THE ABYSSINIAN CRISIS.

Outlook Darker.

London, 30.9.35.

The text of Sir Samuel Hoare's letter to the French Ambassador, relative to the latter's enquiries concerning security, has been issued and this affirms that Britain stands for "A steady and collective resistance of all acts of unprovoked aggression" and adds that so long as the League preserved itself by its own example Britain would live up to the full principles of the Covenant.

Official circles in Paris express their entire satisfaction stating that nothing could be more definite in providing a complete reply to the French enquiry.

Meanwhile the crisis outlook is becoming darker with the Abyssinian Emperor's telegram to Geneva declaring that unless precautions are taken against Italy's threatened aggression mobilisation could not be delayed and this is backed by the Daily Telegraph's Addis Ababa correspondent reporting that according to current feeling hostilities will break out on the 10th of October.

The French press, in reviewing the British position considers it serious, for sanctions would mean war. But it points out that economic and financial sanctions mean only that non-League members will profit. It is further suggested that a long drawn out conflict will open the door to German aggression in Europe.

Italian circles envisage a central European bloc in the event of her leaving the League, composed of Germany, Poland and Hungary while the French press follows this with the opinion that there will be a contra-bloc of the Soviet and the Little Entente.

United States comment praises the League Council's action in upholding the Covenant as a great world event with the League reverting to its original and noble purposes.

MEMEL ELECTION CHAOS.

Memel, 30.9.35.

The complicated voting system for Sunday's election is proving completely unworkable leading to chaos at the polls with queues moving only five yards in three hours, states the Daily Telegraph correspondent.

The latest report is that the polling was extended over Monday.

The election generally passed off without a disturbance but at Frokulus, Memelanders and Germans clashed when revolvers and knives were used as a result of which many were injured with arrests being made. One of those arrested was the Lithuanian candidate Zaliskis.

BRITISH AIR DEVELOPMENT.

New York, 30.9.35.

Reuter reports that the United Aircraft Corporation has disclosed that British Aircraft Limited has acquired the manufacturing rights of the Sikorsky Clipper flying boat but officials refuse to comment on the report that this craft is destined for the projected Australian to New Zealand service although the Australian Air-Commodore Sir Charles Kingsford-Smith attended the Sikorsky's tests on Saturday.

The sum involved is reported to be 500,000 dollars and is understood to involve the delivery of one specimen machine in Britain early in 1936, probably by air.

DEATH DUTIES OVER ESTIMATE.

London, 30.9.35.

The death duties from the estate of the late Lord Woolavington brings the half year total to £50 millions which is £10 millions above the estimate.

SOVIET AND JAPAN.

Moscow, 30.9.35.

The Kremlin spokesman, Rudek, in a press article suggests that the Soviet is prepared to consider economic concessions to Japan in the Far East for the purpose of assuring peace, but simultaneously attacks the military party.

SAN CARLOS WEDDING.

(by a Special Correspondent.)

A wedding took place at San Carlos on Saturday, the 14th September between Lars, second son of Mr & Mrs A. Berntsen of San Carlos, and Marie, only daughter of Mr & Mrs C. Andreasen of Port San Carlos before Mr M.G. Creece, Registrar.

The bride who carried a bouquet of prettily arranged artificial flowers, wore a smart gown of Royal blue silk trimmed with touches of grey and a veil of white net surmounted by a wreath of orange blossom. She was attended by her father and a bridesmaid, Miss Agnes Berntsen, who was daintily dressed in a pale pink silk frock. The best man was Mr Albert Hills, Junr., a friend of the bridegroom.

The ceremony was held in Mr A. Berntsen's house and was followed by health drinking and a wedding breakfast at which a toast was proposed by Mr J.F. Bonner, Manager of San Carlos Station. Photographs of the bridal party and of the 4 tier wedding cake were afterwards taken. The cake, which was decorated with a novelty bride and bridegroom, was made by Mrs A. Hookings whose skill in this capacity is well known.

A dance was held in the evening in the tastefully decorated cook-house where some 50 guests enjoyed a happy time. Excellent music was rendered by a number of players among whom Albert Alazia, David McMullen and "Tam" Sheddon deserve a special word. During the interval for refreshments the guests were given the pleasure of songs by Mrs Berntsen, mother of the bridegroom, which were received with much applause. With the chairing of the happy couple around the dance floor to the singing of "They are jolly good fellows" followed by "Auld Lang Syne" the dance came to an end shortly after 5.0 a.m..

Later in the morning Mr & Mrs L. Berntsen set off for Port San Carlos where they are to make their future home, bearing with them the good wishes of their many friends.

IMPORTANT FRENCH CABINET

MEETING.

New Development In Abyssinian  
Dispute.

Paris, 1.10.35

Although official circles neither confirm nor deny the report of the existence of a British questionnaire dealing with a hypothetical case of an unprovoked attack by Italy on the British fleet, and French reaction, such a situation is occupying close attention and an important Cabinet meeting has been convened for Thursday under the presidency of M. Lebrun, to deliberate on the international situation, states the Daily Telegraph correspondent.

Elsewhere consideration is being given to the British reply to France and while Geneva expresses satisfaction on this important step, particularly interesting to smaller nations, Berlin makes no official comment.

The German press points out that Britain depends upon Europe for collective peace preservation but will have to decide from time to time whether she has a sufficient following in the League to permit the application of sanctions.

Inspired Italian press attempts to present the note as a new departure in British policy and a complete justification of Italy's measures against Abyssinia.

Addis Ababa, 1.10  
1.10.35.

The Emperor has signed the decree for a general mobilisation, but out of respect for the League its proclamation is being delayed for a short period.

The Daily Telegraph reports the evacuation of Italians, including the consuls, from the interior as proceeding slowly.

It is further asserted that Italy will only attack when this evacuation has been completed.

A Bombay message reports that underwriters have informed export houses that they are not willing to accept any cargoes under the Italian flag while the war risk rate, recently increased forty-

fold on all cargoes from India via the Red Sea and the Mediterranean, has now been cancelled and there will be only day to day rates henceforth.

120 MILLION-DOLLAR DAM.

Boulder City, 1.10.35.

Reuter's correspondent reports that President Roosevelt, in attending the ceremony marking the completion of the Great Boulder Dam, costing 120 million dollars, declared that the government "had thrown in the clutch to start the industry's wheels" and private enterprise must now take the responsibility for maintaining the increased employment.

THE MEMEL ELECTIONS.

Memel, 1.10.35.

As the result of a majority in the Diet the elections have been extended with voting being carried out without Sunday's confusion.

The only serious incident was at Juknaiciai where pro-Germans created a disturbance by wrecking the polling stations and injuring officials.

Quiet, however, has been restored, and seven German ringleaders have been arrested.

BRITAIN'S FINANCE.

Mr Neville Chamberlain, the Chancellor of the Exchequer, speaking in London last night and commenting on the country's finance, said that the revenue was encouraging but he could not say anything beyond that.

On the other hand the expenditure was a great deal larger than estimated. He did not anticipate an unfavourable balance at the end of the year but it was clear that he would not have a very large surplus.

U.S.A. BILATERAL AGREEMENT.

Washington, 29.9.35.

It is announced that President Roosevelt has given his support to Mr Burgin's League resolution advocating the conclusion of a bilateral agreement between countries for the reduction of tariff barriers & dealing with currency and commercial questions, particular stress being laid on the President's desire for the reduction of restrictions on international trade.

State Secretary Hull has also informed the League Assembly that closer accord on international economic programmes for the restoration of industry and commerce meets with United States' approval.

BELGIAN CABINET TO HEARIMPORTANT STATEMENT.

Brussels, 29.9.30.

Following on the visit of Herr Hitler's disarmament emissary Ribbentrop during which he called upon the Premier, the Chamber and the Senate, the Foreign Affairs' Committee has convened a meeting for Wednesday or Thursday to hear an important statement.

Subsequent to seeing Hitler on his return to Germany, Herr Ribbentrop intends visiting Poland. It is understood that Ribbentrop will be seeing Hitler in company with the Hungarian Premier, Dr Gombos and Von Neurath.

It is reported from Warsaw that the "hunting party talks" between Herr Goering, Dr Gombos and the Polish Ambassador Lipski have terminated.

FAVOURING A MONARCHY.

Athens, 30.9.35.

Premier Tsaldaris has made a decided pronouncement favouring the return of the monarchy, stating that this is essential to ensure the constitution functioning normally.

But the labour leaders in a public declaration say that their party would never recognise the restoration and intend fighting with all the means at their disposal to preserve the Republic.

CRACK RIFLE SHOT.

A reader has submitted the following newspaper report which should be of great interest to those of our subscribers following shooting.

"One of the world's best all-round marksmen, Mr Maurice Blood, has decided not to fire another competitive shot on the ranges.

"A member of the Stock Exchange, he has won many prizes, so many that the nearest guess he can make at the total is 'two or three thousand' including club spoons.

"45 years ago he found the bulls-eye 35 times consecutively at the 1,100 yds - a record for England & also for the world it is believed.

THE "GENTOO."

After a stay of nearly a month and a half in Stanley the "Gentoo" was expected to leave Stanley last night for Pebble Island being towed by the "Fort Richard."

It will be remembered that after setting out early on Sunday morning, the 18th of August, she was back in Stanley Harbour the same night with engine trouble, her crank-shaft bearings proving faulty.

Since the 3rd of September she has been under the direction of Lloyds' Surveyor and new bearings were fitted. But several full speed trials in Stanley Harbour have produced no better results.

The "Gentoo", which is taking with her the motor-boat of her captain, Mr I.B. Steen, will, we understand, be able to do her ordinary season's work among the many islands that comprise Messrs Dean Brothers station but will not be able to come to Stanley again until a new crank-shaft arrives from England and is satisfactorily fitted.

The only passenger on board her is Mr A.G. Barton of Pebble Island.

FUNERAL.

The funeral of the late Mr James Cantlie, who died on the 29th of last month, took place on Tuesday, the service being held in the Tabernacle by Pastor W.F. McWhan assisted by Mr A. O'Neill.

Mr Cantlie, whose death is greatly deplored by those who knew him, was born in Morayshire, Scotland and before coming to the Falkland Islands thirty-four years ago this month had been at work for a few years in Glasgow. He came out to the Colony as an employee of the Falkland Islands Company with whom he served until last January when his

health broke down and he had to leave the Camp. He had been engaged in labouring and shepherding and was leading shepherd hand for eleven years.

He has been married for twenty-seven years and is survived by his widow, two sons and two daughters to whom the sympathy of all is extended in their sad loss.

FORTY-TWO YEARS AGO.

(From the Falkland Islands Magazine, August, 1893.)

It has doubtless been a puzzle to many as to how Carcass Island came by its peculiar name. I think the following will fully explain:

Many years ago, when Carcass was first inhabited, it was noticed that at the N.W. end of the Island, skirting the beach, there were several high mounds covered with green tussock. In the course of time the tussock was destroyed, and it was discovered that the mounds consisted almost entirely of sand. This sand was soon dispersed in all directions by the high winds, leaving exposed hundreds of entire skeletons of sea elephants and the bones of many birds. After a time, stones, apparently used for building up try works, were visible. An old-fashioned bottle was discovered. It is evident that Carcass must have been frequented, years and years ago, by sealers, and that to the carcasses of the sea elephants the Island owes its name.

WAR IMMINENT.

Rome, 2.10.35.

The nation is convinced that the Abyssinian campaign is about to commence, states the Daily Telegraph correspondent, with the press emphasising that the Negus has not withdrawn any troops from the frontier.

Meantime all industries and businesses connected with military supplies are speeding up to capacity.

Addis Ababa messages also indicate that an immediate outbreak of hostilities is expected and on both sides extensive first aid preparations are being made.

The Italian consuls at Adowa and Harrar closed on Monday and activity is centred at the Italian Legation at Addis Ababa.

Geneva reports that the Women's International League for Peace has sent a letter to the Queen of Italy urging her to use her influence to prevent war while from Florence it is learned that three prominent finishing schools are closing down and transferring to Brussels owing to an anticipated shortage of food.

The Bank of Italy official statement shows that the gold reserve declined between September the 10th and 20th by 229 million lire, approximately 5 % while the Treasury Bond and foreign bank note reserve dropped 43 million lire approximating 10 %.

- o - o -

Paris, 2.10.35.

Political circles were not surprised when the British query relative to the Mediterranean was officially confirmed and the whole of the unrest which has arisen centres about the query's details and the French answer, states Reuter.

The press generally objects to the French commital by giving assurances and the view is expressed that while the League principles should be respected France should not participate in sanctions.

It is now understood that M. Laval will not hold a Cabinet meeting until the results of the British Cabinet meeting are available.

Rome views the query to France as an unfriendly act, reiterating that Italy has been at pains to avoid conflict with Britain.

MUSSOLINI SPEAKS TO ITALY.

Yesterday Mussolini broadcast to the whole of the Italian nation a speech the context of which is as follows :

"A solemn hour in the history of the fatherland is dawning. Twenty million Italians are assembled at this moment all over Italy. This is the most gigantic demonstration ever known in human history - Twenty million of one heart, one will, one devotion.

"This demonstration means that Italy and Fascism is one & indivisible. For many months past the wheel of fate has been moving faster and faster towards the signal goal.

"It is not only the army that is marching towards this goal but forty-four million Italians that are all marching in step. All are united because they feel that they are the victims of the greatest injustice which denies us a place in the sun. When in 1915 Italy decided to share the destiny of the Allied Powers many Italians were against it.

"Through participation in the World War, Italy lost six hundred and seventy thousand dead, four hundred thousand crippled and one million wounded.

"When at the end the Powers assembled to conclude a deplorable peace only the crumbs of a great colonial booty fell to our share.

"For thirteen years we have been patient while the circle has been closing in around us, threatening to choke us. Now, we have had enough.

"I dare believe that the real French people would not endorse sanctions against Italy. The six thousand who died on the field of Bligny, whose bravery commanded every admiration, would turn in their graves. Until I have proof to the contrary I refuse to believe that the British people want bloodshed and to see Europe plunged into war to defend an African people who are barbarous and unworthy to be counted among civilised peoples.

THE FALKLAND ISLANDS IN 1838-9.

## Adventures With Mr Sullivan &amp; Captain Fitzroy.

Through the courtesy of one of our readers we are able to publish the following extremely interesting account of a six months' residence in the Falkland Islands in 1838 and 1839, printed in an American paper "The Albion" on Saturday, the 4th of April, 1840. The article is an extract from a book by I.B. Mackinnon, R.N., First Mate of H.M. Cutter Arrow, published by Baily and Co., London, 1840, the title of which is "Some Account of the Falkland Islands."

"The latest particulars respecting these important islands, and so famous in political controversy, afterwards neglected, and almost forgotten, and now in good time we trust, again brought under the notice they deserve, by the few unpretending pages before us. The writer reviews the early history & mutations of the Falklands, mentions the settlements made upon them, and the circumstances of their destruction; describes their climate, soil and capabilities; & 'inter alia', tells us their present condition, as British : -

"The wild cattle are certainly magnificent animals, and numerous in the east island. They are rapidly increasing now that foreigners and marauders are kept off, although there is still a disproportionate number of bulls. It is very singular that on the north side of this island, as far as Port Pleasant, the cattle are generally of a dark colour, some bulls being of the most jetty black, with long shaggy hair about the head and neck; to the southward they get lighter and lighter, until, at the extreme south at times you meet with whole herds of beautiful white. The bulls are much larger in proportion to the cows; some of them seem of a different breed, from the great height and development of the shoulder, and comparatively low quarters; these are generally found very cunning and ferocious and most dangerous to attack. From the collective opinions of Mr Sullivan, the Capataz of the Gauchos and my own observation I should think that thirty thousand head would be a moderate computation of their numbers, nearly one-third of which are bulls. The wild horses never leave the north side of the island, which is most singular, as

there is no obstruction; it has never been satisfactorily accounted for.

"They are excessively shy and timorous to a party, but Captain Fitzroy observes that they will form a circle round a single man, and prance upon him; however, a musket will readily disperse them.

"Their average height is about fourteen hands, two inches, lighter built than the generality of South American horses, with no great powers of endurance, and sadly cow-hocked or cat-hammed; but, to make some amends they are as active as cats, and have very well-shaped fore-legs, the fore-arm long, muscular and strong, a short flat shank, with well bent pastern. The stallions as well as the bulls, are very fierce and pugnacious with one another. One horse, a fine stallion, which was shot by Mr Sullivan, had the near hind leg, just above the hock joint, broken (we supposed by fighting.) Nature had gone a long way towards a cure, and no doubt remains on my mind that he would have quite recovered had not our party come suddenly on him. He seemed to gallop off with a slight lameness, and even after Mr Sullivan's unerring bullet had pierced his lungs, he went 300 yards before he fell dead. Several bulls, also, that we killed bore very significant marks of the combats they had been in; three of them were lame, from old and imperfectly cured fractures of different limbs.

"The stallions do not bear the same proportion to the mares, as the cattle, by a great deal. From what we saw and heard, Mr Sullivan agrees with me in thinking that their numbers altogether do not exceed twelve hundred. I cannot here forebear mentioning a story of one of the Falkland stallions, told me by

NAVAL POLICY QUESTION.

London, 2.10.35.

According to the Daily Telegraph official opinion is divided on the future naval policy and particularly whether immediate steps are to be taken to reorganise the defences or await the expiration of the Washington and London Treaties whereby freedom of action is restored.

It is pointed out that delay until the treaties lapse mean that Britain receives no increment in naval strength before 1940 and then only by large 1937/38 programmes.

SOCIALIST PARTY SENSATION.

Brighton, 2.10.35.

The Socialist Party Conference has adjourned following on sensational acrimonious exchanges between the leaders, Mr Bevan and Mr George Lansbury, the former attacking the latter so severely that his continuance in the leadership is believed to be impossible.

Sir Stafford Cripps was also attacked and accused of disloyalty.

It is considered that all opposition to endorsement for Labour's approval of the sanctions has been routed.

Corinet (a Patagonian Indian, acting as a gaucho,) as we were exploring together:- The horse I was then riding, called Teniente, had been captured some years ago, during Don Louis Vernet's government, but was found so vicious, ferocious, and cunning, that not one even of the gauchos could manage him. After having resorted to every method they could think of to subdue him, it was proposed (this Corinet told me with a chuckle) by himself to take the animal some miles into the interior, and fasten him to a wild bull's horns. This with the assistance of two or three lassos, was soon done, and the poor brute's tail was securely lashed with thongs of hide to the horns of the wildest in the herd. The gauchos immediately returning home, highly delighted with their exploit. The next morning, on getting up, the first thing they saw was poor Teniente with his head hanging down, looking very miserable and distressed, standing at the corral gate; he had killed the bull, whose skull was found completely beaten in. Teniente's heart was broken; he never even pretended to vice afterwards. The only quadruped that seems indigencous to the islands is the warrah, or wolf-fox, a specimen of which was brought home by Captain Fitzroy, and placed in the British Museum.

WAR CLOUDS BEGIN TO BURST.

Hostilities Commence Between Italy &amp; Abyssinia.

Adowa Reported Bombed.

The alarming, though not unexpected news, that hostilities had commenced yesterday between Italy and Abyssinia rivetted the attention of the whole world on a dispute that has for a long time been coming to a head.

Adowa, the Abyssinian town whose name has played so important a part in the declamations of both the contesting countries in maintaining their rights, was reported to have been bombed by Italian planes on two occasions. Various reports have it that the first attack took place about 3.30 yesterday morning, that a number of women and children were killed, that 78 bombs were dropped and that the first bomb fell on a Red Cross hospital while Abyssinian casualties totalled 1,700. Although the news is somewhat conflicting there seems to be no doubt that Abyssinia has telegraphed to the League of Nations reporting the incident and that though Italy at first denied the truth of such a statement admission was afterwards made with the assertion that the action was justified in view of the mobilisation of the Abyssinian army yesterday to the extent of 1,100,000 men.

A message received late last night stated that it is possible that the Italian Legation and staff may be kept in Addis Ababa as hostages.

It is also understood that a prolonged artillery bombardment from the Italian lines north of Adowa is proceeding, while Italians are continuing to advance over the fever-ridden flats near Mount Sous-sadi without encountering resistance from the Abyssinian forces waiting in the low lying ranges of the Wollo mountains.

Early reports of the bombing of Adowa and Adigrat stated that first four and then two machines were responsible but the latest news states that forty Italian planes participated in the bombardment.

The Emperor's order for mobilisation is understood to have been proclaimed after the news was received of the bombardment by the Italian planes of which the population of Addis Ababa had not heard.

In Alexandria, on the receipt of the information that hostilities had broken out on the borders of Abyssinia and Eritrea, the police were ordered to assemble at all the

key positions in the town and to be prepared for any emergency while a special guard was mounted at the cable hut where the cable emerges from the sea. The Italian members of the police gave up all their arms a week ago to be cleaned and these have not yet been returned.

At Toulouse only forty of 5,000 Italians who received mobilisation orders are taking train for Rome and these have been the subject of a hostile demonstration which condemned Mussolini and war.

The League Council has been summoned to meet Saturday morning. The British member, Mr Anthony Eden, is already on his way and it is expected that the French Premier, M. Laval, will proceed there after a meeting of the French Council to-day (Friday) states the British Official Press. It is also understood that the Italian representative, Baron Aloisi, will also be present at the League Meeting. It is believed that the Assembly will be re-convoked at the beginning of next week.

ITALY AND ABYSSINIA.

(Continued from page 2.)

On his way through Paris last night (Thursday) Mr Eden conferred with the French Premier and the two statesmen discussed the agenda of Saturday's Council meeting and passed in review the various kinds of procedure which might be followed up.

A statement issued after the meeting said that the British and French representatives would continue their collaboration at Geneva.

- o - o -

The French press on the subject of sanctions is generally against any action which is likely to involve France in war and many articles are frankly pro-Italian.

The German press maintains complete neutrality but is ceasing its attacks against Geneva and commends Britain's resolute lead in the crisis at the same time condemning France's bargaining in supporting the League principles.

Japan thinks that Italy must do some fighting to save her face and morale but considers Mussolini's defiance of Britain suicidal.

Dutch opinion emphatically favours the imposition of sanctions if the League so orders.

Sir Herbert Samuel, the leader of the Liberal Party, speaking at a luncheon in London yesterday (Thursday) said that the Foreign Secretary, Sir Samuel Hoare, had made an admirable speech at Geneva on the 11th of September. That speech had been approved of by an overwhelming majority of the nation. The policy there declared would have the full approval and support of the Liberal Party in Parliament & in the constituencies.

At the Annual Conference of the Conservative Association yesterday at Bournemouth Mr Neville Chamberlain said it was not necessary to remind the Government of its duty in the matter of defence.

### ITALIANS ADVANCING INTO ABYSSINIA.

Fighting On Three Fronts.

Yet Still No Declaration Of War.

Although there is still no declaration of war, it was reported last night, the Italians still continue to advance and they are now engaged on three fronts.

Adowa was still being defended last night but the Italian forces were reported to be within twelve miles of the town with Adigrat to the north-east having fallen and some 2,000 square miles of territory estimated to be occupied by the invaders numbering 100,000.

The Italians claimed to have encountered strong resistance but they claim to have occupied the positions on the hills of Shire dominating Adowa, and owing to heavy artillery and aerial bombardment it is thought unlikely that the Abyssinians can continue to hold Adowa for long. Although the defenders are believed to have no anti-aircraft guns it is claimed that one Italian machine has been brought down, but this is denied in Rome. It is believed in Addis Ababa that if Ras Sevoum has to evacuate Adowa he will be able to retire his forces successfully.

Reports speak of heavy losses on both sides but particularly among the Abyssinians as the result of heavily armoured mechanised attack.

The official Abyssinian spokesman stated last night that it is not intended to defend the Adowa area seriously, the real test coming much further south.

From other sources it is learned that the Abyssinians have made a strategic diversion against the right flank of the Italians and, taking advantage of the broken country, Ras Ayenu is advancing on the Eritrean outposts, threatening the Italian communications and already achieving some success.

It is reported that Eritrean native troops have deserted the Italians.

Fighting also appears to have broken out in the region of Mount Mussa Ali, further south and near French Somaliland, but the clashes appear to be only of a skirmishing nature.

In the southern part of Abyssinia on the borders of Italian Somaliland heavy casualties are reported but on the other hand, here and there, the Abyssinian forces have gained one or two successes.

In spite of the fact that fighting of an intensive character has broken out there is still no declaration of war and the Italian Legation in Addis Ababa and the Abyssinian Legation in Rome find themselves in a puzzling position. So far neither Minister has received his passport.

The Emperor of Abyssinia has given the Italian Minister a guard and is taking every precaution for his safety, but on the other hand it is also reported that the Italian Minister may be held as a hostage in view of the possibility of Addis Ababa being raided by planes.

It is reported in Rome that strong guards are surrounding the Abyssinian Legation with those of the British and French Ministers also carefully guarded.

Everyone is wondering what action the League Council will take when it meets to-day (Saturday.) There is to be a private meeting this morning at 10.30 and a public one this afternoon. It is expected that a recommendation will be made calling together the League Assembly while it will also be up to the League Council to decide what action should be taken against aggression.

S A N C T I O N S.

There has been considerable talk of the League of Nations imposing Sanctions in dealing with the Italo-Abyssinian dispute and this may possibly mean a financial and economic boycott of Italy.

In international law, sanctions correspond to the means adopted in national law to enforce legal decisions. During the years which followed the World War it became increasingly apparent that the most important political problem of Europe was that known as the problem of "security."

In an effort to obtain security in accordance with its modern conception the word "sanctions" is now replacing the word "alliance" in the language of diplomacy and it is in "sanctions" against a wrong-doer that it is hoped to find security.

The security arrangements which European politicians after the war endeavoured to set up constituted an attempt to limit and control the use of force in international affairs - in other words, an attempt to put force behind the law instead of leaving it outside the law to cause the international disorders which have resulted from its use in the past.

The discussions which occurred soon after the war showed that there were two ways by which Governments believed the result in view could be achieved; first, by creating a general system embracing all the States throughout the world; and second, by creating limited arrangements applying to a certain number of States situated geographically near one another and bound together by common bonds of material interest.

Article 16 of the League Covenant imposes obligations upon every member of the League to adopt common coercive measures, including especially a financial and economic boycott, against States which in violation of the undertakings of the Covenant resort to war.

Cooperation by military or other necessary means against an aggressor also comes into consideration so long as it has been recognised by some impartial arbitrator that aggression has taken place.

ABYSSINIA'S MOBILISATION.

Mobilisation has now been in full swing in Abyssinia for the past two days and the capital, Addis Ababa, is seething with soldiers bound for various destinations.

Elite troops belonging to the political organisation known as the Mahel Sefari, whose fundamental principle is absolute loyalty to the Emperor, left for the front on Thursday and a further detachment of 100,000 in strength is in the process of formation.

Of the total strength of the forces available through general mobilisation, amounting to 1,100,000 men, some 250,000 are being allotted to the northern army under the command of Ras Kassa, with headquarters at Gonder.

Sufficient supplies and food it is stated have been assured for two years.

On the east of the Takkaze River, Ras Seyoum, with 200,000 men, is commander-in-chief of the Adowa and Makale sector.

An army of 150,000 men in the adjacent sector is commanded by the Governor of Makale, Dejas Haile Selassie Gugsu.

The troops in the Province of Wallo, which is likely to be menaced by the Italian advance are under the personal command of the War Minister, Ras Moulougeta, assisted by the Crown Prince who is the Governor of this province.

The War Minister and the Crown Prince have received instructions from the Emperor to hold the line defending the Aussa and Danakil provinces.

- o - o -

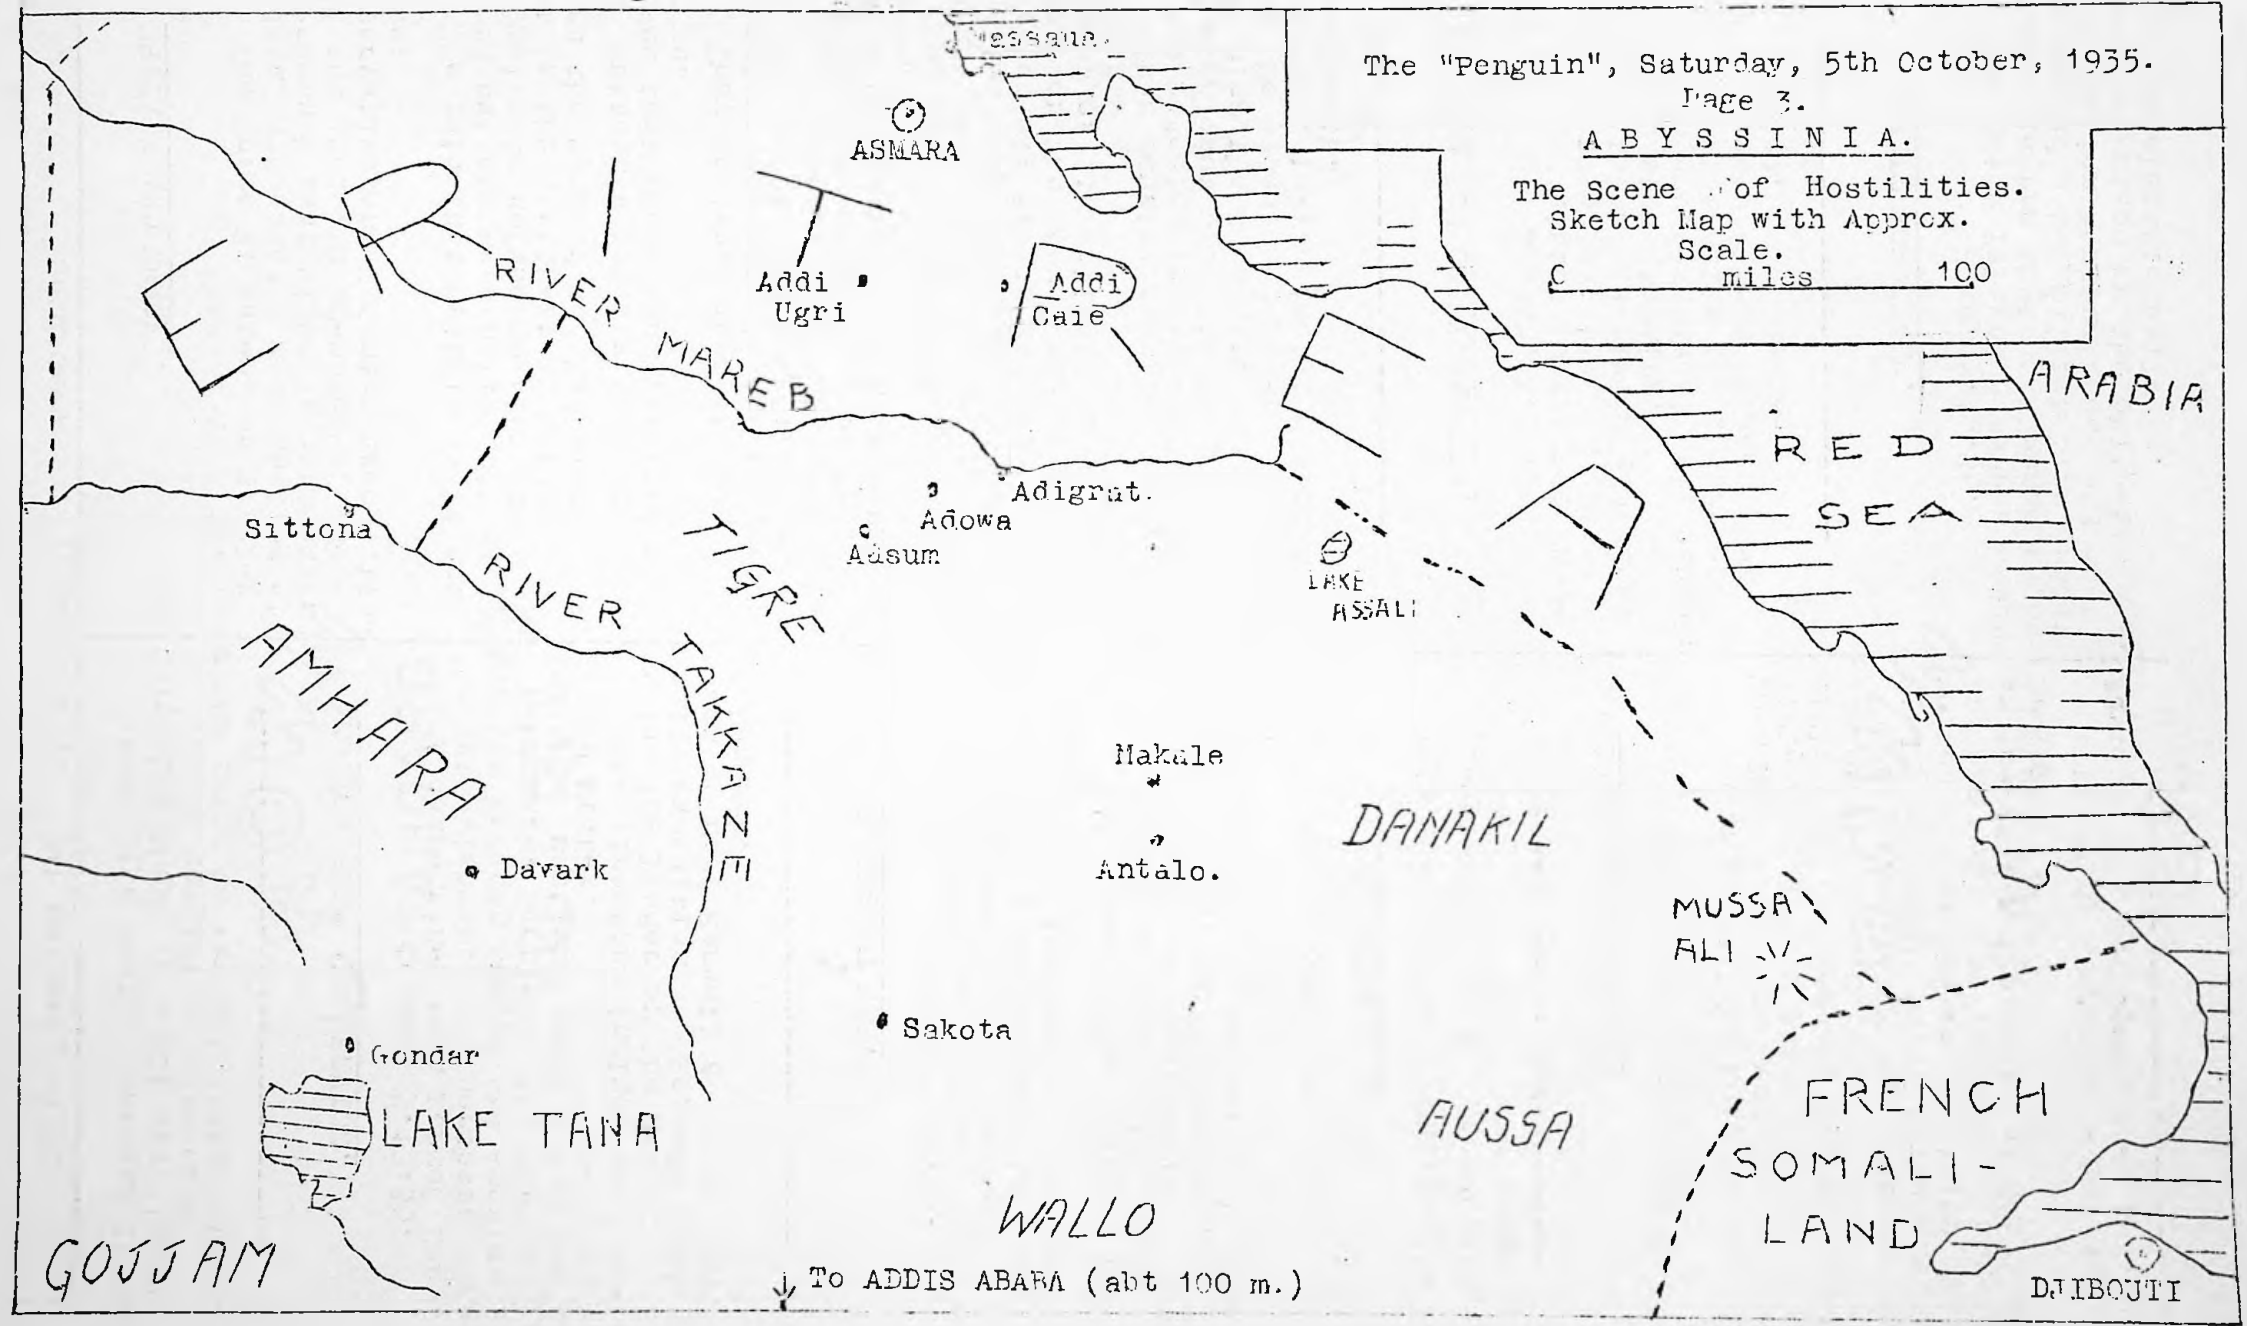

An unforgettable scene took place in Addis Ababa on Thursday morning when the Emperor, standing on the balcony of his palace under a richly decorated canopy, surrounded by princes and the members of his Cabinet, solemnly read the general mobilisation proclamation to a vast multitude assembled on the gentle slopes of the hill on which the palace stands. Over 10,000 warriors many of them wearing leopard skins & other picturesque and traditional trappings of war broke out into wild yells of enthusiasm & loyalty while the imperial war drums began rolling, swelling gradually into an ominous roar.

BRITAIN AND EUROPE.

London, 5.10.35.

The Prime Minister, Mr Stanley Baldwin, addressed a mass meeting at Bournemouth last night in connection with the Annual Conference of the Conservative and Unionist Associations.

He said that Britain could not afford neither as a nation nor as an Empire to refuse to play its part in the Continent of Europe where the hand of God had placed it.

Britain's primary interest was to see that peace was preserved in Europe.

They believed that through collective security in the League of Nations they had at hand the best means of preserving peace and of exercising some measure of control over events should peace be temporarily broken.

As regards the Italo-Abyssinian dispute the British Government had from the very beginning spoken and acted solely in its capacity as a member of the League and in the fulfilment of its obligations under the Covenant.

This country resented indignantly and rejected the aspersions which had been cast upon its sincerity in defending the Covenant. The Government, he added, had never any intention of taking isolated action in the dispute.

BRITISH COMMODITY MARKETS.

London, 5.10.35.

The Abyssinian hostilities have continued to affect the commodity markets with metals rising and wheat and cotton strengthening.

There are advances in all cereals including rice while the insurance rates on vessels from Rangoon have been doubled.

CREDIT FOR ITALY.

Rome, 5.10.35.

The Daily Telegraph correspondent reliably learns that French banks have raised a 500 million lire credit to an Italian banking group and that it is guaranteed by the obligations of the State electric railways.

Meanwhile Berlin messages indicate that there is small likelihood of Germany supplying Italy with goods owing to payment difficulties.

NEW NORTHERN AIR SERVICE.

London, 5.10.35.

A company has been formed for the establishment of a northern air service between Europe, and America via Denmark, Scotland, the Faroes, Iceland, Greenland, Canada and the United States.

The directors include Mr Courtauld, the leader of the recent Arctic expedition, Rennell Rodd, a son of Lord Rennell & Ager Dohm of Denmark.

S. ENGLAND WET.

London, 5.10.35.

The wettest day for six years has been experienced in Southern England with flooded roads in many areas and the suspension of motor traffic.

Similar conditions reign in Lyons, France, states Reuter where a cloud-burst has resulted in floods, landslides, wrecked houses and conflagrations caused by lightning.

THE "WAR" & THE LEAGUE.

Committee To Designate The Aggressor.

While hostilities continue on three sides of Abyssinia and the fall of Adowa is announced by the latest news, the League of Nations at Geneva is bringing to a head the policy it is determined to follow.

Yesterday the path of the League's operations was pronounced as becoming clear. The Assembly is to be convened on Wednesday while the new Committee of Six appointed for the purpose are to name the aggressor.

At 11.30 yesterday (Sunday) morning the Italians entered Adowa after three days of fighting.

Ras Seyoum made a determined resistance in the pass six miles from Adowa.

Tanks & armoured cars charged massed ranks of Danakil warriors & the Italians claim to have slain 2,000 of them while light mountain guns cleared the hill-sides.

Ras Seyoum extricated the main body of his forces with all his artillery to selected positions.

Although the victory of Adowa wipes out the memory of the Italian defeat in 1896, comments the Daily Telegraph military correspondent, the effect strategically is not likely to be great unless the employment of modern weapons completely demoralises the Abyssinians.

The Italian army in Somaliland has captured Gerloguti near Wal-Wal and Dolo on the border of Kenya and it is expected that the chief thrust will be made on this front when the roads are dry.

Reuter's correspondent in Addis Ababa states that a number of bombing raids have been made on the towns and villages on the north and south fronts and these are regarded as heralding new Italian advances.

Further messages concerning the fall of Adowa state that throughout the three days' fighting heavy hand to hand conflicts have taken place with daggers and bayonets.

The Italians have claimed that they occupied Adigrad without resistance.

Count Ciano, Mussolini's son-in-law, had his plane struck and damaged by several bullets but he was able to return to the aerodrome and was uninjured.

At Geneva.

On Saturday the Council Room of the League of Nations was packed and the atmosphere charged with tension when the Council met at 6.0 pm to receive the report of the Committee of Thirteen which was not adopted during the evening as the two disputants had only just received the text.

The gravity of the situation was reflected in the faces of all the members. Baron Aloisi and Teckle Hawariat faced each other at the opposite ends of the horseshoe table.

Aloisi in a long speech declared that the operations of the Italian troops had resulted from the Ethiopian mobilisation and were perfectly legitimate within the compass of the Covenant because it constituted an immediate and necessary reaction against an act of provocation. Aloisi in upholding his viewpoint quoted from the Negus' statement issued with the mobilisation order & referred to the promises to the Ethiopian warriors who would be rewarded for their services by territories in Eritrea and Italian Somaliland.

THE FALKLAND ISLANDS IN 1838-9.

(Continued from Thursday, 3rd October.)

"Wild boar, or rather common swine, run wild, are very plentiful on Eagle or Speedwell Islands, and on several other Tussock islands; in these spots of land they thrive and increase prodigiously. Some big with young have been put on several other islands, well calculated for them, where there can be no doubt they will also prosper. The Tussock grass seems formed by nature for them, being capital food, and affording excellent shelter, warm, dry, and comfortable. Goats are also to be found on one or two of the islands near West Falkland; they also have increased amazingly, the original stock having been landed a few years ago by a whaler. Immense warrens of rabbits are to be found in several places, most, however, to the northward of the range of hills, as the original stock was landed at Port Louis by de Bourgainville, and in a wild state they did not succeed in crossing the hills; several small colonies of these animals are now, however, rapidly increasing to the southward, landed by Mr Melville's vessels and by others.

"The first in the list of birds is the swan; they are not found in great plenty, but are very beautiful birds, the whole neck being a jetty black, and the rest of the body of a snow white. The goose is also a very handsome bird remarkably bold or stupid. I have killed several with a stick; they are found in immense numbers all over the islands. There are three kinds the Upland and Brent, being very good eating, and the Kelp so called from breeding and feeding close to the shores, where kelp is abundant. The plumage of the hen is most beautiful, not resembling the common wild goose. A setting hen of that breed once struck me a severe blow whilst trying to push her off her nest. The immense quantities of eggs of these, and various other birds that may be collected in the season is truly extraordinary. I have sometimes been obliged to pick my way, to prevent crushing them with my feet. A variety of ducks are to be found in all parts, in greatest abundance. I have myself

killed eight or nine different species of them; the teal, however, is most delicate. Snines also are found in great plenty; both gigantic and full snipe, some of which we killed weighing a pound. Flower, dottrell, Oystercatchers, and a great variety of the gull tribe, of various and diversified plumage, are plentiful. The birds of prey are both numerous and voracious, particularly the carancho, which has much the resemblance in body to a large English crow, with the beak and talons of an eagle. I have frequently had my game, such as snipe, teal, etc., stolen from me by these cunning birds, after shooting them. One rascal stole my lucifer match-box, whilst I was blowing up a newly lighted fire, and quietly perched within a hundred yards picking it to pieces. A better exemplification of their cunning cannot be given than the following instance, which I myself observed; a stupid upland goose was quietly sitting on her nest, surrounded by several of this rascally crew, one of them hovering close over her, and the rest picking and teasing her; at length, her patience being exhausted, she rushed off her nest at the most daring. Another, however, immediately dropped into her nest, and seized an egg in his talons and flew off, accompanied by his confederate, whom he allowed to share in the plunder. We were always accompanied in our shooting excursions by several of these birds. They would sometimes, when pressed with hunger, hover overhead within two feet, and absolutely try to settle on the dogs' backs. I have frequently impaled them with a boarding pike.

"The penguin lives principally on the Tussock islands where he burrows. I perfectly remember the impression made on me, one calm night, when at anchor between two of these islands in Choiseul Sound, by the extraordinary noise made by the braying of some hundred thousand of these animals. It is incredible the noise they make, which, when softened by distance was very pleasing. I hardly like to state, but it really was the case, that although a quarter of a mile from the shore

we could not converse without raising our voice. These, with shags, curlews, some beautiful varieties of the dove and a few land species, are the principal birds of the Falklands."

THE "WAR" & THE LEAGUE.

(Continued from page 1.)

The Italian representative went on to say that his government appreciated the efforts of the Council but the League should realise from the start that the first thing to be considered was the unworthiness of Ethiopia belonging to the League.

Teckle Hawariat then spoke and invoked Article Sixteen as mentioned in his note to the Secretariat.

M. Benes announced the convocation of the Assembly on Wednesday while on the suggestion of Mr Anthony Eden the new committee of six should meet in view of the fact that it had a lot of ground to cover before Monday.

This Committee, composed of the representatives of Britain, France, Portugal, Rumania, Denmark and Chile, was formed to meet and designate the aggressor.

Later it was reported that the Committee of Six had reached the vital decision unanimously that Italy had violated the Covenant.

The finding is to be communicated to the Council to-day (Monday.)

If, as it now appears : completely clear, Article 12 of the Covenant has been violated sanctions should automatically come into play. These in the first place would be of an economic and financial nature including the rupture of diplomatic services. The next step would be the raising of the arms' embargo on Abyssinia and later an embargo on Italian supplies.

- o - o -

According to a message from Tokio the report that a hundred Japanese officers are en route to Abyssinia is officially denied as absurd.

LEAGUE COUNCIL'S DECISION.

Italy's Disregard of Covenant Commitments.

The Next Development.

The historic meeting of the League of Nations' Council yesterday evening was preceded in the morning by a meeting of the Committee of Thirteen which unanimously adopted the report of the Committee of Six to the effect that the Italian Government had resorted to war in disregard of its commitments under the Covenant.

The report of the Committee of Thirteen and its recommendation that any violation of the Covenant should be brought to an end came before the Council and after long speeches by Baron Aloisi and M. Teckle Hawariat was unanimously adopted.

The Ethiopian representative voted in favour and the Italian member against, but the votes of the disputants do not count under Article 15.

The President of the Council then declared that the public opinion of the world expected the two parties to accept the appeal of the Council and to cease hostilities.

After the chairman of the Committee of Six had received the finding of the Committee, the Council adjourned -

And it is assumed that the next development will come with the meeting of the Assembly on Wednesday.

There will then be a general discussion in which the delegates of all the countries in the League will have the opportunity of expressing their views.

Afterwards a joint committee of coordination, representing the Council and the Assembly may be set up to decide on any further recommendations.

The fateful decision was only arrived at after a somewhat complicated procedure.

In the earlier session at 4.0 o'clock in the afternoon Baron Aloisi proposed that the public discussion of the report should be postponed but it is understood that this proposal was strongly opposed by the British member, Mr Eden, who asked for an immediate decision from the Council.

Since no agreement could be reached on this point, it was decided to continue the discussion behind closed doors and in the absence of the representatives of the contending parties.

This secret session resulted in the rejection of Baron Aloisi's motion and it was resolved immediately to take a vote on the Committee's report in public session.

The Council then reassembled at 8.0 o'clock in the evening when the report was adopted.

But this was not done until after Baron Aloisi had, in a spirited speech sharply criticised the Committee's findings as not taking due account of Italy's grievances resulting from repeated treaty violations by Abyssinia. The Italian delegate strenuously denied that his country had infringed the Covenant.

CARCASS ISLAND.

(Communicated.)

One hesitates to dispel a myth even one of the comparative youth of forty-two years, when it is so ingenious as the explanation of the name of Carcass Island, quoted in the "Penguin" of the 3rd of October, from the Falkland Islands Magazine of 1893. The interests of historical truth are however paramount.

In January 1766 Captain John McBride commanding H.M.S. Jason, 32 guns, and the sloop Carcass reached the small group, hitherto known as the Sebald de Wert Islands on his mission to occupy the Falklands. He renamed the group the Jason Islands and the nearest separate island of any size Carcass Island. Both these names appear in a map of 1769, that is to say many years before those islands were inhabited.

Similarly Captain Byron in 1765 named two conspicuous points Cape Dolphin and Cape Tamar after the two ships under his command.

The place-names memorializing the ships which brought the early discoverers and settlers to these shores should be treated with respect. The absence of Welfare (1689) and Favourite (1770) may be regretted but difficulty would have been found in applying Batchelor's Delight (1684) to any spot on our coasts.

FOR THEGOVERNOR'S CHARITY FUND.

As a result of the performance of the play "Ambrose Applejohn's Adventure" held in the Town Hall on the 23rd of August last, the organisers have been able to hand over the sum of £10 to the Governor's Charity Fund for which the effort was in aid.

FOLICE COURT.

In the Police Court yesterday Donald J. McLeod was fined £2 for having an animal on Stanley Common not having paid its fees in advance as required by Section 10 of the Trespass Ordinance, 1904.

BADMINTON TOURNEY.

A very successful badminton tourney was held in the Town Hall by the members of the Stanley Badminton Club on Saturday afternoon when the prizes were won by Miss O.H. Felton and Mr A.W. Beardmore.

The games were watched with interest by a number of friends of the Club who with the competitors participated in the enjoyable tea provided.

The competitors were divided into two sections of doubles, the winners of each playing in the final. The players and the matches they won were :

Section A. : Miss J. Thomson & Mr T.K. Miller, h'cap -1 (3 wins & finalists); Miss J. Turner & Mr C. Irwin, h'cap -1, (3 wins); Mrs Thomas & Mr H. Thompson (3 wins); Miss Henniker-Heaton & Mr W.D.A. Jones (1 win); and Mrs Craigie-Halkett & Mr H. Thomas.

Section B. : Miss O.H. Felton & Mr A.W. Beardmore (4 wins & finalists); Miss P. Henniker-Heaton & Mr J.D. Creamer (3 wins); Miss M. Oldham and Miss C.D. Hoare, h'cap -3 (2 wins); Mrs Beardmore & Mr L.B. White (1 win); and Mrs Jones & Miss M.E. Hill.

At the conclusion the prizes were presented to the winners by Mrs Craigie-Halkett.

It is hoped that another tournament will be held shortly.

GOVERNMENT NOTICES.

No. 101. Colonial Secretary's  
Office, Stanley.  
3rd October, 1935.

THE VACCINATION ORDINANCE,  
1868.

The Governor directs it to be notified, for general information, that His Excellency has been pleased under the provisions of Section 4 of the Vaccination Ordinance, No. 1 of 1868, to appoint

THE HONOURABLE R.L. CHEVERTON,  
M.R.C.S., L.R.C.P.,

to be a Public Vaccinator for the  
Falkland Islands.

- - - - -

No. 102.

Attention is invited to the following copy of a Government Notice issued on the 13th of February, 1929, on the subject of vaccination in the Colony.

A large proportion of the population, both adult and juvenile, is still unprotected by vaccination, and measures will continue to be undertaken to enforce the provisions of the Vaccination Ordinance, No. 1 of 1868,

All persons not vaccinated during the past seven years are strongly advised to protect themselves by vaccination against a possible outbreak of small-pox.

Public Vaccinators have been appointed to carry out duties under the Vaccination Ordinance, 1868, in the undermentioned Districts :-

- (1) The East Falkland Island and adjacent islands other than Lafonia, Darwin, Fitzroy, San Carlos South, Port San Carlos and adjacent islands including Bleaker and Lively Islands;
- (2) Lafonia, Darwin, Fitzroy, San Carlos South, Port San Carlos, and adjacent islands, including Bleaker and Lively Islands;
- (3) The West Falkland Island and adjacent islands.

By Command,  
M. Craigie-Halkett,  
Colonial Secretary.

M.P. 474/28.

Copy of Government Notice issued  
on the 13th February, 1929.

THE VACCINATION ORDINANCE,  
1868.

"The Governor directs it to be notified, for general information, that it having been brought to His Excellency's cognisance that a grave danger to the public health exists from Small Pox which is prevalent in the neighbouring countries of South America and is liable to be introduced at any time through the medium of shipping calling at the Colony by reason of the fact that a large proportion of the population, both adult and juvenile, is unprotected by vaccination, His Excellency has considered it imperative in the interests of the public health effectively to put into operation the provisions of the Vaccination Ordinance, 1868, under which all children under the age of fourteen years and all children hereafter born are required to be successfully vaccinated.

"The necessary steps are being taken therefore for the appointment of Public Vaccinators under the aforesaid Ordinance and generally for the enforcement of its provisions.

"The matter has been discussed at a meeting of the Board of Health for the East Falkland Island and the unanimous decision was made by the Board that due measures should be undertaken for the proper protection of the community against this serious menace. The high value of vaccination as a prevention against Small Pox has long been accepted by the highest authorities. As a recent striking proof of its efficiency it is pointed out in the last Annual Medical Report for England that during 1927, 10,381 cases of Small Pox occurred in England among unvaccinated persons while there were only 41 cases among re-vaccinated persons.

"The co-operation of the public and in particular of parents with the Medical Authorities in dealing with this problem is earnestly sought and confidently expected in order to safeguard the general welfare of the inhabitants of the Colony as a whole."

THE LATEST WAR NEWS.

## Archbishop of Canterbury's Indignation.

Authoritative circles state that the situation on the Abyssinian front is unchanged with troops of the Italian forces consolidating their positions and resting after the strenuous operations preceding the fall of Adowa.

A message received at Geneva from Abyssinia states that only minor engagements have occurred and the forces of Ras Seyoum are maintaining their mobility without serious losses. Further messages indicate that following his escape from the Italian encircling movements Ras Seyoum is resorting to guerilla tactics with outposts entrenched in the hills overlooking Adowa and harassing the invaders by rifle fire while bombing planes are unable to locate these posts.

Similar tactics are being employed on the Ogaden front where the tribesmen are sniping and stalking the Italian advance guards. The Italian casualty list though not official has been put at 600 killed and wounded.

Last evening it was reported from Addis Ababa that wholesale desertion of native troops in the Italian ranks to pass over to the Abyssinian army is now taking place on the northern frontier. According to an official statement 200 Askarus near Agame, under the leadership of a native officer have crossed over to the Abyssinian lines bringing field guns and machine guns while in the Makale territory 50 Italian native soldiers have joined the Abyssinian forces also bringing machine guns.

Reports of the military situation confirmed that the northern & southern armies were retiring in accordance with instructions and that the Italians were gradually beginning to advance, having now reached a point 3 kilometres south of Adigrat in the direction of Tekele aminor. The Italians in the south are proceeding from their base at Dolo in two directions : towards Ganale and the Doria River and secondly via Wal-Wal towards Sassa-haneh, having already reached and occupied Ado about 30 miles north-west of Wal-Wal.

The French are making preparations for the reception of troops for the protection of the railway which runs from Djibouti to Addis Ababa.

-0-0-

According to a message from Geneva last evening the Italian Minister and the entire Legation staff have been requested to leave Abyssinian territory by the Negus, in consequence of alleged espionage activities and a plot against the Abyssinian government.

This step and the reasons for it being taken, was communicated to the League General Secretary last evening in a note handed him by the Abyssinian representative.

Despite the unprovoked attack of which she is the victim, the note declares, Abyssinia had the intention of permitting the Italian Minister and his staff to remain in the country in order to provide the League with further evidence of her conciliatory spirit, although the granting of such a permission is unparalleled in history. The government had only made one condition, namely that the Minister should not use the legation's wireless station for any purpose which would cause any embarrassment to the government - a promise which the government regretted had not been kept. The Italian legation was an espionage centre and a nest of intrigues and plots against public order in Abyssinia.

The government, concludes the note, will take measures for ensuring that the Ministers' departure shall be carried out in the best traditions of civilised States, the necessary protection being provided and the security of the archives being guaranteed.

There was great activity at Geneva yesterday following the momentous decision of the previous day. Preparations were being made for the resumed meeting of the Assembly which will open at 5.0 o'clock to-day.

At the opening session of the 61st Church Congress at Bournemouth yesterday, the Archbishop of Canterbury referred to the outbreak of hostilities in Abyssinia. He said they had met in a mood of mingled distress & indignation. "How can we fail to be indignant when we see a great European power which has signed the Covenant of the League & the Pact of the Paris treat these solemn obligations with cynical contempt & launch a fierce attack upon a fellow member of the

League. If there was ever an act of unprovoked aggression surely it is this. Abyssinia may be a backward State but it is impossible to think without resentment and a quickening of the heart, of a proud and ancient people defending their own land with scanty military resources and with scarcely any hospitals, surgeons or nurses, being mowed down by a vast & pitiless machine of war equipped with all the power which science has invented for the destruction of human life."

The Archbishop announced a forthcoming appeal for assistance for Red Cross work in Abyssinia and asked for the support of the Church people.

Turning to the general issue Dr Lang said that they must recognise that Peace in itself was not an ideal and had no intrinsic worth if it meant acquiescence in the violation of justice and the rule of law.

The League of Nations was created to establish collective rule of law and was the only alternative to national self-assertion or those rival alliances which had been proved not to protect peace but to provoke war.

"No selfish interest moves us and no selfish interest must dissuade us from taking our place with other nations bound to the Covenant in its defence."

Finally the Archbishop said they were bound to give full weight in the dispute to the needs of Italy for her expansion and fuller access to supplies of raw materials and he referred sympathetically to the proposals for the consideration of an equitable distribution of economic resources of undeveloped parts of the world.

YESTERDAY'S MEETING OF THE ASSEMBLY.

## A. Historic Occasion.

In an atmosphere tense with suspense the League Assembly, which adjourned on the 26th of September, met yesterday afternoon in a session which will undoubtedly prove to be the most historic in its existence and in the course of which the Assembly has, for the first time, to decide whether Article Sixteen, providing for Sanctions, should be invoked against one of its leading members.

Every seat in the hall and the galleries was filled before the session commenced.

At the opening at 5.3 o'clock, the President, M. Benes, recalled the developments of the crisis since the adjournment and reported on the Council's adoption of the Committee of Six's findings that the outbreak of hostilities in Abyssinia constituted evidence that Italy had resorted to war in disregard of her covenants. He read a communication from the President of the Council, Genor Ruiz Guinazu, referring to the Assembly's resolution of the 4th of October, 1921, that "The fulfilment of their duties under Article Sixteen is required from the members of the League by the express terms of the Covenant and they cannot neglect them without a breach of treaty obligations."

The meeting of the Assembly was preceded by a long meeting of the Bureau and by conversations between M. Benes and the leading delegates as a result of which the latter announced the procedure. According to this an invitation was extended to all the delegates who desired to object to the decisions of the Council or to abstain from the measures implied in those decisions, to voice their difficulties, and those who remained silent would be regarded as in agreement.

Only the delegates of Austria and Hungary availed themselves of this invitation and the votes of the two parties to the dispute not

counting under Article Fifteen, the recommendation of the Council that the violation of the Covenant should be brought to an end was accepted by the Assembly with those two exceptions.

The Austrian representative, Baron Flugel, in his speech to the Assembly, after having reaffirmed his country's faith in the League, said that he could not help but remember what Italy had done to help Austria save her natural independence and he regretted that Austria was not in a position to associate herself with certain measures already taken by certain other members of the League.

The Hungarian delegate in his speech said that with regard to economic sanctions Hungary was in an unfortunate position, for the suspension of all its export trade to Italy would produce an economic upheaval and a severe financial crisis.

The Assembly then adjourned until this (Thursday) morning when, it is understood, Baron Aloisi will speak. Mr Eden and M. Laval may also speak and certain delegates may also desire to define their attitude in detail to the measures which they have agreed to in principle. Later the Assembly is expected to associate certain of its members to coordinate action with members of the Council in Committee.

THE FALFLAND ISLANDS IN 1838-9.

(Continued from Monday, 7th October.)

Mr. Mackinnon goes on to give some entertaining accounts of his sporting enterprises, extracts from which are :-

"The following affray took place in an endeavour to procure some mess beef. Came-to, and whilst morning observed a fine herd of cattle grazing on a peninsula called Rincon del Toro, or the Bull-ring. Eight of us, including Mr. Sullivan, commander, his brother, and myself, immediately started in chase. We pulled in our boat up to the first isthmus, but just in time to see the rear-guard of bulls tearing over. As we knew of another pass two miles inland, the whole party moved silently along to cut them off; as, luckily, we crossed their tracks and got the wind of them, by taking advantage of the ground we arrived there before them. A few minutes afterwards their vanguard, consisting of ten or twelve bulls, came trotting up; but seeing our hold front, they made a full stop, bellowing loudly, and tearing up the ground with their horns; immediately after up came the main body, consisting, as well as we could see (it being now nearly dark) of about fifty cows, heifers and calves. With a loud & joyful cheer, in a line, we advanced. The cows and calves took the alarm, and fled back towards the first isthmus; the bulls gave ground by little and little, and, on quickening our charge, turned tail and followed the cows. It was then 'the devil take the hindmost,' and who should have the honour of putting the first ball in our Christmas dinner; every one, therefore, put his best foot foremost. The excitement was tremendous; we could plainly hear the bellowing and roaring of the infuriated brutes. We gained the top of an eminence with an abrupt fall, - over it at speed. It was deeper than I expected; my right foot lodged on the side of a stone, which turned me quite over, sprained my ankle dreadfully, and my head coming in contact with a stone, spread me out for a few minutes perfectly insensible. I shall now proceed with the other party, who, not perceiving my accident, except the last person, who fell over me, and remained as a

protection, thinking I was much hurt. On they went with unabated speed, our commander leading the van. La Porte (the dog) suddenly seized a fine calf by the nose, which encumbered him so as to enable Mr. Sullivan to catch him round the neck; the strong little beast, however dragged them both away so quick, as to make it a matter of some difficulty for a man to come up behind and hamstring, and thus secure it. A fine cow, I suppose the mamma of this calf, became perfectly infuriated by the bleatings of its innocent, and charged about like a mad thing; three shots struck her, beside two balls from Mr Sullivan's gun, who, thinking she must be done, drew his double-barrelled pistol, and gave her the right-hand barrel; the moment she felt the smart of the bullet she threw off the dog and charged him furiously; when within five yards he discharged the other barrel into her head, and, as we afterwards found, the ball had entered between her eyes - a cool and good shot, in such a predicament. This, however, availed him not, or affected the furious beast a jot, as she knocked his gun out of his hand, and, most providentially, her forehead struck him a tremendous blow on the on the chest (her horns being on each side of his body), tore the ground up on each side, and then passed on, her hind hoofs trampling on his body. She turned, and was coming up again, when his brother, in the strength of fraternal affection, marched deliberately up, put his musket within a foot of her body, and blew her heart to pieces. Mr Sullivan was very severely shaken by the blow he got, and his hands were much cut. In the meantime, after a few minutes of insensibility from the blow I received, I came to, and attempted to rise, but fell over again in agony as my foot touched the ground. Just at this moment we saw the flashes, and heard the shouts of the above-related battle; this was not to be borne, so, slinging my rifle, and putting my arms round my companion's neck, by dint of hopping, we approached the battle-ground as fast as possible in this state. We had not proceeded far before we were stopped by a most diabolical outcry, and, to our inexpressible fright, found that the body of the herd had turned, and were coming upon us

screaming and galloping like mad. It was too late to run, even had I been able, so down we lay, taking chance of being run over rather than be gored to death; the noise increased with the rapidity of their approach; I never was in such a fright in all my life; on they came all mixed together, plunging and bellowing, passing, like a whirlwind, within ten feet of our concealment. Human nature could not stand this; as if with one accord, my companions' musket and my rifle sent their contents into the centre of them, but without any visible effect. We were joined soon after by Mr Sullivan and his party, who was able to walk home, although much shaken. Not so with me; I was carried home on the the men's shoulders with as much care and attention as a sick lady. On getting back to our boat, we found a formidable division of small-arm men just landed, to look for us, it being nearly midnight."

Concluded.

#### NATIONWIDE HOUSE SURVEY.

The Daily Telegraph reports that in connection with the Government's plans for dealing with the evils of overcrowding, a great nationwide house to house survey is to be undertaken in Britain.

The Minister of Health, Sir Kingsley Wood, speaking at Southampton, says that the survey would be directed to ascertaining the number of families housed in accommodation less than that contemplated by the national standard recently laid down by parliament. The survey would form the basis of early action in dealing with the intolerable and unhealthy conditions prevailing in many parts.

#### BOXING.

At Manchester the British middleweight champion McAvooy outpointed Lauriot of France in a 12 rounds' contest.

At London the welterweight McCleave of Britain knocked out the Belgian Reinenberg in the first of ten rounds.

#### A SON BORN TO THE DUCHESS

##### OF KENT.

The Empire was thrilled yesterday morning to hear the news that Princess Marina, the Duchess of Kent, gave birth to a son at 2.0 o'clock in the morning.

The infant prince is the fifth grandchild of Their Majesties the King and Queen and the seventh heir to the throne.

The latest bulletin issued from the Duke of Kent's residence in London where the happy event took place, is :

"The condition of Her Royal Highness the Duchess of Kent and of the infant prince continues to be satisfactory."

A Royal Salute was fired yesterday afternoon in Hyde Park and at the Tower in honour of the birth of a royal prince.

Messages of congratulation from all parts of the country and of the world have been arriving all day.

#### FORTHCOMING ROYAL WEDDING.

In connection with the Duke of Gloucester's wedding on the 6th of November it is announced from Buckingham Palace that Their Majesties the King and Queen will give an evening party at the palace and an afternoon party on Tuesday, the 5th of November at St James' Palace.

It is expected that the parties will follow the lines of those which preceded the wedding of the Duke of Kent. Between fifteen hundred and two thousand guests it is expected will be invited.

#### LANSBURY RESIGNS.

At a special meeting of the Parliamentary Labour Party on Tuesday Mr George Lansbury tendered his resignation of leadership on the grounds of his disagreement with the official policy recently confirmed by the Annual Conference regarding the full support accorded the sanctions under the League Covenant. By a large majority he was asked to reconsider his decision but he expressed the regret that he could not do so.

THE INFLUENZA EPIDEMIC.

Over 260 Cases.

Not since 1926 has Stanley been  
 affected with so virulent a form of  
 influenza as that which has just  
 about run its course.

Starting as an epidemic on the  
 5th of September the complaint has  
 since practically monopolised the  
 attention of the Medical Department,  
 the Senior Medical Officer himself  
 having attended some 260 different  
 cases in the town up to the end of  
 the month; and this by no means  
 accounted for them all since many  
 were not reported. In addition  
 there are still people feeling the  
 effects of their attacks. Some were  
 down for a week or more while some  
 of those who only remained in bed  
 one or two days had relapses and had,  
 perforce, to go back to bed again.

Directly the seriousness of the  
 epidemic was realised every measure  
 possible was taken to minimise the  
 spread of the germ. The Town Hall  
 was disinfected while public meet-  
 ings and club gatherings all went by  
 the board. Notwithstanding these  
 precautions hardly a household in  
 Stanley escaped although it is a  
 matter of considerable satisfaction  
 that as a result of the prompt res-  
 trictions imposed the epidemic did  
 not take on so dangerous a form as  
 it might otherwise have done. As  
 it is only four pneumonia cases  
 developed while but four or five  
 other cases gave rise to serious  
 symptoms.

A severe outbreak also occurred  
 in the Lafonia country, especially at  
 Darwin, while San Carlos also had a  
 severe bout; both settlements went  
 down with cases in every house. The  
 outbreak in Darwin started on the  
 24th of September in spite of the  
 fact that the manager of the station  
 arranged for no one to go to or  
 from the place and that the s.s.  
 Lafonia, when she called there just

THE LEAGUE & SANCTIONS.

## Yesterday's Momentous Decision.

## Opinions of Various Countries.

Before adjourning last night the League of Nations Assembly adopted the following resolution.

"The Assembly having taken cognisance of the opinions expressed by the Council on the 7th of October and taking into consideration the obligations which rest upon the League members in virtue of Article Sixteen of the Covenant, and the desirability of coordinating measures which they might severally contemplate, expresses the wish that the League members other than the parties to the dispute, set up a Committee composed of one delegate assisted by experts for each member to consider the advisability and coordination of such measures, and if necessary to draw the attention of the Council or Assembly to any situations requiring to be examined by them."

Italy noted against the resolution and Hungary and Austria abstained. The Committee of Coordination is expected to begin its work this morning.

The first speaker when the Assembly met again yesterday afternoon following the morning session at which Baron Aloisi, Mr Eden & M. Laval had spoken, was the Chilean delegate, Senor Porto Seguro, who said it was his country's sad duty to approve of the measures which had been adopted by the League to end the war.

He was followed by Senor Zalduende of Ecuador who said that respect for the Covenant was his country's law and they felt that the League's principles must be applied in all circumstances.

M. Bojdi Pouritch, of Jugoslavia, speaking in the name of the Little Entente, declared they would remain faithful to the League Covenant and were ready to observe scrupulously all its obligations.

Then M. Maximos of Greece on behalf of the Balkan Entente declared the readiness of the countries that were members of the Entente to fulfil their obligations under the Covenant.

Senor Tudela of Peru said that his delegation had fully approved of the report of the Council but at the same time his country had a friendly spirit towards the Italians whose magnificent qualities they recognised. The necessity of the expansion of so great a country as Italy had to be borne in mind but

that expansion would have to be accomplished through the League of Nations.

Senor Zumeta of Venezuela addressed the Supreme appeal to the two parties and reserved the right to indicate before the Committee of Coordination certain difficulties which Venezuela would encounter in the application of the contemplated sanctions.

Senor Quani of Uruguay made certain reservations regarding the Sanctions owing to the large population of Italian descent, but he reaffirmed his country's attachment to the principles of justice embodied in the Covenant.

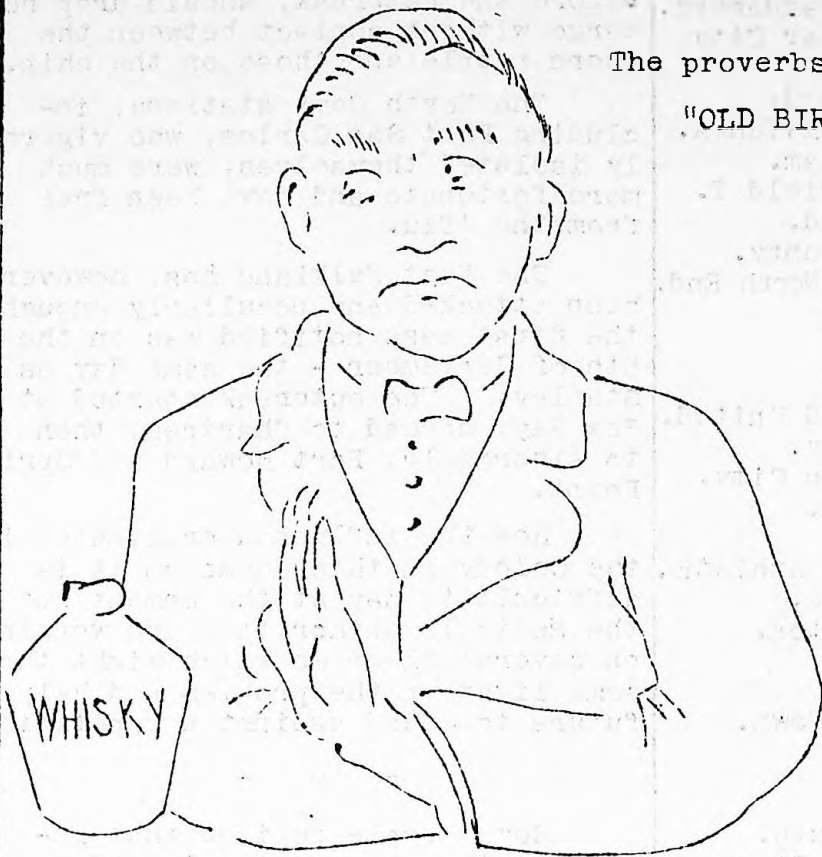

Senor Costa de Rels of Bolivia stated that despite his country's admiration and friendship for Italy, Bolivia was ready to do her duty.

-----

The Daily Telegraph outlines the probable early moves in the operation of the sanctions as being the cutting off of the supplies of coal, oil, cotton and minerals to Italy & lifting the Abyssinian arms' embargo.

Rome states that considerable diplomatic activity is going on behind the scenes due, it is understood, to the Duce's efforts to bring about a discussion with France and Britain for a settlement of the East African problem.

THE INFLUENZA EPIDEMIC.

(Continued from page 1.)

before the outbreak, should drop her cargo without contact between the shore people and those on the ship.

The North Camp stations, including Port San Carlos, who vigorously isolated themselves, were much more fortunate and have been free from the 'flu.

The West Falkland has, however, been attacked and peculiarly enough the first case notified was on the 5th of September - the same day as in Stanley. The outbreak started at Fox Bay, spread to Chartres, then to Alhermarle, Port Howard and Spring Point.

How the influenza originated in the Colony on this occasion it is difficult to say at the moment but the Medical Authorities are working on several theories which might throw some light on the problem and help in future to guard against a repetition.

- o -

Some people believe that influenza is a comparatively modern ailment but actually the disease, which attacks old and young alike, is referred to in the works of ancient physicians while as an epidemic it was known as early as 1557. On several occasions during the past two centuries the disease appears to have originated in Asia, travelled westward through Europe and on to America.

The word "influenza" is Italian and in the seventeenth century the Italians ascribed the disease to the influence of the stars - hence its name.

Although the germ has been discovered and is known to attack the bronchial tubes, the lungs and the blood, it is not yet certain why influenza develops so rapidly into an epidemic.

It was officially reported from Addis Ababa last night that Issa tribesmen brought down an Italian aeroplane near Deidorra and shot the crew.

- o -

The Duchess of Kent and her son continue to make excellent progress.

WAR NEWS & NOTES.

It is reported from Washington that the customs officials in the United States have been instructed to stop all arms shipments to Ethiopia and Italy and those to French Somaliland have been suspended pending further instructions.

- o -

In Addis Ababa it is emphasised that the Abyssinians are refusing to become engaged in a pitched battle round Adowa following the Emperor's exhortation to stick to guerilla warfare tactics. Only clashes between Italian advance guards and Abyssinian outposts are reported.

- o -

The few days' fighting that has taken place has had a great psychological effect on the Abyssinians to whom modern warfare is unknown.

- o -

The Daily Telegraph, commenting upon the Geneva situation says that to contend under the present circumstances that Italy is only engaged in a legitimate state of defence taxes patience and credulity, and Baron Aloisi's argument that Italy need not fulfil the Covenant or Kellogg Pact because Abyssinia is on a lower plane of civilization is "deplorable casuistry."

What the conscience of the world takes note of, is that a barbarous State has kept its faith while a torchbearer of civilization has broken its oath.

It continues - "Italy's real case is that she is determined, as the Duce has said, to seize Abyssinia with or without Geneva and the League therefore cannot but be brought right up against sanctions."

- o -

Bombay labourers on Wednesday demonstrated against the Italian aggression in Abyssinia but were prevented from reaching the Italian Consulate which is now guarded.

- o -

It was officially stated in Rome on Wednesday that though the Duce would like to visit his troops in the field, the situation is not opportune to permit him leaving Italy.

- o -

The strength of the Italian forces in East Africa, it is given from Rome, is :- 200,000 troops, 30,000 workers most of whom are road builders and 350 tanks. The Air Force was expected to increase its number to 800 aeroplanes by the end of the year.

It is noteworthy that three-quarters of the troops and the majority of the tanks are concentrated in Eritrea.

- o -

Signor Mussolini reviewed 10,000 officers of the Fascist Militia and Juvenile Fighting Groups in Rome on Tuesday last as a climax to the Adowa victory celebrations.

- o -

Blue-jackets and Marines from units of the British Fleet stationed off Alexandria, with British and Egyptian infantry marched through Alexandria yesterday (Friday), some three thousand men being on parade.

Admiral Sir William Fisher, the Commander-in-Chief of the Mediterranean Station, Sir Miles Lampson the High Commissioner, Tewfik Pasha Nessim the Prime Minister, and Major-General Tewfik Pasha Abdullah watched the march past and took the Salute.

- o -

A Cairo press article by Hafig Afif Pasha, the late Egyptian Minister in London, referring to the criticisms that Egypt was only menaced because of its British connection, declared that on the contrary but for the British occupation of the country Italy would have attempted to civilize Egypt before Abyssinia, and he suggested that for the pacification of national feeling Egypt should be admitted to the League with army increases and the abolition of capitulation.

- o -

With the object of protecting Americans in Addis Ababa the United States has furnished the Italian Government with data concerning the American establishments there and the hope has been expressed that invading planes will not bomb property flying the American flag.

Simultaneously the American Charge d'Affaires at Addis Ababa has requested American institutions to fly large American flags or paint

the flag on the roofs of the buildings.

- o -

Although air raid precautions are being practiced in Addis Ababa it is thought that the presence of 400 foreigners will prevent an aerial attack.

- o -

A New York message states that in pursuance with President Roosevelt's official discouragement of Americans travelling in Italian ships, the Secretary of the Treasury, Mr Morganthau, who recently went to Portugal on an Italian ship has cancelled his return half and will be making the homeward journey in a United States liner.

- o -

Mr Cordell Hull (the United States Secretary of State) has strongly reaffirmed President Roosevelt's warning that Americans who trade with belligerents will do so at their own risk and this is interpreted that the United States will not oppose sanctions although a French journal declares that a group of American bankers is planning a 100-million-dollar loan to Italy if a legal loophole can be found.

- o -

The general impression in New York is that the United States will not cooperate with the League in imposing or working out sanctions, nor send an observer to the League Committee to be on it even if invited to do so. But it is gathered she will not oppose sanctions and may recognise any effective League blockade and also not insist on the rights of Americans to trade with Italy.

- o -

The following countries comprise the Coordination Committee on Sanctions elected at Thursday's Assembly Meeting : South Africa, Persia, Yugo-Slavia, Czecho-Slovakia, Greece, Australia, Sweden, Belgium, Venezuela, Holland and Switzerland.

The last-named made a reservation.

- o -

Yesterday (Friday) the Coordination Committee established a sub-committee composed of the British, French, Greek, Dutch, South African, Rumanian and Polish delegates to

deal with the financial question and tighten up any question of loans for Italy, and another sub-committee consisting of Britain, France, Russia and Spain to examine the question of armaments and key products.

- o -

Inspired press attacks in Rome still are levelled against Britain and the League and while it is stated that Italy does not contemplate leaving the League she is prepared for all eventualities.

- o -

When making the final speech at the momentous meeting of the Assembly on Thursday in regard to the action to be taken by the Coordination Committee, M. Teckle Hawariat, the Abyssinian delegate, formally and vehemently protested against the accusation made by Baron Aloisi.

"Ethiopia," he declared, "is a victim of the most atrocious aggression. It is not a war but a massacre because of Italy's superiority of armament. I am ready to accept in the name of my government all the procedure which the League decides upon with a view to putting an end to hostilities, but we will not accept any terms which would put a premium on aggression."

- o -

The concluding sentences of Mr Anthony Eden's speech at the morning meeting of the Assembly on Thursday, also attracted considerable attention. He said - "We all of us contemplate with the deepest regret the duty that now confronts us, but that regret, however deep and sincere, cannot absolve us from fulfilling the obligations to which we have set our names. Since it is our duty to take action it is essential that such action should be prompt. That is the League's responsibility - a responsibility based on humanity, for we cannot forget that war is actually in progress. We must therefore persist in the action which our obligations command us to assume but, on the other hand, not to abate one jot our hope for an early and peaceful settlement."

- o -

It is widely expected that the Coordination Committee will be able to complete the first part of its difficult task in a week or ten days.

LABOUR PARTY CHAIRMAN.

As the result of Mr George Lansbury resigning the chairmanship of the Labour Party, Major C.R. Attlee, the vice-chairman of the Party has been appointed chairman for the remainder of the present Parliamentary session.

DE VALERA AND HEAVEN.

In a speech at Innis at the beginning of the week Mr de Valera, the President of the Irish Free State Executive Council, refuted the suggestion that he might have bargained with Great Britain for support in the League Assembly.

"You cannot bargain about doing your duty," he said.

Further he pointed out that there was gain for all small nations provided the Covenant was maintained. "If I find I am on my way to heaven" he went on to say, "I am not going the other way merely because I find someone I have certain doubts about going in the same direction."

It was later reported from Dublin that the Dail opposition leader, McDermott, who is the deputy chief of the United Ireland Party, tendered his resignation from the body owing to Cosgrave's criticism of de Valera's Geneva speech pledging support to Britain on League issues.

BULGARIAN RISING QUASHED.

It is reported from Sofia that several ex-Ministers, including the exiled Colonel Veltcheff, have been arrested following the discovery of a plot to dethrone King Boris and establish a republic. The rising was planned for Thursday on a national holiday but all fetes were cancelled and martial law proclaimed throughout Bulgaria.

Later the Bulgarian Premier broadcast the details of the plot, stating that the conspirators had planned to assassinate the king and queen besides several Cabinet Ministers, politicians and forty military chiefs. Some 215 arrests have been made.

The situation throughout the country is quiet.

GREEK COUP D'ETAT.

Following a demand by a military and royalist deputation that the Assembly should vote for the restoration of the monarchy, on Thursday Premier Tsaldaris resigned while the War Minister, Condylis, formed a Cabinet of Orthodox Royalists.

The Assembly was immediately convened and unanimously voted in favour of the abolition of the Republic and the restoration of King George of Greece.

The plebiscite will still be held on the 3rd of November. Meanwhile the public remain calm although martial law has been proclaimed. General Condylis has been appointed sole regent.

BRITISH LAND SETTLEMENT WORK.

With the approval of the Commissioner for Special Areas, Mr Malcolm Stewart, the Land Settlement Association has bought five additional estates at Tyneside and in Cumberland.

Each estate will enable forty men and their families to start a new life in fresh surroundings.

ROAD CASUALTIES INCREASE.

Road accidents in Britain during the week ending the 28th of September last were : - 142 killed and 4,580 injured.

The first figure is 12 more than that for the corresponding week last year when 130 were killed and 4,889 were injured.

GERMAN WORKLESS INCREASE.

Herr Hitler, in opening the Nazi winter relief campaign on Thursday, said that the National Socialists were fighting to bring the German people round to the viewpoint that the community and its needs was to them a spiritual obligation.

Herr Goebels has announced that the last two years' relief campaign has resulted in the collection of 750 million marks.

Simultaneously the official figures show that the German workless have increased by 7,000 in September to 1,713,693.

## SHOOTING PRIZE GIVING.

- o -

Considerable enthusiasm was shown at the dance held in the Town Hall on Tuesday evening last, organised by the Defence Force Rifle Association and the Miniature Rifle Club, at which His Excellency the Governor was present to accept the Colonial Small Bore Trophy won in 1934 on behalf of the Colony, to present the medals to the winning team and afterwards to distribute prizes won in connection with the Local Bisley Meeting and Miniature competitions

On the platform with His Excellency were Miss Henniker-Heaton, Miss F. Henniker-Heaton, the Hon. M.C. Craigie-Halkett, O.B.E. (Colonial Secretary) and Mrs Craigie-Halkett, the Hon. R.L. Cheverton (Senior Medical Officer,) the Hon. G. Roberts (Director of Public Works) and Mrs Roberts, the Hon. A.R. Hoare, M.B.E. (Superintendent of Education) and the Hon. V.A.H. Biggs.

In introducing the Governor, Lieutenant A.I. Fleuret, Acting Officer Commanding and Adjutant of the Defence Force, thanked His Excellency for honouring them with his presence that evening. After expressing his regret that Captain W.M. Allan, the captain of the Small Bore team, was not with them that evening, Lieutenant Fleuret asked the members of the team to come forward with the Trophy,

Scottish Cup - Rangers 2 : Celtic 0

LAST TUESDAY'S DANCE PROCEEDINGS.

(Continued from page 1.)

which was handed to His Excellency by Private A.H. Hills amidst loud applause.

On receiving the handsome cup His Excellency said :

I would like to say with what real pride I accept on behalf of the Colony this trophy competed for in open competition with other Colonies of the Empire; and the way in which we defeated such great Colonies as Kenya, Jamaica, Trinidad, the Federated Malay States and Ceylon. It should be and I am sure it is a matter of great pride that this small Colony should lead the Empire in winning this Cup not only once but twice, and, I hope, again and again in the future. We have every reason to be proud of our Shots who won the trophy for us and it is the greatest pleasure to me to present the medals which are given by the Society of Miniature Rifle Clubs (applause.)

The members of the team were : Captain W.M. Allan (captain), Sergeants J.R. Gleadell and J.J. Harries, Corporals W. Browning & C.H. Thompson, and Privates W.J. Grierson, A.H. Hills, E. Lellman, J. Petterssen and L. Reive.

Afterwards His Excellency distributed the prizes won at the Local Bisley, the full list of which was published in the "Penguin" in February and March last, and Miniature Rifle Club awards to the following

- W.J. Grierson (the Inter-Platoon Shield won by No. 3 Platoon, and the Bell Medal and Daily Mail Certificates 1935), A.H. Hills, (Bell Medal and Daily Telegraph Certificates 1934 and the Les Hardy Prize 1935), J. Petterssen (Daily Mail and News of the World Certificates 1934 and the J.F. Summers' Cup), L. Reive (Jubilee Medal and J.W. Bowles' Prize), R.L. Robson (Daily Telegraph Certificate 1935) and H.H. Sedgwick (News of the World Certificate 1935).

In concluding the proceedings His Excellency spoke a few words of encouragement to those competitors who had not been successful, at the same time exhorting non-members to join the Force to make

it their business to win some of the extraordinarily fine cups they had just seen presented.

WAR NEWS AND NOTES.

There has been a lull in the fighting, states the Sunday Times correspondent, except on the Ogaden front where the Italians have carried out a number of bombing raids on villages, killing many women and children.

- o -

In the Ogaden area the Italians are said to be advancing with comparative ease but the Abyssinian general Nasibu says that an Italian victory will only be achieved when every Ethiopian has been killed.

- o -

An Addis Ababa report states that 35,000 hillmen from Kambata have answered the mobilisation call and were reviewed by the Emperor before departing for the battle front.

- o -

Troops under Ras Seyoum are understood to have counter-attacked Adowa, massacring 2,500 defenders & capturing vast quantities of war material, but, at the same time, suffering heavy losses.

- o -

It is also reported that Ethiopian forces have captured Wal Wal.

- o -

Credence generally is given these statements but an official Rome communique gives the Italian casualties for the past four days as being only thirty dead and seventy wounded; the bulk of these are asserted to be native troops.

- o -

A communique also asserts that prominent Abyssinian chieftains are deserting to the Italian forces with their equipment. Among them is said to be the Emperor's son-in-law with 12,000 men.

- o -

Nevertheless many unreliable reports are coming through with the

normal line of communication broken down.

- o -

Yet another message from Asmara states that Ras Gugsa (the Emperor's son-in-law) has said that when the news of submission has been received the entire Abyssinian army will dissolve

- o -

Ras Gugsa's view is that the Italians are bound to win. In connection with his attitude there is a strong belief in Rome that Mussolini intends appointing Gugsa as a puppet emperor over certain Abyssinian territory.

- o -

The Italians claim many more surrenders while an Addis Ababa report states that the Italian Envoy, Count da Vinci, has refused to leave and is now under guard in his house which has been fortified.

- o -

The Daily Telegraph correspondent with the Italian forces stresses the local climatic difficulties as the greatest obstacle to their advance, with thorn bushes, dust-storms and heat combining to reduce the invaders' resistance, notwithstanding the road-makers' efforts which are resulting in the laying down of two miles of road-way a day.

- o -

There is an impression that the arms embargo may be removed from Abyssinia too late as a decisive factor in the campaign but large increases in imports are anticipated via Sudan and the Somalilands.

- o -

A Paris message states that many French vessels are already en route for Djikouti carrying arms and munitions.

- o -

Japanese circles are maintaining the greatest reserve relative to the application of sanctions, states a Tokio message, and it is felt premature to advance a definition of her attitude.

- o -

Italy is regarding the sanctions calmly, states official circles in Rome, but the press are concentrating an attack upon the British alleging that the position in Geneva has been created by States acting under British dominance.

- o -

According to the Daily Telegraph correspondent, Germany intends adopting an attitude approximating that of the United States. This is equivalent to a specific refusal to export arms to either of the belligerents. But it is pointed out in so far as other commodities Germany needs all her raw materials for her own use.

- o -

The United States press generally condemns Italy and envisages moral isolation by the League which is considered to be more effective than economic or financial sanctions. Cordell Hull underlines the neutrality act which prevents the United States lifting her arms' embargo against Abyssinia.

- o -

British Guiana labourites are pressing for military sanctions if necessary to restrain Italy. At the same time they are seeking permission to join the Abyssinian forces.

- o -

The Australian House of Representatives has defeated a labour motion by 27/21 that Australia should remain neutral, Premier Lyons stating that the Dominion will stand side by side with Britain on sanctions.

- o -

In a broadcast speech at the week-end Mr Anthony Eden recapitulated the progress made in the machinery for coordinating the application of sanctions. "We cannot afford to dally," he said, "for at this moment men are being killed and homes are being shattered. Action must be swift and action must be effective if the League is to achieve the end for which it was set up."

TABERNACLE PARTY.

The children of the Tabernacle held a social on Friday evening last when one of the outstanding features was the efforts of all to "chalk a tail on to a strange animal on the floor." Much amusement was caused particularly in view of the fact that each competitor had to accomplish the feat blindfolded.

In addition music was provided Master J. Blythe and Mr Honeyman playing selections on their instruments.

The gathering ended with the usual Friday evening meeting of choruses and so on, and with Mr Honeyman giving a much appreciated talk.

SCOUT ACTIVITIES.

With kind permission and through the generosity of the Government who provided transport, the members of the 1st Stanley Boy Scouts paid a visit to the north shore of the harbour on Saturday. They spent a very happy day in excellent weather and during the course of their out-

ing began renovations' on the name of H.M.S. Barracouta set out in stones on the hillside.

WAR NEWS AND NOTES.

The Daily Telegraph correspondent at Dire-dawa states that the Italian army under Graziano is pushing along the British Somaliland frontier towards Harrar but that they are threatened on the left flank by Abyssinians estimated at 160,000, advancing from the south-west.

- o -

Ras Destas' army from Webbe Shebeli has been joined by Gerlogubi tribesmen with a Boer military adviser, Colonel Serwiank. This army consists the flanking force of the Abyssinians marching against Graziano.

- o -

The Italian army comprises of three European and two native divisions running south west on a line through Bohotle, Kabrin, Beridalah & Masara. It is supported by 250 tanks and 20 planes and has advanced thirty miles.

- o -

The total Abyssinian casualties including non-combatants so far are estimated at 10,000, many of whom have been fatally gassed with chlorine compound.

- o -

Damot, south of the British frontier and noted for seven Mosques, has been completely wiped out by bombs.

- o -

Abyssinian forces numbering 200,000 are said to be concentrating at Jijiga and in the Sasabaneh area with a Turkish and German advisers - Jevib Pasha and Von Loeben.

9 o -

The Northern Italian army has entered Aksum without resistance. The Italians have been concentrating on Aksum for several days, practically surrounding it, and they have been supported by armoured cars.

- o -

It is understood that the Emperor ordered the defenders of Aksum to retreat in order to save the "Holy City" as it is known by the Abyssinians. The monks have fled carrying with them the sacred relics to the hills.

- o -

But a later message reports that on receiving the news of the fall of Aksum the Emperor wept bitterly and summoned the head of the church to proclaim a holy war for recapturing the city.

- o -

Waizero Gaby, the daughter of a famous chieftain, controlling a host of servitors, mules and horses, and probably the richest woman in Abyssinia, has left for the northern front at the head of an army of 15,000, stating "We don't fear the Italians."

- o -

An Abyssinian official communique states that Italian planes have bombed Gorhei, Katama and Jialm while machines distributing propaganda have been flying over Harrar and Diredawa.

- o -

Another Italian plane is given as being lost. It is understood to have crashed near Garaalta on the northern front with two of the occupants killed and two injured.

The total number of planes lost by the Italians is said to be four.

- o -

Dispositions have been made for a formidable defence of Addis Ababa by the concentration of 125,000 well equipped troops, the Emperor having pledged himself, his life and fortune, for the salvation of the country's capital.

- o -

The British Legation at Addis Ababa has warned all British women and children and all other British subjects who can do so, to leave without delay.

There are nearly five hundred British subjects in Addis Ababa consisting of about a hundred British born, two hundred British Indians, a hundred Arabians and about eighty other British protected subjects.

- o -

Other countries have also warned their nationals in the Abyssinian capital to vacate if they can and as quickly as they can.

- o -

At Geneva it is understood that important progress is being made in framing the plans for the application of sanctions against Italy.

- o -

The Daily Telegraph correspondent reports that the financial sub-committee has approved of a seven-point resolution which practically places an embargo on all financial relations with Italy and Italian citizens. The Coordinating Committee dealt with this matter yesterday (Monday.)

- o -

An early discussion is expected on the boycott of Italian goods, the limitation of sales to Italy, a compensation fund for nations supporting the sanctions.

- o -

Summarised broadly it is apparent that the representatives of sanctioning countries have exhibited a genuine anxiety to take swift and strong action to compel the cessation of hostilities at the earliest possible moment, but in determining methods of agreement is hard to reach.

- o -

Mr Eden reports that the Imam of Yeden is strengthening the coastal defences while the Arabs are indignant at Italy's aggression.

SIR MALCOLM CAMPBELL'S

ANNOUNCEMENT.

At the Royal Automobile Club on Saturday, Sir Malcolm Campbell announced that he is definitely retiring from speed contests unless a foreigner in the near future broke his 301 miles an hour record.

BRITAIN - THE WORLD'S BANKER.

In addressing a regional conference of the National Savings Movement at Malvern on Saturday, Sir George Paish stated that it was vital that Britain should remain the world's banker.

He pointed out that until the Great War, British savings amounting to £4,000 million financed railway, steamship, telegraph, telephone and mining developments in the whole world.

GREECE & MONARCHY.

Subsequent to the coup d'etat in Athens the Condylis Cabinet issued a proclamation hoping that the return of the monarchy to the country would result in the resumption of order and ensure that all parties have an equal participation in the government.

Condylis has announced the complete restoration of the royal nationality but in London ex-King George stated that he would not return until after the plebiscite.

A later message reports that General Condylis has received messages of congratulation from Ismet Pasha, the Turkish Minister, from the Premier of Yugo-Slavia and from the Foreign Minister of Rumania, expressing their best wishes for the restoration of the monarchy.

New York. The 1936 Navy Estimates include one 35,000-ton battleship as replacement to the obsolete "Arkansas", the first of seven similar ships states the Herald and Tribune.

NEW TEXTILE DEVELOPMENT.

The Cotton Industry and Research Association is planning for all activities relative to cotton, rayon and silk to be centred under one roof, states the Daily Telegraph Manchester correspondent, with the merging of the funds of the respective organisations.

It is also announced that the Cotton Spinners' conciliation machinery is being scrapped by the unions who are giving six months' notice of the termination of this measure.

LINDBERGH BABY MURDER

APPEAL DISMISSED.

It is reported from Trenton, New Jersey, that the Court of Errors and Appeals has unanimously rejected the Hauptmann appeal against being convicted for the Lindbergh baby murder.

WORLD TRADE DOWN.

The League statistical bulletin issued in Geneva states that the world's trade for the first half of 1935 fell in gold value owing to the price in metal declining, but the actual volume has increased 2% compared with the same period in 1934.

MEMEL.

The new Memel Diet is meeting on the 28th of this month, states a message from Kaunas and it is probable that a non-confidence vote will in the present directorate will be passed.

Ottawa. A record number of 894 candidates took part in yesterday's Federal election for 245 seats of which the Conservatives held 133. It is significant that none of the provincial governments are now conservative.

CAPTAIN ALLAN'S SHOOTINGSUCSESSES AT ABERDEEN.

Captain W.M. Allan who is  
 shortly expected to return from  
 leave, has we learn, been giving a  
 good account of himself at the  
 Aberdeen "Wapinschaw" held in August  
 last.

The "Wapinschaw" is the Aber-  
 deenshire and District Territorial  
 Rifle Association annual shooting  
 meeting held on the Black Dog Ranges.

Captain Allan in keeping the  
 Colony's name to the fore, won two  
 first prizes besides a number of  
 others. The competitions were for  
 open sights and his successes were  
 for rapid and snap-shooting, un-  
 limited entries.

In the Lumsden Challenge Cup  
 he scored a possible at the 200 yards  
 (five shots snap-shooting) and holds  
 the trophy for one year besides winn-  
 ing a cash prize for 30/-.

In the Ladies' Gold Cross (10  
 rounds rapid at 200 yards) he scored  
 39 out of a possible 40 and won £4  
 and also in this competition he ob-  
 tained a prize of £1 for the three  
 highest scores (110 out of 120.)

In the Forsyth Competition  
 (five shots at 500 yards) he scored  
 a possible but was placed third with  
 a £1 prize.

Among other events Capt. Allan  
 also took part in the Veterans' Cup &  
 was ninth in the first stage. He  
 however did not appear in the next  
 stage leaders' but it is interesting  
 to note that the trophy was even-  
 tually won by Captain A. Martin,  
 late of the Calgary Highlanders, and  
 an uncle of "Sandy" Martin who  
 coached the Falklands' Bisley team  
 to victory in the Junior Kolapore  
 last year.

The "Aberdeen Press and Journal"  
 commenting on Captain Allan's appear-  
 ance at the "Wapinschaw" writes : -

"Many 'kent' faces were seen on  
 the ranges in the early afternoon,  
 crackshots whose reputations are al-  
 ready established. Among them was  
 a familiar figure of several years  
 ago, Captain W.M. Allan, now Captain  
 and Adjutant of the Falkland Islands  
 Defence Force. He got his eye in  
 right away, returning a 'possible'  
 in the Lumsden Cup competition. With  
 his tie shots, he scored seven 'bulls'  
 with consecutive shots, dropping to  
 a magpie with his eighth."

UNFORTUNATE ACCIDENT.

When riding on Mr E. Hirtle's  
 lorry yesterday just before noon Mr  
 N. Kenny unfortunately overbalanced  
 as the vehicle was rounding Jubilee  
 Corner by the Public Jetty. He fell

on to the curb and sustained injuries to his chest and shoulder & slight shock. He was admitted to the hospital where he is being detained.

We understand that Mr Kenny's condition is not critical.

#### A GAME OF "FOOTBALL".

A game was arranged on Government House Paddock on Sunday between "East-enders" and "West-enders" but unfortunately neither side could field a full eleven and what might otherwise have proved an interesting match resolved into a pick-up affair among those who turned out.

#### BRITISH EXPORT TRADE.

It is reported from London that the overseas trade figures for September showed the exports totalling £34,098,265 which is £784,690 less than August's figures but £141,017 more than in September of last year while the re-exports totalled £3,810,838 which is £374,723 less than in August but £561,002 more than in September of last year.

Imports totalled £60,830,697 which is £1,685,500 more than in August and £2,917,362 more than in September of last year.

The exports for the first nine months of the year were £22,747,935 higher than in the corresponding period for 1934. The re-exports were £879,006 higher and the imports £2,582,505 higher.

#### CANADIAN ELECTIONS.

According to a message from Ottawa the latest election results are : Liberals 165, Conservatives 40, Social Credit 13, others 16. MacKenzie King, Stevens and Bennett have been defeated.

London The Labour Peers selection of a new leader will probably be Lord Snell & in the unlikely event of his refusal, Lord Strabolgi.

#### WAR NEWS AND NOTES.

As far as the fighting is concerned the press news received gives no indication of further developments.

- o -

But foreign press opinion is commenting strongly on the crisis.

There are indications that Germany is definitely against the Italian attack while the "Koelnische Zeitung" envisages an Anglo-United States pact as the outcome of the Italian violation of the Covenant & this would be of greater final importance than actual war.

- o -

It is pointed out also that Roosevelt applied sanctions before the British carried them to Geneva while the announcements of Mr Eden for Britain and of Mr Cordell Hull for the United States show perfect agreement.

- o -

The Daily Telegraph correspondent in Rome states that with no official communique issued it is believed that there will be no further important development until the arrival at Asmara of Field Marshal Madoglio, the chief of the Italian General Staff. It is rumoured that Madoglio will succeed Debono as Commander-in-Chief.

- o -

The German "Boersen Zeitung" sees in the despatch of Madoglio to East Africa, the Italian realisation of the expedition's difficulties which have been underestimated despite the preparations made with the Abyssinians possessing a resistance previously unimagined.

- o -

It is learned that General Garibaldi, a grandson of the Liberator, is proceeding to London and though the visit is ostensibly private, certain quarters infer that Garibaldi will make unofficial soundings with a view to opening a discussion for a settlement, since he is understood to be intending to put the Italian view before parliamentary circles.

ROYAL AIR FORCE EXPANSION.

Excellent progress is being made with the programme of expansion of the Royal Air Force announced in May last.

Already new sites have been definitely chosen for twenty out of the thirty new stations required & measures are in train to make them ready for service by March 1937 when the programme is due to be completed.

The sites of three out of the six new armament training camps have now been selected and five additional flying training schools have been formed.

The enrolment of pilots and recruiting generally is regarded as satisfactory.

Manufacturers are making a big effort to execute contracts for new machines and in some cases arrangements have been made for other firms to build under licence speedily types which the manufacturers cannot immediately expand their plant sufficiently to enable them to provide the required output themselves.

NEW ORIENT LINER.

The Orient Steam Navigation Company has placed an order with Vickers Armstrong for a twin-ship to the 23,000-ton "Orion" now on her maiden voyage to Australia.

NEW LABOUR LEADER'S SPEECH.

The new leader of the Labour Party, Major Attlee, in his first speech since his election to that office, has emphasised that matters upon which there were differences of opinion in the Labour movement were much smaller than those they held in common.

They were united in the resolve to maintain peace. They believed that even yet if the nations of the world in the League would honestly and whole-heartedly apply economic sanctions the present war should be brought to an end, but constant care would be needed lest the support of the League was used to start a new armament race.

QUADRUPLETS.

A London message on Monday announced that the wife of a Stoke-Newington metalworker had given birth to quadruplets - all boys - at the Royal Free Hospital.

Their total weight was thirteen pounds but all were reported to be doing well in electrically heated cradles and fed by fountain-pen fillers.

A later message reported that Mrs Harmsworth, the mother, has been the recipient of nationwide congratulations and gifts.

JAPO-MANCHU-SOVIETFRONTIER TROUBLE.

An official Soviet news agency reports that fifty Japanese and Manchukuoan troops have entered Russian territory at Grodekovo, near Vladivostok, and in a clash with the guards several have been killed and wounded on both sides.

Harbin also reports a frontier incident at Suifenho where Soviet cavalry entered Manchukuo. Fighting ensued and casualties resulted.

It is reported from Tokio that the Soviet Ambassador Turennev has lodged a protest with the Foreign Minister Hirota, relative to the frontier incident and has demanded an enquiry, punishment to those responsible and the setting up of a Japo-Manchu-Soviet Commission to deal particularly with frontier incidents.

Hirota has stated that the government possessed no official information relative to the incident and called attention to the whole problem of indefinite frontiers.

A message from Dairen announces that a secret Japanese army conference has outlined military plans to command general operations in Manchukuo and North China.

The Daily Telegraph correspondent states that the plans are understood to include action on the Mongolian, Siberian and Chahar frontiers, the suppression of anti-Japanese groups north of the Yellow River and a strong programme against Nanking.

STANLEY IN 1856.

On page 3 of to-day's issue we publish a reproduction of a lithograph appearing in an American paper of June 1856 illustrating the settlement at Stanley about that time.

The paper, kindly loaned by a reader, is "Ballou's Pictorial Drawing-Room Companion" and the type script referring to the print states : "Our picture is a representation of Stanley Harbor, Port William, on the extreme easterly point of the east island of the Falkland group, which embraces nearly two hundred in all. .... The picturesque outline of the hills, and the peculiar conical shape of some of them cannot fail to attract attention."

The picture was taken from the eastern side of the Narrows, now known as "Engineer Point" and clearly outlines Sapper Hill, Mount William, the Tumbledowns, the Two Sisters and Admiralty Point while there are in the town two familiar land-

marks at least in the old Cathedral Church and the Barrack house and square. It is interesting to note the steamer going out through the Narrows; this we are led to believe must represent the "Great Britain."

BROADBENT CRASHES.

Mr H.F. Broadbent, the Australian airman who left Darwin on Friday last on an attempt to break the record flight to England has had to abandon his attempt at Pasra.

The machine was badly damaged in a crash but Broadbent is not seriously hurt.

NEW METROPOLITAN POLICECOMMISSIONER.

Air Vice Marshal Sir Philip Game, who was Governor of New South Wales between 1930 and the present year, will take over the duties from the present Commissioner Lord Tren-Trenchard on the 12th of November.

INCREASE IN F.B.C. INCOME.

It is reported from London that as the outcome of the Ullswater Committee recommendations the B.B.C. income is to be increased by a million pounds to £3,000,000 while the present charter is likely to be renewed for a further ten years from 1936.

THE CANADIAN ELECTIONS.

The Liberals have been returned with a record majority, holding 175 seats as against the 41 of the Conservatives and 32 others. Contrary to yesterday's report it is now learned that MacKenzie King, Stevens and Bennett were not defeated. But eleven other Ministers were.

A FUNDAMENTAL TASK TO BE  
PURSUED.

Sir Samuel Hoare & Current  
Problems.

- o -

The British Foreign Secretary, Sir Samuel Hoare, made some trenchant remarks on Tuesday during the broadcasting of an address to the fifth Annual Women's Conference on Current Problems then meeting in New York.

He said that he hoped his speech in the League Assembly on the 11th of September had established beyond doubt that the British people were solidly behind the Covenant and its determination to resist all acts of unprovoked aggression and to substitute peaceful methods of settlement for war. He had tried to look behind the immediate political difficulties to the causes of bitterness and strife and had selected for special attention among the causes to be removed, the question of the control and distribution of colonial raw materials.

He had suggested that it would be as well to anticipate a controversy by examining this question without unnecessary delay.

Sir Samuel Hoare then commended to his hearers the recent publication of the Economic Section of the League Secretariat called "Remarks on the present phase of International Economic Relations" describing it as a sermon on the folly of our times.

He cited the statement - "The malady from which the world is now suffering is no longer entirely the crisis, but rather the inability of the countries to coordinate their several efforts to emerge from the crisis," and he himself continued - "I fully agree. It seems to me that a lowering of the barriers to international trade, slow and difficult as the task must inevitably be, is one of the most fundamental tasks of the present time. It is a task that must be persistently and courageously pursued not only by the Ministers of Commerce who desire to promote the economic welfare of the world, but also more so by all those who desire to promote international friendship and serve the cause of Peace."

The Foreign Secretary then referred appreciably to the constant advocacy of these ideas by the American Secretary of State, Mr Cordell Hull, and the sympathetic remarks in the same sense made by the French Minister of Commerce, M. Bonnet, in the League Assembly.

He recalled that when the Assembly had adopted the resolution recommending freer trade between the nations, Mr Cordell Hull had sent a message cordially supporting the League's endeavours. It was a source of great encouragement that the governments of three great trading nations were looking in the same direction, but the road ahead would not be easy.

"It is never easy to take the long view as against the short and, at the same time, remember the ultimate good of all rather than the immediate advantages of each," he added.

In conclusion Sir Samuel Hoare said that in democracies the statesmen must appeal to the understanding and imagination of the people for if they could not carry the people with them their individual wisdom was of no avail. "This is why I welcome the chance of speaking to a great American audience. I want to convince you that we in Great Britain stand for the abolition of war and the mentality of war, whether on the field of battle or on the field of commerce, industry and labour. We want a new world and a new order in human relations in which peace and justice, trade and intercourse, shall be secure. And I am sure that these are also your wishes and ideals."

-----  
AT GENEVA.

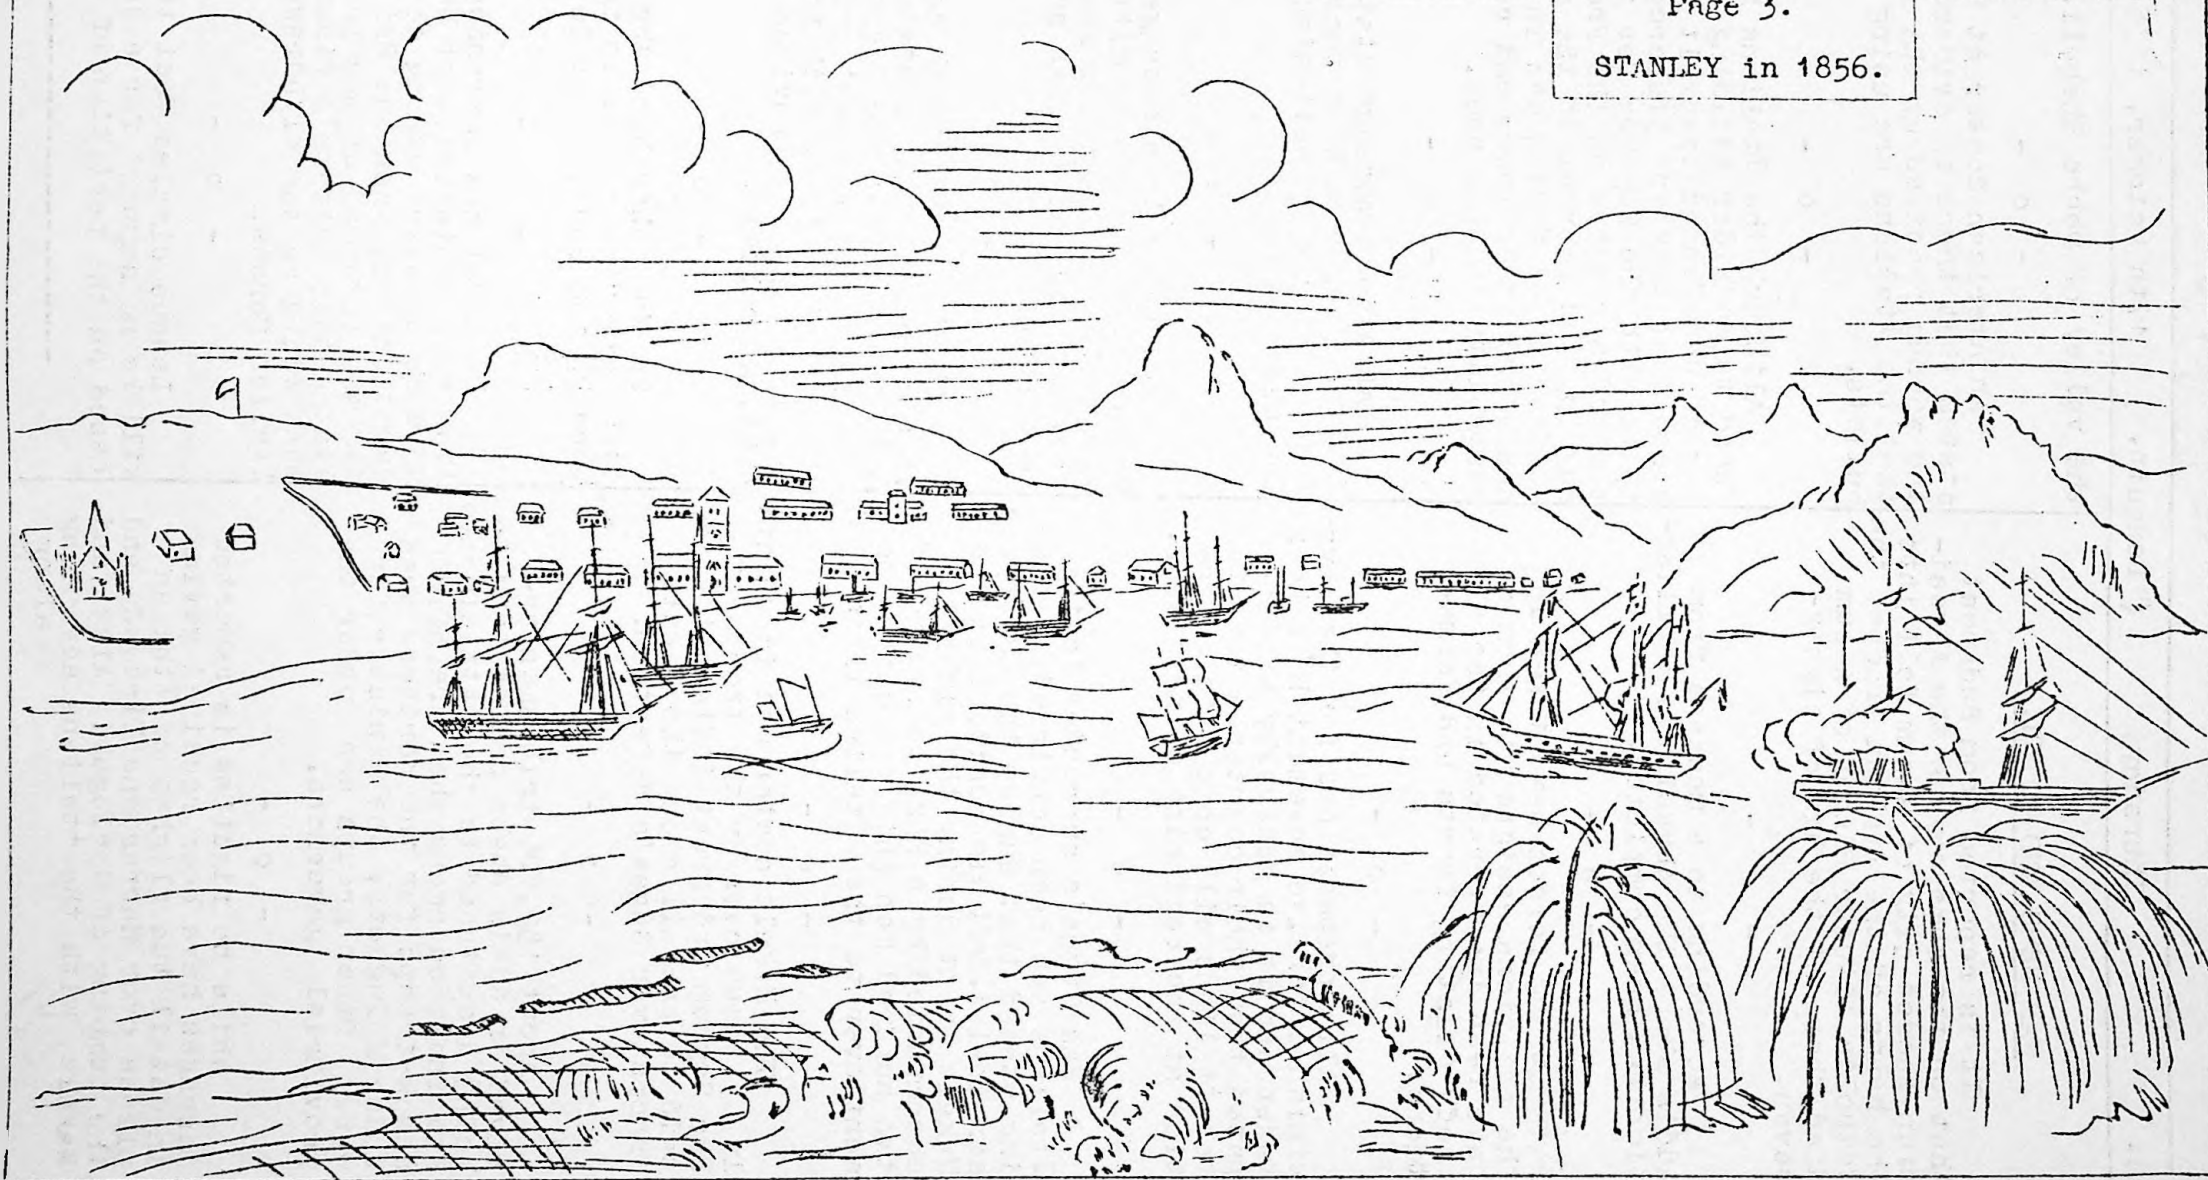

The Committees and sub-Committee have been at work strenuously preparing proposals for submission to the Committee of the League which is co-ordinating the measures to be put into operation by the League members in the fulfilment of their obligation arising out of the Italian resort to war in disregard of the Covenant and with a view to the restoration of peace by an agreed settlement. The Economic sub-Committee has been considering the imposition of an embargo on all the exports to Italy of key products & also refusal of exports from Italy.

WAR NEWS AND NOTES.

It is reported from Budapest that on the same day as the Alyssinian sacred city of Aksum fell into the hands of the Italian troops, the Catholic Titular Bishop of Aksum died there at the age of eighty-seven.

- o -

According to a message from Addis Ababa the Abyssinian mobilisation has been completed.

- o -

Strong forces have taken up the positions assigned to them or have been incorporated in the already existing fronts and formations.

- o -

All preparations for the Abyssinian offensive movement have been taken and it is generally anticipated that their counter-attack to the Italians will come into operation at the beginning of next week.

- o -

Ras Gugsa's surrender to the Italians has been confirmed, it being stated that Gugsa, the Emperor's son-in-law, left his position on the Makale front during the night and accompanied by a Ras' bodyguard of two hundred men (his own corps) he went over to the Italian lines.

- o -

The Makale sector was immediately taken over by the troops of Ras Seyoum and great indignation is said to prevail among the Makale troops over Gugsa's defection.

- c o -

About 150,000 tribesmen arrived in Addis Ababa preparatory to being despatched to the battlefronts and included among them are 50,000 shock-troops for the northern area under Mulugueta, the Minister for War. Other groups are under the provincial governors.

- o -

While no fighting is reported messages have been received giving in detail the flights of Italian planes over Harrar and Direwađa and the bombing of Gerlogubi, Alagi and Makale, with the Italians advancing along

the valley of Webbe Shebeli.

- o -

An American doctor at Harrar states that there is evidence from the wounds received by the Abyssinians that the Italians are using dum-dum bullets.

- o -

Although the Italians have refused to consider avoiding the bombing of undefended towns it is understood that they are prepared to negotiate with the Emperor for the selection of a reserve on the French railway for the retreat of the eight hundred or so foreigners in Addis Ababa and other towns and respect the neutrality of this area.

- o -

An Asmara message states that Italian engineers have uncovered good water supplies by well-sinking in the Adowa area.

- o -

According to a message from Geneva M. Laval has submitted a new peace plan to Mussolini which, however provides for the Italian advance to be halted.

- o -

The Daily Telegraph correspondent in communicating this states that the plan provides for the Tigre Province becoming an independent principality controlled by Italy with the kingdom of Harrat and the Province of Ogaden passing to Italy.

- o -

On the other hand Abyssinia is to be given an outlet to the sea through the corridor at Zeila.

- o -

M. Laval has impressed the Italian representative that he could not do more to avert strong economic sanctions but when the British Minister was informed of the proposals he stated that Britain's first requirement would be the withdrawal of the Italian forces.

- o -

League circles feel that there will be no support for a settlement based on the partition of Abyssinia.

POLICE COURT NEWS.

Henry Nunn, a labourer, pleaded  
 "Not guilty" at the Police Court ves-  
 terday morning when summoned with  
 leaving open a Common Gate on the  
 28th of September last, contrary to  
 Section 12 of the Trespass Ordinance,  
 No. 5 of 1904.

The Ordinance states: "Any  
 person who shall wilfully, negli-  
 gently or maliciously leave open any  
 gate leading to or from the Common  
 shall be liable to a penalty not  
 exceeding ten pounds."

After hearing the Common Ranger  
 (Mr B. Fleuret) and the defendant on  
 oath the Magistrate dismissed the  
 case as the evidence was unsupported.

The Magistrate went on to say  
 that he wanted to make it clear that  
 the matter of the Common - of keeping  
 animals on the Common, letting animals  
 off the Common and the general way of  
 using the Common - was now going to be  
 under more strict supervision. Any  
 case which was brought into Court and  
 proved would incur a severe penalty.  
 People must not leave a gate open even  
 to oblige a friend and no person must  
 let a cow, for instance, through a  
 gate off the Common to leave it loose  
 on the road.

A number of Hospital fee cases  
 were also heard the same morning.

THE IMPORTANCE OF VACCINATION.

As our readers know a Vaccination Ordinance was introduced into the Falkland Islands as far back as 1868 and the importance of this measure of protection against small-pox is so thoroughly recognised in Britain and other countries that laws have been passed making it compulsory.

The body can be guarded against the disease in two ways : naturally, by having the necessary substance in the blood to combat infection - a happy condition which but very few people enjoy; and artificially by having a preparation introduced into the blood which helps to increase the resistance to the disease. Vaccination provides the blood with the means of manufacturing this substance.

Small-pox is a serious and highly infectious disease and once it has gained a hold it may quite easily spread as rapidly as the recent 'Flu epidemic, particularly among those people whose blood is unable to offer any resistance. And there is no telling when a small-pox germ may not be brought into the Colony from some other place.

Vaccination is a very simple affair. It amounts to the arm or leg, according to a person's preference being slightly scratched & the necessary fluid which is known as "lymph" being placed on the scratches. This is then absorbed into the system and if the person is not immune there is a slight reaction which shows that the blood is adapting itself satisfactorily.

Statistics show how vaccination has had a great influence in diminishing the number of deaths due to small-pox. In England, for instance, at the end of the eighteenth century just before the introduction of vaccination, the death rate was given as 3,000 in every million from small-pox. At the beginning of the twentieth century this had been decreased to about 75 in every million. That is to say, during the century in which vaccination was practised, small-pox decreased to one-fortieth of its previous importance as a cause of death.

TABERNACLE ANNIVERSARY SOCIAL.

(Continued from page 1.)

arrangements were under the charge of Mr D.M. Honeyman with the refreshments, to which everybody did ample justice during the interval, being generously provided by the Ladies' Committee.

Those who took part in the proceedings were : Mesdames Kelway & Henderson, Miss Nanny Lellman who gave violin solos accompanied on the piano by Mrs J.D. Creamer, O.B.E., Messrs M. Luxton, J. Norris, R. Courtney and D.M. Honeyman, the last-named at the conclusion also giving a short address. Mention must also be made of the club swinging given by the Misses E. Howatt and B. Sedgwick.

Pastor W.F. McWhan then brought the social to a close with a vote of thanks to all those who had contributed to make the event so successful and the proceedings terminated with the singing of two verses of the 23rd Psalm.

OVERSEAS NEWS IN BRIEF.

London : Preparation for the forthcoming general election are proceeding. Samuelite Liberal candidates approximate 200 in number but there are no Lloyd George nominees yet.

Belfast : H.M.S. Penelope, a cruiser of the Arethusa class, the keel of which was laid down in May 1934 by the Duke of Gloucester, has been launched from Messrs Harland & Wolff's yard.

Istanbul : The Turkish government has abolished Masonic lodges, all properties reverting to the State.

WAR NEWS AND NOTES.

All reports of the alleged Abyssinian counter offensive, either on the southern or northern fronts, are denied in Addis Ababa where it is stressed that the Abyssinian troops for military reasons are unable to take the offensive and that military leaders have received strict instructions to assume no risks.

- o -

It is added that the task of the Abyssinian armies is to defend their country and await enemy attacks.

- o -

Government circles state however that information from the northern front is very meagre and the Emperor himself is not in a position to form an exact idea of the situation since Ras Gugsa before joining the Italians cut the only telephone wire connecting Makala with Addis Ababa.

- o -

Abyssinian freebooters, it is stated from Asmara, attempted to cross the river Setit on the borders of Eritrea, but have been repulsed with heavy losses.

- o -

Despatches have been received at Asmara reporting an uprising in the Province of Gojjam. It is alleged that the order for mobilisation has been disregarded and that the Abyssinian police are said to be trying to enforce it.

- o -

According to a Rome statement the Abyssinian northern army under Ras Seycum is said to be concentrating on the Gungura Valley, preparing for an attack on the Italian right wing near Aksum.

- o -

Ras Seyoum's forces are said to be greatly weakened by numerous desertions amounting already to more than 10,000 men. Thousands of the deserters are understood to be incorporated in the Italian army but some 5,000 have not yet been taken over since their desirability to be in the invading forces appears doubtful.

- o -

An Abyssinian cavalry detachment has been advancing in the past few days in the vicinity of the Italian position near Mt Mussa Ali, according to French airmen's reports in the course of reconnoitring duties on the border of French Somaliland.

#### COAL STRIKE AVERTED.

It is announced from Cardiff that the threatened general stoppage of work in the South Wales coal-fields has been averted. This decision is the result of the acceptance by the conference of the Miners' delegates of the recommendation of the Executive Council of the South Wales Miners' Federation who have been in consultation with the owners.

#### ROYAL WEDDING SHADOW.

A shadow has been cast over the preparations for the royal wedding on the 6th of November in consequence of the bulletin stating that the condition of the Duke of Buccleuch, the bride's father who is 71 years of age, is giving rise to serious anxiety.

His family, including Lady Alice Scott, the Duke of Gloucester's fiancée, flew north yesterday in the Prince of Wales private aeroplane and are now at Bow Hill.

#### ITALIAN SHIPPING DISASTER.

The 13,000-ton Italian liner Ansonia took fire yesterday in the outer harbour of Alexandria, after an explosion had occurred in the boiler room.

The fire spread rapidly to all parts of the vessel.

An Alexandria message states that sailors from H.M.Ss Queen Elizabeth, Valiant, Revenge and Shropshire took off the passengers in picket boats.

Four of the crew of the Italian vessel were killed and about a dozen seriously injured. It is feared that the vessel is a total loss.

The highest tributes have been paid by the Ansonia's officers to the magnificent work of the Blue-jackets from the British warships in rescuing the passengers and crew.

#### THE CANADIAN ELECTIONS.

The final standings in the Canadian elections are : Liberals 169 seats, Conservatives 41, Social-Credit 17, Cooperatives 8, Independent Liberals 4, Liberal Progressives 2, Reconstructionists with the Independent-Conservatives, Independents and United-Farmers - one each. The results are expected to give trade a fillip by reason of the new government's strength.

BRITAIN - FRANCE - ITALY.

What Will M. Laval Decide ?

The latest turn in events concerning the Italo-Abyssinian dispute is that M. Laval, the French Premier, has before him the alternative of choosing between London and Rome.

The Geneva correspondent of "L'Ouvre" states that Rome is of the opinion that he will decide in favour of Italy, adding that there is a certain relaxation of tension to be noticed in Italian circles although England's "increasingly stubborn attitude" is causing some anxiety. On the other hand, according to a broadcast announcement from the United States, American opinion seems to favour the amalgamation of France and Britain.

Press messages on Wednesday & Thursday announced that M. Laval had submitted a new peace plan to Mussolini but these were later denied.

The French Foreign Office describes them as absolutely false.

Nevertheless Rome is greatly interested, states the Daily Telegraph correspondent, but the situation remains very confused as the press does not give the suggestions any official colour.

It is declared, however, that Italy would not consider any peace proposals or a truce if the sanctions are imposed and while the cession of portions of Abyssinia might be regarded as a basis of discussion, the granting of a sea outlet to Abyssinia is definitely not acceptable with the Duce standing adamantly against all League interference in the conflict.

Geneva has also stated that M. Laval has complained to the British Ambassador that his peace efforts are being greatly hampered by the presence of the augmented British fleet in the Mediterranean and has suggested that it should be reduced to normal in exchange for Italian withdrawal from Libia.

Yesterday's bulletins stated that the British Ambassador in Paris, Sir George Clerk, has had a further interview with M. Laval & has communicated to him the views of the British Government in regard to the question raised earlier by M. Laval as to whether the British Government would be prepared to withdraw from the Mediterranean such naval forces as were in excess of the normal footing. The terms of the British reply to this enquiry, however, are not published.

But it is understood that the main considerations which prompted Britain to reinforce the Mediterranean fleet remain unchanged. The reinforcements were sent to the Mediterranean as a precautionary measure in view of the threatening anti-British attitude and tone of the Italian press and this situation continues. Meanwhile the Libia forces have been strengthened in spite of the fact that it had been suggested that Italy, if Britain were to carry out the proposed Mediterranean gesture, would withdraw her additional troops.

It is further understood that the British Ambassador in his interview, repeated the demand for the unconditional assurance that France would fulfil in their entirety the obligations assumed by all members of the League under Paragraph 3 of Article 16 of the Covenant. This provides that all League members "will mutually support one another in resisting any special measures aimed at one of the number by a State breaking the Covenant."

Although a Paris bulletin yesterday announced that M. Laval had summoned a Cabinet Meeting for Monday as a result of the direct request made by Britain for an unequivocal answer, this morning's (Saturday) press states that the reply has been handed to Sir George Clerk. It is said to return a full affirmative on all the points raised and is completely satisfactory. But further details are not likely to be known until the Note has been examined by the British Foreign Office.

ROAD SENSE AND SAFETY ON THE PUBLIC HIGHWAY.

The especial attention of the Public is drawn to the following Notes on road sense and safety on the public highway.

The employment of what is generally known as "Road Sense" has long been recognised as essential to the safety of those using the Public Highway. Road sense has been well defined as the offspring of courtesy and the parent of safety. Its use cannot be over estimated in the interests of the community at large.

Experience shows that the following are some of the failings which most frequently cause accidents : -

Errors Committed by Children.

1. Running into the road after a toy or a playmate, or out of school, home or playground.
2. Playing games in the street without regard to the interests of traffic or pedestrians.
3. Stealing rides on carts, lorries etc., and falling or jumping off.
4. Interfering with standing vehicles; such as mischievously dropping the tail-boards of lorries, carts etc..

Errors on the Part of Pedestrians.

1. Stepping off footpath without looking for oncoming traffic in either direction.
2. Hesitating in the middle of the road.
3. Crossing from behind or in front of vehicles without looking.
4. Boarding or jumping off vehicles in motion.

Errors on the Part of Cyclists.

1. Sudden swerving either to overtake, or due to loss of balance.
2. Skidding on greasy surfaces.
3. Turning without signalling.
4. Overtaking on the wrong side of the road.
5. Holding on to vehicles in motion.
6. Riding too many abreast.

The co-operation of all sections of the Community, and particularly Parents, is sought to instil into children and others a sense of regard for their own safety, and generally to call attention to the grave risks incident to the perpetration of the above malpractices.

AUSTRIAN FASCISTS IN CONTROL.

The Daily Telegraph correspondent in Vienna reports that a drastic reconstruction of the Austrian Cabinet has taken place whereby the Starhemberg Fascists have gained control and as a result of which Major Fey, and the Secretary of State, Karwinsky, with other Ministers have been jettisoned.

The change came about by the Chancellor, Schuschnigg, advising President Miklas to relieve all the Ministers of their posts, at the same time tendering his own resignation. His advice was not ac-

cepted but certain Ministers were relieved and Schuschnigg's proposed Cabinet accepted.

A proclamation has been issued declaring the unification of all defence organisations as the Volunteer Militia of the Austrian Heimwehr.

SINO-JAPANESE PROPOSALS.

Representatives of the Japanese Foreign, Navy and War Offices have arrived at Shanghai for a conference with the Japanese diplomatic representatives from all parts of China concerning Sino-Japanese proposals.

WAR NEWS AND NOTES.

An Addis Ababa communique stresses the fact that great activity is taking place among the Italians in the Tigre Province with additional defences to the lines of communication which portends an imminent advance in the Makale area.

- o -

A Rome message states that the renegade chieftain Ras Gugsa has been appointed Governor of the Tigre Province in the name of the King of Italy.

- o -

The Emperor of Abyssinia has addressed departing troops with religious exhortations and war wise instructions.

- o -

A Djibouti message states that an Abyssinian raiding column has severed the Italian lines which were endeavouring to reach the Hawash river near French Somaliland border and they were compelled to fight a rear-guard action to Eritrean territory.

- o -

Reuter's correspondent in the Suez states that the sea within a mile radius of Massawa is solidly congested with shipping, some of the vessels having waited five months without unloading, preference being given to ships carrying important war materials.

- o -

Food shortage is causing continuous pilferage from the quays. Italian soliders and sailors possessing money on board ships are begging the officers to sell them provisions, their army rations consisting mostly of bread, water and cheese. It is stated though that the Asmara troops are much better fed.

- o -

Whenever possible the troops have been disembarked at night-time and hurried to the Asmara highland since the moral of the troops detained in Massawa has been affected by the terrific heat and the shortness of rations. Water brought from the ships is sold at ten shillings a ton.

- o -

The Italians, apparently, are converting Massawa into a second Gibraltar with batteries of fifteen-inch guns mounted in concealed positions among the sand-banks a few miles north of the base and having a ranged of nearly twenty miles.

- o -

Four-inch guns capable of dealing with destroyers and light cruisers are being placed under cover of night in positions overlooking the bay and on strategic islands while off the port more four-inch and a number of six-inch guns are being positioned.

- o -

There are said to be at least five Italian submarines in local waters but the conning-tower numbers have been painted out so that it is impossible to identify them or any additions which might be made.

- o -

The Italian Air Force in East Africa is now believed to be in the neighbourhood of 500 strong, many of the machines being bombers of moderate radius (from two to three hundred miles) while a hundred planes recently landed at Massawa are stated to be fitted with two machine guns each and are designed to fly low over the tribesmen in order to spray them with bullets.

- o -

These tactics are considered to be more effective in many cases than bombing owing to the lack of concentrated targets on the ground.

- o -

A Djibouti message says that 350 planes destined for Mogadiscio, Italian Somaliland, alone are on board an Italian steamer which has arrived there.

- o -

This aerial offensive power together with the naval fortifications at Massawa gives the Italians a dominating position in the southern half of the Red Sea.

STOP PRESS.

His Majesty the King regrets to announce that owing to the death of the Duke of Buccleuch the marriage of the Duke of Gloucester and Lady Alice Scott arranged to take place in Westminster Abbey will now be held privately at Buckingham Palace Chapel. The Duke died at 00.15 this (Saturday) morning G.M.T.

PARLIAMENT'S LAST ASSEMBLY.

London, 21.10.35.

The present Parliament which reassembles for the last time tomorrow (Tuesday) will be occupied for three days on a debate in the House of Commons dealing with international affairs.

On Friday morning both Houses will meet for the prorogation of Parliament and in the evening the Royal Proclamation for dissolving Parliament will be issued.

NAVAL CONFERENCE PROSPECTS.

London, 21.10.35.

There is every prospect of the Naval Conference being held before the end of the year following the Japanese Embassy communication to the Foreign Office.

The Conference must be held before the 22nd of December and while Japan has waived her conditional entry she adheres to naval limitation views.

INFANT WELFARE.

It is proposed to establish at the King Edward Memorial Hospital an Infant Welfare Clinic.

Under this scheme mothers are invited to bring their children (under five years of age) to the Hospital for periodical overhauling and weighing. Every opportunity will be afforded for discussion with the medical and nursing staffs the various minor ailments of childhood. If so desired, advice will be given as to feeding, teething and general care of children.

The object of this clinic is not so much to treat diseases as to prevent the occurrence of any ailment that might lead to permanent ill health in later life; it is hoped thereby to maintain a good standard of health amongst the children, who are going to be the wage earners and wives of the next generation.

In addition to this clinic, it is suggested that the Nursing Sisters should visit the various homes where a large family prevents the mother from making more frequent visits to the Hospital, and that the Sisters should be available to give any advice that may be asked for during these visits.

All advice will be given free of charge, both in the homes and at the clinic.

A small charge will be made for any medicine that may be required.

At a later date the possibility of a Baby Show might be considered.

The clinic will be open for the first time on Friday, the 1st of November, 1935, between the hours of 2.30 and 4.0 p.m. and thereafter each week.

ALL EYES ON MUSSOLINI.

Week-end Developments.

The comment of the world's press, it was reported from London late last night, shows that the general feeling of tension over the Italo-Abyssinian conflict has been eased, following the week-end developments.

Mr Baldwin's speech, the Anglo-Italian conversations in Rome and the reported understanding between London and Paris are all regarded as having created a better atmosphere. In the course of the speech of Mr Baldwin's just referred to, the Prime Minister repeated the assertion that Britain is actuated solely by a desire for peace and this is accepted everywhere as completely truthful and sincere.

The Paris press says that the week-end developments have gone far to relieve the most pressing anxieties but it is pointed out in many quarters that the material factors of the problem still remain.

In Rome satisfaction is expressed at the partial clearance of the atmosphere but it is emphasised that nothing new has been said and the British Fleet remains in the Mediterranean.

The Daily Telegraph correspondent in New York states that the Americans feel that the tension has been greatly relieved and it is now widely held that it will be difficult for Mussolini to avoid the issue whether he should or should not bow to the force of enlightened world opinion.

The course of events since Friday night are :

Following Signor Grandi's interview with Sir Samuel Hoare at the Foreign Office in London, Sir Eric Drummond, the British Ambassador in Rome had a long interview with Mussolini when a cordial tone prevailed and renewed assurances of Britain's pacific intentions in the Mediterranean were given, while it is understood that the question of the violent anti-British press propaganda was discussed. The Italian view soon afterwards was that the doors for negotiation were not shut.

At Geneva yesterday the League of Nations agreed upon the measures necessary to impose economic sanctions on Italy and these comprise :

1. Complete boycott of all Italian goods.
2. Ban on the export to Italy of certain "Key" products.
3. A plan of mutual assistance to minimise trade losses of the members adopting the sanctions.

These measures have been approved by the Coordinating Com-

mittee representing fifty-two States, with Austria and Hungary abstaining

The Committee is to meet again on the 31st of October to fix a date for the sanctions to come into force.

Senhor Vasconcellas (Portugal), the Committee's president made a powerful appeal to the non-members of the League to cooperate with it in establishing the "supremacy of law over force."

An official communique issued from London last night and Rome simultaneously regarding the conversations between the British Ambassador in Rome and Signor Mussolini, states that the British Ambassador again reassured the Duce that the British Government did not intend taking any action regarding the dispute beyond what was required by their collective obligations to the League. The Ambassador also explained, the communique adds, that the British Government's attitude was not prompted by motives of self-interest; all statements to this effect were absolutely devoid of foundation.

M. Laval's reply to the British enquiry has also appreciably eased the tension.

WAR NEWS AND NOTES.

General Smuts, in a speech at Johannesburg, has characterised the Italian invasion of Abyssinia as a clear-cut violation of treaties and in referring to the dire possibilities of a black versus white clash paid a tribute to Britain for her emphatically peaceful stand.

- o -

Abyssinian troops, including a big army led by Ras Kassas is now reported from Asmara as moving north-wards from Addis Ababa.

- o -

Other Abyssinian troops are understood to be concentrating south of Makale, says a message from the Daily Telegraph special correspondent with the Italian forces.

- o -

Their object is believed to join forces with Ras Seyoum who retreated from Adowa presumably with the intention of massing for a determined opposition.

- o -

Meanwhile the Italians are laboriously developing their communications in the newly occupied territory.

- o -

The Emperor of Ethiopia has signed a law banning the age-old right armies to seize and plunder villages on the way to the front. The armies are now to pay for every thing taken except fodder.

- o -

There is no news of any Italian advance in Adowa and the surrounding region which the Italians have held for the past two weeks. In the south they have been held up by torrential rains.

- o -

Some 212 Italians have been evacuated from Eritrea since the 3rd of the month, mostly suffering from malaria.

- o -

Altogether 183 miles of new roads have been built with 121

wells sunk in occupied territory. Tradesmen are following behind the Italian troops and a number of shops have already been opened by Italians and Eritreans in Adigrat and Adowa.

- o -

In the south the Abyssinians are said to be strongly fortifying and reinforcing Daggahbur in order to oppose the Italian advance on Harrar.

- o -

A message from Harrar states that scurvy is prevalent among the Abyssinian troops in the Harrar and Jijiga regions and medical supplies are being rushed from Berbera.

- o -

The port authorities at Mombasa have applied neutrality laws which prohibit Italian ships remaining more than twenty-four hours and as a result of the application of these restrictions the Italian steamers loading foodstuffs, petrol and forage for Mogadiscio are unable to complete their work and have been allowed to take only sufficient bunker coal to reach Kismayu.

ITALIAN EDITOR IN

Buenos Aires

ARRESTED.

Signor Folco Testena, the editor of the Buenos Aires "Giornale d'Italia" has been arrested and charged with "the publication of articles injurious to the sovereignty and dignity of Argentina relative to the Argentine representative at Geneva."

MORE ITALIANS TO

THE COLOURS.

A Rome message states that as a result of the recent decrees calling more men to the colours, Italy has now 1,200,000 men under arms with one million in Italy and the remainder in the colonies.

The military authorities are shortly calling up the 1915 class of conscripts for service.

SANTA CRUZ BANK ROBBERYSEQUEL.

A press announcement relates that the Buenos Aires police have cleared up the mystery concerning the assault on the Anglo-South American Bank at Santa Cruz some months ago when two English bank clerks were murdered.

From the information and description supplied by the manager of the bank who was himself left insensible, they have traced the two authors of the crime, the principal

FORTY-ONE YEARS AGO.

(From the Falkland Islands Magazine, November, 1894.)

Two of the crew of H.M.S. Acorn had a narrow escape last week. A warrant and a petty officer obtained permission to go in search of sea-birds' eggs in the ship's dinghy, as it was supposed, to the head of the harbour, but they rashly went into Port William and attempted to reach the rookeries near Kidney Cove.

They left the "Acorn" at 9.0 a.m., and not having returned by 9.0 p.m., anxiety was felt as to their safety. Search parties were organised and the steam cutter and gig were sent to examine the coast in & around Port William. A party of F.I. Volunteers in uniform, headed by Sergeant Quianlan (consisting of Sergeant Instructor Quianlan, Sergeant G. Rowlands, Corporal J. Coleman and Privates W.E. Turner and Frank Hardy) volunteered their assistance, but the commander, thinking his own men would be sufficient to find the missing people thanked the Volunteers, but declined their good offer. However, these brave men, accompanied by their sergeant, returned to the shore and, having borrowed one of the Company's cutters, sailed over to Sparrow Cove and landed there, succeeded in finding the missing party with their boat, returning with them to the "Acorn" about 3.30 a.m.. This act, unostentatiously undertaken by the men who had already done a good day's work - for they had been drilling late - was worthy of the good traditions of the British Volunteers.

JAPAN AND CHINA.

It is reported from Shanghai that over twenty high Japanese civil, naval and military officials have arrived there for a conference on the Japanese policy in China.

They will discuss, it is understood, measures for translating into action the new accord that has arisen on the policy to be adopted in China, particularly concerning economic measures.

U.S.A. RYE CURTAILMENT.

The United States Secretary of Agriculture, Mr Wallace, has approved of a four-year adjustment programme for curtailing the production of rye from 1936-9.

Adjustment payments of a minimum 35 cents per bushel are to be made to farmers, curtailing their acreage to 75 per cent of the average past harvest.

SEVERE GALE INGREAT BRITAIN.

This last week-end, a message from London reports, has seen one of the most severe and prolonged gales known in Great Britain for a number of years.

At least ten deaths have been caused by the gale.

It is learnt that from South Wales to the North of Scotland the wind speed exceeded seventy miles an hour while at Renfrewshire a velocity of 92 miles an hour was recorded.

LAVAL'S BALLOT TRIUMPH.

In the French Senatorial elections, Premier Laval has been elected in the first ballot. This is regarded as a great triumph for his home and foreign policy and is likely to strengthen considerably the government.

The Minister of Justice, M. Berard, the ex-President Millerland, and the ex-Premier Caillaux have also been re-elected.

PEACE ?

It was reported from London last night that proposals for the termination of hostilities in Abyssinia have been exchanged between Rome and Paris but the report adds that any such negotiations will take some time as both parties in the dispute will have to be brought together and agree on frontiers, boundaries etc..

A message dealing with these reports comes from Abyssinia which states that the Emperor in an interview with a foreign war correspondent said "There can be no peace until the last Italian soldier has left Ethiopian soil."

THE LATE MR ARTHUR HENDERSON.

The death was reported yesterday of the late Mr Arthur Henderson the Labour leader.

Mr Henderson's work as the Chairman of the Disarmament Conference was greatly appreciated by all nations.

German newspapers yesterday printed an appreciation of Mr Henderson's work especially so in his efforts to get the German claim to equality recognised.

A telegram of sympathy from Sir Samuel Hoare, the Foreign Secretary, has been received by the widow of Mr Arthur Henderson.

Messages from abroad contain many tributes to Mr Henderson's work for peace and one from Geneva, addressed to Sir Samuel Hoare by the Secretary General of the League, M. Avenol, says "As the President of the Disarmament Conference he sacrificed the closing years of his life to a great cause. He realised the difficulties of his task but never despaired of the issue. His name will be remembered here with affection and respect."

DR LANG'S CHURCH CONFERENCE

SPEECH.

The Archbishop of Canterbury, speaking at the Church Conference yesterday, said "Italy has been for generations our close and constant friend and there is no desire deeper in our hearts than that the friendship may continue. It is most important to make it plain that the present dispute is not between this country and Italy but between Italy and the League of Nations. Moreover, in passing judgment upon the acts of Italy we are only echoing the judgment of some fifty nations of the world."

WAR NEWS AND NOTES.

General Graziana, commanding the Southern Italian forces in Abyssinia, reports having captured the fortified post at Dagneri, thus gaining control of the whole of the Sciaveli region.

The attack which was made on Friday was preceded by an hour's aerial bombardment since when the heavy rains held up further progress.

From the Italian Northern headquarters it is learned that the Abyssinians are concentrating in the Mussa Ali region while aerial reconnaissance indicates that Ras Seyoum's main forces are gathering in the Temtien region near Adowa.

The Daily Telegraph Addis Ababa correspondent states that 8,000 members of the Imperial Guard have left for Dessie, 200 miles south of the Italians on the Adowa front and that they will be joined by other forces to a strength of 70,000 en route.

It is also believed that the Emperor is also following the forces in person shortly and considerable preparations to this end are now in progress.

Late messages state that the veteran War Minister, Ras Mulugueto, is taking over the supreme command of the Abyssinian forces and is concentrating in the north.

It is believed that a big battle is to be fought on the North-Eastern front within a fortnight. Ras

Seyoum has been ordered to hold the Adowa line at all costs while there are indications that the Italians will not force their way southwards over the mountains but will strike south-east across the Danakil Desert.

An Abyssinian official message also states that large numbers of the Italians are suffering thirst and fever in the Mussa Ali district where 5,000 Danakil tribesmen, under Mohamed Yayu, are constantly harassing the invaders in the salted wells' area.

Reinforcements are being sent from Diredawa to the Danakils.

The Abyssinian General Ayeleu is reported to be wounded on the northern front.

An Italian communique does not make any mention of losses or impediments but only refers to the consolidation of gains.

Meanwhile from Rome it is reported that diplomatic discussions are continuing with Britain, but Mussolini resolutely declines to consider a settlement on the basis of the Paris offer.

In view of this London regards the prospect of an early peace as remote.

Nevertheless there is some optimism based on the fact that the Duce is remaining within the League despite criticism from its members and that there is Italian appreciation of the fact that Britain does not intend launching an individual attack.

Italian official quarters emphasise that there is no question of "negotiations" yet.

Official figures published in Rome reveal that nearly 1,500 million lira have been spent within the last 3 or 4 months.

IN THE HOUSE OF COMMONS.

In the course of the resumed  
 debate in the House of Commons yes-  
 terday on the international situation  
 the Prime Minister affirmed the sup-  
 port of the united Cabinet for the  
 Foreign Minister, Sir Samuel Hoare,  
 and the Minister of League Affairs,  
 Mr Anthony Eden, in their conduct of  
 international affairs.

Mr Baldwin also referred to the  
 general support they had received  
 from the Governments of the Dominions  
 which had taken their stand alongside  
 of Great Britain in regard to the  
 system of collective security and  
 the Italo-Abyssinian dispute.

This unanimity was a fact of  
 remarkable importance. The  
 Government, he said, were following  
 the only possible course of action -  
 absolute loyalty to the Covenant and  
 with that also the readiness to take  
 advantage of any legitimate oppor-  
 tunity for a settlement.

In replying to the critics in  
 the previous day's debate Mr Baldwin  
 denied that the Foreign Secretary's  
 appeal for the use of breathing space  
 before the application of sanctions  
 for another attempt at a settlement  
 was "a loophole for going behind the  
 back of the League. Nothing of the  
 kind is intended. The settlement  
 must be one, fair alike to the  
 three parties - Italy, Abyssinia and  
 the League of Nations itself. If  
 any settlement can be arrived at that  
 may considerably shorten the duration  
 of the war and relieve the world of  
 the fear that war may spread, it may  
 be worth any endeavour provided those  
 three principles can be maintained."

The Prime Minister went on to say  
 that it was perfectly obvious what  
 might have been possible in the League  
 as originally contemplated was not  
 possible as it existed without several  
 of the great States. But despite

It is announced from Dorking, Surrey, that the house of Jimmy Walker, the ex-Mayor of New York, leased by Miss Laura La Plante, the film star and her husband, Irving Asher, has been destroyed by fire. The film star was carried to safety from her sick-bed by a doctor.

All the property has been destroyed including many valuable documents relating to Walker's mayoralty.

BULLION MARKET HOAX

IN BOMBAY.

It is reported from Bombay that the bullion market has been hoaxed by an alleged government letter announcing the imposition of a gold export duty and the remission of the silver imports tax.

The prices were immediately affected but later Delhi telegrams revealed that the message was false.

Traders are estimated to have lost approximately £100,000.

A later message states that the losses were estimated yesterday at £1,500,000. The hoax had apparently been duplicated at Calcutta and other northern centres.

The police have seized the relative communications to the banks and these are found to be on government stationery with forged signatures.

-----  
ALBANIAN RESERVISTS

CALLED UP.

Press messages from Belgrade state that Albania is calling up 40,000 reservists probably for aiding Italy to defend the entrance to the Adriatic Sea.

Yugo-Slavia, it is also added, emphatically denies any frontier concentrations.

these circumstances and the tremendous difficulties of the situation the League had done better in the crisis than could have been expected, and, he added, no isolated action on the part of Britain had ever been contemplated.

Mr Baldwin then turned to the question of defence. "The lessons of this crisis have made it clear that in the interest of world peace it is essential that our defensive services should be stronger than they are to-day. When I say that I am not speaking of any unilateral re-armament directed either in reality or imagination against any particular country. I am speaking of the strengthening of the defensive services within the framework of the League for the sake of international peace and not for selfish ends - a greater measure of preparedness would meet the risks that are inherent in the situation.

"I have often heard the phrase that the country ought to be prepared to take risks for peace. We are taking risks for peace. But I say this deliberately. I am all in favour, the Government is all in favour, for they see no other course than to adopt a policy of collective security so far as the League can carry it out to-day, and I am convinced that the country is behind us. But while I am prepared to pursue that policy with all my heart and soul I will not pursue it nor be responsible for the conduct of the Government if I am not given the power to remedy those deficiencies that have accrued in our defensive services since the war.

"I am giving my own view to the House as I shall to the country and await its verdict."

Mr Baldwin concluded with the assertion that the system of collective security was still incomplete and inadequate, but looking to the future he trembled to think what might be the state of Europe if some form of collective security be not devised and he recalled his statement at Worcester on Saturday that even if the League proved inadequate this time it behoved them more than ever to see what steps they could take to make it adequate for the future.

In the speeches which followed Mr Amery and Mr Lloyd George both proved critical of the Government's policy, the former summing up his remarks in the sentence - "Let us strengthen our defences and beware how we enter on unnecessary quarrels."

The Liberal Minister, Mr Isaac Foot, paid a high tribute to the work of the Foreign Secretary and Mr Anthony Eden at Geneva.

When Mr Eden intervened in the debate he said he thought Mr Lloyd George had seemed rather anxious to create an atmosphere of suspicion. There was no mystery at all about the work which had been done at Geneva under Article Sixteen of the Covenant. The reports and the recommendations of the Committees had been published and the latter were all in accordance with the obligations which all the League members had assumed. He then gave an account of the negotiations to show that there was not a shred of justification for the charge of dilatoriness which had been levelled against the Government and that from the beginning of the Italo-Abyssinian dispute to the present time, the Government had used all their influence and used it without respite to bring about a settlement which might be acceptable to the parties and consistent with the Covenant of the League. Every endeavour had been made to find a settlement. During the many long months of negotiations attempts were made not once but many times not only in recent weeks but from the very beginning by the British Government, by the League Council and by the Committees of the Council to secure a settlement of the dispute. But each time the negotiations failed through the refusal of the Italian government to accept even as a basis of discussion the proposals put forward.

In replying to an interjection by Mr Lloyd George, Mr Eden said that the only assurance - if assurance it could be called - which had been given to the Italian Government was that we should take no action alone but only collectively.

WAR NEWS AND NOTES.

The British Ambassador in Rome has been instructed to inform the Italian government that Britain has decided to apply the Hague Covenant Neutrality Rules immediately whereby the stay of Italian vessels carrying war materials and provisions in British ports is limited to twenty-four hours and they will only be given sufficient fuel to reach port in other territory.

- o -

From Mombasa and Nairobi it is learned that this ruling is already in force.

- o -

Heriot, in giving his staunch support to Sanctions, has stated "We must obey the League," says a Paris message.

- o -

There is no indication of the American attitude following the League communication which Secretary of State, Cordell Hull, has received during the past two or three days.

- o -

The New Zealand labour leaders have approved of the sanctions while a Dutch royal decree enforces the Italian arms embargo from Tuesday and a Rumanian decree makes effective the full measure of the League sanctions.

- o -

Over twenty-three countries are now enforcing sanctions.

- o -

A later message states that it is generally believed in London that the French reply on the application of the Hague neutrality clauses must inevitably follow the British lead but a Washington message indicates that there is little immediate possibility of the United States applying the terms while Egypt has not considered the question.

- o -

Nevertheless Italy is making efforts to obtain large cotton supplies at Alexandria before sanctions

are imposed, the bulk of the goods being bought for ready cash.

- o -

According to the Daily Telegraph Rome correspondent an intensive propaganda has been commenced for the boycotting of foreign goods, including plays and films, while the women have been particularly appealed to to forego feminine vanity and purchase native products.

- o -

A Durban message says that the South African natives are completely boycotting Italian businesses while many ports elsewhere report that travellers are avoiding Italian vessels.

- o -

A Paris message states that the Cabinet has expressed its unanimous approval of M. Laval's peace efforts and have observed with satisfaction that the result of the Paris-London-Rome conversations gave justification for hoping that a successful outcome would be realised.

- o -

Early comment from Paris on Sir Samuel Hoare's speech in Parliament is extremely favourable with approval for its frankness, clarity, breadth of view and dignity, while Berlin welcomes his reiteration of Mr Baldwin's assurance that England has no intention of interfering with other countries internal affairs.

- o -

Observers state that Germany is closely watching while maintaining a strict neutrality in the present conflict.

KINGSFORD SMITH'SRECORD ATTEMPT ABANDONED.

It was reported from London last night that Sir Charles Kingsford-Smith on arriving from Brindisi after the abandonment of his Australian flight to beat the record, stated that terrible weather conditions had been encountered in the Gulf of Corinth which threatened to wreck the plane and forced him to return.

Snow, hail and ice impeded his efforts to locate Brindisi which he reached in the darkness.

Sir Charles states that he will be renewing his flight probably with the next full moon.

ATLANTIC FLIGHT MYSTERYSOLVED ?

It is understood from Edmonton, New Brunswick, that trappers have discovered a rusted aeroplane wreckage overgrown with moss in an isolated forest area.

It is thought possible that the remains of the machine flown by the Frenchmen, Coli and Nungesser in 1927 when, after their departure from France across the Atlantic nothing further was heard of them.

The authorities are investigating.

WAR NEWS AND NOTES.

Unconfirmed reports from Addis Ababa Wednesday night stated that a heavy engagement between Ras Desta's forces and the Italians has commenced in the Webbe Shibeli region, but a communique from Rome said there was nothing to report except the submission of the western highlands and lowlands' populace.

- o -

Reconnaissance flights are continuing over the Takkase River and the Danakil zones, the Rome message adds, while the preparations for the transport and commissariat services are well advanced.

- o -

The Daily Telegraph correspondent at Addis Ababa quotes an American doctor to the effect that no case of gas poisoning has come under his notice.

- o -

The Italian Consulate party from Magala is expected at the Niojja railhead to-day (Friday) where Count Vinci will probably join them en route for Djibouti.

- o -

The Suez Canal Company's return indicates that Italy has paid approximately £1,000,000 dues for troops and war materials to date, states a Paris message.

- o -

Reuter's correspondent in Rome states that Suvich has informed the British Ambassador, Sir Eric Drummond, that Italy has given orders for the withdrawal of one division of troops in Libia, and this information has also been conveyed to M. Laval who communicated it to the French Cabinet.

- o -

It is understood that there is no request for a reciprocal gesture from Britain, but a later Rome message from an authoritative source says "If, as believed, Britain has ordered the withdrawal of two battle-ships from the Mediterranean, Italy might perhaps withdraw a part of her forces from Libia. But these measures are not inter-dependent.

- o -

London official circles, it is understood, maintain a reserved attitude.

- o -

London last night reported that what are believed to be Mussolini's first definite terms for an Abyssinian peace are revealed by the Paris and Rome press.

- o -

These were first conveyed to M. Laval by the Italian Ambassador, Cerruti, with the request that they be passed on to the British Government.

- o -

The publication in Rome took diplomatic circles by surprise, states the Daily Telegraph correspondent, and their striking similarity to the French reports together with the inferred official authority connotes veracity.

- o -

The three main points are : - Abyssinian disarmament and international control over "Abyssinia proper" as distinct from the outlying provinces not racially united; and Abyssinia to be given a port on the Eritrean coast.

- o -

Neutral observers consider that the Emperor would not accept a port within Italian territory whatever else he might agree to, but he would probably demand Zeila in British Somaliland.

- o -

An authoritative view is that the proposals must be taken as a basis for discussion in the widest sense and not as Italy's final demands.

- o -

Last evening's communique from Rome states that all is quiet on the Somali and Eritrean fronts with the continuance of road-making while, owing to the populace's favourable attitude, the Italian vanguard is penetrating beyond Adigrat, Adowa and Aksum. Addis Ababa, however, reports that rain continues to make advance impossible in the mountain passes for a stand against Graziana's forces.

WIRELESS CONTRACT BETWEEN

U.S.A. AND FRANCE.

It was reported from Paris yesterday that the contract which has been agreed to between the French Government and the American Telephone and Telegraph Company, for the establishment of a direct wireless telephone service between France and the United States, breaks the British wireless telephone communications monopoly.

It is stated by the press that this has largely been brought about by the British Post Office's recent action in refusing to permit the transmission to the United States the broadcast statement by Baron Aloisi on the Italo-Abyssinian conflict after arrangements had been made for the broadcasting of the statement by the Radio Company of America.

Under the provisions of the

contract a powerful transmitting & receiving station for a wireless telephone circuit to the United States will be constructed near Paris.

The American Company, for a long time, according to a press report, has refused to cooperate in the establishing of this service on the grounds that it would not prove profitable, but the government at Washington intervened recently & caused the company to change its mind.

#### WINSTON CHURCHILL ON

##### GERMANY'S REARMAMENT.

The third day of the debate in the House of Commons on the international situation opened yesterday with a speech by Mr Winston Churchill.

Churchill began by referring to the progress of the German re-armament. Whatever they thought of the reasons and object of that movement, he submitted they could not have any other anxiety comparable to the anxiety it caused. Compared with that he regarded the war between Italy and Abyssinia as a very small matter.

It was on the basis of the German rearmament that the dispute between Italy and the League must be considered and in all the circumstances he thought the efforts which France had made to give effect to the League Covenant deserved warm recognition.

Continuing Mr Churchill spoke favourably of what had been done at Geneva and asked the House not to suppose that the measures taken against Italy were not the most formidable.

They must not look only a month or two ahead. Where would the Italian dictator be this time next year. He might be far into Abyssinia with an army of a quarter of a million

men wasting rapidly by guerilla warfare and disease and all the time Italy under a boycott and censure of practically the whole world. Italy would be bleeding at every pore. Her gold reserves would be melting away, her prices rising and her credit gone.

Mr Arthur Greenwood, who followed Mr Winston Churchill, devoted his speech to charging the Government with using the international crisis merely to divert attention from the failure of their unemployment policy.

#### BRITAIN AND CYLON.

A telephone service between Great Britain and Ceylon was inaugurated yesterday when greetings were exchanged between the Secretary of State for the Colonies, Mr Malcolm MacDonald, and the Acting Governor, Sir Graeme Tyrrell.

#### SOUTH AFRICA & ARMS

##### EMBARGO.

A Geneva press message states that South Africa has informed the League that she is applying the arms embargo and financial sanctions against Italy within a week and is also ready to apply economic sanctions on any date which the Coordinating Committee shall fix.

The Union thus becomes the first State member of the League to indicate in such definite terms its willingness to apply sanctions and the decisions of the League.

#### SHELL UNION PROFITS.

According to a news bulletin from New York the Shell Union net profits for the third quarter of the year amount to 3,882,915 dollars - an increase of 2,394,211 dollars over the corresponding quarter for 1934.

#### WAR NEWS AND NOTES.

The steamer Sannio, it is reported from Naples, sailed for Libia yesterday in order to bring home the first contingent of troops which have been recalled to Italy.

A Rome message states that general disappointment has been caused throughout Italy by the fact that despite Mussolini's decision to withdraw a division of troops from Libia, nothing official has yet been made known concerning the movement of the British Fleet in the Mediterranean.

The Agione, an Italian weekly review, gives forcible expression to this disappointment writing that even should England withdraw the battlecruisers Hood and Renown from the Mediterranean this would be insufficient to bring about a decrease in tension.

Italy, says the paper, must demand much more and in any case continue to shape her policy as if the two battlecruisers were still there.

Another bulletin published in Rome yesterday states that the Italian advance in Somaliland continues in the Shibeli River region, several villages on the river banks having been captured while Kalafa, the capital of the district, was captured after a short engagement.

The Sultan of Shaveli who recently deserted to the Italians rendered the latter valuable aid in covering their flank with his armed followers.

Some fifty thousand troops from the provinces of Kafu and Wallega are marching through Addis Ababa on their way to the front.

U.S.A. & THE NAVAL CONFERENCE.

It is understood from Washington that Admiral Standley, the Chief of Naval Operations, will represent the United States at the projected London Conference. The announcement is said to have been made by the Navy Secretary, Swanson, who reiterated his belief in the provisions of the London Naval Agreement and expressed the personal opinion that a 5 - 5 - 3 ratio was quite right.

Admiral Standley in addressing Washington Rotarians recently, stated that radical influences which constituted the greatest menace to national security, had defeated all efforts to bring the United States navy to treaty strength and would continue in their tactics to baulk the programme.

FRENCH CABINET PRECAUTIONS.

The Daily Telegraph Paris correspondent reports that at a five-hour cabinet meeting measures were approved for the prevention of any coup d'etat by Reds or Fascists.

Measures have been taken to regulate the sale and possession of arms, control public demonstrations and speed up the procedure against revolutionary activities while the Mobile Guard has been increased to 20,000.

RUMANIAN DEBT QUESTION.

A plan for the repayment of Rumanian debts amounting to two and a half million pounds sterling has been outlined by Mr Dixey, M.P., on his return from Rumania. He suggests that frozen British capital should be used to develop the Transylvanian gold-fields and part of the extra production should be utilised for the liquidating of debts.

Dixey states that the Rumanian government and the National Bank are sympathetic and with the former's definite agreement which is already approved of in principle, the scheme is to be put before the Board of Trade.

LOS ANGELES THREATENED BY FIRE.

Reuter's correspondent at Los Angeles states that forest fires have broken out at Mount Wilson, South California, and these are threatening the famous seaside colonies there.

Although the conflagration has been checked at Altadena, it continues on a four-mile front westwards.

Already the damage is estimated at a million dollars while 2,000 fire-fighters are engaged in trying to stop the fires from advancing.

BUSIER BRITISH SHIPYARDS.

According to news from London, British shipyards are busier with 52,000 tons of construction in hand from thirty contracts placed during October and the outlook is the best for many years.

MINERS' WAGES QUESTION.

The Mining Association, it is stated from London, has informed the Mine Workers' Federation that it cannot agree to a joint conference for the discussion of a national wages agreement, basing its attitude on the belief that the only practical method is for separate agreements between the owners and workers of each coalfield.

BRIGHT PROSPECTS FOR INDIAN TRADE.

In addressing the Chamber of Commerce at Oldham on Thursday, the Marquess of Zetland, the Secretary of State for India, stated that trade with India was entering on a new phrase with bright prospects on a reciprocal basis.

The Ottawa decisions had resulted in preferential treatment for 28 % of the United Kingdom's imports to India while in two years Lancashire's consumption of Indian cotton had nearly trebled and there would be an even greater improvement all round when the industrialists of both countries got together.

NEARLY FORTY PASSENGERSFOR STANLEY.

Not for many a long day has Stanley seen so large an influx of passengers as when on Saturday thirty-eight people arrived in the port from the m.v. La Paz and the s.s. Lafonia.

When the La Paz steamed through the Narrows quietly and unobtrusively at 6.30 Saturday morning the weather promised to give us a typical cargo boat day of rain and wind. But later in the morning the sun came out and stayed out so that when the s.s. Lafonia came in at 4.30 in the afternoon the town presented an inviting appearance to those on board.

The cargo boat which left again at 8.0 the same evening discharged some 200 tons of cargo besides leaving 179 bags of parcel mail and ten passengers while the Lafonia brought 500 tons of cargo, 110 bags of mail (letters and papers) and some 28 passengers.

The passengers included :

from m.v. La Paz - the Hon. W.H. Luxton & Mrs Luxton and their infant son, Mr and Mrs R.C. Jole-Evans and Miss A.P. Evans, Mr & Mrs J.E. Hamilton, and Mr & Mrs G. Alazia.

from s.s. Lafonia - the Hon. L.W.H. Young & Mrs Yung, Captain M.J. Stewart (Colonial Treasurer), Mrs Stewart and Miss Stewart, the Hon.

N.K. Cameron, Dr & Mrs J.B. Henderson and child, Mr & Mrs F.G. Langdon, Commander Hutchison, Mr S.W. Harding, (Dental Surgeon), Mr H. Hardman of R.R.S. Discovery II, Mr & Mrs P. To all, newcomers and those who have returned from leave or holidays, we extend a hearty welcome.

THE FRENCH CRUISER"JEANNE D'ARC".

We learn from an unofficial source that the French Cruiser and Training Ship "Jeanne d'Arc" which visited Stanley in December 1931 is engaged on an extensive cruise which will probably include a call at the Falklands within the next few months.

The ship is understood to have left her home port on the 1st of October. Her previous visit to the Colony is particularly remembered on account of the fact that her seaplane was the first aircraft to fly over Stanley and the surrounding country.

WAR NEWS AND NOTES.

According to messages from London on Saturday nothing had transpired during the previous forty-eight hours in the Franco-Italian exchanges to support the hope of an eleventh hour settlement of the Abyssinian dispute.

- o -

Responsible British opinion felt that nothing further could postpone the League of Nations unpleasant duty following the condemnation of Italy as the aggressor.

- o -

The Sanctions Committee is now called upon to fix a date for the economic pressure upon Italy while twenty-nine nations have already declared an arms' embargo and nine nations applying financial sanctions with all of them required to do so by to-day (Monday.)

- o -

The Paris press have published another variation of the peace overtures but these have not been given official countenance.

- o -

A war communique from Rome on Saturday stated that hostilities continue in the Shillawe sector with the occupation of villages including Calaf which is the centre of the Sciaveli region.

- o -

Reconnaissance flights, the communique continues, have been carried out in the Ogaden sector to Sasa Banch and Magalo with military objects bombed. The outposts have advanced in the Tigre territory.

- o -

The Daily Telegraph correspondent with the Italian forces at Amba Augher states that the advance towards Makalle is developing about the Wrara Pass between Adigrat and Adowa but the objective is a six days' march ahead.

- o -

It is added that the Italians have captured Ras Seyoum's three months' ammunition supply.

- o -

General Nasibu, the Governor of Harrar and the Abyssinian commander of the Ogaden region states that he has ample men and ammunition for holding Jijiga while the total casualties at Gorahi and Sebbeli he gives as six killed and three wounded.

- o -

A later message reports that tanks have been in action over the week-end in the Ogaden region where an attempt is being made to capture Ilowen, an important water supply depot.

- o -

The only report from Addis Ababa is the Emperor's denial that Italy has made direct approaches for peace.

- o -

The British Foreign Office admits that the Government has been informed by M. Laval that "certain tentative proposals have emanated from Italian sources" for the settlement of the Abyssinian conflict but no details are officially available, states the Sunday Times correspondent in Paris.

- o -

It is also learned that the Anglo-French exchanges are continuing but French circles do not anticipate definite developments until after the general election although the atmosphere has greatly improved between London and Rome.

- o -

It is stated that Italian opinion is not sanguine of an early settlement.

- o -

Reuter's correspondent in Washington states that the United States reply to the invitation to comment on the sanctions expresses "Sympathetic interest" with, however, a reaffirmation of her rigid independent neutrality.

-----

#### KENYA & TANGANYIKA.

A Nairobi message states that a despatch from the British Colonial Secretary says no purpose could be served by reopening the question of uniting Kenya and Tanganyika.

The East African Chambers of Commerce, after discussing the communication, decided to press the matter further in a memorandum meeting the points raised.

-----

#### LOS ANGELES FIRES CONTINUE.

Reuter's correspondent at Los Angeles states that a fresh outbreak of forest fires has occurred threatening Malibu Beach and the fire-fighters have been reinforced from the surrounding counties.

The total damage is estimated at 9½ million dollars over the four days ravages with the crops destroyed estimated at £4 million dollars and private property at 2 million.

-----

#### SPINNING TRADE REVIVAL.

A substantial revival in the spinning trades, states a Liverpool announcement, is evidenced by Lancashire's difficulty in obtaining the necessary raw material while the warehouses are empty and the cargoes afloat have already been bought.

This result is said to be partially due to a diversion of orders from Italy.

-----

#### THE LATE LORD CARSON.

Impressive scenes were witnessed at Belfast on Saturday on the arrival of the body of the late Lord Carson on board H.M.S. Broke and during the subsequent funeral processions.

It is estimated that half a million people including Irish Free State loyalists lined the route to the cathedral where the remains were interred.

-----

#### LAVAL'S GOVERNMENT SAVED ?

It is reported from Paris that the Radical Socialist Congress has unanimously re-elected M. Herriot as their leader and have adopted a compromise resolution on the action against the Fascist Leagues, thus putting the issue up to parliament.

A cabinet crisis appears to have been averted as many thought that Congress would order the members in the Cabinet to resign, thereby forcing M. Laval's government to fall.

-----

#### BOXING.

In the boxing heavyweight championship eliminating contest at Plymouth on Saturday, Len Harvey out-pointed Eddie Phillips for the title fight against Petersen.

-----

#### JAPANESE NAVAL REPRESENTATIVES.

It is understood from Tokio that Marine Commandant Admiral Nagano, and the Japanese Ambassador in Paris, Sato, will be respectively, the chief delegate and delegate to the London Naval Conference on the 2nd of December.

-----

In connection with Italy's representation to the Conference Rome circles seem to consider a favourable reply to the invitation.

A. I. Fleuret,  
 Ag Colonial Postmaster.

THE JEANNE D'ARC.

We learn from the French Consul in Stanley that official information has been received to the effect that the Cruiser and Training Ship Jeanne d'Arc is expected to arrive at Port Stanley on the 28th of December to remain three days and leave on the 31st December.

The ship will apparently come from the West Coast as she is expected to call at Valparaiso on the 9th of December and stay there until the 16th.

Under the command of Captain Latham she has a complement of 27 officers, 94 cadets and 500 other ratings.

OBITUARY.

It is with deep regret that we have to record the death of Mr Alfred Horton Biggs, the youngest son of the late Mr and Mrs William Biggs, who passed away on Sunday evening at the age of sixty-two years.

He is survived by his widow, three daughters and a son.

GOVERNMENT NOTICE.

No. 103 Colonial Secretary's  
 Office, Stanley  
 25th October, 1935.

It is hereby notified, for general information, that the following arrangements have been approved by the Governor for the observance in this Colony of Armistice Day, the 11th of November, 1935.

The order of Service will be held at the Cross of Sacrifice at 11 a.m. at which His Excellency will attend officially and will be supported by the Honourable Members of Councils. The Falkland Islands Defence Force, the Stanley Sea Scouts, the Stanley Boy Scouts and Girl Guides, will parade and will take part in the ceremony.

At 11 a.m. a gun will be fired from Victory Green. The customary two minutes silence will then be observed after which at 11.2 a.m. a second gun will be fired and the Last Post sounded. At the conclusion of the Order of Service His Excellency will lay a wreath at the foot of the Cross of Sacrifice and the Ceremony will terminate. Wreaths may then be laid by private individuals at the foot of the Cross of Sacrifice and on the Naval and Military graves.

It is hoped that as many of the public as possible will be present at the Ceremony at the Cemetery and that Heads of Departments and Government servants generally will make a special effort to attend.

The children of the Government School will be assembled and drawn up in readiness for the Ceremony at the Cross of Sacrifice.

Should the weather be inclement Divine Service will be held at Christ Church Cathedral at 10.20 a.m. at the end of the Service the Governor and the several parties on parade will proceed to the Cross of Sacrifice.

By Command,  
 M.C. Craigie-Halkett,  
 Colonial Secretary.

In the event of not being able to secure men for these jobs labour will be looked for elsewhere.

FRANCE & THE NAVAL CONFERENCE.

It is understood that France is accepting the Naval Conference invitation though it is felt that there will be difficulties if the Abyssinian dispute is unsettled.

Apparently it is certain that France favours the limitation of size if not of the numbers of capital ships but she undoubtedly refuses to abolish submarines.

AUSTRIAN REGENT REVELATION.

Following a rally of 30,000 Heimwehr at Linz, a Vienna message reports, Prince Starhemberg has revealed to his friends and supporters his intention of becoming the Austrian Regent.

FALKLAND ISLANDS DEFENCE FORCE.

Class Firing will take place on Sunday next, weather permitting, for No. 2 Platoon, commencing at 9.0 a.m.. The usual signal will be flown at 8.15 if the Shoot is to be held.

IMPERIAL AIRWAYS DEVELOPMENTS.

The Daily Telegraph, in outlining the projected Imperial Airway developments, states that orders for fifteen new flying boats are being placed shortly at a cost of £1,250,000.

The machines are to be four-engined and these additions are regarded as the first definite step towards a regular Trans-Atlantic Air Service with a probable two-way route based on the prevailing winds and economical working.

HYDE PARK ANTI NAZIDEMONSTRATION.

A huge mass demonstration was held in Hyde Park on Sunday, organised by the British Non-Sectarian and Anti-Nazi Council.

The demonstration was addressed by the Labour leader, Major Attlee, Lord Marley and Mrs Despard who protested against "Germany's return to Barbarism."

There were no disturbances among the many thousands attending and a resolution was passed condemning the continued persecution and physical torture of German men and women whose only offence was their disagreement of with Naziism.

SOUTH AFRICAN AIR FORCEEXPANSION.

It is reported from Johannesburg that the Union Government is embarking on her Air Force expansion, raising South Africa to the status of a second rate power within five years.

The programme visualises 250 new machines, 3,000 air mechanics & 1,000 pilots.

WAR NEWS AND NOTES.

On Sunday night orders were despatched from Addis Ababa, states Reuter, to commanders on all fronts giving warning of a general Italian attack which was expected yesterday.

- o -

The Abyssinian commander at Gorahai stated that an attack was expected from the Italians momentarily and from this it is gathered that the southern offensive has commenced.

- o -

Harra is without news from Gorahai and it is believed that the wireless station has been bombed.

- o -

In the north the troops of Ras Seyoum and Ras Kassa are seeking contact with the Italian line at Aksum, Adowa and Adigrat, and a large scale battle will probably develop north of Makale where planes have already made several bombing and reconnaissance raids.

- o -

Last night's news from Djibouti states that the Italian advance in Southern Abyssinia is progressing slowly towards Harrar without serious opposition and with the light Abyssinian forces falling back whenever contact has been established.

- o -

The Italian front covers 400 miles in three columns, one penetrating to Gorgoru, another to Geledi while the most advanced column is in North Ogaden where tanks are astride the caravan track from Balumbul.

- o -

The Daily Telegraph correspondent at Djibouti reports that Harra-igit has been destroyed by aircraft while Sasehaneh and Daggabur have been subjected to daily bombarding.

- o -

It is understood that Nassitu's army has concentrated in the Jijiga region following the military evacuation of Harrar.

- o -

The same journal's Adowa correspondent reports a similar advance in the north to a position at Adinefas, ten miles from Mount Semaita with aerial patrol maintained.

- o -

The Italian view is that Ras Seyoum intends making a stand on the northern slopes of Ambaalaghi, fifty miles south of Makale.

- o -

The last-named position, says an Addis Ababa correspondent, will not be defended and the civil population is being evacuated.

- o -

The number of nations notifying the League at Geneva of the adoption of sanctions at a late hour yesterday were - Arms embargo 39 States, Loans and Credits 22, Exports from Italy 13, "Key" products 13, Mutual assistance between the participants 6.

- o -

Further amplifying decisions are expected to-day (Tuesday) from France, India, Poland, Switzerland, Spain, Belgium and Norway.

- o -

A Rome message states that there is a wave of household buying and in an effort to forestall Sanctions vast quantities of goods have been poured into Italy from all sources. As far as possible these activities are still continuing.

- o -

Press comment in New York on the United States reply to the League on Sanctions says that the note has been carefully designed to make clear the American intention to maintain her liberty of action and independence while continuing to exert her moral influence for peace.

On Monday Mr and Mrs F.G. Langdon left Stanley for Fitzroy with Mr T. Gilruth who rode into town over the week-end.

ARRIVAL.

Mr A. Pitaluga arrived on Monday from Rincon Grande.

REVOLT RUMOUR DENIED.

It is authoritatively stated from Athens that the rumours of a revolt were unfounded.

A statement has, however, been issued that the Republican leader, General Papandreo, has been arrested for publishing seditious proclamations.

U.S.A. EMPLOYMENT.

In a nationwide broadcast, President Roosevelt, it is reported from Washington, stated that 350,000 workers had returned to private employment in September and the weekly payroll was ten million dollars above the August figures.

The President added that these gains mean nearly five million found employment since the depression's low point in March, 1933, bringing employment back to the November, 1930, figure, with a wages' increase of 125,000,000 dollars.

THE LOS ANGELES FIRES.

According to the latest report the homes of many film stars are endangered by the forest fires while the house of Lionel Atwill, the British actor, has been completely destroyed. The house was valued at 40,000 dollars.

SHANGHAI'S HECTIC FINANCE.

Inflationary rumours in Shanghai resulted in the most hectic and panicky day in the bullion market's history on Saturday.

With speculators manipulating sales the situation got beyond the government bank's control and sterling touched sixteen pence.

New York Probate of the Standard Oil fortune of the late Colonel H.H. Rogers disposes of the sum of 26 million dollars.

HITLER & THE ABYSSINIANWAR.

A Paris message states that Hitler granted an interview to a French journalist on Saturday and in the article published the German leader expresses his admiration of the French policy in the Abyssinian dispute, adding that since Germany was not involved she would be a proper arbiter when the time was ripe.

Hitler added that while he was not in agreement with ceasing trade with the belligerents, Germany would supply neither side with arms.

According to the Daily Telegraph the German press finds that "British constancy must be regarded as the guiding consideration in any assessment of future events and everything turns on this axis."

U.S.A'S ALERT ALOOFNESS.

Press representatives in New York have been informed at the State Department conference that President Roosevelt's policy was not one of isolation in connection with the Italo-Abyssinian dispute, but one of alert aloofness and "while not co-operating or interfering, she sympathised with the League efforts and was conscious of her obligations under the Kellogg Pact."

A close examination of the American note in reply to the League on Sanctions, apparently indicates that the United States would not insist on neutrals' commercial rights where restriction even by blockade were deemed necessary to stop or limit war.

BANNING ENGLISH WIRELESS ADVERTS.

According to a message from London it is understood that diplomatic approaches are being made to France to ban English broadcasts which are mainly advertisements from French Stations.

JAPAN'S MANDATE PROTEST.

A press message from Geneva reports that the Japanese delegate to the Mandates' Commission, Ito, has made an official protest against the suggestion that Japan is not entitled to equality trade treatment in mandated territories owing to her departure from the League, basing her claim on her rights as a victorious ally and that any discriminatory action against non-League members would be a derogation from League principle.

FASCIST 13th ANNIVERSARY.

A Rome message yesterday reported that the thirteenth anniversary of the Fascist march on Rome was celebrated less elaborately than usual.

There was, however, a general holiday and minute guns were fired with a display of decorations throughout the city while 400 planes circles overhead.

The Duce refused to make a speech from the Palazzo Venezia.

ISLE OF MAN DISPUTE

LEGISLATION.

It is reported from Douglas, Isle of Man, that the legislature is introducing a Trades' Dispute Bill whereby strike picketing and intimidation become penal offences.

POLAND COPIES FRANCE.

A Warsaw news correspondent states that Poland is adopting the French plan for financial rehabilitation by seeking full powers for the President and increasing taxation accompanied by reduced living costs.

GRESFORD COLLIERY DISASTER

COMPENSATIONS.

According to a report from Wrexham the disposal of the last of the 257 Workmen's Compensation Act cases whereby the dependents of the dead miners have received the total of £82,949, took place on Saturday.

The County Court judge, Sir T.A. Jones, complimented the colliery owners' representatives on the fairness of the settlements.

TRAGIC DEATH.

It is with deep regret that we  
have to report the death of Mr  
Frederick Scott of Goose Green who  
passed away yesterday under somewhat  
tragic circumstances. Although we  
have no official confirmation we  
understand that he collapsed when on  
the cutter Speedwell and died shortly  
afterwards. The cutter, we believe,  
was on its way to meet the Lafonia.

SHIPPING RIVALRY.

Some excitement was caused on  
Tuesday in Stanley when it was known  
that the schooners Shamrock and  
Prefecto Garcia were rivalling one  
another in their return from Lively  
Island both with cargoes of mutton  
sheep.

Although the Prefecto Garcia  
left Lively about half an hour before  
the Shamrock the latter arrived  
in Stanley about tea-time and dis-  
charged her cargo whereas the Prefecto  
did not get in until late and was un-  
able to put her sheep ashore until  
the next morning.

The rival skippers are Jeff  
Bundes and Jack Davis of the Sham-  
rock and Prefecto respectively.

Davis left Stanley on Saturday  
last while Bundes did not leave until  
the next day. The latter's sheep  
were for Mr W.J. Hutchinson while  
those of the former were for the  
Falkland Islands Company.

The Shamrock brought into Stanley  
three passengers - Mrs Coutts & 2  
children.

105 BOOKS FOR THE LIBRARY.

Miss M. Biggs, the Librarian,  
was busy unpacking 75 books for the  
General Section and 30 for the Child-  
ren's Section yesterday received by the  
La Paz. She hopes to have them ready  
for circulation on Friday.

DRASTIC DECREES IN ITALY.

The Daily Telegraph correspondent in Rome states that Mussolini presided over dramatic meetings on Tuesday relative to food rationing and governmental economies under the Sanctions. The meetings were held at the Palazzo Venesia where every branch of the corporative State attended.

The Duce decided not to introduce food tickets but drastic decrees were issued restricting foreign meat imports with the butchers to close on Tuesdays and Wednesdays which are to be declared as meatless days.

Other decrees prohibit hotels, restaurants & railway dining cars serving more than one meat or fish dish at the same meal.

But to overcome the deficiencies the fish industry has pledged itself to increase the annual output 4,000 tons and the Hunters' Federation will market more game under a relaxation of the shooting restrictions.

In government circles stationery, including blotting paper and printing, is to be cut down while a re-arrangement of working hours will save artificial light.

U.S.A. & ARMISTICE DAY.

According to a press message from Washington, President Roosevelt has issued a statement proclaiming the 11th of November, Armistice Day, adding "It is particularly fitting that this anniversary should be an expression of our determination to remain at peace with all nations and of the conviction that permanent peace can and must be attained throughout the world."

SCOTTISH RECTORIAL ELECTION.

The Rectorial Election at Edinburgh has resulted in Lord Allenby obtaining 1,647 votes and Dr Chalmers Watson 916.

LUSITANIA LOCATED.

A press message from Kinsale states that the salvage vessel Ophir has definitely located the Lusitania wreck and a diver in an "iron man" made a descent to the vessel's deck, but owing to weather difficulties he was unable to bring any identifiable portions of the wreck to the surface.

The Ophir has returned to port to repair her gear and await calmer weather.

NEW ZEALAND AIR SERVICEWITH THE UNITED STATES.

Mr Coates, the Minister of Finance in Wellington, announces that arrangements have been completed with Pan-American Airways for a service between the United States and New Zealand to commence probably in August next with a scheduled three days' flight.

FRENCH REFORM LAWS.

A bulletin from Paris states that the Chamber Finance Commission has commenced its budget discussion and meanwhile the Cabinet has adopted 200 new laws covering administrative reform with a further agenda to be completed.

The left wing representatives have decided not to demand the abrogation of M. Laval's economy decrees but to seek certain amendments.

SPANISH GOVERNMENTRESIGNS & RE-FORMS.

A message from Madrid reports that the Cabinet resigned following on the gambling scandal vote but the crisis was immediately solved when the outgoing premier Chapaprieta was requested by the President to form a new government. This was achieved by substituting several Radical members.

A MYSTERY OF THE SEA.

## A Ship Without A Crew.

A mystery ship called "Alfhild", a motor-sailer, which left Figeholm in Sweden on Thursday last week with a cargo of timber was towed into Danzig port yesterday by the steamer "Scandinavia" belonging to the Shensker Orient Line.

The "Alfhild" was found by the "Scandinavia" on Tuesday drifting in the open sea deserted. Her deck was covered entirely with timber & all the hatches were closed but everything else appeared perfectly in order except that the log book was missing, suggesting that the captain and crew of four must have left the ship voluntarily during the recent storm, believing the vessel and themselves in peril. The life-boat is also missing and this seems to confirm this supposition.

On the other hand the sails are in perfect order and let down, suggesting that the weather could not have been stormy at the time the occupants left the vessel.

By Marine Law the "Alfhild" becomes the property of the captain of the "Scandinavia" who has salvaged her as a deserted vessel.

An unconfirmed report says that the crew were picked up on Saturday night last week by the steamer "Oden" thirty miles east of Lornholm Island, but so far no explanation is forthcoming why the sailer was deserted so unaccountably.

SUBMARINES FOR BRAZIL.

It is reported from Milan that the Brazilian government has ordered six submarines from various Italian ship-building yards after due consideration of all the offers submitted in international competition.

GREEK LEADER ARRESTED.

According to an Athens message the leader of the Republican Party has been arrested and charged with having attempted to distribute leaflets to the troops, calling on them to refuse to obey the orders of the new monarchist party.

CHURCHILL & HITLER.

## Strand Magazine "Insult."

A message from Berlin reports that the Strand Magazine, a well-known British periodical, has published in its latest issue an article by Mr Winston Churchill attacking the National-Socialist movement in general and the Fuehrer in particular with such violence that the Reichs government has forbidden the sale and distribution of the magazine throughout Germany for an indefinite period.

With reference to the insults to Germany's leading statesmen contained in the article, the German Ambassador in London has been instructed to draw the attention of competent authorities to the unprecedented and unseemly attack made by a prominent member of the political party in power in Britain and lodge an emphatic protest against such an attack.

THE STAVISKY TRIAL.

After nearly two years of preliminary preparation the Stavisky Trial, resulting from the discovery of gigantic financial swindles involving more or less directly many prominent people, will begin on Monday.

Thirty separate decisions must be reached and twenty accused people will face the bench. Seventy counsel have been retained for the defence.

The charge sheet consists of one thousand closely typed pages of text.

The application for seats from the home and foreign press alone are enough to more than fill the entire space available in the court.

FILM FIRE CAUSES TRAINHOLD-UP.

A great fire which broke out in the film studios at Twickenham yesterday, states a London message, caused an interruption of the train service on the Southern Electric Line, owing to the danger of trains catching fire, and also of a wall collapsing over the permanent way. The damage is estimated at £100,000.

WAR NEWS AND NOTES.

Sir Samuel Hoare and M. Laval are expected to arrive at Geneva to-morrow (Friday) and both Ministers consider that their stay will extend over several days.

- o -

The mission is to partake in the deliberations of the League's Committee of Eighteen States that is to decide matters of importance and of a technical character in connection with the methods of applying Sanctions.

- o -

It is stated in well informed circles that they plan to take advantage of this meeting to discuss with the representatives of all the other leading League of Nations' Council members the proposals arising from the discussions in Paris by the British and French experts for an agreement whereby it is hoped the conflict will be terminable, their intention being to remit this to Mussolini with the intimation that this is absolutely the last offer the powers will make.

- o -

As the general expectation is that the application of Sanctions will take place on the 10th of November Mussolini will have ample time to give the proposals full consideration and state his position before the economic measures against Italy begin.

- o -

Apropos the Drastic Measures taken by Italy and reported upon on page 2 of to-day's issue, a further message from Milan states that the Gazeta del Popolo demands the complete and immediate prohibition of all foreign goods that can be replaced by Italian wares.

- o -

The Stampa says that Italy will reply to the Sanctions with counter measures. Italian markets will remain now and always closed to those who put obstacles in the way of Italian exports. "The Italian people will not easily forget the injustice done to their country.

Blockade will be answered by blockade."

- o -

The Popolo d'Italia writes that Sanctions will soon turn against those who employ them.

- o -

The Italian government has ordered that all the mothers and widows of those who fell in the Great War to form a committee whose duty it will be to organise means for warding off the effects of the Sanctions and devising means of retaliation, and above all, seeing that "Strict discipline is maintained at heart and on the table."

- o -

An official communique from Rome states that reconnaissance has been made on the important caravan junction between Adigrat and Makalle

- o -

The Abyssinian concentrations are proceeding ahead without interruption, states Reuter.

- o -

Messages mention that the Ethiopian troops are assembling at Mcussa Ali with projected reinforcements numbering 40,000 under Ras Guetacho approaching from Addis Ababa while troop trains are arriving at Diredawa.

- o -

Runners from Ras Sevoum's mountain headquarters near Makalle have brought news to Addis Ababa of a fierce skirmish south of Adowa with the Italians repulsed although heavy losses are reported on both sides.

- o -

The Italian Minister in Abyssinia Count Vinci, has arrived at Djibouti from Addis Ababa while the Abyssinian League Delegate, Hawariat has arrived from Europe and has proceeded to Addis Ababa.

- o -

It is learned that a secret Egyptian code has been lost between Cairo and Abyssinia.

FOLK DANCERS HAPPY EVENING.

The members of the Stanley Folk Dancing Society and their friends spent a most enjoyable evening in the Town Hall on Monday when an Invitation Dance was held to bring the present season to a close.

Dancing commenced at 9.0 p.m. & continued until 1.0 a.m. while among those present were His Excellency the Governor, Members of Councils and their wives and other distinguished guests.

A feature of the evening was the number of Folk Dances included in the programme and in which many of those invited took part with great zest and obvious enjoyment. Early on in the proceedings the Hon. A.R. Hoare, M.B.E., spoke a few words of welcome and explained that in the case of the Folk Dances a demonstration set would be given first. He also thanked the bands for their much appreciated services given free of charge.

Mrs J.D. Creamer, O.B.E., who has so kindly throughout the season acted as pianist, and the bands are to be congratulated on the music provided while a special word is also due to the members who gave the delightful and tasty refreshments.

The Committee responsible for the organisation of the event were : Mrs A.R. Hoare (President,) Mrs W.D.A. Jones (Hon. Secretary & Treasurer,) Miss Henniker-Heaton, Mrs Craigie-Halkett, Mrs J.M. Thomson, Mrs L.W. Aldridge & Mrs F. Gleadell.

THE LATE MR A.H. BIGGS.

Member of Pioneer Family.

With the death of the late Mr A.H. Biggs, whose funeral took place on Wednesday, there passed from our midst a member of one of the oldest families in the Falklands.

Mr Biggs, who was a brother of the Hon. V.A.H. Biggs, was the youngest son of William James Biggs. The last-named as a boy together with his parents, Mr & Mrs James Biggs, came to the Falkland Islands over 93 years ago, arriving at Port Louis in the early part of the year 1842, in the British brig "Hebe."

James Biggs belonged to a detachment of the Royal Engineers, under the command of Lieutenant Moody who became Lieutenant-Governor of the Settlement.

The morning following their arrival in port, Lieutenant Moody, in full-dress, with side-arms, landed with William Hearnden and James Biggs as escorts, accompanied by the captain of the "Hebe", Mr Robinson (Private Secretary & Surveyor) and Mr Slaughter (Valet and Storekeeper.) They were met by Lieutenant Tyssen a member of the personnel of one of two warships engaged in cruising round the Islands.

Mary A. Fleming, the mother of the deceased, arrived in these Islands on the 29th of October, 1849, and married William James Biggs on the 20th of March, 1852. Their eldest son, William, was born on the 28th of February, 1853. The late Mr Alfred Horton Biggs, the youngest of the twelve children, was born exactly twenty years later.

After leaving school, Mr Alfred H. Biggs was apprenticed to the Falkland Islands Company as a shipwright and carpenter, remaining in their employ until 1894 when he left the Falklands aboard the American sailing-ship "Stirling" (Captain Wheldon), this vessel being a lame duck which had put back from Cape Horn for repairs. On leaving Stanley the vessel successfully round the Horn and arrived safely at her destination in America - Port Townsend - where he was employed for some time in his brother's shipyard. He then travelled to England accompanied by two of his sisters and from thence he returned to the Falk-

lands via Montevideo in one of the Cosmos Line steamers, arriving in January, 1897. Once more he was employed by the Falkland Islands Company as a carpenter in Stanley and afterwards, in various parts of the Camp, as a shepherd, followed by some time working in the Colonial Government's Public Works' Department.

WAR NEWS AND NOTES.

An official communique from Rome states that only patrol skirmishing has taken place during the last few days with the Abyssinians routed.

- o -

Normal aerial activity continues on the Eritrean and Somali fronts with all the preparation work completed.

- o -

Reuter reports from Asmara that the Italian native forces have captured Shillave fort in a surprise attack and pursued the Abyssinians to Gorahai.

- o -

According to the Daily Telegraph correspondent in Rome, the Fascists are intensifying their organisation for resisting the Sanctions.

- o -

Housewives have been particularly admonished to boycott all foreign goods, especially British, French, Belgian and Dutch.

- o -

Fears of prices rising when the restrictions commence on Tuesday next have resulted in activity in the shops dealing with tinned goods while the macaroni factories are working overtime.

- o -

The press are making further attacks on the Sanctioning nations while stressing that the possible outcome will be beneficial to Italy in that she will commence living within herself.

SOME OF THE NEW FRENCH LAWS.

Among the many reform laws just passed by the French Government and signed by the President, M. Lebrun, are included : Protection for the franc, protection for beautiful landscapes from advertisement disfigurement, an increase in the espionage penalties, the sale of gas-masks to civilians, the suppression of illicit betting, and the protection of foreign rulers from calumnies.

Following a certain disquietude owing to the Finance Commission's recommendation to lop off 500 million francs from the economy cuts M Laval (the Premier) has requested the Commission to receive him at an early date to consider the question.

CLYDE SHIP-BUILDING CONTRACTS.

It is reported from Glasgow that the ship-building contracts placed at Clydeside in October amounted to £5,000,000 and the last quarter in 1935 promises to be the best the industry has known since the post-war boom.

-----  
IMPERIAL AIRWAYS PROPOSALS.

Sir Eric Geddes, the President of Imperial Airways, announced at the annual general meeting the probability of experimental trans-Atlantic flights in 1936 by Mayo-composite aircraft, especially designed for the prevailing conditions.

He anticipated that the Penang Hong-Kong service would be made a permanency while the new machines for the Empire routes would carry from 3½ to 5 tons with passengers accommodation superior to anything in flying, including sleeping facilities. The speed would permit England to Australia in 7 days, South Africa 4, and India 3.

### THE CAPE MEREDITH BEACON.

#### Adventures Among Seals.

#### Erection of New Light Completed.

On the 27th of September last the task of erecting the beacon at Cape Meredith on the West Falkland was completed.

The light - a new 500 m/m Automatic Flasher - stands at an altitude of 180 feet above sea-level and is the gift of Mr J. Hamilton of Weddell Island whose public-spirited action should prove a boon to local shipping and vessels flying between Stanley and the Coast.

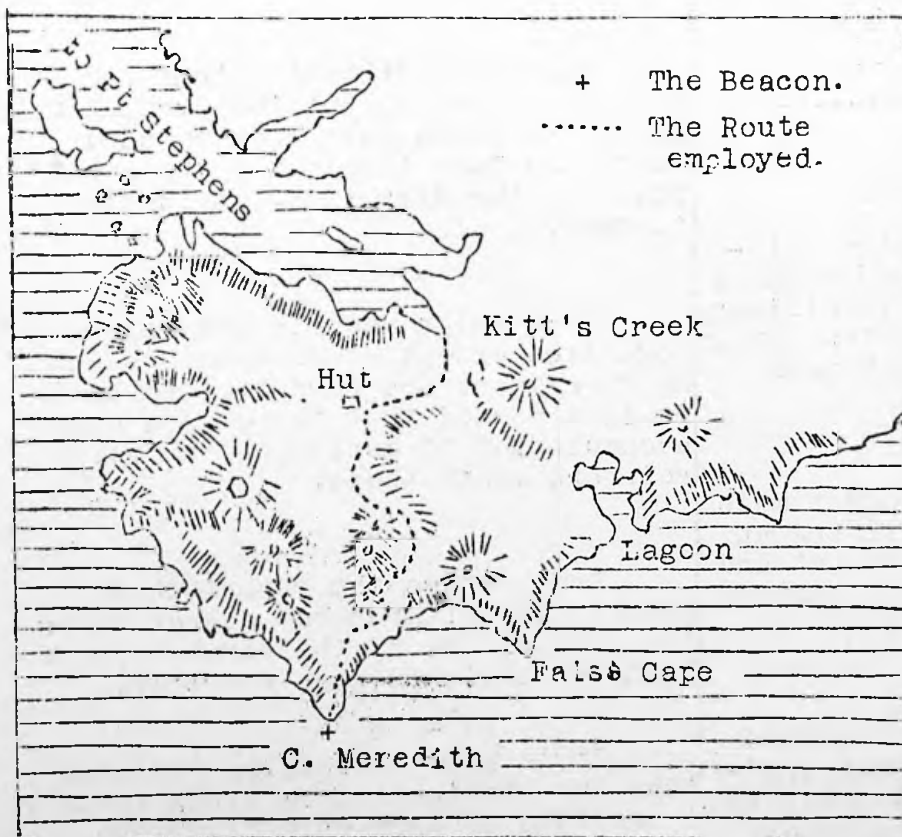

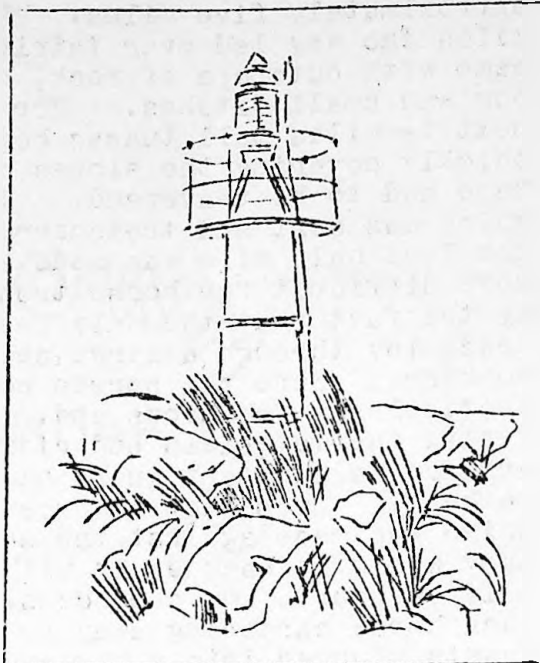

Owing to the practically inaccessible nature of the site the difficulties besetting the erection were manifold but after six days of unremitting labour the beacon was put into position under the direction of the Hon. G. Roberts (Director of Public Works) with the cooperation of Mr C. Robertson (Manager of Port Stephens Station.) Those engaged on the work with Mr Roberts and to whom all credit is due for their splendid efforts were : Messrs E. Kelway, F. Dixon, F. Gleadell and J. Petterssen of Stanley, & Messrs Kevill, Goodwin, White, Lee and S. Gleadell of Port Stephens, not forgetting Mr Robertson himself, who was responsible for the excellent organisation of the transport.

In some parts the Cape rises to a height of about 800 feet from the sea while the position selected for the light stood on a ledge four feet from the edge of the cliff only approachable down a steep bank dropping some 150 feet in about sixty yards. Mention should here be made of the admirable services rendered by Messrs Petterssen and F. Gleadell who volunteered to determine the exact height of the light above sea-level by going over the face of the cliff with ropes.

The s.s. Lafonia left Stanley with twenty tons of plant, tools and

materials on the 17th of September, accompanied by Mr Roberts and the Stanley men. At Port Stephens Mr Robertson joined the ship and on Sunday the 22nd of September at Kitt's Creek, the Port Stephens men helping met the expedition with a cart, sleighs and horses. The creek was chosen as the most suitable point for disembarkation although it was  $3\frac{1}{4}$  miles from the site and during the whole time employed in the operation an old shepherd's shanty there was used as quarters with sheep-skins as bedding.

After landing, the materials had to be transported by a circuitous route of

approximately five miles. For 3½ miles the way led over fairly rough camp with outcrops of rock, balsam bog and small ditches. For the next 1½ miles tall tussac bogs thickly covering the slopes of the Cape had to be traversed. The going was soft and treacherous and the last half mile was made all the more difficult for horse transport by the fact that the only possible track lay through a large seal rockery. Here the horses became particularly fractious and, in conveying the materials and riding to and fro, a constant guard had to be kept. Even when a concerted drive was made against the seals they would be back again within half an hour. On one occasion a pack horse careering away from the beasts plunged into a bog and became buried up to the neck requiring all the assistance available to extricate it.

Consequently the carriage of the beacon, especially that of the most important parts - the lantern and the lens - gave rise to many anxious moments. The largest piece weighed 8½ hundredweights while the gas cylinders, twelve in all, were 2¼ hundredweights each. Twenty horses were needed each day, many of them not being used two days running as the going was too hard especially over the last section.

The weather also generally left much to be desired. It was bitterly cold with strong winds, & during the first day there were constant snow squalls.

#### WAR NEWS AND NOTES.

According to the Daily Telegraph correspondent in Addis Ababa on Thursday night the only military news that day was the capture of an Italian officer and a tank near Dolo.

An announcement has been made that the Italians are building an air base in the Larakil desert and are constructing a road connecting it with Asmara.

Unconfirmed reports received state that Danakil tribesmen annihilated an Italian supply train at Mount Mussa Ali, capturing camels

and equipment besides a number of guns.

The Swedish General Vurgun, formerly the military adviser to the Emperor interviewed on his arrival in Durban expressed the opinion that the Italians would never take Addis Ababa owing to geographical difficulties & the Abyssinian guerilla tactics. "The war hasn't yet begun," he added.

Mussolini's reply to the sanctions threat was made at the opening of the university city. In a speech to the student assembly he declared that "faced with an economic siege of which the civilized nations should be supremely ashamed we will oppose it with the most placable resistance, the firmest decision and the most sovereign contempt," states a Rome correspondent.

The students subsequently marched to the British Embassy and demonstrated against English shops.

Last night's latest press reports that the rain is slowing down the Italian advance on the southern front and the Ogaden troops are experiencing difficulties with the transport in the soft ground, states the Daily Telegraph correspondent at Djibouti.

The Webbe Shebelle column has advanced 20 miles but the irregulars under Ras Desta have been checked along the Dawa line while the right flank in the desert region is stationary.

No foreign vessels are allowed at Mogadisco except store carriers and no foreigners are permitted to land. It is reported that there is a huge accumulation of munitions, petrol & reinforcements there.

Rome denies the report that Makalle is captured but acknowledges the probability of the advance posts being established near the town.

It is also officially reported that the Italian losses since January 1 are 193, of whom only five were killed in action.

A DISAPPOINTMENT.

A Spanish Training Ship, the "Juan Sebastian el Cano" was expected to call at Port Stanley to-day but it is now learnt that she is proceeding direct to Cape Town.

Rumour was strong last week with the news of the ship's approaching visit and the disappointment now evinced by townspeople is great.

The last time a Spanish naval ship called at the Colony was, we believe, about twelve years ago.

SURVEY OF PORT STANLEY

AND FORT WILLIAM.

A triangulation of the country surrounding Port Stanley and Port William is now being commenced by Captain C.A.G. Hutchison, Royal Navy, and this will be followed by a marine survey of the two harbours and their approaches. For this purpose it will be necessary to erect a number of survey marks such as flagstaffs, beacons, cairns and whitewash marks.

It is requested that no one will on any account touch these marks or move them even if they may have fallen down.

SIR SAMUEL HOARE BROADCASTS.

Sir Samuel Hoare and the Minister of League Affairs, Mr Anthony Eden, both returned to London yesterday after Saturday's meeting of the Coordinating Committee of the 52 League States which was appointed on the 18th of November as the date for the concerted application of the proposed economic sanctions against Italy.

In a speech broadcast to the British listeners before he left Geneva on Saturday night Sir Samuel Hoare said that Saturday had been a very important day in the history of the League.

The meeting of the Coordinating Committee had given a clear and satisfactory answer to the doubts which had arisen in some minds whether collective action might be smothered under a mass of technical details and special reservations.

It was a great achievement that fifty League States had promised to support the League's action and he congratulated them.

"The result has been due neither to British pressure nor Franco-British pressure but to a common effort of many States great and small, representing many different interests. Secondly the League has given its blessing to the efforts that we and the French government are making for peace. Speech after speech was made this afternoon wishing these efforts every success. There was no question that we were going behind the back of the Council. It was clear that every member had one object only in mind - to bring to an end at the earliest possible moment the horrors of war and help on a settlement acceptable to the three parties to the controversy - the League, Italy and Abyssinia.

"It was in this spirit I had a series of very helpful talks with M. Laval and other French Ministers. It was in the same spirit I myself had a free and frank conversation with Baron Aloisi this morning."

Sir Samuel went on to say that time, patience and understanding would be required for reconciling the divergent interests and when or whether the League would succeed

he could not say but they were encouraged by the work done.

"As a result of the correlative action of the fifty nations - a remarkable event in the history of the world - the League has shown its vitality. It has given a real stimulus to peace both by its display of collective solidarity and its determination at the same time to encourage every honourable effort to make an end to risks and horrors of war."

THE CHANCELLOR OF THE EXCHEQUER

REPLIES TO MR LLOYD GEORGE.

Mr Neville Chamberlain in a broadcast election address on behalf of the National Government on Saturday night, replied to Mr Lloyd George who in a previous series of speeches made a number of charges against the government. He went on to announce a government five year programme of road improvements to cost one hundred million pounds. He said Lloyd George had invariably refused to pay any attention to what was already being done. The government were always working on new schemes to help industry and he instanced the huge London transport scheme involving the expenditure of over thirty million pounds which would mean orders for rails, vehicles, locomotives and electrical apparatus, giving much employment.

With regard to unemployment there were 1,087,000 more in employment than when the government took office and the figures to be published the next day would show a reduction of over 40,000 in the numbers of the unemployed in October compared with the preceding months. He saw no reason to suppose that they would not go on reducing the unemployed but the very first return of a Labour government must be an immediate increase in unemployment.

He compared the Labour election programme with the Government's and claimed that the government plans for better housing, educational reform, improved maternity service and the raising of the standard of health of the growing generation had every one been investigated and judged practicable and wise by men who, he

asserted, in contrast with their Labour opponents did expect to be called on to fulfil their promises.

GENERAL ELECTIONS TOPICS.

Speaking at Crewe on Saturday Major Attlee, the leader of the Labour opposition, said that the chief weapon in the Conservative armoury was fear. In 1924 there was the Russian Bogey and in 1931 the danger to the savings bogey. There were signs that fear would be used in the present election too, to return a so-called National Government.

A BARBADOS WEDDING.

A newspaper published in Bar-  
 bados on the 20th of June last gives  
 the following account of the wedding  
 of Miss Freda Deane, a daughter of  
 Dr F.W. Deane formerly Colonial  
 Surgeon of the Falkland Islands.

"St Michael's Cathedral was the  
 scene of a pretty wedding yesterday  
 afternoon, when Freda Sewell Wooding,  
 daughter of Dr F.W.G. Deane, F.R.C.S.,  
 and Mrs Deane of Avondale, Bank Hall,  
 was married to Mr Robert Vivian  
 Hamilton Roach, Clerk at Barclay's  
 Bank and son of Mr D.H. Roach of  
 Evelyn, Roach and Co, and Mrs Roach.

"A large crowd of spectators,  
 testifying to the popularity of the  
 couple, gathered at the Cathedral.  
 Shortly after the appointed hour the  
 bride arrived accompanied by her

father who gave her in marriage. Her dress, her own creation, was one of ivory lace over silver lame with a tulle veil and a du Barry headdress of lace and silver.

Miss Quita Deane, the bride's sister, was Maid of Honour and the bridesmaids were the Misses Heather Deane and Lucy Mestier. Mr Bruce Inniss, B.Sc. was best man.

The ceremony was performed by the Rev. A.E. Armstrong, M.A. assisted by the Rev. Dean Shankland and Mr G. Hudson provided the music. Following the ceremony the Lord Bishop delivered a homily.

At the conclusion the couple left the Cathedral amidst the merry peal of bells, the strains of the Wedding March and the best wishes of friends for health and happiness. The reception was held at Avondale.

THE GREEK PLEBISCITE.

The plebiscite on Sunday in Greece to determine the fate of the country - whether it would remain republican or return to royalty - took place although the result was expected to be a foregone conclusion.

Actually it was held only on account of ex-King George's promise not to return to the country until such a course had been taken. Otherwise the monarchy had been re-established through the coup d'etat effected by General Kondylis.

But the real issue, states the Sunday Times, is now between the constitutional monarchy as intended by King George or a monarchical dictatorship run by the army with perhaps Prince Nicholas on the throne if King George declines the dictatorial methods.

King George demands a real parliamentary and constitutional democracy lest Kondylis would claim the restored throne and set up a dictatorship.

A Reuter message yesterday stated from Athens that it was estimated that 98% of four million Greeks were compelled to vote in the plebiscite favouring the restoration of the monarchy.

The poll appeared by no means secret as bright coloured slips of blue for the monarchy and red for a republic had to be enclosed in

transparent envelopes placed in boxes.

It was rumoured that the government would dissolve during the week and that a general election will be held on a proportional representation basis.

A message last night makes it apparent that the result of the plebiscite brought an overwhelming majority in for the return of the monarchy. There is also apparently no question of King George being overshadowed by a "dictator" and if the final ballot is for the king arrangements are to be made for his return to the country in the Greek cruiser Avenoff. It is understood that the royal family will also return at the same time.

A Geneva message states that in a conference with Sir Samuel Hoare, Baron Aloisi has made constructive suggestions on the lines along which a truce might be called and peace negotiated.

- o -

The British delegation has however impressed that the negotiations will be long drawn out as Mussolini still claims frontier adjustments in the north as well as in the south while the proposed regime for other parts would not appeal to the League now that he has resorted to war.

- o -

The Emperor of Ethiopia has made it quite clear in an interview that the acceptance of the Italian peace terms was quite impossible & would merely be legalizing an international crime.

EMPLOYMENT OF YOUTHS

DURING THE 1935/1936

WHALING SEASON.

Five youths are required for work at South Georgia with Messrs The South Georgia Company during the 1935/1936 whaling season. Wages 90 Kroner per month plus participation bonus.

Early application for the work should be made before the 8th November, 1935, to the Director of Public Works.

THE LATE MR HENRY NEWING.

It is with profound regret that we have to record the death of Mr Henry Newing who passed away suddenly in the Hospital yesterday about noon.

The shock of his unexpected end has cast a tragic gloom over the town in which he was held in such deep respect and the sincere sympathy of everyone is extended to his widow, their five daughters and one son in the irreparable loss they have sustained. The late Mr Newing was 58 years of age.

A Contributor, in an appreciation of the late Mr Newing writes -

"The eldest son of an old established and highly respected family the late Mr Henry Newing will be mourned by a wide circle in all parts of the Falklands where his happy and genial disposition had made him friends in all quarters.

"He commenced work as a youth at Government House in the service of Governor Sir Roger F. Goldsworthy and later accompanied the Government surveyor on many trips through the camps. Afterwards he took to camp life and among other places was employed at Bleaker Island and at Hill Cove, eventually settling down with his wife and young family in Stanley.

"Joining the firm of the late Louis Williams in 1912 he has been with them for the past twenty-three years, enjoying the full confidence

and respect of his employers and co-employees.

"A keen but unobtrusive sportsman, he took a great interest in the "sports" and was one of the original marksmen in the Volunteers, lifting the Governor's Cup for rifle shooting on more than one occasion and also holding the "Long Service" medal.

"Only once has he made a trip away from the Islands, that being in 1928 when he went to Montevideo for medical treatment. His mission however did not prove successful and eventually he had unfortunately to suffer the amputation of his left hand. But this disability in no way interfered with his usual pleasant outlook on life and he continued his duties with that same happy disposition which characterised his being before this misfortune.

"Following a minor operation on Friday last he died suddenly about noon yesterday and his family mourn the loss of an exemplary husband and father, his employers of a highly esteemed member of their staff, and his friends in general of a genial and good hearted "pal."

- o -

Mussolini, appearing on the balcony of the Palazzo Venezia spoke only two sentences commenting upon Italy's victory for the other Allies seventeen years ago, and urging his hearers to be "unbreakably united and immovably determined" to gain once more a victory in a new battle.

- o -

The German press in summing up the East African war situation considers that France has lost the leadership of the League and that Britain has taken it by triumphing over the mistrust with the world once more admiring the method, energy and success of her policy which in British history is usually only shown when absolutely necessary.

- o -

A surprise development of the Coordination Committee has been the demand of Canada at the week-end meeting for a ban on the export to Italy of oil, coal, iron and steel which were excluded from the list, and the urging by South Africa of the restriction of key imports to non-League countries to prevent their re-export to Italy.

GENERAL ELECTION "BETTING."

It is reported from London that following the Stock Exchange ban on deals in the election majorities, the business has been taken up by bookmakers.

The Daily Telegraph states that bookmakers are setting up commission offices, quoting prices on the basis of a National Government majority of approximately 180 and a tendency to higher figures.

THE GREEK DECISION.

According to the latest report from Athens the Restoration Plebiscite has resulted as follows : The Monarchy 1,491,992, the Republic 32,454, spoilt papers 3,200.

A special mission is departing for London to-day (Wednesday) to request the King to return as soon as possible.

Athens and other cities are celebrating wildly.

THE ROYAL WEDDING.

The Duke of Gloucester, the third son of Their Majesties the King and Queen, was married yesterday to Lady Alice Scott, the ceremony being performed by the Archbishop of Canterbury in the Private Chapel of Buckingham Palace.

Thousands of spectators assembled in the neighbourhood of the Royal Palace in order to watch the arrival of the bride and the wedding guests.

In consideration of the fact that the bride's father, the Duke of Buccleuch, died a fortnight ago the marriage ceremony was purely of a private character.

The duke was in the full dress of a major of the Hussars. The Prince of Wales and the Duke of York were also in full dress uniform.

After the ceremony the Duke and Duchess of Gloucester appeared with Their Majesties the King and Queen and others of the wedding retinue on the balcony of Buckingham Palace where they were loudly and heartily cheered. Princess Elizabeth and Princess Margeret Rose who were in attendance on the bride received their own cheers from the thousands of spectators.

At the wedding breakfast His Majesty the King gave the only toast and that to the Health and Happiness of the Duke and Duchess of Gloucester.

The royal couple afterwards drove to St Pancras Station through streets of cheering people. Later they arrived at Kettering where a part of their honeymoon is being spent.

The bride's brother, the new year Duke of Buccleuch, gave his sister away.

Before leaving London the Duchess of Gloucester sent a posy of flowers to be placed on the grave of the Unknown Warrior in Westminster Abbey.

U.S.A. MOTOR EXPANSION.

The Daily Telegraph New York correspondent gives details of the General Motors further expansion plans which were announced coincidentally with the opening of the Annual Motor Show.

In addition to a fifty-million dollars' plant extension announced for July next, the company intends spending sixty million for building up its stocks of parts for maintenance and a steadied output.

Wall Street considers that the plan will prevent strikes at the accessory plants while the leaders of the motor-car industry anticipate that next year's output of cars will be approximately six million.

-----  
SILVER IN THE FAR EAST.

China, a Reuter message from Shanghai reports, has been forced off the silver standard.

A government decree prohibits the use of silver for all payments, making notes alone legal tender.

The note issue is to be brought under unified control and a central bank has been created which, after, two years, will alone issue notes.

All holders of silver are compelled to change it for notes. The government banks will buy and sell silver in unlimited quantities in order to keep the Chinese dollar stable.

A later message from Shanghai stated that following the government's silver decree, the exchange market had been busy but had remained steady and orderly.

Japanese quarters are suspicious of British activity behind the monetary move, it is understood, but Sir Frederick Leith Ross, now in the Far East, commends the government's courage in taking the step for which they solely are responsible.

The Director of the Bank of China, Mr Soong, states that the silver reserve provides above 100 per cent cover for note circulation.

600 MILLION FRANCS FOR

FRENCH ROADS.

According to a press message from Paris credit amounting to nearly 600 million francs has been set aside for the purpose of straightening roads and widening the main thoroughfares from Paris to Bordeaux, Strasbourg, Lyons and Calais, removing level crossings and by-passing towns.

-----  
LORD TWEEDSMUIR IN CANADA.

On his arrival at Quebec on Saturday evening the new Governor-General of Canada, Lord Tweedsmuir (better known as John Buchan the writer), was sworn in by Justice Rinfret in the historic council chamber amid scenes of pageantry.

Lord Tweedsmuir said his message was one of admiration for what the people of Canada had done and confidence in what they would yet do.

It is reported from Dublin that negotiations have been begun for the continuance of the coal and cattle pact with Britain due to expire at the end of the year.

-----  
"AUSTRALIA AND WAR TO-DAY."

Reuter's correspondent in Melbourne states that Mr Hughes, who has been asked to resign owing to his alleged opposition to sanctions, has informed the paper "Argus" that he is wholeheartedly behind sanctions legislation and the suggestion that he is opposed is utterly unwarranted by anything in his book "Australia and war to-day."

-----  
Ontario : McCardell the kidnapper has been sentenced to twelve years imprisonment.

THE GENERAL ELECTION.

With only eight days left before polling day, it was reported last night, the General Election campaign is now in full swing.

Mr Ramsay MacDonald was broadcasting a National Labour address in support of the government and five other members of the Cabinet as well as the principal opposition leaders were speaking in various parts of the country in the one day.

In all the London constituencies the extension of the polling hours from 8.0 p.m. to 9.0 p.m., as allowed under the electoral law, has been granted.

Among the labour members of the 1929 Parliament who lost their seats in 1931 and who are now seeking re-election, eleven are members of the last Labour Cabinet. Of the nineteen Conservative women candidates some were members of the last parliament.

A press note from New York reporting on the British General Election declares that Italy may be excused for marking its coincidence with her foreign trade boycott adding that should the government's policy give overwhelming approval Baldwin's policy will be strengthened at home and abroad while the Foreign Secretary would return to Geneva with a fresh and unmistakable grant of power, making his words more heeded than ever.

U.S.A. LIQUOR SALES STOPPED.

A New York message stated yesterday that the liquor sales had been prohibited on the occasion of the State Assembly elections while extra precautions were taken to prevent "electioneering."

Over 700 detectives touring the State in wireless equipped cars, rounded up some 400 gangsters before noon, while all loiterers near the polling booths were kept moving.

The precautions were effective and the polling passed off quietly. But in Philadelphia reports have been received that clashes occurred with pistols and many arrests followed.

EX-KING GEORGE OF GREECE.

A message from Athens states that ex-King George has sent a message to the people indicating his readiness to return "with no littering about the past".

It is understood that the ex-king is travelling via Jugo-Slavia and embarking on the cruiser "Helle" at Spalato on November 15.

Last evening it was reported from Athens that the delegation to inform ex-King George of the plebiscite in an official capacity, left for London.

LUSITANIA MEMORIAL SERVICE.

According to a press message from Kinsale a memorial service on board the salvage ship Ophir was held above the Lusitania wreck with the Lord Mayor of Cork, the American Consul of Queenstown and other dignitaries attending yesterday.

The burial services were read by the Roman Catholic, Church of England and Jewish Ministers present.

BRITISH ARMY COUNCIL'S BOLDREORGANISATION MOVE.

The Daily Telegraph understands that the Army Council is shortly taking bold steps in the reorganisation of the army by mechanising the greater part of the cavalry and adopting machine gun battalions for infantry brigades.

Horsed cavalry reliefs are being retained for India but of the total fourteen horsed regiments at home and in Egypt, eight will be mechanical.

Each infantry brigade will consist of three rifle battalions & one machine gun battalion, the former having 52 light automatics additional and the latter anti-tank guns and possibly mortars.

- o -

A meeting of the Committee of Eighteen is to be held to-day to consider the reports of the five sub-committees which have been discussing technical questions arising from the application of sanctions, including the question of clearing agreements and additions to the list of prohibited key exports.

- o -

An Addis Ababa message on Tuesday night stated that notwithstanding the Rome announcement of the forthcoming offensives on the north and south fronts, the authorities here are without information of any sort.

- o -

The Daily Telegraph correspondent states in connection with this news that many canards are in circulation from Djibouti and Hallar.

- o -

Yesterday a Rome communique stated that the first army corps had occupied Adibaghi village while two columns of native troops had reached the right of the Afturro Hills and another the Darakil lowlands, holding the eastern buttress of Agame.

- o -

Aircraft had been reconnoitring about Lake Ashangi while activity in Ogaden continues.

- o -

Reports from other quarters state that the rain continues and is holding up further advance.

- o -

A Rome message stated that Mussolini's sanction decrees came into force yesterday and the butchers

shops are to close for a meat-less day.

- o -

A stricter watch on currency export has been instituted with all registered letters opened in the senders' presence before despatch, states the Daily Telegraph correspondent, who adds that the visitors are unable to change foreign money at the hotels but only at the banks.

- o -

The curtailed railway services commenced yesterday while electric lighting economy was extended to apartment blocks. The new price of petrol from noon on Tuesday brings the gallon to double September's figure.

- o -

A report has been received that the Aden authorities are refusing fuels and stores to Italian vessels.

- o -

From Angera it is learned that the Turkish government has submitted a draft law to the National Assembly for authority to apply sanctions against Italy.

- o -

A communique from Rome late last night again reported the penetration by the Italian advance guards along the whole front.

- o -

CRITICS CONFOUNDED IN

CHINESE SILVER CHANGE.

Reuter's correspondent in Shanghai writes that it is reliably reported that the canton has agreed to adopt Nanking's monetary measures.

This action has confounded the critics who anticipated that the decrees would be ineffective outside the central government's sphere.

The Minister of Finance, Kung, states that the scheme has won the support of the country everywhere while the banks report that the Chinese are readily surrendering their silver.

BRITISH RAILWAY DEVELOPMENTS.

It is reported from London that the railway companies have issued a statement regarding the government's proposals for loans to enable them to put in hand works estimated to cost £30,000,000.

The works will place the companies in a position to carry increased traffic with efficiency and include schemes for the extension of electric traction both on the main lines and in the suburban areas.

The Southern Railway which has already electrified 450 miles of route will add another 250 miles covering the whole of the south coast service and greatly increasing its ability to handle the ever-growing traffic to Portsmouth Harbour from the Isle of Wight.

The London North Eastern track between Manchester and Sheffield will be electrified as well.

All these electrification schemes are supplementary to the plans for electrifying the London and Suburban lines under the £35,000,000 programme of the London Passenger Transport Board announced during the summer.

THE U.S.A. PRESIDENTIAL

ELECTIONS.

It is reported from New York that although many State Assembly re-election results are confusing there is an indication that Roosevelt has lost ground in the east while from six States there is the suggestion of a sharp rebuke to the New Deal policies, says the Daily Telegraph correspondent.

In the New York State the mayoralty elections have resulted in the Democrats capturing only twelve cities against the Republicans' 33. The Stock market celebrated the occasion by staging an impressive forward movement, above three million shares changing hands in unusually active trading on Wednesday during the busiest day since July 1934. All sections shared the advance.

According to the Daily Telegraph correspondent in Wall Street yesterday considerable effect was created by the Federal Judge's decision in Baltimore district court holding that Roosevelt's Public Utilities Regulatory Act as unconstitutional in its entirety.

The western markets, still open on time difference, were flooded with telephoned and cabled orders resulting in a sharp bull tendency.

Speculation is rife over the possibility of further court findings influencing the presidential elections.

ST PAUL'S WATCHNIGHT SERVICE.

For the first time in history St Paul's Cathedral Watchnight Service on New Year's Eve will be held inside with loudspeaker relays to the Churchyard and community singing prior to the Sacred Celebration.

WAR NEWS AND NOTES.

There was no official communique from Rome yesterday, but a correspondent with the northern army reports that General Santini's Black-shirt column has occupied Mount Ednamosoboh overlooking Makalle, and the advance post is only three miles from the town.

Flanking movements are said to be taking place covering Dessa on the left and Ginferes Valley on the right.

Flatorate reconnaissance is being conducted prior to the advances of any sector for it is anticipated that there is resistance ahead.

According to the latest information the Abyssinians' equipment amounts to 250,000 modern rifles, 2,000 machine guns and 250 million cartridges and the artillery is consisting of 300 field guns and 100 anti-aircraft.

It is reported from Addis Ababa that American engineers have established direct radio communication with the United States.

Enquiries made of leading oil circles indicate that there is a slight probability of an oil embargo against Italy in the near future, since Geneva's ban is conditional upon the League non-members cooperation with the United States holding the key to the situation.

It is understood that the British government has approached the United States on this matter but oil interests generally consider that the Italian financial difficulties are the only reason for the cessation of supplies.

The Irish Free State has passed a Sanctions Bill.

THE GENERAL ELECTION.

With the broadcast addresses given last night when the Premier, Mr Stanley Baldwin, spoke for the National Government, the general election campaign entered upon its last stage.

The public interest seemed to be centring on one or two contests in which leading personalities are engaged. The Prime Minister has been returned unopposed but his colleague and predecessor at the head of the National Government, Mr Ramsay MacDonald, is involved in what is generally agreed will be a hard fight at Seaham Harbour, his mining constituency.

Mr MacDonald has refused to consider a safer seat. He is opposed by Mr E. Shinwell, Secretary for Mines in the last Labour Government. As a National Labour candidate Mr Ramsay MacDonald is assured of the unqualified support of the Conservative voters, but the attitude of the Liberals is doubtful. His majority at the last election was just under 6,000 in a total vote of about 52,000.

The Home Secretary, Sir John Simon, has represented Spen Valley since 1922. His majority at the last general election was just over 4,000. The large Liberal element which supported him as a Liberal National candidate at the last election may be more divided on this occasion on the tariff issue.

The Liberal Opposition leader, Sir Herbert Samuel, is under fire from both the Conservative and Labour opponents.

SIR CHARLES KINGSFORD-SMITHOVERDUE.

The Australian Air Commodore Sir Charles Kingsford-Smith, with his co-pilot, Mr Pothyridge, who is engaged on an attempted record flight to Australia is reported overdue at Singapore. He left Lympne early Wednesday morning and arrived at Allahabad at 5.25 Thursday evening, being then about 2½ hours behind the record set up by Scott and Black.

The Australian airman, C.J. Melrose who is engaged on an attempted England to Australia solo flight on arrival at Singapore yesterday afternoon reported that he passed over a machine in the Bay of Bengal & a search is being made.

R.R.S. DISCOVERY II NEWS.

Recent newspapers have published interesting items concerning the personnel of the R.R.S. Discovery II known to Falkland Islanders.

The first is that her captain is now Commander Leonard Hill, formerly first officer under Captain Nelson; the second is that Mr James Marr (known throughout the British Empire as "Scout Marr") is engaged to Miss D.H. Plutte of Sydenham.

SIR CHARLES KINGSFORD-SMITH.

Up to last night there was still no news of Sir Charles Kingsford-Smith and his co-pilot who are now two days overdue at Singapore on their way to Australia.

URUGUAYAN EULOGY FOR BRITAIN.

According to a message from Montevideo the Uruguayan Foreign Minister in eulogising Great Britain appealed for especially favourable treatment with regard to British capital on the grounds of her being the greatest financial supporter of Uruguay and the "Mother and Grandmother of all modern liberties."

CONGRATULATIONS FORTHE GREEK KING.

It is reported from London that the Greek King George has received representatives of the national colony in London with their expressions of congratulation.

It is learned from Athens that Republican leaders in prison have been released and rebels pardoned.

METHODIST CHURCH SUPPORTOF BALDWIN'S POLICY.

In a letter to Sir John Simon, a message from London states, Dr Scott Lidgett, the President of the United Methodist Church, unhesitatingly supports the Premier's policy.

FOREIGN TRIBUTES TO BALDWIN.

The Daily Telegraph correspondent in Berlin states that the German press pays a striking tribute to Mr Baldwin as the leader who has the confidence of the public while the opposition combats every corner of the national policy for election material to accuse the Cabinet which has astonished the world of the treason to the league shown by the latter.

Paris is also paying a tribute to the British recovery under the National Government and comments favourably on the common sense of the average British voter.

THE CHINESE SILVER PROBLEM.

According to the Daily Telegraph correspondent in Hong-Kong the local nationalisation of silver is expected at any moment.

The banks are reducing their silver stocks estimated at £22½ million while it is alleged that the Cantonese are smuggling metal into the Colony for the purchase of sterling.

It is generally believed that there will be a stabilisation of the dollar at 1/3d but official circles refuse to confirm this.

Information from Tokio tends to give colour to the Japanese suspicion which has found an outlet from the War Office with regard to the Chinese currency reform.

In a strongly worded communique the War Office refers to the report of a £50 million loan being negotiated by China with Britain, and declares "Japan cannot overlook any attempt by Great Britain to place semi-colonial China under the domination of British capital."

The communique also predicts that the currency reform will eventually render Chinese bank-notes worthless.

NAVAL CONFERENCE BELIEF.

There is a widespread belief in Washington that the forthcoming Naval Conference will be of short duration having little result and with the discussions largely devoted to the size of vessels rather than aggregate tonnage limits.

The British reinforcements in the Mediterranean are likely to have an effect on the agenda if it is held, with Britain indisposed to talk in terms of aggregate fleet tonnage.

U.S.A. & CANADA.

The conversations relative to a trade pact between President Roosevelt and Canada's Premier, Mr McKenzie King seem to be concealed in a diplomatic fog, states Reuter's correspondent.

WAR NEWS AND NOTES.

On Saturday the Italian advance lines were reported to be meeting with little resistance south of Makalle on the line Gondar-Debratakor-Ambaalaji.

- o -

Meanwhile the Italian right wing is believed to be commencing an encircling movement with the objective being Lake Tsana.

- o -

General Debono's communique received in Rome yesterday describes the capture of Gorahi and states that the notables of Adiet and the surrounding region have submitted.

- o -

The Danakil column has continued its advance and has reached Iamale. Skirmishing continues between Aksum and the Takkaze River.

- o -

Conflicting reports of casualties have been received from both sides.

- o -

The Sunday Times Addis Ababa correspondent reports that there is a steady concentration of Abyssinian troops in the Southern Tigre and the adjoining provinces, and it is expected that the peak will be reached on the 30th of November when half a million well-armed warriors will be fielded.

- o -

It is also understood that the Emperor has concluded an agreement with the Imam of Yemen embracing a military alliance.

- o -

A news correspondent from Asmara states that the tremendous organisation problem presented by feeding the advance of the Italian northern army in Abyssinia is well illustrated by the figures published there.

- o -

According to this report two thousand tons of provender, including two hundred and fifty tons of meat, are consumed weekly by the troops at the port.

- o -

As a result of the unforeseen difficulty in obtaining fresh meat in the occupied territory the Italians have erected a refrigerating plant from which forty tons is forwarded daily to the advance lines on motor lorries, the number of men engaged on this work alone being five thousand.

- o -

A supply of a quarter of a million pounds of flour is daily needed by the field bakers for bread and also sixty tons of wood for fuel must also be transported daily.

- o -

Seven thousand mules and camels are being used for the final distribution of the supply in regions where there are no roads, the fodder for these animals alone coming up to the same figure per week as the provender for the troops making a total of about four thousand tons.

- o -

Apparently all this has to be unloaded daily and the work of the quarter-master's staff is not lightened by the fact that the majority of the forty thousand Askaris who are chiefly engaged in this work are accompanied by families who also have to be provided with means of subsistence.

- o -

A late message from Asmara adds that the Italian army is continuing its advance south after the occupation of Makale, the next objective being Shelicot. Antalo heights commanding Shelicot are already reported to be in their possession.

- o -

The Italian right wing division under General Maravigna is also said to have resumed its advance but it is expected that Santine, after capturing Shelicot will be held up in his further advance until the right wing has reached the Gheva River tributary of Taccage.

FRANCE & GERMANY.

According to the Daily Telegraph Paris correspondent the French Ambassador at Berlin had a long interview with M. Laval which is generally associated with the expected visit of Hitler's emissary, Von Ribbentrop, at the end of the month.

Political circles in France relieve that Ribbentrop will propose the conclusion of an air pact and ask for her colonies but semi-official circles are believing that M. Laval is anxious to conclude a German entente and state that there

is no definite basis of agreement in view.

London diplomatic circles consider that nothing will materialise since Germany objects to the proposed Franco-Soviet pact while the French protocol with the Soviet debars M. Laval from conducting negotiations with Germany without Moscow's approval.

FAR EAST CHINA FOR LONDON.

The Daily Telegraph reports that following last week's demoralisation of the Hong-Kong and Shanghai exchanges the Hong-Kong silver export ban enforced was too late to prevent the despatch of £3,000,000 silver to London, but in future similar activities are thwarted.

The silver disturbances are directly attributable to the United States purchase policy whereby the commodity prices were deflated.

The rumours of a British loan are unanimously discounted.

THE KING OF GREECE.

King George of Greece at the Greek Legation in London on Monday formally accepted the government's invitation to return to the throne extended to him by the Athens delegation.

The King's suite, the delegation and many nationals attended a special thanksgiving service held subsequently in the Greek Orthodox Church and the King later lunched with Their Majesties the King and Queen at Buckingham Palace.

King George is expected to arrive in Athens on the 24th of November after visiting Florence where his parents are buried.

There is still no news of Sir Charles Kingsford-Smith from the Bay of Bengal.

CANADA & THE U.S.A.

The Canadian Premier returned to Ottawa unexpectedly on Sunday while a statement was issued saving that complete agreement on the objective of a greatly increased trade flow had been reached with America.

The Canadian delegation in Washington announced that Mr MacKenzie King, the Premier, was meeting the Cabinet yesterday (Monday) and afterwards would continue his United States holiday.

It was reported from Ottawa last night that Mr MacKenzie-King announced that the United States and Canada had reached an agreement which did not infringe the Ottawa Pacts.

The terms are being disclosed simultaneously at Washington and Ottawa when the agreement is signed and this will probably be within the next few days.

President Roosevelt has made a similar announcement in Washington, referring to the neighbourliness and genuine friendship which closely knit the two countries by blood and common heritage.

THE OTTAWA AGREEMENTS.

In relinquishing the Canadian High Commissionership after five years, G.L. Ferguson, expressed the opinion that the Ottawa Agreements had forged a solid link between the Dominions, Colonies and Britain and were proving increasingly profitable to all concerned, adding that the London Offices were real factors in Empire building.

NO ATLANTIC FREIGHT WAR.

According to a message from Berlin an Atlantic freight war has been averted by the decision of the German shipping companies not to continue their practice of paying freights with blocked marks.

The North Atlantic Conference members had announced their intention of resigning if the practice were continued.

U.S.A. UNEMPLOYMENT DECREASE.

The National Industrial Conference unemployed figures, states a New York message, show the September number to be 9,466,000, representing a decrease of 386,000 compared with August, and 927,000 below September, 1934.

Unemployment has decreased in every industry during the year excepting in mining which shows an increase of 2.4 per cent.

CAPE TO ENGLAND FLIERS'PROGRESS.

It is reported from Marseilles that the Cape to England fliers, Llewellyn and Mrs Wyndham, safely landed well in reach of the record and they are awaiting an improvement in the weather.

PALESTINE PROCLAMATIONEXPECTED.

It is understood from Jerusalem that the proclamation of a legislative Council for Palestine is believed to be imminent, with the Moslems holding six, the Christians two and Britain ten seats respectively while four seats are being reserved for the Jews.

NEW STRATOSPHERE RECORD.

According to a message from New York a stratosphere explorer balloon with two army captains - Stevens and Anderson - aboard, ascended from Rapid City, South Dakota, on Saturday and attained a height of 74,187 feet thus creating a new world record.

Telephonic communication was maintained throughout while the outer temperatures was 67 degrees below zero and all the instruments were working properly.

The balloon safely landed at White Lake, South Dakota, 230 miles east of the ascending point.

WAR NEWS AND NOTES.

Reuter's correspondent at Asmara states that General Graziani's forces, operating from Italian Somaliland, have entered Sasabaneh following a rapid movement along the Fafan River made possible by the fall of Gorahi.

- o -

This establishes the command of main road communications to Harar.

- o -

A government announcement from Addis Ababa is reported announcing that over 100,000 of Ras Kassa's reinforcements have joined Ras Seyoum's army which is concentrated behind Kindonemiret mountain range south of Makalle.

- o -

Makonnen Demisso, the Emperor's nephew, is leading a further 50,000 proceeding to the northern front.

- o -

Large consignments of guns, including long range armament, rifles and ammunition are now reaching Abyssinia through various frontiers hitherto blocked by the arms' embargo.

- o -

A message from Rome states that the King of Italy's birthday was celebrated by a review of troops with the Duce taking the salute from the balcony of the Palazzo Venezia.

- o -

According to the Daily Telegraph correspondent the Duce referred to the Adowa and Makalle victories as a settlement of two old scores with others to follow.

- o -

The Italian government has presented strong protests to all the countries proposing to apply sanctions, the text of which will be published in due course. Meanwhile the United States have been informed.

- o -

It is understood that the Fascist Grand Council is assembling on Saturday when new measures combating sanctions which were enforceable on Monday, will be announced.

- o -

The Bank of International Settlements at Basle denies that there is to be a British, French and German agreement on sanctions.

- o -

It is reported from Bucharest that the Petroleum Association has reported to the Minister of Finance that further exports to Italy are impossible except on a gold basis payable to any point named by the exporter. Many British and American oil companies are concerned.

BRITISH SHIPPING IMPROVEMENT.

It is learned from London that reports collated from many industrial centres indicate a steady improvement since 1931 with the shipyards having the busiest winter for five years.

The steel production has been doubled and the woollen mills have been working full time.

The cotton, pottery, silverware, bicycle and lace industries are benefiting from the considerable increase in home consumption and Dominion purchases under tariffs while the motor-car production year ending September 30 shows an increase of 17.7% at 397,681 vehicles.

CANADIAN TRANSATLANTICAIR SERVICE DISCUSSION.

It is reported from London that the Director of the General Post Office, Sir Donald Banks, with the Director General of Civil Aviation, Lieutenant-Colonel Shelmerdine, and the Managing Director of Imperial Airways, G.E. Woods-Humphrey, accompanied by officials of the Air Ministry, the Dominions Office and the Post Office, are leaving for Ottawa to-day (Wednesday) to discuss with the Canadian authorities the establishment of a Trans-Atlantic Air Service.

Such a service has been under discussion by the Governments of the United Kingdom & the Irish Free State and the representatives of the latter with those of Newfoundland are also participating in the Ottawa talks towards the end of the month.

U.S.A. & THE NAVAL CONFERENCE.

Reuter's correspondent in Washington understands that President Roosevelt has received Rear-Admiral Standley, the Assistant Navy Secretary, and has discussed plans for the participation of the United States in the London Naval Conference to be held in December.

CANADA'S "PEACE" OFFERTO JAPAN.

The Daily Telegraph Tokio correspondent learns that Canada has offered substantial concessions in the import regulations applicable to Japan in an attempt to end the trade war.

The principle points are - fixed dutiable valuations confined to natural products, correction of exchange rate applicable to goods not made in Canada, the lifting of the present sur-taxes.

It is understood that the Japanese government is favourably considering the proposals.

LAVAL'S DEMAND FORBUDGET RESTORATION.

A Paris press message reports that, having obtained the Cabinet's unanimous support, M. Laval is facing the Finance Committee with a peremptory demand for the budget to be restored substantially to its original form.

He claims that the budget democrats are hitting the rich harder than the poor and the issue was devaluation or a balanced budget.

DISORDER IN SHANGHAI.

The Daily Telegraph correspondent reports that following strong protests from Nanking demanding the repression of the anti-Japanese disorders, some four hundred fully equipped Japanese sailors have been landed in the international settlement and local tension has increased.

SFINSTERS WANT PENSIONS.

Spinsters in Scotland have started a campaign to secure a pension for unmarried women, starting at the age of fifty-five.

Many recruits have been enlisted in Glasgow and Edinburgh.

The spinsters have organised the Women's Freedom League to fight their cause, and its membership is growing rapidly.

PILOT BALKS KIDNAPPER.

By employing an aeroplane a threatened kidnapping was averted recently in Brussels and the culprit who sought by using a pigeon to leave no clues, was captured. The man sent a threatening letter to a prominent townsman demanding 5,000 francs to be returned by the pigeon or suffer his child to be kidnapped.

It was arranged that an aeroplane should follow the pigeon when it was released and by this means the bird's destination was discovered and the would-be kidnapper caught.

WAR NEWS AND NOTES.

It is reported from Rome that General Debono's communique states that the northern army is consolidating in the Makalle area with the town of Adsevirid in the Adiabo region occupied.

- o -

The advance along the Takage River is continuing while the Danakil column is moving toward the Dessa zone.

- o -

Addis Ababa reports that the Italian southern army is centring on Jijiga and has captured Daggahur, eighty miles distant.

- o -

The Emperor is despatching 40,000 reinforcements and it is probable that a supreme effort will be made to hold Jijiga, states the Daily Telegraph correspondent.

- o -

Reports have reached the Abyssinian government that barefooted infantrymen have attacked an Italian motorised detachment one hundred miles south-east of Harrar, capturing four tanks and disabling three armoured cars with heavy casualties on both sides. Six Italian officers are said to have been captured.

- o -

The first mobile hospital unit of the British Ambulance Service in Ethiopia is leaving London on Saturday.

- o -

It is reported from Geneva that the Italian note on sanctions has not been communicated to the League, but it is felt that the more serious question of Italy's continued membership to the League will be raised shortly.

- o -

The Sanctions Coordination Committee has admitted certain exceptional cases of current contracts

these amounting to 1½ per cent of Italy's export trade.

- o -

A Berlin decree has been issued forbidding export without licence of many hundreds of specified materials and goods including fats, oils and metals.

- o -

The decree continues that prohibition is enforceable two days after the League Sanctions are applicable to Italy.

RECORD STEEL YEAR INDICATED.

A news message from Middlesbrough gives every indication of 1935 proving a record steel year with the local output amounting to two million tons and the country's total approximating ten million as compared with 5½ million in 1934.

Within two years some 7,000 more men have been employed.

COAL CONFERENCE IMPENDING.

It is understood that the National Convention promoted by the Coal Utilisation Council and supported by the Mining Association of Coal-merchants, Coal-traders and Coal-exporters Federation is assembling in London on November 21.

U.S.A. STILL KEEPS OUT.

A Washington message reports that State Secretary Cordell Hull has reiterated once more the national policy of discouragement to trading with either Italy or Abyssinia which, he said, rests primarily on the Neutrality Act designed to keep the United States out of the war.

In his opinion citizens disposed to derive profits at the expense of human lives and misery were practically negligible in number and he added that the State department was giving diligent and earnest attention to all phases of the national situation in relation to the African conflict.

ARMISTICE DAY.

In bright sunshine a large number of the public gathered at the Cross of Sacrifice for the commemoration of the seventeenth anniversary of the Armistice on Monday when the Defence Force paraded under Major the Hon. M.J. Stewart while the Boy Scouts and Girl Guides were assembled under the charge of their leaders and teachers.

His Excellency the Governor, Miss Henniker-Heaton and Miss P. Henniker-Heaton were present at the plinth of the Memorial together with the Hon. M.C. Craigie-Halkett, O.B.E., and Mrs Craigie-Halkett, members of Councils and their wives and other prominent townspeople for the observation of the Two Minutes' Silence.

The Silence was marked by the firing of the gun on Victory Green, the gun-crew being commanded by 2nd-Lieutenant L.W. Aldridge, and on the second report concluding the two minutes the Last Post was sounded by Cpl F. O'Sullivan.

The Rev. Dr R.T. Wade then conducted a short but impressive service during which the hymn "O God our help in ages past" was sung by all present.

The ceremony at the Cross terminated with His Excellency placing a wreath at the foot of the memorial. At its side a cross of "Flanders Poppies" was set by the Hon. M.C. Craigie-Halkett, O.B.E. on behalf of the British Legion in Magallanes and a wreath from the Defence Force by Major the Hon. M.J. Stewart with other tokens afterwards being added by members of the public.

His Excellency the Governor then proceeded to Victory Green where he took the Salute as the Defence Force marched by.

RIOTS IN EGYPT,

A Cairo message states that following the withdrawal of the Wafd Executive's support of the Nessim Pasha government rioting broke out with revolutionary students parading denouncing Sir Samuel Hoare and stoning the British Consulate.

The Daily Telegraph reports that the police had assembled where minor clashes had occurred but an ugly situation was developing.

In the attacks upon the police several were injured and when troops were called out in support the outlook became worse. The mob were fired upon while a cordon was thrown around the affected areas and the Legations.

Independence Day's mass meeting was addressed by the Wafd leader Nagas Pasha who made a fiery speech against the British but troops maintained order.

A further outbreak occurred later when a lorry was burned and the police were attacked with stones and bottles.

The Wafd demands are - non-cooperation with the British, the resignation of Nessim Pasha's Cabinet, and that any ministry cooperating with the British should be boycotted.

The day's known casualties are 1 killed and 84 injured with all the ambulances working at top pressure.

WAR NEWS.

Yesterday's official communique from Rome states that Dessa is occupied and a junction has been made with the Danakil column while native troops are completing the occupation of the Geralta area.

The second army corps is entrenched at Adthrassi and Addiencato.

A message from Harrar confirms the capture of the Italian tanks and 1,000 Somali prisoners, adding that Ras Desta is threatening the Italian communications at Moustabil.

QUEEN ASTRID MEMORIAL.

A news message from Brussels states that the British Pavilion informal garden at the Brussels Exhibition has been presented to King Leopold in memory of Queen Astrid who greatly admired it.

It is hoped that the fountain and lake will be retained in situ & that the water will flow for ever while a re-arrangement of the herbageous borders is being made to ensure perpetual flowering.

FLOODS IN FRANCE.

According to the Daily Telegraph correspondent in Paris swollen rivers in the south-east of France have inundated vast areas forming a 10 mile lake around Avignon with the inhabitants have been forced to take refuge on the roofs with twelve deaths by drowning reported.

Twelve hours of rain with an estimate of 2½ inches has taken place throughout the Rhone delta, the river rising twenty feet, this being the highest for seventy years.

Miss Batten is the first woman to make a solo flight over the South Atlantic and she has beaten the record by 195 minutes in 13¼ hours, establishing a new record from Lympne to Brazil in 61¼ hours.

1935 CRUISERS' NAMES.

A London message reports that the Admiralty has announced the names of the 1935 cruisers as being - Liverpool, Gloucester and Manchester.

Singapore Melrose, the young Australian Flyer was forced down while searching for Sir Charles Kingsford-Smith but was found uninjured. Sir Charles & his companion are still missing.

THE NATIONAL RIFLE ASSOCIATION'S 72nd ANNUAL PRIZE MEETING.

## REPORT ON THE "MORNING POST" (JUNIOR KOLAPORE)

AND

## "BARNETT (JUNIOR MACKINNON) MATCHES, 1935.

We publish the following account of the above competitions for 1935 as being of interest to readers.

The "Morning Post" (Junior Kolapore) Match, instituted by the National Rifle Association in 1926 with the approval of the Secretary of State for the Colonies, and with the very kind assistance of the Colonial Office, enables the smaller countries of the Empire which find it impossible to send teams of eight to compete in "The Raja of Kolapore's Challenge Cup" Match to be represented at the Imperial Meeting at Bisley.

The Match was open to one officially accredited team of four past or present members of His Majesty's Forces or the Forces of any British Protected State resident or stationed in and qualified to represent any part of the British Empire or any territory under a condominium shared by Great Britain or any group of such parts or territories (sanctioned by the Council for the purpose of this Match) other than Great Britain and Northern Ireland, the Indian Empire, the Dominion and Provinces of Canada, the Commonwealth and States of Australia, the Dominion of New Zealand, the Union of South Africa and its Provinces, the Irish Free State, and any Dependencies of those Dominions or Territories administered by them under Mandate.

The Directors of the London "Morning Post" most generously presented a handsome Silver Challenge Trophy to be held for the year by such persons representing the winning country as the Bisley Committee may direct, and also give embroidered badges to the members of the competing teams. Special Commemorative Souvenirs were presented by the N.R.A. to each member of the winning team.

A Challenge Trophy has also been presented by Commander Sir Lionel Fletcher, C.B.E., R.N.R., for a competition at 300 and 600 yards open only to competitors who are qualified to shoot in the Junior Kolapore Match in the current year, the Trophy to become the property of the competitor who wins it on any

three occasions.

The National Rifle Association presented a large silver Jubilee Medal to the visiting competitor resident overseas in the current year eligible to compete in the "Morning Post" Match, and who made the highest aggregate score in the 1st Stage of His Majesty the King's Prize.

The "Morning Post" (Junior Kolapore) Match was fired at Bisley on 19th July, under the same conditions as those of the "Raja of Kolapore's Imperial Challenge Trophy", viz:-

Distances - 300, 500 and 600 yards (aggregate); Targets - Bisley, 1934; Rifles - S.R. (a) (b).; No. of Shots - Ten and one sighting shot per man, at each distance; Time Limit - One hour at each distance.

The following countries took part in the Match :-

Federated Malay States,  
Gold Coast,  
Kenya,  
The Sudan,

as against three in 1926, six in 1927, ten in 1928, eleven in 1929, seven in 1930, seven in 1931, seven in 1932, nine in 1933, and seven in 1934.

The absence of teams from Ceylon, Falkland Islands, Johore, Nyasaland, Straits Settlements, Sierra Leone, Southern Rhodesia, Tanganyika, Trinidad, Uganda, and China (Treaty Ports) which have been represented in previous years, is regretted.

The National Rifle Association is greatly indebted to the Secretary of State for the Colonies for the interest he has taken in the Match and to the assistance so kindly afforded by the Colonial Office. It is hoped that as the competition becomes more widely known it may be the means of further stimulating marksmanship throughout His Majesty's Colonies and Protectorates and lead to a wider representation at the Imperial Rifle Meeting, also that, should the number of entries continue to increase, greater opportunity will

be taken to enter teams to represent groups of Colonies, Protectorates and Dependencies sanctioned by the Council of the National Rifle Association, to compete in the "Kolapore" and the "Mackinnon" Matches, viz :- "Far East", "East Africa", "West Africa", and the West Indies.

The Challenge Trophy was won by the Gold Coast Team with the aggregate score of 567 out of a highest possible score of 600; the Team from the Sudan taking second place with a score of 565 marks.

The detailed scores of the competing representative teams are :

THE GENERAL ELECTION.

## Early Returns.

Yesterday throughout Britain voters were in and out of the polling booths recording their vote and last night everywhere tense excitement prevailed waiting for the returns to be published.

The interest was not confined to Britain and the Empire alone but the whole world was watching this newest development in Britain's political life.

Here, in the Falklands, we have our share of curiosity and listeners-in to Stanley Studio and those with private wireless sets were "in" on London promptly at 10.0 o'clock last night to hear the early returns.

The announcer from Broadcasting House was clearly heard.

So far, he said, the Government had secured 107 seats and the Opposition 52.

There had been 27 Labour gains recorded but, on the other hand at Salford, a district next door to Manchester, which is always considered a good indicator of the eventual opinion of the country, returned all three of its Conservative candidates.

Sir Samuel Hoare, the Foreign Secretary is in again as is also the Under Secretary of State for Air while the returns showed two other prominent Conservatives holding their positions in Parliament - Sir Austin Chamberlain and Mr Amery.

For Labour Mr Herbert Morrison and Mr Clynes have been returned to Parliament, having been defeated in 1931. But the Opposition Liberals have lost their leader, Sir Herbert Samuel.

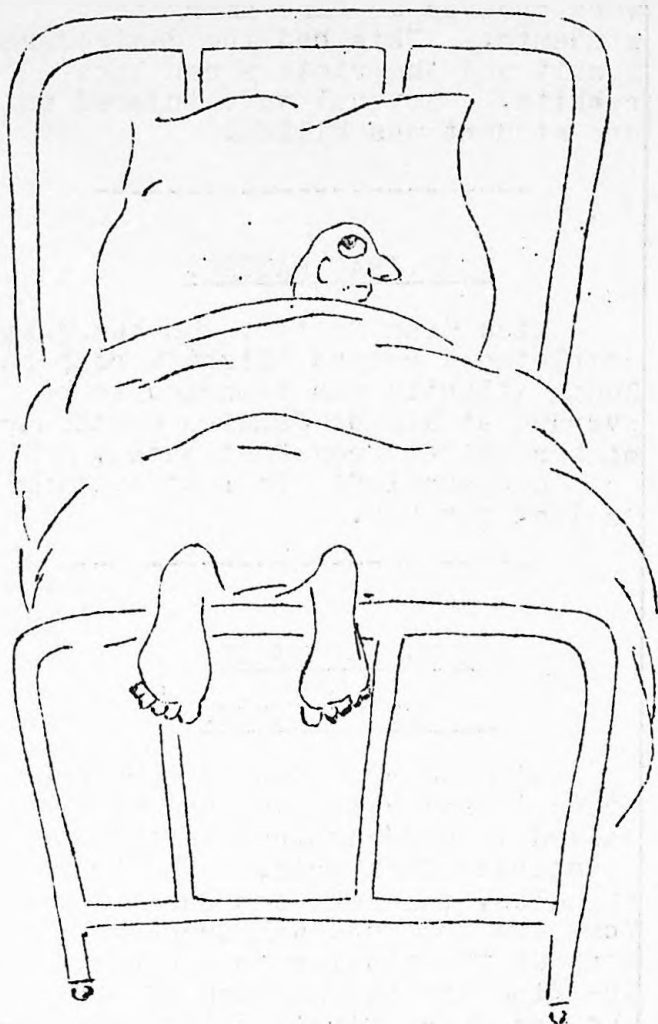

The announcer went on to say that this General Election had not aroused a great deal of excitement. There was not, for instance, the same number of people sporting the colours of their respective party or displaying the photograph of their candidate as in the past. At first it was also thought that the result of the poll would not be large but,

THE GENERAL ELECTION (Cont.)

the early returns showed that more people than had been expected had gone to the poll. There are some thirty million voters in the United Kingdom.

The results of the election were being telephoned minute by minute to Their Majesties the King and Queen at Sandringham, the news going over the private wire from Buckingham Palace.

In many places in London and other cities elaborate arrangements had been made by restaurants and hotels to keep their clients informed. Huge screens had been erected giving the results as they came out and in a number of places cards had been distributed so that the people themselves could mark off the results just as in the manner of recording cricket scores.

In one place a large screen had been fixed with the photographs of the leaders climbing ladders was exhibited and as the results were received so these photographs were made to climb the ladders.

One of the oldest voters was Mr F. Jackson of Sidcup in Kent. He is 103 years of age and refused to be taken to the polling booth in a motor-car. He said he had not missed voting for the past eighty years. Another veteran voter was a man from Clapham who was nearly a hundred years old. He was accompanied to the booth by his three daughters, the youngest of whom was seventy.

The excitement of the election had, as in previous years, resulted in some fatalities and on this occasion four old people are reported to have dropped dead immediately after recording their vote.

The day was cold and miserable.

THE EGYPTIAN DISTURBANCES.

Further rioting was reported in Cairo yesterday but no serious clashes had occurred in the provinces. The worst clash occurred with some 1,500 students and secondary school boys. Everything possible was done to persuade the students and boys to disperse quietly but without avail. Troops were

ineffective with baton charges and resort had to be made to firing over the demonstrators heads. This also failed to disperse the rioters and so, with slugs loaded, the soldiers were ordered to fire among the students. This had the desired result and the rioters ran like rabbits. Several were injured and one student was killed.

MISS JEAN BATTEN.

Miss Jean Batten, who has just completed a record flight across the South Atlantic was reported to be overdue at Rio de Janeiro yesterday on her flight from Fort Natal.

A plane left Rio last evening to look for her.

KING GEORGE II

OF THE HELLENES.

King George II of the Hellenes, Greece's sovereign who has been recalled to his country, left London yesterday for Paris. The Prince of Wales, the Duke and Duchess of York and the Duke and Duchess of Kent were on the station to see him depart. The King and the Duchess of Kent, who made her first public appearance yesterday since the birth of her son, are cousins.

King George II is expected to remain in Paris two days before continuing his journey to Florence and Rome where he will be received by the King of Italy next Wednesday.

He is due to leave Brindisi on Friday next in a Greek cruiser to arrive in Greece on the following Sunday.

SIR CHARLES KINGSFORD SMITH.

Royal Air Force bombers have been engaged in the search for Sir Charles Kingsford Smith who has been missing since last Friday with his co-pilot. Nothing however, has been found of them or their machine and little hope is entertained of their being found alive or dead. The search is being continued.

FOX BAY ACCIDENT.

An unfortunate accident occurred at Fox Bay on Monday morning when Mr Joe Faria sustained a fractured left leg.

He was starting off for the peat bog with a four-wheeled waggon but as he was getting into it he slipped. The horses bolted and the rear wheel went over his leg breaking both bones above the ankle.

Mr Faria's accident recalls another narrow escape he had from death in 1926 when rolling a field at Port Howard with a 30-cwt Cambridge roller. He fell face downwards in front of the roller which almost completely went over him and he owed his life to the soft unevenness of the ground and to the fact that the horses stopped just before the roller got to his head. He made several turns of the field afterwards before becoming too stiff to carry on and even then he was only two days off work.

S.S. LAFONIA ENCOUNTERS ICEBERGS.

3 Aground Near Shag Rocks.

The s.s. Lafonia which arrived at Leith Harbour yesterday during the latter part of the day, passed on the way down three large icebergs aground near Shag Rocks with plenty of ice to the north of the island & round the west side.

The Lafonia is expected to arrive at King Edward Point on Sunday from Leith and to leave on Monday for Stanley.

Snowy weather is reported at South Georgia.

No. 114. 13th November, 1935.

With reference to Government Notice 113 dated the 12th of November, 1935, it is hereby notified for general information that paragraph I of Article II of "The Treaty of Peace (Covenant of League of Nations) Order of the United Kingdom, 1935" has been amended by (a) empowering the Board of Trade to authorise by licence the importation of goods from Italian territory if the Board are satisfied that the price of goods was wholly paid on or before the 19th of October, 1935, and (b) admitting importation from Italian territory of newspaper periodicals, printed books, printed music, maps and hydrographical charts.

By Command,

(Sgd) M.C. Craigie-Halkett  
Colonial Secretary.

THE EGYPTIAN DISTURBANCE.

In an official communique the Premier, Nessim Pasha, declared that Britain's opposition to a return of the 1923 constitutional regime is the indirect cause of the unrest.

It is stated in official circles according to the Daily Telegraph correspondent that no British action political or otherwise is involved by the disturbance which followed

on the decision of the Wafd not to support Nessim Pasha.

There is nothing to show that Italian propaganda in Egypt has affected the situation.

NORTH CHINA DEVELOPMENTS

It is reported from Tientsin that General Tada, the Japanese Commander-in-Chief in North China, has declared that the intelligence service has indicated a probable early independence of the five North China provinces.

The movement is not initiated by the Japanese, he adds, and the Japanese army would not interfere except to protect Japanese property.

THE PHILIPPINES & INDEPENDENCE,

According to information from Washington, President Roosevelt has signed the proclamation establishing the new Commonwealth of the Philippines which will be promulgated in Manila next Friday by the Secretary of War, Dern, in the presence of an American delegation of 139, including the American Vice-President of War, and the Secretary of American Congressmen, when Manuel Quezon will be inducted the President of the new Commonwealth.

An appeal against over assessment of income tax has been won by Henry Ford. The amount is for 2,115,313 dollars interest.

THE GENERAL ELECTION.

Government's Sweeping Success.

Labour Disappointment.

The General Election resulted in a sweeping success for the Government surpassing the expectations of the most optimistic supporters and while there is general satisfaction the Labour leaders are indulging in some painful heart-searching, admitting their disappointment with a strength sixty below the forecast and only half the 1929 figures.

The state of the parties at the close last night was :

Government	421
Labour	153
Liberals	16
Independent	10

The gains and losses are - Government 13 & 94, Labour 97 & 3, Liberals 3 & 15, Independents 2 & 3.

The majority of the markets report that there is a heavy settling day in prospect as a result of the unanticipated totals with buyers on the eve of the election making a 77-points profit.

Comment from abroad shows that France expresses compliments to the democratic system so sanely administered and considers that the National Government is more modest in words and more effective in action than her rivals.

The Italian view is that a Socialist government would have made a settlement of the Abyssinian dispute more difficult.

Germany envisages enhanced self-reliance of the British people with national strength guaranteed if collective security efforts are abortive.

While the United States finds the result a foregone conclusion Holland says that the government victory is nationally and internationally a step forward.

Geneva is emphatically satisfied with the results, particularly Mr Eden's return by a tremendous majority with the assurance that there will be no faltering in a strong League initiative.

Forty members were returned unopposed for this the ninth Parliament of the King's reign which His

Majesty will open on December 3.

Among these forty unopposed returns was the Prime Minister, Mr Stanley Baldwin with twenty-five supporters while the opposition had fourteen.

Only two members of the Cabinet lost their places and they were Mr Ramsay MacDonald and his son Mr Malcolm MacDonald (the Secretary of State for the Colonies.)

At Seaham the result was - Eshinwell (Labour) 38,380; MacDonald (National Labour) 17,882.

The Minister of Agriculture, Mr Walter Elliott had a majority of only 149.

At Chelsea Sir Samuel Hoare had a majority of over 12,000 against his Labour opponent.

The Home Secretary, Sir John Simon, was returned for Spen Valley & his majority of 13,000 in the 1931 election fell to 642.

The Minister for League Affairs, Mr Anthony Eden was re-elected for Warwick with a majority of 24,000 & retained his seat by over 9,000 votes.

In some other cases Cabinet Ministers were returned with increased majorities while the Speaker of the House of Commons, contrary to constitutional usage had to face a contested election but returned with a majority of 8,167.

The Opposition front bench has been strengthened by the re-election of the majority of those who held Ministerial office in the former Labour Government but who lost their seats in 1931.

Those returned include Mr J.R. Clynes, Mr Herbert Morrison, Mr A.V. Alexander, Mr Fred Montague and Dr Hugh Dalton who was Under-Secretary for Foreign Affairs in the last Labour Government.

But the Labour party has lost Dr Addison who was defeated at Swindon by the former rugby international Wakefield standing as a Conservative.

Another exception to the return of the former Labour leaders was Miss Margaret Bondfield, the first woman Cabinet Minister in Britain who was unsuccessful against the sitting member at Wallsend, Miss Irene Ward (Conservative.)

The Liberal opposition has lost many seats including their leader, Sir Herbert Samuel.

Mr Lloyd George increased his majority at Caernarvon by 4,000 and he is rejoined in the Commons by his son and daughter, Major Gwelym Lloyd George returned for Pembroke, and Miss Megan Lloyd George who maintained her majority in Anglesey in a three-cornered fight.

Mr Winston Churchill increased his majority at Epping.

The Independent Labour Party leader, James Maxton, defeated his Conservative opponent handsomely in the Bridgeton Division of Glasgow.

The smallest majority was that of the younger son of the late Mr Arthur Henderson who was with his father in the 1929 Parliament. He won the Kingswinford seat for Labour by a majority of sixteen votes.

The only Communist who secured election was William Gallacher who defeated both the Conservative & former Labour Minister William Adamson in Western Fife. He had a majority of 600.

There were sixty-five women candidates at the election. Eight have been elected and three Conservative women members in the last Parliament have been defeated.

Miss Ellen Wilkinson is the only woman member elected who was not in the last house and she was a member in the previous parliament.

One woman member, Miss Eleanor Rathbone was returned unopposed.

Lady Astor was re-elected for Plymouth and Miss Horsbrugh, the British delegate at the last two Assemblies of the League of Nations retained her seat at Dundee.

The Duchess of Athol, Miss Thelma Cazalet and Mrs Tate are other successful women candidates.

The Prime Minister, Mr Stanley Baldwin, in a message to the Nation issued last night, said :

"It is a splendid result. The country has renewed its support of the National Government. It has expressed decisively its confidence in our will and ability to continue our work for national restoration and world peace. We shall give all that is in us in the years ahead to justify the country's trust."

Commenting on the result, the leader of the Labour party, Major Attlee, said that the result in terms of seats was disappointing, but the aggregate poll showed how great and widespread had been the response to Labour's policy of Socialism and Peace. Labour would face the Government in the new Parliament with confidence, knowing how great a part of the nation was fully in sympathy with its policy.

-----  
WAR NEWS AND NOTES.

Last night's official communique from Rome states that brisk skirmishes occurred near Asbi with considerable losses on both sides.

- o -  
The Daily Telegraph correspondent at Harrar reports that Italian planes have bombed Daggahbur, destroying the church while the American Medical unit has moved to Jijiga.

- o -  
Abyssinian sources confirm guerilla raids on Italian communications in the south and that they have met with success.

- o -  
According to an Aden message the Italian military authorities are markedly anxious over the potential shortage of supplies to be experienced when sanctions are enforced.

REMARKABLE SHOOTING RESULTS.

Falklands Record Broken.

L. Reive's Achievement.

Some excellent scores have been "put up" by members of the Defence Force Rifle Association this season and the latest to distinguish himself is L. Reive who, yesterday, smashed all previous records with a score of 102 out of a possible 105, thus making the best score ever compiled in the Islands.

Starting at the 300 yards with a "bull" for his sighter Len Reive followed up with seven "bulls" to count, making a range possible of 35.

At 500 yards he again got a "bull" for a sighter, followed by three more "bulls". The fourth shot was an "inner" just out at 2.0 o'clock. His last shot to count at this range was also an "inner" just clear of the "bull" at 11.0 o'clock, making a range score of 33.

Going back to the 600 yards with 68 to his credit he once again found the bulls-eye with his sighting shot and only dropped one point after, finishing with an excellent 34, thus making a grand total of 102.

His card showed :

300 yds	✓	5.5.5.5.5.5.5	= 35
500 "	✓	5.5.5.4.5.5.4	= 33
600 "	✓	5.5.5.4.5.5.5	= 34

Total 102.

REMARKABLE SHOOTING - (from page 1.)  
Just four weeks ago R.L. Robson equalled the then record score of 101.

J.R. Gleadell has also been in good form this season. He has averaged 95.6 for his five shoots & since receiving his newly re-packed rifle by the last cargo-boat has made 97, 98, 97 respectively on each visit to the range.

#### ITALIAN ADOWA HERO RECALLED.

A Rome message states that the Italians have learned with a shock that General Debono, the hero of Adowa and Makalle, and the High Commissioner in East Africa for Italy besides also being the Commander-in-Chief of the Italian forces in Abyssinia, has been recalled.

Debono has been given the rank of Marshal of Italy.

Marshal Badoglio, Chief of the Italian General Staff has been appointed to take Debono's position.

The Sunday Times correspondent however states that the change has not been unexpected in some military circles, it is believed, due to the realisation of the stern tasks ahead in Abyssinia.

General Alfredo Guzzani, the Commander of the Rome territorial division, has been appointed Vice-Governor of Eritrea in place of Signor Gabelli, a civil servant.

#### ITALY AND SANCTIONS.

A Saturday message from Rome reported that the Italian Grand Council was meeting late that evening to discuss the measures necessary to meet the sanctions.

Signor Grande, the Italian Ambassador in London, and General Ballo, the Governor of Libya, attended.

It was understood that the Duce would make a pronouncement after the meeting.

#### THE GENERAL ELECTION.

On Saturday night the Government majority as a result of the General Election was given as 244.

The returns were given as : - Government 427, Opposition 183.

It is expected that when the last of the results are in the Government majority will be 250.

Sir Thomas Rostotham, the National Labour M.P. for Crmskirk, Lancashire, is considering giving up his seat for Mr Ramsay MacDonald or his son, Mr Malcolm MacDonald.

#### THE EGYPTIAN DISTURBANCES.

Fresh skirmishes have occurred in Cairo between students and the police. On Saturday a number of students were injured, one fatally. The death roll now stands at 7.

On Saturday afternoon 4,000 students met and decided to remain on strike.

Meanwhile the Wafd Executive Committee has issued a protest against Sir Samuel Hoare's Guildhall speech and has condemned the Egyptian Ministry for remaining in office and for the action taken to deal with the riots.

The national bar has decided that all lawyers shall strike on Thursday and send a protest to the League of Nations.

#### SOUTHERN ENGLAND FLOODS.

The rains of the past week have swollen the Thames and 5,000 million gallons is the rate of flow now this being three times the average for the past four months.

The roads and countryside in many places in Southern England have been flooded.

EGYPTIAN AIR BAN.

A message from Cairo states that the Egyptian government has imposed an air ban on the movement of Italian troops by air over Egyptian territory in civil aeroplanes.

The ban also applies to Abyssinia.

PROMINENT INDIAN FIRED AT.

According to a press message from Feshawar Sir Abdur Rahim, the President of the Indian Legislative Assembly who is visiting the North-West frontier was fired on three times on Saturday when returning from Hohat.

Sir Abdur Rahim was unhurt although the bullets pierced the bonnet of the car.

There have been no arrests so far.

JAPANESE DELEGATIONFOR NAVAL CONFERENCE.

The Japanese delegation for the Naval Conference in London left Tokio on Saturday.

Admiral Nagano, the chief delegate, recalled before they left that the Japanese naval policy aimed at establishing a maximum common limit of naval strength fixed in accordance with the lowest possible aggregate tonnage.

It also aimed, he said, at a stringent reduction or the abolition of offensive armaments while regulating defensive armaments in order to create a situation freed from the threats of aggression.

NEW DUTCH AIR ORDER.

The Dutch government has placed orders for a new fighter plane from the Fokker firm, the machine being two-engined, carrying a crew of four. Ten large bombs are to be carried with three machine guns. The plane's speed is to be 223 miles an hour.

BRAZILIAN CONGRATULATIONS.

A message from Rio de Janeiro states that the Brazilian Chamber of Deputies has passed a resolution congratulating the New Zealander, Miss Jean Batten, on being the first woman to fly the South Atlantic.

KING ALEXANDER MURDER TRIAL.

One of the most sensational trials for years commences to-day (Monday) at Aix-en-Provence, when three Croats are to be charged with the murder of King Alexander of Yugo-Slavia and M. Louis Barthou, the French Foreign Minister on the 9th of October, 1934.

The court resembles a fortress:

There are special barriers round the courts; wire railings barrier off the main stairway; there is a fence protecting the main hall and a wire netting covering over all the windows of the court.

Six hundred mobile guards and many fixed bayonets are to surround the court.

These measures are taken for fear of the Croat terrorist organisation "Ousiacha" attempting to free its comrades.

ITALIANS MEET WITHRESISTENCE.

According to a report from Diredawa the Italian advance has met with its first serious resistance in the broken country round Sasabanch.

The Abyssinians have utilised the past weeks in constructing "lake traps" and four tanks have already been captured.

The Italians have brought up their heavy reinforcements with tanks and armoured cars and fresh native levies.

PARIS SHOOTINGS.

Twenty persons have been injured with one gravely by pistol shots in a clash between the French Fascists and opponents.

### STANLEY BOY SCOUTS

#### LOCAL ASSOCIATION.

The Annual General Meeting of the Stanley Boy Scouts Local Association was held at the Scout Headquarters on Wednesday last, the 13th instant, when the Hon. R.L. Cheverton (Scout Commissioner) presided. Among others present were Pastor W.F. McWhan, Messrs V.J. Lellman, C. Evans, F. Howatt, J. Barnes & H. Thomas.

After the Sea Rover and Scout reports had been given the Financial report was presented by Mr V.J. Lellman.

The officers elected for the ensuing year were : Chairman - Pastor W.F. McWhan; Hon. Secretary and Hon. Treasurer - Mr V.J. Lellman;

while a number of gentlemen were nominated for the Committee.

With the departure of Mr H. Thomas from the Colony it was unanimously agreed that his position as Scoutmaster should be taken by Mr C. Evans (Assistant Sea Rover Leader) upon the latter kindly assenting.

### THE LATE MRS E.A. BETTS.

It is with deep regret that we have to record the death of Mrs Elizabeth Ann Betts, formerly of Pebble Island, who passed away at the house of her daughter Mrs G.J. Lyse in Stanley on Friday last, aged 70.

Mrs Betts who was the wife of Mr J.C. Betts, was seven years old when she came to the Falklands, having left England in November 1872 & arriving in the Islands the following February in the "Sea Witch", the master being Captain Thomas.

She was the daughter of the late Mr & Mrs N. Kiddle and with them went to Port Stephens for ten years. She returned to Stanley and at the age of seventeen married Mr Betts and then, with her husband, she went to Roy Cove for two years and then lived for fifty years on Pebble Island. She is survived by her husband, four children, 12 grandchildren and one great grandchild.

The funeral took place on yesterday, the service being held in the Cathedral Church conducted by the Rev. Dr. R.T. Wade (Dean-elect.)

The chief mourners were - Mr J.C. Betts (husband), Mrs G.J. Lyse (daughter), Mrs A. Kiddle (sister-in-law), Mr C.S. Betts (grandson), Miss L.M. Lyse (granddaughter), Mrs J.J. Nielsen (sister), Mr A. Kiddle (brother), Mrs J. Peck (sister), Mr Albert Kiddle (brother), Mr F. Kiddle (brother), Mrs H. Jennings (niece), Mrs Albert Kiddle (sister-in-law) and Mr G.J. Lyse (son-in-law.)

Mr Betts and family wish to express their sincere thanks to the Hospital Staff, the Officers and "men of the s.s. Lafonia and all kind friends for the wreaths and flowers sent and for the kind letters of sympathy received.

#### POPPY DANCE.

A very successful dance was held in the Town Hall on Friday last when the proceeds amounting to about £8 were devoted to the Earl Haig Appeal Fund. A special word of thanks is due to the bands who gave their services voluntarily as well as to those who so kindly provided the refreshments.

#### SALE OF POPPIES IN STANLEY.

As a result of the Poppy Day sales on the 11th of November the following sums were collected in Stanley, making a total of £19.17.3 which with the contribution from the special dance in aid of the Fund brings the total up to £27.17.3d.

In connection with the dance the amount collected at the door came to £8.4.6 while donations (12/6) and the sale of cakes (15/6) brought the total up to £9.12.6d. The expenses (Hire of Hall & flags) came to £1.12.6. leaving a balance of £8.0.0.

#### ELECTION SURPRISE.

When the result of the election was announced late on Saturday evening, a good deal of surprise was caused at the return to Parliament of one of the members for Oxford University - Mr H.P. Herbert, the well-known novelist and humorous writer, who has closely associated himself with the demand for the reform of divorce and the licensing laws.

Oxford has hitherto been represented by two Conservatives and Mr Herbert's candidature as an Independent was generally taken light-heartedly.

In the result Lord Hugh Cecil, (Conservative) headed the poll and Mr Herbert was second with a very large majority over the other Conservative candidate.

The Scottish Socialist party has decided to present a petition to Court asking for another poll in one of the Glasgow divisions where, after a recount, the majority of Mr Walter Elliott, the Conservative Minister of Agriculture, was raised from 2 to 149 - it being discovered that one of the ballot boxes had not been included in the first count.

The political future of Mr Ramsay MacDonald, who was defeated at Seaham Harbour, is much discussed in the newspapers and the possibility of another seat being vacated to enable the ex-Premier to contest it, is freely canvassed.

These anticipations, however, are apparently to be treated with reserve as no such decision is likely until the whole situation has been examined by the Prime Minister.

#### ENGLAND'S FLOODS.

THE JAPANESE BUDGET.

A message from Tokio reports that the expenditure is estimated at 2,800 million yen as compared with the previous budget of 2,190,644,000.

The Minister of Finance, Takahashi, is insisting on the new Extraordinary Army and Navy expenditure formerly estimated at 340 million being halved.

NEW LINER RECORD.

The new F. & O. 24,000-ton liner "Strathmore" on her first voyage to India has beaten the previous record from Genoa to Bombay.

The "Strathmore's" average speed was just over twenty knots.

NEW IMPERIAL AIRWAYS CRAFT.

As a result of the continuous growth of the Imperial Airways Services the company has under construction or on order twenty-nine flying boats and twelve landplanes.

The new aircraft are intended for use on Empire routes and will have a carrying capacity of from three and a half to five tons according to the fuel load.

The designs embody a standard of passenger comfort superior to anything yet provided. There will be sleeping accommodation to allow of continuous day and night flying.

The speed of the new mainline aircraft operating to a twenty-four hours schedule will enable Imperial Airways to fly between London and Australia in seven days, to South Africa in four and to India in three.

I.C.I. LEGAL WIN.

A London message states that the Court of Chancery has decided in favour of Imperial Chemical Industries making a £5 million capital cut against opposing shareholders.

Ottawa The Canadian wheat crop is estimated to be 2 million bushels below the 1934 estimate.

DUTCH RUBBER MOVE.

According to a Rotterdam message the Dutch Indies government are buying sufficient rubber export licences to keep 20,000 tons off the market at a cost of five and a half million florins.

ROAD ACCIDENTS IN BRITAIN.

The road accident figures in Britain last week were 133 killed, and 4,321 injured, as compared with 143 killed and 4,132 injured in the corresponding period last year.

MORE CONGRATULATIONS

The Christening of the infant son of the Duke and Duchess of Kent will take place in the private chapel at Buckingham Palace on the afternoon of the 20th of November (to-morrow.)

It is understood that four names will be given to the baby prince - Edward, George, Nicholas and Patrick.

U.S.A. LOOKING TO A BALANCED

BUDGET.

It is reported from Washington that instructions have been given to reduce the Federal expenditure for 1937 by 500 million dollars in addition to the sum of nearly 1,500 million by which the 1936 estimates were recently reduced.

If hopes are realised this is expected to prepare the way for a balanced budget in 1938.

CABINET RESHUFFLE PROBABLE.

The Daily Telegraph states that the Premier has decided that there will be small changes in the Cabinet although a reshuffle is probable early in the new year.

Mr Ramsay MacDonald has definitely decided not to accept a peerage and prefers, if a seat can be found, that his son should take the opportunity of election rather than himself.

Sir Samuel Hoare is remaining Foreign Secretary while Mr Anthony Eden continues in collaboration with the League matters.

The Secretary for Air Sir Philip Cunliffe-Lister and the First Lord of the Admiralty, Sir Bolton Eyres Monsell, are being promoted to the House of Lords but are retaining their present posts although the latter is probably retiring when the pending naval negotiations are completed.

The Secretary for War, Viscount Halifax, is to be retained in some other capacity and a successor will be appointed from the House of Commons.

S.S.A. PROGRAMME ALTERATIONS.

At a recent meeting of the Executive Committee of the Stanley Sports Association the following alterations were made in the Sports Programme for this Christmas.

On the first day Race No. 8 has been deleted and in its place has been inserted an F.I.B. 500 yards event. No. 8 was a Troop Race.

Race No. 16 - Open 900 yards - has also been deleted.

On the Second day there is an alteration in the conditions and nature of Race No. 13 - Trotting Race, 2 Miles. The trophy presented by J.E. Hamilton, Esq., for this event will be competed for to be won outright and the rule relating to it has been altered so that all horses, whether previous winners or not will be eligible to compete.

#### BRITISH SOMALILAND INCIDENT.

According to a message from Djibouti, the capital of French Somaliland, it is learned that native Italian irregulars have crossed the frontier of British Somaliland and seized 800 camels.

It is understood that the border patrols have been strengthened near Harrar where it is anticipated that refugees might attempt to enter British territory.

#### GERMAN DOCTOR ARRESTED

##### AT HARWICH.

##### Espionage Charges.

The War Office announces the arrest of Doctor Hermann Gortz, a German doctor, at Harwich on November 8, on charges of conspiring with another and committing offences against the Official Secrets' Act in the South Kent area.

After appearing before the magistrates twice Gortz has been remanded until Monday next when the proceedings will be held in camera.

It is understood that the charges refer to the R.A.F. Aerodrome at Manston.

The German Embassy is without any knowledge of the accused while Reuter's in Berlin has been informed that Germans have been forbidden to undertake espionage and in committing such acts they do so only on their own responsibility.

The German press does not report the arrest.

#### THE AIX-EN-FROENCE TRIAL

The trial of six Croats charged with complicity in the assassination of the Jugo-Slavian King Alexander opened on Monday with dramatic cut-thrusts by counsel.

Queen Marie of Rumania has withdrawn from the case as a civil person, "placing full and complete confidence in French justice."

The second day (Tuesday) was marked by further dramatic incidents which commenced early when the Judge, the counsel for the defence and the public prosecutor harangued each other in violent terms.

After a considerable uproar the prosecutor demanded the exclusion from the court and expulsion from the bar of the counsel for the defence - Maitre Desbons, states the Daily Telegraph correspondent and, subsequent to the suspension of the sitting the judge announced that the court had decided to strike Desbons from the Roll of Baristers for abusive language to a magistrate.

Desbons, who was ejected from the court by armed guards, resisted violently.

The trial was suspended but meanwhile the prisoners have threatened a hunger strike.

#### THE NAVAL CONFERENCE.

According to news from London the Irish Free State has formally accepted the invitation to the Naval Conference and will be represented by Mr Dulanty, High Commissioner in London.

Washington announces that the United States delegation will consist of Mr Norman Davis, Under Secretary of State, Mr William Phillips and Admiral W.H. Standley who will be instructed to oppose navies costing more than those of to-day.

#### NO 1935 PEACE PRIZE.

The Nobel Committee in Oslo has decided that no peace prize is to be awarded for 1935.

LEGISLATIVE COUNCIL.

We publish herewith the following Message from His Excellency the Governor to the Members of the Legislative Council on the occasion of the Meeting of the Council held on the 18th of November, 1935 : -

"Honourable Members of Legislative Council,

"The Estimates of Revenue and Expenditure of the Colony and its Dependencies for the year 1936 will be laid on the table to-day together with an explanatory memorandum prepared by the Colonial Secretary.

"I propose to make a few general remarks on the financial situation of the Colony which should enable Honourable Members to grasp the position as a whole.

"It will be observed that it is estimated that the surplus of Assets over Liabilities on the 31st December next will amount to £309,629 or some £2,623 more than the surplus at the end of last year. This appears to be satisfactory but the amount is arrived at by the addition of £850 in respect of land sales and of an estimated surplus of £1,773 in the operations of the current year. The latter figure is however dependent upon the approval of the Secretary of State to the transfer of at least £2,266 from the Research Fund to the revenue of the Colony in order to make up deficiencies in the contribution from the Dependencies in respect of the years 1933 and 1934.

"It is probable that unless the contribution from the Dependencies is paid in full for the last two years and for 1935 expenditure will in the current year exceed revenue.

"Application has been made to the Secretary of State to sanction the payment under reference.

"It is within the knowledge of Honourable Members that the Colony cannot count upon a continuance of the contributions from the Dependencies even in the reduced amount of £8,000 which the Secretary of State has approved for 1935 since the revenue from the Dependencies no longer suffice to maintain the payment after defraying the cost of local expenditure. The sums in the Research Fund appear however to be far in excess of any expenditure likely to be required during the course of the next seven years

to complete the work of the Committee on Research and Development of the whaling industry.

"I have drawn the attention of the Secretary of State to the unfortunate financial effect that would result from a withdrawal or reduction in the revenue from the Dependencies having particular regard to the labour situation, for so long as it is not possible for the Government to provide employment of a nature that is justifiable on economic grounds for the surplus population in Stanley.

"I have no doubt that my appeal will receive sympathetic consideration, but it is none the less necessary to find means for reducing the comparatively high cost of the administration. The Treasurer who has recently arrived in the Colony will be charged during the course of the coming year with the duty of making a close investigation into the expenditure side of the accounts, including the possibilities of reduction in staff with a view to making such economies as will enable the accounts to balance without dependence on extraneous sources of revenue in the measure that has been possible for the past ten years.

"It will be seen from the Estimates of revenue that there have been few changes. Officials in occupation of Government quarters will in future be required to pay for water at the same rates as private occupiers. The families and households of officials on the permanent staff will no longer receive free drugs and medicines. There are some increases of revenue under both the relevant heads but these are mainly due to an extension of the number of beds in the hospital and to the proposal to improve the water supply and bring it to the houses which cannot be reached by the existing supply.

"The only new works of importance on the expenditure side are the provision of £3,000 for the new water supply and of £1,000 for a broadcasting studio and offices for the Chief Electrician.

"It is earnestly hoped that there may be a revival of prosperity in the farming industry upon which the life of the whole community depends. To expedite improvements here and to assist the farmer the services of an expert Stock Adviser are being sought for in New Zealand. It is proposed that the officer be appointed for three years only in the first place. As the scheme is in the nature of an experiment the cost will in accordance with past practice be borne in the first place by the Land Sales Fund.

"Honourable Members will echo my hope that the Colony may in the year to come witness an increase in wool prices, renewed vigour and success on the farms and in particular that work may be found for those who now suffer through lack of permanent employment."

#### "RADIO PRIEST" ATTACKS

##### AGAIN.

A message from Detroit reports that Father Coughlin, the U.S.A. "Radio Priest" has returned to the attack on the New Deal, denouncing from the pulpit President Roosevelt's attitude on labour, agriculture and money.

Simultaneously from Michigan, Mr Kellogg, a cereal food manufacturer, has announced a 12½ per cent wage increase while continuing the six-hour day inaugurated five years ago.

#### WOMAN 100 ENVIES MODERN GIRL.

Mrs Elizabeth Jancey, of Ashberton, England, who has just celebrated her 100th birthday, says that many of the modern girls think only of dressing and having a good time. "Many of them are afraid to dirty their hands," she said. "They won't clean a grate without wearing gloves. Still, if I were a girl again I should just be like what they are. It is much easier and much more pleasant."

#### BRITAIN & THE SANCTIONS.

The British reply to the Italian note of protest against Sanctions has been communicated for their information to other governments participating in sanctions, many of which had expressed the desire for information regarding the lines of the British and French replies.

The British reply will be handed to Italy on Friday. It is understood that the texts of the replies will be published on Saturday morning.

#### B.B.C. DECLINE MARCONI OFFER.

In accordance with the policy to confine their broadcasts on the Italo-Abyssinian dispute to statements of fact, occasionally amplified by reports from their own observer at Geneva or from the British Minister attending the League of Nations meeting there, the British Broadcasting Corporation have felt regretfully obliged to decline the offer of Marconi to broadcast a statement on the dispute during his visit to England in the near future.

#### ENGLAND'S FLOODS RECEDING.

In most of the flooded areas in England the waters receded yesterday and the subsequent rains have not been sufficient to increase anxiety.

The weather forecasts, however, indicate the prospect of rain at times in all districts during the next two days.

#### BOXING.

It is understood that Jack Petersen will fight Len Harvey in January next.

London It is understood from Berlin that the British government has waived the certificates of origin for German imports.

THE FALKLANDS

AND

THE SOUTH AUSTRALIAN CENTENARY.

At the Conclusion of the Legis-  
 lative Council Meeting on Monday last  
 His Excellency the Governor addressed  
 the following remarks to the Members :

"I understand we have been asked  
 to contribute to the South Australian  
 Centenary Exhibition and I do not think  
 this Colony should let any chance go  
 by to let its products be known.

"So far I am sending some horse  
 gear, some photographs which the Hon.  
 G. Roberts has kindly prepared, and  
 stuffed penguins.

"Two penguins have been pre-  
 pared by Mr A.G. Bennett and if mem-  
 bers can think of any other contri-  
 bution which can be made for the  
 Falkland Islands' representation at  
 this Exhibition I shall be very glad  
 to receive their suggestions as time  
 is getting short and any exhibit  
 should go this or the following mail."

WAR NEWS AND NOTES.

According to the Daily Telegraph correspondent in Addis Ababa the Abyssinian General Ayela, with 1,000 picked marksmen, is holding the pass from Adowa to the hills, inflicting heavy losses on the Italians.

Meanwhile the major Abyssinian operations have been delayed until December.

The officer commanding the troops which captured six tanks has made a personal report and has detailed successful operations to cut off mechanised equipment which is no longer feared.

The casualties reported from the South Makalle bombing are reported to be ten killed and thirty wounded.

Considerable fever is reported in the Ogaden region while a Cairo message states that 1,207 homeward bound sick Italians have passed through the Suez Canal during the last few days.

Wednesday's Rome communique only mentioned that round-up actions and aerial reconnaissances had taken place with General Debono's army.

WAR NEWS AND NOTES.

(Continued from page 2.)

The Sudan has applied arms, munitions, transport and animal sanctions while an economic ban is expected shortly.

- o -

A Khartoum message states that the crews of two Greek vessels chartered by the Italians to load petrol at Suez have gone on strike.

- o -

It is reported from Addis Ababa that the Emperor has returned to the capital after a visit to the war zones, and after having conferred with his leaders at Diredawa, Harrar and Jijiga relative to future defence plans.

- o -

One report states that the Emperor's plane was sighted and chased by two Italian planes which tried to attack it, but they could not keep up with it and the Emperor escaped with ease.

- o -

A Geneva message reports that the Committee of Eighteen has been summoned to meet next Friday to consider the extension of sanctionary measures to include oil, coal and iron,

- o -

The Daily Telegraph correspondent states that the United States is giving the lead in this direction and a Washington message states that the Government has called upon the oil industry to halt voluntarily all shipments to Italy with the Federal Oil Administrator delivering notices to this effect to-day (Friday.)

- o -

An Italian decree now issued prohibits sanctionist foreigners from withdrawing money from the banks without the permission of the Bank of Italy.

The Duce is releasing 100,000 soldiers for landwork to combat the sanction situation.

HOPES FOR KINGSFORD-SMITH.

It is understood that hopes for the safety of Sir Charles Kingsford Smith and his companion who have now been missing for a number of days have been revived.

A steamer plying in the Bay of Bengal is reported to have seen flares sent up from an small island. The captain however was unable to approach the island owing to the weather conditions being so rough but he reported his observations and to-day (Friday) a seaplane is proceeding to the place to investigate.

THE KING ALEXANDERASSASSINATION TRIAL.

It is understood from Paris that the trial in connections with the terrorists arraigned for complicity in the assassination of King Alexander of Jugo-Slavia, has been adjourned until January next.

This course has had to be taken in view of the accused men refusing to accept the counsel nominated by the Court in the place of Maitre Destons.

THE LATE EARL JELlicoe.

Their Majesties the King and Queen have sent a telegram of sympathy to Lady Jellicoe and a Court Circular issued from Buckingham Palace contains the following notable tribute by the King to the memory of Lord Jellicoe

"The King has learned with profound sorrow of the death of Admiral of the Fleet Earl Jellicoe who will for all time be remembered as the Commander of the Grand Fleet during a long and critical period of the war.  
 "The King knows that the loss of this great seaman will be deeply felt throughout the whole Empire and not least by the people of New Zealand, the Royal Navy and Ex-servicemen whose confidence and affection he quickly won by his devotion to their welfare."

Earl Jellicoe who was 75 years of age, was Commander-in-Chief of the Grand Fleet 1914/16.

The Archbishop of Canterbury will take part in the funeral service which will be held on Monday at St Paul's Cathedral. The burial will take place in the crypt of the Cathedral close to the sarcophagus which contains the coffin of Lord Nelson.

It is announced from Berlin that Vice-Admiral Forster, Commander-in-Chief of the High Seas Fleet, will represent the German Navy at the funeral.

During the funeral the ships of the German Fleet will carry flags at half-mast.

#### SIR CHARLES KINGSFORD-SMITH.

The "Quantas" air-liner has left Singapore to search Sayer Island in the Bay of Bengal where flares have been reported to have been seen by a passing steamer and which may indicate that Sir Charles Kingsford-Smith and his companion are safe after being missing for a number of days.

#### SHIPS COLLIDE IN FOG.

In a thick fog yesterday morning the small Norwegian steamer "Tres" of 946 tons was in collision with the Guernsey steamer "Lanresse".

The "Lanresse" was badly holed and sank but the crew with the exception of one man who is missing were saved and were taken on board the Brake Lightship.

A lifeboat is searching for the missing man.

The "Tres" reported that she is badly damaged and leaking. She is making for port.

#### HIS MAJESTY'S CHRISTMAS MESSAGE.

His Majesty the King will broadcast his Christmas Day Message to the people of the Empire for the fourth year in succession.

#### THE PRINCE OF WALES.

It is officially announced from Buckingham Palace that His Royal Highness the Prince of Wales will represent His Majesty the King at the funeral of Earl Jellicoe.

#### BRITAIN & ITALY'S NOTE.

Signor Grandi, the Italian Ambassador in London, called at the Foreign Office yesterday morning and was handed by Sir Samuel Hoare the British reply to the Italian Government's note protesting against the action of the League States in applying Sanctions as a result of Italy's resort to war in Abyssinia in disregard of her Covenants.

The British Note handed to the Italian Ambassador on Friday refers to the Italian Note of the 11th of November in which the Italian government thought fit to draw attention to the responsibility entailed by putting into force the measures proposed by the League's Committee of Coordination and continues as follows :

"In reply to the general observations advanced by the Italian government, His Majesty's government feel bound to emphasise that having themselves taken part in the discussions at Geneva they are in a position to bear witness to the constant anxiety evidenced alike by the Council, Assembly and by other organs of the League of Nations, fully conscious as they have been of the gravity of their responsibilities, to carry out their duties in a spirit of impartiality and concede the utmost possible weight to the legitimate interests of Italy.

"His Majesty's government are so convinced of the accuracy of this estimate of work already performed by the League of Nations in connexion with the Italo-Abyssinian dispute that they feel that no useful purpose would be served by reopening or recapitulating discussions of questions raised by the Italian Note.

"His Majesty's government must therefore content themselves by recalling that on the 7th of October last the delegates of all the governments represented on the Council with

the exception of the Italian delegate, were confronted with the task of applying the provisions of the Covenant which are mandatory in character to the facts which were not in dispute and felt themselves obliged to affirm that the Italian government had had recourse to war in violation of Article Twelve.

"Strong as is the feeling of friendship towards Italy which inspires the United Kingdom, His Majesty's Government felt themselves bound to assent to this decision & accept the consequences which must inevitably ensue.

"His Majesty's Government do not conceal their anxiety to facilitate so far as lies in their power as members of the League of Nations and at the earliest possible moment a settlement of the regrettable conflict which is now in progress. But they are unable wholly to pass over the implication contained in the last paragraph of Your Excellency's Note under reply which refers to 'Free and sovereign judgment' which His Majesty's government are alleged to be at liberty to apply to the determination of their course of action.

"His Majesty's Government in subscribing to the Covenant did not abandon or renounce their sovereign judgment but undertook to exercise it thenceforth in accordance with the obligations of that instrument. No other attitude is open to them and they would naturally desire to see the Italian government place a similar construction on their own adherence to the Covenant."

#### MR BALDWIN'S GOVERNMENT.

Speculations with regard to Mr Baldwin's reconstruction of his government are brought to an end by the announcement of the following appointments :

Secretary of Dominions - Mr Malcolm MacDonald; Secretary of the Colonies - Mr J.H. Thomas, (Mr Malcolm MacDonald and Mr Thomas thus change places); Secretary for War - Mr Duff Cooper who has been Financial Secretary to the Treasury and is a newcomer to the Cabinet (the King has approved that he be sworn as a member of the Privy Council); Financial Secretary to the Treasury - Mr William Shepherd Morrison who for the past five years has been

chairman of the Conservative Private Members' Committee and was one of the members returned unopposed at the election.

Lord Londonderry vacates the position of Lord Privy Seal which he has held since he left the Air Ministry in June.

Mr Noel Skelton, the Under-Secretary of Scotland died at Edinburgh yesterday morning at the age of 55. Mr Skelton was one of the Conservative candidates for the Scottish combined Universities, returning three members and which is the only constituency for which the result of the election is not yet known.

The result will be announced on Monday and if Skelton, who was returned unopposed in 1931, is elected there will be an immediate vacancy.

Two members of the Cabinet, Mr Ramsay MacDonald, the Lord President of Council, and his son, Mr Malcolm MacDonald who has now been appointed Secretary for the Dominions, lost their seats in the election and newspapers canvass the possibility that one or the other, in the event of a vacancy, will be nominated in a by-election.

#### AIR FORCE EXPANSION.

According to a London message the Air Force expansion programme is being amended by an additional 250 first line aircraft bringing the total strength to 2,190 machines of which 1,500 will be for home defence and the remainder for the fleet air-arm and overseas units.

The personnel needed is approximately 3,000 of all grades.

#### DE VALERA DENIAL.

A Dublin message states that de Valera in answering a question in the Dail denied that negotiations were proceeding between the Free State and Britain for the termination of the economic war between the two countries.

New York : The Herald-Tribune describes the Bank of Italy's failure to publish a statement since October 20th as a disturbing addition to the long list of financial danger signals recently run up by Italy.

GIRL KILLS TIGER.

Ma Sein, a 20-year-old Shan girl of the Momeik district of Burma, was cutting vegetables near her home recently when suddenly she heard a snarl behind her.

As she turned, a tiger sprang at her. In a flash the girl plunged her knife into the animal's side. It fell dead.

The only injury the girl sustained was a small wound on the head.

WHY THE TRAIN WENT BACK.

The Chicago, Burlington and Quincy Morning Flier was thundering along when, to the surprise of the passengers, it suddenly pulled up.

Then the train started to move backwards and surprise gave place to uneasiness when the train had travelled in reverse for nine miles.

"We have just discovered," said the brakeman in answer to the passengers' anxious enquiries, "that the conductor missed the train."

165-YEAR-OLD BANK NOTES.

Two samples of paper currency issued by British Colonies in America before they became American States, have just come to light at Cincinnati, Ohio.

They are a Maryland note for six dollars, entitling the holder to receive "Bills of exchange payable in London with gold or silver, at the rate of four shillings and sixpence for each dollar," dated 1770, and a New Jersey bill, issued in 1776 for twelve shillings.

Both bear the warning: "To counterfeit is death."

The bills were found in a bundle of old records in the Cincinnati Board of Education Library. How they got there is a mystery, since at the time they were issued Cincinnati was not even a trading station, and few white men had penetrated into that part of the Red Indians' territory.

KISS HEALS SNAKE BITE.

Doctors in Armenti are greatly interested in reports that a woman of a small town near Erivan is curing snake bites by kissing the bites.

At first the rumours were doubted, but additional reports indicated their veracity.

Medical men see the possibility of a method of making everyone immune through a study of her case.

THIEF IN HOT WATER.

One of three thieves who had successfully burgled a private bathing establishment at Helieh, near Cairo, could not resist the temptation of having a good hot bath before he left.

He told his two companions to wait for him in the street while he undressed and indulged in the luxury of a warm perfumed orgy of soapsuds. He then dressed himself, picked up his stolen booty, including a child's tricycle, and climbed out of the window into the arms of a waiting policeman. His friends meanwhile had managed to escape.

HAIL KILLS WILD BEASTS.

The worst hailstorm ever known in the vicinity of Pieterburg, South Africa, wrecked houses and killed animals, according to reports.

Buildings were blown down, a store was wrecked and the veld was strewn with dead birds and buck, even zebra and koodoo being killed.

The next day the hail was still lying three feet deep.

Thousands of trees were uprooted and branches were twisted and wrenched from the mighty cream of tartar trees - an unheard of occurrence.

A Kimberley correspondent reports that a devastating thunderstorm, accompanied by hailstones the size of ducks eggs, recently passed over the farm of Hendrik Kruger, near Postmasburg. One hundred and forty sheep were killed.

SPEECH BY ANTHONY EDEN.

In a speech at Edinburgh last night Anthony Eden, Minister for League of Nations Affairs said, that the League in the past few months had been passing through a critical and testing time. The League had faced its ordeal with firmness and indeed with greater measures of success than many would have believed possible. The fact that the machine had worked as a whole with such smoothness was decisive testimony to unanimity of the nations and to their desire to cooperate in work which they believed to be in final interests of the world's peace. There was nothing the British Government would more welcome than a settlement of the dispute.

News has been received that the s.s. Lovart arrived at Fox Bay Saturday morning.

THE LATE EARL JELlicOE.

Arrangements have been completed for the funeral service to-day (Monday) of Admiral of the Fleet, Earl Jellicoe in Saint Paul's Cathedral at which the Prince of Wales will represent His Majesty the King, the Duke of York will also attend. The body of Lord Jellicoe is resting in Henry VII Chapel of Westminster Abbey.

As a tribute to the dead Admiral the German Government has given orders that all German warships will fly their flags at half-mast during the period of the funeral.

2,500 TROOPS SURRENDER.

In the Italian war bulletin number fifty-three, claims are made that wholesale submissions and desertions to the Italian side are taking place in the Provence of Ogaden. The report adds that the Chiefs, Hassen Haile and Abbel Kerin have surrendered with 2,500 troops, rifles and ammunition. This report is denied at the Abyssinian Headquarters in London.

ALL BLACK'S FIRST MATCH.

The first International Rugby Match this season was played at Murrayfield on Saturday between New Zealand All Blacks and Scotland. Sixty thousand spectators watched the match which resulted in a win for the All Blacks who scored eighteen points to Scotland's eight points.

NAVAL CONFERENCE IN LONDON.

It is learned that in the forthcoming Naval Conference, Great Britain will ask for limitation of tonnage on all classes of warcraft. It is virtually certain that the existing treaty limits will not be increased and if Great Britain carries her point they will be substantially decreased.

The United States of America will be represented at the Conference and on Saturday President Roosevelt informed the Press Conference at Warm Springs that the construction of new American battleships would be temporarily held up, but the personnel of the navy would be gradually increased to 100,000.

A MILLION SUBJECTS READYTO GIVE KING A HEARTY WELCOME.

A message from Athens states that, all Greece is looking forward with feverish anticipation to the King's return. According to the latest reports the cruiser "Helli" with the King on board left Brindisi Saturday afternoon after twenty-four hours delay caused by terrific gales which swept over the south coast on Friday.

The cruiser is expected to arrive on Monday at the Port of Palaio Phaleron near Piraeus where the Monarch will be ceremoniously welcomed on Greek soil.

Tens of thousands of people are meanwhile flocking to the capital from all parts of the country in special trains, motor buses and a large variety of other vehicles in order to witness the King's triumphant entry in his capital. All hotels and lodgings were already overcrowded on Saturday and it is estimated that about one million Greeks will be present at Athens to-day to greet the returning sovereign. The King addressed a telegram to the Greek Government expressing his deep regret at the delay caused by storms and requesting that arrangements made for his reception should not be modified but merely postponed for one day.

MUSSOLINI'S SANCTION NOTES.

According to the Sunday Times correspondent, the official comments on replies to Mussolini's notes against sanctions are withheld with the press only reproducing unfavourable comments from continental press. It is understood that the Duce is determined to refuse all negotiations for a settlement until sanctions are abolished and this is reflected in the Italian boycott of Geneva, having informed the International Labour Office that a delegation will not attend the Committee Meeting convened on maritime questions while also voiding the Sub-Committee meeting relative to the Council seats.

From Washington, State Secretary Hull announced that cotton will be placed in the same category as oil if shipments continue to show an increase to Italy, but oil companies consider the only means of checking oil shipments is a government embargo.

The Russian reply to the Italian note stresses adherence to the League's decisions outpointing that there is no animosity to Italy but as a signatory to the Covenant she endorses League action hoping that there will soon be a cessation of hostilities.

FLOODS IN ITALY.

Reports from Reggio indicate floods in southern Italy and Sicily which resulted in 70 deaths and damage estimated at 25 million lire. The floods followed 24 hours of steady rain carrying away houses, crops and trees involving many Reggio residents. All telegraph communications were severed, while the Messina area was further desolated by a hot blast from Mount Etna with flames sweeping the slopes accompanied by earthquake shocks.

BOXING.

In a Civil Service international match Germany beat England by 4/3 wins. The Stadium Club winning the flyweights, featherweights, welter and heavies.

AIR FORCE EXPANSION.

A London message states that the Air Force expansion programme is being amended by an additional 250 first line aircraft bringing the total strength up to 2,190 machines of which 1,500 will be for Home defence and the remainder for the fleet airarm and overseas units. The personnel needed is approximately 3,000 of all grades.

WAR NEWS.

A special communique issued from Addis Ababa details a victory in the Womberta region north of Makalle on November 12th when troops under Ras Kassa Sedadat utterly defeated the Italian forces in a 11 hour battle taking many prisoners and capturing a quantity of munitions.

A Djibouti message states that Italian aircraft are maintaining constant bombing of the caravan routes between Jijiga and British Somaliland frontier to cut off the Abyssinian munition supply. There is every indication of mechanised troops moving up for the Harrar attack.

A later message reports that conflicting reports are being received from the war areas.

A Rome communique stating that central and southern Ogaden have given solemn adherence to the Italian advance but the Ethiopian Legation in London emphatically denies this.

Unofficial Abyssinian reports declare that Gorahai has been recaptured and that the Italian Somalis have mutinied. It is apparent that the Italian consolidation on the northern front is continuing but there is a lull in the fighting with the Abyssinians concentrating for offensive south south Makalle.

HOPE NOT ABANDONED FOR AIRMEN.

The search for Kingsford-Smith and his companion is being continued, but up to the time of going to press the search parties had met with no success.

DOCK STRIKE ENDED.

It is reported that the Glasgow Dockers have now resumed work. A 1,000 men have refused to work overtime to clear the accumulated shipping. The Union leaders states that the action is unofficial and they are endeavouring to prevent complications.

ANTICIPATED AGREEMENT

ON OIL SANCTIONS.

Geneva : It is anticipated that an agreement will be reached on oil sanctions on Friday, this will provide the keenest weapon against Italy, with the hope that the United States action will complete the ban and stop the present supplies to Italy which at present Roumania and Russia send 75 percent and America 25 percent, but it is considered doubtful if deviated shipments can be checked while some nations are against any sanctions intensification. The export of coal from Turkey to Italy has been stopped.

POSTPONEMENT OF MEETING  
OF SANCTIONS COMMITTEE.

Paris : Reports from Geneva state that the meeting of the Sanctions Committee will be postponed in consequence of a joint Franco-British decision. Newspapers however state that this report is inaccurate and adds that initiative in this connection had been taken exclusively by France.

Foreign newspapers are convinced that France may be involved in extremely serious discussions requiring assumption by her of the fullest responsibility.

These discussions cannot take place before the Chamber reassembles on November 29th. M. Laval is therefore bound to insist that the date of the meeting of the Sanctions Committee should not be fixed before that date.

-----  
NEWS FROM THE FRONT.

It is reported that the forces under the command of General Santinas are preparing an attack on the Dankili front where various groups of Abyssinian troops are placed with machine guns etc. near Shelticot south of Makale Italian troops advanced some distance without encountering any hostile forces. Italian airmen who were making observation flights near Katshamo were fired on by Abyssinian troops but the airmen report that they returned the shots and inflicted heavy losses on the enemy.

-----  
DISASTER IN SOUTHERN ITALY.

The full extent of the calamity which has befallen Southern Italy is now only becoming apparent now that the terrific downpour has abated. It is reported that whole villages have been swept away by the floods and many other villages have suffered severe damage.

The number of known casualties being one hundred and fifty-three. Many square miles of land are still under water.

The village of Brognaturo has been entirely cut off from the outer world owing to the floods tearing

down greater part of the bridge which links with the mainland. The marooned people made large white flags and climbed on to the remaining portion of the bridge where they made frantic signals for assistance. A rescue party eventually succeeded in throwing a line to the opposite bank and the whole population were carried one by one across the raging torrent to safety.

A great deal of destruction has been caused by masses of sand and mud being swept along by the floods and piling up against houses and when the force became too great the houses collapsed, the house-holders who had climbed on the roofs for safety were thrown into the floods and drowned.

Many roads have been entirely washed away while there is hardly one railway line and not a single telephone line in operation. A number of electricity works are also inundated so that in many towns and villages difficulties of situation have been increased by darkness.

In Messina where the streets are completely under water the entire fire alarm ceased functioning. To add to the calamity and in spite of torrents of rain fire broke out in half the flooded village of Contessa and destroyed two houses.

-----  
CIVIL AVIATION IN SOUTH AFRICA.

The Government of the Union of South Africa issued a statement on Saturday to the effect that they are willing to allow an expenditure of fifty thousand pounds per annum for the general improvement of civil aviation which they state will be of great assistance should the government at any time need a trained air force.

-----  
KINGSFORD-SMITH.

A message from Port Victoria stated that a Siamese villager had reported the finding of an aeroplane with a broken wing. The authorities are investigating the matter but at the same time hopes should not be built too high on this report.

-----  
Paris : Unconfirmed reports states that the ex-Kaiser is seriously ill.

FROM THE TIMES

OF 24th SEPTEMBER, 1935.

A paragraph from The Times  
 referring to Captain Hutchison who  
 is at present carrying out a survey  
 of Ports Stanley and William.

- 0 -

Commander C.A.G. Hutchison, who  
 has retired at his own request, with  
 the rank of captain, has been nearly  
 33 years in the Navy, during which he  
 has commanded a number of ships.

Captain Hutchison first went to  
 sea in January, 1905, as midshipman  
 of H.M.S. Victorious, second flagship  
 in the Channel Fleet. Throughout  
 the War he was in command of torpedo  
 craft, serving in torpedo boat No. 21  
 and the destroyers Vigilant, Ettrick,  
 Laverock, Mastiff, and Hope. Sub-  
 sequently he qualified in staff  
 duties, and after his promotion to  
 commander in June, 1924, was in the  
 Plans Division, Admiralty; Chief  
 Staff Officer to Rear-Admiral Tweedie  
 in the Yangtze; and staff officer  
 for operations and intelligence with  
 Admiral Tyrwhitt at the Nore. His  
 last duty afloat was in command of  
 the cruiser Vindictive in reserve.  
 A keen motor-cyclist, he was the  
 winner in 1927 of the Arbutnot  
 Auto-Cycle Trophy.

EXPLORERS MISSING.

Reports from New Zealand and  
 also New York state that the Ells-  
 worth aeroplane is believed to have  
 landed about seven hundred miles  
 inland. The expedition ship from  
 which the plane set out has had no  
 news from the airmen since Saturday  
 last.

AFTER TWENTY FIVE YEARS.

Mr Henderson who is returning to Scotland with his wife and two sons arrived in the Colony on the 24th August, 1910. He started work for the Falkland Islands Company at Findlay Harbour remaining there about one year, On leaving Findlay Harbour Mr Henderson carried on his shepherd work at Wharton Harbour for a period of nine years.

In 1921 he went on leave returning in the same year with his bride, together they have spent a happy fourteen years in the Colony, over thirteen of these years being spent at Egg Harbour where Mr Henderson was employed as a horse tamer. During the last few months of his long stay in the Colony he was in charge of the Globe Hotel.

We take this opportunity of wishing this very happy family a

bon voyage and trust that their future years in Scotland or elsewhere will prove to be as happy and prosperous or even more so than their years in the Falkland Islands.

ARMED RISING IN BRAZIL.

Rio de Janeiro : An armed rising which is believed due to communistic influences has broken out in Brazil and is centred in the seaport cities of Natal and Recife the capitals of Rio Grande Donorte and Pernambuco respectively.

The Chamber of Deputies and the Senate have authorised the proclamation of martial law and President Vargas has been granted thirty days special powers to deal with the serious situation. Troops, warships and aeroplanes were rushed to the storm centres and the artillery bombarded Afogados a suburb of Recife.

It is stated that ex-Captain Luiz Prestos a member of the Soviet Comintern is commanding the rebels who have occupied Olinda.

SANCTIONS & FRENCH CRISIS.

Geneva : Animated discussions are going on here about the announcement of the postponement of the Sanctions Conference which was originally convened for November 29th. The League of Nations Secretariat announced on Monday night that this was done at the wish of M. Laval who desires to be present himself when proposals to extend sanctions will be discussed, but he cannot leave Paris while the internal and political situation in France makes so great a claim on the Premier's time and attention.

This means as it is pointed out that the Sanctions Committee could not give a decision as long as the crisis in France continues and it is thought that the crisis will last some time. It is therefore assumed that M. Laval had other reasons as well as for wishing the Sanctions Committee decision to be postponed. M. Laval himself avowedly fears that the embargo on petroleum might in view of Italy's attitude easily provoke exceedingly grave political consequences, therefore Laval is manoeuvring to gain time while it is thought that behind the scenes difficulties of negotiations with petroleum companies would induce England all the more easily to consent to the postponement.

KING RETURNS AFTER 11 YEARS.

In practically summer weather the whole of Greece is celebrating the return of the King who disembarked from the Phaleron at 10.00 a.m. after eleven years exile. As His Majesty landed guns from warships and shore batteries saluted, sirens shrieked, bells pealed and waiting crowds became frantic. The King issued a proclamation of thanks subsequent to which the regent General Condylis and Cabinet formally tendered their resignations. Athens has become a carnival city with illuminations, decorations, fireworks and processions.

WOULD AMERICAN EMBARGOFINISH WAR.

According to the Daily Telegraph correspondent the authorities are anxiously awaiting definite news of United States intentions relative to oil and petrol supplies and military circles consider that an American embargo would finish war within two months. Experts are confounded by the high petrol consumption in Abyssinia which is apparently caused by high altitudes and road wastages.

BETWEEN THE STICKS.

On the occasion of the departure of Mr & Mrs H. Thomas for the United Kingdom a presentation was made to Mr Thomas by a committee on behalf of the Defence Force Football Club.

An Address

Mr Thomas,

It is with the greatest of pleasure that we of the Committee on behalf of the Defence Force Football Club, wish to present you to night, with a small token, in recognition of the Sportsmanlike manner in which you have always aided us during your connection with the Club.

It is with deep regret, we recognize that in losing you, The Defence Force Football Club loses one of its main pillars.

In conclusion on behalf of the members of the Club we ask you to accept this set of carvers as a mark of gratitude, and we extend to yourself and Mrs Thomas our very best wishes for a happy and prosperous future.

With this we bid you 'Adoiu' and God Speed.

- o -

We take this opportunity of adding our best wishes for the health happiness and future prosperity of Mr & Mrs Thomas.

London : The trial opened yesterday of the German Doctor Hermann Gortz who is charged with spying in the vicinity of Manston aerodrome when much evidence was taken in camera. Association with a woman who ingratiated herself with airmen for the purpose of obtaining information. Gortz pleaded not guilty averring that he was collecting material for a novel.

SAN CARLOS MINIATURE RIFLE JUBILEE CLUB.

The main event of the season, the Team Shoot for His Excellency the Governor's Prize, marked the close of the indoor competition season on the Range in the Woolshed at San Carlos on November 9th.

Three teams of 3 competed with the following results :-  
Winners. "B" RTeam G.J. Alazia (Substituted for D. McMullen.) 93.  
G.J. Alazia (Self) 91. W.F. Britton 89. Total 273.  
"C" Team. F. Betts 94. D. McKay 85. A. Hookings 78. " 257.  
"A" Team. J.F. Bonner 86. R.F. Short 86. J. Reive 81. " 253.

An additional interest to the Competition was three Jubilee Medals to be competed for, which were kindly presented by Messrs E.J. McAtasney, R. Hutchison and Percy P. Peck, of the Defence Force M.R.C. It was decided that they should be awarded to the highest individual scorer in each team, and were consequently won by Messrs. G.J. Alazia, F. Betts and R.F. Short.

In connection with "B" Team it must be explained that D. McMullen was unable to shoot as he had the misfortune to have broken his collar bone the previous week. This accident was particularly unfortunate as he was one of the most successful "shots" on the Station. However as it was impossible to postpone the competition further, it was arranged by agreement with other competitors that G.J. Alazia could shoot as his substitute, and so he therefore shot twice for "B" Team.

At the conclusion of the Competition Mrs J.F. Bonner presented His Excellency's prizes, and the Jubilee Medals.

Subsequently the Prize Winners "paid their footing" in the traditional and very satisfactory manner, and after expressions of appreciation and thanks to the Donors of the prizes the Meeting dispersed.

Meanwhile arrangements will be made for periodical outdoor practices, until such time as it is convenient to fit up the indoor range in the Woolshed again next Winter.

GOLD & SILVER FOR WAR MATERIAL.

Rome : The collection of gold, silver, bronze and iron is continuing in full swing in all parts of Italy and meeting such success that authorities liken, collection campaign to plebiscite held by Government in order to provide evidence that its policy is approved of by all sections of the population. The Bank of Italy has raised the price of gold to 15.8 lire per gramme but in not a few cases possessors of gold and Government bonds have made gifts of them to their Country. Members of the war veterans association have handed in Medals, the famous Racing Driver Nuvolari has sacrificed his gold and silver cups, cinemas are offering free seats in exchange for metal

OIL FROM COAL.

Describing the progress in extracting oil from coal at Hydrogenation plant on the north-east coast before institution of electrical engineers, Kenneth Gordon who is in charge of the plant said that in six years coal treated had increased from 10 tons to 4,000 tons daily. The total consumption of coal at new works for all purposes was between 1,250,000 to 1,500,000 tons per annum.

For petrol production alone 500,000 tons of coal were being consumed. First boat load of finished petrol left on April 9th of this year and shipments have been made regularly since. He had no doubt that Billingham plant finally would have output considerably in excess of present figure.

MINERS FEDERATION AND STRIKE.

The full Executive of Mine Workers Federation of Great Britain will meet the Secretary for Mines this afternoon at first of series of negotiations with the Government, following last weeks ballot of the coalfields when 93 per cent of mine workers declared to support by strike if necessary the claim of increase of 2/- per shift of wages.

BRAZILIAN REBELLION.

Rio de Janeiro : News from Brazil states that two cruisers have been despatched and should arrive at Port Natal to-day. They have been ordered to cooperate with the military aeroplanes and bombard the city unless the rebels surrender.

The Graf Zeppelin was cruising slowly along the Brazilian coast last night if it was still found impossible to moor her to the mast at Pernambuco to-day the Zeppelin will carry on to Rio.

Belfast : The Duke of Abercorn, Governor of North Ireland opened Parliament when His Majesty the King's speech was read expressing satisfaction at the decreased unemployment.

ABYSSINIAN CLAIMS DENIED.

Addis Ababa : Extreme satisfaction is expressed in official circles at the result of the Abyssinian campaign in the province of Ogaden and the population of the capital is jubilant. The Emperor is reported to have stated that all fruits that the Italians have gathered in the province of Ogaden during a fifty-five days campaign at the cost of immense sacrifices have been lost by them within a few days.

Abyssinian success on the southern front in which they state they put Italian troops to flight leaving behind dead and wounded, tanks, machine guns and other war materials.

An official communique states that the Italians are retreating on the southern front evacuating Gorhai and Gerlogubi and falling back on Walwal abandoning stores and their dead.

Rome : Abyssinian reports of successes gained by their troops and the re-occupation of Makale, Gorhai and Walwal are officially denied and are stated to be pure inventions.

ELECTION RESULTS ALL IN.

The last result of the General Election was declared to-day when three members were returned for combined Scottish Universities. Graham Kerr, Conservative 7,479 and Gibb, Scottish Nationalist 3,863. Mr Skelton who was Under Secretary for Scotland died on Friday creating a vacancy. The other Scottish Minister who was returned is Doctor G.A. Morrison, Liberal Nationalist 7,529.

The final state of parties in the New House of Commons are as follows : Conservatives 387, Liberal National 33, National Labour 8, National 2, total Government supporters 430, Labour 154, Liberal 16, others 15, and the total opposition 185.

Berlin : Prince Frederick of Prussia grandson of the ex-Kaiser returned to Germany yesterday after attending Lord Jellicoe's funeral in London.

LATER NEWS FROM BRAZIL.

It was announced from London last night that the rebellion had also reached Rio de Janeiro but the Government had taken firm steps bombarding the barracks which was the rebels stronghold who afterwards surrendered leaving the barracks in flames.

Pernambuco is now again in the hands of the Government and any rebels who have not surrendered are retreating inland.

The Graf Zeppelin which was on one of her usual trips from Germany to Brazil had been cruising along the Brazilian coast since Monday night but Wednesday evening she was able to tie up at her mooring mast at Pernambuco after a record duration flight of 119 hours.

PEKING.

The Daily Telegraph correspondent reports that 500 fully equipped Japanese troops from Tientsin are established in the legation area on the grounds that they are reinforcement for the local field manoeuvres. Simultaneously the international race-course is occupied by military as an aerodrome, while 12,000 Manchukuo troops under Japanese officers arrived at the Kupeikuo Pass on the Great Wall for support of independent regime of Tungchow in east Hopei demilitarised zone.

Meanwhile Tokio denies association with the autonomy movement. According to a Shanghai message Nanking has ordered the arrest of Yill Jukang who proclaimed east Hopei independence and appointed General Ho Yingching as plenipotentiary extraordinary to handle the situation.

TWENTY FIVE TON PROPELLERSFOR THE QUEEN MARY.

The Cunard White Star Company announced that the engine trials of the liner Queen Mary will commence next week.

Engines will at first be tested uncoupled but after satisfactory test have been carried out her twenty-five ton propellers will be coupled up and the engines will then be revolved at gentle speed.

The actual horse power of the Queen Mary's engines will not be revealed until her full trials next March but it is understood this horse power should considerably exceed that of the French liner Normandie whose engines are rated at 164.00.

UNITED STATES AGAINST OIL BAN.

The United States press is complaining bitterly against the Leagues action of postponing the embargo on oil and other war material while the American government is using every effort to supplement such a ban.

It is announced that disillusionment is expressed at British and French timidity and it is felt that the United States steps will be less energetic henceforth.

A Geneva message states that Irak has announced her readiness to ban oil shipments to Italy.

UNITED STATES & CANADIAN TREATY.

Washington : The lumber industry is considering testing the constitutionality of the Canadian trade treaty through the courts and describing the duties as paralysing. Dairy and cattle interests are also protesting against the trade treaty while steel manufacturers say the clauses are meaningless in face of British Empire preference.

Buenos Aires : Trade figures show that meat exports to Italy have risen by 75 per cent.

WAR NEWS.

Note. Although the reports from Rome and Addis Ababa are rather conflicting all such reports will be published.

Addis Ababa : The Italians are retreating from Tembien and Geralta regions on the north front in face of strong Abyssinian pressure. It is also stated that the Italian garrison of twelve hundred officers and men have been withdrawn from Makale which is again occupied by Abyssinian troops. The Italian garrison has been constantly harrassed by Abyssinian forces and were compelled to fight a rear guard action and are now falling back on Adigrat. Desertions from the Italian ranks are increasing daily and one incident is shown where a native officer with a whole company of native troops, complete with rifles, machine guns and ammunition went over to the Abyssinian commander Ras Seyoum.

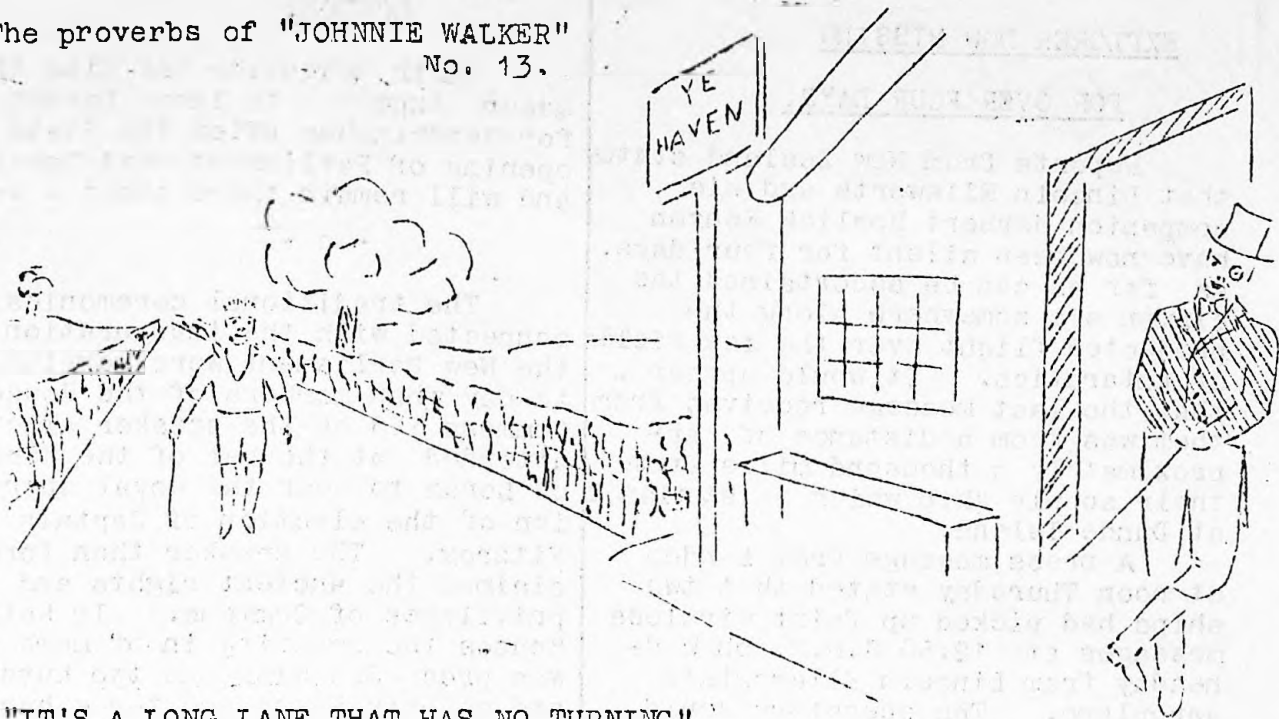

COMMITTEE OF EIGHTEEN.

Paris : The date of the next meeting of the Committee of Eighteen at Geneva was discussed in course of conversations between M. Laval and the British Ambassador, Sir George Clerk. It has now been agreed that this meeting will be held on the fifth or sixth of December and it is hoped that by that time the French and British experts will be able to provide a new basis of the negotiations for an early settlement of the East African dispute.

EXPLORER NOW MISSINGFOR OVER FOUR DAYS.

Reports from New Zealand states that Lincoln Ellsworth and his companion Herbert Horlick Kenyon have now been silent for four days. As far as can be ascertained the airmen are somewhere along the projected flight over the ice fields of Antarctica. It would appear that the last message received from them was from a distance of approximately a thousand miles from their supply ship which is stationed at Dundee Island.

A press message from London at noon Thursday stated that two ships had picked up faint wireless messages at 12.50 G.M.T. on Wednesday from Lincoln Ellsworth's aeroplane. The operators could not make full sense of the messages owing to them being so weak but they say they are certain it was the correct call sign.

FROM LONDON.

The Secretary for Colonies has approved the appointment by the Governor of Jamaica of a commission to undertake general investigation into the banana industry in Jamaica and into marketing of Jamaica bananas both in the Colony and elsewhere, taking special account of the position of Jamaica bananas producers association, and desirability of promoting cooperation in industry. Commission will start preliminary work at the beginning of next month and it is expected the enquiry will occupy three to four months.

MINERS & WAGE INCREASE.

The Secretary for Mines was in conference today with both Executive of the Mine Workers Federation and representatives of the Mine Owners in connection with the claim of wage increase. It was announced after the first meeting that the Secretary for Mines after seeing the owners would report to the Government and would later meet the Men's representatives again.

LONDON.

Their Majesties the King and Queen expect to leave London for Sandringham after the State opening of Parliament next Tuesday and will remain there about a week.

- o -

The traditional ceremonies connected with the inauguration of the New Parliament were carried out to-day when members of the House of Commons led by the speaker elect attended at the bar of the House of Lords to hear the Royal approbation of the election of Captain Fitzroy. The speaker then formally claimed the ancient rights and privileges of Commons. In both Houses the swearing in of members was preceded with and two hundred and seventy Peers and three hundred and forty members of the lower house had taken the oath before to-days adjournment. His Majesty the King's speech at the State opening on Tuesday will it is assumed be considered at the first meeting of the reconstructed Cabinet this morning.

-o-

Speaking at the dinner of the Anglo-Swedish Society in London at which the Crown Prince of Sweden was a guest of the Foreign Secretary.

Sir Samuel Hoare said Britain and Sweden had recently been engaged in a common task at Geneva, a task to which League members had set their hands with one purpose to preserve and strengthen the machinery for peace - and he paid a tribute to the Swedish Foreign Minister, Monsieur Sandler.

Sir Samuel Hoare remarked that never before had so many Nations spoken with one voice. Sweden and her neighbours in northern Europe though far removed from the scene of conflict showed not a moments hesitation in responding to the call of their obligations as members of the League of Nations. It had been a testing time for them all and he had followed closely currents of opinion in every country which was called upon to play its part. In times of trouble Nations would remember a determined effort had been made to blaze new trials.

SHIPPING NEWS.

The s.s. Lafonia was reported to be 200 miles from Stanley at 5.0 p.m. Friday.

London : The Labour party's success in the New Zealand elections has severely depressed the Government municipal loans.

GENEVA MEETING DISCUSSED.

Paris : The date of the next meeting of the Committee of Eighteen at Geneva was discussed in course of conversations between M. Laval and the British Ambassador Sir George Clerk. It has now been agreed that this meeting will be held on the fifth or sixth of December and it is hoped that by this time French and British experts will be able to provide a new basis of the negotiations for an early settlement of the East African dispute.

KING AND PRIME MINISTERDISAGREE.

Athens : Following General Condylis refusal to issue amnesty as desired by the King, The unionist leader Demertyes has been asked to form a cabinet. His Majesty has also interviewed General Papagos with reference to Condylis allegation that the army is dissatisfied with amnesty scope. Tsaldaris and General Metaxas also saw the King and they are advising insistence upon amnesty. Certain quarters state that the King has threatened to return to exile if militarists continue to oppose clemency measures.

HONOUR FOR RUGBY FOOTBALLER.

The former England Rugby Footballer captain W.W. Wakefield who won notable victory for the Conservatives in the recent General Election will move address in reply to a speech from the throne with which His Majesty the King will open Parliament on Tuesday. In the House of Lords the address will be also moved by one of the younger members the Earl of Birkenhead, son of a former Lord Chancellor.

INTERNATIONAL MATCHCAUSING EXCITEMENT.

It is estimated that nearly 10,000 German football enthusiasts will visit London next Wednesday to see the International match between Britain and German on Tottenham Hotspurs ground. Full arrangements are being made by the Police to control crowds but there is no reason to suppose that work entailed will impose on them more difficulties than is normally incurred in dealing with the large influx of visitors who will include 1,600 travelling by the Norddutchter Lloyd liner Columbus who will not show Swastika or any device other than coloured badges to indicate the section into which they will be marshalled for travelling.

Arrangements for the influx of visitors for the England versus Germany match on Wednesday includes the 35,000 ton liner Columbas, eight cross-channel steamers and 19 special trains. The first groups arrive at Victoria and Charing Cross and after breakfast they will tour London in 300 motor coaches and buses. During their stay the visitors will not display national emblems in provocative manner but according to an official statement "will adopt themselves to British customs and behave like guests of a great sporting nation."

If the weather is favourable the German team will make the journey to London by air on Monday morning, and it is probable that the players will watch the King's State procession to the opening of Parliament on Tuesday from the terrace of the German Embassy in the Mall where they may be joined by members of the English team.

Both teams will be entertained at a dinner on Wednesday evening by the Football Association, and the German players will return home on Thursday.

St. Andrew's Day : The Duke and Duchess of York left London for Paris this morning to attend the banquet of the Caledonian Society in France to-morrow evening.

NEW BLUE DYE.

The discovery of a new blue dye possessing all the qualifications demanded of a pigment is announced by Imperial Chemical Industries Limited.

It is named Monastral fast blue and it is the first discovery of a pure blue pigment for over one hundred years. The two blues at present most widely used are Ultramarine which was discovered in 1704 and Prussian blue discovered in 1826.

Blue has been the most difficult colour in the whole spectrum range and no blue has as yet given complete satisfaction.

The new blue should be of particular importance to the Printing Ink Industry.

TROOPS LEAVE CANCELLED.

Rome : Special three months leave which had been promised to one hundred thousand Italian troops has now been temporarily suspended.

The reasons given for this decision are, general political situation and also uneasiness observed everywhere caused by possibility of sanctions being increased in severity particularly through embargo on oil. It is added that the Italian government also felt obliged to carry out certain movement of troops but at the moment there are no details of these movements.

EXCHANGE OF SEALS OF OFFICE.

London : The exchange of seals of office by Ministers affected by the recent cabinet reconstruction took place at Buckingham Palace yesterday morning when the King received the Ministers concerned.

At the conclusion of the Privy Council the Ministers left the Palace to attend the first meeting of the reconstructed cabinet.

Sydney : Lawn tennis. Fred Perry is returning to England immediately, since torn muscle failed respond to treatment, its probable he will not play again until next April.

CONFIDENCE VOTE FOR LAVAL.

Paris : The Chamber of Deputies passed a vote of confidence in favour of Laval on his demand that decree laws should take procedure over other matters, voting was 345 for and 225 against. The report adds that a real issue will be faced on Tuesday when the Premier's decision to curb activities of organised political leagues will be debated.

All precautions against outbreaks were taken to-day with police and civil guards concealed in public buildings throughout the city. Croix-de-Fue leader Colonel Delarocque denies they were plotting to seize the government and declares his organisation is non-Fascist with sole aim at preservation of public order.

Financial debate will be resumed on Friday and budget discussion Tuesday afternoon after the political ban procedure.

The franc appreciated sharply after the Laval confidence vote.

JAPAN AND NORTH CHINA.

Peking : Japanese troops evacuated railway junctions which they occupied yesterday and according to the Daily Telegraph correspondent quoting Japanese authority, earlier action taken because Nanking appropriating railway waggons with view to war on North China. Japanese pickets are remaining on railway duty at Teintsein.

A Hong Kong message states that Marshal Chang Hsuehliang's British adviser as expressing view Japan hurrying on North China enterprise. for fear the League may bring pressure to prevent extension of influence while Soviets support of the League has considerably extended its scope with Japan undesirous of a clash.

London : Representatives of five naval powers and of the Dominions who will take part in the Naval Conference opening in London on December 6th met at the Foreign Office on Tuesday last to discuss agreements which have been proposed for the Conference.

£30,000,000 RECONSTRUCTION SCHEME

A bill to authorise the financial arrangements connected with the £30,000,000 main line railway reconstruction scheme announced by the Government during the General Election is now being drafted. The Government intend to have the bill passed by Parliament before Christmas so that the scheme can be set in operation early in the new year. The financial arrangements will be similar to those of the London transport scheme. The bill will provide for the formation of a finance corporation to raise money for 20 years term with the Government guarantee. This bill will impose conditions as to the employment of labour and materials drawn as far as possible from the distressed Areas.

HELP FOR DEPRESSED AREAS.

Although it is recognised that there is no short cut to revival of prosperity in areas of Britain which have suffered most acutely from the depression, progress is being made by a special areas Commissioner for England and Wales in developing a new scheme of relief, and preliminary arrangements have been made for the lay out of a trading estate on the North-east Coast, estate will be equipped with Skeleton factories and supplied with all necessary services. It will be set up by a special areas Commissioner.

It is believed by the Government that this estate will prove attractive to many who are at present reluctant to initiate industrial enterprise for lack of necessary capital to buy land and factories. The formation of a public utility company for housing in the north Coast area is further development which is imminent.

A land settlement scheme in Wales is another venture which it is understood will shortly be undertaken.

TERRIBLE DEATH ROLL.

A particularly heavy death roll on the roads during the last two weeks was the subject of a Broadcast address by the Minister of Transport, Hore Belisha last night.

He said during this last fortnight one person died and 26 were injured every hour in road accidents. On the other hand figures for 37 weeks of the current year show a reduction of 11,530 in number of killed and injured as compared with the corresponding period of last year. The Transport Minister said he was convinced that precautions and propaganda were making impression and that the public had grown traffic conscious and was giving most sympathetic understanding to measures undertaken by the Government for saving life on the roads.

LAUNCHING OF THE ATHLONE CASTLE.

Princess Alice, Countess of Athlone to-day performed the naming ceremony at the launching by Messrs Harland and Wolff at Belfast of the twenty-five thousand tons motor passenger vessel Athlone Castle which has been designed for use on the South African service of the Union Castle line. The vessel is 725 feet long with eighty two feet beam.

WIRELESS EXPERIMENT.

A remarkable experiment in the possibilities of worldwide telephonic communication will be made to-morrow when multilateral conversations will be held between the Managing Director of the International Combustion Limited in London, and company's representatives in Paris, New York, Buenos Aires and places in South Africa, India, Australia and New Zealand. The conversations will at the same time be heard through loud speakers by more than fifty thousand of the firms employees in various centres

Manila : The Pan-American Airways China-clipper landed safely after 8,000 flight from California. The flight was for the purpose of opening a new commercial service.

-----

WAR NEWS.

Addis Ababa : The Emperor's caravan arrived at the Northern Army Headquarters of Dessei safely on Friday evening. Precautionary measures had been taken for the protection of the Imperial party on the journey. Bombproof shelters had been prepared at places where the Emperor broke the journey, while Abyssinian aeroplanes made flights to see whether the next stretch of road was clear. The Emperor it is said will probably leave Dessei after a few days and continue northwards for consultation with the northern Commanders among whom certain divergencies of opinion is said to have arisen. Negus is particularly anxious to have a conference with Ras Kassa from whom nothing has been heard of for some weeks although he possesses a portable short wave radio transmitting set.

Jibuti : Italian aviators according to a report from Harar dropped pamphlets over Jijiga warning the population to leave the city since it would be bombarded in the near future.

Indian tradesmen of the city as well as numerous members of Somali tribes under British protection are fleeing from Jijiga to Lartisa Hargeisa in British Somaliland.

All shops and bazaars in Jijiga are closed, and the city's strong garrison has taken up positions in carefully concealed trenches.

Rome : The Italian government has authorised the immediate expenditure of seventy million lire for the purpose of building a state petroleum mineral oil refinery. Building operations have already commenced. Boring for oil will be carried out extensively.

Rome : Walls and boardings throughout Rome are being placarded with large maps of Europe on which all countries who have applied sanctions against Italy are shown in Black. The Italian people are ordered to boycott completely all products originating in the countries shown in black. The only European countries excepted are Germany, Austria, Hungary and Albania.

It is generally realised in Geneva that the only solution to the oil stoppage question is an agreement between non-members of the League of Nations to stop all shipments of oil to Italy.

Rome : The Italian government met for the first time since the imposition of sanctions and it was decided to include the heads of Civil Service, Army, Navy and Air Force in the supreme war council.

The war council will at the cabinet meeting next Tuesday present a vast anti-sanctions campaign which will involve the boycotting of all countries imposing sanctions. The foreign press regards the inclusion of War Ministers in this council as an indication that Italy will forcibly resist anything in the nature of military sanctions.

Geneva : The Italian delegate handed a note to the Secretary of the Committee of Eighteen stating that the Italian government would regard the oil embargo as an unfriendly act.

Paris : M. Laval and the Italian Ambassador in France had conversations on Saturday at which they were seeking a possible basis for peace talks before the imposition of the oil embargo.

AIR CRASH.

Moscow : Seven persons were killed in Moscow air port when a two motored aeroplane crashed during a trial flight owing to a defective rudder.

NEW GREEK CABINET.

Athens : The new Greek Cabinet was sworn in on Saturday and a general amnesty for all participants in the March revolution was issued. It is reported that the King has strengthened his position by his refusal to make any distinction between Royalists and Republicans.

Paris : The French press including Socialists papers generally expect a victory for M. Laval at Tuesday's cabinet debate.

SPEECH BY THE PRIME MINISTER.

Speaking at Dundee last night the Prime Minister Stanley Baldwin referred to the special areas in which the worst effects of post war depressions were felt and said they must have their share of newer industries. It was intended that shares of the work in connection with the necessary re-equipment of the Defence Forces would go to these areas and he applied to those who had benefited as a result of the Government's introduction of protection to do all in their power to see that when new works were built they were put in Durham, Lanark or South Wales, or one of the other special areas.

Mr Baldwin declares that the Unionist Party is a most important party of a great movement which was supporting the National Government and was determined to proceed in cooperation with those of like mind in the task of bettering the conditions of the people. Progress in the last generation had been great and social services were far ahead of any country in Europe, but they took this as justification for complacency but as the greatest encouragement to go on and do more.

OIL DISCHARGE FROM SHIPS

AT SEA.

The initiative of the British Government at Geneva in July 1934 to secure the international action regarding pollution of the sea by oil discharge was carried a stage further yesterday when the League Secretary published a draft conversation on the subject by which parties agree in respect of all seagoing vessels other than naval vessels carrying crude fuel or diesel oil in bulk as cargo, or as fuel for boilers or engines, to make illegal the discharge by such vessels of oil or oily mixture within any established zone. The Committee of experts which prepared the draft in accompanying the report urges that a conference should also also recommend to the government that separators should be fitted on new vessels.

MINERS WAGE INCREASE.

The centre of negotiations in connection with the claim of miners for wage increase has moved from London to the Mining districts where representatives of owners are consulting with their organisations. They will meet the Secretary for Mines again next Thursday. It is understood that the possibility is being canvassed of an offer by the owners of some wage increase in the form of an advance on account of the improved financial position.

PROPOSED PROTECTORATE

OVER ABYSSINIA.

Paris : A report which has been prepared by the British financial expert Peterson, jointly with a financial expert of Quay Dorsey has now been submitted to the British Foreign Office.

This report proposes protectorate over certain parts of Abyssinia after model of the French protectorate in Morocco. The report is also said to contain proposal that a port should be ceded to Abyssinia and that Abyssinia by way of compensations should make some concessions to Italy which if, territorially only small would never the less be economically important.

THE INTERNATIONAL FOOTBALL MATCH.

In a letter to the Trade Union Council regarding the visit of about ten thousand German football enthusiasts to London next week to watch the International match between Germany and England the Home Secretary Sir John Simon said he welcomed the Councils recent approach to him on the subject as it enabled him to state that Wednesday's match has no political significance whatever. It is a game of football which nobody need attend unless he so wishes and I hope that all who take interest in the match from any side will do their utmost to discourage the idea that sporting fixtures in this country has any political implications.

F.I.D.F. RIFLE ASSOCIATION.

The competition for the Donegal Badge and the "A" Class Spoon was won by J.R. Gleadell. The "B" Class Spoon was won by W. Browning.

A strong and gusty wind was blowing across the Range which made holding extremely difficult and many a good shot had magpies and even outers registered on their cards. J.R. Gleadell's score of 98 was indeed a splendid performance on such a day. The scores were :-

	200.	500.	600.	Total

STORMY WEATHER OVER

THE BRITISH ISLES.

The British Isles experienced stormy weather over the week-end with thunder, lightning, sleet and heavy rain in the south, while snow fell in Scotland and as far south as Manchester.

One life was lost in the Channel when the skipper of a small steam yacht was washed overboard in heavy seas and during the gale the crew of the steamship Orchis had to take to the boats and were picked up with difficulty by the fishing lugger Meiagissey.

SHIPPING NEWS.

FRENCH KIDNAPPING CASE.

Marseilles : The first case of kidnapping for ransome was attempted on Saturday when the eighteen month old son of a French doctor was abducted by an old lady. Anonymous letters have been received by the childs relations demanding ransome. Police dogs have been used to follow the childs kidnapper but the dogs lost the scent.

London : The well-known landscape painter Mr. Adrian Stokes senior Royal Academician has died aged eighty one.

WAR NEWS.

It is understood that the Italian Government intends to carry out further conscription of subjects who failed to pass the doctors for military service at the beginning of the East African campaign. The Italians are said to be preparing a big offensive on the Ogaden front.

It is believed that the Abyssinian chiefs Ras Kassa and Ras Mulugeta are combining their forces for an attack on Makalle and that Ras Seyoum is preparing to attack the Italian forces west of the Takkaz River.

FLOODS IN SWITZERLAND.

Geneva : The usually placid lake of Geneva has been lashed to fury by tremendous southerly gale which has been blowing here for the past forty hours seems to reflect on stormy waters of international politics of which the city of Geneva is the centre.

Terrible floods are reported from all parts of Switzerland.

KING & QUEEN AT WESTMINSTER.

His Majesty the King accompanied by the Queen will drive in State to-morrow morning. The King will read a speech in which the principal measures of the Government's immediate programme will be forecast.

Apart from references to foreign affairs the speech is generally expected to deal with the problem of areas specially affected by depression, with making good deficiencies in defence services, with raising of the school leaving age, and with plans for railway improvements by means of a loan of £26,000,000 with a government guarantee. The debate in Commons on the address in reply to the speech will begin to-morrow afternoon.

Washington : The United States exports of iron and steel to Italy during October was 44,301 gross tons compared with 18,021 tons in October 1934.

OIL SANCTIONS.

London : A Cabinet meeting was held yesterday to consider the question of including oil in the sanctions against Italy.

Influential Ministers according to the Daily Telegraph diplomatic correspondent consider that the decision to impose an oil embargo as inevitable in view of the uncompromising attitude in Rome.

With American cooperation it was suggested in a statement by the President that oil supplies could be completely stopped. No Minister wishes to see such drastic sanction applied and London is as eager as Paris to find a basis for peace negotiations. The British Cabinet has decided whether, since complete oil embargo must soon immobilise the Italian army that this would constitute military sanction in form of a limited blockade and whether peace negotiations would be severed or hindered by the oil embargo.

PROVINCES OF CHINAAND INDEPENDENCE.

Peking : Five provinces of North China, Hopei, Shantung, Shansi, Chahar and Suiyan were declared as independent states Monday. Ten trains are bringing Japanese troops south-west from Shanhaikwan to check the preparations against General Sung the Governor designate of the new state while Japanese advisers staff are arriving at Tientsin and Peking for service in various ministries when the separation of the five provinces is consummated.

Hong Kong : It is reported here that the Kwangsi province of South China has negotiated a contract equivalent to £1,000,000 with Japan for munitions which are already arriving from Mukden. It is believed here that the southerners intend to make a decisive move for independence, possibly in the form of autonomy for the Kwangsi and Wangtung provinces.

MUNITION BAN.

Washington : The Senate Munitions Committee drafted a resolution to be presented to the Congress in January proposing the immediate revision of the neutrality act.

The President would be empowered to forbid shipments which might lead to armed conflict involving the United States and a ban on the shipping of arms and munitions would extend to any article the United States declares to be war material.

REVIVAL OF SOUTH WALES.

Cardiff : The Committee of Industrial Leaders proposals for reviving South Wales, suggest that the Government should pay three quarter increase, of rail dock charges over 1913, thus reducing the cost of coal by one shilling per ton, making contribution to local rates, arrange cheaper food for unemployed, and appoint a special Commissioner with the authority to spend possibly two million pounds to promote new industries and restore the existing industries.

The removal of the Woolwich Arsenal and buildings to Sevenbridges is among the new activities suggested.

COMMITTEE OF EIGHTEEN SUMMONED.

Geneva : Senhor Vasconcellos the chairman of the Committee of Eighteen has summoned the Committee to meet at Geneva on December twelfth.

The Chairman desired to fix the meeting for 5th December but the French Prime Minister who wishes to attend in person made an urgent request to him to delay the meeting for one week by which time M. Laval hopes that the internal affairs of France will be settled.

SILVER FOX FARMING.

A new Industry for  
The Falkland Islands.

DO YOU KNOW THAT

1. That furs have been worn since the beginning of time.
2. That the fur wesrer is increasing faster than the fur bearer.
3. That every woman desires a fur.
4. That the raw fur market has been a staple market for 200 years.
5. That the wild supply is rapidly diminishing.
6. That fur farming can replace that diminishing supply at great profit.
7. That what platinum is to metals, what the diamond is to jewels, the SILVER FOX is to furs.
8. That the Silver Fox is the king of all fur-bearers.
9. That the Silver Fox fur cannot be imitated.
10. That the Silver Fox is seldom caught in the wild.
11. That the Silver Fox is the easiest and most valuable of all furs to produce.
12. That it is easy to raise in captivity.
13. That it will produce from two to eight and even ten young each year.
14. That it matures and is ready for market in less than a year.
15. That one does not need to be a land-owner to enjoy the profits of the fox industry.
16. That the Silver Fox can be reared by the farmer, his wife, or his daughter.
17. That Silver Foxes can be mated, bred and raised just as easily as any cow or other farm stock.
18. That a fox pen requires little room in your back-yard.
19. That if you start before your neighbour you can sell him his foundation stock.
20. The fox-farming is an outdoor life.
21. That throughout South America there are ideal territories for Silver Fox farming, especially Patagonia and the Falkland Islands.
22. That 90 per cent of all Silver Fox furs are raised in North America, where meat costs five times as much as here.
23. That you can produce Silver Foxes in Patagonia and in the Falkland Islands cheaper than anywhere else in the world.
24. That the foxes of "EL ANTARTICO", Magallanes, are best suited to your conditions and requirements.
25. That "El Antartico" foxes are acclimatised to the Southern Hemisphere.
26. That we guarantee live delivery.
27. That if you are not satisfied with any Silver Fox purchased from us, we will gladly exchange it for another.
28. That you have practically no transportation charges to market your product.
29. That we give a pedigree of at least four generations for each fox.
30. That full details for the right breeding and feeding methods are furnished by us to all buyers of our foxes, and that we welcome your enquiries in person or by letter addressed to

OPENING OF PARLIAMENT.

Lord Chancellor

Reads The King's Speech.

Owing to the death of the King's elder sister Princess Victoria His Majesty decided to abandon the state procession for the opening of Parliament on Tuesday. His Majesty's speech was read by the Lord Chancellor and was as follows :

My relations with foreign powers continue to be friendly. My Government's foreign policy will as heretofore be based on firm support of the League of Nations. They will remain prepared to fulfil in cooperation with other members of the League obligations of the Covenant. In particular they are determined to use at all times full weight of their influence for the preservation of peace. In pursuance of these obligations my Government have felt compelled to adopt in cooperation with some fifty other states who are members of the League certain measures of economic and financial nature in regard to Italy. At the same time they will continue to exert their influence in favour of peace which will be acceptable to the three parties in the dispute namely Italy, Ethiopia and the League of Nations.

My Government have issued invitations to governments of other countries which were parties to the Washington and London Naval Treaties to attend a Conference in London this month with the view to the conclusion of a new international treaty for limitation of naval armaments. I have learned with satisfaction that all invitations to this Conference have been accepted and I trust that its labours will be crowned with success.

The speech proceeded, the fulfilment of our international obligations under the Covenant no less than adequate safeguarding of my Empire makes it urgently necessary that deficiencies in my Defence Forces should be made good. My Ministers will in due course lay before you their proposals which will be limited to measures for these two purposes.

Domestic matters were then dealt with and the speech noted that

the policy of the Ministers while continuing to foster the recovery of trade industry and agriculture would pay special regard to those areas in which the burden of unemployment was greatest and to the development of any measures likely to be advantageous to them. It was added that the problem of securing improved conditions in the coalmining industry was receiving anxious consideration of the Ministers and active steps in contemplation to this end included proposals for the cooperation of selling arrangements of the coal industry, unification of coal royalties, and review of provisions for the safety of workers in mines in the light of modern scientific knowledge. Other measures included proposals for making improved arrangements for assistance to unemployed and for insurance of agricultural workers against unemployment, the introduction of a bill to authorise the guarantee by the state of a loan to be raised for the purpose of enabling railway companies to carry out special developments, measure for promoting further development of civil air communications both in this country and throughout the Empire and proposals for substantial development of the educational services of the country and for raising of the school leaving age.

MOVEMENT OF FRENCH TROOPS.

Paris : The garrison of Paris has been strengthened by numerous reinforcements of cavalry and infantry. The provinces guard have also been greatly increased with the object of enabling effective measures to be taken against any street disturbances which may be created by fascist unions.

INDUSTRIAL RECOVERY CONTINUES.

Further evidence of continued industrial recovery is contained in reports from various centres.

The Sheffield Chamber of Commerce states that the production of steel is about 100 per cent higher than four years ago. The output of finished articles is over 100 per cent greater during the same period. The number of unemployed persons in Sheffield has been reduced by 28,000.

Belfast : The output of tonnage from Belfast shipping yards during the present year is likely to reach a total of 112,000 tons. Messrs Harland & Wolfe have already launched one warship and seven merchant vessels since last January.

The standard motor company, owing to the increasing demand for standard motor cars, the company have decided to extend its factories at a cost of £340,000 and increasing its maximum daily output from 130 cars to 300. Orders for machine tools to the value of £150,000 have already been given.

London : According to orders placed for motor ships, the merchantile tonnage at British yards by British owners in the past eight weeks is greater than in the previous eight months and amounts to 323,000 of the world's total tonnage of 602,000.

On the Clyde bank the new liner Queen Mary came to life yesterday when the first of her boilers was fired and it is understood that the remaining boilers will all be fired by the 11th December.

DEATH OF PRINCESS VICTORIA.

Princess Victoria elder sister of His Majesty the King died after a brief illness at her home in Buckinghamshire. She had been in indifferent health for some weeks but it was only during the last ten days that her condition became critical. The crisis came on Sunday evening when a blood transfusion was performed but this only afforded the Princess temporary benefit and her death occurred at three o'clock yesterday morning.

WAR NEWS.

It is reported that the Italians are preparing a new attack against Haggah Bur, it would also appear that the Italian forces are being reorganised after their setback at Anale where several tanks were trapped in mud pits and afterwards taken by Abyssinian troops. The Ethiopian front seems to be about forty miles north of Gorahai with outposts to the southward but this front is only lightly held as the Abyssinians are endeavouring to avoid the massing of troops so that the Italian bombing planes have much smaller target for their attacks. Italy claims to have lost only sixty troops by desertion.

The Dutch Red Cross unit of eight doctors and hospital attendants left to day for Addis Ababa.

Sir Percival Phillips in a telegram to the Daily Telegraph states that the Abyssinians have not reoccupied Walwal or adjacent points. The message adds that there is a growing restlessness among Italian native troops.

POLICE COURT.

In the Police Court yesterday Edwin F. Thompson and Cyril Summers were each fined 5/- and costs for throwing missiles during the course of a performance at Hardy's Cinema on Saturday evening, the 30th November.

In giving judgment the Acting Magistrate said that a person running a cinema entertainment had a heavy responsibility. Mr Hardy had been reluctant to bring this matter to the Court, but he had tried without avail. People attending the show should do nothing to interfere with the safety or enjoyment of others, and it was not to be tolerated that the pleasure of the majority and the success of the entertainment should be spoilt by disorderly conduct on the part of a few.

R.R.S. Discovery II to help in Search.

The Governments of the United Kingdom and of New Zealand are considering the Australian suggestion that they cooperate in a search for the missing airmen who were last heard of on Wednesday, November 27th.

As a result of this suggestion the R.R.S. Discovery II has been ordered to her nearest Australian port where she will await orders regarding the search for the Antarctic fliers.

NOTICE.

Sunday, the 8th of December, 1935, being the Twenty-first Anniversary of the Battle of the Falkland Islands, the usual Parade and Commemoration Service will be held in Christ Church Cathedral at 10.15 a.m..

The Falkland Islands Defence Force, the Stanley Sea Scouts and the Stanley Boy Scouts and Girl Guides will be present.

His Excellency the Governor will take the Salute under the Flag on Victory Green during the March Past at the conclusion of the Parade.

THE FALKLAND ISLANDS BATTLE.

The Anniversary Parade will be held on Sunday next, the 8th of December, when the Defence Force will parade at the Drill Hall at 9.30 a.m.

A full muster is especially requested.

DRESS: Drill Order with belt and sidearms.

THE FALKLAND ISLANDS FOX AND FUR COMPANY, LTD.

All those who are interested in the Fox and Fur farming industry are invited to obtain a free booklet on the subject, from Mr Smith at the Ship Hotel and also view the furs which are on display.

The Falkland Islands, the Continental Provider.

There is immense room throughout the continent for more fur-raising farms. The Falkland Islands, in climatic conditions, food-abundance and other considerations, are especially suitable for the industry; and their proximity to Magallanes is more than convenient. But from the far south to the distant north of South America, there is no country without some territory adapted for the growing of fine fur.

The Station "El Antartico" of Messrs. Tetzlaff, Pisano and Company can provide the finest and most suitable of stock; there could be no better centre of supply. The principal reasons only need be enumerated:

1. "El Antartico" stock is of the very best, BECAUSE
  - (a) Its foundation was of the best,
  - (b) It is maintained at the highest grade by careful culling,
  - (c) Its conditions from every aspect are ideal,
  - (d) Thanks to the economic results even from the first year of working, the farm is up-to-date with all the improvements of the most important ranches of North America, and finally,
  - (e) It is in the care of an efficient staff trained and supervised by a successful and proved expert.
2. The knowledge and advice of that expert are always at the service of fur-farmers or those intending to be.

Our Expert's Advice to Beginners.

Such advice is more than necessary. Every beginner will have his problems to solve. The management of "El Antartico" is willing to assist in their solution, and as an earnest of that goodwill we offer all interested in the Fur Trade of South America and the Falkland Islands the following practical recommendations which summarise a long experience of the industry extending from Alaska to Patagonia :

**Quality, Not Quantity.** -- It is bad policy to start with a large number of foxes. Unless you hire an experienced overseer, better begin with a few pairs and gradually increase as you learn. Quality and not quantity should be your watchword in the production of fine furs.

The four Main Factors in such production are: CARE, FOOD, FOUNDATION STOCK and CLIMATE.

Geneva : Europe's highest dam which is two thousand two hundred metres up in the mountains has been completed in the valley Hermence in Wallis Canton. Four hundred thousand cubic metres of concrete were used for the construction of the dam which is five hundred metres long and eight five metres wide.

The new reservoir will hold fifty million cubic metres of water. The water will drop through pipelines over seventeen hundred and fifty metres to the electricity works where it will drive turbines producing one hundred thousand horse-power. The work has taken five years and has given employment to over three thousand people.

STORMY MEETING IN PARIS.

The fate of M. Laval's government still hangs in the balance and Tuesday's meeting was a very stormy one. The government were criticised for not suppressing immediately the Fascist league and other such organisations. One speaker accused Laval of having tendencies towards Fascism. The meeting had to be stopped for some time so that members could quieten down as it appeared that the whole chamber was engaged in a general uproar. The meeting was eventually adjourned until Thursday.

THE QUEEN MARY & ATLANTICBLUE RIBAND.

Will The Queen Mary outclass the Normandie.

The newest competitor in the great struggle for speed is the French liner Normandie (79,280 tons) which secured for France the Blue Riband of the sea from the Italian liner Rex.

The phrase is used, of course, in the sense of a distinction: the Blue Riband is mythical. Comparisons of times for the Atlantic passage are often misleading since liners use various ports for their voyages to and from New York, and there is no recognised record-making point to point course. The real test is the average speed attained.

In future the "Blue Riband" will be something more than a name, since Mr. Harold Hayes, M.P. for Hanley, has presented a trophy to be held by the steamship holding the highest average speed.

The inspiring story of the fight for speed supremacy goes back as long ago as 1838 when Sirius, under steam and sail, voyaged from Liverpool to America in seventeen days. She was beaten by the Great Western, which crossed in fifteen. After the clipper Dreadnought had shortened this record to thirteen days, America came into the competition, and almost every year of the eighties showed a higher speed accomplished. In 1890, the Cunarder Lucania sailed to America in five days eight hours.

Germany came in with Deutschland and Kaiser Wilhelm der Grosse (1897-1907), whose times were beaten by Mauretania (30,696 tons). After losing the distinction for a year to Lusitania, her sister, this gallant ship regained and kept it for twenty-one years. In her maiden trip, she reached New York in five days five hours ten minutes, and in September, 1924, established the record of four days twenty-one hours fifty-seven minutes. Her best speed was 27.22 knots. It was the German Europa which wrested the record from her with a speed of 27.91 knots.

The Bremen, which cost over £3,000,000, embodied German ambition, frustrated during the war,

to capture first place in liner speed, and the streamlining of her hull and the employment of turbine engines vindicated her designers. When, in 1929, she set up her record, Captain McNeil's congratulations from the Mauretania were among the first received by her officers and crew.

Mauretania's Record

The Mauretania had been beaten, but it is noteworthy that, even when she was a veteran, this grand old lady of the seas, the most wonderful ship of her size and power ever built, did the double journey in 4 days 17 hours 49 minutes eastwards and 4 days 21 hours 44 minutes westwards, averaging a speed of 27.05 knots.

In 1933 the Bremen, whose swiftest crossing was at 28.51 knots, was beaten by the Rex, which did Gibraltar to New York in 4 days 13 hours 58 minutes, at a speed of 28.92 knots.

The £11,000,000 Normandie is 34 feet longer than the Eiffel Tower is high. The facade of the Mansion House, London, turned on end, could pass down any of her three funnels. One of her passengers called up the purser the day before she sailed and asked him for a cabin not more than ten minutes from the sea! She is capable of a speed of 32 knots.

Britain's Queen Mary will take up her challenge next May.

The gross tonnage of a liner is calculated on the cubic capacity of the hull on the assumption that 100 cubic feet of space are equivalent to one ton of cargo. Tonnage of warships is based on displacement, or the amount of water pushed away by the hull.

AIRSERVICE BETWEEN LONDONAND LISBON.

A new aerservice to be operated by Crilly Airways Limited, is to be opened on January 1st. between London and Lisbon provision being made for one journey in each direction daily. One of the Company's aeroplanes left Croydon yesterday to servey the route and make all final arrangements for ground services at the airports of Paris, Bordeaux, Madrid and Lisbon. It is understood that two trial flights will be made later this month. The flight will occupy about nine hours.

MOVEMENTS OF BRITISH TROOPS.

The West Berkshire Regiment is leaving Palestine to-day for Alexandria. A battalion of the Queen's Own Cameron Highlanders who are due to arrive from England will be stationed at Palestine for the time being.

WAR NEWS.

Addis Ababa : It is now reported that on the 13th of November a desperate battle took place at Salasa in the Tembien province when an Italian force of five hundred men who were marching towards Carnale were surprised in mountain gorge being fired on from all sides. The Italians took cover and returned the fire, the fight continued for several hours the Italians in the end being forced to retire leaving behind fifty dead and many wounded. The Abyssinians report that their losses in the engagement was fifteen killed and about forty wounded.

It is further reported that many Somalis are deserting from the Italian forces as they are not inclined to continue the desert campaign which appears to be no definite results.

The Italian front line is to be reinforced with European troops and it is expected that an attack will be launched in the Sasa area very shortly.

The Ethiopian Emperor is in consultation with his leaders in between Takazza and Alaji where Abyssinian troops are concentrating for an attack against Rakalle and Artalo.

Rain is still falling heavily and is interfering with the movement of heavy artillery and tanks.

Rome : The Italian government has issued a new decree providing for penalties against persons smuggling currency, food speculators, commodity market cornerers.

The exodus of foreign residents is increasing daily.

RAILWAY IMPROVEMENTS.

The Governments part in the £30,000,000 programme for the construction and improvement to be carried out by railway companies is explained in a memorandum on the proposed financial resolution which authorises the introduction of a bill empowering the Treasury to guarantee the principal of a loan not exceeding amounts sufficient to raise £26,000,000 together with interest thereon to be raised by a special company formed by the Treasury for the purpose of lending the proceeds to railway companies. The balance required to complete works will be provided by railway companies from their own resources.

The agreement between the Treasury and the four main line railways was signed on Saturday and stipulates that works must be completed by 1st January, 1941 unless a further period is allowed.

The loan is to be raised at such times as the Treasury may determine.

EXTRACTS FROM HOUSE OF COMMONSDEBATE ON THE KING'S SPEECH.

In pursuance of the policy laid down in the coal mining act of 1930 of the late Labour Government they had decided to bring in at an early date a bill for the unification of mining royalties as essential preliminary to works that lay ahead and as part of the policy to assist trade and to advance steps already voluntarily taken in some districts.

On the subject of defence he said that he hoped it would not be long after the Christmas recess before the house was able to debate one of the most important and difficult matters in this connection.

The Government hoped further in the present session to pass a bill to extend unemployment insurance so that benefit might be available for agricultural workers in the winter of next year.

THE GERMAN REPORT ON THEINTERNATIONAL SOCCER MATCH.

A hard fought game which was however fair and friendly and in best sporting traditions ended with England winning the international football match against Germany with three goals to nil.

The match aroused the greatest interest and the Tottenham Hotspurs ground which accomodates over seventy thousand spectators was packed. Light rain fell during the forenoon making the ground very soft but the weather cleared at mid-day and half an hour before the beginning of play the sun came out. The Union Jack and Swastika at each end of the field respectively were flying at half mast as a mark of respect for the deceased Princess Victoria.

The English team took the offensive right from the beginning making constant attacks especially with right wing ball being mostly in the German half. The German backs however put up a brilliant defence with the result that it was not until two minutes before half time that England scored the first goal when centre forward Camsell slipped between the German backs Muengenbelg and Haringer and made a pretty shot with his left foot.

The second half opened with a counter attack by the Germans who seemed to have gained more spirit in the interval and amid plaudits of the German block of spectators as well as from a large number of English onlookers, the German forwards gave the English defence some anxious moments. The right outside Lehaer in fact shot a goal but was judged off side by the referee. Good work by the German half backs followed which however was not made by most of the forwards.

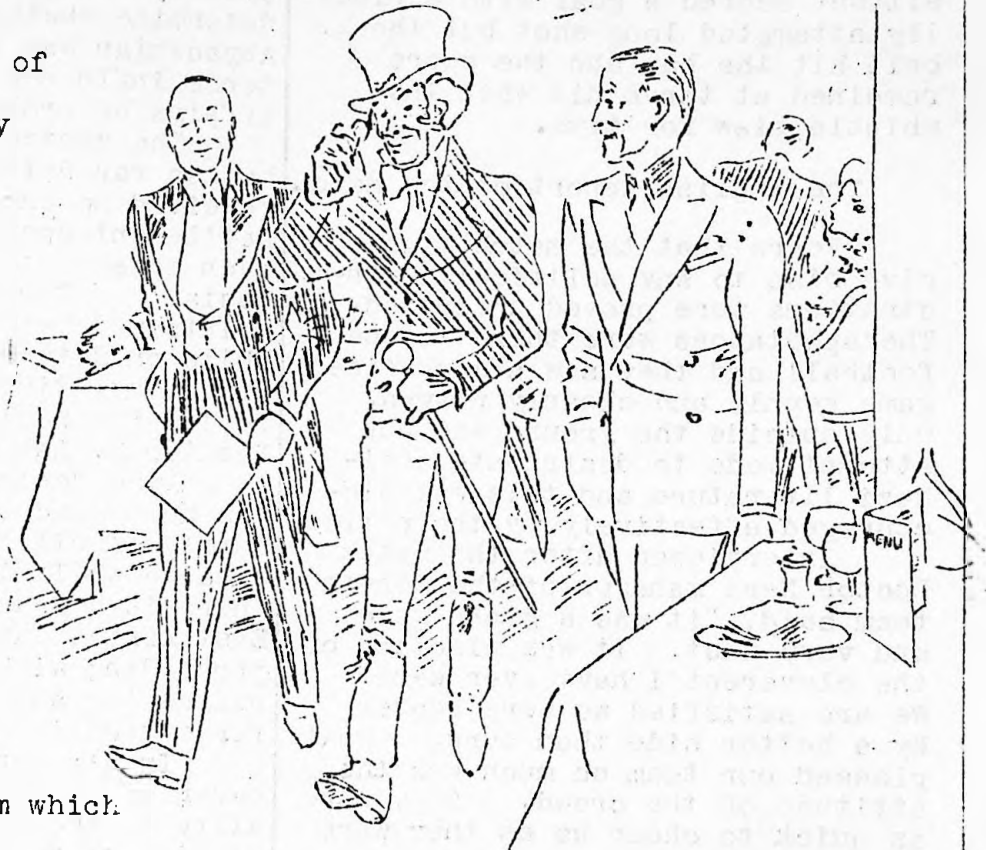

A fine pass by the English outside left Bastin to the centre was headed into the net by Camsell scoring the second goal for England. Clever combination between Camsell and Bastin resulted in the third goal for England two minutes later scored by Bastin with a splendid shot.

During the last quarter hour of play, the German forwards continually tried in vain to break

through the English defence in an attempt to score at least one goal but the goal-keeper Hibbs successfully perried all attacks. Lehaer all but scored a goal with a pluckily attempted long shot but the ball hit the bar and the score remained at three nil when the whistle blew for time.

#### The English Report on the Match.

Fears that the match might give rise to any political demonstrations were proved unfounded. The spectators were there to see football and they saw a magnificent game keenly and cleanly played. Only outside the ground was any attempt made to distribute anti-Nazi literature and this was discouraged effectively by the police.

Interviewed after the match Doctor Nerz manager of the German team said, "it was a grand game and very fast. It was also one of the cleverest I have ever seen. We are satisfied we were beaten by a better side than ours. What pleased our team so much was the attitude of the crowd. They were as quick to cheer us as they were to cheer their own men.

#### FLIGHT FROM SINGAPORE TO JAPAN.

Arrangements are being made with the permission of the Japanese Government for a squadron of the Royal Air Force to carry out a flight from Singapore to Japan - the first visit of its kind.

The cruise will be undertaken by number 205 squadron equipped with short Singapore flying boats. It will begin about the middle of February and will be completed in the second week in March.

The length of the round flight will be approximately seven thousand miles. The route for the outward journey will be Singapore, Sarawak, Philippine Islands, Hong Kong (China), Shanghai, Kugoshina, Tokio and Takyama or some other place approved of by the Japanese government.

The visit to Japan will last about a week. Air Commodore Smith commanding the Royal Air Force in the Far East will accompany the squadron.

#### WAR NEWS.

According to the Daily Telegraph events during the next few days will determine whether the end of the Abyssinian war is in sight or its tense influence on international affairs be prolonged.

The choice lies with Mussolini but so far Britain and France has received no encouragement for a settlement, upon which experts have been engaged to evolve acceptable basis. Direct contact is being maintained between London and Rome while on Saturday the British Foreign Secretary, Sir Samuel Hoare will review the position with the French Premier M. Laval.

Rome denies that an agreement has been reached for an unlimited supply of oil in the event of an embargo while it is reported that there is a four months supply in East Africa but the government is proceeding with the establishment of refineries and subsidising experiments for synthetic fuel.

In New York an Italian newspaper owner is challenging the constitutionality in the Federal Courts, the government's warning against the shipments of oil and cotton etc. to Italy.

The French press suggests Italy will play trump card at the naval conference by tabling a claim for the Tigre and Ogaden provinces against the Mediterranean agreement.

A report from the East African Commander-in-Chief, Badoglio states that there is nothing to report on either front but according to the Daily Telegraph correspondent in Addis Ababa the Italians have evacuated Gohari and Gerlogubi.

REPLIES TO KING'S SPEECH.

When the debate on the reply to the address from the Throne is continued it is anticipated that Sir Samuel Hoare will deal with the present aspects of the Italo-Abyssinian dispute, the situation in the Far East and other international problems. Interest in the speech is increased by the knowledge that over the week-end he and Monsieur Laval will discuss in Paris the situation in regard to the East African dispute. Mr Anthony Eden will also take part in the debate.

At the moment many rumours are current as to the Paris discussions proceeding between the British and French experts for the purpose of coordinating ideas as to what would constitute a reasonable basis for an ultimate settlement. In view of these rumours it seems necessary to emphasise that the discussions are still continuing and that although it is understood some progress has been made nothing in the nature of a complete plan has as yet been involved.

In regard to the forthcoming meeting of the League Committee of Eighteen which is to consider an extension of the list of goods under embargo to include oil and other key commodities the attitude of the British government is that they are, as they always have been, prepared to take their share in any collective action which may be decided upon by States who are members of the League.

IMPORTANCE OF THE LEAGUE OF NATIONS

The importance to smaller nations of the League of Nations was emphasised by General Smuts in a speech at Pretoria yesterday.

He said that the government of the Union of South Africa continued to support the League not because of any hatred towards any Nation but because they were realizing the power of the League to protect smaller nations.

TRANS-ATLANTIC AIR LINE.

Conversations regarding the possible establishment before long, of a trans-Atlantic air line began to-day in Washington between representatives of the British, Irish Free State, Canadian and United States governments.

The British mission is headed by Sir Donald Banks Director General of the Post Office and Colonel Shelmerdine Director General of civil aviation.

An agreement regarding a possible air service over the northern route has already been reached between Britain, Canada, Newfoundland and the Irish Free State.

Questions of some complexity are involved in the Washington talks but airmen on both sides of the Atlantic are convinced that trans-Atlantic services could be maintained and that assistance of the Governments is alone required.

MOVEMENTS OF BRITISH WARSHIPS.

Certain British warships now at Gibraltar are going for a short routine cruise for the benefit of the crews of the ships concerned.

The Hood is going to Madeira, the Renown to Tangiers and four destroyers to Huelva (Spain). When these ships return to Gibraltar other vessels there will make similar cruises.

The movements are of an entirely routine character and have no other significance.

KILLED AND INJUREDIN ROAD ACCIDENTS.

The road accident figures for Britain during last week were 140 killed and 4,021 injured compared with 164 killed and 4,203 in the preceding week.

In the Metropolitan district figures were 16 killed and 1,111 injured compared with 26 killed and 1,128 injured in the previous week.

THE LATE SIR ROGER CASEMENT.

The mortal remains of Sir Roger Casement are to be removed from the burial ground at Pentonville prison and taken to Ireland for an honourable burial.

It will be remembered that in 1916 Sir Roger Casement endeavoured to make a secret landing on the Irish coast from a German submarine, he was however discovered and was later executed for high treason.

WAR NEWS.

Southampton : Interesting side-lights on the Abyssinian campaign is afforded by statements made by General Virgin of Sweden who was adviser to the Emperor of Abyssinia.

General Virgin said that the concentration of Abyssinian troops is now complete.

The Italians have not penetrated more than sixty miles and the Abyssinians were about to launch their first massed attack to drive them back.

He added that he felt sure that the Emperor would be willing to make a territorial concession to Italy.

Rome : Despatches give no news of any importance and it is learned that the new Commander-in-Chief is strictly controlling all press despatches from the war area since his staff had ascertained that the Abyssinians were making use of this information for moving their own troops to places of attack against the Italians.

MASSED MEETING OF 40,000.

At Crete the stronghold of Venizelos a mass meeting of 40,000 Greeks expressed their loyalty to their popular monarch when a storm of cheering was led by Republican officers who had been allowed to return home.

EXTRACTS FROM SIR SAMUELHOARE'S SPEECH.

The League has already agreed to an embargo in principle and I would like to make it quite clear that no one Government is any more responsible than another.

When the meeting for the purpose of discussing the actual application of this form of pressure takes place we shall be prepared to take our share in whatever collective action is determined. Meanwhile let me dispose of the charge that British oil companies are exploiting the situation, in point of fact there has in the last quarter been a great increase in oil exports to Italy, but this increase has not come from companies in which Great Britain is interested. To take the case of one company the quantities of oil shipped by this company to Italy has in fact during the first eleven months of this year been considerably less than the amounts exported to Italy during the corresponding period of 1934. This reduction has been particularly marked during the three months from August to October.

The world urgently needed peace. Britain and France acting on behalf of the League were determined to make another great effort for peace.

We have no wish to humiliate Italy nor to weaken Italy. Indeed we are most anxious to see a strong Italy in the world, Italy that is strong morally politically and socially and that is able to contribute to the world invaluable assistance. I appeal once again to Signor Mussolini and his fellow country men to dismiss entirely from their minds the suspicion that we have sinister motives behind our support of the League.

We have not the least desire to interfere in the affairs of Italy and we are most anxious to see a strong Italy governed by a strong government in whatever form the Italian people may desire.

So long as collective action is needed, the League including ourselves is bound to proceed under the Covenant, nor is there any likelihood that the League will weaken.

SUBSIDY OF £1,500,000.

In the new air navigation bill shortly to be introduced in the House of Commons, powers would be given to the Air Minister to make long term subsidy agreements with transport undertakings. Subsidies may amount to £1,500,000 yearly and may be included in agreements which will extend to the year 1953.

ITALO-ABYSSINIAN DISPUTE.

London : The Anglo-French peace plan for Abyssinian settlement upon which the Foreign Office experts are working will be placed before Sir Samuel Hoare and M. Laval at Saturday's meeting in Paris.

Official circles consider that some exchange of territory would be accepted by both sides as an honourable and free settlement. Meanwhile it is denied that France replied to new British proposals and affirmed no joint proposals submitted to Mussolini although Laval has been endeavouring to obtain through the Italian Ambassador Cerruti some indication of what the Duce would accept and has given Cerruti vague outlines of the French and British ideas on the subject.

According to the Daily Telegraph correspondent, in Rome, the Italian attitude is determination not to accept the suggested plans and does not see that these pave the way for peace but it is thought probable that Mussolini will give a decision on the proposals when the Chamber meets on Saturday.

HOPES OF SETTLEMENT IN NORTH CHINA.

Shanghai : Hopes of a settlement in the North China situation where Nanking is resisting the independence movement which is supported by Japanese military pressure is now centred in negotiations between War Minister Ho Yingching and the Japanese military authorities, but renewal of the Japanese pressure including demonstration flights over Peking has created a pessimistic feeling.

LABOUR GOVERNMENT IN NEW ZEALAND.

Auckland : New Zealand's first Labour Cabinet under Premier Savage has complete confidence of its followers and respect of its opponents. Many important announcements are expected but it is stated that the Cabinet will endeavour to improve overseas trade relations and consolidate the Empire trade relations.

FRENCH DEBATE CONTINUES.

Paris : Another day of heated debate in the Chamber on the Fascist league's suppression terminated without a vote and the discussion is being resumed on Saturday (to-day).

Everything apparently depends upon the Radical Socialist block and their meeting last night addressed by Herriot was dissolved without a definite programme.

His Excellency the Governor returned to Stanley yesterday.

KING EDWARD VII MEMORIAL HOSPITAL,

STANLEY.

TWENTY FIRST ANNIVERSARY.

This Hospital was first opened for the reception of patients exactly twenty one years ago.

Since that date two thousand and eighty patients have been admitted and treated, the first case being the wounded from the Battle of the Falkland Islands. On the 9th of December 1914, six men off H.M.S. "Kent" were admitted suffering from multiple burns. On the following day five more cases of general injuries were taken in off two other ships one case from H.M.S. "Canopus" and four cases from H.M.S. "Glasgow". It was not, however, until the 11th May, 1915 that civilians were admitted, several being transferred from the Victoria Cottage Home, then situated in the Dockyard.

That small hospital was considered unsuitable for the requirements of the Colony and in May, 1911 a committee was formed to raise funds by public subscription for the building of a better and larger establishment; the committee consisted of the leading people under the chairmanship of the Right Reverend, Dean Seymour.

The work of raising funds was greatly assisted by the generous gift of Mr George Bonner, that of the land on which the hospital now stands. This offer was accepted by the Government and the work of pegging out the foundations of the new building began in December, 1911.

During the year 1912 further developments were made in the scheme and further funds were raised. These funds were augmented by the Pacific Steam Navigation Company, who announced that they would make a gift of one hundred guineas and convey freight free from England, any equipment for the hospital. The Government made generous contributions to the scheme both in money and in kind, in the form of skilled masons and carpenters.

In the hospital porch there is a book showing the names of one thousand, five hundred and eighty persons, who have subscribed to the King Edward VII Memorial Hospital Building Fund.

The work of building continued by seasonal stages throughout 1913 and 1914, until its completion at the end of the latter year, fortunately prior to the Battle of the Falkland Islands on December the 8th. twenty one years ago.

It has been found necessary further to enlarge the present hospital, and building operations are now in progress. It is hoped that they will be completed during the next two years.

CHILDREN'S PARTY.

Although Saturday did not appear a very bright day to the average person it was quite a fine day to the children who were entertained by the Stanley Benefit Club to a party.

The children might have got wet in getting to the Town Hall but that affected them, not at all, in fact it was all in the days sport. Before two o'clock quite a number of children had arrived and by three o'clock the party was in full swing, admitted there are no roundabouts and swings but once the children get together they make their own fun.

At four o'clock crowds of beaming faces sat down to their own special tea and they certainly done the spread justice.

After tea the children continued their games in which many helpers done their best to make the children's party go with a swing.

Inbetween the games was the scrambles that all the children love, the scramble for sweets. The children's motto on Saturday was, we are only young once, and they kept to it right to the end when they dispersed tired but happy after a very enjoyable party.

In conclusion I am sure the children, one and all are very grateful to all members of the S.B.C. and many others who helped to make their party, such a splendid success.

WAR NEWS.

Addis Ababa : It is reported that ten Italian aeroplanes bombarded the town of Dessie dropping over a thousand bombs.

Thirty-two persons are reported killed and over two hundred injured.

The royal Palace was set on fire, an American hospital outside the town was also hit and was evacuated when in flames, a Swedish nurse was rendered limbless while French and Belgian pressmen who were under canvas in the hospital compound were seriously injured.

The aeroplanes attacked at over two thousand feet.

A Geneva report states that the reception of the cable from the Emperor of Abyssinia protests against the bombing of open towns and cities.

A Washington message states that the incident has caused grave concern in official circles and it is felt that the raid if all reports are correct is very injurious to Italy's prestige.

THREAT TO BLOW-UPGERMAN LINER.

The New York police received anonymous warning of a plot to blow up the German liner Bremen.

This resulted in considerable coastguard and police activities but the vessel berthed without incident.

A protective cordon is being maintained until the liner sails.

SEARCH FOR THE ANTARCTICAIRMEN.

The New Zealand government has announced their willingness to cooperate in relief expeditions searching for Ellsworth and Kenyon.

The expedition is to be arranged by the Imperial and Commonwealth governments.

Cairo : Rioting occurred during the week-end during which three British were seriously injured.

ST. MARY'S SCHOOL.

On the 5th of December, 1935, the annual prize giving ceremony took place at St Mary's School.

The Hon. M.C. Craigie-Halkett O.B.E., presided on behalf of His Excellency the Governor who was on tour in the Camp. A considerable number of people attended the ceremony and witnessed an excellent entertainment given by the pupils.

After distributing the prizes the Hon. M.C. Craigie-Halkett said :

We must thank the Sisters and the pupils for the excellent entertainment which has been given for our benefit.

The Governor who as you know takes a keen interest in all that concerns the welfare of the Colony will I feel sure regret that circumstances have prevented him from presiding at this ceremony. On His Excellency's behalf I congratulate the Sisters on completing yet another year's good work in the Colony. I believe it is now 30 years ago since the Sisters first commenced teaching in this Colony and during that period a generation of children have passed through their hands. They have the satisfaction of knowing that many of these have done extremely well.

We regret that owing to ill-health Father Migone has been unable to be with us to-day.

In wishing the Sisters and St. Mary's School all success in future, I now take the opportunity of reminding you that their annual bazaar takes place on the 18th of December. The Sisters will be most grateful for your support. Remember that anything you give will help them to continue their good work in the Colony.

On the conclusion of the ceremony those present visited the exhibition of school work.

WAR NEWS.

Rome : The Italian newspaper "Popola" states that in spite of the injustice of the Versailles Treaty, Italy had generously given her collaboration for European peace.

The ignominious sentence of Geneva has destroyed this collaboration. Without Italy Europe will never have peace and in hours of torment will not have the moral right to ask for assistance from Italy.

Rome : A cable from the Commander-in-Chief of the Italian force states that there is an increasing number of encounters between Italian patrols and detachments of the Abyssinians along the whole Eritrean front and it is claimed that the Abyssinian attacks were repulsed everywhere.

Italian aeroplanes surprised and bombed a column of Abyssinian troops marching between Gondar and Dabat. Aeroplanes are also reported to have discovered a new Abyssinian camp outside the town of Dessie. The camp's strength is estimated to be in the region of ten thousand Abyssinian troops. The aeroplanes although hotly attacked by anti-aircraft guns succeeded in bombing the camp, doing much damage.

Further reports state that the capital of the Tembien region has been captured by Italian native troops and that 85 Abyssinian soldiers were taken prisoners.

Rome : Four million Italian farmers held a massed meeting on Friday when they declared to work in cooperation to obtain a greater agricultural return which will help the nation to fight sanctions.

Rome : One Italian newspaper points out that British anti-Italian propaganda has been extended to all British Dominions and Colonies, raising against Italy the spirit of Imperial British prestige. One no longer examines the conflict as between Italy and Abyssinia but as a conflict between Italy and Britain.

In British propaganda the Anglican Church participates. The clash between Britain and Italy therefore also becomes a clash

between the Anglican Church and the Roman Catholic Church.

Addis Ababa : It is reported that the Emperor had a very narrow escape when nine Italian Caproni bombers attacked the Abyssinian headquarters at Dessie. Several hundred bombs were dropped and it is stated that the Emperor's Palace at Dessie has been totally destroyed but the Emperor with his son and staff had taken shelter until the bombardment was over and remained unhurt.

Addis Ababa : The total number of casualties from Friday's and Saturday's air raid in which eighteen Italian aeroplanes took part is now stated to be 90 killed and 340 wounded. The Abyssinians claim to have shot down one Italian plane.

The American hospital at Dessie which was wrecked by Saturday's aerial bombardment is carrying on their work under a shattered roof. The hospital is packed with victims of the air raid and already doctors have carried out thirty two amputations. A mother and two babies were decapitated during the raid and many natives were rescued from the burning debris of their homes.

The Ethiopian Legation in London has issued an official statement on last week's air raids. The statement is signed by a number of doctors in the Red Cross service at present in the war areas.

The Italian Embassy denies the bombing of the hospital and adds that the Italian government had not been informed of the presence of an American hospital in the town of Dessie.

BRITISH AND FRENCHCONVERSATIONS IN PARIS.

The proposed basis for negotiating a settlement of the Italo-Abyssinian dispute has been reached as a result of conversations between Sir Samuel Hoare and Monsieur Laval which began Saturday and concluded last evening. The basis will be examined Monday by the British cabinet. A statement issued at the close of the conversations yesterday made it clear that there could be no question at present of publishing formulas arrived at and that once an agreement of the British government was received they would be submitted for consideration of the interested governments and to the decision of the League of Nations.

A full account of the week-end discussion and of the resultant recommendations were brought to London last night by Maurice Peterson, Foreign Office expert who has been engaged in preliminary consultations with experts of the French Foreign Office in Paris.

The British government's decision in regard to the plan will at once be conveyed to Paris. If it indicates approval formulas will be placed before Signor Mussolini in the name of both the French and British governments at the earliest possible moment. They will also be submitted to the Emperor of Abyssinia and steps will be taken to ascertain whether a settlement on the lines projected would have the approval of the League of Nations.

Newspapers attach special importance to the fact that the French government as a result of the Paris conversations has consented to join Britain in making a final strong appeal to Mussolini. The latter's speech in the Italian chamber on Saturday is examined by newspapers as to the possible outcome of this appeal. His reference to a slight improvement is noted but a stiff attitude in regard to the proposals now to be submitted is kept a close secret. The press has been urgently requested not to speculate concerning them and any reports professing to reveal them must be regarded as pure conjecture.

NAVAL CONFERENCE IN LONDON.

The first plenary session of the Five Power Naval Conference was opened this morning in the Locarno room of the Foreign Office when the Prime Minister Stanley Baldwin welcomed the delegates.

The Conference is for negotiation of a new international treaty for the limitation of naval armaments to take the place of the Washington and London treaties which expire at the end of next year.

In view of the Japanese decision to terminate the Washington Treaty the task before the Conference will be that of devising some new method of controlling naval armaments to replace that laid down in the expiring treaties were based on acceptance of a fixed ratio of strength between Britain, United States and Japan commonly known as the 5 - 5 - 3 ratio.

The course of the Naval Conferences preliminary to the present Conference was referred to in Mr Baldwin's opening speech. After cordially welcoming the delegates he recalled that the treaty which resulted from the London Conference six years ago provided for holding of another Conference between the same powers in the present year.

The Washington Naval Treaty of 1922 also contained the provision the effect of which has been to necessitate the holding of a conference this year. "There was therefore a double obligation upon us to meet again in conference to carry on the work of the previous conferences and to do what is in our power to avert the calamity of a return to unrestricted naval competition throughout the world.

During the last two years we have been engaged in preliminary conversation designed to prepare the way for the present Conference. I think it would be useful if each delegation which so desired would at the present sitting give a brief outline of its position."

SENATE CHEERS THE DUCE.

Rome : The solemn opening session of the Senate on Monday was attended by the Crown Prince and four other members of the Royal family.

President Federjoni in his opening speech won the applause of the entire house when he declared that the whole world could see that the Italian people were bound to its Royal House in bonds of affection. Similarly the whole house

re-echoed with cheers when Federjoni said the Italian people had boundless faith in Mussolini and his policy.

The only speaker of the day was Admiral Thaon de Revel who amid resounding cheers declared that Italy would not give up the struggle which involved both its honour and its future, whereupon a motion expressing unlimited confidence in the Duce was passed unanimously.

Mussolini, who was visibly moved, thanked the Senate for the spontaneity which had proved that the assembly fully realised what was at stake. The Senate could rest assured said the Duce that Italy's interests in Europe as well as in Africa would be valiantly defended.

The Senate meets again on Tuesday in a secret session to vote for special estimates for the cost of the African campaign.

At the close of the Senate proceedings an official statement was issued to the effect that the Italian Government had not as yet received any communication about the proposals drawn up in Paris for the solution of the Abyssinian question.

Signs of goodwill were however evident on all sides but everything would now depend on whether the Franco-British proposals satisfied the minimum demands of the Italian people. Moreover it was officially stated that it is unknown here whether the Paris proposals after being passed by the British Government would be made known to the Italian Government in Rome or be handed to the Italian Ambassador in Paris.

SIR SAMUEL HOARE'S &

M, LAVAL'S PROPOSALS.

The formulas of a proposed basis for a negotiated settlement of the Italo-Abyssinian dispute approved by two statesmen for submission to the interested parties, were the subject of a question by the leader of the opposition Mr Attlee in the House of Commons yesterday afternoon.

The Prime Minister Stanley Baldwin in reply referred to the statement issued at the close of the conversations to the effect that there could be no question of publishing the terms of proposals which had yet to be approved by the British Government and said that the documents drawn up in Paris had reached London early Tuesday and were receiving urgent consideration. He would prefer not to make any further statement at the moment.

Earlier to-day the Prime Minister had a consultation at 10 Downing Street with the Minister for League Affairs Mr Eden and Mr Peterson head of the Abyssinian department of the Foreign Office who returned from Paris overnight, and this evening the Cabinet met at the House of Commons to consider the proposals in detail.

The peace terms are believed to embody limited rectification of the Italo-Abyssinian frontier and the formation of a chartered company to develop fertile tracks in the neighbourhood of Lake Rudolph adjoining the Kenya border, but it is not thought probable that the mediating Governments would propose the cession to Italy of the whole Tigre province, as the Ethiopian Emperor is not expected to accept this except by force of arms.

Similarly it is understood that France will support the imposition of oil sanctions should Mussolini reject this opportunity for a negotiated peace settlement.

There is pronounced optimistic feeling in Italian circles says a Rome message.

EMPLOYMENT & UNEMPLOYMENTIN GREAT BRITAIN.

The Ministry of Labour estimates that at the twenty-fifth of November there were approximately 10,537,000 insured persons aged sixteen to sixty-four in employment in Great Britain. This was 45,000 more than at the twenty first of October and 315,000 more than the year before.

The number of employed persons on registers in Britain at the same date totalled 1,918,562 comprising 1,617,237 wholly unemployed, 221,443 temporarily laid off and 79,882 normally in casual employment. The total was 2,172 more than at the twenty first of October but 202,223 less than a year before.

NAVAL TONNAGE.

Referring to the Naval Conference a Paris newspaper has issued to-day figures concerning the present tonnage of various navies including vessels under construction.

Great Britain	1,362,526.
United States	1,371,510.
Japan	830,709.
France	709,076.
Germany	254,949.
Soviet Russia	189,344.

THE GRAF ZEPPELIN.

Friedrichshafen : The Graf Zeppelin which only recently accomplished its five hundredth voyage, celebrated another jubilee on Tuesday on returning here early Tuesday morning from Pernambuco thereby completing its fiftieth round trip to South America.

The Graf Zeppelin will now enter her winter quarters to undergo a thorough overhaul already for next season's work.

Boxing : Featherweights. Sharkey of Newcastle outpointed Crowley of Clerkenwell in a twelve round contest.

GIRL STUDENTS JOIN IN RIOTS.

Cairo : The third day of rioting was marked by intrusion of girl students into the conflict when 800 joined demonstrations who stoned the police and fired on public vehicles. It is understood Wafdists and Liberals are negotiating for united front and demanding immediate return of 1923 constitution.

A later message from Cairo adds that one student was killed and several others seriously wounded in the rioting. A police officer on being violently attacked drew his revolver, firing several rounds; one student was hit in the shoulder by one of the shots and later died of his wounds.

CHRISTMAS AIR MAIL.

The Croydon Christmas air mail service broke all records on Saturday when the aeroplane took on board two tons of cargo consisting of 159,000 letters.

It is hoped to deliver the mail in Australia by December 19th.

EIGHTY-EIGHT PERSONS KILLEDBY AVALANCHE.

Moscow : Eighty-eight persons have been killed and forty-four injured in the town of Kirovsk on the White Sea by a formidable avalanche from Mount Yukspor just outside the town.

The avalanche completely swept away two houses and seriously damaged a third. Desperate efforts by a rescuing party numbering two thousand men to extricate the victims buried under huge masses of snow proved unavailing.

The Soviet Russia Government has decided to allocate three hundred thousand roubles for relief for the families of the victims.

### LONDON & PARIS PROPOSALS.

London : A further meeting of the Cabinet was held yesterday at which the examination of formulas for a negotiated settlement of the Italo-Ethiopian dispute, drafted during the week-end conversations in Paris, and referred to London for approval, was continued. The draft is a result of the joint efforts of the French and British governments to find a basis of settlement which may prove acceptable to Signor Mussolini and the Emperor of Ethiopia, as well as to the League of Nations.

A consultation on the points of the procedure, which are an essential factor in the suggested arrangements, is still proceeding between London and Paris, and the matter may again come before the Cabinet at its usual weekly meeting to-morrow.

The texts of the proposed formulas have not been published but reports emanating from Paris, and professing to summarise their substance, have received wide currency. Considerable criticism, based upon these unconfirmed reports has been aroused, and the situation which has arisen was the subject of questions which were answered in the House of Commons yesterday afternoon by the Prime Minister. At their conclusion the leader of the opposition, Major Attlee, announced his intention of raising the matter on motion for the adjournment of the House that evening. He also asked the Prime Minister at the House of Commons whether, before any further action was taken, the house would be informed of the nature of the proposals for the settlement of the Italo-Abyssinian dispute.

Mr Baldwin replied that the House was aware that the committee at Geneva has approved of the negotiations by the French and the United Kingdom Governments in attempting to find a basis for a settlement of the dispute. Such basis would, of course, have to be submitted for the views of the parties concerned.

The Foreign Secretary, in passing through Paris, had conversations on this subject on Saturday and Sunday with Monsieur Laval.

Certain proposals, both as to substance and procedure, were discussed between them. No suggested basis at present has been submitted to either Italy or Abyssinia and it would clearly be premature to make a statement on the subject at present.

### A LATER MESSAGE FROM LONDON

#### ON PEACE PROPOSALS.

The Anglo-French peace plan for Abyssinia is the centre of intense diplomatic activity.

Sir Robert Vansittart after a meeting with M. Laval stated that both governments are in complete agreement. The terms will be communicated to Rome and Addis Ababa immediately and simultaneously.

Reliable circles in Rome believe Mussolini will not reject the terms outright but will accept them as a basis for negotiation.

On the other hand the Ethiopian Legation in London states that their government will condemn any plan involving the sacrifice of territory to an unlawful invader.

Dismay prevails in League quarters states a Geneva message with Russia, Poland, Roumania, Denmark and Turkey disapproving of the reported proposals and considering boycotting any Council meeting which discusses them.

The United States is stated to be astonished by purported details of the plan and while it is realised that the facts are possibly distorted The Herald Tribune is bitterly protesting at the spectacle of the great powers sworn to protect Abyssinia "offering to reward the aggressor by ratifying his title to large tracts of Abyssinian territory."

### FURTHER PARDONS FOR POLITICAL

#### OFFENDERS.

Athens : His Majesty received representatives of labour bodies who conveyed good wishes and loyalty of Greek workers to the King, who subsequently gave assurances of paternal feelings towards the labouring classes.

Further amnesties for political offenders are being drafted.

GRAVE AIR DISASTER.

London : A grave air disaster was reported on Tuesday, when a Belgian air liner travelling from Brussels to England crashed in Kent and all on board are reported to have been killed instantly.

It appeared that the aeroplane had been in wireless communication with Croydon aerodrome and with the exception that the machine seemed to be off her course everything else was believed to be in order.

The aeroplane was a three engined machine and of Italian manufacture.

RETIRING COMMANDER-IN-CHIEFRECEIVES GREAT OVATION.

Rome : Marshal De Bono the late Commander-in-Chief of the Italian forces in East Africa was given a great ovation when he made his first appearance in the Senate on Tuesday on his return from Africa.

The president of the Senate said, this ovation by the Senate was in recognition of the Marshal's distinguished services in saving the honour and prestige of the Italian colonies on the battlefields of Adowa.

The Marshal in reply said the ovation is not due to me but to the troops in East Africa who through all kinds of conditions of work and weather had carried their flag laughing and singing all the way to victory.

90,000 TROOPS OCCUPYKUYUAN.

Peiping : It is reported that Manchukuoan troops are still holding the city of Kuyuan in south-eastern Chabar. The city was taken by a force of 90,000 men. Cavalry, tanks and aeroplanes took part in the attack.

SUMMERS & HILLS.

COAL MINE EXPLOSION.

Alberta, Canada : A coal mine explosion occurred yesterday trapping thirty men.

The explosion was at a depth of 600 feet. Fourteen of the men managed to escape but it is regretted that the remaining sixteen lost their lives.

Madrid : The former Premier Chapaprieta whose government resigned yesterday has declined the offer of forming a new Cabinet, and the President has invited the ex-Foreign Minister Velasco to do so.

Marseilles : Dockers have brought work to a standstill owing to a massed strike against the reduction of wages.

WAR NEWS.

Rome : The imports of all British newspapers into Italy with a few exceptions is now forbidden as a measure against sanctions.

Among those papers exempted from the embargo are the Daily Express, Daily Mail, Morning Post and the Observer.

Addis Ababa : The British Legation has been informed that all British subjects or persons under British protection who have left Abyssinia since the outbreak of hostilities will be compelled to stop out of the country until the conflict ends.

The Abyssinian government has also refused to take the responsibility for any British property which has been left by those persons who fled from the country.

Addis Ababa : News was received in the capital that the Italian air force was preparing for an aerial bombardment of Addis Ababa, steps were immediately taken to evacuate the civil population and thousands of inhabitants have now left the capital for neighbouring mountains, they were accompanied by a long file of vehicles of all descriptions carrying their possessions.

Addis Ababa : Further reports of encounters between the enemy forces were published to-day in foreign newspapers, when it was stated that the Abyssinians claim a victory near Makale where the Italian forces were put to flight leaving behind killed and wounded as well as a quantity of war material.

Rome : An official war communique reports guerilla warfare in the region of the Takasse River with casualties on both sides.

LONDON NAVAL CONFERENCE.

London : A Japanese newspaper has predicted a breakdown in the London Naval Conference.

JAPAN AND NORTH CHINA.

Peking : The Daily Telegraph correspondent states that the Japanese have warned North China authorities that no further anti-Japanese student demonstrations will be tolerated and it is implied that steps will be taken to maintain order should such outbreaks re-occur. The Japanese military spokesman ascribes demonstrations to communists.

Addressing the Royal Empire Society in London Sir Cecil Clements a former Governor of Hong Kong stressed the necessity for negotiating with China for cession in perpetuity of leased territories in Kwantung if in future grave danger is to be averted.

MADISON SQUARE MEETING.

New York : The Socialist leader Thomas addressed 20,000 people in Madison square garden advocating the realignment of the Communist and Socialist parties for united action against war and Fascism.

In recognising the Communist swing towards moderation he demanded good faith pledges, but stressed the time opportune for parties reconciliation for the establishment of political independence.

KING FUAD RECEIVESBRITISH AMBASSADOR.

Cairo : Leaders of the various parties held a meeting on Wednesday at the invitation of the Wafdist leader Nahas Pasha, and it is probable that a united front will be achieved for a move to restore the 1923 constitution.

King Fuad received Sir Miles Lampson and Premier Nessim Pasha but the general feeling is that all parties appreciate the complications of the present international situation and are anxious not to obstruct British measures.

SHOOTING MATCH BETWEEN.

THE "D'ENTRECASTEAUX" AND THE FALKLAND ISLANDS DEFENCE FORCE.

Although the weather conditions were anything but favourable for shooting on Thursday a very pleasant afternoon was spent on the Rifle Range when a team from the French Naval vessel "D'ENTRECASTEAUX" were entertained at a shoulder to shoulder shoot by a team from the Falkland Islands Defence Force.

The competition was a service shoot at 200 and 300 yards seven rounds and one sighting shot at each distance.

The adverse weather made accurate holding difficult. The sailors team elected to shoot with the rifles supplied by the Defence Force the sighting of which they were not wholly conversant with.

Under this severe handicap an accurate judgment of their abilities as marksmen could not be estimated but they made a bold effort and showed remarkable keenness throughout the competition.

His Excellency H. Henniker-Heaton, Esq., C.M.G. Governor and Commander-in-Chief, also the Commanding Officer Major the Hon. M.J. Stewart were present and took a keen interest in the shoot. At the end of the competition both teams were entertained to tea at the Pavilion on the Range.

The scores were :

WEEKLY CABINET MEETING.

The weekly meeting of the Cabinet was held earlier than usual yesterday to enable Mr Eden to attend before leaving for Geneva, where he will represent the British Government in the discussions on the Italo-Ethiopian dispute.

The immediate business taking the acting Foreign Secretary is a meeting of the Committee of Eighteen called by its chairman Senhor Vasconcellos after several postponements to give further consideration to the extension of the list of key products, the export of which to Italy is prohibited by the Covenant enforcing States.

But Mr Eden reminded the House of Commons last night in the debate on the situation arising from the Paris conversations, he will also be in touch with representatives of other League members with whom he will have discussions, and in his own words "seek with them to discover the best course to pursue to further objectives which we have had constantly before us throughout these anxious months, the re-establishment of peace and maintenance of authority of the League."

Meantime formulas worked out in Paris as a suggested basis upon which the parties to the dispute might get together to negotiate an agreed settlement have been sent to representatives of the French and British governments in Addis Ababa and Rome for joint communication to the Ethiopian and Italian governments

PRIME MINISTER & PEACE SETTLEMENT.

In Commons to-day Mr Hugh Dalton asked for a further statement regarding the proposals submitted on behalf of the British and French governments for the settlement of war in Abyssinia.

The Prime Minister Stanley Baldwin said there was nothing to add to the statements made in yesterday's debate. He repeated that it was impossible to publish the proposals and added in reply to a supplementary question that it was impossible to say until Mr Eden got to Geneva whether the Committee of Five or the Committee of Eighteen would take the matter in hand.

Answering Sir Percy Harris who asked for assurance that no settlement of the Italo-Abyssinian dispute would be approved of by the British government which without the consent of the Abyssinian government violated territorial integrity or the commercial independence of Abyssinia, the Prime Minister recalled the statement of the Foreign Secretary Sir Samuel Hoare on December 5th. confirmed by Mr Eden in last night's debate that the policy of His Majesty's Government was that "any proposals that might emerge from these or other discussions must be acceptable to the three parties to the dispute the League, Italy and Abyssinia.

WIND TUNNEL FOR RAILWAYTESTS.

London : The Midland and Scottish railway has established a new research Laboratory, the main function of which will be to test the qualities of the chief materials used by the railways such as metals, woods, paints, varnishes and textiles.

The most modern scientific equipment for the purpose has been installed. There is also a wind tunnel in which the effects of "stream lining" can be studied and measured.

The Laboratory was formally opened by Lord Rutherford.

BROADCAST TO ELEMENTARYSCHOOLS.

The Secretary for India is broadcasting a talk on December 19th to boys and girls in elementary schools which is the conclusion of a series of broadcasts which elementary school children have been hearing in the last three months on the political and economic geography of India.

He will give the children a simple exposition of the Government of India Act in its relation to the lives of the Indian people.

THE COLONIAL SECRETARYANSWERS QUESTIONS.

The Colonial Secretary, Mr J.H. Thomas in reply to House of Commons questions stated the possibility of converting outstanding Colonial loans was under constant review and where option existed or was about to mature advantage was taken of the opportunity to convert or repay the loan.

In answering a further question Mr Thomas denied that Cyprus was to be handed over to Greece.

Wellington : The Labour Premier, Mr Savage in addressing departmental chiefs stated that there was no desire to sever connections even if we could with people of the British Commonwealth.

OBITUARY.

The Governor has learnt with much regret of the death at Barbados on the 31st October of Dr. F.W.G. Deane, Colonial Surgeon of the Colony from 1920 to 1927.

His Excellency has no doubt that the people of the Colony generally wish to associate themselves with him in expressing sympathy with Mrs Deane and Dr. Deane's children in their sad loss.

THE DEMOLITION OF A LANDMARK

COMMENCED NOVEMBER, 25th, 1935.

THE DEANERY.

Stanley is viewing with mingled sadness and relief the demolition of the old "Deanery", to make way for the new building which has been shipped by s.s. "Loriga". It is always sad to see old landmarks removed, doubly sad when they are associated with the great workers of the past, as this one was with the grand old Dean. The relief comes from the knowledge that the unhealthy ramshackle, patchwork of rooms is to give place to a habitable residence. For years attempts have been made to patch up the old Deanery and for that purpose hundreds of pounds have in effect been wasted. In 1902 Dean Brandon wrote "The house is composed of two small houses which were two of the first houses erected in Stanley; they were connected by the Reverend Mr Bull." "It has been the residence of the Colonial Chaplains since the appointment of the Reverend Mr Moody in 1845."

The place looks utterly forlorn, showing little more than its ribs. As the demolition has gone on the reasons for the depressing dampness, draughtiness and the unpleasant smells have become clearer - some packing-case walls, the floor of the kitchen right on the ground, piles of rat-carried bones under the boards, roofs imperfectly joined or covered, a whole cistern of water and mud trapped by the foundation of the room last added and so on.

Messrs. Thompson and Grierson hope to have the new building ready in about 12 weeks after its arrival which is expected early in January.

A DAY'S OUTING AT FOX BAYAND A GOOD CATCH.

On Sunday, 1st December a party set out from Fox Bay for a day's fishing. They included Mr & Mrs Myles, June and Betty Myles, Jack Johnson, and R. McLaren on horseback Jock McDonald and Mr Murphy walking.

On arrival at the Creek fishing rods were strung and the billy put to boil, Betty Myles catching the first trout, meanwhile under the skilful tuition of Mr McDonald with a short break for tea the party fished until 7.0 p.m. when they reluctantly called it a day.

The catch totalled 72 brown trout, admitted by the oldest member of the party to be the finest he had ever seen, some measuring 14 inches in length and weighing over a pound.

In the "Penguin" of November 16th an unfortunate accident was recalled when it was stated that in 1926 Mr Joe Faria fell face downwards when rolling a field at Port Howard and a 30 cwt. Cambridge roller went almost completely over him.

We have been asked to add that the roller went right over Mr. Faria leaving the imprints of him including mouth and nose etc. in the soft soil.

THE MEETING OF THE COMMITTEE  
OF EIGHTEEN.

When the League of Nations Committee of Eighteen met at Geneva yesterday afternoon statements regarding the situation arising from the Paris conversations were made by the French Premier M. Laval and Mr Anthony Eden the acting Foreign Secretary.

M. Laval said the proposals drawn up in Paris would be communicated to the League Council and the task of the French and British Governments would then be done. It would be for the League itself to decide the next move. He hoped the committee would recognise the loyalty of the effort which his government with the British Government had made.

Mr Eden recalled the unanimous good will with which the Committee at its last meeting had approved of the attempts to find a basis of discussion between Italy and Ethiopia and said "What the representatives of the United Kingdom and the French Governments had been seeking to do in Paris was to work out proposals that might be submitted to both sides upon which both sides might be willing to come together to open discussions here in Geneva. The proposals now put forward are suggestions which it is hoped will make possible the beginning of negotiations. If the League does not agree with these suggestions we shall make no complaint, indeed we should cordially welcome any suggestions for their improvement.

The policy of His Majesty's Government remains to-day what it has been since the dispute began. It is that a settlement must be acceptable to the League as well as to the two parties in the conflict. In these circumstances it seems to me that the best procedure to follow at present would be to call together a Council at the earliest possible moment in order that a full statement of the proposals should be made to it. It will be for that body to determine as and when it sees fit what course it would wish to pursue in light of the situation thus created and in advance I emphasise that so far as

His Majesty's Government are concerned we will not only readily accept judgment of our colleagues but we will continue to use our best efforts to further the two objects which have been constantly before us in this dispute, restoration of peace and maintenance of authority of the League."

The Polish delegate then declared that the Paris proposals had created an entirely new situation and urged that the Committee should abstain from any measures of political character until the Council had met and pronounced upon the situation.

The Committee appeared to agree with the Polish view and adjourned until Saturday when it will consider the report of the experts on the working of sanctions.

-----  
TRANS-ATLANTIC AIRMAIL SERVICE.

At Washington yesterday the Conference at which representatives of the United States, United Kingdom, Canada and the Irish Free State took part concluded and a communique containing the following was issued.

"Understandings have been reached which it is confidently hoped will bring about an early establishment of trans-Atlantic air transport services connecting these several countries."

It is expected that experimental flights will begin early in the summer of 1936 and it is hoped that a scheduled service will begin by the summer of 1937. When a full service is inaugurated it is understood that there will be four round trips per week.

-----  
London : In connection with the dispute arising out of the demand by mine workers for an increase in wages the colliery owners have invited representatives of the Federation of Mine Workers to a meeting. Nine representatives of each side will take part in the meeting which has been fixed for next Tuesday. A miners' delegate Conference is due to re-assemble to consider the whole question on the following day.

VISIT OF FRENCH NAVAL VESSEL"D'ENTRECASTEAUX."

The French Naval vessel "D'ENTRECASTEAUX" commanded by Captain A. de Lestrangle arrived in Stanley on Tuesday 10th December.

The "D'ENTRECASTEAUX" is a ship of 2,000 tons and carries a complement of 11 officers and 130 petty officers and men.

Her armament consists of three main guns, four anti-aircraft guns and one seaplane.

The vessel was launched in 1931 and completed in 1932.

Her first cruise was for a period of 25 months, and the present cruise which commenced on October 4th 1934 is expected to last for 2 years.

On Wednesday Captain de Lestrangle paid an official visit to His Excellency the Governor. The Captain was met at the Government jetty by Lt. A.I. Fleuret A.D.C. to His Excellency the Governor and escorted to Government House.

On Wednesday evening a Dance organised by the Falkland Islands Defence Force in honour of the visit of the French Naval vessel was attended by the Hon. M.C. Craigie-Halkett O.B.E. (representing His Excellency the Governor) and Mrs Halkett, Captain de Lestrangle, Major the Honourable M.J. Stewart Officer Commanding the Defence Force and Mrs Stewart, Officers and men of the ship together with a representative gathering of the residents. The Dance which everybody thoroughly enjoyed continued until 1.0 o'clock Thursday morning.

A football match arranged by the F.I.D.F. between teams of the Force and the "D'ENTRECASTEAUX" resulted in a win for the F.I.D.F.

On Thursday His Excellency the Governor accompanied by his A.D.C. Lt. A.I. Fleuret paid an unofficial visit to the ship. He remained on board for about an hour during which time he toured the vessel.

Members of the F.I.D.F. who were invited to visit the Naval vessel spent a most enjoyable time on board and appreciated very much the kind hospitality extended to them.

By kind permission of Captain de Lestrangle arrangements were made for children from the Government and St. Mary's Schools to visit the "D'ENTRECASTEAUX".

PROPOSALS ADVANCED AS BASISFOR END OF WAR.

The Governments of Great Britain and France agree to recommend to the Emperor of Ethiopia acceptance of the following exchange of territory between Ethiopia and Italy.

Firstly cession to Italy of the eastern Tigre approximately limited on the south by River Rhiva and on the west by the line from north to south passing between Axam on the Ethiopian side and Adowa on the Italian side. Secondly rectification of frontiers between Danakil country and Eritrea leaving to the south of the boundary a line Assua and extent of Eritrean territory necessary to give Ethiopia an outlet to the sea to be defined below.

Thirdly rectification of the frontiers between Ogaden and Italian Somaliland. The rights of tribes of British Somaliland to the use of grazing areas and wells situated in the territories granted to Italy by this delimitation should be guaranteed.

Fourthly Ethiopia will receive an outlet to the sea with full sovereign rights. It seems this outlet should be formed preferably by cession, to which Italy would agree, of the port of Assab and of strip of territory giving access to this port along the frontier of French Somaliland. The British and French Governments will endeavour to obtain from the Ethiopian Government guarantees for the fulfilment of obligations regarding slavery and arms traffic in territories acquired by them. The British and French Governments to use their influence at Addis Ababa and at Geneva to the end that a formation in southern Ethiopia of a zone of economic expansion and settlement reserved to Italy should be accepted by the Emperor and approved of by the League.

Limits of this zone will be :  
On the east, rectified frontier between Ethiopia and Italian Somaliland; on the north, eighth parallel; on the west, thirty-fifth meridian; on the south frontier between Ethiopia and Kenya. Within this zone, which

would form integral part of Ethiopia, Italy would enjoy exclusive economic rights which might be administered by a privileged company or by any other organisation which would be recognised subject to acquired right of ownership of unoccupied territories, the monopoly of exploitation of mines, forests, etc..

This organisation would be obliged to contribute to economic equipment of the country and to devote a portion of its revenues to the expenditure of social character for the benefit of the native population.

Control of the Ethiopian administration in the zone would be exercised under the sovereignty of the Emperor, by services of a scheme of assistance drawn up by the League of Nations. Italy would take preponderating but not exclusive share in these services, which would be under the direct control of one of the principal advisers attached to the central government.

The principal adviser in question who might be of Italian nationality, would be assistant for affairs in of chief adviser delegated by the League of Nations to assist the Emperor. The chief adviser would not be a subject of one of the powers bordering on Ethiopia.

Services of a scheme of assistance in the capital as well as in a reserved zone would regard it as one of their essential duties to ensure the safety of Italian subjects and free development of their enterprise.

ELECTRICITY IN POULTRY FARMING.

Electrically heated incubators are now being used to a great extent by poultry farmers, and electricity is also used, with satisfactory results, for rearing chicks in battery brooders and hovers.

The fact that the Corporation of Preston, Lancashire, alone supplied two hundred and ninety-eight poultry farms with an average annual consumption of nearly seven thousand units, shows that the stage of diffident experiment is now over.

SILVER FOX FARM

SHARES REDUCED.

Through the kind help of the Falkland Islands Government land has been acquired in the West Falkland for the establishment of a silver fox farm, and we feel quite confident that the people of the Falkland Islands will realise that the silver fox industry as a sideline to sheep farming will prove an exceedingly paying business for these Islands.

To enable everybody to enjoy the profits of this new industry we have reduced the shares to £10 (Ten Pounds) each. Anybody interested should call at the Ship Hotel between the hours of 7.0 and 8.0 p.m. when Mr. J. Schmitt will be available

HOUSE OF LORDS TRIAL.

Inaugurated this morning with picturesque ceremonial the trial of Lord de Clifford by his peers in the magnificent and impressive surroundings of the Royal Gallery of the House of Lords ended immediately after luncheon adjournment when he was acquitted of a charge of manslaughter arising out of a motor car accident in which he was involved four months ago.

The trial which has aroused much public interest is only the third of its kind to take place in the last 150 years.

The right of trial by peers was granted by King John in the Magna Carta in 1215.

NAVAL CONFERENCE.

Paris : Commenting upon the Naval Conference the journal "Le Figaro" takes the view that the Japanese menace will intensify Anglo-American solidarity which already is displaying itself in many directions.

The Anglo-American rivalry afloat has finished, it adds, and new perils are creating a bond between naval forces whereby the world is rapidly moving towards immense Anglo-Saxon alliance and as Dominions emancipate themselves the links between the United States, Great Britain and Dominions grow tighter.

ARSENAL'S SEVEN GOALS.

By scoring all seven Arsenal goals against Aston Villa on Saturday Drake created a new League record.

Despite expenditure of many thousands of pounds recently in effort to stem continuous run of defeats Aston Villa is still at the bottom of the division.

ACCIDENTS IN THE HOME.

4,770 Deaths Due to Falls.

Some striking facts concerning accidents in the home have just been published by the National Safety First Association. The largest cause of accidental deaths in the home is that of **fall**.

No fewer than 2,150 women died in England and Wales in 1933 from this cause, and 2,620 people of 65 years of age died as the direct result of a fall. Some of the possible causes of falls are given; for instance, loose or worn floor-covering, slippery surfaces, articles left about, falls from ladder insecurely placed, or through standing on unsuitable articles, and so forth.

Of 17,942 accidental deaths in Great Britain, in 1933, 8,000 occurred apart from traffic or industry, i.e., were due to accidents in the home and in everyday pursuits.

Approximately 2,000 of these deaths were to children under 15 years of age. Of 1,324 deaths due to burns, scalds and conflagrations, 625, or nearly 50 per cent., were of children.

Drowning takes an annual toll of nearly a 1,000 victims. In 1933 there were 799 male and 155 female deaths.

Deaths from suffocation numbered 389, of whom 328 were children, practically all under one year old.

FRENCH ARMAMENT FUND.

The French chamber to-day voted 377 for and 159 against for governments plan to establish armaments fund which will exceed 6,000,000,000 francs or approximately £80 million.

Minister of War Fabry appealed to the opposition not to make carrying out of arms plan more difficult while German rearmament is proceeding faster and faster.

A report on the Stanley Cup and prize competition held on the 15th December will if possible be published in our Wednesday issue of the "Penguin".

FIRE ALARM.

Shortly before 2.0 o'clock a fire was reported at the residence of Mrs McPherson.

It was thought to be serious but on the arrival of the fire-brigade with the fire engine it was found that the fire had been subdued by the use of the minimax.

DUKE OF YORK'S BIRTHDAY.

The Duke of York second son of the King was forty on Saturday.

Family presents from the King and Queen, from his daughters Princess Elizabeth and Princess Margret, from the Prince of Wales and other members of the Royal family reached the Duke on Saturday.

Messages of congratulation from all parts of the world were sent to the Duke.

ARGENTINE MARKET DEVELOPMENTS.

Buenos Aires : Sensational market developments followed Argentine decree raising guaranteed wheat price from 5.75 pesos quintal to 10.00 pesos.

The dealing took place at 10.15 pesos for February delivery.

Growers anticipate profit 100 million pesos on new crop as a result of the decree.

WORLD ARMAMENTS.

The world in 1934, spent £980,000,000 on arms - £100,000,000 more than in the previous year.

New York : The American continent is moving steadily away from Europe, according to the Geodetical Institute of Potsdam. The rate of its departure is calculated at 11.8 inches yearly.

We are privileged in being permitted to publish the following correspondence exchanged by His Excellency the Governor and Capitaine de Frigate de Lestrangle relevant to the recent visit of the French Warship "D'Entrecasteaux".

Government House,  
Stanley.

12th December, 1935.

Sir,

I have the honour of thanking you for your courtesy in taking a mail from this Colony to Montevideo.

I seize this opportunity of referring to the pleasure the visit of the D'Entrecasteaux has given to the people of the capital of these islands and to myself, and to express my only regret that the duration of your stay should be so brief.

I have the honour to be,

Sir,

Your most obedient servant,

(Sgd.) H. Henniker-Heaton,

Governor and Commander-in-Chief.

Capitaine de Frigate de Lestrangle,  
French Warship D'Entrecasteaux.

TELEGRAM.

To His Excellency the Governor.

14th December, 1935.

I greatly appreciated the honour of your visit on board D'Entrecasteaux and I wish to convey the very best thanks of myself, Officers and crew for the warm hospitality extended to us during our stay at Port Stanley.

Commander D'Entrecasteaux.

SCOUTING ACTIVITIES.

As Saturday 14th December, 1935 had every appearance of being a fine day various members of the 1st Stanley Sea Rovers, Sea Scouts, and Boy Scouts assembled at Headquarters at 2.0 p.m. burdened with the necessary requirements for a week-end "Camps Out" and one would imagine at first sight a little to spare.

The Trek Cart was duly loaded and we set off on what might have been a fairly strenuous hike but for the generous assistance per lorry by Mr Vere Summers via Rookery Bay Road to the East Wireless Station, arrived at Canopus Hut 3.45 p.m. hungry but happy. Preparations were then made to have supper. By this time it was raining, resulting in activities being kept indoors. Recruits were lectured on the Scout Promise and Laws. Various items of the Scout Tests were practised such as Knotting etc.

The predominating feature of the rainy hour was Sea Scout Thomas Hennah with a Camp Fire song book sitting on the edge of a bunk instructing remainder how to sing at Scout Camp Fires.

At 10.0 p.m. weather clearer so the camp fire was lit in the vicinity of Observation Hut. While burning everybody danced around it and did their best to sing aforesaid songs, the harmony of which I shall leave the public to guess. At 10.45 p.m. lights out and one might have heard the gentle snores of a well earned rest.

Sunday 15th.

6.0 a.m. Breakfast was partaken of thence a hike to York Bay Penguin Rookery where a couple of delightful hours were spent and various photographs were taken.

During the forenoon a sport of net-fishing was indulged in while cooks were detailed to prepare lunch.

During the afternoon committee-man J. Barnes and myself selected teams and had a football match. Visitors arrived and also took part. At 3.0 p.m. the camp was cleaned, trek-cart loaded and the trail set for Stanley. The going was strenuous but with the memory of the 8th Law (A Scout smiles and whistles under all difficulties) the pull seemed easier.

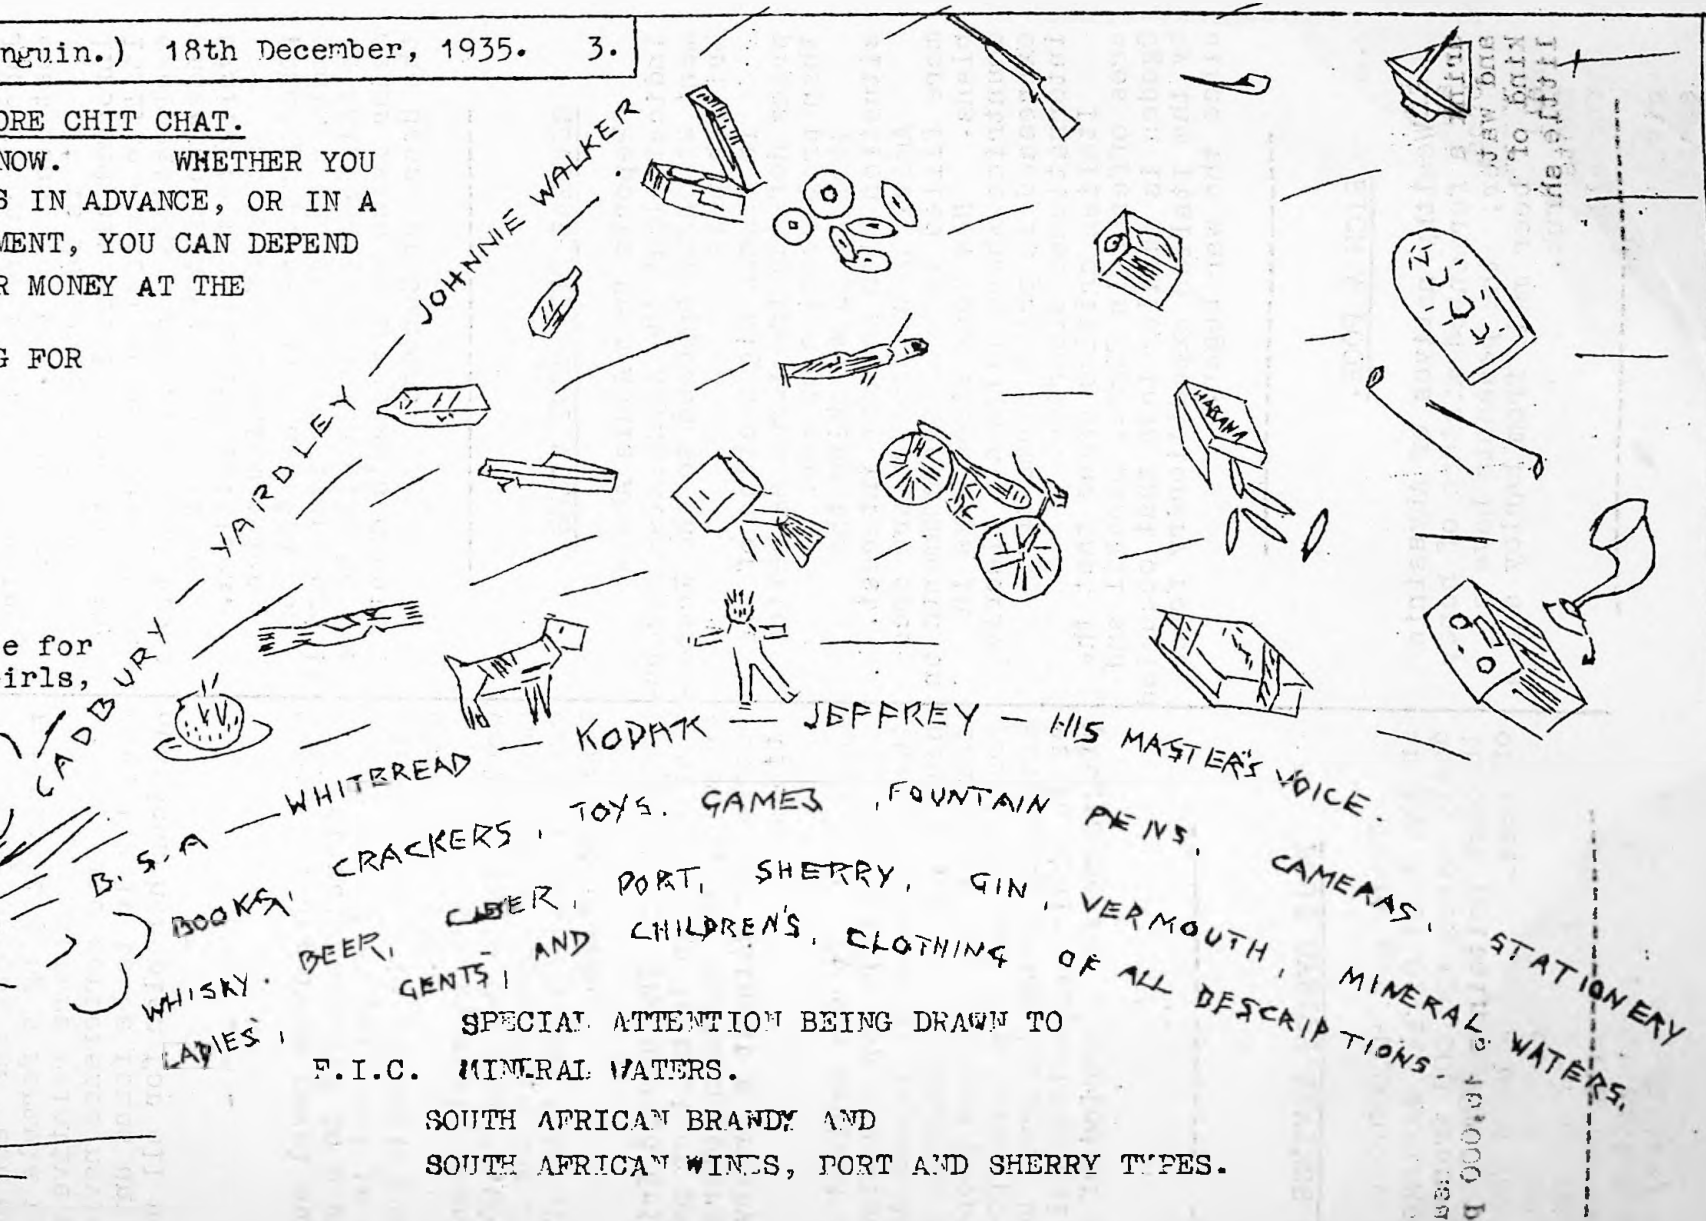

One might have seen us arriving under the strains of "Where have ye been

EMERGENCY CABINET MEETING.

London : An emergency meeting of the Cabinet was called on Monday to discuss the Hoare Laval peace proposals.

The Premier Stanley Baldwin returned from the country and saw Mr Eden. The Home Secretary Sir John Simon was recalled from the east coast for consultations.

It is reported from well informed circles in Rome that the Italian government requires further explanations concerning conditions under which Abyssinia will be available for Italian settlers.

Storm of criticism which peace proposals have created has another and much wider issue and it is this question which will be the major issue on Thursday's debate in the House of Commons.

SEVERAL DIFFERENT VIEWS.

Reports from Addis Ababa indicate that the Abyssinian government strongly opposed to the Franco-British plan.

In France big section of the press defends the terms as better than prolongation of war.

Germany is watching the situation with keenest interest.

American newspapers are once more filled with bitter comments on plans. New York Times says in countries where judgments clearly expressed in print terms are international disgrace.

Italian critics argue that the area offered in Tigre, Danakil and Ogaden is smaller than that occupied by the Italian expeditionary force since the war began.

RICH & POOR.

Wealthy natives of Abyssinia drink a fermented mixture of honey and water; the peasants have a kind of beer made from barley and a little shrub.

LONDON NAVAL CONFERENCE.

London : The Naval Conference may take a decisive turn this week. The Conference may abandon the search for a basis for quantitative limitation and concentrate on new rules for governing the size and armament of future fighting ships.

No progress has been made towards finding a formula for regulating future relative strengths of the five conference navies and none likely to be found until Japan abandons her plan for all round parity.

- o -

Tokio : Japanese naval authorities are entirely opposed to a general decrease of 20 per cent in all world fleets which is advocated by the United States.

They say it would mean that Japan would have to destroy 82,000 tons of modern warships while the U.S.A. could build 143,000 tons of new fighting ships.

New York : The Herald Tribune states that if Japan is bent on policy rule or ruin, the western powers would be better off without a treaty of limitations.

London : It was decided on Monday to discontinue for the time being the discussion of Japan's demand for parity and the Conference will now deal with the British proposal which provides that the naval powers should keep each other informed beforehand as to their respective building programme for a period of six years.

CLASS FIRING SURVEY.

## F.I.D.F. Shooting.

The Adjutant's report on the Defence Force Class Firing this season shows that the opening shoot was on the 13th October when No. 1 Platoon fired off their course. They were followed by No. 2 Platoon on the 3rd November, and No 3 Platoon on the 17th November. The Recruits and Casuals fired on other dates. As Captain Allan had not returned from leave, Lieut. A.I. Fleuret the Acting Adjutant put the members through their firing.

Out of 94 members who were available, 82 were exercised of whom 67 classified. 15 members failed to qualify, and 12 left on whaling or camp duties. Although it was cold, the weather was quite good throughout the whole of the classification period.

The highest scores made by individuals at each distance will be shown in the "Penguin" on Friday.

STANLEY CUP AND DEFENCE FORCE CLUBPRIZE COMPETITION.

Following its postponement on the 8th December last, the above competition was shot off on Sunday the 15th December, 1935.

Though very doubtful in early morning, the weather gradually improved as the day went on and by 9.30 a.m., had developed into an ideal shooting day.

Firing commenced at the 200 yards' range where 40 members recorded their scores, the highest of which were made by Cpl. W. Browning and Mr. J.R. Gleadell, who each put on 34 points out of a possible 35. Other good scores registered at this range were made by Mr. J.W. Grierson - 33, Pte. L. Reive - 33, Pte R.L. Robson - 33 and Pte. L.A. Sedgwick - 33.

On retiring from the 200 yards' range, great interest was shown in the draw for the team shoot in which all competitors were privileged to take part.

Firing progressed steadily at the 500 yards' range. Here again excellent scores were recorded, the highest of which was made by Mr. J.W. Grierson, who put on a possible of 35 points; which gave him a total score of 68 points for the two ranges. Other good scores registered at this range were made by Pte. L.A. Sedgwick - 34, and Pte. W.J. Summers - 33.

At the conclusion of firing at the 500 yards' range, the competitors withdrew to the Range Pavilion where a splendid luncheon was provided under the auspices of the Club, by Pte. Dennis Lehen.

After some 45 minutes' interval, firing was resumed at the 600 yards' range. Mr Grierson, firing in the first detail, scored an inner for his sighter and first to count and thereafter five successive bulls which gave him a score of 97 with a shot to fire. Great interest was centred on this shot, which, if a bull were registered, would give Mr. Grierson a grand total of 102. Unfortunately fate intervened and a magpie was signalled giving him a grand total of 100 points.

During firing at the 600 yards' range, Major the Hon. M.J. Stewart, Commanding Officer, visited the Range and witnessed with interest the conclusion of the competition. The highest scores recorded at this range were made by Pte. E.J. McAtasney - 34, Pte. W.J. Summers - 34, and Lieut. A.I. Fluere - 33.

The competition concluded with Mr. J.W. Grierson the winner by a margin of two points from Ptes. E.J. McAtasney and W.J. Summers, who each scored 98 points.

Mrs. Stewart, who was introduced by Capt. W.M. Allan, kindly presented the prizes, after which Major the Hon. M.J. Stewart expressed the pleasure which it afforded himself and Mrs. Stewart to be present during the competition, and at the same time congratulated Mr. Grierson on his success in winning the Stanley Cup with such a creditable score. It would not be proper to bring this report to a conclusion without mentioning the highly efficient services rendered by the markers. There is no doubt that these contributed in no small measure to the success of the day.

A list of the prize winners of the above competition will be published in Friday's ("Penguin").

UNUSUAL ACCIDENT.

Copenhagen : An unusual accident, the after effects of which are not too serious but may take some time to eradicate, occurred here on Monday when the four-year-old daughter of a local ink manufacturer fell into a bath containing one hundred gallons of ink.

The child was successfully fished out and appeared none the worse for her inky bath but since her whole body is stained deep blue-black it was thought advisable to take her to hospital and let the doctors decide the best method of restoring her original complexion.

WORLD'S CHESS CHAMPIONSHIP.

Amsterdam : The world's chess championship was won on Monday by Dr. Maxeume when he defeated Dr. Alexandri of France the former holder of the championship.

ITALY'S MILITARY PASSENGERSTHROUGH THE SUEZ CANAL.

London : 56 Italian ships bound for Abyssinia carrying over 38,000 troops passed through the Suez Canal during November making a total of Italy's military passengers through the canal this year over 300,000, with a cash payment to the Canal Company for the year of one and a quarter million pounds.

The Editor,  
"Penguin"

Sir,

I think the following account of a remarkable score of 103 out of a possible of 105, obtained on the Rifle Range last Saturday the 14th December, by Pte. H.H. Sedgwick, may interest shooting enthusiasts and other readers.

Pte. Sedgwick commenced shooting at the 200 yards range with a strange rifle which was found most unsatisfactory and was discarded in favour of a rifle kindly offered by Lieut. Fleuret. With this new rifle at 500 yards he scored 34 and at 600 yards a possible of 35, after which he was persuaded by other competitors to return to the 200 yards range to complete his score with the one rifle and there "piled up" a further 34, making the grand total of 103 which constitutes a rifle record for the Falkland Islands.

In congratulating Pte. Sedgwick on his splendid achievement one is amazed at the remarkable stage to which rifle shooting in this Colony has advanced.

Below is the detailed range score of this record performance.

200 yards	4.5.5.5.5.5.5.	-	34.

WEST STORE CHIT CHAT.

Tired after a day in the field,  
it's good to relax over  
a glass of **JOHNNIE WALKER**.  
In this rare old whisky there's  
a kindly comfort which comes from  
its age and long keeping. As  
soon as you lift the glass to  
your lips, the bouquet makes  
its fragrance known. And when  
you taste this traditional spirit  
of the Highlands, you realise  
you are drinking whisky of unusual  
merit.

He said to me : "I GOT BOWLED AND CAME OUT FOR A DUCK..."

I said to him : "I GOT BORED AND CAME OUT FOR A JOHNNIE WALKER..."

SIR SAMUEL HOARERETIRING SPEECH.

The House of Commons was crowded in all parts this afternoon in anticipation of a statement by Sir Samuel Hoare, who last night resigned the Foreign Secretaryship and of debate on labour party's motion condemning the Paris peace proposals.

The Prince of Wales occupied the seat over the clock and foreign representatives and distinguished strangers filled the galleries.

Sir Samuel Hoare who was warmly received rose immediately after questions. He began with allusion to misfortune that bodily accident added to bodily weariness, had laid him aside when he should have been explaining the position to his colleagues and to the country, he continued "Ever since I have been at the Foreign Office I have been obsessed with the urgent necessity of doing everything in my power to prevent European conflagration and no less urgent duty of doing everything to prevent an isolated war between Great Britain and Italy.

When the general election came to an end, war had already been in progress some weeks. We had done our best to prevent this outbreak. I myself had done everything in my power to mobilise world opinion against war. In spite of our efforts war had broken out and every day it continued it involved the world in graver and more dangerous situation. There were evil reactions everywhere - in the east as well as in the west, in China, Egypt and in Europe. In view of these facts I did everything in my power to make settlement possible whilst loyally continuing the policy of sanctions."

The House again cheered Sir Samuel Hoare on the conclusion of his speech after which he left the House.

Rome : Expectation that the Pope would speak on the Abyssinian situation when he addressed a secret consistory of twenty-two cardinals was falsified.

He declared in so much uncertainty of events there was a danger that his words would be incorrectly understood or openly distorted "in any case all that could legitimately be expected of us in favour of truth, justice and charity has already been made known."

PHILIPPINES INDEPENDENCE.

New York : A prominent Filipino newspaper owner Romulo stated that submarines and aeroplanes will form the main defence of the Philippines under self-government but it is hoped to establish rapprochement with Japan which is the only source of concern to the islands.

Members of the United States Government party who returned from Manila considered it probable that the Philippines would soon weary of independence and ask the United States to continue protectorate with the suggestion from Idaho Senator Burke that Britain might take them over if the United States declined.

TEN KILLED AND FIFTEEN WOUNDED.

Peking : Japanese military reinforcements are expected following the biggest student demonstration in the city's history when 5,000 processionists registered a protest against the autonomy movement and Japanese aggression.

The police fired over the demonstrators' heads, ten being killed and fifteen wounded. The processions included American students who carried banners with anti-Japanese slogans in defiance of the police and were joined by others from outside universities.

Firemen failed to deter the students with hose play and were themselves turned back by volleys of stones.

Meanwhile Japanese military conferences are proceeding at Peking and Tientsin seeking the application of strong measures following the recent warning to the Northern Government forbidding such outbreaks and it is felt this last extremely provocative incident will provide an excuse for large scale operations.

WEST STORE CHIT CHAT.

THE "WEST STORE" AND "JOHNNIE WALKER"  
COMBINE

in wishing all their clients a VERY HAPPY CHRISTMAS and  
 a joyous and prosperous NEW YEAR.

NOTICE.

The Company's Stores will be closed from Wednesday 25th to Friday 27th. They will re-open at 8.30 a.m. on SATURDAY the 28th.

We heartily thank all our clients for their patronage during this year, and trust that our efforts to give universal satisfaction have met with success.

We hope the New Year will prove to be one of increased prices for the Colony's products - wool, skins, tallow, seal oil, etc. For our part, we will spare no effort to aid general prosperity by keeping our prices as low as is consistent with the good quality of the stores we sell.

One word more:- SHOP EARLY; SHOP COMFORTABLY; SHOP AT THE WEST STORE.

Something rather EXTRA SPECIAL, in the way of Christmas Fare:- "Hunters' roast Turkey and Ham roll; in 3-lb tins. 4/6 per tin. (This is just what is required for large parties, and for the cold meals that one goes in for during the Xmas and Race-week).

THE FALKLAND ISLANDS COMPANY LIMITED.

STORES DEPARTMENT.

NOTICE.

THE PUBLIC BATHS WILL BE OPEN DURING CHRISTMAS WEEK AS FOLLOWS :-

Tuesday, 24th Dec. From 2 to 10 p.m.  
 Wednesday, 25th " (Closed).  
 Thursday, 26th " From 5 to 8 p.m.  
 Friday, 27th " From 5 to 8 p.m.  
 Saturday, 28th " From 2 to 10 p.m.

ECLIPSE OF THE SUN.

On Christmas Day there will be an annular eclipse of the Sun visible in the Falkland Islands.

The eclipse will commence at 2.47 p.m. and, at first, will be seen best through a piece of coloured or smoked glass.

The word "Annular" means "Like a ring" and is used on this occasion because in the vicinity of the South Pole where the eclipse is perfect the moon appears like a dark halfpenny lying on a bright penny.

In the Falkland Islands the eclipse is not complete for the lower edge of the sun will remain uncovered whilst the upper edge will be covered.

STANLEY SPORTS ASSOCIATION.

The Race Course will be open for the purpose of training on Christmas Day from 3.0 to 6.0 p.m. All horses before going down the course must be entered in at least one race.

Starters are requested to be in attendance to operate the starting gates.

NEW FOREIGN SECRETARY.

Mr. Anthony Eden has been appointed Foreign Secretary in succession to Sir Samuel Hoare.

### Notice.

The committee of the Bisley Fund Sweepstake wish to inform supporters that, as this week being Christmas Sports Week, the percentage (namely 7½%) will be given to the Stanley Sports Association.

### WAR NEWS.

Addis Ababa : Official reports of the Takazza river engagement, received by aeroplane from Dessi, shows that the Italian defeat is of greater importance than first thought.

The Abyssinians captured ten tanks, 28 machine guns, 2 lorries, automobiles and seven white prisoners - while the Italians killed numbered 150 whites, 200 natives, with large bodies later surrendering.

The Italians are unable to use bombing planes for fear of destroying their own forces.

The Abyssinian gains have been consolidated, and mountain forces are advancing on two sides upon Adowa, while Italian Makale outposts are already being harassed.

### RUGBY.

New Zealand suffered the first international defeat in their tour at Cardiff on Saturday, being beaten by Wales thirteen points to twelve points.

London : Dense fog yesterday, added to traffic difficulties, which in many parts of the country, especially in the north of England, has become acute owing to icebound road conditions. The fog extended over a wide area around London and visibility in the outer districts was very restricted. Snow is general in Scotland, and in the northern counties there have been considerable falls. Skating is general in the fen and lake district. There is little indication of any immediate change in conditions, and with wintry weather established over such a large area, there seems every prospect of a cold Christmas.

### THE COUNCIL OF CHRIST CHURCH

CATHEDRAL wishes to sell Church House, which is a commodious well-built, newly decorated house, facing Battle Square. It has indoor sanitation, bath, hot-water service. Inspection at any time by application to the Dean-elect who is in residence there.

The price is £1,000 cash or terms (£250 deposit.)

### Baptisms :

Alice Mary Biggs at Goose Green 16th Dec., Terence William White at Fort Stephens 17th Dec., Betty Morrison at Spring Point 18th Dec., and Bernard Stanley Davis at Saunders Island 20th Dec..

### THE KING'S BROADCAST

#### TO HIS EMPIRE.

The peak of Yuletide will undoubtedly be in the King's world wide broadcast from Sandringham where with the Queen and their two granddaughters Princess Elizabeth and Margret Rose the British spirit of Christmas family celebration be maintained.

THE GOVERNMENT SCHOOL ANNUAL PRIZEGIVING.

Although the weather was extremely bad, between 400 and 500 people were present on Friday evening for the annual prizegiving. After a splendid programme of items by the pupils, everyone of which received enthusiastic applause from the audience, His Excellency the Governor distributed the prizes and afterwards addressed the gathering as follows:

"In the first place I would like to take this opportunity of congratulating Mr. Hoare on the recent decoration which His Majesty the King has been pleased to confer on him after twenty years service, namely the M.B.E., and I feel sure that everybody will agree that this honour is well deserved. (Applause).

In continuing His Excellency said how thoroughly he had enjoyed the whole programme and he had no doubt that everybody considered the teachers and the children had done credit to the school (Applause). At this stage His Excellency referred to the fact that Miss Newing was leaving the school that day and he expressed his regrets that her valuable services would no longer be available to the school (Applause).

Turning to the parents he remarked on the pride they must feel in their children and expressed the earnest hope that they would support the Medical Department in every way in the efforts now being made to establish the health of the children on a sound basis.

His Excellency then impressed upon the children the responsibility that would be theirs in the years to come to maintain the reputation of the Colony as the most loyal and law abiding part of the British Empire.

In conclusion His Excellency said that he had attended many similar functions but that he had never seen one better carried out.

Mr. Hoare in reply thanked His Excellency for the kind things he had said about the performance and also thanked the audience for turning up in such large numbers in bad weather to support the children's annual show. Mr Hoare also expressed his appreciation of Miss Newing's work for the school and was sure that she would have everybody's best wishes for her future happiness.

The proceedings then terminated with the singing of "God Save The King".

The list of pupils winning prizes will be published in our next issue.

FRIDAY'S UNPLEASANT WEATHER.

It was pleasant to awake on Saturday morning to find the sun with us once more and our only hope is that it will remain so until after Christmas. All day Friday a very high wind was experienced which at one period reached a velocity of 70 miles per hour. Early in the afternoon rain began to fall and it was naturally thought that with the coming of rain the high wind would abate, but on the contrary the wind and seas increased in violence.

During the gale several vessels in the harbour broke adrift and on Saturday morning it was found that the schooner "Desire" and also the Falkland Islands Company's lighter "Capricorn" (which is over 78 years old) had gone ashore at the East end of the harbour. In many places roofs, fences and gardens were damaged.

-----

The rainfall on Friday last was .39 inch.

DEFENCE FORCE ANNUAL PRIZE SHOOT.

In excellent weather this annual event was shot off on Sunday, 22nd December. Thirty-six members took part in the various competitions. Great keenness was shown by all. Eight teams entered for the Falling plate competition. The scores returned were not so good as last year this was partly due to a gusty cross wind which upset well laid calculations. A Magpie was often recorded when a Bull was expected. Major the Hon. M.J. Stewart, Commanding Officer visited the range whilst the Snapshooting competition was in progress, on being invited to have a shoot at the "Bobbing Mannie", he returned a creditable score.

The Committee responsible for conducting the shoot was :

THE FALKLAND ISLANDS FOX AND FUR COMPANY IS PROGRESSING.

By the big demand for shares in the Falkland Islands Fox and Fur Company we can see that the people in the Falkland Islands already know that no other live-stock enterprise pays larger returns for money invested than the captivity-production of silver foxes and it stands to reason :

Where in the world can we buy the meat, which is 90% of the foxes' food, so cheap as here in these Islands ?

Where in the world have we got such a suitable climate, cold all the year round, to grow the lightest, softest, thickest, warmest and most lustrous of fur - the fur worth almost its weight in gold ?

Where in the world can every-body, with only a small outlay of capital, rear a few pairs of silver foxes in his backyard and make a good living ?

As there is no outlet of surplus sheep, fox farming will be the future sideline of the sheepfarming.

People interested please visit the Falkland Islands Company's store, where they can see five wonderful furs, raised in Patagonia, in a similar climate to the Falklands.

There is the king of all furs, the silver fox; then you see the typical Canadian red fox; and last but not least three splendid crosses between silver and red.

Anybody interested in our proposition please call at the Ship Hotel, and deposit the money in the Government Savings Bank for the Falkland Islands Fox and Fur Company in formation.

BARRACOUTA.

The Scouts and also Mr. J. Barnes and Mr. D. O'Sullivan have cleaned up the name Barracouta which is worked in stone on the north slope of the harbour and now it stands out more prominently perhaps even than when it was first laid in 1896.

THE XMAS HOLIDAYS.

The weather was quite favourable for the first day of the Stanley Sports and although there was a cold wind, a good attendance included His Excellency the Governor who watched the races with the keenest interest.

After the race for the Governor's Cup His Excellency led in the winner "Bambina" and congratulated the jockey Mr R. Hutchinson on the race.

In the evening the first dance of the holidays was held with great success the Hall being filled to overflowing.

RETURN OF THE FRENCH CRUISER AND TRAINING

SHIP "JEANNE D'ARC."

At 2.0 p.m. on Friday the 27th the French cruiser Jeanne d'Arc arrived at Stanley. It will be remembered that the vessel visited Stanley in December 1931 just over 4 years ago. The cruiser is commanded by Captain P. Latham who made his official call on His Excellency the Governor during the afternoon; he was met at the Government jetty by Lt. A.I. Fleuret His Excellency's A.D.C. and taken to Government House. Later His Excellency accompanied by his A.D.C. returned the call on the Jeanne d'Arc and on his departure from the ship a salute of seventeen guns was fired.

In the evening the Captain and officers were invited to attend the Sports Association official dance this invitation being accepted.

On Friday evening the S.S.A. official dance was held and was honoured by the presence of His Excellency the Governor who was met at the hall by the Hon. N. Keith Cameron, Chairman of the Association.

The hall was packed for this very popular feature of the Annual sports and holidays and it appeared that the majority of the dancers seemed quite willing to carry on until 3 or 4.0 a.m.

A large number of officers and cadets from the French cruiser attended and thoroughly enjoyed the dance.

We are informed that the French cruiser Jeanne d'Arc is sailing to-morrow for Buenos Aires.

WAR NEWS.

Addis Ababa : On semi-official authority it is reported that the Emperor's terms for peace are a complete withdrawal of Italian forces, indemnity payment by Italy, recognition by Abyssinia as sovereign state, administrative spheres excluding Italians.

The battle front reports are contradictory with the Abyssinians claiming the route of ourpost of Tembien and the capture of machine guns which Rome denies while in the south there were skirmishes near Dolo with Abyssinians. repulsed.

London : Mr Anthony Eden will not be back at the Foreign Office until next week and it is not anticipated in London that any important developments in connection with the international situations will occur within the next week or two. It is understood that the Governments of Jugo-Slavia, Greece and Turkey have replied to enquiries addressed to them regarding their willingness to implement their obligations under Article sixteen of the Covenant in event of unprovoked attack on Great Britain as one of the Covenant enforcing states. Enquiries of a similar kind were made in Paris some time ago and the French Government sent a note affirming its intention to stand by the League obligations, what is in question has been out-pointed.

THE SUEZ CANAL.

The Suez Canal is one of the vital links in the trading activities of the world, for it provides a short cut between the great manufacturing and industrial countries of Europe and the crowded food-producing lands of south-eastern Asia.

A hundred miles long

The modern canal was constructed by a French company under the direction of Ferdinand de Lesseps, between 1859 and 1869. The waterway is about 100 miles in length and is now twenty-nine feet deep. This is as deep as most of the big harbours of the world on the routes which it serves and so there is no advantage in making it deeper. It is 200 feet in width and wider at curves, but it is necessary for one ship to tie up to the side while being passed by another.

The lakes

For the greater part of the route the canal is cut in soft, sandy soil and links up a number of salt lagoons through which a channel has been dredged. Owing to the soft nature of the banks, the speed of vessels using the canal is strictly limited, the fastest passage allowed taking 16 hours. At the northern end is Port Said, a great international port with docks, warehouses, oil stores and re-fitting yards. At the southern end is Suez. There are no locks, as at Panama, since both the Mediterranean and Red Sea are practically tideless, with approximately the same water level.

Although the canal is a French enterprise, the British Government holds seven-sixteenths of the shares, which it bought from the Khedive of Egypt in 1875. The upkeep of the canal is provided for by charges made upon all ships using it. These charges, which must be paid in advance, are 1/6 per ton for every ship and 13/4 for every passenger each

goal that was very similar to the visitors' second point. The winning goal came a few moments from the end when CREECE was very unfortunate in being unable to get back into goal soon enough after running out to clear from the edge of the penalty area. Result : Jeanne d'Arc 3, Defence Force 2. It was generally agreed that the match was one of the best seen in Stanley for some considerable time. Both sides served up good football, and were evenly matched. Indeed, a draw would have been a fitting result. The home team were unlucky to lose SULIVAN through injury after half-time, and were thus reduced to ten men for the bulk of the second half.
