue. Peace is its purpose throughout. For years we have set an example to the world in disarmament. The most elementary necessities in our defence have been neglected. We felt that even to replace a gun might have been advertised as a departure from our peace and disarmament policy.

"We have made proposals for international agreements for armaments and not always waited for their acceptance before doing something to carry them out ourselves.

"The White Paper does nothing except in the possible case of the Air Estimates, to increase our power of offence.

"If our moral gestures cannot protect the world from increasing its offensive armaments we must take steps to make collective security more than words and protect our

civilians against attack. I cannot believe that the great nations are blind to the dangers they run in refusing to come to Disarmament Conferences and to make agreements at them which will neither threaten their own nor any other nation's security.

ITALY & ABYSSINIA.

London, 15.3.35.

The British Government has urged Italy and Abyssinia to reach a settlement on the undertakings given by the League of Nations in January.

It is learned from Addis Ababa that the Emperor has definitely decided to rely upon the League of Nations for a settlement.

A Rome message states that Abyssinia has approached the Italian Minister in that country with overtures towards settling the dispute but further troops for East Africa are embarking from Naples.

THE C.E.R. QUESTION.

Moscow, 15.3.35.

Making a statement relative to the sale of the Chinese Eastern Railway the Foreign Minister, Litvinoff, has admitted the possibility of the demilitarisation of the Soviet-Manchukuo frontier, a step which Japan has long demanded. The step is being taken in the furtherance of Far Eastern peace.

DR RINTELEN SURPRISE.

Vienna, 15.3.35.

Dr Rintelen, the former Education Minister of the Dollfuss Cabinet and subsequent Austrian Minister in Rome has been found guilty by a Military Court of "distant complicity in high treason" and has been given the maximum penalty - a sentence of light imprisonment - states the Daily Telegraph correspondent.

The assembly received the verdict with astonishment.

ATTEMPT TO ASSASSINATEKING IBN SAUD.

Perpetrators Shot.

Mecca, 16.3.35.

A dramatic attempt to assassinate King Ibn Saud of Arabia when making a visit to the Sacred Shrine of Kaaba at the Great Mosque took place yesterday.

Three men armed with daggers attempted to stab His Majesty but the first man was grappled by the Crown Prince and the other two were shot down by the body guard immediately.

The fact that the attack took place during the Holy Pilgrimage will probably result in repercussion among other tribes and the effect is incalculable.

The would-be assassins declared that they were Zeidis from the Yemen whose country was "the eternal enemies" of Saud of Arabia.

"WILD" COW EPISODE.

While engaged in surveying work Saturday morning at Big Rookery Bay the Hon. G. Roberts, Director of Public Works, and Mr G.L. Challen also of the Public Works Department, were chased a considerable distance by a cow which gave every indication of being in a wild condition.

On Saturday afternoon, accompanied by Mr Challen, the Chief Constable, Captain W.M. Allan and Constable Swain, set out to discover and destroy it if necessary. But after a search of over an hour the identical animal could not be found although several of the many grazing in the vicinity of the bay answered the description. All the these, however, appeared quite normal with the result that the hunters returned without a "kill."

An explanation offered for the incident is apparently that Mr Roberts and Mr Challen walked unwittingly between the cow and its calf which was on the shore with the result that the cow made an attack fearing for the safety of its young.

LOCAL FOOTBALL.

The first match of the season took place on Government House Pad-dock yesterday afternoon between teams organised by Mr J. Jennings & Mr S. Bonner, the former's winning 4 - 1. At half-time the score was 2 - 0 in the winners' favour.

The examining magistrate in the Stavinsky case has sent to the Indictment Court nineteen of the accused, including the former Deputies Garat and Bonnaire, the Editor of "Volante" - Du Barry, Mme Stanvisky and General de Forton, states the Daily Telegraph correspondent.

The charges fill 957 pages with 50 dossiers containing 20,000 documents with 69 barristers briefed for the defence and the trial is expected to last a month.

Prosecutions against nine persons have been dropped including those against the former Deputies Boyes and Proust, "Joe the Terror", Haineux & Chief Inspector Bonny, (the first police officer interested in the Stavinsky investigations.

LAWN TENNIS BAN NOT LIFTED.

Paris, 16.3.35.

A meeting of the International Lawn Tennis Association has voted 42/41 favouring the Czecho-Slovakian proposal to lift the ban on amateurs appearing in instructional films,

but as a two-thirds majority is needed the motion was thus lost.

Britain, Belgium, Australia and South Africa were in favour of the motion while France, America, Italy, Holland, Germany, Switzerland and Sweden opposed.

GERMANY'S NEW MOVE.

London, 17.3.35.

Germany is to re-introduce conscription immediately and to increase the Reichswehr strength to half a million.

This decision was reached at a German Cabinet meeting on Saturday which had been hurriedly summoned by Hitler who flew from Bavaria as soon as the French government's decision to extend compulsory military service was known, states the Sunday Times.

This means that Germany formally and finally repudiates the military clauses in the Versailles Treaty, nevertheless, Berlin declares that the way is still open for disarmament negotiations. Herr Goebels, speaking for Hitler, broadcast a proclamation in which he declared that Germany had fulfilled the disarmament conditions imposed but the other partners to the Versailles Treaty had not done so.

She was ready to accept the MacDonald Plan but her practical offers had been rejected and therefore, the government had been impelled to take the necessary measures for the Reich's defence.

Paris considers that Germany's action will facilitate the signing of European security pacts while Geneva suggests that a League Council meeting is necessary after consultations between London, Paris and Rome.

The Belgian Premier and Foreign Secretary left for Paris on the receipt of the news of German conscription which is considered of the utmost gravity.

It is learned from Washington that official circles are making no comment, regarding the matter as purely European.

ITALY & ABYSSINIA.

Rome, 17.3.35.

Reuter states that an agreement in connection with the Neutral Zone between Italian Africa and Abyssinia has been signed by the respective commanders within the disputed areas.

EXCITING FINISH TO LOCAL BISLEY.

H.H. Sedgwick Wins The Governor's Cup.

Unexpected Result In Team Shoot Competition.

Two Firing Days At Last.

Although it would have seemed that the continuous delays experienced in completing the Local Bisley programme which was arranged for the end of January last might quite easily have sapped all enthusiasm this was certainly not the case when the Governor's Cup finalists and the Team Shoot competitors assembled on Saturday and Sunday.

Handicapped by bad weather during the past nine weeks when more than once attempts were made to complete the programme while on other occasions the advent of ships precluded men from appearing on the ranges on account of work, this year has been a particularly unfortunate one.

However, no one can say that Saturday and Sunday's gatherings were not a success although the weather was far from perfect.

On Saturday when the Final Stage of the Governor's Cup was held there was blowing a very hard wind from the south and south-west while the atmosphere was particularly cold.

Eleven of the finalists competed, the remaining competitor, Mr R.L. Robson, unfortunately being absent in the Camp.

His Excellency the Governor attended the shoot, arriving soon after the beginning of the firing at 2.0 p.m. and remaining until the last detail was down about 4.30 p.m..

His Excellency showed great interest throughout and expressed his pleasure with the standard of shooting, which, in view of the conditions, was remarkably good.

Dr & Mrs R.L. Cheverton were also spectators.

Before the commencement of the Final Stage at the 900 and 1,000 yards L. Reive had the highest score with 134, H.H. Sedgwick - the ultimate winner who we congratulate most heartily on his success - being the third with 132 while J.M. Campbell was second with 133. When the 900 yards was completed Sedgwick had caught up with Reive, each having an aggregate of 198 with W. Aldridge coming into the lime-light as third man with an aggregate of 192. The outstanding feature at this range, however, was the remarkable recovery of E.J. McAtasney who at the commencement was bottom on the list but with an excellent 69 out of a possible 75 found himself, with J.M. Campbell with the third highest score of 190. It was obvious that the Cup was still anybody's on retiring to the 1,000 yards.

The atmosphere at the 900 yards was clearer and in addition, the wind veered round to the west making conditions more difficult at the last range, and besides this the slightly failing light made shooting generally more tedious so that the scores were not as high as they could have been. However, shooting was very keen.

When the ultimate winner, H. Sedgwick, took his position at the firing point as last man the totals made by his opponents showed that he could afford to drop nineteen points from the possible and still win and it seemed quite probable that he would achieve the distinction of carrying off the Cup, but as the conditions were so uncertain there was

every chance that Reive who had the highest score of 253 up to then, would be first.

However, with a 59 Sedgwick brought his aggregate to 257, four points higher than Reive. McAtasney also made 59 at the 1,000 yards thus bringing his aggregate up to 249 and gaining for himself the third position.

We understand that this is only the second time that the Cup has not been won by a McAtasney, one of the foremost shooting families in the Colony, and on both of these occasions Sedgwick has had the honour of taking it from them.

Although the weather was not so cold on Sunday for the Team Shoot the conditions for firing were certainly as difficult as those on the previous day. But even so the rivalry which is always great in this event was as keen as ever it was. Seven teams took part and some very good scores were returned, practically half of the marksmen returning 90 or over.

At the 200 yards J.G. Gleadell's team led with 125 while A.H. Hills' four were second with 121. But at the 500 yards the latter was displaced by J.W. Grierson's team who divided the aggregate with Gleadell's, each team having 244 while Hills' faded out of the picture by taking fifth place. E. McAtasney's team secured the second highest with 240 and A.I. Fleuret's team came next in order with 237.

As the firing progressed at the 600 yards it appeared that the two teams in the running for the honours were the Gleadell and the Grierson quartette for when these two teams came back with an equal aggregate it looked undoubtedly that Grierson's four had won the honour with a better total at the 500.

But the competition was not yet over. The last detail of the afternoon saw A.I. Fleuret's team in action and though nobody anticipated that they would make up the big leeway that handicapped them - least of all Mr Grierson - they did so and rounded home the champions for the day much to the chagrin of Mr Grierson's team who had already looked upon the Cup as theirs, with two points more than their nearest opponents. This was indeed a surprise but none the less deserved and Mr Fleuret and his team

well deserved the congratulations showered on them; they made seven points more than any other team on the 600 yards range.

The highest range scores for the day were those obtained by L. Reive, C. Henricksen and H. Sedgwick each of whom secured one shot of a possible (35), the first at the 200 yards and the other two at the 500 yards. The highest individual aggregate was made by A.H. Hills who totalled 97 out of a possible 105 and this must have been some consolation to him, for ironically enough his team total was to be seen at the tail-end of the list.

THE GERMAN QUESTION.

Berlin, 18.3.35.

General Von Blomberg, who as War Minister will organise Germany's new conscript army, in addressing a large Opera House assembly on the occasion of "Heroes' Day", said that the world must become accustomed to the fact that Germany had not been destroyed by defeat, having the national ideal of a strong, martial and proud Germany which will never again capitulate or sign treaties to prejudice honour and security.

Europe had become too small a battlefield for a second world war, he added, and Germany believed in the possibility of establishing a new order in Europe and the world by peaceful means.

The world repercussions are as follows :

Paris sees Germany helmeted & booted but officials feel that Germany's rearmament will be easier to deal with now that it is officially admitted.

Rome considers that in view of the recently signed Franco-Italian agreement an understanding for common action will be reached within a few days.

The Soviet press in condemning the German decision, blames British hesitation in foreign policy and it is suggested that Sir John Simon has fallen into Hitler's trap.

The decision has caused grave concern in Washington but the State Department is reticent pending an examination of the diplomatic reports.

According to the Daily Telegraph the Ministers met at Downing Street to-day and the Cabinet is considering an early British reply with the British view being presented to the Commons in the afternoon.

London, 19.3.35.

According to the Daily Telegraph following the exchange of Notes, Germany has accepted the British proposals and the projected visits of Sir John Simon and Mr Anthony Eden are being welcomed for talks on the original basis.

It is learned from Paris that the Ministers' Council met on Wednesday to deal with Hitler's conscription decree while it is understood that an appeal to the League of Nations is favoured with a direct protest from Britain, France and

Italy to Berlin but it is feared that Mussolini does not desire the League to cooperate. Meanwhile, Italy is apparently adopting a waiting attitude but maintains close touch with France and Britain.

The Belgian Prime Minister, M. Hynans, states that the safeguarding of their position necessitates concerted action on the part of the powers.

Moscow views the situation gravely and the press says that the "tempo" of Germany's re-armament resoluteness is a symptom that she is prepared for action.

Washington still makes no comments but State Secretary Hull and Norman Davis are conferring with the President and a statement might likely be made later.

The Japanese view is that the matter is entirely a European affair while Bucharest feels that German re-armament threatens the entire government foreign policy and must, therefore, be opposed. The Foreign Minister, Titulesco, is revisiting London and Paris next week.

IRAKI CABINET RESIGNS.

Baghdad, 18.3.35.

Following serious Euphrates tribal troubles the Iraqi Cabinet, formed a fortnight ago, has been forced to resign and a new Cabinet under Yassin Pasha will take immediate action for pacification.

The new cabinet forms a strong combination which is expected to achieve prompt results but it is expected that there will subsequently be a general election.

The new Foreign Minister Jafar Pasha was formerly the Iraqi Minister in London.

"BELGA SAVED."

Paris, 18.3.35.

The Belgian Foreign Minister declared that Belga was saved, states the Daily Telegraph, following the Franco-Belgian Ministerial meeting.

An official communique states that after the Belgian Minister M. Theunis, had outlined the country's economic monetary situation the governments mutually agreed to defend the gold bloc currencies against speculation.

The Air Estimates for 1935 total £23,851,100 gross with a small supplementary estimate of £200,000 for the current year have been introduced to the House of Commons to-day by the Under Secretary of State for Air, Sir Philip Sassoon.

During the course of his speech the Under-Secretary said that in the cause of Peace the British Government had postponed for ten years past what had been declared as a minimum programme of air defence for the United Kingdom.

British weakness in the air was a danger to the world and to peace as well as to Britain herself and her Air Force could not be allowed to remain the fifth among the air powers in terms of first line strength.

At the same time Sir Philip Sassoon refuted the exaggerated accounts of the weakness of the British Air Forces and pointed out that only France and the Soviet possess a substantially greater first line strength.

The British aircraft industry was more than holding its own and the value of the exports for 1934 was raised by 31 per cent. Twenty-nine foreign countries were using British air machines and thirty-three, British aero-engines.

Turning to civil aviation Sir Philip Sassoon paid a tribute to the work of Imperial Airways in 1934.

The weight of some six millions letters sent by air from Britain last year was 122 tons, an increase of 43 per cent on the total for 1933.

The Air Ministry, the Post Office and Imperial Airways were continuing to cooperate on a long term policy aiming at a quicker and more frequent services and the carriage of first class Empire mails by air without surcharge. The scheme would depend upon the collaboration of the Dominions, India and the Colonies and on the provision of two million pounds fresh capital to extend the Imperial Airways effort.

FORTY-TWO YEARS AGO.

(From the Falkland Islands Magazine.)

The mail schooner "Hadassah" when going out with a stiff breeze s.w. to pilot a vessel in, went ashore broadside on to the s.e. of Dettleff's Point; the gale increasing so seriously damaging her that she was sold by auction on Nov. 8; J. Hellman bought her for £105.

(November, 1892.)

At the Courthouse, Stanley, on November 14, an enquiry was held regarding the stranding of the Schooner "Hadassah" on Tussac Point, Stanley Harbour, on Nov. 1.

The Judge and Magistrate presided, with Captain Scott of the Ship "Hyderabad", and Mr N. Tucker of the Ship "Old Kensington", as Nautical Assessors.

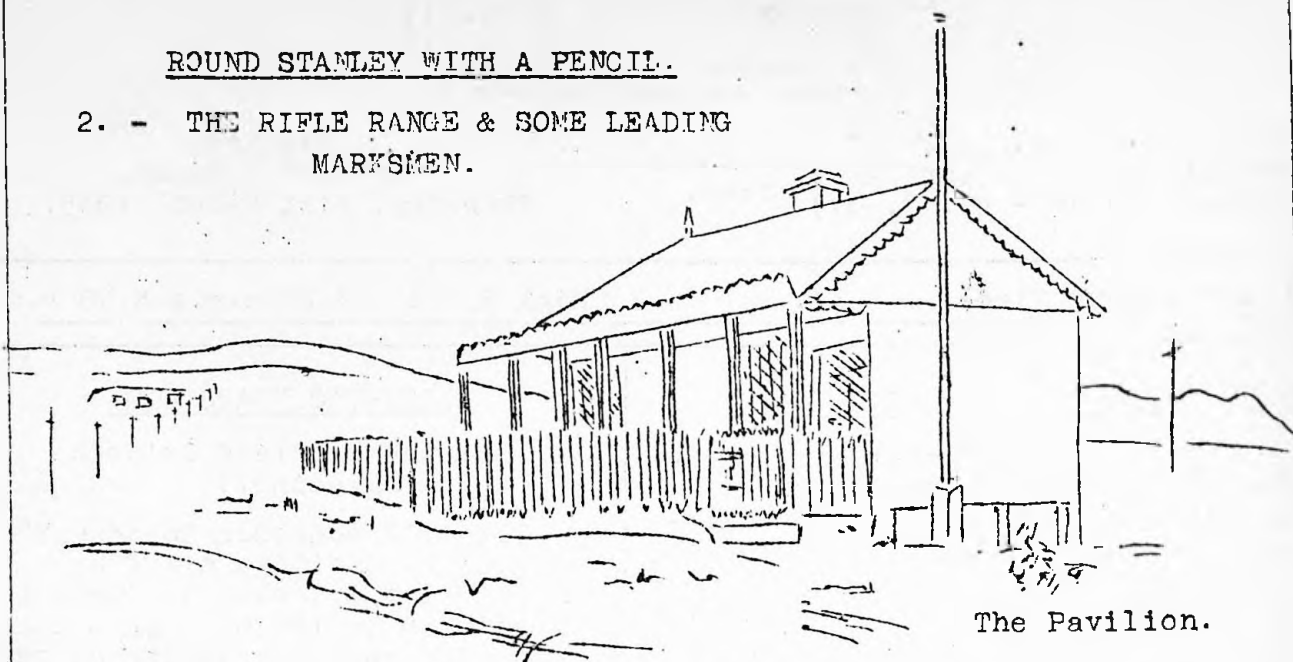

After hearing the evidence of Bradford Wilmer and John Tanner, the Master and Mate of the "Hadassah", the Court were of the opinion, 1 That the cause of the stranding of the vessel was the missing stays and the fouling of the port anchor, 2 That considering the state of the wind and weather the Master took all means in his power to get her off, 3 That as far as the evidence shows the vessel was navigated with proper and seamanlike care.

(December, 1892.)

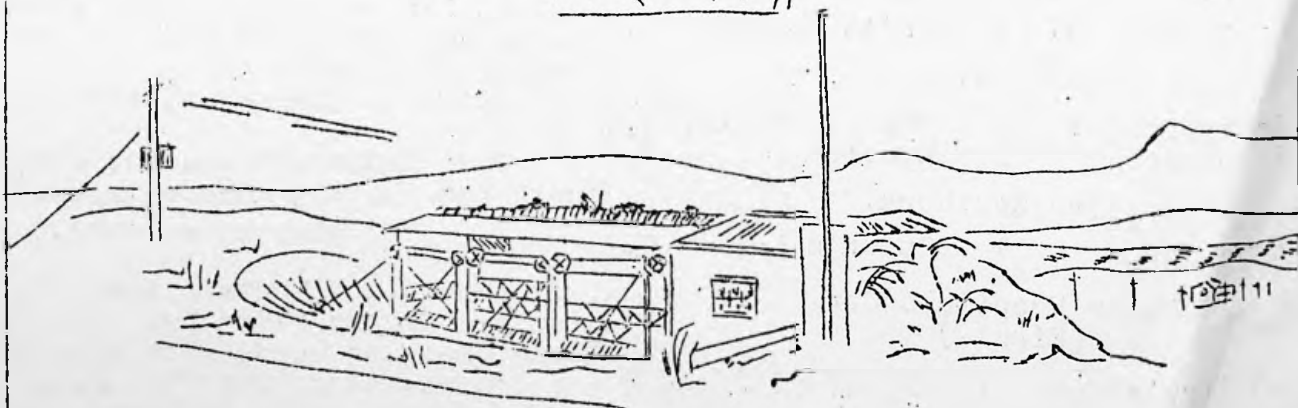

The "Hadassah" was got off the beach Dec. 4, not much damaged.

(December, 1892.)

"Hadassah" Captain Roer, left Stanley January 21 on her first trip since changing hands with nine passengers and cargo for Hill Cove, Carcass and West Point Islands. After working the Jason Islands returned to Stanley February 5 with two passengers, 41 bales of wool and seven barrels of tallow.

According to the Daily Telegraph the main features of the French note declare that Germany has violated the International Law while negotiating with her has been made most difficult and further, that France will not recognise the legality of Germany's conscription decision.

HITLER'S DEMANDS.

London, 22.3.35.

The French and Italian protest Notes against Hitler's conscription decree have been rejected by Berlin on the ground that they do not take into consideration the actual situation.

According to the Daily Telegraph correspondent in Berlin Hitler has had a meeting with the British Foreign Minister, Sir John Simon, and has demanded for Germany an army of 500,000, equal air strength with France not less than 33 per cent of the British fleet tonnage.

Italy has decided that 200,000 conscripts due to return to civil life on April 1st must remain with the colours in view of the European political situation.

KELLOGG'S OPINION :THE POPE'S ENCYCLICAL.Pasadena, California,
22.3.35.

Kellogg, the author of the famous Pact, declares that there is no excuse for Germany's violation of the peace treaty but added that there was some truth in Hitler's claim that the other nations who had agreed to disarm had not done so. He further asserted that there was not going to be any war.

Washington has not decided upon any action, if any, that will be taken regarding Germany's violation of the treaty but there has been repercussion in the Vatican State where the Pope has prepared an encyclical which will probably contain references to the recent German developments.

"WHERE BLOWS THE WHALE IN WINTER"

Jack Hylton Shivers.

According to a recent number of Topical Times, Jack Hylton receives hundreds of manuscripts every month from people who are trying to write popular hits. "The song writing itch is universal" he said. Although every number is accorded a careful test few are worth orchestrating. The two qualities looked for - originality and topicality - are sadly missing.

A few months ago Jack received what purported to be an original hot number from a fellow in the Falkland Islands. It was called "Where blows the whale in winter?" And true to title the verses proceeded to unfold a vivid description of whale life in the Antarctic. What a subject for a hot tune! It's original anyway, but Jack says all it did to him was to send a cold shiver down his spine.

The West Falkland Annual Sports Meeting was held at Port Stephens on February 20th, 21st & 22nd last. The

weather throughout was extremely bad but it did not prevent some good racing being witnessed & enjoyed by the spectators & jockeys.

The "Prefecto Garcia" was the first in the harbour, bringing among her passengers the "Man with

the Camera" who was kept busy even after the visitors had left Mr J. Mandring did a roaring trade.

The "Lafonia" soon followed bringing with her more passengers from Stanley and when all the wool was shipped away in her there commenced the preparation of the dance floor in the Wool Shed with dressing rooms and refreshment rooms adjoining. Every man, every woman & every child were now doing their part to prepare for the arrival and comfort of the many visitors expected. At the week-end over 40 horses had been sent to Double Creek for the use of those travelling a long distance so that they would have fresh beasts for their last day's journey into the settlement and this act of courtesy on the part of the hosts was very much appreciated.

Weddell and Beaver Islands people also started to arrive by boat and at Fagen Inlet the "Penelope" and two cutters were to be seen anchored.

Altogether about ninety visitors had collected and were being made very much at home; they soon forgot their unpleasant ride through

heavy rains and everyone was in high spirits hoping that good weather would follow for the sports. A dance

We are deeply indebted to a correspondent who has kindly contributed this report of the West Falkland Sports on the 20th, 21st and 22nd of February last. The chief results have already been given in the "Penguin" and it is hoped in due course a detailed list will be available for publication.

was held each evening from Tuesday to Friday and although it was rather cold in the ballroom everybody seemed to enjoy themselves while the catering was all that could be wished for.

Wednesday morning was cold but dry and a start was made with the horse

events. Entries were very good considering the distance horses had to be brought and some keen and exciting finishes were witnessed, not one single complaint being made against the Stewards which speaks a lot for the sportsmanship of the jockeys under trying conditions. A Tote was run by Messrs H. Harding and J. Clement and was well patronised; some of the dividends paid out making one think that the lucky backers had had the information straight from the successful horses' mouths.

The two Fox Bay stations did not seem to be represented but of the first seven races run six different stations had a win. This shows how the prizes were being distributed.

Dave McKay opened with a win for Hill Cove in the Maiden Plate followed by G. Butler in the 300 yards with a win on "Squibs" for Port Stephens. "Squibs" proved to be the best sprinter of the meeting. "Rubicorn", owned by J. McAskill was the open champion of the day but the honours go to Roy Cove through "Kelper", ridden by Keith Betts, winning the Governor's Cup and the F.I. Bred First & Second Winners prize.

A lot should be seen of this young horse in the future - he is only four years of age. This is the first time Roy Cove has won the Governor's Cup and both owners and jockeys are to be heartily congratulated on this performance. "Ginger," their other entry, won the Consolation Race. Dave McKay's entry for the Governor's Cup ("Blackberry" - Hill Cove) went lame while "Money Collector" was entirely off form but "Glaxo" was at his best as also was "Whispering".

There were not a lot of entries for the Ladies' Maiden Plate to make a race but the other Ladies Races were very good indeed with Miss Evans winning the three of them on "Ivor", (2) and "Limerick." Towards the end of the day racing a couple of heavy squalls came on just as the last event was to be run, namely, the Sailors' Race. This was an extra on the programme but was not confined solely to sailors as the name would suggest and the spectators were left in doubt until the appearance of the jockeys as to what it really would be. But on seeing the fancy dresses of some of the "sailors" they forgot all about the discomfort of the weather and, judging by the screams of laughter and remarks, thoroughly enjoyed themselves at the antics of one "fair maiden" (?). There were eight entries and although one false start was made through a wellknown skipper crowding on all sail and running before it, all was well when he put the helm hard over and brought her up again. This time they all got off perfectly and a good race was run resulting in a win for Bert Fleuret, closely followed by "Miss Orack" second with the "Misses "Mack" and "Flowers" a tie for third place. The judges ordered the last two to run over again but the result was the same and only at the "third time of asking" could Miss "Flowers" succeed in beating her opponent.

Thursday was bitterly cold with a strong wind blowing, so the Committee decided to hold the dog trials in the afternoon. There were ten entries and five dogs succeeded in getting their sheep in the pen. Some excellent work was witnessed and speculation was strong as to whose dog would be the winner. The results showed Mr C. Robertson as first with a tie between G.

Sprules and A. Halliday for second place.

Friday was almost as cold as the previous day but a start was made with the gymkhana events so as to get them all off as soon as possible.

An unfortunate accident occurred when the Musical Chairs were about to commence. The horse that W. Flowers was riding slipped and fell on his leg which, on examination, was found to be broken above the ankle. Luckily Dr Pinns was on the spot and set it for him at once. He will remain in Port Stephens until it is mended when he will return to Weddell Island.

The foot events showed some good finishes. Stepping the 100 Yards brought a large entry and after this had been won by W. Betts his son Keith thought he would go one better and he won the mile after a splendid race. The men's tug-of-war caused a lot of excitement, the single winning the first pull and the married the second after a terrific struggle. However, the single men made no mistake in the final and slowly but surely pulled the married over the line to break a long sequence of wins by the latter. There is a different tale to tell of the ladies' because when they took up the rope one could only hope for a miracle to happen to help the single girls to pull their ever so much heavier opponents. Miracles do not happen in these cases and so the married ladies had an easy win.

The last event of the meeting was a very popular one and was named the "Caradoc Plate." The prizes for this were very kindly given by Mr B. Skilling of Port Howard from the money collected and presented to him in Stanley at Xmas time in recognition of his sporting running of "Caradoc." Unfortunately the horse was not seen at Port Stephens and the Westers were not able to see this racer in action. There were eight entries and the race was over 450 yards for F.I. Bred horses. "Squibs" with G. Butler up again proved his worth and won from "Glaxo" with "Limerick" third.

This ended the racing and everyone now looked forward to the final night's dancing with the drawing of the Sweepstake and the presentation of the Prizes.

The dance was well attended and the sweepstake was drawn under the supervision of Mr A. Ruttler. The first prize of £75 went to Roy Cove,

(Continued over.)

(Continued from page 3)

Mr Olai Johnsen being the winner. Mrs C. Robertson kindly presented the prizes and great was the laughter when Miss "Crack" again appeared in her fancy rig-out to receive her prize for the Sailors' Race and when on Jimmy Robertson's name being called for a race under 7 a huge Jim appeared for the prize and accepted it, altho' we believe his age to be somewhat more than that. At the end of the distribution Mr K. Luxton called for three hearty cheers for Mr & Mrs C. Robertson - these were loudly given for their very great hospitality.

The dance then proceeded until the early morning when the last few couples decided to get a little rest before commencing their journey home on the morrow. One and all felt that they owed a deep debt of gratitude to Mr & Mrs Robertson and all the people in Port Stephens who had done so much to make their stay a pleasant one during the week's sports.

THE EUROPEAN SITUATION.

London, 23.3.35.

A conference is taking place on Saturday in Paris focusing the opinion of all quarters, and according to the Daily Telegraph Mussolini is regarding the prospects with considerable concern envisaging the danger of a division of policy.

Meanwhile there is an optimistic outlook from France where the Senate has ratified the recent Franco-Italian Agreement by an overwhelming vote, M. Laval being a warm personal tribute to the Duce stating "As a result of the friendship with Italy the international atmosphere is better. Germany has only slowed down the hour of peace."

Poland's attitude towards France has noticeably improved since the proclamation of Germany's conscription decree and Mr Eden's Warsaw visit is cordially awaited.

A Washington message states that Cordell Hull has inferentially expressed the United States disapproval of Germany's rearmament and has laid stress on the necessity of a strict observation of the treaty provisions. It is believed that Hull's announcement

presages some formal action by the United States.

A Reuter message from Bucharest states that the Double Entente and the Balkan Entente will mobilise against any of the former enemy countries following Germany's conscription example.

AUSTRALIA & MEAT IMPORTS.

London, 23.3.35.

The Australian Premier, Mr Lyons has made immediate contact with the Ministry on his arrival and has already called upon the Premier and Mr Baldwin.

Arrangements for negotiations with regard to the meat imports are to be made on Monday while it is emphasised that all such conversations between Empire representatives and British Ministers are quite informal.

TRADE UNIONS DISAPPROVE

OF STRIKE.

London, 23.3.35.

The Trade Unions share with the Employers complete disapproval of the prospective strike of the building operatives engaged in the Guinness building, Park Royal, on the question of a brick-layer's Saturday time sheet. The Union leaders also denounce the aircraft workers strike in Gloucester and Kingstown, castigating the unionists' action as ridiculous.

ITALY & ABYSSINIA.

Geneva, 23.3.35.

An Italian telegram relative to the Abyssinian Appeal is couched in conciliatory terms and has been received by the League Secretariat. It describes the Italian measures as preparatory and defensive. The Note adds that Italy is prepared, if the Teirent negotiations break down, to collaborate in a commission provided for in the 1928 Treaty.

THE FATE OF EUROPE ?

Paris, 23.3.35.

The first of a series of International Talks to-day, which may determine the fate of Europe, had three important results. The British, French and Italian delegates achieved "complete unity of purpose" on their attitude towards German conscription in the first place; also it was agreed that Sir John Simons' discussions with Hitler on Sunday should be based on the London communique of the 3rd of February; & it was also decided that the French, British and Italian Foreign Ministers should meet for a further conference at Stresa in April, about the 11th, on the conclusion of the British visits to Berlin, Moscow, Warsaw and Prague, states the Sunday Times.

While the talks are in progress Signor Mussolini has announced an immediate increase of the Italian army by 160,000 men, giving Italy one million men under arms, states Reuter.

It is reported from Washington that an immediate increase of the United States army by forty per cent has been agreed upon by the Joint Committee of the Senate and the House of Representatives, considering the 400 million dollars War Department Appropriation Bill, states a Reuter message.

Soviet circles, a message from Moscow reports, state that they believe Germany's fait accompli ought to be answered by an immediate signing of an Eastern and other mutual assistance pacts, "the defensive nature of which would not be changed by Germany's refusal to sign them."

The Soviet press betrays the deepest concern felt by official circles over German conscription & fear that Britain may leave the Soviet isolated in the face of a Nazi menace and at the same time "reducing France to the rank of a second rate power" in an attempt to reach terms with Hitler at any price.

London, 25.3.35.

The beginning of a series of British diplomatic missions took place on Sunday when Sir John Simon and Mr Anthony Eden met Hitler in Berlin.

Thousands of people lined the

Berlin streets to see the British Ministers but no enthusiasm was evinced.

Hitler is expected to adhere to his decision for parity on the land and in the air but inspired comment, says the Daily Telegraph correspondent, has communicated the information that the Leader is prepared to negotiate for armament limitation.

France and Italy at the Three-Power Conference on Saturday expressed satisfaction over Britain's decision to conduct the Berlin talks.

Mussolini declared that "There are a million bayonets behind his desire for peace."

It is reported that the Duce's action of calling up a further 160,000 men to the Colours has been inspired by fears of the recent developments over the new threat to Austria's independence. In a speech on the situation yesterday the Duce said "In a nebulous and uncertain political atmosphere Italy fears for the world picture of calm because she is strong in spirit and arms. Nothing will find us unprepared. We are ready for any task Destiny sets before us. If needful we will overcome all obstacles in our power as with an irresistible impetus."

Italy, a further Rome message states, was stunned when the mobilisation order was made known.

INDIAN INVESTORS RUSH.

Bombay, 23.3.35.

An army of special clerks has been mobilised in all the big centres to cope with the astonishing rush by small investors to subscribe for shares in the Indian Reserve Bank whose capital is £4,000,000.

Such a big over-subscription is anticipated by the public that unofficial dealings at a premium are taking place before the allotments are made known.

BRITAIN'S CROSS-COUNTRY WIN.

Paris, 24.3.35.

For the 22nd time England has won the International cross-country race with J.T. Holden of Tipton Harriers, Staffordshire, first man home. Scotland was second, France third & Wales fourth.

ROOSEVELT FLOUTED.

Washington, 23.3.35.

Flouting the President's clearly expressed wishes the House of Representatives has passed the Patman Bill for the immediate payment of 2,000 million dollars in bonus for war veterans after an acrimonious debate.

The bill is definitely an inflationary measure involving a note issue to the bonus total.

There is a strong possibility that the Senate will approve of the bill but it is equally certain that the President will veto the proposals for payment.

Washington, 23.3.35.

CORRESPONDENCE.

Poppy Day Thanks.

The Editor,
 "Penguin",
 British Legion,
 Eccleston Square,
 London.
 12th February, '35.

Sir,

I should be very grateful if you would allow me the hospitality of your columns to acknowledge with very sincere thanks the sum of £58. 11. 9d received through the Rev. H.E. Lumsdale, Dean of Stanley, on account of the 1934 Remembrance Day Appeal for HAIG'S FUND in the Falkland Islands, it being understood that there are yet one or two collections still to come in.

I am deeply grateful to all in the Falkland Islands who have contributed with such generosity and I would assure the sympathetic donors that the funds they have provided will be administered by the British Legion in the best interests of those for whom we appeal.

At the same time I would take this opportunity of assuring the Rev. H.E. Lumsdale, and Miss D. Atkins, and others who have assisted with the work of organisation, as well as our good friends the Poppy Sellers, that their united efforts have been a great asset to the Fund and are deserving of the highest praise.

Once again the Nation has shown by the generous buying of Poppies, that the sacrifices of the War are remembered as keenly and gratefully as ever. To those who served and now, through causes beyond their control, are beneficiaries of the British Legion, this proof that they are not forgotten will give renewed heart and hope.

In conclusion may I renew our expressions of very real appreciation and thanks to all kind friends in the Falkland Islands and send them all our good wishes.

Believe me,

Yours faithfully,

W. Willcox, Capt.,
 Organising Sec.

FORTY-TWO YEARS AGO.

The most destructive fire which has ever taken place in Stanley broke out in the Shamrock Public House at 12.0 o'clock, Tuesday night, October 3rd. Miss Lallman observed as she passed a window in her home what seemed to be a huge lamp burning in the bar, she immediately called her father's attention to it; he ran up to the Shamrock & roused the inmates - Mr & Mrs Pinazo. Casimiro Pinazo remained in the house, saying that he would come out in a minute, but overcome apparently with the smoke he never did so. A small portion of the head, the body and one hand were found - where the bar had been - after the fire had burned out. It is supposed that he had gone back for his money. The latter - gold and silver - were found more or less melted near to where it was known he stored the same. B. Wilmer on the first alarm ran down and rang the dockyard bell, a gun was fired, and the Colonists turned out in large numbers, but the fire by this time had obtained complete mastery over the house, which was burned to the ground with the Pensioners Cottage attached to its west end. The latter had only been occupied a week before by Mr & Mrs Dix. All the furniture in the Shamrock was burned. The fire engine was brought out and willing hands set to work to save the adjoining houses - Mrs Ryan's and Mrs Hockings's to the east and Mr Clether's to the west. These houses received no damage whatever. It was a great cause of thankfulness that when a little wind there was came from the south-west and thus blew the heat and sparks across the road and gardens opposite. The burning house was a grand sight and lighted up the whole settlement. The Shamrock and furniture were insured. Such was the melancholy end of one who for many years has been resident in the islands - forty of them having been spent as a gaucho in the camps.

THE SITUATION IN EUROPE.

London, 26.3.35.

The Berlin talks with the British Ministers have opened with goodwill and lasted seven and a half hours, states the Daily Telegraph, and though the utmost secrecy is being maintained it is known that Hitler has rejected any mutual defensive alliance which includes Russia which is referred to in the London declaration as an Eastern Pact.

Germany is also willing to join the Air Convention and will consider returning to Geneva on a basis of an immediate and non-restricted recognition of equality.

Titulesco, as Spokesman of the Little Entente (Rumania, Czecho-Slovakia and Jugo-Slavia) conferred with Jevtitch in Belgrade and it is reported that in the event of Austria, Hungary and Bulgaria following Germany's conscription example the Little Entente will immediately break off diplomatic and economic relations.

In Paris, M. Flandin, took the opportunity during a debate in the Chamber to call on the nation for more confidence in herself whereby if she did her perils would disappear.

Later reports are to the effect that the British Ministers have elicited that Germany regards the armed strength of a potential navy as a point that is still open for negotiations in certain circumstances while her return to the League is dependant upon a satisfactory disposal of the French appeal thereto.

ITALY ' ABYSSINIA.

Rome, 26.3.35.

Italy has made another protest to Abyssinia relative to a tribal raid on an Eritrea patrol on Saturday when a soldier was wounded, states the Daily Telegraph correspondent.

The Abyssinian Charge-d'Affaires states that the Government has refrained from concentrating troops in order to give the League proof that it does not want war, notwithstanding the threat of the Italians.

BELGIAN CABINET FORMED.

Brussels, 26.3.35.

The Vice-Governor of the National Bank, Van Zeeland, is now Premier and Prime Minister and has succeeded in forming a Cabinet following yesterday's agreement in principle with the Catholic, Liberal and Socialist parties.

NEWSPAPER CORRESPONDENTEXPULSED.

Rome, 25.3.35.

Dr Paul Ullmann, the German correspondent of a Berlin and Hamburg newspaper syndicate, has been expelled.

He is accused of sending abroad reports which, if published, would have endangered the internal security of the State.

Another Rome correspondent of the Syndicate was expelled on the 24th of March.

POLAND'S "NEW CONSTITUTION."

The Diet passed a reform bill by 260/130 votes today.

The new constitution is interpreted by the press as being mid-way between Fascism and Democracy but with strong possibilities of development along Orthodox Fascist lines.

Great powers have been conferred upon the President including : one - the right to appoint and dismiss members of the Cabinet, Commander-in-Chief of army and Supreme Court President; two - appoint one-third of the Senate of twelve members; three - to summon and dismiss Parliament; four to negotiate and ratify agreement with foreign powers and to decide as to peace or war. It is assumed that Marshal Pilsudski will accept the Presidency when the new constitution becomes effective, states the Daily Telegraph correspondent.

SHIPPING CASUALTIES DEBATE.

Sea Losses Enquiry.

London, 26.3.35.

A spirited debate developed in
 the House of Commons to-day on Brit-
 ish shipping casualties during the
 past winter, several Labourites com-
 plaining that the Board of Trade had
 been insufficiently active in in-
 specting vessels and allowing a ship
 in bad repair to go to sea.

Mention in particular was made
 to the losses of the Lacrescenta,
 Saxilby, Millpool, Usworth and Blair-
 gowrie.

The President of the Board of
 Trade, Mr W. Runciman, in reply an-
 nounced that an investigation on the
 broadest possible lines into the
 recent shipping losses would be the
 subject of a Court Enquiry presided
 over by Lord Merrivale. He said
 that the Labourites had suggested
 that a certain number of vessels were

HITLER PRODUCES MAPS.

London, 27.3.35.

The chief outcome of the Berlin conversations is that answers are now available on all points raised as to Germany's rearmament while Hitler, however, remains uncompromising on practically every subject especially on armaments and security.

The German demands involve substantial concessions and according to one estimate the minimum demands for a German force would result in a fifty per cent stronger army than that of France.

It is learned that during the conversations Hitler produced maps indicating the army strengths which surrounded him and Germany with particular emphasis laid on the Soviet apportionments, and these were, in effect, Hitler's defence for his conscription decree.

Further difficulties have arisen owing to the Memel death sentences on Nazi conspirators but there is salvation on account of later news stating that these have been reduced to life sentences of imprisonment.

In Paris M. Laval, in addressing the Senate on the recent Franco-Italian agreement, declared that he would not modify his demands for the forthcoming international negotiations at Stresa.

JAPAN LEAVES THE LEAGUETO-DAY.

Geneva, 27.3.35.

The Japanese withdrawal from the League of Nations becomes effective to-day and the Secretary General, M. Avenol, has issued a statement expressing regret adding that the League had been given to understand that Japan, having no further rights or obligations, intends pursuing a policy of international cooperation which he characterises as causing great satisfaction.

A Tokio message defines the Japanese view by describing the withdrawal as a most sagacious act since the Anglo-American internationalistic ideas have been

shaken off and Japan's Far Eastern prestige enhanced.

Recent events have convinced Japan that multi-lateral pacts are dangerous and in future she will probably favour bi-lateral pacts similar to the one that she has been negotiating for with China.

BELGIUM GETS TOGETHER.

Brussels, 27.3.35.

On being informed of the basis of the new ministerial programme, the liberal groups of the Chamber and Senate are forming a political entity in defence of the France and have decided to support the government; the Catholic group has come to the same decision.

Van Zeeland's Cabinet took the oath yesterday and subsequently held the first Cabinet Meeting.

INDIAN MOTION CARRIED.

New Delhi, 27.3.35.

The Government has again been defeated in the Legislative Assembly on the adjournment motion relative to the India-Burmese financial adjustment.

The European elected members remained neutral and the motion was carried by 78/36 votes.

MANCHUKUOAN OIL MONOPOLY NOTE.

Tokio, 27.3.35.

The Foreign Minister, Hirota, has despatched a note to Britain denying that the Manchukuoan oil monopoly was a breach of the treaty obligations and, according to the Daily Telegraph correspondent, he points out that Japan cannot agree to accept the responsibility of Manchukuo's actions since her independence was a reality but Japan was prepared to mediate.

It is also disclosed that 32,000 ounces have been sold to the Bank of Mexico and 10,000 to Guatemala while gold is available for any other would-be purchasers with payment either in silver or commodities.

According to Reuter some Wall Street circles regard the action as a gesture of willingness to cooperate in the restoration in world monetary stability while other observers regard it as foreshadowing a gold bloc breakdown.

EUROPEAN SITUATIONSTILL CRITICAL.

London, 28.3.35.

Summing up the results of the Berlin Talks from the continental press reports, the Daily Telegraph states that the German official quarters consider that the talks were of unsensational nature revealing nothing substantially new. But this is as was expected.

Italian reaction shows a wide breach with German views but remains critical of Britain's policy believing that France would have followed Italy's lead and called up the 1911 conscripts had Downing Street not interfered.

Certain Italian generals openly recognise that the talks have failed as a result of which the Stressa Conference gains more importance with the only question being as to whether there can be cordial cooperation between the European powers or alternatively a general renunciation of agreements.

The Rumanian Foreign Minister Titulesco, after conversations with Yugo-Slavia and Czecho-Slovakia's Ministers has left for Paris and London. He states that "despite the gravity of the international situation we are persuaded that peace can be safeguarded," adding that the Little Entente was doing everything possible to prevent a European split into two opposing camps.

According to a message from Moscow, the Soviet press alleges that Hitler is playing up the "Soviet Menace" as an excuse for rearmament and the publicist Radek advocates that the Soviet & England should cooperate in a peaceful cause to avert a disastrous war.

A Rome message announces that the Chamber has applauded the Aviation Secretary's Note on the Air Estimates with the six year building plan reduced to three & with the expenditure next year amounting to one million lire for the provision of 275 m.p.h. bombers carrying 3,300 pounds of ammunition and with a cruising range of 1,200 miles at 26,000 feet, and for two-seater fighters that will attain 310 miles an hour, air training centres that will turn out 400 pilots annually.

FATHER MIGONE'S NARROWESCAPE.

Last night about 11.15 o'clock Father Migone awakened to find his room full of smoke and a flame leaping up the wall by the fireplace with the varnish crackling furiously. In spite of his infirmities he managed to get out of bed and with great presence of mind seized a bucket of water to douse the flame, at the same time calling for Father Drumm to help him.

Fortunately Father Drumm quickly came while two passers-by in the street - Mr W.D.A. Jones & Mr W. Gleadell - heard Father Migone's calls also, so that assistance was very soon procured.

Mr J.W. Grierson who lives across the road and is the Superintendent of the Fire Brigade was summoned at once, he bringing with him a minimax, while the Chief of the Police, Mr S.H. Hookey also arrived with another minimax both of which were discharged in putting out the fire.

Father Migone's timely action undoubtedly saved his life for his bed was less than two feet from the flame.

It was fortunate too that the night was very calm for had a strong wind been blowing the outbreak would have been more intense.

It is believed that a small piece of cinder or ash must have become lodged in a crevice of the floor by the fire-place and a downward draught had caused it to ignite the joice underneath the floor board by the fireplace. Happily only a little damage was done.

WORKING MEN'S CLUB WHIST.

Nine tables were in use last night at the opening whist drive of the season at the Working Men's Social Club where Mr W.J. Hutchinson was M.C.. The winners of the prizes were Miss M. Petterssen (306) - 1st, Miss N. Biggs (239) - booby; Mr G. Bowles (313) - 1st, Mr V.A.H. Biggs (262) - booby.

RUSSIA ELATED.

Moscow, 29.3.35.

Through two miles of streets decorated with Union Jacks entwined with the Soviet Banner, Mr Anthony Eden, proceeded to the British Embassy yesterday prior to a three hours' conference with the Russian Foreign Minister, Litvinoff and, according to the Daily Telegraph correspondent, he will see Stalin on Friday (to-day), this being the first occasion that the Soviet ruler has agreed to meet a foreign diplomat - this is taken as an indication of the Soviet's appreciation of the value of the visit.

Another remarkable incident was the proposal of the Royal Toast by Litvinoff at last night's banquet to Eden, this being the first occasion that such a ceremony by a Soviet Minister has occurred in the country.

It is gathered that yesterday's talks gave the details of the Berlin conversations with Litvinoff stressing the importance of the Russian Attaches supporting the League as the instrument for international pacification and security.

Exclusive of their Anglo-Russian character, the President's agreement to the talks with Eden are approved of by Paris and great satisfaction is expressed that M. Laval will visit Moscow immediately after the League meeting on German re-armament.

It is anticipated that Stalin's conversations will advance and extend the scope covering the Anglo-Russian and Far East questions.

DIVERGENCE IN FUNDAMENTALS.

Berlin, 29.3.35.

Press comments stress that the principal outcome of the Simon conversations lies in the fact that there is a divergence in fundamentals which has been clearly revealed & both sides fully realise the relative positions. Nothing has been done to breach the gulf in collective security.

Mrs Thompson, who denied the charge, was represented by Mr Alex. Martin. The chief witness for the prosecution was Mr W.J. Hutchinson, the Stanley agent for Mr Myles, while other witnesses called for the Crown were Mrs M. Waghorn and Master C. Reive. The witnesses for the defence were : Messrs J.J. Halliday, E.F. Thompson, W.C. Hansen and C.H. Thompson while Mrs Thompson also gave evidence.

The hearing lasted about an hour and in giving judgment the Magistrate said : "The evidence on both sides in the case is more or less inconclusive. In the absence of actual brand or ear-mark it is difficult to say with absolute certainty that any animal is a particular animal and, although Mr Hutchinson's evidence is strong and merits serious consideration, the Court is of the opinion that the evidence in support of Mrs Thompson has accumulative effect which is equally strong and consequently the Court rules that the cow belongs to Mrs Thompson and that she shall continue in possession of it.
