March, 62.

To: Superintendent of Works,
From: The Colonial Secretary,

STANLEY.

Copy to: Supt. Power & Electrical

The following sites have to be selected -

- (a) Site for new storage tank
- (b) Site for P.D workshops and garages

2. The former should be done in consultation with SPED. I gather that the most likely site will involve abandoning the present dumping ground. This will involve choosing a site for a new dumping ground. The Chairman Town Council will have to be consulted about this.

3. Please let me know if you have any ideas on the above points.

Hon. C.S.,

It is possible that a better and cheaper site for the erection of the oil storage tanks might be at the R.N. Fuel Depot at the Camber. The Gupt. P/M and I inspected yesterday afternoon. However before any definite plans could be drawn up it would be necessary to obtain Admiralty permission for the scheme, I have accordingly drafted following telegram to the Secretary of State for your approval;

Secretary of State.

Government propose erecting two 1,500 ton capacity diesel oil storage tanks for fuelling BAC vessels and for Government needs. Stop Ideal site would be at R.N. Fuel Depot approximately 120 feet north of Camber jetty or near about stop C.E in C Admiralty plan R.N. Fuel Depot number 64/27 marked copy at O.C.W. refers stop Grateful you telegraph at earliest Admiralty's views.

Governor.

Fuel Tanks

I am directed to inform you that it has been decided that the new fuel tanks are to be erected on site above the Power Station.

2. The preparation of the site is the most urgent consideration and this can now proceed.

*Site is prepared
in full action ready
by us
11 Oct 62.*
